Government Freighter in Dock Here BIG COMPANY TO SPEND LOT OF MONEY AT STEWART MINES

Canadian Skirmisher Docks Here After Run Light Across Pacific

After a cold and wet though fairly speedy passage of 17 days across the Pacific Ocean from Yokohama to Prince Rupert, the Canadian Government Merchant Marine steamer Canadian Skirmisher, Captain H. S. Hilton, arrived in the harbor at 3 o'clock on Saturday afternoon and a couple of hours later was taken up on the pontoons of the Canadian National dry dock where she will undergo annual overhaul which will take several days.

The Canadian Skirmisher is just back on the British Columbia coast after a four month voyage to Australia, the Phillipine Islands, and Japan, the second voyage since she was built. The vessel sailed from Vancouver on January 28 for New Zealand and Australia with lumber and general cargo. After discharging at Auckland, New Zealand, and Newcastle, Adelaide, Sydney and Melbourne, Australia, the Skirmisher left Williamstown (Melbourne) on April 13 with a cargo of wheat and went to Sydney again, where the rest of the space was filled with frozen meat. Sailing from Sydney on April 20 with practically a full cargo, the steamer reached Manila on May 10 where frozen meat was unloaded leaving there the same day. At Kobe three days was spent unloading wheat and tallow and on May 19, the ship pulled out again for Yokohama where the balance of the cargo was discharged. On May 24, the steamer, sailing light, left Yokohama bound for Vancouver.

When the Canadian Coast was neared a message was received from Estevan wireless station with the instructions to alter the course to Prince Rupert for docking.

MEMBER AFTER CARVELL SCALP

C. G. Coote Asks What Hon. Motherwell Has Done About Dismissing Chairman Rail Board

OTTAWA, June 12.—The question of Hon. W. R. Motherwell's election promise to work for the dismissal of Hon. Frank Carvell, chairman of the railway commission was brought up in the House by C. G. Coote, Progressive member for Macleod, Alberta. Mr. Motherwell admitted having made the promise as a private citizen but suggested that, as a cabinet minister, he had certain responsibilities which could be better dealt with in a formal statement which he promised to give to the House at an early date.

Progress has been made with the estimates including \$224,000 passed for railway commission expenses and \$7,000,000 deficit on government railways.

MORE RUMORS OF ELECTION

Some Liberals Want to Go to the Country for Larger Majority.

NO GENERAL SUPPORT.

OTTAWA, June 12.—Rumors of a general election in September as the outcome of the present political situation are current today. Although the possibility of the dissolution of parliament is widely discussed, the rumors bear no official authority.

There seems little doubt that Conservatives as a body and Progressives, with the possible exception of three or four, will vote against the Government on the main motion.

Dissolution, it is understood, is favored by the Liberal wing, which sees in such a step a way out of the present difficulties. They claim the Government would come back with a safe working majority over both opposition parties. Dissolution, on the other hand, finds no general support among the members.

WAR BEING WAGED CHINA ONCE MORE BETWEEN FACTIONS

OTTAWA, June 12.—Tien-Tsin, June 12.—General Chang's proposal for an armistice with Wu Pei Fu appear to have been simply a ruse to gain time for the defeated Manchurian warlord as war has again broken out near Chin-Wang Tao and the battle has been raging three days.

PRINCESS LOUISE WAS IN PORT TODAY

C. P. R. Coaster has 270 Tourists and Big Cargo of Liquor for Yukon.

The Canadian Pacific tourist steamer Princess Louise was in port this morning from 9:15 to 10:15 with 270 passengers making the round trip from Vancouver to Skagway and back again. The steamer also had a large consignment of liquor for the Yukon, the last shipment that can be made across Alaskan territory before the new regulation preventing such shipments is put into effect. There was only one passenger debarking here, Mrs. H. D. Thompson, of Cornwall, Ontario.

Judge F. McE. Young boarded the steamer here bound for Alton where he will hold court.

Other passengers from Prince Rupert were: Karl Berg, J. E. Smith and E. Heskel, for Ketchikan; Mrs. F. A. Simpson, Mrs. J. A. Barry and Frank Ward, Juneau; N. Marquis, A. Emboden and Dr. and Mrs. James Hill, of Salem, Massachusetts, for Skagway.

AMUNDSEN'S PLANS FOR POLAR REGIONS

LONDON, June 12.—Capt. Amundsen in a message to the Times says developments have caused considerable change in the flying plans and should conditions allow he would start Pilot Omdal from Point Barrow flying across the unknown region of the Polar basin across the North Pole and thence to Cape Columbia (Grant Land) where a depot has been already established.

Amundsen's ship Maude is on her way from Seattle to the Arctic.

Wallace Shipyards, of North Vancouver, on that date. The first voyage was to Australia, India and returning, to San Francisco and Vancouver. Lumber and general cargo was taken from Vancouver to Australia and a cargo of coal was taken there for India. Calls on this voyage were made at several ports, the last of which was Sevu. The ship came across the Pacific with a full cargo of tea, copra, rattans, mats, desiccated cocoanut and rubber for San Francisco and Vancouver.

Captain Hilton has been in command of the Skirmisher since she was taken over from Wallace's last year. Formerly he was master of the Canadian Prospector his chief officer was Captain Hoeking who took command of the Canadian Scottish when that vessel was completed here and put into service. The Scottish is following the Skirmisher from Australia to Japan. Captain Hilton reports. The Skirmisher is an 8100 ton capacity vessel, the same size as the Canadian Scottish and Canadian Britisher.

List of Officers.

The complement of officers on the Skirmisher is as follows: Master, Captain H. S. Hilton, Chief Engineer, Mr. England, Chief Engineer, R. D. Smith, Second Officer, Mr. Kirk, Third Officer, Mr. Hendy, Second Engineer, Mr. Dixon, Third Engineer, Mr. Boomer, Fourth Engineer, Mr. Campbell, Wireless Operator, Mr. Unwin. All these officers are known on this coast, having been in service here on others vessels before the Skirmisher.

IRISH AGAIN MAKE TREATY

All Points Between Griffiths and British Are Arranged, Says Star

LONDON, June 12.—The articles of the new Irish constitution have been revised so satisfactorily, the Evening Star asserts, that Arthur Griffiths will return to Dublin with them today. The whole six points raised by the British signatories to the Anglo-Irish treaty in connection with the framing of the constitution have been adjusted, the paper declares and the problem of the immediate future is the settlement between Collins and De Valera.

Right Hon. Winston Churchill has postponed the announcement in the House of Commons until tomorrow or Thursday.

BRIEF STORM AT NEW YORK IS TERRIFIC

Over Sixty Lives Lost So Far as Known from Yesterday's Hurricane.

NEW YORK, June 12.—The death toll of a brief but terrific hurricane that swooped down on the Metropolitan area late Sunday passed the sixty mark today with indications that the total number of dead may go higher than that. Daylight this morning found hundreds of parents and relatives still standing on the docks of City Island awaiting the arrival of the police boats which during the hours of darkness searched the waters of Long Island Sound for additional victims of yesterday's storm. The swift tide had apparently borne away many of the bodies.

