A Movement Towards Disarmament SOLUTION IRISH DIFFICULTY EXPECTED BY BRITISH NEWSPAPERS

Wonderful New Gun to Hurl Shell of Five Tons Distance of 300 Miles Tremendous Velocity, Little Noise

NEW YORK, July 6.—Scientists are discussing the remarkable qualities of a new gun which Dr. Hutchison, chief engineer for Thomas Edison, declares may be developed to hurl a projectile of five tons' weight a distance of from two hundred to three hundred miles at a velocity of from one to five miles a second. A demonstration with a miniature weapon gives a detonation no greater than the click of a cash register. An eight inch barrel is used and the projectile may be stopped in sheet of steel with the percussion of a trolley car.

ONTARIO FIRE STILL RAGES

Two Men Lose Lives and Much
Timber and Lumber Burned.
CORALY, July 6.—The big forest fire is still raging in northern Ontario. Two men are dead as far as is yet known and millions of dollars worth of timber and prepared lumber has been destroyed. Several towns were menaced, among them being Timmins, Ingonis Falls, Hearst and Englehart. The pulp wood camp at Millwood was destroyed. It is thought that the fire was started by lightning. It has now reached the railway and a hundred men are fighting it. It was at its worst yesterday.

AMUNDSEN IS IN SEATTLE

Will Take a Year to Prepare for
Further Attempts on the
North Pole.
SEATTLE, July 6.—Roald Amundsen, the discoverer of the South Pole, who arrived from Alaska last night, will remain here a year preparing for another daring effort to drift to the north pole with the ice pack. Amundsen is a Norwegian who after graduating from the University at Christiania went to sea in sealing and whaling ships to gain experience and in 1897 joined the Gerliche expedition. In 1906 he navigated the North West Passage and in 1911 he set out ahead of Capt. Scott to try to reach the South Pole. It was six years later when news reached this country that he had reached the pole. Since that time Amundsen has been planning to reach the North Pole by drifting across the place in the ice. He has already made several attempts.

SIR SAM HUGHES IS SLIGHTLY IMPROVED

LINDSAY, Ont., July 6.—General Sir Sam Hughes, who has been ill for some months, is reported slightly improved. He had to have another transfusion of blood yesterday. His condition is still critical.

STORMY SESSION.

LONDON, July 6.—There was a stormy session of the House of Commons here last night when the second reading of the Act repealing the Agricultural Act was passed.

PREMIERS POSTPONE DISCUSSION

Wait for Disarmament Conference Exchange of Views.
LONDON, July 6.—(Noon)—The conference of imperial premiers has decided to postpone consideration of naval questions pending an exchange of views between the United States and Great Britain and Japan relative to a disarmament conference. It is semi-officially stated here today. The London papers believe this indicates that England may take the initiative in an effort to bring about a discussion of armament limitation.

RAILWAYMEN MAY VOTE ON REDUCTIONS

Chairmen of Men's Unions Refuse to Take Responsibility of Accepting.
CHICAGO, July 6.—The general chairman of five leading railway employees unions today declined to shoulder the responsibility for accepting wage reductions which went into effect on July 1. They decided to refer the whole matter to the membership vote not later than September 1.

FIGHT BETWEEN DEMPSEY AND JOHNSON IS ASKED—RICKARD DRAWS COLOR LINE IN GAME

LOS ANGELES, July 6.—Capt. McGow, a wealthy club man and British airman has telegraphed Manager Kearns asking for a bout between Dempsey and Jack Johnson, half of the receipts to go to the fighters and half to the American War Veterans who authorize the offer.
Draws Color Line.
NEW YORK, July 6.—Tex Rickard says he will have nothing to do with boxing matches between Johnson and any other man. He draws the color line. A Dempsey-Wills match would renew the old racial feelings and a Wills-Johnson match would be injurious to the game. Johnson's record precludes his appearing in a Rickard bout. It would give the reformers too much ammunition.
Bill Brennan is the only heavyweight rival of Dempsey, the promoter believes. Gibbons is too light but would make a great match for Carpentier.
Rickard discourages guarantees. He says the promoters have been held up by the boxers long enough and the fighters must henceforth share part of the burden.

