IRISH PEACE MAY BE AT END

WHISKEY RUNNING IS POPULAR SPORT ON GREAT LAKES NOW

Deadlock in Negotiations Regarding Future Ireland Is Announced by Premier

LONDON, August 15.—De Valera has refused to accept the terms of the British Government constituting a Dominion for Ireland and having their basis to bring about peace in the country. He declares the conditions sought to be imposed on Ireland are an interference with Irish affairs.

On the other hand, Lloyd George informed De Valera that there will be no compromise on the question of the right of Ireland to secede from allegiance to the King, and that the conditions of the proposed settlement contain no desire on Britain's part to surrender her British ascendancy over Ireland or the impairment of her national ideals.

The Premier's statement of Ulster is also published. The deadlock is based on two vital differences, De Valera's insistence on independence and that Ulster shall be a minority faction of the Irish nation.

The disclosure caused the keenest political sensation since the publication of the correspondence between Lloyd George and De Valera. The meeting gives members, many of whom have never met each other, the opportunity of becoming acquainted and exchanging notes prior to tomorrow's meeting.

IRISH ARE DISAPPOINTED.

LONDON, August 15.—The people of Ireland, after enjoying the prospect of peace, found it hard to believe today that negotiations had reached a deadlock. They place their hopes on the Irish Premier, who meets tomorrow to consider the correspondence and frame a reply to the Premier.

INFORMAL MEETING.

LONDON, August 15.—An informal meeting of the Irish representatives was today the chief manifestation of activity observed in Sinn Fein or Dublin Castle quarters as a result of the publication of the correspondence between Lloyd George and De Valera. The meeting gives members, many of whom have never met each other, the opportunity of becoming acquainted and exchanging notes prior to tomorrow's meeting.

DEADLOCK ON RUSSIAN AID

Not Decided Whether Administration Control Will Be Allowed to Soviet.

RIGA, Aug. 15.—(Noon)—There is no break in the deadlock between the American Relief Administration and the Soviet envoy, Litvinoff, regarding the famine sufferers. The United States has now referred the matter to Secretary Hoover.

Beer and Whiskey Being Rushed Over Border Into Northern United States

DETROIT, August 15.—Beer and whisky is coming from Canada in large quantities following the ruling of a Canadian judge that the export of intoxicants cannot be stopped on the Canadian side. Eye witnesses assert that boat loads are going out from the border cities of Canada every half hour, while prohibition officers are assembling their forces for a drive on the bootleggers.

The price of whisky in Chicago has dropped from \$25 to \$14 in a week.

ELECTION MAY BE IN SPRING

By-election to Be Fought Will Have Bearing on General Election.

OTTAWA, Aug. 15.—Writs for the pending by-elections in West York, Ste. Antoine and Montreal will be issued soon. Three other vacancies remain at Leeds, Durham and Maple Creek. GUSHER WRECKS OIL WELL AT PEACE RIVER

EDMONTON, Aug. 15.—Word has been received in the city that the derrick and engine room and tower of well No. 2 of the Peace River Petroleum Ltd. had been swept away and destroyed by a gusher of water.

Drilling operations for oil were in progress at the time, and a gas explosion beneath the water caused it to spurt up over the derrick with terrific force. The water swept away every vestige of the oil drilling apparatus down the bank of the river where the well was located.

The well has not been abandoned, according to information received, but it will be considerable time before the work of retrieving the machinery is completed and the drilling operations are under way again.

If We Want a Library We Must Pay for It.

If we wish to have a library in this city we must pay for it. There seems to be no way in which we can shift the burden on to someone else. Last autumn a meeting was held and it was then decided to try to secure a Carnegie library. The effort failed. Now we are left to our own resources. We must raise the money ourselves if we wish to have the institution here. And, after all, that is the correct method. What we build from our own efforts we value much more than what we have given us. There is altogether too much of that looking outside for what we want, instead of getting busy ourselves and securing it from our own efforts.

First Thing is A Librarian.

There seems to be a prevalent idea that the first thing needed is a big building. As a matter of fact the first thing needed is a librarian. Miss Helen Stewart says so, and she is the highest authority on libraries in the West. She is president of the Pacific Northwest Library Association. In writing to a Prince Rupert resident she says: "I should strongly urge that any scheme involve a trained librarian. Experience has proven over and over again that it is 'the man behind the gun' here as elsewhere that counts. In fact I have often said that the best way to start a library is to engage a librarian, and after that books, building and so on just naturally flow in."

