#### Vice President C. A. Hayes Of Canadian National Lines Says Freight Rates to Drop

OTTAWA, May 22.—Replying to questions by New Brunswick members, C. A. Hayes, vice-president of the Canadian National lines, this morning informed the special committee on railway transportation costs that the Canadian National Railways proposed a cut of sixteen or seventeen per cent in freight rates on lumber.

President Beatty, of the Canadian Pacific Railway, in giving evidence on Friday, suggested a cut of 11.7 per cent.

#### SHIP BURNED WATER'S EDGE

Disaster Overtakes Conestoga  
When in Canal Locks at Ogdensburg, New York

OGDENSBURG, New York, May 22.—The steamer Conestoga, loaded with wheat, bound east was burned to the water's edge in the locks here. The fire started from an unknown cause and the crew stood at their posts and got the vessel out of the canal before leaving. Several were badly burned. The damage is estimated at \$250,000.

#### PREMIER GREENFIELD GOES TO OTTAWA ON FREIGHT RATES

EDMONTON, May 22.—Premier Greenfield has left for Ottawa where he will present Alberta's viewpoint in support of a renewal of the Crow's Nest agreement. No further intimation has come to the provincial government authorities as to any step that this province will be expected to take in connection with the putting into effect of a wheat board, according to Premier Greenfield.

#### PRIVILEGES TO FOREIGN FISH BOATS RENEWED

Important Measure for Prince Rupert Extended by Governor General.

Under an order-in-council passed recently at Ottawa by the Governor General, on recommendation of the Minister of Marine and Fisheries, the privileges enjoyed by American boats in British Columbia waters, especially in the port of Prince Rupert, are renewed for the year 1922.

The order is as follows:  
During the present calendar year (1922) foreigners or foreign corporations bringing fresh fish in vessels registered in the United States of America to any port in British Columbia, shall be permitted to land such fresh fish at such port without payment of duties, and tranship the same in bond to any port in the United States, or to sell such fish in bond to such local dealer or dealers as may be properly and duly licensed therefor under the regulations and conditions hereinafter mentioned, which dealer or dealers shall export the same in compliance with the bonding requirements (but without, in right, however, in either instance, to sell in Canada for consumption therein or otherwise, except in bond, any of such fresh fish so landed), or to sell their fish for use in Canada on payment of the duty; and such foreigners and foreign corporations bringing fresh fish in vessels registered in the United States of America to any port in British Columbia, shall be permitted to purchase bait, ice and supplies, and ship crews for such vessels at any port in the said province of British Columbia; provided also that such foreigners and foreign corporations, before bringing fresh fish to a port in British Columbia may be permitted to purchase bait and ice at any port in the said Province of British Columbia upon an undertaking to the satisfaction of the Minister of Customs and Excise that catches of fish made with any baiting so supplied shall be landed at a port on the mainland of British Columbia—the whole under such regulations and conditions as the Minister of Customs and Excise may determine.

#### BARON BYNG TO VISIT HERE IN MONTH AUGUST

Baron Byng of Vimy, Governor General of Canada, will visit Western Canada this summer accompanied by Lady Byng. The vice regal party will tour the southern interior in the early part of July reaching Vancouver on July 21. They will leave that city on the morning of Tuesday, July 25, for the Yukon.

According to present plans Prince Rupert will not be visited until the return south on August 19. Victoria will also be visited after the Yukon. It is expected that ex-servicemen will take an active part in the reception of the former Canadian Commander-in-chief and already the ladies of the city are planning functions in honor of Lady Byng.

#### MACAROW ACQUITTED

Charge of Making False Statements Dismissed in Montreal.

MONTREAL, May 22.—Judge Cusson this morning dismissed the charge against C. Macarow, general manager of the defunct Merchants Bank of willfully making false and deceptive statements for October, 1921. The charge was laid by an official of the finance department. It is likely an appeal will be entered by the Dominion government. Pending such action the case against Sir H. Montagu Allan, president of the Merchants Bank is held over.

Mrs. Allan M. Davis and family returned to the city on the Princess Louise this morning after a fourteen months' visit to England.

#### NEW STEAMER REACHES PORT

Princess Louise Here This Morning on Maiden Trip to Skagway

At 10 o'clock this morning the new C.P.R. coast steamer Princess Louise glided to her berth at the government wharf on her initial cruise to Skagway with Captain Arthur Slater, senior Canadian Pacific commander in the Alaska trade, on the bridge.

The ship was built by the Wallace Shipbuilding and Dry Dock Co. at Vancouver to replace the steamer Princess Sophia of the Skagway service. As she has never been north since she was launched and is known as the queen of the C. P. R. fleet in tonnage, finish, general strength and attractiveness, the arrival of the vessel created a great deal of local interest. The boat is 1,200 tons gross, 330 feet over all, with a beam of 48 feet, permitting of spacious promenade decks, and a depth of 18.6 feet. She develops a speed of 17.5 knots, but came north at the easy rate of 14 knots.

Accommodation is afforded for 300 passengers and in the dining room there is a seating capacity for 150 persons. There are separate second class dining and smoking rooms.

