BEER BY GLASS CONSIDERED IN COMMITTEE

TRIM WARSHIP WITH DISTINGUISHED LIST OF OFFICERS ARRIVES HERE

Members of Provincial House Split up Badly When Knotty Question Comes before Them

VICTORIA, Dec. 12.—Beer by the glass was the subject of discussion by the legislature for a long time yesterday.

Capt. Ian MacKenzie asked for a referendum and David Whiteside, member for New Westminster, asked that he be ruled out of order. Chairman M. B. Jackson, member for the Islands, did so and then the fun began. Capt. MacKenzie quoted many authorities and J. W. de R. Farris, member for Vancouver, even went so far as to suggest a vote of want of confidence was always in order. Premier Oliver supported Mr. Jackson and there was a free-for-all discussion.

PRINCE RUPERT OBJECTION TO REPEAL CLAUSE

Local City Council Does Not Want
Initiative Power in Doing
Local Improvement
Work Removed

LEGISLATURE DEALS WITH MATTER TODAY

VICTORIA, Dec. 12.—Hon. T. D. Pattullo, minister of lands, and Hon. A. M. Manson, attorney general, said in the legislature yesterday that they had received representations from the mayor and city council of Prince Rupert objecting to the repeal of the clause in the Municipal Act allowing the city council to order local improvement work done without consulting the property owners. It is pointed out by the Prince Rupert council that there are many non-resident owners and such a clause would hold up the progress of necessary work. The clause has been held over until today when it will be further considered. There is much opposition to the clause remaining.

ASKS AID FOR GRAIN TRAFFIC

Premier Oliver Sends Telegram
to Premier Mackenzie King
Asking for Fair Treatment

VICTORIA, Dec. 12.—Premier Oliver yesterday wired to Premier Mackenzie King stating that he had received representations from Vancouver that the facilities there were insufficient and that grain cars on the tracks could not be unloaded for want of storage and asking that a new grain elevator and connected facilities be laid immediately under the Harbor Board with power to act.

The Premier stated in his wire that the province felt strongly that the western grain movement should not be deterred either by excess transportation rates or for want of facilities. Concluding the telegram said: "I do not urge preference for any port as against another as we have plenty of suitable ports, but I do urge that British Columbia should be given fair and even generous treatment."

CRITICISM OF FOREST ACT AMENDMENTS

VICTORIA, Dec. 12.—Hon. T. D. Pattullo's Forest Act amendments were criticized at some length yesterday and were defended strenuously by the minister. The matter is still in committee.

VANCOUVER IN GRIP OF COLD

Ten Above Zero—Snowshoes
on Boulevards—Roll
Tops Forsaken

VANCOUVER, Dec. 12.—It was ten above zero in Vancouver today.

Many milk dealers and express men are making their rounds on sleighs.

Glistening snowshoes were seen on Twelfth Avenue West on Sunday afternoon.

In Stanley Park the attendants cut holes in the ice for the ducks while bears sat on their haunches in vain for the peanuts that did not arrive as the people stayed indoors.

The girls have forsaken roll tops for woolens and flannels are taking the place of silks.

BRITAIN WILL SOUND STATES

On Question of Cancellation of
French Debt

LONDON, Dec. 12.—Belief that Great Britain intends to sound out the United States government's willingness to take some action in reference to Allied debts with the possible cancellation of the French debt is asserted by the Daily Telegraph's diplomatic expert. It is held that the British might approach the United States before January 2, when the conference of premiers resumes, to ascertain whether the United States is willing to consider either cancellation of the French debt or participation in a conference for the consideration of such a step.

The comment here on the adjournment of the conference is rather doubtful. Newspapers do not conceal the fact that it may be impossible to harmonize the Allied views and that they will again be manifested at Paris. All commentators make it clear that, whatever happens, Great Britain will have no share in occupying the Ruhr district.

UNEMPLOYED SANG "RED FLAG" LONDON

Turbulent But Short Lived Scene
Staged at Great Central
Hall

LONDON, Dec. 12.—A turbulent but short-lived scene was staged this afternoon in the Great Central Hall adjoining the lobby of the House of Commons when the police ejected fifty unemployed who had invaded the place and began singing the "Red Flag" while waving placards.

