Irish Affairs Are Again in Turmoil COUP D'ETAT IS THREATENED BY REPUBLICANS; RESOLUTIONS

Evacuation of Ireland by British Is Stopped as Result of Disturbed Condition of Country; Plot Planned

DUBLIN, Feb. 13.—De Valera yesterday held demonstrations against the provisional government under Parnell's statue from three separate platforms at which big crowds assembled and passed a resolution calling for an Irish republic, repudiating the British Empire and the leadership of King George. No opposition to the resolution was apparent.

LONDON, Feb. 13.—Michael Collins, head of the Irish provisional government, has sent a cablegram warning the American Association for Recognition of the Irish Republic not to attempt a coup d'etat, which he declared was being planned against the provisional government, says a Dublin despatch.

DUBLIN, Feb. 13.—The office of the Freeman's Journal is protected by armed guards anticipating an attack of republicans, who are offended at cartoons published by the Journal of De Valera and Erskine Childers. An attempt was made to kidnap Patrick Hooper, proprietor of the Journal.

DUBLIN, Feb. 13.—Evacuation of British troops and other military forces from Dublin was unexpectedly suspended today. The sailing of steamers due to leave for England with contingents on board were cancelled. It is thought the suspension might be due to events in Ulster.

LONDON, Feb. 13.—The situation in Ireland, which had seemed to be improving under the apparent efforts of Griffith and Collins to obtain the release of the kidnapped Ulstermen, has become acutely dangerous as a result of an affair Saturday, in which four special Ulster constables were killed and eight wounded and six made prisoners and the leader of the Sinn Feiners, Matthew Fitzpatrick, was shot dead. The provisional government is highly disturbed.

STRIKE TIES UP SHIPPING

170 Steamers Were Unable to
Leave Hong Kong and River
Traffic Stops.

HONG KONG, Feb. 13.—Owing to a strike of seamen, 170 steamers, chiefly British, aggregating a tonnage of 200,000 were tied up here over the weekend. River traffic is also at a standstill, communication with Canton and other up river points being cut off and open traffic is paralyzed.

NATIVE OF PORT SIMPSON MAROONED NEAR GEORGETOWN

Joe Bradley, a native of Port Simpson, was marooned for two days on a rock near Georgetown at the end of the week, when his boat was stranded and went high and dry following an engine breakdown. Bradley had left Simpson on Thursday morning intending to return the same day. On Friday when he was not back a search party went out and located the missing man as he was about to return. He was uninjured and the boat was little damaged.

MINING RESUMED IN SOUTH AFRICA

JOHANNESBURG, Feb. 13.—Mining on a small scale has been resumed in the gold fields. It is believed the strikers will return to work in increasing numbers.

BUSINESS OPPORTUNITY.

For lease, fully equipped cafe. Here is an opportunity for husband and wife to open business for themselves, without investing any capital. Deposit required on fixtures. Apply Good Eats Cafe. J. C. Gavigan.

STORK ADDRESSES VANDERHOOF PEOPLE

Tells Them of Plans for Development in Northern British Columbia.

VANDERHOOF, Feb. 13.—At a banquet held in their honor at the Nechaco Hotel, Thomas McBride, member for Cariboo, and Fred Stork, member for Skeena, addressed the members of the Vanderhoof Board of Trade on the requirements of the central interior, which they intend to present at the coming session of the House at Ottawa.

Mr. McBride claimed that the rural districts have not received the attention due them, and that settlers are suffering unnecessary hardships. He said: "Good roads is the mother of civilization, and I will do all in my power to persuade the Dominion Government to push forward the main highway through the province of British Columbia."

The feature of Mr. Stork's remarks was in reference to the Grand Trunk Pacific and telegraphic communication with the Yukon. He urged the re-establishment of the Grand Trunk along the lines it was originally built for—a transcontinental railway terminating at Prince Rupert—the natural port for the Orient.

Mr. Stork said that the Yukon telegraphs had outlived its usefulness and was in such bad shape that it would require rebuilding. He claimed that service had been completely lost sight of and that the line is too frequently shut down to be of good commercial or economic use. The upkeep is altogether out of proportion to its revenue, and it should be discarded as soon as possible, he said.

He strongly advocated a wireless system from Prince Rupert up the coast, with a station at Whitehorse and thence to Dawson. Dr. W. Ross Stone occupied the chair, and both members were given a very cordial hearing.

TWELVE DAYS MAROONED ON KINAHAN ISL.

Joe Spencer and Grandson of Kitkatla Picked up in Emaciated Condition Yesterday.

Joe Spencer and his grandson, William Gladstone, natives of Kitkatla, reached the city yesterday, after having been marooned for twelve days on Kinahan Island following the wrecking of their launch, the Blue Jay. They were rescued yesterday afternoon by Philip Douglas, another native of Kitkatla, on the launch Nagata, who had gone out in search of them.

Spencer and his grandson left Kitkatla on February 1 for Prince Rupert. When near Kinahan Island something went wrong with the launch and the boat commenced to drift. A makeshift sail made of blankets was put up and a course was made for near the shore of the island. When they arrived there four anchors were put out but all the ropes broke and the boat went ashore, the men just being able to make the beach from the wreck.

