COAL RESERVES.

The Provincial Government lately did the right thing in passing the order-in-council which passed yesterday. It is a good thing for those who have been anxious to have the coal reserves of the interior opened, and that as quickly as possible. The Daily News has advocated the opening of the reserve, but we do not believe in any reversal of the old system by which the coal could drive some stakes in the coal field and tie it up in such a way that no one else could work it. There should be no restrictions in the handling of rights to handle coal reserves.

The Dominion Government has made very severe restrictions in regard to the staking of lands which belong to the crown. Those restrictions are, in our opinion, often stated, in such a way that they should be removed in regard to both coal and oil. The lease should contain a clause which would make it void unless the conditions are fulfilled. The speculation in the natural resources of the province should not be allowed to interfere with development.

Learn from Experience.

The McBride Government has been severely criticized for allowing the alienation of such a part of the natural resources of the province. The Government will be criticized if it allows a similar course to be followed. To prevent the alienation of coal lands, it is necessary to indefinitely suspend the coal lands so that they can be prospected.

The districts still under restriction are known coal lands. They require no aid from the Government to locate. These lands should be developed. If it is the policy to hold them indefinitely, it is necessary to favor the operators of mines now working, and to make it a bad policy. If, on the other hand, as we believe it will be an effort to develop the coal areas which are reserved and to develop them in the interests of the province as a whole, the policy should be to allow them to be worked.

Coal Expensive.

It is still expensive, and if the opening of new areas will bring down the price to the consumers there should be no delay as possible in getting to work on them.

WIND CAUSED DAMAGE TO TREES IN NIAGARA DISTRICT

CATHERINES, Ont., July 12.—A wind of cyclonic violence struck across Niagara township last night and caused damage to trees and field crops estimated at \$50,000.

Disarmament Conference to Take Place in Autumn and Another on Eastern Problems

LONDON, July 12.—The disarmament conference which is to be held at Washington will not take place until October. Practically speaking, there will be two conferences. The first will be confined to Japan, China, United States, Canada, Australia, New Zealand and Great Britain. The other will include all the world powers, France, Italy, Holland, and other European nations probably taking part.

So far as Canada is concerned, it can be definitely stated that she will play a part in both conferences. It is the intention of Premier Meighen to reach Ottawa before August 1, and clear up whatever political and administrative problems there await him and then prepare to go to Washington.

The Anglo Japanese treaty still exists but both Japan and Britain have agreed it shall be brought into line with the covenant of the League of Nations, which means the elimination of the military clause to which Premier Meighen and General Smuts most strongly objected.

PARIS, July 12.—The French government has accepted the invitation of President Harding, of the United States, to come to the conference for the purpose of deciding upon limitation of armaments. The favorable reply was made in a note to the United States embassy here.

MANY FIRES AT BELFAST

Fight on Saturday Night Was Three Cornered Affair; Outrages Continue.

BELFAST, July 12.—Incendiarism is on the increase as a result of the week end disorders. Stores have been destroyed and the police fired upon, although without any casualties. Fourteen fires in all have taken place in the city.

The rioting on Saturday night was a three cornered fight in which revolutionaries, unionists and crown forces all took part.

DUBLIN, July 12.—Two men dead and six wounded in yesterday's outrages in the outlying districts where the truce order is believed not to have been received. Several of the attackers are believed to have been wounded and two captured.

Dublin is quiet today.

Irishmen Leave for London to Meet Lloyd George at Conference on Thursday

LONDON, July 12.—The arrangements for the meeting on Thursday between Eamonn de Valera, leader of the Irish Republicans, and David Lloyd George, Premier of Great Britain, will not be cut and dried.

General Jan Smuts, Premier of the Union of South Africa, will not be present at the opening interview, but it is understood that if de Valera desires the Overseas Dominions to be represented formally at the conference his views will meet with the cordial acquiescence of the British Government.

DUBLIN, July 12.—The Irish Republican leaders who will participate in the conference at London on Thursday left Ireland this morning. They were: Eamonn de Valera, Arthur Griffith, founder of the Sinn Fein, Austin Stack and Robert Barton. They were accompanied by Lord Mayor O'Neill of Dublin and Count Plunkett.