Modern Refrigeration  
The very latest type of refrigerator plant has been installed and it is sufficiently large to contain a carload of perishables. Powerful derricks are a feature of the freight department.

Interior  
The interior furnishings are of solid polished paneled walnut and the cabins are finished in white enamel with mahogany trimmings. The dining room is of light oak with polished mahogany decorations. The staircase leading to the sitting rooms and writing saloons is also of mahogany, the wood carvings and decoration affording a spacious, luxurious effect. The observation room is located on the forward portion of the vessel and is constructed of mahogany. Over the observation room is located the library. There are six special suites and special designing has been effected in each of these. A bathroom is located between each of them.

#### Personnel

The personnel of the officers of the vessel is as follows:  
Captain Arthur Slater, master; Thomas Cliffe, extra master; Jas. Lawrence, first officer; Jas. Flood, second officer; John McLaren, third officer; Frank J. Gosling, purser; Harry Godson, assistant purser; F. B. Hawes, assistant purser; Wallace A. Pierce, wireless operator; Jas. Pettierew, chief engineer; Frederick McGraw, second officer; C. R. Kinney, third officer; Sinclair McDougall, fourth officer; W. Horne, chief steward; Miss Agnes McKenzie, stewardess; W. Mackie, quartermaster; R. Anderson, assistant quartermaster.

The following officials were aboard the steamer making the round trip from Vancouver to Skagway:

Andrew Wallace, Mr. McCall and John Howie of the Wallace Shipbuilding and Dry Dock Co., Vancouver; Captain James W. Troup, Manager of the C.P.R. B.C. coast steamships; James McGown, superintendent engineer, Vancouver; H. J. Maguire, baggage superintendent of the C.P.R. at Vancouver; H. W. Brodie, C.P.R. general passenger agent, Vancouver; W. R. White, C.P.R. assistant port steward, Vancouver.

#### SOUTH SHORE WINS KING'S PLATE RACE

TORONTO, May 22.—The King's Plate race, the opening of the racing season, run at Woodbine & Track on Saturday afternoon was won by South Shore, Paddle was second and Eljsemar, third.

#### STAND BACK SUNDAY LAW

Mayor Marchant and Commissioner Staneland, of Victoria, Refuse to Give In.

VICTORIA, May 22.—The police commissioners of Victoria on Saturday night refused to revoke its order for strict enforcement of the Lord's Day Act in this city. Although representatives of the Anti-Blue Sunday League, attended the meeting armed with documents showing how the voters had gone 7 to 1 last week against Sunday closing, Mayor Marchant and Commissioner Staneland remained firm and declared that they were willing to sacrifice themselves to a species of martyrdom rather than swerve from their interpretation of what their oath of office implied.

#### EGYPT SINKS; 100 ARE LOST

BREST, May 22.—Nearly 100 persons perished last night when the Peninsular and Oriental liner Egypt sank off the Island of Ushant after colliding with the French steamed Seine.

The Egypt sailed from London on Friday for Bombay with 44 passengers and a crew of 290. The roll call on the Seine after the disaster showed that at least fifteen passengers and 80 of the crew were missing.

#### GRAHAM ISLAND ROAD.

Hon. Dr. W. H. Sutherland, provincial minister of public works, announced last week in Victoria that \$27,000 has been set aside this year for the completion of the main road on Graham Island. This work has been going on for a couple of years already.

#### Signatories of Saturday's Dail Eireann Agreement Are Invited To Discuss Situation in London

LONDON, May 22.—The British government has invited the signatories to the Anglo-Irish treaty to come to London and discuss with the British signatories the agreement which was signed on Saturday between the representatives of the provisional government and De Valera's representatives. An announcement to this effect was made in the House of Commons today by Rt. Hon. Winston Churchill.

"While every endeavor will be made to avoid unnecessary expense and sensational acts, it is the intention of the British government to support the government of Northern Ireland in every way necessary," Mr. Churchill said.

#### Agreement Impossible

The agreement reached in Dublin on Saturday between the leaders of the factions of the Dail Eireann is regarded by most editorial writers in today's London

#### Report Says King Boris Fled and Wrangel's Army Officers Are Driven Out

VIENNA, May 22.—Conflicting reports say that Bulgaria is in a state of revolt and that King Boris has fled with his suite from Sofia to Varna and Premier Stamboulsky, who represents the agrarians and peasants, has proclaimed a republic. Civil war is said to exist and officers of General Wrangel's army have been expelled.

Another report says that Sofia is comparatively quiet and army leaders have issued a proclamation declaring loyalty to King Boris. The expulsion of Wrangel's officers is said to be carrying out the agreement between the Russian soviet and the Bulgarian government.

#### PRESENT SESSION MAY LAST UNTIL MIDDLE OF JULY

House of Commons Has Not Yet Passed on Much Legislation to Senate.