Herbert Killam, secretary of the Public Library Commission, says the Provincial Government does not give all to libraries until the people themselves have "shown that they have made a reasonable effort to help themselves."

Falling of Making A Wrong Start.

Nearly two years ago the business men of the city decided to start an athletic association. An organization was formed that did excellent work in the way of getting a plant together, and there have been some results that were really worth while. At the same time it has fallen far short of the ideal owing to the lack of having a trained man in charge. The expense was considered too great, and all know what has happened the Athletic Association. The man is the thing. These remarks are no reflection on those who have helped with the association, for it was always a side line with them. The way to make it succeed is to have a man in charge who has been trained in the management of athletic associations and would be the mainspring of all its activities, including its financing. The building and equipment are but a small part. The man in charge is everything. Mr. Lamb, who has been in charge, has done wonderfully considering his opportunities, but it is important to have a man give his whole time to the institution, to pay him a good salary, and to expect results, holding him responsible for them.

What applies to the Athletic Association applies also to a public library. The most important thing is to have a good librarian and then to back him up and see that results are obtained. During the coming autumn it should be an easy matter to get together a group of men and women who have the interests of the city at heart to rouse public opinion and to organize for the formation of a library association and the institution of a library that will be a credit to the city.

There Must Be An Organizer.

Possibly the statement that the first thing in forming a public library is the appointment of a librarian is not wholly true. The first thing is for one man or woman to become imbued with the idea that this city needs a library and that determined effort can secure it. Then organization will commence, but it will fall off at the first breath of opposition unless there is someone who is determined and who will see it through. Then when the campaign is over and the library is secured the real mover and mainspring of all the work must expect to see the credit go to someone else. That is usually the way. There is, however, a great satisfaction in having carried through a good work for the public benefit. The plaudits of the multitude do not amount to much. The artist is a creature of emotions and lives on the praise of the people, but the organizer and mover of multitudes from within is willing to let others have the praise as long as he has within himself the satisfaction of work well done.

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-tives"

103 Church St., Montreal.
"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good. Then I began to use "Fruit-a-tives", and in 15 days the pain was easier, and the Rheumatism much better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

In the Letter Box

SUNDAY SWIMMING GALA.

Editor, Daily News:

The letter from the local clergymen was an appeal to all Prince Rupert citizens to refrain from patronizing all organized sport which is held on a Sunday. The point seems to have been entirely lost by "Nil Desperandum". I like his Latin better than his English, it is easier to understand. None of the writers made disparaging references either to being out in the fresh air on Sunday, or against the workers who worked so hard to get the Salt Lakes so well fitted up for bathing. My first letter was a protest at my name being down as a steward, (unknown to me until I saw it in the evening paper) for the Swimming Gala which was to be held on Sunday. Working as I do, so much with the children, and doing my best "to practice what I preach" in my own daily life, I felt I should not let it pass.

Fine Children.
Prince Rupert has some of the fonniest children entrusted to her keeping in the world—quite 1,000 of them! What is the use of a fine healthy body if the soul is neglected? We cannot build up a city to be proud of unless God is working with us. Sunday (with the little time the poor hardworking mothers can spare) is the only day on which our little children can get any religious instruction — on an average one hour a week to feed the soul, and ten and a half hours per week to feed the body! After all, if it were not for God, life would not be worth any thing.

One Hour a Week.
I believe all the clergy in town ask the children to do their best to attend the morning service during the summer, when Sunday school closes. One hour a week isn't very much to learn all about God, is it? It isn't very much help to the parents either to entice the children away to earn prizes on a Sunday in sports, when they are trying to encourage them to keep Sunday differently from any other day in the week.

Liberty-Freedom.
Liberty and Freedom, there is no such thing for a would-be Christian! By the way, did "Nil Desperandum" take part in the terrible war, which was fought to save the world from being ruled by the Devil and his legions, not to give us freedom from "our duty towards God"?

From Rupert Boy.
The following is an excerpt from a letter to his mother, from a boy who used to be in Rupert, who joined up the day after war was declared, became a Lieut-Colonel when he was 26, was wounded three times, won the D.S.O. M.C. and had he lived would have also been presented with the Legion of Honor and Croix de Guerre. He was killed in July, 1918.

"Pray that I may have more strength to 'carry on', more courage to face the worst that comes, victory without giving my men unnecessary pain, and that I may be spared to return to you. If that may not be, I have not lost faith, my conscience is fairly clear, and I am not afraid to 'go over the top' to meet my maker for everlasting peace."