The property damage from the wind is estimated at anywhere from a million dollars to several times that amount.

The storm followed a day of intense heat. Hundreds of people were injured in addition to those who lost their lives.

FRENCH DERBY.

PARIS, June 12.—Ramus, ridden by Joekey Stern, won the French Derby today.

New Company to Expend \$100,000 on Its Mining Properties at Stewart

Grant Mahood, the well known Portland Canal mining man, is back in Stewart after having spent two or three months in the south during which time he has successfully brought to conclusion a scheme which has resulted in the incorporation of the American Mining and Milling Co., Ltd., with a capital of \$1,500,000 to enter the mining field of British Columbia. Mr. Mahood was in the city on his way north on Saturday and while here he announced to the Daily News that it was the intention of the company to start operations at once from Stewart and seven miles from the Premier mine, which would involve the spending of \$100,000 this year. Mr. Mahood is the managing director of the company and he has returned to Stewart to get work started forthwith. He had with him a quantity of transportation equipment and was accompanied by W. R. McFarlane who is to take charge of this end of the work.

Mr. Mahood stated that the company had not been formed merely for the purpose of developing any one mine but it had sufficient capital to take hold of any mining project of merit in the country. It owns outright (Continued on page 3)

Montana Stock Man, on Way to Inspect Ranges, Confirms Big Queen Charlotte Announcement

"There is no question of Mr. Buckley's effort going through and going through right," declared Ex-Senator G. H. Stevens, of Montana, on Saturday afternoon when asked by a Daily News representative for confirmation of the announcement made last week with regard to the proposition involving the incorporation of a \$10,000,000 company in Los Angeles by F. L. Buckley, of Vancouver, Col. Baker, of Los Angeles, and associates for the development of the Graham Island timber business and the shipping of rough lumber on a large scale to the foreign market.

"The report published in the Daily News represents exactly the status of operations at the present time. Mr. Buckley is due to arrive in Vancouver on Sunday and he will be up here very shortly to get things started.

"It is a real live proposition which will mean extensive operations as soon as things can be put in shape. Every preparation is being made to open up on an extensive and permanent basis. The mill already at Buckley Bay will be operated at once and the possibility of extending that plant and putting in another will be seen about immediately.

125 Men at Once.

"Arrangements are being made for immediate operations and some minor repairs are to be made at the mill which will be going again inside of a month with double shifts, employing 125 or 130 men to start with. Several million feet of logs are already in the water ready to be cut. From the start the number of men employed and the extent of operations will gradually increase.

"This proposition is going to mean a whole lot more than is generally realized. It will give a lot of men employment and, with the big payroll, put a lot of money in circulation especially at this end. The system to this end has been well worked out.

"There is a wonderful stand of timber on Graham Island. In fact, there is nothing like it in the British north-west. Mr. Buckley deserves a lot of credit for such an effort as he has made under such conditions as exist."

To Establish Ranges.

Mr. Stevens' own particular business on this trip is to go over the ground on the Queen Charlottes thoroughly with a view to locating a site for the establishing of ranges for cattle which he proposes to bring in. He was here a year ago but did not get a proper chance to go over the ground thoroughly as he intends to do now. After making this inspection he will likely decide what operations and the extent of the business he will undertake on the Islands. It is his intention to spend one or two months there looking for a desirable location. On his return from the Islands he may visit the central interior with a similar object in view. The country around and West of Edmonton is to be looked over.

Mr. Stevens has extensive cattle interests around Great Falls, Montana, from which he hails. For twelve years he was a state senator but he is done with that now and says he is again just plain Mr. Stevens.

Mr. Stevens sailed for Graham Island on the Prince John Saturday evening.

FISH ARRIVALS.

One hundred and sixty thousand pounds of halibut sold at the Fish Exchange this morning. All sold around the 8.7c and 4c. mark with the exception of the trawler, James Caruthers, the catch of which was bought by the Sinclair Fisheries at 7.9c and 3c.

The arrivals were as follows: Venus, 9000 pounds; volunteer, 6500; Star, 13,000; Emblem, 4,000; Tatoosh, 12,000; James Caruthers, 85,000; Ath, 16,000; Kaiken, 14,000.

**EGYPT DOES HONOR
PRINCE OF WALES**

CAIRO, June 12.—The Prince of Wales, who has just arrived in Egypt, has received the Order of Mahommed Ali, the highest honor in Egypt. The order has just been conferred upon him by King Fuad.

**ADMIRAL KATO IS
NEW PREMIER OF
JAPAN ANNOUNCED**

TOKIO, June 12.—Admiral Baron Kato has accepted the premiership of a non-party cabinet which will carry out the agreements of the Washington conference to the letter. The budget is estimated at 40,000,000 yen.

**GOOD ROADS
CONFERENCE**

Opened This Morning at Victoria by Lieut-Governor Nichol.

VICTORIA, June 12.—Lieut-Governor Nichol this morning opened the ninth annual Canadian Good Roads Convention which is discussing highway problems, and particularly the trans-Canada highway.

Provincial good roads officials, members of provincial governments including Premier Oliver of B. C., Foster of New Brunswick and Drury of Ontario are present with many experts who will read addresses and take part in the discussions with a view to promoting road construction at a minimum expense.

The Canadian Automobile Association is also holding a convention here concurrently with the other, the conference to last three days.

**MUSIC EXAMINER
VISITS THIS CITY**

On Saturday F. Arthur Oliver, L.T.C. M. of the Toronto Conservatory of Music and the University of Toronto was here and spent most of the day examining the pupils at St. Joseph's academy and those prepared by Miss Way. He expressed himself as much surprised and pleased at what he saw here and at the reception given him by the local musical people. It was his first visit to the city.

The result of the examination will be announced later. The theory examinations, which will be written, will take place this week on June 16.

**INCREASED TAX ON
TOBACCO PROTESTED**

In line with similar action being taken by the business in the south, local tobacco dealers are sending messages of protest to Ottawa at the increase of the tax on cigarettes which has made necessary the raising of the prices. Telegrams have been sent to Hon. W. S. Fielding, minister of finance, Hon. H. H. Stevens, member for Vancouver Centre, and Fred Stork, member for Prince Rupert.

Welcome First Fruits
Of New Marine Policy.

The first fruits of the new marine policy of the Dominion Government in docking the Canadian Skirmisher here is welcomed by the people of Prince Rupert. While the vessel will not be here very long, a good deal of money will be spent and the port will benefit from the work done and the advertising the place will get.

Capt. Hilton explains to the Daily News that a vessel loses very little time in calling here en route from Vancouver to the Orient or returning. This indicates clearly that it would be a distinct advantage to call here to pick up or deliver cargo. It is noticeable that Canadian vessels call at any ports in Australasia at which business may be offering, even if the amount of cargo is not very large. Why a different policy for this country should be adopted is not evident except on the assumption that undue influence has been used to check the business of this port for fear it may eat into the business of some other port.

We welcome Capt. Hilton and his fine ship on behalf of the city. We hope he will pay many visits to this port and that not always for docking purposes.

