SEVERE FACTIONAL FIGHTING IS GOING ON NOW

PREMIERS OF BRITISH EMPIRE WILL CONSIDER FAR REACHING PROBLEMS

Guerilla Warfare in Ireland Becoming More and More Cruel; Terrible Crimes Being Committed

DUBLIN, June 20.—Factional fighting and guerilla warfare is increasing in fierceness and intensity. The list of casualties and destruction for the week-end shows this clearly. The strife seems to be now getting even more general. Dublin saw more slaughter the last two days than there has been for months.

Six soldiers and ten civilians were wounded fighting after an ambush on crown forces in Dublin. There was bomb throwing and rifle fire. Troops and auxiliaries were rushed to the scene. An ex-soldier named Pike was killed in one suburb and two ex-soldiers were killed in another, while the fighting was proceeding in the centre of the city.

Armed civilians were found laying road mines at Colbawn on Saturday and were fired upon. Two were killed and two wounded.

A police patrol was ambushed near Newmarket. The attackers lost one killed, one wounded and one captured.

Aged Woman Wounded.

A man named Philip was dragged from his home at Grandmugher and was shot dead. His mother, seventy years of age, was wounded.

Patrick Darcy, a school teacher, was shot dead at Carralcare and was labelled as a spy.

Steamers carrying supplies for the crown forces at Spike Island were boarded by twenty armed men and all the provisions were thrown overboard.

Four coast-guard stations in County Dublin were burned down. The Wexford County court house was bombed and destroyed. Ravensdale Castle, in County Louth, formerly the property of Lord Arran, was set on fire.

Following the shooting of Constable Campbell near Duncalk on Friday armed men entered a saloon and took the two sons of the proprietor, John Walters and Patrick Walters, from their beds and killed them.

STILL AFTER RAIL SIGNALS

Destruction of Boxes and Burning of Cabins Spreads to Manchester.

MANCHESTER, June 20.—Attacks attributed to the Sinn Fein were carried out on Saturday night against the railway signal boxes at various points in the vicinity of this city. Several railway cabins were also burned but no arrests have as yet been made.

It is believed that an organized attempt is thus being made to interrupt traffic in England and special precautions are being taken by the fast moving trains on the various lines to prevent possible wrecks. The destruction is similar to that which was carried on around London last week.

The big oil tanker Richmond from San Francisco, which steamed into the harbor on Saturday afternoon after spending a number of hours aground on a sand bar at Lowe Inlet, seventy miles south of here, will have finished unloading the 70,000 barrels of oil she had for this place by tonight and will then leave on her return journey. Upon examination shortly after her arrival in this port, it was found that she had not sustained any injuries to her keel through the grounding on the sand bar. The trouble with the steering gear, which caused the accident, has been repaired and the big steamer is ready to go to sea again.

MISSING MAN WAS FOUND DEAD NEAR CITY PRINCE GEORGE

PRINCE GEORGE, June 20.—While engaged in the pulp service on May 25, members of the forest department's staff found the remains of the body of an old prospector named McKittrick, who was missed early in the spring. They came upon the remains about ten miles up the McGregor river. McKittrick was 65 years of age. He had been visiting a trapper up the river, and from his attitude, it is believed that he had seated himself on a snowshoe under a tree to rest, and had quietly fallen asleep and died in the bitter cold prevailing at that time. Animals had destroyed the body to a great extent, but the party buried his remains, marking the grave by a snowshoe at the head and foot and blazing a tree. His identity was established by a gun license.

Two Views on Local Court House.

Two views are being taken in the south in regard to the building of the new court house at Prince Rupert. Those in opposition to the government, as well as those who are bound up in the interests of the south and do not want to see anything come Prince Rupert's way, accuse the government of extravagance. Firm and Home, a Vancouver weekly allied with the Vancouver Sun, whose publisher is launching a fierce attack on the provincial government at the present time, in a recent issue printed on its front page a critical leading article condemnatory of the present administration and mentioning the local building says the government is "spending \$600,000 for a court house at Prince Rupert large and luxurious enough for ten times its present population" and that "the present quarters are good enough." The defence for the building and the view that is being taken by many people in the south, as well as those in the north, is that this place is worth while and the future prospects, more than immediate necessity, warrant the new building. Indeed, the city is likely to have that "ten times greater population" before the Vancouver Sun has any idea that it will and it is on the strength of this prospect that Hon. T. D. Pattullo has been successful in obtaining the building for the city.

Prince Rupert and Permanent Buildings.