That boy is one of thousands of the good old bulldog breed of which the British Empire is made up. We have lost thousands of them "over the top," and must replace them with as good material—they couldn't be better. I had the pleasure of mothering him amongst many others whose homes were in Canada and Australia during the short leaves they had from France.

He was one of Canada's own boys, a real sportsman and a very regular church-goer. Have you a son or daughter like that? It is the result of soul and body training together!

We are proud of our young friends. If we could not shoulder arms and fight with the gallant boys, let us at least "carry on" in such a manner that they will have the joy of knowing that they at least gave up their precious young lives for people, and an Empire that was worth while, not a frivolous, pleasure-seeking, lazy ungrateful people. Do not "use" their sacred sacrifice to try and cover things God has distinctly warned us not to do.

Thumb Twiddling.
I've been trying to picture an educated man or woman, sitting and twiddling their thumbs when not actually engaged in work or violent bodily exercise!

Why want holidays if that is all you can do? However it is one more point in our favor. I guarantee that if you go to church twice every Sunday, do your very best to join in everything, prayers, singing, listen to the sermon, (there's generally a brick to hit us in the weak spot) you will work so hard for your employer after, and feel so much you can do for other people that you'll hardly see your thumbs, let alone twiddle them; you'll be so busy!

You would also miss seeing "the party" parade over to the Salt Lakes every week!

Words of Wisdom.
I am far too busy trying to get rid of my own sins to bother about "Nil Desperandum's" but if you feel so unhappy about the work you did on Sunday over at the Salt Lakes, my advice is "don't let it occur again!" One more thing I ask you, is to honor the words of wisdom the padres in town give up. If you cannot agree with them and help them at least do not hinder them. If it is God we have to reckon with at last and He does the judging of all our actions, and we are told that we are only called to account for what we know, not for our ignorance. The padres have told us—we cannot plead ignorance. Swimming Club, please do not put stumbling blocks in our little children's paths!" MARIAN ROBERSON.

Knew His Elbie.
Bricklayer—help it—we can't "ave you a-blavin' that trumpet round here!"
Boy Scout—Why?
Bricklayer—"Tain't safe—you know get 'appened to the walls of Jericho; don't you?"—T.H.B.L.

Those Mad Wags.
"Do you suppose we will ever have complete disarmament?"
"I am afraid not. Even though other nations agree to it, vaccination will still be in arms."—Boston Transcript.

COMIC OPERA FOR AUTUMN

November 23 Set As Date for First Concert of Musical Society.

Although it is still summer time with the long evenings when everyone gets out of doors all they can, the Prince Rupert Musical Society has not been unmindful of the approaching winter season, when the outdoor entertainment gives place to indoors. The first of the series of efforts of the local music lovers will this season take the shape of comic opera, and the Musical Society hopes to stage Gilbert & Sullivan's "Trial by Jury" on Wednesday, November 23.

Gilbert & Sullivan.
Although written many years ago, the series of light opera collaborated by Gilbert & Sullivan are ever fresh and the D'Oyly Carte Opera Company, with some of the original players who were coached in their respective parts by Sir Arthur Sullivan himself, has survived all vicissitudes of fortune and have played these melodious and humorous operas continuously season after season without tiring their public. This fact in itself is proof of the popularity of these comic operas.

"Trial by Jury" is a scream from start to finish. The music is bright, clever and snappy and is as humorous as the words written for it. The principals will be chosen from the members of the Society.

EFFORT TO SECURE VISIT FROM POPULAR SINGER FROM SOUTH

An effort is being made in the city to get Mrs. Jessie Longfield to pay a visit to Prince Rupert in the near future for the purpose of giving a concert. Since the departure of Mrs. Fahy, Mrs. Longfield has taken the premier place among the soprano singers of the capital city. She was here nearly two years ago when she sang at one of the Sunday evening recitals in the Westholme Theatre, and at that time she proved a great favorite. Her voice is very full and rich and she is an accomplished artist. In addition she has a most attractive personality.

The latter part of September is mentioned as the probable time for her visit if she can be secured. She has just completed an engagement for two weeks at one of the Victoria Theatres and has received a flattering offer to sing at the Capitol Theatre, Vancouver, for two weeks but for family reasons has had to refuse.

Alaska arrivals on the Princess Royal Saturday afternoon included R. J. Davis, Ketchikan, D. N. McDonald, Wrangell and Mrs. M. Moser, Ketchikan.

JACK MILLER BACK AFTER TRAVELLING FOR THREE MONTHS

From California to Alaskan Peninsula, Prince Rupert is the Best Town.