PRESS SERVICE WITH AUSTRALIA

Pacific Cable Board Reinstating It with Reduced Rates.

LONDON, July 12.—The Pacific Cable Board is reinstating the long deferred press service between Canada, England and Australia, effecting considerable reduction in press rates.

One of the objects of the conference of premiers in England was to improve the press service between the various parts of the Empire. This apparently is the first fruit of the enterprise which was levelled there that the British people get very little news of the outlying portions of the Empire.

PETE HERMAN KNOCKS OUT JIM HIGGINS

Bantamweight Champion of World Scores in Eleventh Round.

LONDON, July 12.—Pete Herman, former bantamweight champion boxer of the world, scored a comeback here last night. He knocked out Jim Higgins, the bantamweight in the eleventh of a twenty round bout.

AMUNDSEN'S BOAT FOUND IN ARCTIC

Now at Whalen, Alaska, and Will Be Towed to Nome.

WASHINGTON, July 11.—Captain Roald Amundsen's exploring schooner, Maud, has been found in the Arctic Ocean by the Alaska coast guard cutter Bear and is now safe at Whalen, Siberia. The Maud will be towed to Nome as soon as the weather moderates.

MAYO IS BUSY CAMP

Auto Stages to Run This Year to Keeno Hill; Freight on River Bank.

DAWSON, July 12.—Mayo is a busy camp this year and there is also activity at Keeno Hill. The river bank is crowded with freight and new buildings are going up. All the houses at Mayo are occupied and more will have to be built.

A motor car stage is to be put into service between Mayo and Keeno Hill. This will be a great improvement over the last year's service. At present it is possible to drive as far as Hoffman's, 28 miles out of Mayo.

BOLSHEVIK PRESIDENT.

ERIVAN, July 12.—Moshkian, an anarchist before the war, is the new president of the Armenian Soviet, replacing Gassian, a Menshevik. The change was made under pressure of the Bolshevik authorities.

WILL TAKE STAND IF DISMISSAL PLEA FAILS.

Mrs. Cora Isabella Orthwein, who once was known in society in St. Louis, Mo., and is the divorced wife of a wealthy oil operator. She is accused of having killed Herbert P. Ziegler, wealthy rubber tire man, in her apartment on March 1. She alleges self-defense, asserting that Ziegler broke into her room and began to beat her.

NOMINATIONS YESTERDAY FOR ALBERTA ELECTIONS PREMIER BY ACCLAMATION

EDMONTON, July 12.—Yesterday 158 candidates were nominated for the Alberta seats preparatory to the provincial election, which takes place on Monday, next. The Government is represented in all the constituencies but two, Lethbridge and Claresholm. There were nominated:

Farmers	38
Conservatives	14
Labor	15
Independents	19
Socialists	2
Liberals	39

In the city of Edmonton there were 26 nominated and in Calgary 29, with five seats in each city. No less than eight women were nominated.

There will be elections in every constituency but one, Sedgwick, where Premier Stewart is already elected.

SAYS LLOYD GEORGE MAY BE PRESENT

Will Visit Washington for Disarmament Conference Says Daily Mail.

WASHINGTON, July 12.—Premier Lloyd George will probably visit the United States for the Disarmament Conference at Washington, according to the Daily Mail. He must first get the Irish question settled, however. With that out of the way the little Welshman will receive a wonderful greeting from the Americans.

James Turnbull, forest ranger from Hazelton, returns to the interior on tomorrow morning's train.

COMMISSION INOPERATIVE

Injunction Against Royal Grain Inquiry is Made Permanent in Manitoba.

WINNIPEG, July 12.—Mr. Justice Curran, in a judgment handed down today dealing with the injunction against the operations of the Royal Grain Inquiry, restricted any further action of the commission and has made the injunction permanent. No opinion was expressed as to the validity of the Canada Grain Act.

TWO BIRTHS.

There were two births at the hospital this morning. A daughter was born to Mr. and Mrs. A. B. Storrie, Park Avenue and a son to Mr. and Mrs. S. M. Ashwell of Terrace.