Starting with the building of the fine new school at Hays Cove Circle and the new court house, Prince Rupert is about to start on an era of permanent building. The buildings that are now being planned for the city, both public and private, will be more of a permanent nature than any ones that have before been built here. Every city has its stage of "shabby" business houses and residences, but if a city is to become worth while it is not going to continue the erection of such buildings. The prosperity of a place is largely judged by the outsider on the quality of its buildings. A town of lumberedown and disreputable structures does not inspire confidence while an air of permanence and quality most certainly does. The time is here when Prince Rupert should be showing signs of permanence and there is no doubt but what this is warranted. Indications are that Prince Rupert is about to emerge from its state of temporary buildings and in building structures of solidity and permanence will take on the air of a city that has a future in which at least its residents are confident. The provincial government, by the erecting of such a fine court house, is showing its confidence in the place. Is this not enough to inspire confidence in others when it comes to building?

Hard Times Seem Easier Here.

While bankers and business men and people generally in the south are mourning over the hard times and are making blue predictions for the immediate future, Prince Rupert people are still maintaining a feeling of optimism and confidence. Comparatively speaking, Prince Rupert looks bright and cheery. True business is slack and money is not so free as it was a few months ago and this place is affected by the general depression that is passing over the entire world at the present time, but the spirit here is much more cheerful than in most other cities. This is largely because unemployment is not being felt to any great extent and the people are busy. All here are earning enough to live comfortably and this cannot be said of the larger places. In such unsettled times as these the unemployed seem to flock to the great cities and that is why Prince Rupert, in common with the other smaller cities, is passing through hard times so smoothly.

ANOTHER COLD STORAGE MAY COME TO PORT

B. C. Packers Will Move Steveston Plant Either to Vancouver or Prince Rupert.

VANCOUVER, June 20.—Just where the B. C. Packers' cold storage at Steveston is to make its home in the future has not been decided, according to officials of the Association, but it has been decided to close the big storage and move it to either Vancouver or Prince Rupert.

This cold storage was originally at New Westminster, but high waterfront taxes and the impression that it might serve both the salmon interests of the Fraser and the halibut requirements of the West Coast banks. In recent years, however, the salmon have gradually disappeared from the Fraser river and the halibut have forsaken the West Coast for new haunts in the north, with the result that the big cold storage at the mouth of the Fraser has become little more than a herring warehouse for the Japanese.

The association has had leanings towards Prince Rupert for some time because of the big runs of salmon, cod and halibut in the northern waters, but it is possible that the plant will be installed at Vancouver. For some years an attempt has been made to try and bring fish from the north to the Steveston plant, but the cost of transportation has been too high and the plan was abandoned. George Cassidy, manager of this cold storage, is one of the most expert authorities on the fish packing in British Columbia.

ADVERTISING ON CENSUS PAPERS

New Departure in Government Transactions Instituted in Britain.

LONDON, June 20.—A new departure in government transactions in the disposal, for a cash consideration, of advertising space on census papers; a proceeding which the official mind would formerly have looked upon with horror.

Even now, a proposal of an enterprising advertising agency to pay the government £11,000 for the use of the backs of 11,000,000 forms to be used in the forthcoming national census, was at first summarily rejected by Dr. Christopher Addison, the Health Minister.

Sir Alfred Mond, First Commissioner of Works, and a keen business man, saw the advantage of drawing revenue from this source and persuaded the Minister to consent to the innovation.

Some time ago, the same advertising firm offered £50,000 for the use of empty space on ration books; but the authorities would not listen to the proposal.

Ten Years Ago in Prince Rupert

A grant of \$5000 was made to the Hospital at last night's meeting of the city council. The city is to have two representatives on the board.

Reorganization of the city engineering staff, to effect a saving of \$9319.92 per annum in the staff payroll, is recommended by the special committee to look into the matter of the department.

Captain Harry Kohrt had a narrow escape from drowning last night when his boat, "Just It," sank at the wharf while he was on board. The captain had to jump ashore in his night clothes and run up Center street in the early hours of the morning in this scanty attire to procure help. The boat apparently had her bow in some manner driven up on the rocks at the railway grade. As the tide fell so did the stern and she started to fill finally disappearing altogether. It will be possible to salvage her.

Miss Johnson, of the local hospital staff, returned on Saturday's boat from a vacation spent at her home in Vancouver.

VANCOUVER, June 20.—A. H. MacNeill, K.C., has returned from a visit to Rossland, made in company with L. C. Gilman, vice-president of the Great Northern Railway, for which Mr. MacNeill is general solicitor in British Columbia.

That company has notified the people of Rossland that it intends to abandon its train service to Rossland. The question was discussed by a meeting of the Rossland Board of Trade, in an endeavor to reach a solution of the difficulty by providing new freight traffic for the line.