OTTAWA, May 22.—The parliamentary wheels are grinding very slowly at the Capital, and at the present rate of progress the end of session will not come until the torrid days of July are here. The Senate, through whose hands legislation from the Commons must go has so far sat spasmodically, and at little length, the reason being that its energies have been principally confined to the approval or disapproval of the terrific grist of divorce applications considered by its committee. Comparatively few measures have yet come through from the Commons.

The carrying on of Government without a clear majority is undoubtedly a rather difficult matter. Even if Premier King favored the imposition of closure—and it is very doubtful if he does—closure, under present conditions is almost impossible to invoke. Business must be transacted with the will of the Commons and not, as formerly, by force of a majority party therein.

Mr. Shaw will request the Prime Minister to set a date for discussion on his redistribution resolution and, while private members' days are nearing their end it is scarcely possible that the Premier will refuse to provide for a debate on such an important topic. Should the resolution carry, then the session will be further lengthened. The one subject which potentially may contribute most to the lengthening of the session is the freight rates inquiry. If it be on the broad lines suggested fully a month may be occupied—a prospect not generally relished.

#### MUCH DISORDER OVER WEEK-END

Hostages Are Seized by Free Staters—27 Deaths in County Last Few Days.

BELFAST, May 22.—Seven officials of the Six County provisional government have been arrested here and are being held as hostages by Free State sympathizers following the detention of 26 businessmen from the Free State area who were on business in the Six Counties area. The Ulster government has been appealed to and the British cabinet will be asked to intervene.

A seaman wandering about Belfast was questioned about his religion and shot and wounded. Several incendiary fires are reported in County Antrim.

Two men and a child were killed in Saturday's shooting in the city and several were wounded. Two more men were killed on Sunday.

Two women named Shields in a farmhouse were shot and wounded when they could not produce the male member of the family who was wanted by the revolutionaries.

Total deaths for the week-end in Ireland were twenty-seven.

BELFAST, May 22.—The killing this morning of W. J. Twaddell, member of the Ulster parliament, who was shot while on his way to business, caused the issuance of a manifesto by Sir James Craig, the premier, announcing a special meeting of the cabinet and legal authorities. The premier declared that just retribution is called for. Twaddell is the first member of the parliament to be attacked in the history of Belfast's disorders.

#### GO TO SUNDAY SCHOOL SET ASIDE NEXT WEEK

VICTORIA, May 22.—At the request of pastors, Sunday school superintendents and teachers, Premier Oliver and members of the government have promulgated Sunday, May 28, as "Go To Sunday School Day" for grown-ups as well as children of British Columbia.

#### SODA WATER WORKS GUTTED BY FIRE

Thorpe Plant at Victoria Suffers Damage Amounting to \$25,000.

VICTORIA, May 22.—Fire on Saturday gutted the frame portion of Thorpe Co.'s mineral water works here. The loss is about \$25,000.

Mrs. Balch and two daughters, of Hyder, were southbound passengers on the Prince Rupert last night. They are going from Hyder to Seattle on a visit.

## Outlook For Paper Making Here Is Good

The projects for the establishment of pulp mills here and at Prince George are being watched with interest by lumbering interests not only in the north but all over the country.

The announcement made recently by Hon. T. D. Pattullo, minister of lands, on his return from the East where he had been in consultation with the interests considering the propositions, showed that, while the Prince George proposition had come to a temporary impasse at least, the outlook for the establishment of a pulp mill here was still a live matter and the possibility was much closer than many people might believe.

It goes without saying that Mr. Pattullo is right behind the local scheme and if there is any possibility of the provincial government by any reasonable means being instrumental in the obtaining of the new industry here it will get the Minister of Land's full support. In fact he has already told the financial interests of Chicago and Dayton who are now considering the local subject that the provincial government will give them every assistance in its power.

Mr. Pattullo was by no means pessimistic of the eventual success of the proposition while he was here. Statements he made indicated that, even if the present interests did now go through with their plans, Prince Rupert was very likely to have a pulp mill before long any way.

The Minister pointed out, as most people here know, that the location is one of the most eminently suitable in the country for such a plant. The Seal Cove site is situated both on water and rail transportation which makes marketing a very easy matter, there is an abundance of the requisite raw material in the immediate vicinity, power and water supply is close at hand and the site itself is most convenient.

Prince Rupert has, indeed, good reason to hope with confidence that pulp and paper making may, before a great time, become one of the city's industries. It will be a permanent one, too, thus contributing to a lasting prosperity for the community.

## Better Transportation Conditions Needed.

Spring is here again but, as far as the lumber business generally is concerned in this district, there have been few outstanding developments to record so far this year. There has been a certain amount of spring activity evident, it is true, but this has been nothing out of the ordinary and only marks the usual seasonal opening up. A few sawmills have started up as well as some of the logging camps after the winter's idleness, but the month of May has been singularly devoid of anything big. Indications are that, while the 1922 season may be a little more active in some parts of the district than 1921 was, the year will be little more than an average one.