CAMBRIDGE BEATS OXFORD

LONDON, Dec. 12.—Cambridge defeated Oxford in the annual rugby game this afternoon by a score of 21-8.

ABERCORN SWORN IN

BELFAST, Dec. 12.—The Duke of Abercorn who was appointed governor of Northern Ireland, was sworn in here today.

A man convinced against his will is of the same opinion still.

BRITISH SHIP IS ON ROCKS

Orterio Hits on California Coast
—Crew Being Transferred

SAN FRANCISCO, Dec. 12.—The crew of the British steamer Orterio, which is on the rocks at Fish Rock off the California coast ten miles from South Point, were being transferred to the steamer Cotton Plant this morning. It is not known whether the steamer can be salvaged.

APPEAL REGARDING ORIENTALS HOLDING TIMBER COMMENCES

LONDON, Dec. 12.—The appeal of Brooks Bidlake Co. against the ruling of a British Columbia magistrate that Orientals cannot hold timber licenses has begun with the argument of the appellant that the ruling is beyond the power of the province, is aimed to prevent Orientals naturalized from getting a decent living and is, moreover, an infringement on the Japanese-English treaty. The argument has not been finished yet.

LICENSING INSURANCE AGENTS WAS UP AGAIN

Amendment Introduced by Attorney General Receives Support
and Also Disapproval

VICTORIA, Dec. 12.—The bill calling for the licensing of insurance agents was discussed in committee yesterday afternoon. Hon. A. M. Manson, attorney general, moved an amendment favoring the part time agent. This was favored by H. G. Perry, member for Fort George, and was opposed by Kenneth Duncan, member for Duncan, and other sections of the House. The matter was stood over.

QUALIFICATIONS SCHOOL TRUSTEES

Legislature Provides That Man or
Woman May Run on Wife's
or Husband's Property

VICTORIA, Dec. 12.—The amendment put forward by R. H. Neelands, member for South Vancouver, designed to eliminate property qualifications for school trustees in seeking election was voted down by the legislature yesterday but it was provided that a man may qualify on his wife's property and a wife on her husband's.

EDMONTON BEAT REGINA 4 TO 3

Eskimos Defeated Rivals in Western
Canada Hockey Fixture
Last Evening

REGINA, Dec. 12.—Edmonton defeated Regina 4 to 3 in the Western Canada Hockey League fixture last night.

KILLED WHILE COASTING

VICTORIA, Dec. 12.—James Lynn was killed here when the bob-sleigh on which he was coasting ran into an auto at the intersection of Baultain Street and Aerwood Hill.

PRINCE RUPERT TYING UP SOON

Week-End G.T.P. Steamer Will
be Withdrawn From Service
on December 24

Reginald Beaumont, superintendent of the G.T.P. Coast Steamship Service, announces that the steamer Prince Rupert will be withdrawn from service on December 24 for the winter, and that a single weekly service will be thereafter maintained by the steamer Prince George.

The Prince Rupert will arrive here on her last trip from Vancouver, Victoria and Seattle on Saturday, December 23, and will proceed that evening as usual to Stewart, returning from there on Sunday evening, December 24. On Monday, December 25, the vessel will move to the dry dock where she will be tied up for overhaul.

Mr. Beaumont stated that the Prince George would maintain the mid-week service from the south but definite provision had not yet been made for the Stewart run now taken by the Prince Rupert. It is possible that the Prince George may be called upon to perform a double-ended service to Stewart and Anxos while in the north at the middle of the week. Definite announcement will be made later.

NAVIGATION INVENTION

Instrument Made by French
Professor Will be Soon
to Seafarers

PARIS, Dec. 12.—Ships can proceed safely through the fog in shallow channels, lost vessels loaded with treasure may be discovered and floating mines may be located by an electric depth finder invented by Professor Langeville of the French College. The instrument has been successfully tried by the French laboratory.