Arriving on the island, a large fire was lit to attract passing boats, but none responded, and they remained there for twelve days with neither food nor extra clothing. The result was that they were in a rather emaciated and frostbitten condition when they were picked up by Douglas. They are receiving medical attention here and will return to their village when they recover from their experience.

Douglas returned to Kinahan Island to recover the engine, a 12-horsepower Palmer, from the boat, which is sunk and badly broken up. It is doubtful if the hull will be salvaged.

Moses Gladstone, father of William Gladstone, had a similar experience at the same time of year and about the same locality some seven years ago when he was marooned for several days. At that time the older Gladstone was returning to Kitkatla with the dead body of his infant. Moses Gladstone died three years ago at the time of the influenza epidemic.

TONG WAR SAID TO BE STARTED

Two Chinese Killed in Seattle and One in Butte—Trouble Also in San Jose.

SAN FRANCISCO, Feb. 13.—Chinese long men throughout the west are reported today to be under cover and on their guard as a result of an apparent outbreak of a long war last night when two Chinese were killed and a third wounded in Seattle. There were troubles also in Butte, Montana, and San Jose, California. In the former city one was killed and in the latter one was shot, probably fatally.

SETTLEMENT OF CORK RAILWAY STRIKE TODAY

CORK, Feb. 13.—There is a further improvement in the railway strike conditions here today following an important decision of the Cork strikers to accept the terms of settlement agreement.

HALIBUT ARRIVALS FOR PAST FEW DAYS TOTAL 140,000 LBS.

Eighteen fishing boats with 140,000 pounds of halibut disposed of their catches at the Fish Exchange this morning. Last constituted vessels which had arrived in port in the course of the past few days. The price paid for first class fish was in all cases over fifteen cents.

The following boats marketed: Crescent, 9000 pounds; Annie J., 10,000 pounds, and Cape Spencer, 5000 pounds, sold to the Canadian Fish and Cold Storage Co., at 15.9c and 6c. Bartolome, 7000 pounds; Moide, 3000 pounds, and Fisher, 13,000 pounds, sold to the Booth Fisheries Canadian Co. at 15.5c and 6c.

Vivian, 10,000 pounds; Cape Clear, 12,000 pounds and Eureka 2000 pounds, sold to the Pacific Fisheries at 15.1c and 5c.

Graydon, 10,000 pounds; Ta-toosh, 12,000 pounds, and Murineag, 5000 pounds, sold to the Canadian Fish and Cold Storage Co., at 15.1c and 6c.

Gaydon, 4000 pounds; Kaien 1-2,000 pounds, and Rose Spit, 8,000 pounds, sold to the Royal Fish Co., at 15.6c and 6c. Ingrid H., 5000 pounds; Hippo, 9000 pounds and Nornen, 8000 pounds, sold to the Atlin Fisheries at 11.5c and 6c.

DEPORTING 63 RADICALS

Men Just Released From Jails to Be Sent Out of Country.

NEW YORK, Feb. 13.—Ellis Island officials are today arranging for the deportation of 63 radicals just released from various Federal prisons in the middle west. Fourteen of these are women.

PARTY OF SKATERS SPENT ALL NIGHT SHAWATLANS LAKE

A party of local skaters were left behind at Shawatlangs Lake last night when the "O. Baby" returned on her last trip. The night was spent at the city power station and the young people crossed the passage this morning in a row boat, coming into town on the Seal Cove bus.

THE CHAMPION PIPER OF SCOTLAND ARRIVES.

William Macdonald, formerly of the Scots Guard and now personal piper to Francis W. Grant, the Laird of Inverness, has arrived on the White Star line steamship Cedric. The average person hereabouts will not appreciate what it means to be the champion piper of the highlands of Scotland. Only a Scotchman knows, but if a person of any nationality heard Macdonald play "Over the Hills and Far Away," "Scotland the Brave" or "Highland Laddie" he would realize there is genuine music in the bag pipe.

Millions Will Die Soon In Russia if Food is Not Available: Raid Churches

LONDON, Feb. 13.—Arthur Henderson, secretary of the Labor party, has received a telegram from the Russian famine relief organization of the International Federation of Trades Unions stating that in one territory alone in Russia over a quarter of a million children are starving and that half a million adults are starving without the prospect of help. Many other millions are being kept alive by eating bread made of clay and straw.

MOSCOW, Feb. 13.—The all-Russian central committee has decided to take over immediately the valuables in all churches of all creeds in Russia and to sell them for the benefit of the famine sufferers.

HOUSE OF LORDS TO FRAME OWN REFORMS

Lloyd George Makes Announcement to That Effect in Address to House of Commons.

LONDON, Feb. 13.—Premier David Lloyd George, in addressing the House of Commons on the proposed reforms in the House of Lords, said that the government intended that the matter should be introduced in the first instance in the form of resolutions in the House of Lords.

EAST KOOTENAY WILL HOLD ELECTION ON MARCH 14, ANNOUNCED

OTTAWA, Feb. 13.—The East Kootenay by-election has been called for March 14 with nominations on February 28. Hon. J. H. King will be the Liberal candidate and no other candidate is at present in sight according to information received here.

LAUNCH TRAGEDY KOOTENAY LAKE IS INDICATED BY FIND

Dr. George Reid Started Out but Charred Remains of Boat Are Found.

NELSON, Feb. 13.—Dr. George Reid of Kaslo started in a launch Friday for Ilwaco and has not since been seen. Only the charred wreckage of the launch was found on Kootenay Lake yesterday, indicating an explosion and an almost certain tragedy.