CONVENTION OF LIBERALS

Gathering Called for July 12 to Form Association for Skeena Riding.

MAY NOMINATE A CANDIDATE THEN

First Public Step Toward Contesting Riding at Forthcoming General Election.
On July 12 there is to be a convention of Liberals of the Skeena Electoral District for the purpose of forming a Skeena District Liberal Association. This association, after it is formed, will decide whether or not it will at once nominate a candidate to contest the riding at the general election, which must take place within the next year or thereabouts.
The chief reason advanced for choosing a candidate at the time of the formation of the district association is that the constituency is so big it is difficult to get the delegates together for a second gathering. Skeena electoral district includes the provincial constituencies of Prince Rupert, Atlin, and Omineca. It extends from the Yukon in the north to Seymour Inlet south of Bella Coola to the south, and from Queen Charlotte Islands to Endako.
Meeting Friday.
In order to prepare for this convention, the local liberals are to hold a meeting on Friday next in the Pattullo block when delegates to the convention will be chosen. Naturally this will be an important meeting as on the choice of delegates hinges somewhat the attitude of Prince Rupert toward the convention and the consequent action in regard to a candidate.
The calling of the convention

AN INTERESTING SCENE AT LAWN FETE.

George Carpentier, Dempsey's challenger, made a wonderful impression in social circles when, dressed in white flannels, he appeared at the Villa Marina, where a fete was being given. He was promptly buttonholed by Miss Sigrid Holmquist, Sweden's Mary Pickford.

Discuss Naval Affairs But Not Settle Them Is Policy of Conference

LONDON, July 6.—The Canadian Press correspondent at the Conference of Premiers of Overseas Dominions says the naval question will not be settled by the premiers at the conference. All questions of defense will be formally introduced and explained preparatory to a resolution declaring in favor of leaving the matter to the Dominion parliaments rather than to the London conference. This is in line with the former declarations of some of the premiers against any infringement of Dominion rights by an imperial conference.
Cheaper communication between various parts of the Empire was the chief topic of discussion at the conference at the last session. Premier Meighen objected to the fact that there was too little news of the Dominions in the British newspapers.

was decided upon at the annual meeting of the Prince Rupert Liberal Association on March 29. Following this a meeting was held on April 27 when Hon. T. D. Pattullo, A. M. Manson, H. F. Kergin, W. E. Williams and F. G. Dawson were appointed a committee to call the convention.
Election in Few Months.
The circular sent out by them explains the action taken and adds that following the census and an election is likely to be held within the next six or eight months. It urges the calling of meetings of local organizations and the appointing of delegates or the sending of proxies.
The basis of representation to the convention is one vote for each local association and one additional vote for each hundred voters in the district, registered prior to the last provincial election.
W. E. Williams is president of the local association here and F. G. Dawson, secretary.

General Meeting Prince Rupert Liberal Association

will be held in
Liberal Rooms, Pattullo Block, 2nd Ave.,
on
Friday, 8th July, at 8 p.m.
for the purpose of choosing delegates to attend
Liberal Convention.

Expect Solution of Irish Difficulties in the Conference

LONDON, July 6.—The Times this morning says the Sinn Fein may ask Lloyd George for a conference called by the King and presided over by one of the overseas premiers instead of the British Premier. An official truce rather than a cessation of hostilities is considered likely, with the Sinn Fein.
No reprisals by crown forces have been reported in the last few days. Sir James Craig, the Ulster Premier, is on his way to London.
General Smuts has returned from Ireland after conferring with De Valera and other leaders and reported to Lloyd George, Premier Craig and Earl Middleton. The officials won't talk on Irish affairs but there is much optimism and it is generally expected that a solution may be in sight.

CHOLERA IN RUSSIA IS SPREADING

STOCKHOLM, July 6.—Six thousand cases of Asiatic Cholera have been reported in European Russia up to a week ago and the disease is spreading rapidly in the irons heat by refugees from the famine districts. The condition of the country makes it difficult to fight the scourge.

BRITISH FLEET ON THE WAY TO CONSTANTINOPLE

MALTA, July 6.—Virtually the entire British Mediterranean fleet is enroute to Constantinople where the situation is viewed with alarm. It is reported that the British military reinforcements are also going from England to the Black Sea.