CAR FERRY IS RUNNING AGAIN

Tug Bermuda Left Last Night
With Barge For Swanson
Bay—First Trip Since
May

After having not operated since last May, the car ferry for the carrying of pulp from Swanson Bay to this port for transshipment East over the Canadian National Railways is resuming service. A barge, loaded with empty cars, left here last night for Swanson Bay in tow of the tug Bermuda and will return here loaded in the course of a few days. With the recent resumption of operations at the Whalen Pulp mill at Swanson Bay, it is anticipated the car ferry will be in steady service henceforth making one trip a week at least to start with.

DISORDER MARKS SWEARING IN OF POLISH PRESIDENT

WARSAW, Poland, Dec. 12.—Rioting in which many were killed and wounded marked the ceremony of swearing in President Narutowicz.

Destroyer Patrician Is Paying Her First Visit to Port Today

H.M.C.S. torpedo boat destroyer Patrician, which during her two year's service in the Great War tore through the high waves of the North Sea at a speed of 35 knots an hour and engaged in all manner of service from conveying troops to assisting giant battle cruisers, is today a visitor to Prince Rupert. Sharp on time and slipping along at ten knots an hour, the war vessel passed in at 3:30 yesterday afternoon and shortly after tied up at the government wharf. The craft is painted black from stem to stern and as she crept through the entrance to the harbour in the

smoke which is used to conceal the battle cruisers in battle.

Official Welcome

Mayor H. B. Rochester, Fred Sivok, M.P., and Col. J. H. McMullen, paid their official visit to the Patrician this morning. The mayor welcomed Commander Oland and his officers and crew to the city and the civic party were shown about the vessel.

Commander Oland stated to the mayor that the Patrician would be on the coast for a couple of years and that she would pay another visit to this port before long.

The mayor explained that it had been intended to put on a more formal reception but the fact that the definite arrival of the ship was not known and that she was leaving again tomorrow morning had prevented this being carried out.

This afternoon, Commander Oland and some of his officers will be shown about the waterfront and will visit such points as the drydock and cold storage under the guidance of Mayor Rochester and his committee.

Tonight some of the officers who are members of the craft plan on visiting at a Masonic function that is taking place.

Distinguished Officers
Lieut. Oland had a very distinguished career during the war and (continued on page six)

LADY CREASE PASSED AWAY AT RIPE AGE

Resident of Victoria Lived
Through the Reigns of
Four Sovereigns

VICTORIA, Dec. 12.—Lady Crease, widow of the late Sir Henry Crease, Supreme Court judge, died at her home here yesterday, aged 96 years. The late Lady Crease lived in the reigns of four sovereigns, William IV, Queen Victoria, Edward VII and George V. While a child, she attended the coronation of Queen Victoria in Westminster Abbey. She was married in 1853 and came to British Columbia in 1862. Two daughters, two sons, seven grandchildren and twelve great grandchildren survive.

FUNERAL NOTICE.

L.O.L. 2310.
The funeral of our late Brother A. E. Greep will take place from the B.C. Undertakers' Parlors at 2:30 p.m. on Wednesday, December 13. All members are invited to attend.

DAILY EDITION  Tuesday, Dec. 12, 1922.

Welcome To Officers And Men Of Patricia.

Prince Rupert bids welcome today to the officers and men of H.M.C.S. Patricia. It is a pleasure indeed for this city to again receive a body of men representing that Grand Navy that has braved the battle and the deep for a hundred years in upholding the Empire's traditions, and keeping Britain the mistress of the sea. All honor to them and may their duties be forever as they are today—peaceful policing and upholding of law and order merely with the symbol of their might.

This is the first time in many years—to be exact since 1914 when H.M.C.S. Rainbow was here—that Prince Rupert has been honored with a visit of one of His Majesty's fighting vessels. All hope that it may not be the last and that Prince Rupert will steadily grow to such importance that this port will always be a regular port of call for vessels of the Navy stationed on this coast as well as those that visit the Pacific.

Self Control In Work And Play.

Many men and women live too fast. Either they work too much or they play too much. Very few ever strike the happy medium. Working life away is almost as vain as playing it away. The worker is appreciated no more—perhaps not as much—as the player. The former is hardly ever a good fellow; often the latter is. The one enjoys an obscure life of duty; the other may achieve spectacular popularity. Each may be happy in his particular way for, after all, he is probably following the bent of his natural inclinations and therein lies the fault.