It is becoming more and more apparent that before the timber and lumber business in Northern and Central British Columbia assumes the size that the district's possibilities warrant there will have to be more favorable transportation conditions. A reduction in freight rates is the most needed change and, therefore, the activities of the parliamentary committee that was appointed, recently at Ottawa to go into situation will be watched here with keen interest. Excessive freight rates are doubtless causing the Canadian National Railways to lose much business in the timber and lumber industries alone. As far as this district is concerned the question seems to be whether the policy of high freights and little business or lower freight rates and increased business is to be in vogue. From a national standpoint it would seem that the latter policy would be the natural one, but there are many difficulties in the way of reforms although they are vitally necessary to the business of this district.

## WHAT GRAND TRUNK STEAMERS RECEIVE FOR Q. C. SERVICE

Annual Report From Ottawa Shows Big Decrease in Business to Islands—Subsidy of \$21,000

The Grand Trunk Pacific Steamship Co., operating the steamers Prince Albert and Prince John in the Prince Rupert-Queen Charlotte Islands service, gets an annual subsidy of \$21,000 from the Dominion government according to the annual report of the Department of Trade and Commerce which has just been made public. A subsidy of this amount was given in the fiscal year ending March 31, 1922, and a similar appropriation has been made for the current fiscal year. The contract between the government and the company, which provides for the free carrying of mails, calls for fortnightly trips from Prince Rupert, calling each way at Refuge Bay (on Porcher Island), and Masset, Port Clements, Sandspit, Skidegate, Queen Charlotte, Jedway, Thurston Harbour, and Lookout, and calling once each month at Comshaw Inlet, it being understood that the call at Refuge Bay shall be made by a subsidiary launch service provided by the contractors; calling at the option of the company when deemed necessary at Ketchikan, Alaska.

## Traffic Decrease

According to the report on traffic returns 26 trips were made in the year 1921. Passengers carried totalled 1,764 as against 5,566 in 1920 and 11,157 in 1918, the heaviest year recorded. In 1921 there was 3,649 tons of freight carried as against 5,158 in 1920 and 17,395 tons in 1918. In the year just past 3,977 lock bags and 31 tied sacks of mail were carried as compared with 3,246 and 101 in 1920 and 4,231 and 551 in 1918.

The subsidy of \$21,000 has been in effect since 1917, the grant for that year having been \$19,750.

## COMING TO COAST FROM ANTIPODES TO HUNT BIG GAME

To hunt the big game of Alaska and the Yukon is the ambition of R. H. Hunter Weston, of Gleniti, New Zealand, who proposed to come to this continent to organize a hunt in the North this summer.

Major Armstrong, of Victoria, who is engaged in developing mining properties in Alaska has written to C. P. R. officials, informing them that Mr. Weston is making his plans to come to Victoria en route to Alaska and will arrive there by the liner Niagara on her next inward voyage. The Niagara is next scheduled to arrive at Victoria July 15. Guides for the Alaska hunt have already been engaged by Major Armstrong. The Weston party will sail for Skagway by either the G. P. R. S. S. Princess Louise or Princess Alice, and will then go into the McMillan River country.

Mrs. Hunter Weston and family will make their residence in Victoria while Mr. Weston is hunting in the North, and may make the cruise to Skagway, returning to await the hunting party's return.

## WELL KNOWN TANKER HAD ROUGH PASSAGE

Talaralite Sustained Considerable Damage Going From Vancouver to Montreal.

Captain E. C. Swank and members of the crew of the tanker Talaralite, well known here, have just returned to Vancouver after having taken the vessel from the Pacific to the Atlantic coast. The steamer had a stiff time rounding Cape Hatteras and entering the Gulf of St. Lawrence. At Hatteras everything movable was swept from the decks and one of the life boats was torn to splinters. In the Gulf of St. Lawrence the ship held for four days in ice floes and 22 plates were damaged one being split open and admitting water. On arrival at Montreal the vessel was docked for repairs.

A. W. Carter, of Oceanic, is registered at the Prince Rupert hotel.

Munich Libel Action Reveals Long Suspected Fact.

BERLIN, May 22.—In the course of a libel action brought by Herr Fechenbach, of Munich, against a local firm of publishers, a letter has been produced which is said to have been written in December, 1914, by Count Lerchenfeld, then Bavarian minister in Berlin, to Count Hertling, the Bavarian premier. This letter reveals what has long been suspected, that the terms of the Austrian ultimatum to Serbia were known in Berlin and Munich on, if not before, the day (July 23, 1914) on which the Austrian note was presented in Belgrade.

# ROYAL YEAST CAKES

As a health builder, Royal Yeast is gaining in popularity every day. It is a food - not a medicine. It supplies the vitamins which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamins, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass luke warm water and teaspoon sugar to each yeast cake. Allow to stand over night in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

## Two Men in a Car

A short account of a Trip to California in a Ford Flivver  
By H. F. Pullen

### THE HOTTEST YET.

MODESTO, May 12.—Those who like a hot climate should try the San Joaquin (pronounced San Waakeen) and the other interior valleys of California which connect with it. Today has been intensely hot, a great contrast to the cold weather of a day or two ago when near the coast.