PREMIER OLIVER TALKS OF CROPS

Knows Crops Will be Good But Not Sure About Prices.

VANCOUVER, B. C., June 18.—"They charged me 30 cents for one potato on this train at dinner last night, and here I see where some fellow in Vancouver is selling them at 35 cents a sack," complained Hon. John Oliver, premier of British Columbia, as he sat at breakfast in the dining car of a Canadian National transcontinental train approaching Vancouver the other day. All the farmer in the farmer-premier rose at the thought.

"Of course there's service included," suggested a reporter. "Yes, that reminds me," added the premier, "of the story they used to tell in the old Cariboo days about the man who had to pay a dollar to a Hebrew peddler for a needle."

"What was the point?" inquired the reporter. "Well, when the miner protested at the price the peddler said: 'Holy Moses, man, I'm giving you the needle as a present; the dollar barely pays the freight,'" and the premier laughed.

Talks Seriously.

Then he took to talking seriously about farming problems. "This is going to be one of the best and one of the worst years for the farmers," he observed. "I never saw Canada give such a promise of good crops as this year. The prairies never looked better to my eye, while in Ontario the early spring and mild weather with light rains has given a wonderful start to young crops. There'll be splendid crops, bar accidents. But prices, Well, I don't know what the farmer is going to do this year. 'I stayed with a farmer in Ontario who told me that six weeks before he had been shipping cream to Toronto at \$22 a can. Then it dropped to \$19, then to \$17, then to \$15, and so on until the day I stayed there he was getting only \$7 a can for his cream. It dropped from \$22 to \$7 in six weeks. 'It looks as if this is going to be a year of difficulty for the farmer in spite of potatoes at 30c a piece on the trains.'"

"I look as if this is going to be a year of difficulty for the farmer in spite of potatoes at 30c a piece on the trains."

DOUGLAS M'LEAN AND DORIS MAY STARS IN A SPARKLING COMEDY

Youthful Ince Players Are Pair of Newlyweds in "Let's Be Fashionable."

Douglas Maclean and Doris May will be the attraction at the Westholme Theatre tonight and tomorrow in their latest screen comedy, "Let's Be Fashionable." This picture is declared to be fully as hilarious as the three previous releases of these youthful co-stars, who have proven extremely popular everywhere. "Let's Be Fashionable" is the story of a young married pair with limited means and their efforts to keep up with the social swim at a swell summer resort. To be in style, both secure themselves "affinities" and get into all sorts of humorous complications. When they have at last extricated themselves from the mess, they decide that it is better to be happy than to be fashionable.

Wade Boteler, Norris Johnson, and George Webb are included in the supporting cast. The story is the work of Mildred Considine and was adapted for the screen by Luther Reed. Lloyd Ingraham directed the picture for Thomas H. Ince. It is a Paramount Avertail release.

TAKING PICTURES OF COAST FISHERIES

Two Men From Department Trade and Commerce on Coast

VANCOUVER, June 20.—Two moving picture men from the Department of Trade and Commerce, E. M. Finn and E. J. Bach, have arrived in Vancouver and will spend the summer along British Columbia's coast taking pictures of every phase of the fishing industry.

When completed, the films will be sent all over the world, and will also be shown throughout Canada and the United States within the current year. No part of the industry would be missed, said Mr. Finn, his instructions having been to remain in British Columbia four months if necessary to complete the series.

These two photographers spent last summer "taking" the industry on the East coast.

Announcement of the incorporation of the Pacific Sea Products Association, the local fish company, with a capitalization of \$100,000 and with head office at Prince Rupert is made in the current issue of the B.C. Gazette.

SCOTTISH ALL STARS WINNERS IN VANCOUVER

Defeated Mainland Select Team By Score of 3 to 0—Game Was Splendid One.

VANCOUVER, June 20.—In a great game before a huge crowd the Scottish professional all star football team, which is touring Canada, defeated a Mainland select team on Saturday afternoon by a score of three to nil. The Scots were held scoreless by the locals for sixty-one minutes.

A coincidence about the match here was that of the local eleven selected, there was but one player who was not a native born Scot. It was a battle of Scots versus Scots and the match was indeed a good one, the visitors probably receiving the stiffest opposition here that they have yet encountered on their tour of Canada.

The stars leave today for Victoria and on Wednesday will play their next game in that city against a select team from the Island League which will be made up as follows: Shrimpton; Bob White and Everett Taylor; Archie Muir, Jimmie Allen and Munro; Brewster, Bridges, Petticrew, G. Allan and Tottie; reserves—John Cummings, Caskie, Clark, son, John Cummings and Clark.