PROPOSED CHANGE G. W. V. A. INTO A FRATERNAL BODY

OTTAWA, July 6.—A movement is under way to change the Great War Veterans' Association into a fraternal organization. It is proposed to offer a prize of \$500 for the best ritual. The scheme will be submitted to the fall convention of the Association.

MEN SHOT DEAD AND BODIES LEFT PILED IN A HEAP ON ROAD

BELFAST, July 6.—Five men in the Newry district were this morning taken from their homes and shot dead, their bodies being left on the roadside in a heap. Two of the dead were a brother and son of a former constable.

HALF MILLION LOSS IN FIRE AT GUELPH

Entire Plant of Robert Stewart Co. and Seven Other Buildings Destroyed.
GUELPH, July 6.—Fire this morning caused \$500,000 damage when the entire plant of the Robert Stewart Co. and seven other buildings were destroyed.

ONTARIO HEAT WAVE STILL ON

Much Damage is Being Done to
Crops—Fruit Ripens so Fast
Cannot Be Picked.
TORONTO, July 6.—There is no relief in sight from the Ontario heat wave of the past few days. Thousands of people are sleeping in the parks and at the bathing places. Swimmers stay in the water throughout the night. Crops are seriously damaged and the fruit has ripened so fast that in many places it cannot be picked.

HIGH OFFICER IS SUSTAINED

Resolution Remove J. M. Thomas
Leadership English Railways Defeated.

NEWCASTLE, July 6.—A resolution to remove J. M. Thomas from the supreme leadership of the Railwaymen's Union was defeated at the conference being held here. The executive introduced the resolution following the defeat of which another motion confirming the appointment of Mr. Thomas was carried by a vote of 57 to 17.

LEADING VICTORIA BUSINESS MAN DEAD

VICTORIA, July 6.—Councillor John James Shalcross, of Oak Bay, a leading Victoria merchant died here today, aged 63. He was one of the city's most prominent business men and has held most of the leading positions in business circles such as the presidency of the Board of Trade, P. G. Shalcross, of Vancouver, is a brother.

REPORTED TROTSKY THROWN INTO PRISON

PARIS, July 6.—Unconfirmed reports say that Leon Trotsky has been imprisoned by Premier Lenin following the Third International Congress at Moscow.

CONTRACTS LET FOR SUPPLIES

Successful Tenderers on Work For Schools are Announced.

There were several contracts let at last night's meeting of the school board for various work in connection with the reorganization of the schools after the opening of the full session.

There were three tenders for plumbing in the King Edward School, the successful bidder being Smith & Mallet at a figure of \$590. Two other tenders were received: Steen & Longwill, \$750, and A. J. Mallet, \$629.

For the supplying of domestic science equipment at the Hays-Cove School, E. H. Shockley was the lowest bidder at \$925 and he received the contract. The Wallace Shipyards submitted a tender for \$1,667 and J. L. Blain, \$1,108.

J. L. Blain was awarded the contract for repairs and alterations at the King Edward School, his tender being \$790. Other tenders were from E. H. Shockley, \$800, and J. Nelson, \$835.50.

Equipment for the chemical room in connection with the high school at the King Edward School will be supplied by E. H. Shockley at a cost of \$269. Other tenders were from Gus Selvin, \$303.50; Wallace Shipyards, \$752, and J. L. Blain, \$365.

20,000 PELTS AT FUR SALE

WINNIPEG, July 6.—Approximately 20,000 pelts were sold by auction in the Royal Alexandra hotel, at the third fur sale conducted by the Winnipeg Fur Auction Sales Company. Bidding was spirited all morning, more than 200 buyers from various parts of Canada and the United States anxiously endeavoring to secure choice lots of prime skins. A feature of the session was a detached sale of donated pelts, sold for the benefit of the Jewish Orphanage fund. Some skins were sold at ridiculously low prices at this sale, but were resold time and time again. Others brought prices out of proportion to their worth.