AUDITOR APPOINTED

Number 11 District Gets Men from Provincial Civil Service Commission.

VICTORIA, Feb. 13.—Capt. George Homsey has resigned as assistant civil service commissioner of British Columbia and taken the office of civilian auditor for military district Number 11, which includes British Columbia and the Yukon.

POPE CROWNED IN ST. PETER'S CHURCH, ROME

200,000 People Assemble Outside and Are Blessed by New Pontiff.

ROME, Feb. 13.—Cardinal Laga crowned Cardinal Ratti Pope under the name of Pius XI at St. Peter's Church yesterday in the presence of 60,000 people who continuously interrupted the ceremony with cheers. The populace was blessed by the new Pope from the balcony contrary to the customs of many generations.

An immense throng gathered outside. It is estimated that the number present was in the neighborhood of 200,000.

TURNBULL GETS A PROMOTION

Former Editor of Daily News Is Secretary to Agent General, London.

Word has been received here that William Turnbull, formerly of this city and at one time editor of the Daily News, has been appointed secretary to F. C. Wade, agent general of British Columbia at British Columbia house, Regent Street, London. W. A. Blair, who has been holding the position, resigned owing to ill health.

Mr. Turnbull left here just after the Liberal Government came into power at Victoria to take a position as secretary to the minister of lands. He was later promoted to the position of lumber commissioner and last year he went to the Old Country with Mr. Pattullo and assisted in the negotiations for several lumber mills of the southern coast districts. Mrs. Turnbull was taken ill and Mr. Turnbull remained behind in London too long after the London end of some negotiations and also to keep in touch with the immigration proposals. He is at present in London and is taking up the work immediately.

NO CANDIDATE LIKELY OPPOSE ALEX MANSON

Conservative Organizer Charles Cullin Returned to City.

Charles Cullin, Conservative organizer, has returned from Smithers, where he spent several days with a view of obtaining a local man to run against Hon. A. M. Manson, attorney-general, at the approaching by-election. It is understood that none was available and that Mr. Manson will be returned without opposition next Saturday, which is the day appointed for receiving nominations.

FORMER LORD MAYOR OF LONDON IS DEAD

LONDON, Feb. 13.—Sir Edward Cooper, who was Lord Mayor of London and 1919 and 1920, died today at the age of 74 years.

DAILY EDITION

Monday, Feb. 13, 1922.

Danger of Going
Stale in This City.

There is danger of going stale here. Competition is not always very keen here and there is not that impetus to better work that comes in the big centres of population. We are apt to get into a rut. To become stale is fatal to good work. Now and then we have to shake ourselves together and take stock of our abilities and carefully ascertain if our work is as good as it was last year. If it is not we should find out the reason why and see that there is a revival.

Some people seem to think the only kind of revival that counts is a revival of religious fervor. But there are other revivals that count for a great deal. Among them is a revival in regard to the quality of our work. If there is no improvement since last year, there is pretty sure to be a dropping back. Possibly we are getting stale and need a jolt to bring us to a realization of the fact. Getting out and seeing the work of our fellows, especially in some other city, is one of the best means of lifting ourselves out of the rut. The conditions here tend to monotony and monotony is fatal.

Economy Is
Being Practised.

Economy is being practised everywhere. New standards of living are being set by people of every country and new standards of government are also being set. There is a general cutting down of expenditures. We see it everywhere, but in no place is it so evident as in Great Britain. There a committee of parliament was appointed, headed by Sir Eric Geddes, to suggest to the government how they could save half a billion dollars. They have just reported and they suggest how approximately \$350,000,000 might be saved. They would reduce the army, navy and air force and effect economies in other lines. This course must be followed, for the little island kingdom can not continue to pay taxes at the present rate and pile up debts as it has been doing. By means of treaties it has reduced the danger of attack from possible enemies and now it will proceed to take advantage of the condition to save expenditures. Cutting down these expenditures will tend to make business slack in that country as similar action does in every other.

Economies in
This Country.

It is difficult to effect economies in this country because this is our growing period and we have to develop the new districts and improve the old ones. When a country is growing, it is safe to spend on capital account to build roads, bridges and public buildings. There is no other method of paying for the improvements except to borrow and count on revenue from the new districts to help pay off the debt. Useless expenditure should be eliminated entirely. Every possible means of economizing should be practised, but not the expense of the permanent development of the country.

Senate Considers
Recent Treaties.

Before treaties can become effective in the United States the Senate must pass on them, according to United States law. Sometimes that is an excellent thing and then again it is not. When the League of Nations was formed at the instigation of President Wilson it was found that statesman did not have the confidence of the Senate and the league was scorned by it and entry of the United States refused. The States also refused to join with the other countries in making peace with Germany. The United States had to have a little peace treaty of its own, which was a very unimportant one. We are not quite sure whether it is yet effective or not, for it was of so little value to the world that it was not noticed.

Politics kept the United States from joining with the Allies in making peace with Germany and in forming a league of nations. Later, however, that country called a meeting at Washington and disarmament was considered and to some extent adopted. A treaty was also drawn up in regard to the settlement of outstanding problems on the Pacific Ocean. In formulating this treaty and the disarmament clauses the prominent members of the Senate were considered and that result will be that the treaty will be adopted. That is the general expectation.