All work and no play may make Jack a dull boy all right just as well as all play and no work may make him hungry. The author of that proverb, however, did not mean that Jack should give up all work and start playing instead. He did mean that if Jack was working sixteen hours a day he ought to give perhaps eight hours over to recreation and divide things up somewhat for the betterment of himself and the community at large.

Everywhere there is need for self control. It is one of the most important factors in self-preservation and is necessary in connection with one's work and play just as much as it is necessary in regulating one's habits.

No Necessity For Obsession With Work.

Many of us become obsessed with our work or with our play. The drunkard becomes obsessed with drink, the fiend becomes obsessed with drug, the smoker becomes obsessed with tobacco. Just so does the player become obsessed with play and the worker with work. Each, through his obsession, is shortening his life.

One should be able to do his work well and successfully without spending night and day at it. The trouble is that many of us who spend our nights as well as our days at work are not doing it well. We are perhaps working double time at half efficiency instead of single time at full efficiency. It is an exclusively Socialistic principle that the man who gives an honest day's work is entitled to a living and a little to spare for himself and family.

Eight Hour Day Not Unionism.

King Alfred divided his day into three periods—eight hours for work, eight hours for prayer and eight hours for sleep. He was the original eight-hour day man and his division of the day is the recognized standard today. For physical and mental well-being, eight hours work a day is enough for any man or woman. Such a statement is not unionism; it is strictly commonsense.

In Prince Rupert, there is a tendency to over-work because often there seems to be nothing else to do. That, of course, does not apply to everybody. Here as well as elsewhere, there are the loafers—the ones who would rather stand around and talk on the job in working hours as well as out of them.

Physical Recreation Is Needed Here.

There is a need here for more recreation of a physical nature. It should be organized in such a manner as to make it open for the public at large. Many attempts have been made on a small scale to fill this need and those who have been behind them have been doing a service for the good of the community. Something of a more general nature is needed, however. It would pay for itself and all that is needed is a little continuous enthusiasm to get it launched successfully. It seems a shame that a city the size of Prince Rupert does not possess the semblance of a public gymnasium. On the face of it it looks as if the people have been more interested in work or useless recreation than in the important culture of their physical well-being.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:—
 "Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."
 (Mr. J. W. Vince, Druggist, of Madoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

New Redistribution Bill to Receive Early Attention of Next Session Federal House

OTTAWA, Ont., Dec. 12.—(By Canadian Press).—Shortly after the opening of Parliament, the sixth Redistribution Bill presented since Confederation, will, according to present intentions, be introduced in the House. When the last Redistribution Bill was introduced by Sir Robert Borden in the session which preceded the outbreak of the Great War, no attempt was made to define the limits of constituencies. Following the example of Sir Wilfrid Laurier eleven years previously, Sir Robert submitted a bill without schedules—leaving to a parliamentary committee the work of actually plotting out constituencies where changes have to be made. It is altogether likely that the present Government will follow a similar course. But, in the coming session, the party composition of the special committee will of necessity have to undergo a change. In 1914, the committee consisted of seven members; four Government and three Opposition. On the present occasion the Progressive party, in addition to Liberals and Conservatives, will be represented on the committee.

The next House, when the pending redistribution will become effective, will be the largest numerically since Confederation. It will consist of 244 members, an increase of nine over the present membership, and the various provinces will be represented as follows:

Province	Present House	New House
Quebec	65	65
Nova Scotia	16	14
New Bruns.	11	11
P. Ed. Is.	4	4
Ontario	82	81
Manitoba	15	17
Saskatchewan	16	21
Alberta	12	16
B.C.	13	14
Yukon Territory	1	1
	235	244

Increase from Prairies

Based on the census of eighteen months ago, the next House will have eleven more members from the Prairie provinces. Nova Scotia and Ontario will have decreased representation. Saskatchewan will get an additional five members, the largest increase in any province. Alberta comes second with an increase of four members. Yukon, in the foregoing table, is indicated as retaining its present representation of one member. But there is doubt if this course will be followed. When, in 1902, the Yukon was first given a representative in the House, it had a population of 27,249. But the days of the gold rush drew to a close. Year by year, the population of the Yukon dwindled until at the census taken on June 1, 1912, it was only 3,157. During the previous decade it dropped 51 per cent.