Confirmation Of
Buckley Report.

Confirmation of the news that the Buckley mill is to open soon will be welcome to the people of this district. The employment of even one hundred men at the mill in the near future will help out the employment problem and will bring business here. It is understood that Mr. Buckley will be here in the near future on his way to the Islands and will at once get the mill in operation.

The formation of the big ten million dollar corporation at Los Angeles to handle the output of the mill as well as to operate the mill and camps was the necessary preliminary to the revival of the industry.

Busy Time At
Stewart Expected.

There seems every indication of a lively development of many of the properties in and around Stewart. That mining camp will be a busy one this summer and the development will be of a kind that is likely to bring permanent results. The Stewart camp is becoming better understood by mining men and confidence in it is being restored.

Other Places
Have Difficulties.

Other places than Prince Rupert have difficulties. The threatened sale of the Forest Mills property in the southern interior of British Columbia is an indication that the lumber business there is not in any too healthy a state. If we have had difficulties here, it is some satisfaction to know that we are not alone but that others are also finding the pinch of adverse conditions.

Bar Orientals
From Country.

Apparently the Liberal Government is again taking the initiative in keeping Orientals from coming to this country. It was the Laurier Government that stopped the big inflow of Chinese and Japanese years ago and it now seems likely that an even more airtight regulation will become effective soon.

Queen Charlottes
Being Defended.

Residents on Queen Charlotte Islands are coming out strong in defense of their district as a home for immigrants. They have a good deal to say in favor of the Islands and even the new settlers themselves seem satisfied with two notable exceptions. It is interesting to note the point of view of the people who live there and who, it is generally thought, should be best judges.

WHAT CAUSES HEADACHES?

"Fruit-a-tives" Prevents Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-tives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

NEW SETTLER OPENS HOTEL MASSETT SOON

MASSETT, June 10.—A hotel will be opened here on June 1 by J. Cecil S. Dunn, one of the new settlers who recently arrived with the party from London, England. It will be known as "Queen's Hotel" and will make a specialty of catering to tourists and holiday makers.

While things have been rather quiet on the Islands until recently, it is expected that Massett will be very much in the public eye in future and an army of tourists and others will visit the place.

CHIROPRACTOR ENTHUSIASTIC

Satisfied with Prospects of Prince Rupert's Prosperity, Opens Consulting Rooms in Federal Block.

If optimism is any criterion, Dr. Geo. L. Barton should prove an asset to the community. Dr. Barton, chiropractor, arrived in Prince Rupert from Edmonton some four weeks ago, and after studying business conditions, decided that the future prosperity of the city was assured. To back up his decision he has opened up entirely modern and fully equipped chiropractic parlors in the Federal block. His business suite is of the most unique, in furnishings and other departments, in the city. Separate departments for ladies' and gentlemen have been provided with a reception and consulting room adjoining. Dr. Barton is a graduate of the Palmer School, Davenport, Iowa, which is the fountain-head of chiropractic study of the world, and he also conducts an office in Edmonton.

SECOND VOLUME OF LETTERS FROM FRONT

Remarkable Series of Human Documents Is Published by Bank of Commerce.

"Letters from the Front, Volume 2," published by the Canadian Bank of Commerce, as a supplement to Volume No. 1, which records the personal experiences during the war of officers of the bank staff, has just made its appearance. The new volume contains principally short biographies of all the members of the staff who saw active service. The book is elegantly printed and suitably illustrated and, apart from its admirable qualities as a record, there almost seems to lie beneath the formal statements of fact, as it were, a soul.

The book is particularly of interest in Prince Rupert because the biographies which it contains were edited and compiled by Lieut. A. D. Golden, formerly of the Prince Rupert branch, who himself has a distinguished military record and won the Military Cross.

Local Heroes.

The military careers of the various members of the staff are given in clear, concise form and there is also a good deal of personal history including age, parentage, education and in some cases, present occupation.

The local men, whose stories are thus told, are Sapper Wallace Graham Anderson, Private F. F. B. Darley (died of wounds), Lieut. A. D. Golden, M. C., Private W. A. Paterson and Lieut. C. C. Purdy, (shot down and killed in airplane action).

Ten Years Ago in Prince Rupert

June 12, 1912.

Bad boys, blind pigs and prison labor were the problems over which the police commission pondered yesterday afternoon. Patrolling of water sources and proper care of powder were also considered. Mayor Newton, Ald. Maitland and Commissioner L. Bullock Webster were in attendance.

It is feared that a heavy death toll will result from the volcano now in activity at Mount Natmai on the Alaskan peninsula. There is reason to believe that six villages and an island have been decimated. Efforts are being made to reach the scene today from various outside points.

Mayor Newton has again charged Police Magistrate Cars with making too lenient fines. The idea of appealing to the Attorney General put forward by the mayor has been abandoned by the police commission.

The Man in the Moon SAYS-

AN alibi is proving you were at a prayer meeting where you weren't in order to show you were not at the poker game which you were.

TELL all the world Canada is the country, British Columbia is the province, Prince Rupert is the city and the Daily News is the paper. It is just as well to keep to the facts.

THERE are days when it is preferable to remain at the club, the poolroom or even at home to taking a trip on the water. Those are the cold, sad, damp days.

THE early Canadians are those who rise before six. Some people think all who rise before eight are early.

SUNDAY mornings the early Canadians are mostly those who go to Church or boating.