A marked feature of this sale was the strong demand for prime spring rat skins, prices for several lots varying between \$1.40 and \$2.01, the latter price being the highest of the morning and being offered by Horace Chevrier local furrier.

In marked contrast to the good prices received for rat skins was the average price of \$20 for beaver, bidding dragging at times on lots of beaver. Ontario black beaver was somewhat stronger, two lots of 24 skins each, being picked up by Mr. Chevrier at \$30 a skin. A white beaver single skin brought \$39. One of the cheapest lots was a lot consisting of four beaver, one mink and one weasel, which was knocked down for \$10.75.

FISH ARRIVALS

Fish arrivals this morning were not very large. There were only four boats in, the largest of which was the Helgoland with 65,000 pounds which was sold to the Canadian Fish and Cold Storage Co. at 8c and 4c. The Yellowstone sold 10,000 pounds to the Canadian Fish and Cold Storage Co. at 8.5c and 5c. The Alliance sold 5,000 pounds to the Allin Fisheries Co. at 9c and 5c, and the Sunrise, 6,000 pounds, to the Pacific Fisheries at 9.7c and 5c.

PILES

Do not suffer another day with Itching, Bleeding, or Painful Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. BRINGING UP FATHER

CHIEF ENGINEER OF PRINCE RUPERT HERE WITH BRIDE TODAY

Mr. and Mrs. William Baillie, who were married in Vancouver last Monday afternoon, reached the city this morning on the Prince Rupert and are making the round trip on the vessel for their honeymoon. Today they are being greeted by their many friends in the city. Mr. Baillie is the popular chief engineer on the Prince Rupert and Mrs. Baillie, nee Miss Ida Whiteside, was formerly on the office staff of the Vancouver General Hospital. On their return south they will take up their residence in Grandview, Vancouver.

The wedding took place at 4:30 o'clock on Monday afternoon in Christ Church, Vancouver. The ceremony was a quiet one but there were a number of friends present as well as the immediate relatives of the bride and groom. Miss Gladys Whiteside, sister of the bride, was bridesmaid and James Baillie, brother of the groom, was best man. Just before the Prince Rupert left Vancouver on Monday evening a presentation of a handsome community silver tea set, tray and cake dish was made by Captain Roberson on behalf of the officers of the Grand Trunk Pacific fleet.

FAREWELL PARTY

A most enjoyable time was spent last evening at the home of Mr. and Mrs. Roy Campbell when a number gathered to say good bye to their friends who are leaving for the islands. Cards and Music passed the time pleasantly and dainty refreshments were served during the evening. Among the guests were Mr. and Mrs. Ives, Miss Graham, Miss Woods, Mrs. Thompson, Mrs. Holmes, and Messrs. Finn, Baek, Walsh, J. F. Smith, Jack Smith, Mac Smith, Parks and Strom.

The Man in the Moon SAYS:

IT must have been a female reporter who wrote that story about women applying for the job of mule driving as they had had more experience than men.

SOME communities sell their lands, their climate, their scenery and even their good roads, but no community ever sells its mosquitoes, its high winds, its heavy rains, or its bull flies.

IT used to be that a permanent cook could be secured by marrying her, but even that is not effective these days of cheap and easy divorces.

BUYING a boat is something like buying a horse, all the good points are exhibited but the spavins, the heaves and the other defects are carefully hidden.

AMERICANS in the state of Washington visit Vancouver to get a drink of something hard. Alaskans might come to Prince Rupert for a similar purpose but there is an easier way.

IRELAND wins again, judging by the names of the new appointees to positions on the local public school teaching staff.

THE Edmonton Bulletin is taking on new life under the new ownership. Hon. Frank Oliver will hardly recognize the paper dressed in its big headlines.

"A SLAVE OF VANITY" AT THE WESTHOLME

Screen Story Starring Pauline Frederick is Dramatic in Extreme.

The story of "A Slave of Vanity" starring Pauline Frederick at the Westholme tonight, tells of a young widow whose husband left her his entire estate on the condition that she remain single for the rest of her life. All goes well until a young man of great talent but small income crosses her path. The widow, Iris, finds herself in love with the straightforward fellow but remembers the stipulation made in her husband's will. She has always been used to luxury and she is afraid to step into the atmosphere of a humble home.