The story of successive redistributions has been one of lessening relative membership in the House from the original provinces of Confederation. Quebec has 65 members still—and the proportion which that 65 bears to the whole population of Canada gives the unit of representation from the other provinces—but, at Confederation Quebec had 65 members out of a total of 181. In the next Parliament, it will have 65 out of 244. Ontario, New Brunswick and Nova Scotia, the three other original provinces of Confederation, have seen their representations in the House increase, and then, with the growth of the western provinces, decline again. Such has been the case of Ontario.

Ontario and East

In 1867, Ontario had 82 members; in 1872, its membership rose to 88; in 1892, to 92. Then the decline started. In 1903, the representation of Ontario was 86; in the present Parliament it is 82; the same, curiously, as at Confederation; in the next Parliament it will be 81.

The representation of Nova Scotia at Confederation was 19. At the first redistribution it rose to 24. It is now 16 and in the next Parliament, according to the present census computations, will be 14.

New Brunswick had 15 members at Confederation. Its representation then rose to 16 and remained at that for 29 years. It declined in 1892 to 14. In the present Parliament it is 11, a representation that is unlikely to be affected in the coming readjustment.

Western Provinces

Meanwhile, provinces west of the Great Lakes have come into being and their representation

QUEBEC ASKS FOR AID FROM RUPERT

Wants Endorsement to Resolution Asking for C.N.R. Headquarters There

The city council last night received a letter and resolution from the city council of Quebec asking for support in requesting the premier of Canada and the president of the Canadian National Railways to make a separate railway zone with Quebec as headquarters. The communication was filed, the council taking the view that it had not sufficient knowledge of Quebec's local condition to take action on such an issue.

The communication suggested that Montreal was to be chosen as general C.N.R. headquarters with Winnipeg, Moncton and Toronto as zone headquarters. Such division of the system, it said, would be unfair to Quebec.

Ald. Kerr suggested that Prince Rupert might also be made a headquarters city for the system.

REFERENDUM TO BE TAKEN ON HOLIDAY

Petition Received From Citizens Asking Change From Wednesday Afternoon to Thursday

A petition signed by Duncan C. McEae and 241 others praying for a referendum on the question of changing the weekly half holiday from Wednesday afternoon to Thursday was submitted to the city council last night. It was moved by Ald. Kerr and seconded by Ald. Colclough that the petition be complied with providing the city clerk's check finds the petition to bear sufficient qualified names, namely one-tenth of the voters' list or approximately 225 names.

The change is asked on the grounds that the C.N.R. coast steamer arrives here from the south late on Wednesday morning. Through the stores being closed, passengers who wished to make purchases were disappointed and considerable business was lost to the city.

The Man in the Moon SAYS

THERE should be a great time in the old town tonight with the Patricia boys in our midst.

IT'S a case of "Hail! Hail! the gangs all here so what the de we care now."

THE Admiral of the Mosquito fleet had ordered a salute fired as a mark of respect to H.M.C.S. Patricia but, in the excitement of the destroyer's arrival, the old man swallowed the cork and couldn't give the necessary order.

WE wish the worthy Canadian man of war would blow the high out of the high cost of living while she is with us.

IT was said that the habits of the squirrels foretold a mild

winter. From the looks of things to-day they must have been nutty.

If you want to "beef" do it the Bunkley Valley way.

THE cottage was a thatched one. The outside wasn't in. The roof was in the basement. Now wasn't it a sin?

INTERNATIONALLY we have the British lion, the French tiger, and the American bull.

WHAT has become of the flapper with the turned down nose?

Ten Years Ago in Prince Rupert

B. B. Kelliber, the chief engineer of the Grand Trunk Pacific, is a visitor in the city. He will make an inspection of the line out of the city before returning.