MYSTERIOUS ARRIVAL OF LORD MAYOR

LONDON, July 12.—Lord Mayor O'Callaghan of Cork has arrived home from the United States but just how he got here, no one seems to know. Washington immigration officials disclaim knowledge of O'Callaghan's departure or the manner of his going.

The mysterious arrival is tending to give credence to the story of submarine operations by the republicans as claimed by them in despatches promulgated in the United States.

COAL RESERVE IS TAKEN OFF

Only Exceptions to Lifting of Embargo Are Groundhog, Peace River and Part of Vancouver Island.

VICTORIA, July 12.—An order in council lifting the coal reserves so as to open for staking all lands in the province with three exceptions was passed by the Government yesterday. The exceptions are certain areas in the east coast of Vancouver Island, in the Groundhog country and in the Peace River.

The reserve was put on to give the Provincial Government an opportunity to take stock of its coal resources and in response to an outcry against the limitation of the natural resources of the province. It was found not to work out well because it interfered with prospecting.

AUSTRALIAN TARIFF WILL BE INCREASED IT IS PROPOSED

LONDON, July 12.—The general effect of the new Australian tariff which is to be considered by the Commonwealth senate next week will be to materially increase the duty on all goods which can be manufactured in Australia but will give a distinct preference to products from Great Britain.

OTTAWA PLANS TO SEND UNEMPLOYED TO THE PRAIRIES

OTTAWA, July 12.—The Department of Labor announces that it intends this morning to relieve the unemployment situation in British Columbia by arranging facilities for men to reach prairie provinces from the coast and return after harvesting and threshing is over.

BERNHARDT AS EVE.

PARIS, July 12.—It is announced that Adam and Eve, a new play by Sacha Guitry, will be produced at the Theatre Sarah Bernhardt in the forthcoming season. Mme. Bernhardt will play Eve and M. Lucien Guitry Adam.

Einstein and Relativity.

When Grandmother Eve strolled out into the garden and was told there was a fruit tree that had wonderful power, so wonderful that it would transform her whole nature, she at once felt hungry for it. There was a mystery about it. She was an example of the finite searching after the unknowable. The Lord knew when He warned her off that she would immediately want to take a bite from that apple.

So it is with most great leaders of men. They try to mystify us. They hint at things rather than state them. They use analogy and all sorts of figures of speech and it takes much study and a speculative mind to find out what they are driving at, and then we do not know.

So it seems to be with Einstein. He has expounded a new theory and people are now writing books about it in order to explain it, and to the ordinary layman they fail. Magazines are writing on relativity and most of the articles leave the reader in a fog. They talk around it and bolster up their own pet theories or dogmas by being to it. It is an instance of the finite trying to reach the unknowable.

Einstein is a German physicist and he lectured to an English audience a few days ago and was well received. It was a university lecture at Manchester. We are told that he showed how space could be finite and yet without a boundary. Newton's theory of gravitation is supposed to be shattered and many other cosmic theories upset.

Most people who read Einstein confess to knowing nothing definite after they have finished and the wiseheads who pretend to know cannot explain in such a manner that others of us may also know. We are told that speed is purely relative. That to one looking at it from outside and not tied by our finite understanding, it is as reasonable to say of a train travelling sixty miles an hour that the train is standing still but the earth is travelling sixty miles an hour. The speed is purely relative to the position of the two bodies.

Einstein is the intellectual fad of the day. It might be worth while to study him for he possibly has a message which we have not grasped.

Handicaps on Marriage.

George Casey takes exception to a suggestion made by The Daily News in regard to handicaps on married life and the suggestion of a remedy. Possibly he is right. At any rate he does not suggest any remedy. Judging from his letter he means to suggest that there must be a complete reform of the whole social system. If so we agree most wholeheartedly.

The present system of living and earning and getting what often we do not earn is as far from being perfect as is the east from the west. We are all realizing it, as never before. The difficulty is that we have not yet found a remedy which appeals to us. Nor shall we find a remedy. We shall move step by step, often making mistakes and turning back and treading over the old ground again. We have really only begun to evolve toward a millennial period when we shall be perfect, and when we do reach such a condition we shall at once begin to deteriorate.

Sketchy Suggestions at the Best.