In this country a government takes counsel with the members who control parliament. In the United States the wise administrator takes counsel with members of the Senate.

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—skim milk.

But you can soon enrich thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes: "For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I had frequent headaches, seemed restless and easily worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using Dr. Chase's Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

The Man in the Moon

SAYS—

EVERYBODY wants the government to economize, but not in this constituency.

FOR real exciting sport give me a game of checkers.

ROMANCE is said to be the calm before the storm.

IF moderation is a bad thing, why do people not advertise cures for the drink habit, just like they used to do?

NO woman likes another to make a fool of her husband. She thinks she has a monopoly on the job.

ONE girl I know was so short of breath that she made even the powder puff.

I thought to be quite plain to everyone that you can't reform a bad egg.

A WORM is about the only thing that can't stumble and fall.

SOME beauty is only paint deep.

HOW much we live has little to do with length of years.

ACCORDING to one authority no man should talk more than 15 minutes at a stretch. I would also suggest a limit for women but feel sure it would be useless.

SOME people go out on a spree and others on a skate.

PULP MILLS FOR
PRINCE GEORGE

Representative of Syndicate Said to Have Come to Agreement With Government.

An agreement has been arrived at between the provincial government and the promoters of the local pulp and paper mill, and a start upon this undertaking, which means so much for the future of Prince George, may be confidently expected this spring.

This is the message which T. G. McBride, member-elect for the district of Cariboo, brought to the city on Saturday evening, says the Prince George citizen. Mr. McBride came in from Stump Lake, over the Canadian Northern, and was a fellow traveller as far as Lacombe with J. A. Cameron of Ottawa, the representative of the estate of the late Senator Edwards, who is associated with F. J. Jones, Angus McLean and E. S. Peck in the promotion of the pulp and paper mill. In conversation with Mr. Cameron, Mr. McBride was informed that an understanding had been arrived at with the provincial government in connection with the establishment of the pulp and paper mill which in his opinion would be equally satisfactory to his associates. Mr. Cameron said he was then on his way to secure the formal ratification of the agreement and that he anticipated no further hitch in the matter. While it might be well to assume nothing until the final papers had been signed, Mr. Cameron thought he could confidently predict a commencement upon the company's hydro-electric plant on the Nechaco, where the necessary power for the undertaking is to be generated, by the early spring, and the following of this work by mill construction without unnecessary delay.

100 Tons a Day.

The program of the promoters calls for the erection of a pulp mill with an initial capacity of 100 tons of pulp per day, and capable of extension to 200 tons, and for a paper mill capable of taking care of the pulp output.

If there is no fly in the ointment a confirmation of the statement of Mr. Cameron may be expected from Montreal a few days after his arrival there, but as it stands it is the most definite statement which has been issued by the promoters of the enterprise since the commencement of their negotiations with the government.

Ten Years Ago
in Prince Rupert

February 13, 1912.

It was ascertained today that the two persons whom Lighthouse Keeper Elsterman, of Lawyer Island, saw drown were not his wife and child as he had at first believed. They were two half-breeds, it is thought.

David H. Hays and Major George E. Gibson appeared before the city council last night asking that the surfacing of Second Avenue be put in better shape. Major Gibson said the thoroughfare was paved like the road to Hades.

Ald. Morrissey and Ald. Dybbah found fault with the construction of the new fire hall at last night's council meeting. The matter has been referred to the city engineer for report.

NEWFOUNDLAND MAY
HAVE FISHING BOARD

ST. JOHN'S, Nfld., Feb. 13.—In order to assist the development of the herring fishery, the creation of a Newfoundland Fishing Board, non-political and having functions and powers similar to the Fisheries Board of Scotland, is being advocated by the St. John's Board of Trade. This board would encourage the more general adoption of the "Scotch cure" and other "improved methods" of preserving fish and would see that herring exported were of a standard quality.

THE KIND THAT HURRIES.

"The man who hates to fight," said Jud Tunkins, "can usually be depended on when forced into a fight to work as hard as he knows how to get it over with."—Washington Star.

WHEAT GROWN
SMITH ISLAND

Good Sample Brought to City by
T. J. Davidson—Silo
on Island.

T. J. Davidson of this city has brought back from Smith Island a fine sample of wheat raised on the island by Fred Christmanson. It is hard and would make excellent chicken feed. Mixed with other wheat it would be good for milling. It is not grown in any quantity but just as an experiment to see what can be done.

The community on Smith Island is a thriving one. The people have small holdings on which they raise garden stuff and in the season they fish. They have a farmers' institute and through it they make purchase of stumping powder, machinery, etc., at reduced prices. It is the intention, however, to raise all their food at home and it is found that wheat is one of the grains that is well suited for the soil and climate.

One of the most progressive farms on the island is that of E. Einarson and P. Bjornson, who have built a silo in which they are putting up the wild hay for feeding their cows during the winter. The cows are very fond of the ensilage and the silo has proved a great success.

REVOLUTION BRINGS
MEXICAN POPULATION
DOWN ONE MILLION

MEXICO CITY, Feb. 13.—The population of Mexico is a trifle more than 14,000,000, according to figures recently compiled by the census bureau which has just completed its enumeration. This represents a loss of approximately 1,000,000 since the last census was taken in 1910. The decrease is ascribed to emigration of natives and foreigners during the periods of revolution. Officials here assert there are now more than 4,000,000 Mexicans living in the United States.