Yesterday we crossed the Teahachapi mountains and drove along the tops over a wonderful road for about half a day. It is called the Ridge Road and while you look down hundreds and even thousands of feet, the grades of the road are so easy that our little Ford negotiated them on high all the way. The scenery cannot be described. There were no trees but the hills were mottled like a leopard. Descending into the plain we have had level country ever since, so level that it is tiring to drive on account of the sameness. Today we covered two hundred miles most of the way through irrigated lands including wonderful grape country around Fresno.

There are a number of fine little cities and thriving towns about every few miles along the route. Sometimes we pass through an oil country and then again it is purely agricultural.

### At Modesto.

Tonight we had supper in Modesto and are now camping on the banks of the river. There have been no incidents that could interest northern people. There are a few mosquitoes flying around and occasionally one bites, but not so many as to make it disagreeable. There are about a dozen other parties camped in the park here.

I was much impressed with the influence of environment on people. In places where there was plenty of water and the land was suitable, the people were prosperous, clean, and active. In places where there was not a sufficiency of water or where the land seemed unsuitable for bearing good crops there was every evidence of slothfulness, dirt, neglect, and a generally unkempt condition.

To any young man who would succeed I would say: Go to a community that is prosperous, that has natural wealth and that offers inducements for others to go there. Nothing is so discouraging as to have to fight nature.

### Close to Accidents.

We left Los Angeles for home yesterday morning and hope to continue northward. We have had no accidents so far but have been very close to them. Yesterday morning as I was making my way out of the congested part of Los Angeles, I saw a girl knocked down. I could not be sure whether it was done by the street car or a passing auto as I was intently minding my own business just then, but I saw her fall and saw the others pick her up. She did not seem badly hurt.

Yesterday we passed a big Cadillac car on its side and were told by people standing near that two young men had stolen the car and upset it there a few minutes before we arrived. One was killed and the other was not expected to recover.

I think I told before of seeing a Ford smashed at Palo Alto when two men were fatally injured. It struck a tree on the roadside and telescoped, one man being thrown out and the other remained tangled in the wreck.

### Job's Comforter.

Many of the garages advertise tow-cars and the religious fanatics now and then write sentences on the fences such as: "Where are you going when you die?" There are inspiring. I have forgotten how many fatal motor accidents there were in Los Angeles in the past month but it was a large number. The wonder is that there are not more.

We have driven in Seattle, Tacoma, Portland, San Francisco and other places, but Los Angeles is by far the most difficult owing to the large number of cars there. Every street for miles is lined with parked autos. At some corners turning to the left is forbidden. The way the practiced drivers dodge in and out is a wonder. It makes me nervous to pass through the city with the Lizzie.

Hollywood, which we visited several times, appeared to us as the best bit of Los Angeles, but there may have been other suburbs we did not visit. We saw Venice, an intensely beautiful place, but rather degraded by cheap amusements.

### Secret of Prosperity

Yesterday I met a business man and asking him about conditions in the big tourist centre. He told me the place was prosperous partly because of the immense tourist trade and partly because it was a non-union city. Many factories were establishing there rather than at San Francisco, because labor conditions were more favorable.

It seems that unskilled labor is cheap because so many people with small capital go there to live and then find the time hang heavy on their hands and decide to look for temporary jobs. They are willing to work for low wages because they do not wholly depend on the wages for a living.

Tomorrow we hope to be in Sacramento and will keep moving northward as time is limited. This hurried trip does not give much opportunity to see things.

## MESSAGE FLOATED FROM MID-OCEAN TO GRAHAM ISLAND

An interesting piece of paper enclosed in a bottle which has floated over 1000 miles from the middle of the Pacific Ocean to the west coast of Graham Island, and since September 29, 1921, was picked up by P. A. Meuse, fisherman of the schooner Murineag, Captain M. Solows, which was in port over the week-end. The bottle was found on the beach of Graham Island last Monday.

The message, which is written on a sheet of note paper of the Admiral Line steamer Keystone State and is almost washed out by apparent contact with water, is as follows:

"En route to Victoria from

## NEW BUILDING IS FINE ONE

Middy Fortier Has Handsome Four-storey Permanent Block on Eighth Ave.

One of the finest permanent cement, tile and stucco four-storey buildings in the city is situated on the corner of Eighth Avenue and Fulton Street and will be completed early in June. This building is being erected at a cost of \$7,000 by A. Fortier, an old timer of Prince Rupert, who recently returned to the city from Montreal after a five year absence. He is taking up his permanent residence here and thinks that of all the cities he has visited Prince Rupert is the best. Mr. Fortier says that for first class workmanship in the building line the workmen of the city have no equal. The building has a 30 foot frontage by 10 foot depth and a full 8 foot cement basement. The entire cement work and outside stucco was executed by R. Bryson and G. V. Van Tuyl and leaves nothing to be desired from a workmanship standpoint. The store floor has a 10 1/2 feet height from floor to ceiling, with a suite in the rear comprising bathroom, kitchen, living room and bedroom. The store will in all probability be opened by Mr. Fortier in the near future. The upstairs living quarters are roomy and airy, with large windows admitting much daylight and consisting of dining room, two bedrooms, bathroom, kitchen, and a large living room. The ceilings are 9-ft. 3-in. high. The plumbing has been admirably done by H. Letourneau and easily passed the city test. The whole interior is lathed and plastered with hardwall plaster finish giving the maximum of inside comfort, the work being done by G. Blythe. The building is fitted throughout with the double wiring system installed by Don Brown, permitting of light and power for cooking and heating being carried over separate wires. Provision has been made for electric heating in every room. The flooring will be of double dressed fir, the interior carpentry being carried out by A. Leveque.

