Duplication of Steamship Services on Pacific Coast is
Condemned—C. N. R. Capitalization Should Be
Written Down But Not Now—Money
Wasted on Hotels

OTTAWA, Oct. 12.—The capital of the Canadian National Railways amounting to \$2,669,926,371 should be very heavily written down but now is not an opportune time to do it. This is one of the declarations in the report of the Royal Commission which investigated Canada's transportation problems which was tabled in the House of Commons yesterday.

"There must be a cessation of the aggressive and uncontrolled competition between the Canadian National and the Canadian Pacific," the report states.

Duplication of steamship services on the Pacific Coast is condemned. Money has been wasted by the railways in the construction and operation of hotels, the report declares.

Cost of Canadian National branch line construction as compared with that of the Canadian Pacific has been excessive, it is asserted.

Based on Canadian Pacific costs as a yardstick, operating costs of the Canadian National are in certain particulars asserted by the commission to be much higher than they should be.

While finding no direct political or public pressure in respect to the Canadian National, the commission states that, in the sphere of policies, "political consideration has led to unwise and unnecessary political expenditures." The board of directors and management of the Canadian National were "amenable to political influence and pressure which it would have been in the public interest to have withstood," say the commissioners.

Railway and Highway
The private automobile is held responsible chiefly for the diversion of passenger traffic from the railway to the highway. Motor coach traffic is not yet of very large dimension. A fair basis of competition between the railways and the highways must be found, the report declares. The true function of road transportation is held to be that of an auxiliary to railway transportation and the railways should be empowered to provide and operate services of road vehicles. Licences should be issued to highway common carriers only where it is shown that it is in the public interest to issue such licences.

In the opinion of the commission construction of the St. Lawrence Waterway project will not seriously prejudice the position of Canadian railways.

At the moment any adjustment of freight tolls and tariffs would be inadvisable, it is held. The financial position of the railways may, however, require a special investigation into the question of tariffs and tolls.

On Tuesday about noon Thomas Carroll, aged 50, a neighbor of Kelly, with whom he had gone hunting, was found dying in his cabin from bullet wounds which the police believe were self-inflicted.

Carroll died later, leaving a note in connection with the affair, the contents of which, however, were not divulged.

NEW WHEAT EXPECTED HERE BY MONTH END

Expectations are that the 1932 wheat crop from the prairies will start coming into the local elevator about the end of this month. Meantime, there will be no further exports from the house which now has less than a cargo in stock. Resumption of the grain movement to Prince Rupert will mean materially increased employment for railway crews.

TALKING OF MAYORALTY

Number of Names Mentioned as
Possibilities in This Year's
Civic Elections

If Dame Rumor is right there will be three former mayors of Prince Rupert in the running for the chief magistracy this year. But of course Dame Rumor may be all wrong as she often is. The names prominently mentioned are those of M. P. McCaffery, H. B. Rochester and S. M. Newton. Mr. McCaffery was mayor in the early days, Mr. Rochester sat for three terms and Mr. Newton for seven. Each of these men has his supporters and should the three be in the field the contest will be an interesting one.

Outside the ex-mayorality list, it is said there is a prospect of Alderman Rudderham being in the field as a labor candidate. He is chairman of the board of works in the city council and is a prominent member of the Socialist organization in the city. Alderman Pillsbury has been spoken of as a probability and also Alderman McCutcheon. Alderman Casey, too, may be there. Alderman Linzey denies that he has any aspirations in that direction but he might be persuaded.

There is also a possibility that there may be aspirants outside the list of ex-mayors and aldermen. Today people are looking around for men who have not served in the past and who might be induced to offer their services. George Nickerson says he is not looking for any such honors. Max Heilbronner, many believe, would make a good mayor but he has intimated that he cannot give the necessary time. John Mitchell, of the firm of Mitchell & Currie, might possibly be induced to take the position if it were thrust upon him. George Arnold and M. M. Stephens are also possibilities. Also the present mayor may be persuaded to reconsider his decision to retire from the position. Taken all in all, the prospects are that greater interest than usual will be taken this year in the civic elections.

TO TRY COME-BACK?

Ex-Mayor S. M. Newton who may be in field for chief magistracy again this year.

ACTIVITY AT OTTAWA

There seems every likelihood of increased activity at Ottawa from now on. The Liberals have suddenly come to life there and are about to bombard the Tory stronghold. This will please those who like to see a political scrap or who feel that the Bennett policy is wrong. Whether or not it will make for better government is a question on which there is much division of opinion.

The reason for the sudden activity seems to be the decision on the part of the opposition leaders that the present is the opportune time for attack. Some are unkind enough to suggest that it is the only means by which Mackenzie King can retain his position as Liberal leader following some very virulent attacks from within his own ranks. At any rate the fight is on and it seems likely that there will be a great deal of news coming from the House of Commons at Ottawa within the next few months.

CONTROL OF THE SENATE

Nearly all the time the Mackenzie King Government was in session it had an adverse majority in the Senate. That was because the Conservative senators were so keenly partisan they refused to die during the time when their places might be filled by Liberals. In this respect they differed materially from Liberal senators who seemed to die faster when their opponents were in office.

Today the Senate is Conservative with a majority of five, if they can all get to the upper chamber to vote. Some of them are very feeble and Hon. Arthur Meighen finds it difficult to keep keyed up in such a depressing atmosphere. Under these conditions the Bennett Government finds itself with a free hand to pass any legislation it desires and possibly the Liberals feel that they must now take the place of the formerly adverse senate as the fly in the legislative honey.