Jack Miller is back from a three month's trip which took him as far north as the Alaskan peninsula and south to San Francisco. After having travelled a distance of over two thousand miles along the Pacific Coast he is convinced that of all the towns and cities he visited Prince Rupert is the most prosperous of all.

As for the north he was in Seward, Cordova, Anchorage and Valdez and they are all in the throes of unemployment and hard times. In one of these places he went into a hotel and found he was the only guest. Anchorage is possibly the best of the four. He also visited Kattalla where oil was recently found. He reports that it amounts to little and there is no indication of it being produced in merchantable quantities. The weather was the only favorable feature—it was just like California.

In California conditions for the average person are little better. There are 40,000 people unemployed in San Francisco. At the present time the country is only for the rich.

Prince Rupert is talked of everywhere and he met interested people at all points he visited. He is back here to stay, he says.

Ten Years Ago in Prince Rupert

August 15, 1911.
For reckless rifling shooting about town in a threatening manner, James McCall, seaman from the steamer Prince Rupert, was yesterday sentenced to two years in the penitentiary by Judge Lampman.

Land Commissioner C. M. Butler, of Idaho, who is visiting the city declares that with proper treatment muskog soil can be made to produce almost anything. He spent several weeks up the Skeena River investigating conditions and predicts great prosperity for the settlers there.

The Vancouver power boat, "La Boheme," one of the most beautiful craft to visit this port, reached here last night with her owner, J. E. Sully, and family, Mrs. Chambers and her son aboard. The party have been making a three week's cruise up the coast.

PLAYERS BACK FROM ANYOX

Footballers Meet With Success, But Baseballers Lose Both Games. The Sons of Canada baseball and football players returned at 11 o'clock this morning from Anyox.

Such good results did not attend the baseball players, and they were defeated in both games, the first by a score of 5 to 1 and the second, 4 to 3.

In the four-round no-decision boxing bout between Corkie and Ferguson the local man was by far the best and had no difficulty in outclassing his opponent.

Sport Chat

There was at least one Prince Rupert person who was keenly interested in the picture of "Brage," the horse which won the Grand Circuit Trotting race in the United States on July 4. This was Jack Edwards, of McGaffery, Gibbons & Doyle.

The conquest of the Davis Cup, the trophy emblematic of the world's tennis championship has brought to the United States this year the most noted players of five nations: England, Australia, Denmark, India and Japan.

J. O. Anderson, of the Australian team, who on Saturday defeated Ingersley, of Denmark, is the only member of the team who has previously represented Australia.

Then, too, just glance at one of the reasons that Dempsey gives for not meeting Johnson—his reputation. If that's a real reason then why isn't it applied to white men as well as colored?

What would the world say of a sporting man in any other game, a sprinter for example, who refused to meet a challenger on account of color?

It seems to that any fair minded man after giving the subject a little thought must admit that a title holder should, as a matter of good sportsmanship, meet all qualified challengers regardless of race or color.

Thanking you for the courtesy of your valuable space, I am sincerely, OWEN FISHER.

ROYALS LEAD BY TWO GAMES Saturday Games. National League. Chicago, 3; Pittsburgh, 4.

PROTEST ENTERED BY NEW WESTMINSTER VANCOUVER, Aug. 15.—The Vancouver Terminals defeated New Westminster Salmonbellies by the score of fourteen to twelve in the Minto Cup Lacrosse series on Saturday afternoon.

The Royals now have two games lead over Vancouver, with four games to play. New Westminster protested Saturday's game charging Referee Ion with partiality toward Vancouver in the matter of permitting substitutes for players on the penalty bench.

OBJECTION TO DISCRIMINATION

Owen Fisher Thinks Tingle of Yellow in Dempsey or He Would Meet Johnson. The following letter has been received in regard to Dempsey and the color line.

The same old perennial dope is again usurping valuable space on the sporting pages—"Dempsey draws the color line." No available colored man anyway," and so on.

Only Against Blacks. In the present case, for instance, Dempsey doesn't draw any line against the Jap or the Chink; he doesn't bar any of the most illiterate races of Southern Europe. And note that none of these peoples has ever brought forth a real fighter.

On the other hand he does bar the Negro. He is willing to meet men of any tint whatever unless they happen to be black; and those same black men are Americans—his own fellow citizens.

The colored race has done its share in the development of America and is acknowledged the co-equal of the white race by the American Government. And note again, that the race has developed scrappers of the championship breed and has at present possible "colored hopes"—Wills, for instance.