Mr. Fortier says that for the northern climate this class of building is by far the best and cheapest in the long run, and that, in insurance rating alone, the premium is less than half on

## GUESSING CONTESTS DEMORALIZE YOUTH

Calgary Council Urge Minister to Make Practice Illegal.

CALGARY, Alta., May 22.—A most definite stand in regard to guessing contests on football and baseball games which is at present being conducted by several newspapers and publications in Western Canada has been taken up by the Council of the Calgary Board of Trade and a resolution urging upon the Minister of Justice to amend the Criminal Code of Canada in order to make such a practice illegal has been adopted.

Members of the Council are unanimous in their opinion that the amount of the money and time now being consumed on these guessing contests interferes with legitimate business and were helping to form, particularly in the minds of the young people, the idea of getting something for nothing which was not in the public interest.

### RAVES SECRETS OF NORTHERN WILDS

Prospector in Victoria After Twenty Years Search for Gold—17 Years in Unknown Plateaux.

### NATURAL OIL ROUTE BY PORTLAND CANAL

Seventeen years' effort in the wilderness, hunger and exposure and now the eye of success, such is the story of Frank Perry, explorer and miner, who told something of the romance of his life in a Victoria Times-Representative while in Victoria last week. Perry has the physique of a man, and the man who lives close to nature. He has battled with the elements, and traversed the unknown waste spaces of northern British Columbia for many years seeking a good gold location which would warrant capital going in the development of a scale commensurate with the effort.

### Found Many Things.

Wandering for many months without human companion, enduring his dog team to give him results, and facing stoically many rebuffs from Nature, Mr. Perry has found many other things beside mineral indications in the great spaces now shown as blank spaces or conjectural physical features on the maps. He has found many suitable farming areas, as yet too far removed from transportation, and places where frost is almost unknown, owing to chemical agencies, in the form of hot springs, creating remarkable results.

He thinks that at last he has located a suitable quartz deposit, free from overburden, which will pay development. The long period in the wilderness has been passed systematically, and his respective reward has been fully earned.

### Natural Oil Route.

As was to be expected, Mr. Perry discovered several instances of oil bearing formation. He states that the natural grade of oil from the headwaters of the Finlay, and the Dease, and westward to the Stikine, and thence to the Portland Canal, is the natural oil line for oil from the Fort St. John district, there being no elevations to cross in making the route to the coast. Having thoroughly explored the country, he states that there would be no real physical obstacle in a route of that nature.

Three new dump wagons, made by the B. C. Equipment Co., of Vancouver, arrived for the public works department of the provincial government on Saturday afternoon. They will be used in various parts of the district.

### FIRE MARSHAL FOUND CENTRAL INTERIOR WAS HAVING BOOM

J. A. Thomas Returns to Vancouver After Spending Three Weeks in North.

"New settlers are pouring into the Bulkley Valley and other agricultural regions of Central British Columbia," stated J. A. Thomas, provincial fire marshal, on his return to Vancouver last week, from an official organizing tour of the Grand Trunk Pacific country. "Every town, particularly Vanderhoof, Telkwa, Smithers and Terrace, has its quota of newcomers seeking homes or purchasing supplies and equipment for new homes just established."

"Scores of new buildings are going up in the various towns, and I know no part of the province where prosperity and development are more conspicuously present. At Lucerne, the topic of the hour is the squabble between Lucerne and Jasper as to which is to be the permanent

divisional point for the National Railway. One is the old divisional point of the C. T. P., the other of the Canadian Northern. The combined National system needs only one and Lucerne is putting up a strong fight against the Alberta town.

### Fire Districts Defined.

"Lucerne was apparently having the best of the argument until a week or two ago when Jasper enlisted the support of the Edmonton Board of Trade. The day before I arrived the citizens of Lucerne had joined issue by taking up a collection of \$150 to send one of their number to the coast to enlist the support of the Vancouver Board of Trade and the provincial government."

Fire districts were defined at Hazelton, Terrace, Smithers, Burns Lake, Vanderhoof, Endako, Telkwa, Fort George and Lucerne by Mr. Thomas on his three weeks' tour. Assistant fire marshals will be gazetted shortly. Mr. Thomas stated. The new officials will be charged with the responsibility of organizing volunteer fire brigades and with inspecting fire risks that imperil life and property.

### Sport Chat

The season's schedule of the Juvenile Baseball League, under the management of W. J. Cash, will commence next Friday night at the Seventh Street grounds. Last Friday night a practice game was played between the Midgets and the Falcons, the latter winning by a score of 17 to 6. There will be another practice game tonight. Organization of the Junior League is also under way and although the program has not been rounded out yet it is assured that there will be an interesting series in this division as well. The season's schedules for both leagues will be announced in the near future.