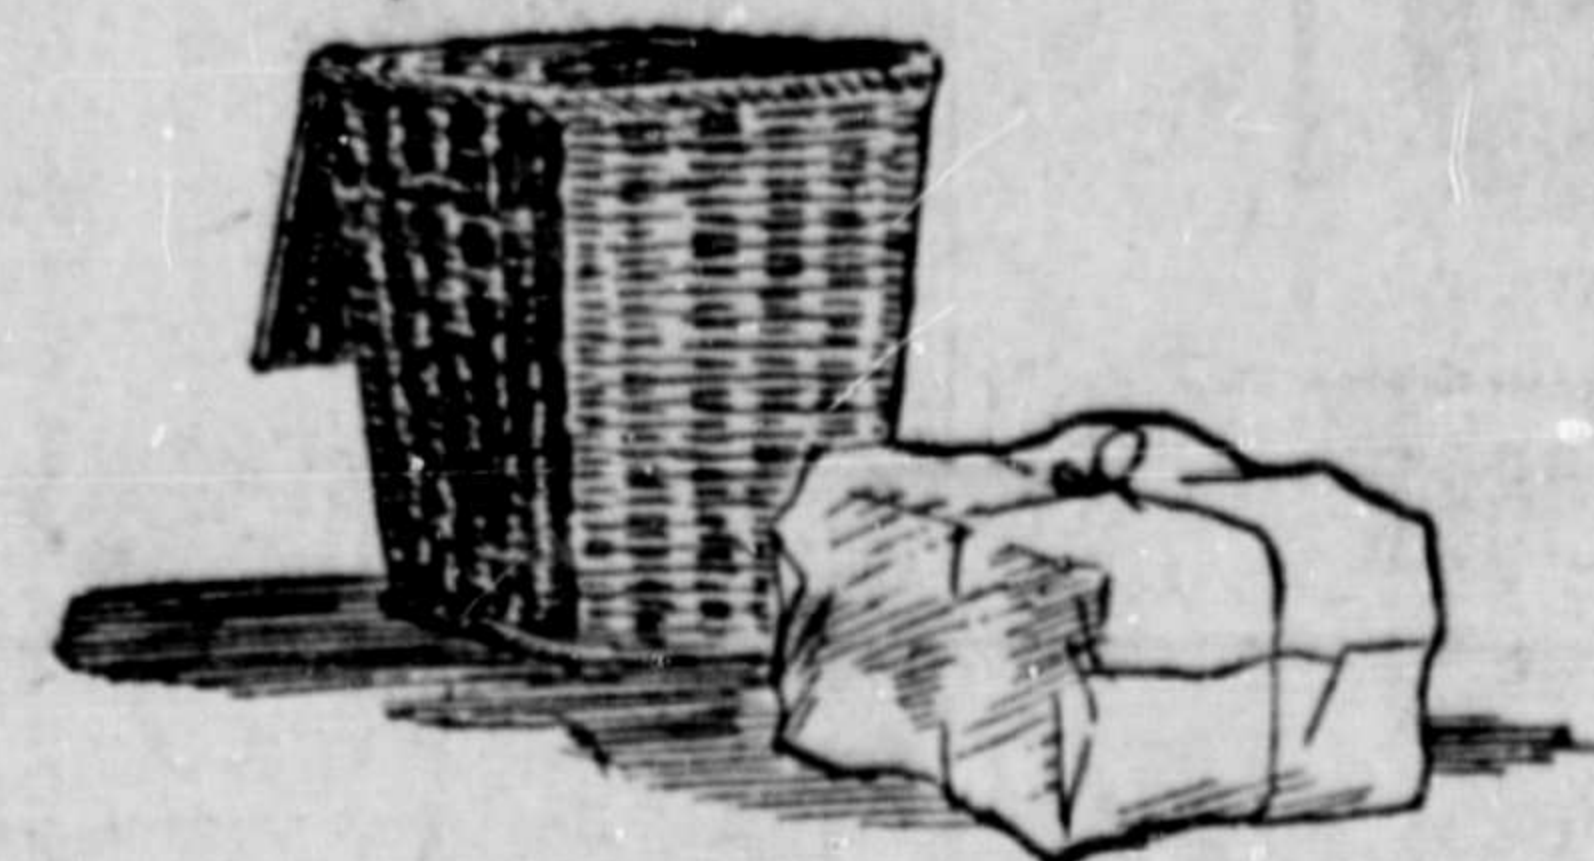

THE very early Canadians are those who go hunting in the autumn.

ONE of the difficulties of life in the north is trying to run a motor boat and buy clothes on one small income.

IN Winnipeg "pretty good liquor" is any beverage that does not eat the bottom out of a glass bottle.

A UNITED STATES senator says that a real diplomat is "one who appropriates your coat in so engaging a manner that you thank him for taking it."

LISTOWEL, Ont., June 10.—One thousand thousand dollars damage was caused by fire which completely destroyed the Pfeffer mill plant here.

We Take the Washing of All the Family

That's what our Family Laundry Service means—all the washing of the family.

No laundress to bother with; no muss or fuss about the house—you simply call us. This is what we do—

We take your bundle—household linens, children's clothes, your own—all that normally make up the family washing.

We launder everything conscientiously and thoroughly by our modern methods, in mild, purifying suds, and clean, sparkling, rainsoft water.

We iron the flatwork, finishing it as nicely and daintily as you would yourself, and fold it smoothly and exactly.

Other pieces, like hosiery and underwear, we dry in a purifying, sanitary way that makes them ready to put on.

The few remaining garments, like your house dresses and the children's blouses we leave for you to finish at your leisure—DRYING, however, such as need it.

We do all the heavy work, leaving to you only the ironing of a few of the lighter pieces.

You'll be pleased, too, with the real reasonableness of the cost.

Phone—and have us put you on our list. Our representative will call promptly.

O. B. BUSH IS NOW DRILLING FOR OIL CALIFORNIA FIELDS

O. B. Bush, who is well known in mining circles of this province and especially of the north, is now drilling for oil near Huntington Beach, California. He has formed a syndicate named the Old Mission Oil Royalties and is operating a \$38,000 oil rig which, in less than a month's running, is now down 2500 feet. The well is in the heart of the California oil country and it is expected to hit oil about 3000 feet down. Mr. Bush is living at Chulavista, California. It is about 18 months since he has been in this country, although he still holds considerable mining interests at Stewart.