The young man goes away to work a ranch given him by an uncle. Iris promises to wait until he has made good and returns for her. While he is gone her fortune is swept away. She is pursued by a wealthy London banker who is really in love with her and wishes to marry her. She will not marry the banker but he places a check book at her disposal. An entanglement follows. Her sweetheart returns and finds the banker in her apartment.

Just what follows is the punch of the picture. It is one of the best stories that has ever reached the screen and has made moving picture history.

"JUST OUTSIDE THE DOOR" AT EMPRESS

"Just Outside the Door" at the Empress tonight, is a story of a sister's supreme sacrifice for her weak brother, a story of hate, pride and love that moves swiftly along to a stirring climax. Edith Hallor as Madge Pickton, welfare worker, has just the sort of a role that her temperament and beauty demand.

Thrown by her work with the scion of an aristocratic family, she falls in love with him. His family tries to discourage the match, and to this end efforts are made to compromise Madge. The girl goes to the millionaire mill owner in the effort to clear her brother from forgery, and the capitalist there makes advances that drive her in terror from him. How Madge flees to the house of her fiancé for shelter and how her brother, caught in the act of robbery, is saved, make a wonderfully interesting drama.

STEFANSSON ARCTIC EXPLORATION COMPANY HAS BEEN INCORPORATED

Commercial developments of the resources of the Arctic areas, with wide powers to carry on the industries of fishing, mining, lumbering, etc., is the object of the Stefansson Arctic Exploration and Development Company, Limited, just incorporated under provincial charter and at the head of which is Vilhjalmur Stefansson, the noted Canadian explorer. The company has an authorized capital of \$100,000, divided into 1,000 shares. Its head office will be in Vancouver. Extensive powers are granted to the company for exploration, commercial enterprises and industrial development.

H. Letourneau is proceeding with the demolition of the old fire hall on Fulton Street which he purchased from the city for \$40,

MARKETING THIS YEAR'S WHEAT CROP

The marketing conditions for Canadian wheat this year will be unusual, says the Royal Bank Financial Review for July. The United States market is effectively closed to Canada by the new Emergency Tariff, which imposes a duty of 35 cents a bushel—at present prices about 18 per cent ad valorem—on imports of Canadian wheat. The effect, however, will not be as harmful to Canada as may at first appear. With the exception of last year (when, owing to unusual conditions, we exported to the United States some 10,000,000 bushels, Canada's wheat exports to the United States have averaged only about 1,000,000 to 5,000,000 bushels yearly—about 2 per cent of our average crop. The wheat market is world wide, and owing to the great mobility of wheat, if a supply free for export cannot go to one country, it will be delivered to another.

Think of all the prominent firms whose products you see in the stores and ten chances to one every firm will be a daily newspaper advertiser. They know it pays.

MINERAL ACT.

EXPECT FIGHT FOR NEGRO CHAMPIONSHIP JOHNSON VS. WILLS

LEAVENWORTH, July 6.—Jack Johnson will meet Harry Wells for the negro championship at Jersey City on August 29. Johnson has been offered \$30,000 or an option of the percentage of the gross receipts.

AUSTRALIANS BEAT ENGLAND AT CRICKET

Take Three Games Straight from Old Country Retaining Championship.

LEEDS, England, July 6.—The big event of the cricket season in England during the past week has been the series of three-day matches between a representative English team and a visiting eleven of Australians.

The third match was completed yesterday when Australia won her third consecutive game against the home eleven. This means that Australia retains the championship for another year which was won from England in Australia last year.

FLAG DAY TO BE OBSERVED

Elks Arranging Monster Picnic for August 3 at Athletic Grounds.

Plans are being laid by the local lodge of Elks for the proper celebration of Flag Day in this city on August 3. It is a Wednesday and a monster picnic is being arranged for all the children of Prince Rupert at which there will be juvenile baseball and children's races as well as other means of enjoyment.

A band will lead a procession from the Westholme Theatre to the Athletic Grounds, where a platform will be erected and a short address given on the flag. Flags will be provided for the children and will be admitted to everything free. Growups will pay a small charge for admission.