The Daily News editorials are not intended to be considered as carrying with them any suggestion of finality. They are written mostly in the way of suggestion and are very sketchy. We have neither the ability nor the desire to treat exhaustively of any subject. The wish is rather to stimulate thought, and in that we are occasionally successful. The fact that we sometimes hear from our readers in regard to these suggestions is proof that the object of the editorial article is to some extent being achieved.

Those who wish more than a suggestive mention of a subject will go to the magazines and reviews and others to more lengthy articles in books. There they may browse at leisure in the field of intellectual stimulus and refresh themselves with theories of reform and economic possibilities. It is the function of the newspaper rather to teach things as they appear on the surface. To record news and to discuss news topics in the light everyday manner in which they occur.

No Return Of The Trouble Since Taking "Fruit-a-lives"

108 CATHCROFT ST., MONTREAL.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use "Fruit-a-lives", and in 15 days the pain was easier and the Rheumatism much better. Gradually "Fruit-a-lives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

B. C. CROPS ARE VERY HEAVY

Prairies Recovering as Result of Recent Rains, but East of That Crops Only Fair.

The Bank of Montreal crop report just issued says that in the Fraser valley the standing hay crop is 25 per cent above the average and in all other districts it is exceptionally heavy. Grain is heading well while roots and vegetables are progressing satisfactorily. The yield of potatoes is expected to be 15 per cent below the average. Tree fruits are sizing and coloring well and small fruits are all heavy, although strawberries have been damaged by rains.

On Prairies. On the prairies the general outlook is good. In the Edmonton and Calgary districts damage has been caused by the heat and the dry spell but this has been largely repaired by recent heavy rains. In Edmonton district conditions are favorable and around Calgary the crops on summer fallow promise an average yield. Crops on spring and fall plowing are only fair.

In the Lethbridge district the crops have been revived by rain though in the north and east reports are not good. Alfalfa and timothy are an average crop on irrigated land and pasture is good.

Ideal Conditions. Grain is making a strong growth in the Regina district and the wheat is heading out under ideal conditions. Hail losses are negligible.

Wheat and oats are doing well in the Saskatoon district and around Winnipeg the wheat is headed out, the heat followed by cool rains make ideal conditions for filling. There has been some hail but nothing serious. Damage by grasshoppers has been very light this year.

Eastern Provinces. In Ontario and Quebec the recent dry spell has injured the crops, apples and tobacco seem to be the only ones not injured. Lack of rain is retarding crops in the Maritime provinces and even in Prince Edward Island there is a shortage of hay and pasture.

MAE MARSH WELCOMED BACK TO MOVIES AT THE WESTHOLME

Last night Mae Marsh was seen and welcomed in picture at the Westholme after a long absence. She has been engaged in maternal duties but she is just as attractive as ever.

The story is a highly interesting one of "The Little 'Fraid Lady'" (Miss Marsh), who, realizing that her mental picture of the hustle and bustle of the city have merely been illusions, bies herself into the great open of the far west to develop her talent as an artist. Someone very close to her has helped shatter her ideals and this does not help matters. Regardless of her efforts to hide away a grim spectre pursues her. Just how she emerges triumphant from her difficulties is the strong point of the picture.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

SONS ENGLAND BEAT VETERANS

Football Game Last Evening Proved Rather Listless Affair and Energy Was Lacking.

The first game in the second half of the Senior Football League series took place last evening and resulted in victory for the Sons of England over the Great War Veterans by a score of 1 to 0. There was not a high standard of play exhibited in the game, not a few of the players showing a lack of energy. In the first half the Sons scored through Tinker. In the second half, both sides had numerous chances to score but no points were made, the Sons even failing to benefit from a penalty kick.

For the winners, Bert Wearmouth was in his usual good form as back while Mansell and H. Fanthorpe were the pick of the halves. Forward the Sons were best served by Harry Fanthorpe, Timber and Lambie.

Davies, Ross, Stewart, Harding and Young made the best showing for the Veterans, the latter playing an exceptionally good forcing game at inside left getting little response from his outside partner.

The teams lined up as follows: Sons of England—Nasmith; Darton and Wearmouth; Mansell, H. Fanthorpe and Graggs; Harry Fanthorpe, Forrester, Tinker, Lambie and Farquhar. Great War Veterans—Davies; Ross and Stewart; Hartshorn, Graggs and Harding; Hardy, Wilson, Wiggins, Young and Kirby.