Captain C. H. Nicholson, manager of the G.T.P. steamship service, arrived on the Prince Rupert yesterday on an inspection trip.

I. N. Linnell and J. J. Sloan have returned to the city from from the south.

Ben Self and Miss Viola Leadbetter were married here last night.

Fable: Once upon a time there lived a popular girl who thought that she was neither beautiful nor attractive.—"Aesop's Film Fables."

A Birks' Diamond as a Christmas Gift

There is something specially significant about a Birks' Diamond which makes it most suitable as a Christmas gift. It is its perfect beauty and flawlessness.

GREEN WATCHES

Had Bad Pains in Her Heart

Nerves were very bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes:—"I wish to say that I have been bothered very much with my heart and nerves. I doctored with two different doctors, but did not find much relief. I would have such bad pains in my heart, at times, I would be almost afraid to move or breathe, and at night could not sleep. If the pains in my heart were gone, my nerves would be so bad I could not be still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made my heart worse."

I had been suffering for nearly two years until one day I was talking to our druggist about the way I felt. He advised me to give Milburn's Heart and Nerve Pills a trial. I have now taken five boxes and my feeling is so much better, I am able to do my own work, and can eat anything I wish. I cannot praise

Milburn's Heart and Nerve Pills

too highly. Price 50¢ a box at all dealers or mailed direct on receipt of price by The T. M. Burn Co., Limited, Toronto, Ont.

FAIR BOARD'S DRIVE FOR MEMBERS TODAY

The drive for new members of the Exhibition Association opened this morning and despite the bad weather, Manager Jack Venables reports that prospects for the drive are rosy. At a meeting of the board last night preparations for the drive which will last till the annual meeting on January 19 were made. Those present included C. C. Mills, M. M. McLachlan, Aldermen T. Silversides and J. H. Kelly, W. J. Kirkpatrick and J. Venables.

The Hays Creek bridge bylaw, which is to be submitted to the electors at the municipal election next January, will be introduced next week's council meeting. The city clerk replied to this effect to a question asked at last night's meeting by Ald. Montgomery.

Rose, Cowan & Latta Co. was last night awarded the contract by the city council for the printing of the 1923 voters' list, their bid being \$263.30. McRae Bros. tender was \$265.50. The book is to contain 2418 names, will consist of 10 pages and 200 copies are to be supplied.

H. Smith, cemetery caretaker, protested to the city council last night at having to exhumate bodies without extra pay. He pointed out that the city received \$25 for each exhumation so he felt that he was entitled to something. The matter was referred to the cemetery committee.

A temporary loan bylaw to provide for the borrowing of \$30,000 additional to cover the Section 1 local improvement street surfacing work for which \$70,000 has already been provided was put through its first and second readings and committee stage by the city council last night.

One tender for the supply of lumber to be used on the new Fourth and Fifth Avenue West sidewalks was received by the city council last night. It was decided to lay it over unopened pending the arrival of more tenders. The city engineer reported that the lumber was not needed immediately.

Mayor Rochester is to again write to the Board of Railway Commissioners regarding the application recently made by the city for a level crossing across the G.T.P. tracks at Hays Cove. This was decided upon at last night's council meeting when, in answer to Ald. McLeod, the mayor reported that no reply had been received to the original application made some months ago.

Two offers for the purchase of the Cletrac tractor for which the city has no further use were received by the council last night. One was made by F. J. Beale, of Ocean Falls, who offered \$800 cash; the other from the Lakelse Lumber Co., \$1,000 to be paid in lumber at 82¢ per thousand. The council rejected both offers and instructed the city clerk to write to the bidders explaining that the tractor was in good order and that a minimum valuation of \$1500 had been placed on it.

BUSINESS OF LEGISLATURE

Workings of Victoria Parliament Described—Two Departments

MEMBERS VERY BUSY

Close Predicted for Next Week Depending Chiefly on Opposition Members

H. F. Pullen. VICTORIA, Dec. 11.—There are two departments of the Legislature one devoted to business of the country, and the other the spectacular department designed for the delectation of constituents of the members. All take part more or less in the first and nearly all are interested in the second.