It is hoped to have three teams enrolled this season in both the Juvenile and Junior Leagues. In the former, two teams, the Falcons and Midgets, are already organized. In the Junior League the White Sox and Tiny Tims have come forward. It is possible that the Boy Scouts may furnish the third teams in either league. The complexion of the time-ups, it is reported, is going to be considerably altered from last season.

More than the Scots were surprised at the result of Friday night's football game when the Grotto obtained a 4 to 2 win over the Gallies. Many close followers of the soccer game had it figured out that the Gallies and Sons of England were the two teams mostly likely for championship honors this season but the work of the Grotto last week rather upsets that hope and they themselves have now come into the limelight. The Sons of Canada, while it was realized they might present formidable opposition, have been weakened since last season it was thought and many doubted if they would carry the Gihully Cup this season.

As it is now, the Sons of Canada and the Sons of England each have one victory chalked up to their credit while the Grotto has a win and a loss and the Gallies two losses. So it may be anybody's championship as far as results so far this season are concerned. The game tonight between the Sons of Canada and the Sons of England should be an interesting affair. Whichever team wins will be indisputably at the top of the League and will have won quite an advantage.

The football league standing to date is as follows:

|                 | W. | L. | Pts. |
|-----------------|----|----|------|
| Sons of England | 1  | 0  | 2    |
| Sons of Canada  | 1  | 0  | 2    |
| Grotto          | 1  | 1  | 2    |
| Gallies         | 0  | 2  | 0    |

The team standing to date in the Intermediate Billiard League is as follows:

|                | Pl. | Tl.  | Av. |
|----------------|-----|------|-----|
| Sons of Canada | 5   | 1327 | 865 |
| Elks           | 6   | 1472 | 812 |
| Grotto         | 6   | 1461 | 810 |
| Barbers        | 5   | 1357 | 713 |

Local anglers say that the water in the streams is still too high and the weather is too cold to make for successful trout fishing. Several expeditions have been out but very few catches of any size at all are reported in spite of the fact that most of the favorite haunts have had a few visits. The restlessness for the stream is in the blood, nevertheless, and the boys continue to go out to try their luck. Since patience is one of the necessary attributes for the successful follower of Isaac Walton they will have to follow up that virtue until weather conditions are a little more favorable for the full success of the ancient and honorable pastime.

Decision to hold the first of what is intended to be an annual spring meeting on May 24, was arrived at by the members of the Telkwa Jockey Club at a meeting recently, and active preparations are under way to establish the event in a favorable light to the public. The meeting was very largely attended and proportioned in enthusiasm, a strong committee under the chairmanship of Jack McNeil being appointed to handle the meeting.

This committee is hand-picked from the district enthusiasts of the sport of kings and the king of sports and included Al Falconer, R. E. Wakefield, F. M. Dockrill, H. Miller, Geo. Mur-

# ANSWER THIS PUZZLE WIN \$1000.

**Movie Stars**  
Believing that Movie Stars of note are known by most everyone in this country, the Movie Editor determined to devise a puzzle to strengthen his belief, and the result of his endeavors we offer our readers and friends for their entertainment. It is open to everybody, and costs nothing to try. Read how to play, and then get busy.

The B. C. United Farmer hereby extends an invitation to its readers and friends to participate in this new and novel movie puzzle game.

**How to Solve the Puzzle**  
On the bulletin board above the B. C. United Farmer Movie are the names of ten movie stars. The idea is to arrange the letters so they will correctly spell the name of some well-known movie actor or actress. For instance, No. 1 is Wallace Reid. See if you can name the others. If you name them all you can win \$1000. Those not familiar with the movie people will find help in the columns below.

### Here's a Little Help to Those Unfamiliar With Movie Stars

Don't sit idly by and say you can't do it. Anyone should be able to, if they will concentrate. We agree it's hard, but that's just where the puzzle part comes in. If you could fathom it in a minute it wouldn't be a puzzle. Possibly you are familiar with most of the Movie Stars, but to refresh your memory we give below a few of the most popular.

Charlie Chaplin, Mary Pickford, Charles Ray, Norma Talmadge, Wallace Reid, Beverly Bayne, Thomas Meighan, Mabel Normand, Dorothy Gish, Pauline Frederick, Gloria Swanson, Douglas Fairbanks, Alice Brady, Dustin Farnum, Pearl White, Blanche Sweet and Theda Bara.

### Costs Nothing to Try for the Wonderful Prizes

Your success in life is determined upon how much you are willing to put forth to attain it in almost all cases. However, the Movie Actor Puzzle is an exception, as it offers an opportunity to grasp success in a most simple manner. Think what \$1000 might do for you in this money-mad age, and we know you'll get started on the puzzle. An investment of a limited amount of your spare time is all that is required. Hurry, friend; don't give this opportunity but passing notice.