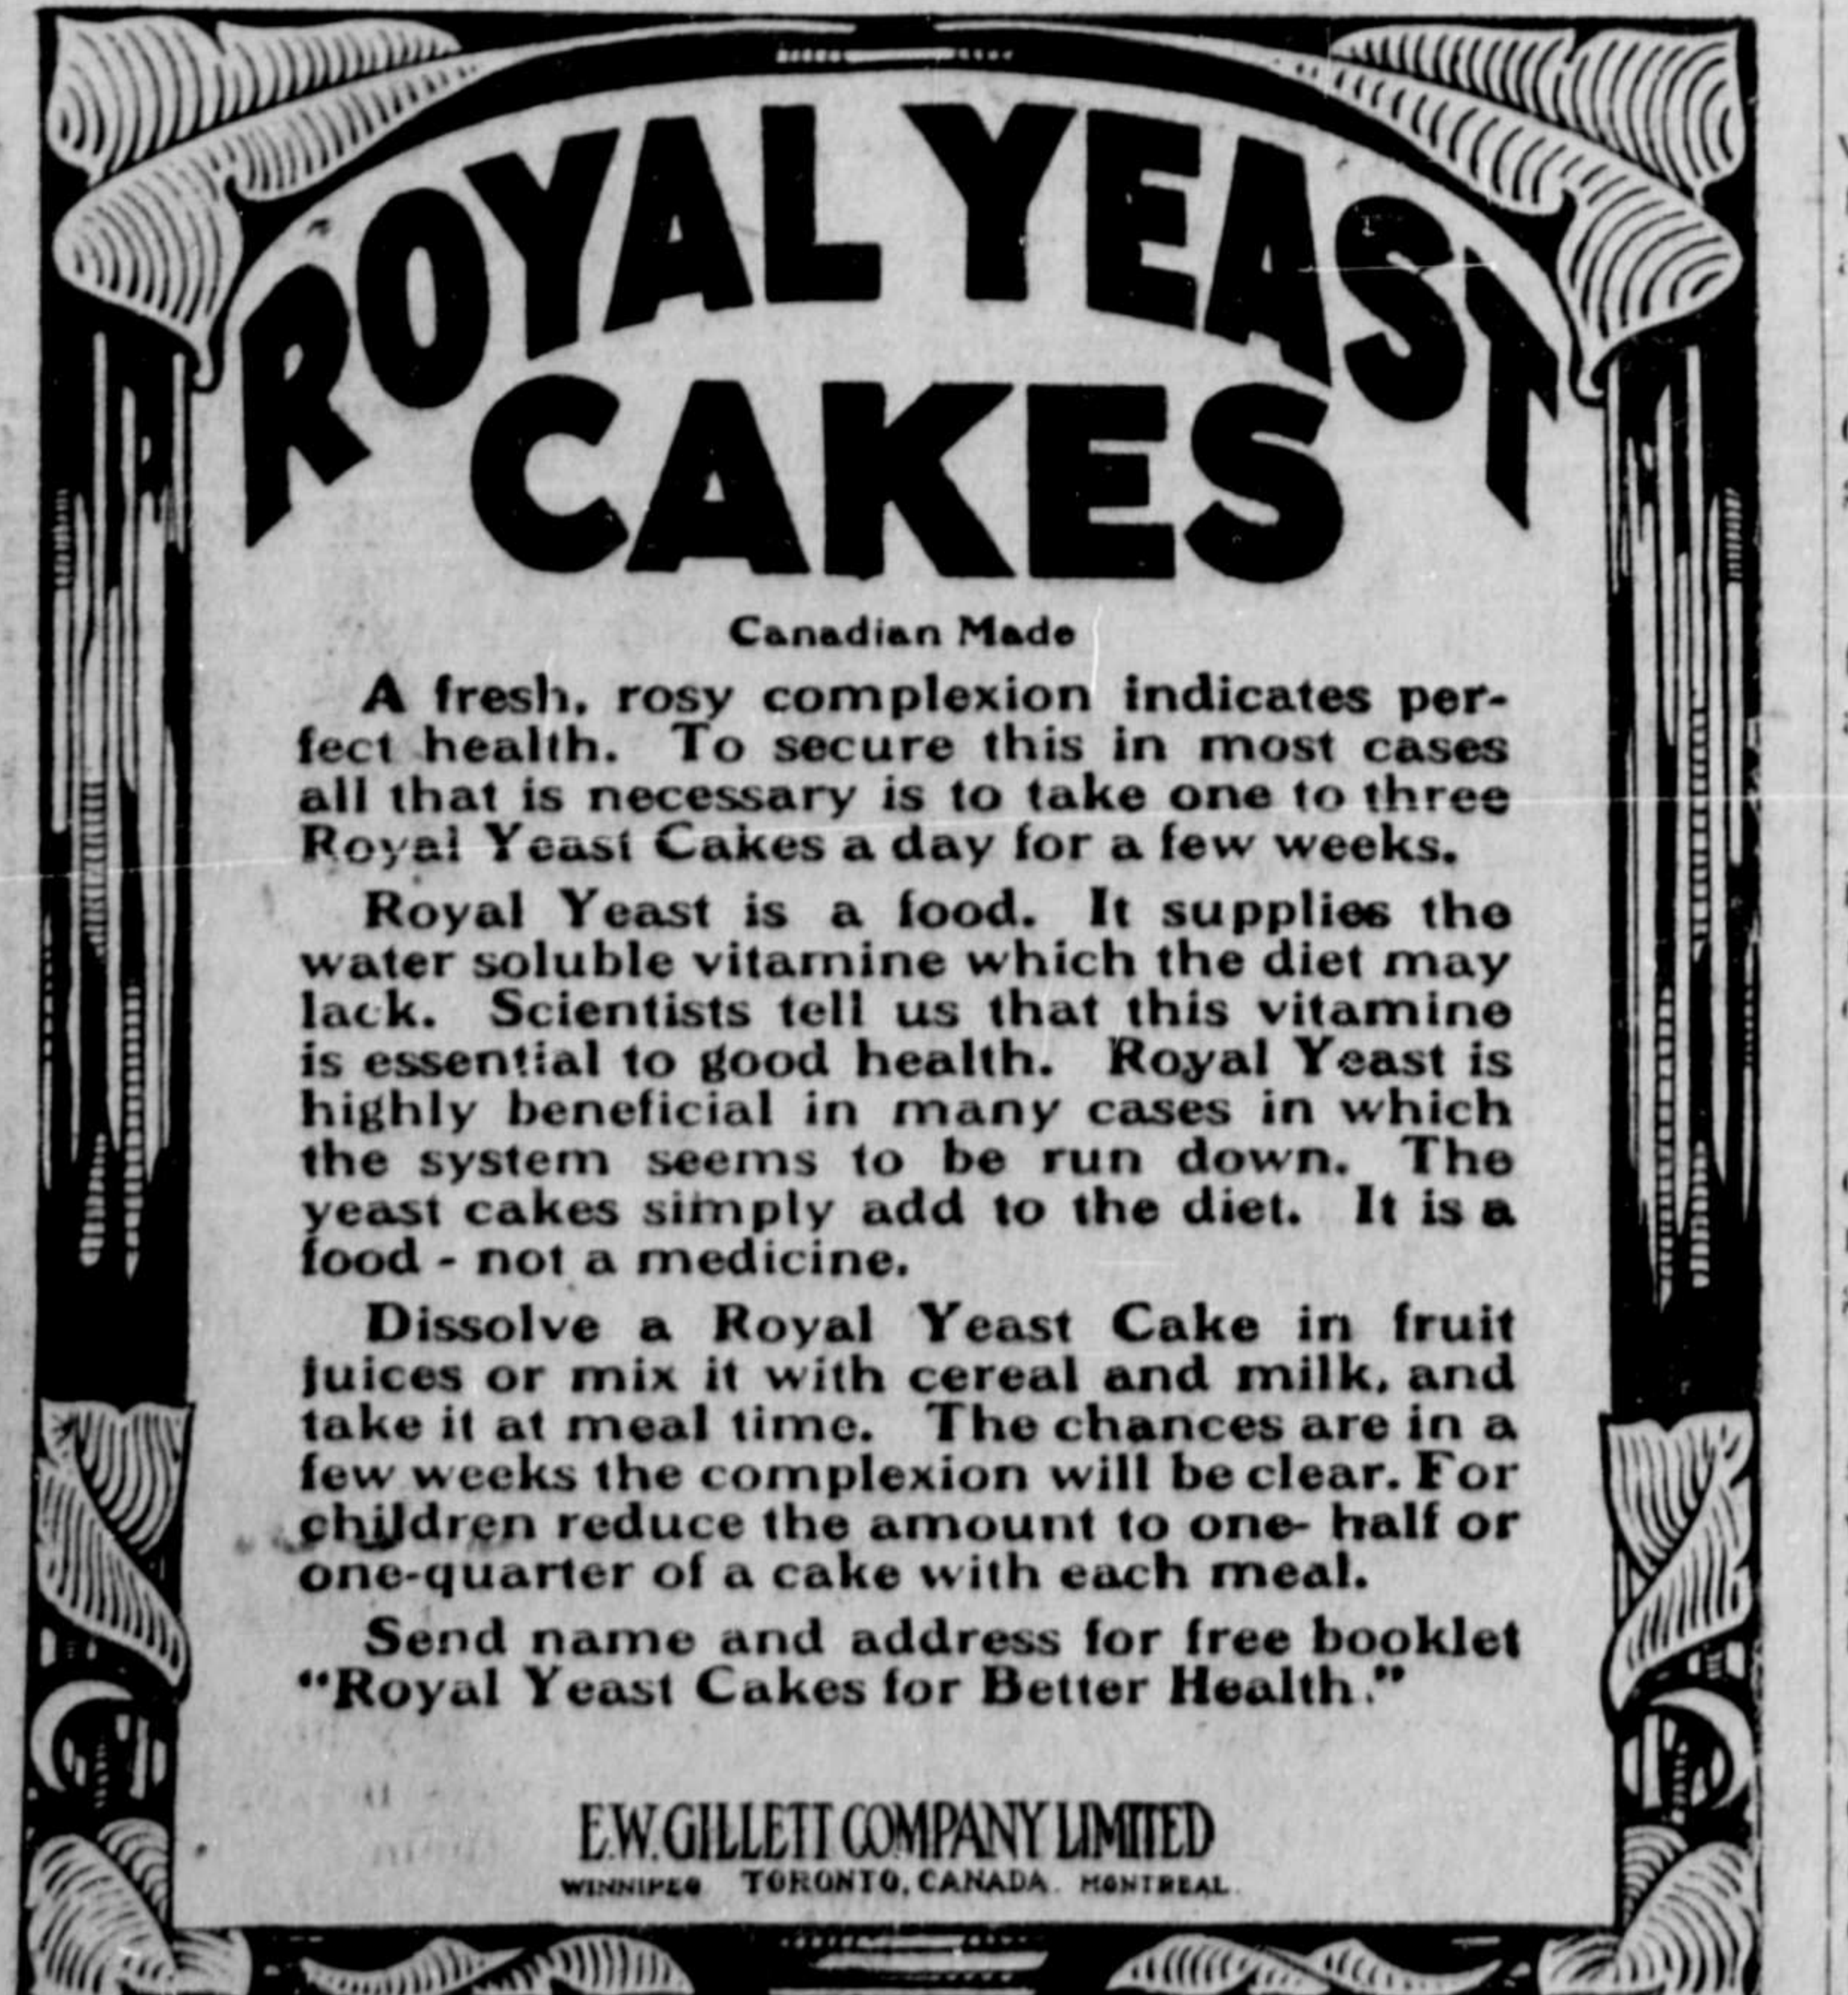

FOURTEEN APPLYING FOR NATURALIZATION

Fourteen naturalization applications are on file at the County Court registry and will be heard before Judge Young at an early date. The list is as follows—
 Suzaburo Wado, of Ocean Falls, Japanese, hearing July 3.
 Toraiichi Tokahira, Ocean Falls, Japanese, July 3.
 Daniel Sirvaag, Queen Charlotte City, Norwegian, July 24.

ROYAL YEAST CAKES
 Canadian Made
 A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one to three Royal Yeast Cakes a day for a few weeks.
 Royal Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health. Royal Yeast is highly beneficial in many cases in which the system seems to be run down. The yeast cakes simply add to the diet. It is a food - not a medicine.
 Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal time. The chances are in a few weeks the complexion will be clear. For children reduce the amount to one-half or one-quarter of a cake with each meal.
 Send name and address for free booklet "Royal Yeast Cakes for Better Health."

Walter Broad arrived from Stewart on the Prince Rupert last night and is registered at the Hotel Prince Rupert.
G. A. Woodland, local manager of the Imperial Oil Co., made the round trip to Stewart on the Prince Rupert at the week-end.
Skeena River arrivals in the city over the week end included W. Kelly, Port Essington; H. W. Chambers, Inverness, and J. F. Strang, Sunnyside.
James Martin, cattle driver of the Standard Dairy, was fined \$10 with the option of five days imprisonment by Magistrate McClymont this morning for cruelty to animals.
W. G. Tanner, father of Harry Tanner, of Stewart, was a north-bound passenger on the Prince Rupert on Saturday. Mr. Tanner, Sr., is going to spend the summer at Stewart.
Jack Munro, who has spent several months working for the Granby Co., at Anyox, sailed on Saturday night for Stewart to do work on claims which he holds in the Salmon River valley.
Mr. and Mrs. R. L. McIntosh are leaving tonight for Terrace where they will spend a few weeks. Mr. McIntosh, who returned recently from Toronto, is to spend the most of the summer in the district.
In preparation for the expected increase of shipping in Masset Inlet, the Canadian Hydrographic survey has just published a new edition of the chart of the sound and inlet corrected up to March of this year.