The business of the House has to do with the budget and estimates, the passing of departmental bills, the amending of existing statutes and similar business. The spectacular portion of the work is well mixed up with the other and is very largely a matter of gallery speeches. Under this heading may be included the debate on the address, much of the budget debate, resolutions having to do with Oriental and liquor questions and also those subjects in which Labor is particularly interested. There are also the Tibbustons and the public accounts probes and similar matters.

Leaders Most Spectacular

Naturally the leaders on both sides are the most spectacular. The success of the party and the election fate of private members. There has to be a lot of that sort of thing else the people of the province would not be satisfied.

At this session there has been just as much spectacular work as usual, but it has not been just as effective as some of the members would like. Take as an example the operations of the public accounts committee. They have been digging for weeks and have so far found nothing in the patch but small potatoes. It looks as if the attempt would be abandoned soon.

Forecasting The Close

Business of the session is well advanced and next week should see the close, and perhaps it may come about the middle of the week. All depends on the opposition members. Just as soon as they have exhausted themselves on exhibition stuff for the newspapers and the electors, just as soon will the business be wound up. The government is ready to close just as soon as the business is done and that will take little more than one day.

When there is little doing in the House the members take the opportunity to snatch a little sleep. The other day not less than eight members were asleep in their chairs at one time. Then someone commenced to speak on a live subject and they were all immediately awake and alert. The long hours make it almost impossible for members to attend to the proceedings all the time.

Quiet in the House

At the time of writing the chiropractic committee is sitting at the same time that the House is in session and nearly as many members are there as are sitting in their places. If a division should be called, the whips would at once call these members in, but there is a tentative understanding that no such division will take place and that the House will consider only non-contentious legislation while it is going on. The reporters are practically

all out of the gallery and few spectators are watching the proceedings. At different times during the session there have been divisions. The smallest majority the Government has had so far has been four and that was sprung at a time when several supporters were away. On one or two occasions the whole House has voted against the Labor members and on a few occasions on private bills there has been a mixup of members, some voting one way and some the other without regard to party. Usually, however, the Labor group vote the same way, sometimes with the Government and sometimes against it. They caucus continuously although the gatherings are not dignified by that name.

ELECTORS WILL VOTE ON DAYLIGHT SAVING

Civic electors will next month vote on the daylight saving question. This was announced at last night's council meeting. A motion calling for a referendum on daylight saving in the months of July or August or none at all was put forward but this was superseded with an amendment that the subject be laid over for one week. Some of the aldermen felt that the purposes designated by daylight saving here would not be met by restricting the change to the months of July and August only. Others felt that such a measure should only be in effect during school holidays.

ROUND TRIP WINTER EXCURSION TICKETS

The Canadian National Railways announce reduced fares in effect from points on the G. T. P. C. S. S. to San Francisco, Los Angeles and other points in California. Tickets will be on sale daily to March 31, 1923, and good returning until April 30, 1923. Tickets may be routed via Vancouver or Seattle and Steamship lines. For full information, write or call City Ticket Office, Canadian National Railways, Prince Rupert, B.C.

GILLETT'S LYE

Comparatively few people realize to what extent Gillett's Lye can be used to advantage in every home. For instance, with one can of Gillett's Lye and five and a half pounds of lard or grease, ten pounds of good hard soap can be made. Use one tablespoon Gillett's Lye in gallon of water for cleaning and disinfecting refrigerators, sinks, garbage cans, tiled floors, baths and toilets. Useful for over 500 purposes.

Borden's ST. CHARLES EVAPORATED MILK

Fresh milk when you want it—and as rich as you want it.

With the cream left in.

LETTER FROM AD. GUSTAVO

Wrestler Writes from Eugene, Oregon; Eulogizes Prince Rupert for Sporting Spirit

Ad Gustavo, the wrestler who visited Prince Rupert last summer and made many friends in the city in the course of his stay, writes to the sporting editor of the Daily News from Eugene, Oregon. His letter expresses appreciation of the sporting spirit of this city and also gives some interesting news of the wrestler's recent activities in the south. It follows:

"It gives me great pleasure to express my opinion and impression of the folks in your city of Prince Rupert. Let me thank the fans for the fine treatment and support they gave me while in their midst.