A social evening for the mem- bers of St. Andrew's Society and the Ladies Auxiliary will be held in the rooms on Monday at 8:30 p.m. 36

S. S. Finnegan and W. G. Van- derlip, of Terrace, reached the city on Saturday afternoon and are registered at the Hotel Prince Rupert. 1f

Joe Hutchinson, of the Do- minion Fisheries Office, left this morning for Captain's Cove on a trip in connection with his de- partmental duties. 1f

Miss Ludgate, of the local hos- pital staff, returned on Satur- day afternoon from Toronto where she spent three months visiting at her home. 1f

The thermometer registered 8 degrees above zero at the Do- minion Meteorological station here this morning at 7 o'clock. This was the lowest reading so far this winter. 1f

Magistrate McGlymont was on hand this morning to take over his duties at the city police court but there were no offenders to appear before him. He has had no cases since his appointment. 1f

Mrs. George B. White return- ed on Saturday afternoon's delay- ed train from Ponoka, Alta., to which place she accompanied the remains of her father, M. Ger- vency, who passed away here a few weeks ago. 1f

Dr. Harry Simmons passed through the city last night on the Venture enroute to Anyox where he will take over the dental practice of his father, Dr. H. Simmons, who died recently. Dr. Simmons, Jr. is a Vancouver dentist. 1f

You have read our adver- tisement of last week. Dr. Scholl's representative is now in this store for three days. Don't fail to come and see him. Any foot trou- ble at all, from the merest corn to the most aggravated case of flat foot treated suc- cessfully. Family Shoe Store. 37

R. V. G. Lapine, district deputy grand exalted ruler, W. F. Ro- berge, esteemed lecturing knight, of No. 46, B. P. O. E., and Ernest Unwin left last night for Any- ox where they take part in the installation of officers of the Anyox Elks' Lodge. Tomorrow the lodge in the North will put on a big masquerade ball. The local men will return on Thurs- day night. 1f

Do not suffer another day with itching, bleed- ing, or protrud- ing Piles. No surgical opera- tion required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a box, all dealers, or Richardson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage. 1f

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

TWENTY CENTS A DAY ON RUSSIAN RAILWAYS

MOSCOW, Feb. 13.—Thefts of goods from Russian railways are so extensive that M. Djerjinsky, the Pole who now directs the railway administration, asserts that it will be necessary to es- tablish a special police force to stamp it out. Djerjinsky first came into international notice through his direction of the counter-revolution organization known as the Cheka during the Red terror period in the summer of 1918.

He recently denounced the railway employees as speculators and traitors who should be jailed. However, it is difficult to understand how the rail- road men can be expected to work without stealing for train- men have told the correspondent that their pay amounted to only 5,000 Soviet rubles a month. This is equivalent to 20 Ameri- can cents, less than the price of a single pound of black bread.

LANGUAGES SPOKEN LEAGUE OF NATIONS

LONDON, Feb. 13.—Professor Gilbert Murray, vice-chairman of the executive committee of the League of Nations, says the necessity of an international lan- guage was forcibly borne upon him when attending the recent meetings of the League of Na- tions at Geneva.

"If you spoke in English," he said, "it was translated into French; if in French it was translated into English, and if anybody knew neither English nor French that was his own look out."

On the whole, he thought the natural way out of the difficulty would be for the League to re- cognize one of the two artificial international languages, either Esperanto or Ido.

The latter for most Europeans was easier. To non-Europeans there were certain advantages in Esperanto, which had a smaller number of roots.

MANITOBA MAKING MUCH MORE BUTTER

WINNIPEG, Feb. 13.—The out- put of creamery butter in Mani- toba in 1921 was the largest in the history of the industry, ac- cording to the annual report of L. A. Gibson, commissioner of the dairy branch of the provin- cial department of agriculture.

The output for 1921 was 8,550,105 pounds, as compared with 7,666,802 pounds in 1920. The average price realized by the creameries last year was 37c per pound, as compared with 55c per pound in 1920, which had the effect of cutting the total selling value by the cream- eries from \$1,216,752 in 1920 to \$3,163,538 in 1921.

A comparative statement for the past 10 years shows that only in 1918, when dairying condi- tions were unusually good did the total output come anywhere near the figure for 1921, the output in 1918 being 8,150,182 pounds.

ALD. COLLART POSTS NOTICE OF MOTION

Will Seek Civic Regulation Re- garding Laundries, Piggeries, Etc., Also Cows and Poultry.

Ald. Collart at tonight's council meeting will introduce a motion calling upon the city solicitor to prepare a bylaw regulating the lo- cation, construction and use of wash-house buildings, laundries, livery stables, piggeries and breweries in the city. He will also seek municipal legislation regu- lating the keeping of cows, goats, pigs, poultry and other animals and defining the limits in which they may be kept. Notice of mo- tion is posted.

BURKE WILL MEET BOB FITZSIMMONS TONIGHT ORLEANS

If Successful May Have Chance to Fight Carpenter Later in London.

NEW ORLEANS, Feb. 13.—Martin Burke, lightweight, is to meet young Bob Fitzsimmons of New York in a scheduled fifteen round bout here tonight. On the outcome of the match hinges the array of future bouts. Burke is included in the championship match with Gene Tunney and if successful in these bouts will have a chance to meet Carpenter in London.