Unclaimed prizes, raffled at the Elks' Carnival on May 24—Kewpie Doll won by Reynolds Dixon; Billed Hold-all won by Mrs. H. Edmondson; Embroidered cloth won by P. Dube. Will those winners please communicate with Mrs. Davidson, Summit Apartments.
Mrs. Howard D. Thompson, sister-in-law of J. H. Thompson, of this city, arrived today on the Princess Louise and will go east on tonight's train to Terrace to visit with Mrs. Thompson. Mrs. H. Thompson comes from Cornwall, Ontario, and has been visiting at Alert Bay with another sister.
A whale was seen spouting in the bay at the entrance to the salt lakes not many yards from the float. It seemed to be a small whale as the spout of water sent up when it came up to blow was not very large. As it swam from the head of the bay it left a clear wake and its huge body could be seen from the mouth of the bay as it came to the surface occasionally.

Local and Personal
Dance at the Auditorium Friday, 16th. Westholme Orchestra. 110.
Walter Smith, formerly of the Canadian National depot ticket office at Vancouver, has arrived in the city to join the local ticket office staff which is thus increased from two to three members.
E. McDonald, assistant general baggage agent of the C.N.R. at Vancouver, returns to Vancouver by way of Jasper Park on this evening's train after having spent three days in the city on departmental business.
The fire department answered a call at 3:30 on Saturday afternoon to the residence of Mr. and Mrs. Christopherson, 1207 Park Avenue, where the roof of the house had become afire from the chimney. The blaze was extinguished after damage amounting to about \$25 had been done.
S. A. Anderson appeared in the police court this morning charged with vagrancy and was remanded until tomorrow. W. O. Fulton, of Patmore & Fulton, appeared for the accused and raised a preliminary objection of arrest having been made without warrant. Argument on this point will be heard tomorrow.
Mr. and Mrs. H. Pattinson, who have resided in the city for several years, plan leaving shortly for Toronto where they will take up their future residence. Mrs. Pattinson is leaving this week to visit her sister on Vancouver Island and Mr. Pattinson will go south about the end of the month to join her and go on East. They will leave Toronto in the Fall to spend Christmas in England.