### Only 185 Points Wins \$1000

The answer gaining 185 points (which is the maximum) will win the \$1000 in cash. Second highest will receive \$250, and so on down the list of twenty-five prizes.

For each Movie Name that you correctly arrange you will receive 10 points, or 100 points in all if you arrange all ten names correctly.

Then you can get six more points by "qualifying" your answer. That is, by proving that you have shown a copy of the B. C. United Farmer to five people during this Big Publicity and Booster Campaign. A qualification blank will be mailed you on receipt of your answer.

The final 25 points will be awarded by three prominent and independent judges on the neatness, style, handwriting and spelling of your answer.

### RULES OF CONTEST

- 1—Write all ten Movie Names on one side of a sheet of paper.
- 2—Write your name and address plainly in the upper right-hand corner of the same sheet.
- 3—If you wish to write anything else, use a separate sheet of paper, and sign your name and complete address on it also.
- 4—Three competent judges, having no connection with the B. C. United Farmer, will judge the qualified answers and award the prizes.
- 5—The answer gaining 185 points, which is the highest number obtainable, wins first prize. Ten points will be given for each correct name you send, or 100 points if you get all ten names correct. Sixty additional points are gained by qualifying your answer, and twenty-five points will be given for neatness, style, handwriting and spelling.
- 6—When the Movie Editor receives your solution he will send you a letter telling you just exactly how many points your solution earned and also send you a sample copy of the B. C. United Farmer to help you in "qualifying".
- 7—The contest closes Saturday, July 1, 1922, and announcement of prize winners will be made in the B. C. United Farmer shortly after.

## REAL BOXING MATCH IN PICTURE TONIGHT

Charles Ray Film Is Very Realistic—Personal Direction.

A curious thing about the remarkably exciting fight in the latest Charles Ray film, "Scrap Iron," the First National attraction to be shown at the Westholme Theatre tonight and tomorrow is that the rounds run on the screen about the same time as they do in the ring.

Charles Ray planned carefully and spent one whole day in making diagrams in chalk on the stage for the four camera men who cranked the fight from different angles. The result was that in the two days spent on the fight, a very large number of scenes were taken with only one retake, caused by the lights being turned off too soon. There was very little rehearsing. Charles Ray explained the action and he and Tom O'Brien, his opponent, just went "to it."

It was Charles's first experience in directing big scenes and his determination to direct his own features, was justified. He handled the mob with ease and the action in the fight speaks eloquently for itself.

## SPECIAL MUSIC AT ANGLICAN CHURCH

A special musical service last night was held in the Anglican Church, which was highly appreciated by the large attendance present. The choir gave a beautiful rendering of the anthems "At Even Ere the Sun Was Set," Mrs. J. Barnsley singing the solo, and "Hark! Hark! My Soul" the solo being taken by Miss Dalby and J. E. Davey. Miss Cummings sang "Oh Rest in the Lord" with much effect. "Oh, Lord Correct Me" by Handel, and "Rock of Ages" by Remnick, were rendered by S. K. Cannibell. The duet "The Lord Is My Shepherd" was sung by Miss Dalby and J. E. Davey.

J. W. Austin was the organist.

T. B. Stephenson, of Victoria, is registered at the Prince Rupert Hotel.

## Was Troubled With Her Liver for over 4 months

When the liver becomes slow, sluggish and torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system. Hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow, among which are sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

### MILBURN'S LAXA-LIVER PILLS

quickly remove the secretions, clear away the effects and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice McMill, Nanaimo, Ont., writes:—"I was very badly run down for over four months. I tried several remedies, but got no relief. One day my husband brought me home a vial of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials and I am a different person today."

"I can safely recommend Laxa-Liver Pills to anyone troubled with liver trouble."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### THE REAL CRIMINAL

Editor Daily News:—

A corporation is a composite individual. Lloyd George has advocated for nations as for individuals the first principles of law and order and decency. In his speech before the Genoa conference he condemns the idea of organized efforts to interfere with other nations so long as they mind their own business. It is only when a nation injures or threatens to injure another that we or all nations have any right to interfere. The same thing applies to individuals who compose nations. So long as one conducts himself with respect for the rights of others he is entitled to do as he pleases. When ever he conducts himself in such a manner that he becomes a nuisance or a menace to the community has the right to interfere. This thing of interfering with or regulating some other individual or nation is a crime which should be suppressed.

The first principle of Christianity is to mind one's own business. Any attempt to regulate anyone else's business as occurs in all licenses is contrary to good government. Getting right down to it a nation is a big labor union of which we are all members. We require no protection except against the man who wants to injure some one else. All of us are laborers and we offer service for which people are willing to pay. Theoretically we are banded together to protect ourselves, against the criminals.

Every once in a while criminal minded people using specious arguments secure control of a nation. The individuals of that nation, seeking a solution give greater power to this criminal class. Eventually revolution results. The worst criminal is the man who strives to secure something without an adequate return. This applies to both individuals and nations.

There is no war between capital and labor for Capital is stored labor. The war is between the community and the man who wants to get something for nothing.

HOOMES K. FREEMAN.