ZAM-BUK

THE MAGICAL SKIN BALM.

LIKE the lost precious balms of ancient Rome, Zam-Buk is of rare herbal origin. These herbal extracts endow it with a special power over the human skin.

Zam-Buk is a concentrated healer, soothes, antiseptic, and germicide. Its pure and powerful herbal essences swiftly take pain and inflammation out of a Cut, Scald or Burn, and heal any sore place neatly.

Owing to its extraordinary refinement, Zam-Buk soaks through to the tissues below the upper skin, and draws out disease. It is ideal for Eczema, Salt-Rheum, Ring-worm, Scalp Sores, Leg Ulcers, painful Swellings, Poisoned Wounds, and for Piles.

Zam-Buk's wonderful success is mainly due to its ingenuity in destroying all harmful germ-life, and replacing diseased and damaged tissue with fine new healthy skin.

THE WORLD'S GREATEST HEALER

NEWFOUNDLAND MAY JOIN WITH THIS DOMINION

Arguments For and Against Given in Papers Published on The Island.

HALIFAX, N. S., Feb. 13.—The question of union of Newfoundland with Canada has been receiving some attention in the Ancient Colony, according to newspapers of St. John's received here.

One writer affirms that it is reasonable to suppose that the Canadian Government which has acquired railways from the Atlantic to the Pacific would, to assure the entry of Newfoundland into the Confederation, take over the Reid railway of Newfoundland and convert it into a broad gauge. Thus, by one stroke the writer suggests, Newfoundland would be relieved of payment of the subsidy of \$1,500,000 recently granted the Reid railway, and secure a railway service compared with which the present service is not worth mentioning.

Another writer recognizes that Canada is destined to become an important nation but only by Newfoundland becoming part thereof, because "the island's geographical position is the key to Canada's future." Canadian statesmen are astute enough to realize this, he thinks, and will "therefore be prepared to offer terms of union which it would be wise for Newfoundland to ascertain informally."

For the Union.

One argument advanced for union with Canada is that the Canadian Government would not be interested in helping Newfoundland solve her problems of shipping fish to the Mediterranean and other markets. In the early winter Newfoundland loads the bulk of her summer catch of fish on small sailing vessels, and rushes them to southern Europe. Every merchant wants to have his consignments across the Atlantic before the arrival of mid-winter and its violent storms. The consequence is that the markets are temporarily overstocked, and prices drop. If the Canadian Government provided St. John's with a direct connection, by regular steamship service, with the Mediterranean, the movement of dried fish could be regulated to the market requirements and prices thereby stabilized, it is argued. Shipment of the Island's staple product by sailing vessels, many of which are lost every winter, is not apparently satisfactory. Though the Ancient Colony had a large number of idle vessels, exporters last year paid the Norwegians and Danes over \$1,000,000 to carry their fish to Europe.

Another argument for union is that it would enable Newfoundland to secure better connections with the steamship services which are being maintained between Canada and the West Indies and Brazil, and thus sell more fish in these southern markets. On the other hand, there are fish merchants who fear that if Newfoundland enter the Confederation, the large Canadian fish firms operating in Nova Scotia and Quebec, would invade the Ancient Colony and gradually obtain control of the strategic positions in the fish business.

Minister Is Against.

Hon. W. F. Croaker, Minister of Marine and Fisheries and also President of the Newfoundland Fishermen's Protective Union, has recently expressed strong opposition to the idea of union with Canada. His view is that that Canada is necessarily a competitor of Newfoundland in the world's fish markets, is not a purchaser of Newfoundland products to any extent, and has no surplus capital to develop her own resources, much less to help those of the island. According to Mr. Croaker, Newfoundland should take warning from Nova Scotia, which he alleges, made a sad mistake when it entered the Canadian Confederation, because, "it has been industrially stagnant ever since," he says.

"Yassuh, mah Sambo am a perfect gemmum, even if we-all do get into a spat now an' agin. Yassuh, he nevah hits me where it shows."—The Orange Owl.

IMMORTAL OPERA IS PICTURED TONIGHT

Carmen Comes to Westholme Under Name of "Gypsy Blood."

Perhaps no other opera has enjoyed a more lasting success than the immortal "Carmen." Certainly no one can say with any great degree of accuracy just how often it has been sung. But now for the third time this fascinating tale of old Spain has been transferred to the screen, only on this occasion the original French version has been used—and this is far different from the libretto of the opera. Under the title of "Gypsy Blood," this latest production will be shown at the Westholme Theatre tonight.

The distinguishing thing about this third transition is the fact that it marks the first time that "Carmen" has been produced from the original story by Prosper Merimee, famous French author. The other productions were adapted from the popular French librettos, written in about the middle of the nineteenth century and put to music for the opera by Bizet. In 1914 "Carmen" made its debut on the screen with two American-made productions simultaneously released by rival companies. In one Theda Bara was the star, while in the other Geraldine Farrar, who had sung the opera on the concert stage, enacted the role of "Carmen."