Local and Personal
Fair Fishing to Be Had Now at Mile 21
Popular Stream on the Skeena Was Well Patronized by Local Anglers Yesterday.
The creek and lake at Mile 21 was dotted with Prince Rupert anglers yesterday, many of whom returned to the city last night with fairly good catches of trout. Some people went out on Saturday night's train and came back last evening, while others made the trip in their own boats. One party which had good success was made up of Billy Reid, Bert Morgan and Ernie Green and others who went up in Mr. Reid's launch.
FISH ARRIVALS.
Twenty-five thousand pounds of halibut, from four boats, marketed at the Fish Exchange Saturday, the arrivals and sales being as follows:
Scrub, 8000 pounds, sold to the Pacific Fisheries at 8.2 and 1c.
Mayflower, 5000 pounds, sold to the Allin Fisheries at 8.1c and 1c.
Mab, 6000 pounds, sold to the Pacific Fisheries at 8.1 and 1c.
D.C.F., 6000 pounds, sold to the Pacific Fisheries at 7.8c and 1c.
BIRTH.
There was born at the General Hospital on June 11 to Mr. and Mrs. R. F. McNaughton, of 1136 Second Avenue West, a son.

HELL WILL BE ON THE EARTH
Evangelist McAlister Advances Scientific and Scriptural Proof For His Beliefs
There was an attendance of 250 persons at the Empress Theatre last night to hear the lectures of Evangelist McAlister on "Hell Discovered—Twenty Miles From Prince Rupert."
The speaker preached a powerful sermon in support of his theory that there really was a Hell. The Word of God, he declared, proved this and there were also scientific reasons for the belief. It was well known that 20 miles below the surface of the earth there was continuous fire. Scientists claimed that this fire was gradually working its way outward with the result that volcanoes and other eruptions were becoming more frequent. They claimed that in 1,000 years the earth would be a blazing and mollen sphere covered with fire. Evangelist McAlister declared that, then, the saints would be taken away through the air to their reward while the sinners would remain on earth to suffer in the Hell that would then have been created. The fact that there was a Hell was proven in the Scriptures by the destruction of the earth by water in the days of Noah and the subsequent destruction of Sodom and Gomorrah.
There were services both in the afternoon and evening. Evangelist McAlister's subject in the afternoon being "The Baptism of the Holy Ghost." Chas. Miller sang a solo in the afternoon and Mrs. Isaac Lear in the evening.

CROWDS WATCH CONVICT RUN

Stunt in St. Louis Almost Causes Riot in Business Section of City.

One of the most daring and unusual street stunts St. Louis has ever seen was arranged by Frank Leonard, Equity exploitation man, to aid the run of "Where Is My Wandering Boy" at the Fox Liberty theatre in that city. Leonard arranged a stunt that blocked traffic during the noon hour in St. Louis' principal business street and which collected a crowd of such proportions that for a time it appeared as if a riot might develop.

After considerable diplomacy and argument Leonard succeeded in convincing the police authorities that no harm would result from allowing a man in convict garb to run through Olive street shortly after noon. This man was to proceed at top speed and men and women stationed along the route were to raise the cry of "escaped convict" as soon as he got under way. At the end of the run he was to be "captured" by two girls, also in the employ of the exploiter, and dragged to the huge truck which had been advertising "Where Is My Wandering Boy?" through the streets.

Everything went off as arranged. The "convict" alighted from a taxi, and at a given signal started down the street. Immediately the excitement began. The cry was raised along the line and by the time the runner had reached the girls by whom he was to be captured, the police found it necessary to divert all traffic. The crowd became so great that it was only with the greatest difficulty that the "convict" was taken before the huge truck carrying the banner, "Where Is My Wandering Boy." Thousands were crowding on all sides and it was twenty minutes before the truck was able to move. During all this time the piano on the truck was playing and the girls were singing, "Where Is My Wandering Boy" as well as popular songs.

The stunt created excitement throughout the entire business section of St. Louis and was a topic of conversation during the remainder of the day. Everyone knew before the end of the business day that the "convict" had been advertising "Where Is My Wandering Boy." On the following day the newspapers carried stories of the "escape" and "capture."

TOM MOORE DEPICTS PATHOS WITH SINCERITY

Tom Moore, in the new Goldwyn picture, "From the Ground Up" by Rupert Hughes, which comes to the Westholme Theatre tonight, begins his rise in the world with a sure recipe for happiness—a song and a harmonica. Through these he encounters the inevitable one and only girl who unknowingly spurs him on to greater things.

TOM MOORE and HELENE CHADWICK in "FROM THE GROUND UP" A GOLDWYN PICTURE

Everything that fits Mr. Moore's personality closely. His happy nature, his smile, his ability to depict pathos with such sincerity that it grips, all lend themselves to make his new photoplay an excellent vehicle for his screen talents.

LOCAL COMPANIES PRODUCE SHIPMAN FILMS IN CANADA

Strong Backing for Sault Ste. Marie in Production of "The Rapids."

Ernest Shipman, the Canadian film producer, has taken the stand that unless the leading citizens of a community become identified with new Canadian producing units, he will not function in connection with it; as no business can be greater than the calibre of men back of it. In the States the industry fell into the hands of many undesirables and big interests who have lately stepped in, are now spending million to clean house. In Canada the industry is in its infancy. It should be started right and kept clean. Mr. Shipman says "I have the market and about one third of production cost to invest in each separate Canadian Producing unit that is organized on solid business lines, with the

Provincial Police Make Investigation into The Condition of Settlers

In compliance with instructions from headquarters, Constable R. P. Ponder, of the provincial police at Massett, has forwarded reports to Chief A. G. Minty, of this city, and William G. McMynn, superintendent at Victoria, with regard to the new settlers who recently arrived from England to take up their residence on Graham Island.

Taken case by case the report of Constable Ponder reads as follows:— L. G. P. Howe, clerk, married, with two children, has no complaints.

G. F. Palmer, medical doctor, late of London, married with one child, is satisfied with the exception that there is not the opening for a medical man that he was led to believe existed.

J. G. S. Dunn, doctor, late of London has no complaint except though fully qualified, he is unable to practice until he has passed the B. C. exam.

W. H. Fixter, market gardener and farmer, married with no children, has no complaints.

G. S. Barker, toolmaker, married with one child, would rather wait for developments in the near future before making definite statement. He had been advised by the B. C. House in London that the climate was healthy, rainfall excessive and settlers should have capital.

F. M. Puschart, piano tuner, married with three children, complains that things are not as represented to him by the secretary in London. He is anxious to return to England but has not the funds to pay fare and keep himself and family on arrival until work is found.

suggests that, though things were different from what was represented to them, some particular individuals among the settlers were not over anxious for hard work and some had probably been in receipt of unemployment pay in the Old Country for nearly two years. Work had been offered cutting wood at \$3 per rick but the reply was made that they did not come for that and paupers did that at home. It took two of them two days to cut one rick and they thought they could not make a living. Agitation by some had made others more unsettled.

NEW COMPANY TO EXPEND \$100,000 ON ITS MINING PROPERTIES AT STEWAST.

(Continued from Page One.)

several claims in the Salmon River district including the Sullivan & Daly, Lois & Edith, Sunrise and Betty Groups. The Betty, on which immediate operations are to commence, is located seven miles from the Premier while the others are two or three miles from it.

Members of Company.