GIRL HIKER AT JUNEAU

Thea Francis Walks From San Francisco to Alaska Capital

JUNEAU, Oct. 12.—Miss Thea Francis, American girl hiker, has arrived here after completing a hike from San Francisco and has delivered a letter from Governor James Rolph jr. of California to Governor George A. Parks of Alaska.

Leaving San Francisco on March 19, Miss Francis passed through Vancouver early in the summer and hiked north to Hazelton whence she followed the Government Telegraph line via Telegraph Creek to Atlin. Before arriving at Telegraph Creek she became lost for five days at the headwaters of the Bell-Irving River, being finally located by telegraph linemen who had been sent out to search for her. From Atlin Miss Francis continued her hike to Skagway and there obtained a small boat in which she paddled here.

Miss Francis carried raisins and dates as her chief diet on the hike. She saw many bear and moose on the way but was not molested by them.

Teachers' Salary Scale Discussed

Board of School Trustees Hear of Conflicting Views in South On Question

The local school board heard a letter last night from R. H. Blandy of Esquimalt stating that the people's panel of a committee which has been appointed to go into the question of standardization of school teachers' salaries in British Columbia had gone on record as favoring one standard of salaries for the whole province with due provision for cost of living and transportation whereas the teachers' panel was in favor of four separate scales with Vancouver and Victoria being placed highest and Prince Rupert in the second grade.

The local teachers, Secretary J. O. Williamson informed the board were in favor of the one standard for the whole province.

After some of the trustees had expressed disapproval of any arrangement that would give Vancouver and Victoria higher governmental allowances for teachers' salaries than Prince Rupert received, the matter was laid on the table for one month when it is expected further information will be available.

Windows at High School Will Be Given Protection

The board of school trustees, at its meeting last night, authorized the chairman to make arrangements for having windows exposed to the softball field at the High School protected with wire so as to prevent breakage. Already some of the windows have been so protected. Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letters should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opportunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.

MAHONEY SPEAKER

Three Hundred Head Report of Workers' Delegate to Ottawa

Approximately 300 members of the National Unemployed Workers' Association turned out last night to hear the report of their delegate to the Workers' Economic Conference which was held in Ottawa from August 1 to August 5. W. Mahoney, the delegate, gave a very detailed account of his travels and spoke for over an hour on general conditions in Canada. In the course of his remarks, Mr. Mahoney declared that attempts had been made by the Royal Canadian Mounted Police to stop workers from attending the conference but over 500 workers' delegates were, nevertheless, present. He also referred to the great difference of accommodation and food enjoyed by the delegates of the Workers' Conference and those of the Empire Conference held at the same time.

Mr. Mahoney outlined conditions existing all over the capitalist world and contrasted them to the conditions existing in Soviet Russia where, he declared, the workers were going forward every day in Socialist construction. The time will come, said Mahoney when detention camps will be opened up and he urged the workers not to accept them. He also emphasized the danger of war being declared on the Soviet Union by the Capitalistic countries, this being the only step they can take in their effort to crush Russia's advancement.

A collection was taken for the purchasing of stamps, etc., and the meeting adjourned by singing "The Red Flag."

Keen interest was shown by all present and, at the termination of his speech, Mahoney was greeted by tumultuous applause.

School Insurance Will Be Discussed

Whole Matter to Be Dealt With By Board of Trustees at Next Meeting in November

The whole question of fire insurance on schools will be discussed at the next meeting of the board of school trustees in November at which time the board will consider a report on the subject which was prepared some time ago by the secretary at the board's request.

Trustee Fulton is of the opinion that some money may be saved by calling for tenders, possibly on a blanket basis. There are, however, a number of factors entering into the matter which will require to be discussed.

The board has received a request from the West Vancouver school board as to the manner of handling fire insurance on the schools here.

Mr. and Mrs. O. Nyholm, who have been on a trip to Vancouver, returned to the city from the south on the Prince Rupert this morning.

Splendid Emotional Vehicle Provided in "As You Desire Me" For Swedish Star

"As You Desire Me," mid-week feature offering on the screen of the Capitol Theatre here, makes an unusually good vehicle for a clever actress as its chief part has a splendid emotional range. For this reason it was probably given to Greta Garbo who gives a fine performance in the leading role.

The story concerns the beautiful young bride of an Italian nobleman

Greta Garbo

Star of "As You Desire Me" at Capitol Theatre this mid-week.

who disappears during the war when the country surrounding her home is cut off from the rest of Italy by the enemy advance. Years later one of her husband's friends, an artist who has painted her portrait, believes he has found her in Berlin living as the notorious mistress of an even more notorious debauchee. Her life and character are entirely dissimilar to that of the missing woman yet, when she returns to the Italian family, she fits into the old character and mode of living as if the dissolute Berlin interlude had never occurred. Then comes another woman who claims to be the missing wife with proofs of her identity which appear to be authentic. The picture leaves it to the audience to decide which is the right woman.

As in all her pictures, Garbo is the dominating character.

For the weekly revival feature tonight, "Delicious," delightful Janet Gaynor-Charles Farrell picture, has been chosen.

Westview Gets Sunday School

School Board Grants Permission to Presbyterian Church to Use School on Sunday

The board of school trustees last night granted a request of Miss Ruby E. Blythe, Sunday School worker for the Presbyterian Church, for the use for one hour each Sunday of Westview School for Sunday School purposes. The request was granted on condition that a responsible person, acceptable to the board, be placed in charge, that full responsibility be assumed for any damage that may be done to books or property and that any other denomination be accorded a similar right without discrimination. The chairman and secretary of the board were authorized to set a rental rate. It is the intention to conduct Sunday School classes for children under the age of twelve.