BUYING STEEL FROM THE UNITED STATES

NEW YORK, Feb. 13.—(Canadian Press.)—While shipments of iron and steel to Canada have fallen off recently, the Dominion still is second in the list of countries purchasing these products from the United States, according to latest statistics available here. Japan is the leading customer of the U. S. steel trade. In December, 1921, 62,482 tons of steel and iron were sent to Japan and 26,447 tons to Canada. Next in the list comes Mexico, which bought 6507 tons. In November 31,259 tons were shipped to Canada by U. S. steel mills and in October 32,459 tons.

Do Your Bowels move regularly, or do they become constipated

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble that flesh is heir to that is more liable to be neglected, because material inconvenience may not be felt, at once, from irregular action of the bowels. When there is not regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

MILBURN'S LAXA-LIVER PILLS will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.

Mr. Samuel Buckler, Tatamagouche, N. S., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Laxa-Liver Pills. I procured two vials of them, but after I had taken one I found that I was relieved of my trouble. I do not hesitate to recommend Laxa-Liver Pills for any kind of constipation."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

For filling take one pound of stoned dates, one cup of brown sugar and one cup of water. Boil until jelly-like. Put between two of the cakes as used. We have tried this and it is one of the best date cookie recipes we have seen.

COOKING NEWS SAY CRITICS

Charge Made That Newspapers Deliberately Conceal Facts and Mislead Readers.

The Manitoba Free Press says editorially: Some eighteen months ago one of the United States "advanced" weekly journals issued a very elaborate forty-two page special supplement, for the interesting purpose of showing that news papers cooked the news, concealed facts and misled their readers. The issue taken was the Russian revolution, and the newspaper which was subjected to examination was the New York Times. The inquirers said in their conclusions that the news about Russia had not been accurate and it had not been accurate because the reporters who gathered the news and the newspaper editors who edited it were hostile to Soviet Russia. The straight charge is made:

Twisted News.
"The Russian policy of the editors of the Times profoundly and crassly influenced their news columns. The office handling of the news, both as to emphasis and captions, was unmistakably controlled by other than a professional standard."

The impression left on the reader by the investigators of how the Times handled its news was that the editors of the Times had twisted the news to do as much harm to the Bolsheviks and radicals as they could because they were personally opposed to Bolshevism and radicalism. The inquiry made out that the radicals, so far as getting themselves reported in the newspapers were victims of reactionary and unfair newspaper proprietors. It was one more slam, and quite an elaborate slam too, at the capitalist "press." It must have cost its authors quite a lot of work and trouble.

Making Catpaws.
And now comes another gentleman, a Lewis Harper, who claims to be a practical newspaper editor, with the dogmatic assertion that the radicals are making catpaws of the "capitalist press," and are using it successfully in the spread of radical propaganda. And Mr. Harper's point is that "most of this subtle communist infiltration of the news is the result of conscious 'boring from within' by men and women occupying strategic positions where news originates or is distributed."

In other words the news is being deliberately and consciously twisted and doctored to do as much harm to "capitalism" as possible and as much good as possible to the cause of the radicals and the communists.

the news in favor of radicalism. It is a contradictory position, and mutually destructive arguments, but both are agreed on one thing, namely, that the news is twisted and that it is done so because the people who run newspapers have a mysterious passion for twisting it.

Great Newspaper.

The investigators of the New York Times admit that the Times "is one of the great newspapers of the world," and they are so naive and innocent as to affirm that the editors of this great newspaper cook its news to suit their own personal ends. Which is equivalent to saying of a man that he has a splendid moral character, but that he tells lies with great skill seven days a week.

Mr. Harper says that news paper proprietors cook the news in order to increase their circulation, and he is naive and innocent enough to think that the public will patronize a newspaper whose news is invariably wrong or consistently biased.

Of course when all the critics, radical, reactionary and the rest come out and tell the world that the newspapers are unfair and news distorters, the common people have a chance to get at the truth, namely, that the newspaper has always been the favorite target for cranks to shoot at, and that considering extraordinary complexity of gathering, sifting, editing and printing news the percentage of error in the average issue of a newspaper would compare very favorably with the average percentage of error in any other line of human endeavor that could be named.

ONE THING WE DO NOT DO

"Ah, 'clares to goodness, oh just rubs the daylight out o' him dem tings, an' still de're not clean," says the colored laundress. We've discovered a better way of cleansing—a gentle certain way that produces aseptic cleanliness without wearing or weakening the fabric.

How is this formula for the washing of your colored clothing?

First bath, warm water, run 5 minutes.
Second bath, warm water 120F. Soap, run 15 minutes.
Third bath, Repeat second bath, run 15 minutes.
Fourth bath, warm water, 4 oz. soda, run 10 minutes.
Fifth bath, warm water rinse, run 5 minutes.
Sixth bath, warm water rinse, run 5 minutes.
Seventh bath, warm water 4 oz. acetic acid, run 5 minutes.
Eighth bath, cold water rinse and blue, run 5 minutes.
Total time, 65 minutes.
This service is at your disposal.

IMMEDIATE CURE FOR CUPID'S ERRORS

MOSCOW, Feb. 13.—Political illiteracy is a worse crime than bigamy in Soviet Russia. Cupid's errors are painlessly, instantaneously and inexpensively cured by Bolshevik courts; but ignorance of Bolshevik laws is punished by sentence to courses in Communist schools organized to enlighten those untaught in the ways of the Soviet Republic.

Had Two Wives.