The capital subscribed in the new company has been raised chiefly in Vancouver at \$1 per share and the investors include some prominent business and professional men of the south among whom are Major Swan, chief engineer of the Vancouver Harbor Commission, Prof. G. A. Gillis, professor of Geology and Mineralogy in the University of B. C., G. A. McDonald, president and managing director of the Bowell-McDonald Motor Works, Vancouver, Dr. Hugh MacMillan, Vancouver, James McDonald, contractor of Victoria, Dr. Lachlan Macmillan, of Vancouver, J. Edward Sears, barrister of Vancouver, Frank Neilan, of the Canadian National Railways, Vancouver, and several others. Mr. Mahood is managing director and he is to take active direction of the company's operations with headquarters at Stewart. George Perry, formerly of the Vancouver Province, is taking the post of secretary with an office which has been opened by the company in the Rogers Building, Vancouver.

Extensive operations to be started at once on the Betty mine will include the sinking of a shaft which will be later equipped with machinery. From 15 to 20 men will be employed right away and W. M. Irwin, who was in charge of operations at the Premier Mine for R. K. Neill in 1920, will be superintendent. The transportation equipment includes wagons and 22 horses, most of which have already been taken in four having been on Saturday's steamer.

Wonderful Showings.

A lot of money has already been spent by Mr. Mahood on development work and it has a wonderful showing of gold and silver, he says. Ore will be shipped during the coming summer and it will be taken out from the property as supplies are taken in. There are splendid surface showings on the property with indications of a big body of ore further in. The value of the ore in the mine has always caused comment and some of the richest showings in the Portland Canal country has been taken off of it.

ries, and some varieties of apples have.

Tide flats that are dyked prove immediately productive but some of the largest and most accessible have not been reclaimed. Mr. Evans of Nadu had alfalfa growing on his dyke last year that reached the height of six feet, but of course this can scarcely be considered a field experiment.

We believe that people with some means and a willingness to work can be as successful here as elsewhere, but at present there is little or no work here available and immigrants without means would naturally find it as hard, almost, as they would find it in Rupert, though fuel, at least, is plentiful and free.

Adapting to Conditions. Our new settlers are generally adapting themselves to conditions as they find them and one of them has opened up one of our old hotels and the people of Rupert would have an enjoyable time if they came over for a fortnight's really good fishing off our wharf. This is trout fishing and real sport. There are many opportunities for boating and picnicking and visits to the various settlements where a stranger is always welcomed hospitably.

In this connection, it might interest the Prince Rupert public to know that there are settlements on the islands quite as nice as any in B. C. both as to dwellings and the people living in them, and better acquaintance might be mutually advantageous. Do you know how many people live here, what they do for a living and how they live on these awful islands? Do you know that the wild cattle that at one time numbered about 600 head are now totally extinct and that in their stead are domestic cattle and sheep, that black bears are the only large wild animal on the islands with the exception of some deer placed here some years ago? Do you know the degree of civilization reached by the natives and the development of art (native) among them? That their carving, painting and basket weaving is rather highly developed and that you could buy those articles to take back with you if you made a trip over here.

You could get back to Rupert in ten days but you will want to stay another fortnight.

SETTLER.

Clerk—Oh! you're using the adding machine, aren't you? Boss—Yes! But you can have it in a minute.

Clerk—Oh, never mind, I can use my head.

Boss—The only thing you can use your head for is an eraser.

Mutual Magazine.

In the Letter Box

SETTLEMENT OF QUEEN CHARLOTTE ISLANDS.

Massett, B.C., May 30, 1922. Editor Daily News:

The residents of Massett are generally displeased with the adverse criticism of Q. C. Islands that seems to be current in a number of papers just now and would like the privilege of stating some facts about the Islands.

First, the bulk of the settlers who came in with the boom days of 1909-12, were only out to acquire a piece of land and stuff it off on "a sucker." Many of them proved up before the bubble burst but were unable to turn the trick in the short remaining time before the slump. The improvements that many of these so-called settlers made were scarcely sufficient to justify the being given them and few of them adhered to the letter of the law in performing their residential duties. Also there was a barrier to much of the accessible land in form of coal and timber licenses that deterred many who came to look for homes from staying, particularly the married men who did not care to go back into the bush for miles and carry food on their backs for a family. The result has been scattered and distant settlements and discouragement to those who are here have demonstrated that the land of these islands can be made as productive as the land anywhere else but it must be handled intelligently.

Development Easy.

If the authorities cared to undertake action that would make it possible for settlers to acquire all possible agricultural land along waterfronts and adjacent to ports, and find them a market for their cord pulpwood, development would soon surpass that of many other parts of B. C. because the mild climate and the large areas of nearly level land, free from stones, the long growing season and large crops of roots would make development of dairying industry easy and natural.

The following crops are proven successes: Potatoes, carrots, turnips, beets, radishes, celery, cabbage, cauliflower, chard peas, broad beans, scarlet runner beans, turnips; oats, barley, rye and probably wheat, fall variety, timothy, clover, orchard grass, tall meadow oat grass, etc.

Over a Quarter of a Century of Public Service of the highest order, stands behind every packet sold.

The Knights of Columbus have established themselves in that coveted position—the leadership in the Senior Baseball League—and have good chances of making the lead stronger still with no chance of losing it in the next scheduled game next Thursday evening when they go to bat with the Sons of Canada in the fourth league fixture of the season. There is no getting away from the fact that good fortune was with the Knights on Friday night together with the unfortunate management on the part of the Elks in the last three innings. With the score 10 to 4 in the Elks' favor at the end of the sixth, it seems that there should have been some means of pulling the fat out of the fire before it was lost. On several occasions already this season, mismanagement has probably been responsible for defeats. While it is no use crying over spill milk, more care can be taken in the future to prevent recurrence of disasters that have once been experienced.

The Caledonian Games Society of Vancouver will stage its annual athletic meeting on Saturday, August 5 and it is hoped that this will encourage many competitors from the United States as by attending they can spend about one week at Banff in the Rocky Mountains or at the Pacific Coast and reach Calgary on the following Saturday for the championships. The Vancouver Caledonian Games are now recognized as the big athletic event of British Columbia just as the Calgary Caledonian Games have won the same reputation in Alberta—last year when they staged the provincial amateur athletic championships at Calgary they attracted 4,000 spectators. The national championship events to be decided are as follows: Running, 100 yards; 220 yards; 440 yards; 880 yards; one mile and five miles; Jumping 120 yards hurdle race (10 hurdles 3 ft. 6 ins. in height); running high jump; standing high jump; walking, one mile. Pole vault, throwing 16 lb hammer. Heavy events; throwing 16 lbs weight for distance; throwing the discus; putting 16 lb. shot; tossing the caber. Relay race, one mile, four men, for which gold silver and bronze medals are awarded teams winning first, second and third.

The Sons of England team for the Senior League football fixture against the Gallies on Tuesday evening will be picked from the following players: Albert Crags, Eddie Crags, G. P. Tinker, Shaw, E. Mansell, Stockdale, J. Farquhar, H. M. D. Lamb, Wiggins, G. Kelsey, Hodgson, Potterton, Lewis and D. Jack.