Chief Vickers has consented to take charge of the races and members of the committee will have charge of the different activities.

In the evening there will be a dance in the auditorium.

MIDGETS DEFEATED FALCONS AT BASEBALL

Second Half of Juvenile League Series Commenced Last Evening.

The Midgets defeated the Falcons by a score of 27 to 17 in last night's Juvenile League game on Seventh Street. Bert Kelly was pitcher for the Midgets and S. Gurvich was catcher. J. McNulty and M. Comadina comprised the Falcons' battery.

The juvenile league standing to date follows:

	W.	L.	Per.
Midgets	6	3	667
Falcons	5	4	556
Cubs	2	6	250

YACHT RACES AT VICTORIA WON BY VANCOUVER DINGHY

VICTORIA, July 6.—Winslow of Vancouver won two races for Dinghy and Kitten boat handicaps in the Pacific International Yachting Association's regatta. Blanchard won the third race. The best time is the third event when Blanchard covered the mile course in 4 minutes 11.47 seconds.

DEMPEY VISITS MOTHER.

NE WYORK, July 6.—Jack Dempsey left for Salt Lake City today to visit his mother.

Buy advertised goods and buy them from the local merchant who advertises.

Sport Chat

With the big Dempsey-Carpentier fight over and the annual baseball games between Prince Rupert and Ketchikan played, local sport fans seem to be short of something exciting to stir their speculations on. This however, will not be long for soon interest will begin to revive in local sport competitions. The city league baseball series is not half over yet and there are good chances for a change to take place in the present appearance of things, although the Sons of Canada have had matters pretty well their own way. Besides this there is the second half of the football season which is about to commence shortly. After their flyer into bigger things, the local boys will have to settle down again now, to their home town sport.

The Sons of Canada surely have been having the run of things, lately. At this time in mid-season they are found leading in both the football and baseball leagues besides having captured the Dominion Day cup. It is now time for the others to have a turn at success and the recent victories of the Sons have made the rivalry even more keen. Although they seem to have the edge pretty well at baseball, they are not so secure at football and there is plenty of time yet for any of the four clubs in the Senior League to emerge on top before the season is ended. In fact, the football clubs all seem to be very evenly matched and every game from now on will be watched with the keenest of interest for any one win or loss may change the whole aspect of affairs.

"I would have liked to have seen Carpentier win but I didn't think he would." That seemed to be about the most common remark to be heard in Prince Rupert on the outcome of the big battle last Saturday. As far as sympathy was concerned, there is no doubt that in this town Carpentier was far and away the favored one but it was with misgivings that a victory for him was hoped for. The result of the big fight did not surprise many people but, nevertheless, there was a good deal of disappointment. That seems to be the feeling all over Canada and it is beginning to look as if Dempsey is one of the most unpopular champions who ever held the belt. Like Jack Johnson, most everyone wanted to see him beaten but no one could be advanced to do the trick. "White hopes" are going to be watched with the keenest of interest until the title is taken away from Dempsey.

It is likely that boxing in Europe and especially in England will be more popular from now on than it has been in the past in an endeavor to produce a world champion. The recent battle between Carpentier and Dempsey brought out an international aspect on the heavy-weight championship that was never before manifested unless it was in Tommy Burns' time. France and Britain are going to try hard from now on to produce a man to defeat Dempsey and it is almost certain that the most of Canadian sympathy will go with the European contender whoever he may be. At the present time there is no one in sight but it does not take a boxer long to come into the limelight.

SWIMMING CLUB HOLDS MEETING

At the meeting of the Swimming club last night outstanding accounts were passed and ordered to be paid and there was some discussion as to the improvements recently made at the Salt Lakes. It was pointed out that the people had subscribed the money to the Swimming Club, but it was thought those who wished to use the dressing rooms should be willing to pay a dollar a year for the privilege by becoming members of the club. The club now has a lease of the premises and control them. All the money received was used for improving the place or in some way encouraging swimming.

The club wished the public to know that everything there was free.

T. D. PATTULLO GIVES REASONS FOR LONG TRIP

Ask the Cigar Clerk to show you a "Lavello" cigar. Try one. Take another. Hand the clerk two bits.