Ivan Ivanovich Linsky was recently faced in a Moscow court by two wives and five children. "I didn't know that it was necessary to get a divorce and thought my living apart from my wife whom I didn't love any longer was proof that I didn't want her," was Linsky's defense.

One woman was granted a divorce, and Linsky was instructed to enter the school for the liquidation of political illiteracy at the government printing office, where he will be taught that wives may be disposed of only by making declaration before a Soviet court that one does not want them and paying a price of 10,000 rubles.

Easier Than Reno.

It's much easier than the Reno treatment and Moscow should become a popular resort for mis-mated foreigners after Soviet Russia gets the recognition necessary to make Russian divorces waterproof abroad. There are no residence requirements and "difference of political views" is the ground on which many divorces are granted.

Alimony has not yet come into fashion in Russia. Under the old Communist ideal nobody had anything, theoretically, and everybody worked and was supported by the state. With the reversion to capitalists ways and the recognition of the rights of personal property, divorce proceedings may soon be tinged by Mammon.

MARITIMES NOT AFFECTED.

SYDNEY, N. S. Feb. 13.—The Maritime Provinces have been less affected by the industrial depression than any other parts of the Dominion, according to T. S. Stevenson, special investigator of the Dominion Labor Department, who has been making a study of industrial conditions in Eastern Canada.

U. S. MAIL HOUSES BUSINESS FALLS OFF

Chain Stores Make Gains During the Year 1921.

NEW YORK, Feb. 13.—(Canadian Press.)—A resume of trade conditions in the United States during 1921 which has just been compiled here shows that for the most part the year was one of decreased business for the mail order houses and increased business for the chain store concerns. The falling off in the mail order business was largely due to conditions in the agricultural sections of the country. The tremendous decline in the prices of farm products reduced the purchasing power of the farming community.

P. Burns & Co. Ltd.**CHOOSE LEADER OF OPPOSITION**

Caucus Must Be Held to Say Who Is to Receive Big Salary.

OTTAWA, Feb. 13.—Shortly after the opening of parliament, a caucus of all members in opposition to the government will be called to decide who shall be the "recognized" leader of the opposition. That is the only solution of the perplexing difficulties which have arisen over opposition leadership as a result of the last general election. The main difficulty lies in the allotment of salary. Under the Salaries Act, the recognized leader of the opposition gets \$10,000 per annum in addition to his sessional indemnity.

"To the member," so the act reads "occupying the recognized position of leader of the opposition in the house of commons, there shall be payable in addition to his sessional indemnity an annual allowance of \$10,000."

Contains No Definition.

But the act contains no definition of the "recognized" leader of the opposition, nor does it indicate what recognition is essential to payment of the salary. So far as the leader of the opposition is concerned, the salary provision is the only provision, hence, there being no statutory provision, parliamentary practice must govern.

Here another difficulty arises. In the past, determination of the "recognized" leader of the opposition has been a simple matter since there has been only one opposition. But the coming session of parliament will see opposition forces divided into 65 Progressives, led by Hon. T. A. Crerar and 50 Conservatives led by Rt. Hon. Arthur Meighen, former prime minister.

Probably Meighen.

In such a situation, it was stated today, the only course will be a caucus of all members in opposition to the government. The caucus would be called for the specific purpose of determining a leader of the opposition but not in any way binding all those attending it to accept his policies. Such a caucus, it was added, would be in keeping with parliamentary practice, although a similar situation has not arisen in Canada before. If attended by both branches of the opposition, the caucus would naturally be controlled by the

"GIPSY BLOOD"**WILD TIMES NOW CITY OF MOSCOW**

Policemen Overworked Take Little Notice of Footpads.

MOSCOW, Feb. 13.—This city has become a wide open town for the first time in its modern history. It is open for business, for thefts, for hold-ups, for fun, for disease and disaster, for speculation, for drinking, for any and all things man, or woman, may devise.

The old timers of the staid pre-war regime can't recognize anything but the snow. It used to be, before the war, a sort of country, family town, as compared to the gayer skylarkings of St. Petersburg.

During the revolutions, it lost this friendly aspect of quiet and, as the Soviet settled down here, it became strictly moral and severe, with only the grand opera to lighten the load of propaganda and thousands of orders on how to live and prosper and be happy, notwithstanding closed shops, lack of bread and medicine and clothes.

A Russian Rip Van Winkle, who had slept during the past three years, wouldn't know the town these nights. Church bells ring out for prayers. Communists and bourgeois, peasants and princesses are all scheming for more money that they may not fall into the abyss of famine. Cabmen are fighting for higher rates, grain dealers for more rubles per bushel, bakers for more per pound, candy and confection shops are blooming out on every corner, wine and vodka are sold in millinery shops and the 80 policemen of the town have long since quite bothering with footpads.

The lid is off.

HOWSAT?

"Shay, did you see me come in?"

"The other chap replied, 'Yes I saw you come in.'"

"Well—hicc—ever see me before?"

"No, I never saw you before."

"Then—hicc—how did you know it was me?"—Syracuse Orange Peel.

Sealed tenders will be received by the Minister of Lands at Victoria not later than noon on the 16th day of March, 1932, for the purchase of License X2587, to cut 1,418,000 feet of Hemlock, Spruce, Balsam, Cedar and Piling, on Lot 65, Alice Arm, Cassiar Land District.

One (1) year will be allowed for removal of timber.