Local Delegation Left Last Night to Attend Big Jersey City Fight

Ben Self, Joe Garon, Gillis Royer and Owen Fisher sailed for the south on the Prince George last night en route to Jersey City to see the world's championship battle on July 2 between Georges Carpentier and Jack Dempsey. They will take by Canadian National Railways to Montreal and from there will take a special train to Jersey City. It is possible they will meet Fred Stephens at Montreal.

Mr. Self will return by way of Chicago and will go to Benton Harbor, Michigan, to see a fight between Benny Leonard, world's lightweight champion, and Sailor Freedman. After this he will continue west by way of Pittsburgh and St. Paul and will visit at Banff and Bellingham. He will be back here in about a month's time.

Mr. Self received a letter on Saturday morning from J. B. F. Melville, of New York, with whom he will attend the fight, stating that offers were being made there as high as \$400 for ringside seats, the box sale of which was exhausted a month ago. Mr. Self and Mr. Melville hold ringside tickets but they are not going to sell theirs even if a far more attractive offer is made. On May 31, according to information received by Mr. Self before his departure, Carpentier weighed 189 pounds and Dempsey 205. They will enter the ring at 178 pounds and 189 pounds respectively.

One Lady's Idea Of Sales

She said, "Oh prices are just raised for these sales."

Well, just as luck would have it she happened to notice an article she had seen in our stock and wanted for a long time and found that it still had the same old tag on and she was able to buy it at the sale price. You can come in and go all over our store and find it the same; likely there's things you've wanted and remember the prices they were marked.

A \$15.50 Stewart gramophone at \$11.50 surely is a cut and a \$6 Big Ben clock at \$4.35 must be a bargain. All kinds of miscellaneous articles at bargain prices. We are bound to reduce stock for the new fall goods.

IMPERATOR IS NOW THE BERENGARIA

LIVERPOOL, June 20.—The German-built liner *Imperator* is no longer the *Imperator*. When passengers embarked in the giant vessel, now a Cunarder, on her outward trip last week, they saw painted on her towering bows, *Berengaria*.

This was the name of the wife of Richard Coeur-de-Lion, a monarch who was imprisoned in Austria, and who, like the boat after being in enemy hands came to England. Already the crew have given to the boat the nickname "Born-in-Germany."

LABOR LEADER SPEAKS HERE

W. A. Pritchard, One of Winnipeg Strike Leaders Speaks Under O.B.U. Auspices.

There was a large attendance at the weekly forum held in the McIntyre Hall last night, many ladies being noticed amongst the big audience. The address of the evening at the open forum last night was delivered by W. T. Pritchard, the well known socialist and labor leader of Winnipeg, who served twelve months recently for strike conspiracy. Mr. Pritchard, who is spending a few days in the city is delivering three addresses while here. The first was on Saturday, on the subject of "The Winnipeg Strike Trials," last night he spoke on "World Problems," and tonight he will deal with "Labor Organization."

His address last evening, was listened to with great interest and many of his points were received with applause by the audience. Mr. Pritchard dealt, as the subject called for, with matters of world wide moment. He deprecated an attitude of parochial conservatism, or the small town view of which people of the west were apt to take up through being far removed from the great centres of industry in the East. Everything that happens in the East or the Old World reacts and is felt amongst even the smallest community in the most outlying districts of the Great West.

Condemns System.

The speaker made a stinging and scathing indictment of the present capitalistic system which while having in the past fulfilled a great mission in making production possible, of all the useful and good things that were used and enjoyed by mankind, today had arrived at a point where although sufficient was pro-

duced in the world to supply the needs of all and then leave plenty over, the distribution was so unequal that the great mass of the workers and producers were denied even a small modicum of the pleasures and comforts of the results of their labors.

The speaker concluded by counselling the workers to learn and educate themselves and keep posted with current events so that when the bridge was reached and had to be crossed, they would be able to survive the struggle that would undoubtedly take place and not be submerged in the maelstrom and destroyed altogether.

PEACE RIVER GOLD RUSH SOON PETERED OUT—LITTLE METAL

EDMONTON, June 20.—The gold rush in the Peace River district, has "petered" out according to word brought to the city by Inspector Hancock of the Alberta Provincial Police at Peace River. The rush was strong and enthusiastic while it lasted, the inspector reports, but very little gold was found that would lead to a display of any great amount of enthusiasm.

Inspector Hancock reports the grain to be in excellent condition throughout the Peace River country but that a little more moisture would do a great deal of good. Farmers at all points, he says, are looking forward with enthusiasm to a bountiful crop and are well satisfied with present conditions.