R. Mercer was referee and D. Robinson and W. Martin were the linesmen.

The standing of the clubs to date follows:

P. W. L. D. Pts.	
Sons of England	4 1 0 3 5
Sops of Canada	3 4 0 2 4
G. W. V. A.	4 1 2 1 3
Callies	3 0 1 2 2

Sport Chat

No less than seven new players and all dark horses is the form of a bomb that the Red Sox now threaten to throw into the City Baseball League. Tomorrow night the Sox are scheduled to meet the Elks in a league fixture and all fans will be interested to see the latest stars in the baseball constellation. Instead of getting discouraged with their recent losses, Manager "Slats" Webber and his gang are becoming even more enthusiastic and are now preparing to make a better showing in the second half of the season than they did in the first. With almost a whole new team to put in the field they ought to be able to at least worry the more fortunate clubs, Elks and Sons of Canada, a little.

The new Red Sox players now registered are: G. A. Aulterson, H. A. Sharlton, Frink D. Parington, Harry Menzies, F. R. Scott, J. D. Lyons and F. Fraser.

Tomorrow the third of a series of baseball games between Prince George and Vanderhoof will be played at the latter town. The first games of the series have resulted in victories for Vanderhoof, but the Prince George players are now on their toes and to boost them along a good crowd of fans will go to Vanderhoof tomorrow.

Next Tuesday and Wednesday the Jasper baseball team is to visit Prince George to play three games, one on Tuesday and a doubleheader on Wednesday. The Jasper team will be much the same as the one from Lucerne over which the Prince George players were victorious.

BABE RUTH IS HITTING HARD

Scores Thirty-Second Home Run Yesterday Against White Sox.

CHICAGO, July 12.—Babe Ruth is still hitting hard. He scored his thirty-second home run for the season in the sixth inning in the game yesterday against White Sox.

There were no coast games yesterday either in the coast league or the Pacific International.

PITTSBURG LEADS NATIONAL BASEBALL CLEVELAND AHEAD

NEW YORK, July 12.—The half way mark of the race for the major league pennant finds Pittsburgh leader in the National League, being three and a half games ahead of New York.

Cleveland, the world champion, has a slim margin over the other New York club in the American League.

BROADSWORDSMAN WINS AT PORTLAND

PORTLAND, Ore., July 12.—Carl Nelson, champion broadswordman of the world successfully defended his title against C. W. Prince, Pacific Coast champion on Sunday here, securing 15 points out of a possible 29. Prince scored 12.

ORANGE LODGE GREAT PICNIC

Five Hundred Left This Morning on Camosun to Spend Boyne Anniversary at Port Simpson.

Five hundred people left shortly after 9 o'clock this morning on the Union Steamship Company's steamer Camosun for Port Simpson where they will spend the day on the monster picnic being held under the auspices of the Loyal Orange Lodge. As early as 2 o'clock the excursionists commenced to gather and by the time the vessel left the Grand Trunk Pacific dock her decks were lined with the happy and expectant faces of those who are to enjoy the day's outing. Many leading citizens are making the trip and among them is Mayor Harry Roehester.

Shortly after 8 o'clock the Orange Lodge parade headed by the Great War Veterans' band came down Third Avenue from the Knights of Pythias Hall on the way to the dock. Already many of the picnicers had assembled there and they kept coming until the last minute. There was a good crowd of "stay at home" on hand to see them off.

Games and Sports.

A complete program of games and sports is to be held at Port Simpson and the party will return about 9 o'clock this evening after fittingly celebrating the anniversary of the Battle of the Boyne, a memory so dear to the hearts of all Orangemen. The band went along and will provide music all day, it being the first occasion when Prince Rupert has sent her own band to an outside point.

Sergeant S. L. Warrior is generalissimo of the excursion and will take a leading part in the carrying out of all the arrangements. The committee in charge comprises Duncan Munro, Charles Lomon, F. Haugh, Jack Platt and W. Baker.