Reputation, Not Reason. Then, too, just glance at one of the reasons that Dempsey gives for not meeting Johnson—his reputation. If that's a real reason then why isn't it applied to white men as well as colored?

What would the world say of a sporting man in any other game, a sprinter for example, who refused to meet a challenger on account of color?

It seems to that any fair minded man after giving the subject a little thought must admit that a title holder should, as a matter of good sportsmanship, meet all qualified challengers regardless of race or color.

An Irishman applied for a job at the gas works. "What can you do?" asked the foreman.

"Almost anything, sir," said Mike. "Well," said the foreman, who was a bit of a joker, "you seem to be all right in 'em—could you wheel out a barrow of smoke?"

"Shure I could do that," said Mike. "If you would fill it for me first."—Boston Transcript.

LUMBER IS HERE FOR LOADING ON BIG VESSEL HERE

ALICE ARM

A new school is to be built here as soon as the funds can be raised. The government has made a grant of \$300 and clearing of the four lots for the site near John Lulich's boarding house has commenced.

Work on trails and roads in the district is going ahead. A. I. Carruthers, engineer, visited here recently and made an inspection of the Alliance trail. The trail on the northeast fork of the Kitsault River is to be extended four miles and more work on the Upper Kitsault will probably be done later on. As soon as the lumber arrives the new bridge in front of the hotel will be built.

The Alice Arm baseballers defeated the Anyox store in a game played here recently. Don Cameron, of Alice Arm, and Oatman, of Anyox, made home runs.

There may be something you want. See the photograph below.

DOLLY VARDEN COMPANY SUED FOR MORTGAGE

Effort Being Made to Force Payment of \$182,322.

VANCOUVER, Aug. 15.—The Dolly Varden mining property has emerged into the limelight again, in the shape of a suit filed against it this morning in the supreme court here for \$182,322, by George Wingfield, of Reno, Nevada.

It appears that under the legislation passed at Victoria in the session of 1920, by which the title to the property was finally vested in the present holders, one of the liabilities assumed by such holders was the obligation to pay this mortgage, which was originally for \$150,000, but which has grown to the amount now claimed by the accretion of interest.

The mortgage fell due on July 31 of this year, and action has now been entered by the plaintiff's solicitors, Bourne, McDonald and Desbrisay. The defendants named are the Taylor Mining Company, Ltd., the Taylor Engineering Company, Ltd., and Chas. M. Ralston, Cambie and Smith Street. Plaintiffs ask for an accounting, for foreclosure, for possession, and for the appointment of a receiver. The properties included are the Dolly Varden group, and also a number of other claims in the Cassiar district of British Columbia.

IN THE LETTER BOX NAME FOR SCHOOL.

Adair Carss School.

Editor Daily News:

In answer to your request or suggestion for possible names for the new school building nearing completion, I would like to submit the name of one of this city's and the Province's most highly respected citizens that lost his life in the great war, and possibly in one of the most brutal and cowardly deeds committed by the enemy soldiers.

I suggest the name of the school be "Adair Carss School" in honor and memory of our former citizen by that name, and that a memorial tablet be stuck in our local drydock, possibly of bronze or copper from Anyox fittingly inscribed in memory of same.

I fully realize the names that have been suggested of others but some of them have the highest honors that our Empire bestows upon any one and are enjoying life and health, while the name I suggest in years to come might possibly be lost in the memories of Prince Rupert's citizens and more especially by the future school children.

I further submit in support of this, that in passing through the courses of education, the above suggested was in many cases at the head of his classes finishing with the highest honors in law studies and one of the best athletes ever in this city.

Thanking you for this opportunity and feeling that dedicating the school and memorial tablet the same day would be a day long to be remembered.

B. F. SELF.

William Booth School.

Editor Daily News:

In your issue of Aug. 12 you ask for suggestions of appropriate names for our new Hays Cove School now nearing completion.

I would suggest the name "William Booth." What could be more appropriate than the name of the man who has served his country so faithfully and well, not only on the field of battle but as a valued employee of our Fair City for so many years and who so heroically sacrificed his life in an attempt to save the lives of several little children?

MRS. A. J. MALLETT.

Laurier School.

Editor Daily News:

I think a very appropriate name would be "The Laurier School," as Sir Wilfrid Laurier was the man who put this town on the map. The name with the name of the circle in which the school is built, would combine the two who did a lot for Prince Rupert, Laurier and Hays, the latter giving his name to the circle in which the school is built.

MRS. W. KEITH.

William Beynon arrived in the city from Port Simpson on Saturday afternoon.