Says There is Need of Proper Information in regard to His Departmental Work.

Discussing his forthcoming visit to England with Lumber Commissioner William Turnbull, Hon. T. D. Pattullo told a press representative in Victoria there were a number of matters of prime importance on which it was necessary to have first hand information. He said:

"A question of primary importance is that of the lumber industry. It may well be said that the lumber industry is a fair barometer of business conditions in the Province generally. I think it is well within the mark to say that at least a third of the Province is dependent upon the lumber industry."

"From the time when I first took charge of the Department of Lands, in which is included the forest service, I have frequently made the statement that the lumber industry will never be upon the basis which it should be until it is stabilized through the medium of permanent and steady export business. Just how much is involved in this statement and the difficulties to be overcome will probably be fully understood only by those engaged in the industry."

"While the function of the Lumber Trade Extension Department is fundamentally educational, yet in close co-operation with the industry and by giving the industry our moral support, we have already been able to be of very considerable assistance in securing business in the past, and I think can be of still greater assistance in the future. Recently, as is well known, an order for ties for the Egyptian railways was placed in this province. This order would not have been placed had it not been for the assistance rendered by the Department. Indications are that, with careful nursing and careful study of conditions, further business may be secured in Egypt."

Increase Export Business.
"For many years, until last year, the export business in relation to the total cut in B. C.

did not exceed between four and five per cent. My opinion is that it should be nearer twenty-five per cent. If we could bring the annual export business up to twenty-five per cent, it would be a greater stabilizer. This can only be brought about by going out after the business, and, in co-operation with the industry, we propose to use every effort to attain this end.

"While in Europe, we will make a special study of conditions there respecting the pulp industry, the closer utilization of wood products, and of the methods adopted in reforestation work. While there also it is proposed to look into the nitrate industry, which industry is carried on on a large scale through the utilization of water power."

Immigration Issue.
"Another matter of primary importance to which it is proposed to give special attention is that of immigration. What we need, and what we must have in British Columbia and in Canada generally, are more people, but it is essential that they be profitably employed. There is an use bringing people into the country only to have them a charge on the Government. At the present time the Department of Agriculture, the Department of Labor, and the Department of Lands are collaborating, with a view to grappling with this question on an intelligent and comprehensive basis. In order to work the more intelligently, it seems to me that we should have very definite information as to the outside viewpoint. Not only should we understand the situation from the inside looking out, but we should also understand it from the outside looking in."

Land Development.
"What we particularly want in B. C. is to develop our agricultural lands. It is a mistake to imagine that the development of agricultural lands in this Province is essentially a poor man's job. For a number of years now we have had a system of pre-emption of lands which, in my judgment, is not working satisfactorily. By far the largest number of the pre-emptions that have been Crown granted are now unoccupied. The late Sir Richard McBride is credited with having said that the pre-emptor was the worst speculator in the Province. While I am not prepared to go this far, I do express the opinion that the pre-emption law has not been the success that was expected of it, and I am fast coming to the conclusion that the putting of lands in the control of any one without any payment whatever is a mistake, and that some reasonable charge should be made. This, however, is a matter which will require very careful consideration before a definite policy is determined upon."

Settlers With Means.
"In giving study to the question of immigration in England, my opinion is that what we require out here is a class of settlers who have some little means to start with. For example, we have a large tract of irrigable lands in the Okanagan in connection with our irrigation project there. It seems to me that we ought to be able to secure a very desirable class of people in Great Britain to take up some of these areas, both with profit to themselves and

MARTIN O'REILLY

Police Inspector Parsons, from Prince George, visited here last week.

The settlers at Mud Creek are taking steps to have a school established there as there are now enough pupils there to have one started.

W. G. Noble-Eowenthal has returned here to make arrangements for the resumption of operations on the Delta mine, Rother de Boule Mountain. Diamond drilling will be done in order to determine the future operations of the company.

Local crop conditions are very favorable this year and weather conditions are almost ideal.

Miss Hazel Cunningham returned from the coast last week after an absence of several months.

Dr. Winch and Miss Hlyth are to represent the Hazelton Hospital at the B.C. Hospital Convention being held this week at Kamloops.