METHODIST SUNDAY SCHOOL PICNIC WAS SUCCESSFUL AFFAIR

The Methodist Sunday School children had a glorious time at the annual picnic held on Saturday afternoon at Dighly Island. There were about 150 in attendance and four boats were required to handle all. The "Oh Baby" made four trips.

Baseball and a full program of sports took up the afternoon and there were bounteous refreshments supplied with a generous hand. By 9 o'clock all were at home safe and happy.

The sports committee comprised F. Dery, Miss Hudson, Lee Cameron, Roth Gordon and Rev. George B. Jaeger. The refreshment committee was made up of Mr. Wolstenholme, Miss Fuller (Mrs. G.W. Kerr, Mrs. A. J. Mallet and Mrs. Whalen).

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$3 an acre, including improvements. Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished, but parties of not more than four may make advance pre-emptions with joint residence, but each making necessary improvements on respective lots. Pre-emption must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1 acre, before receiving Crown Grant. Where pre-emption in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted immediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant make improvements to extent of \$50 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years, and improvements of \$10.00 per acre, including 1 acre cleared and cultivated, and residence of at least 2 years are required. Pre-emptor holds no title until Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unserved areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes areas exceeding 400 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 60 acres may be purchased, conditions include payment of stumpage. Natural hay meadows inaccessibility by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made. PRE-EMPTORS' FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retrospective. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest in agreements to purchase town and city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from settlement to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of livestock industry provided for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers raised, priority for established owners. Block-owners may form Associations for range management. Fees, if partially free, permitted for notice numbers or livestock, to be used.

CHURCHILL IS AGAIN RADICAL

Expounds Policy of Economics Contrary to That of Today.

SPEAKS OF GERMAN REVIVAL OF TRADE

Shows Danner of Country with Ground Down Labor Conditions.

LONDON, July 13.—Winston Churchill, speaking at the Manchester Chamber of Commerce luncheon, reviewing the situation left by the war, said the United States had become the greatest creditor nation, Germany the greatest debtor nation, and the Allies in varying degrees were also debtor nations, with Britain in an intermediate position, owing 1,000 millions to the United States, but being a creditor of the other Allies to a greater extent. While Germany owed the Allied nations under the indemnity thousands of millions of pounds, under the working of the international exchanges the creditor nations found their export trade seriously diminished. Germany, who had already paid off 350 millions of her reparation obligations and had no real amount of raw material except coal to export, was feverishly active in producing goods for export into all the markets of the world. Underfed Work People. Germany, the greatest debtor nation, had her underfed work-people employed overtime in the struggle to pay the war indemnity by sending out her manufactured goods, and the longer this process went on the greater would Germany's industrial leadership become at the expense of the conditions of life and labour of our industrial population. If Germany, during the next 30 or 50 years, were able to pay her debts to everybody, she would by that process have become the master of every market in the world, the greatest exporting nation that was ever heard of, and would have achieved that conquest on the basis of the most miserable industrial population ground down under her heel. The United States, on the other hand, if she received all that was owing to her, would, in receiving it, have largely destroyed her own export trade, would have robbed her people of many of their essential arts and industries, and would have injured her interior economic system. Wake Up Some Day. Some day these simple facts would penetrate to the minds of the great nations of the world, and on that day they would, if they were wise, endeavor as a part of a gigantic operation beneficial to all, to reduce their mutual indebtedness to limits not incompatible with healthy trade, with normal exchanges and with decent labor conditions.

CITY COUNCIL AND PRINCE RUPERT PULP AND PAPER COMPANY

Will Confer with Officials and Engineers of the Company Tomorrow Night on Water Question.

The matter of supplying 300 gallons of water per minute to the Prince Rupert Pulp and Paper Co. from the city supply and the installation of a booster pump by the company at its proposed plant was discussed by the council in committee last night and it was decided to meet the engineers of the company in conference on the matter Wednesday evening. If this concession were granted the company maintains that there would be a higher water pressure available for the city. The matter of the power contract for which the company has asked for extension of acceptance but which was turned down by the council last week also came up last night for consideration. Owing to the fact that Ald. Parker, who was one of the prime movers for reconsideration, was out of the city it was decided to leave the question over until next week's meeting of the council.