"In all my travels I have never found a town where clean, wholesome sport was more at home than in Prince Rupert. What strikes a close observer is the spirit of fairness. I wish that all people could know the great benefit that can be derived both bodily and mentally by participating actively in some of the varied outdoor games.

"All I can say to the people of Prince Rupert is: 'Keep up the good work and some day your sons and daughters, elfan and strong in body and mind, will be proud to say they spent their youth in Prince Rupert.'

"Defeated Ralph Hand "Since coming back to the States, I have been quite busy. My last match was with Ralph Hand, who has been hailed for more than a year as the coming champion. The only men who have been able to defeat him were Walter Miller, Ted Thye and myself. Although I lost my first match with him by one fall in two hours, I took two straight from him in our return encounter, so that was quite a feather in my cap. I have on three matches, one with Charles Olsen, one with Oscar Butler and one with Henry Böcke.

"Kindly give my best wishes for a Merry Christmas and Happy New Year to all my friends."

Sport Chat

Georges Carpentier, until the appearance of Battling Siki, heavyweight champion of the world and aspirant to the world's championship, has come out with a challenge to the Senegalese for a return match. Two months ago Siki downed George in the third round of the fight. Since then the black boy

REORGANIZING CITY SERVICES

Council Decides to Call for Applications to be in by Jan. 15—Heads Responsible

REPORTS RECEIVED

Various Amendments Put Forward But Original Report of Mayor is Sustained

Further details of the proposed civic reorganization were worked out by the city council last night. These centred chiefly around a report submitted by the mayor at the committee meeting last Friday night. This report was adopted by the council with but one dissenting voice, that of Ald. Collart, who said it did not go far enough to suit him. The report summarized calls for responsibility for administration of the respective departments by the heads of the departments, applications for the positions thrown vacant by the dismissals to be in January 15 and the enforcement of the strict eight-hour day after January 1. Arrangements were also made for the advertising of the positions.

The report of the mayor on the committee meeting was as follows: "I was moved, seconded and carried that the council follow the principle of heads of departments being responsible for administration of their respective departments, and as final adjustment of this matter had been left for the 1923 council that this council take steps to invite applications for the various heads now under notice to quit, such applications to be in the hands of the city clerk not later than January 15, 1923.

"It was also moved, seconded and carried that the regular office hours of the city hall be eight hours per day as from January 1, 1923, the mayor to arrange whatever hours are most suitable.

This Council's Work
Ald. Collart objected to the principle of passing the task of re-organization on to next year's council. He thought that the re-organization should be done by this council and not passed on to next year's or the heads of departments.

In order to comply with Ald. Collart's request, Ald. Dybbavn moved that the mayor's report be adopted with the date of the calling for applications being changed from Jan. 15 to Jan. 8 in order

System Run Down Blood Out of Order

Many people become run down, but don't know just exactly what their trouble is, when, as a rule, it is improper circulation of the blood.

All they need is a good tonic to build up the system and put the blood into proper shape.

For this purpose there is nothing on the market today to equal

BURDOCK BLOOD BITTERS

It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system.

Mrs. H. Poole, Port Dover, Ont., writes: "My system was run down and my blood out of order, and I suffered a great deal from pains in my head which made me feel very miserable. A friend told me to try Burdock Blood Bitters, so I got a bottle and before it was used I found it was doing me good. I kept on until I had taken three, and now I feel like a different woman.

My husband also took it and it has built him up."

For the past 44 years B. B. B. has been manufactured only by The T. Nutburn Co., Limited, Toronto, Ont.

that the present council might deal with them. This was seconded by Ald. Montgomery.

The mayor favored this course and suggested that the present council could recommend to the incoming one.

Ald. Kerr felt that the report should be adopted as it stood without changing the date of receiving applications. The next council could do whatever it wanted with the whole matter anyway.

Ald. Dybbavn thought it would be of value and assistance to the next council to make recommendations.

Each Department

Ald. Silversides argued that each department be gone into thoroughly. This should have been done before "any one's head was cut off."

Ald. Montgomery felt it was a question for this council to deal with. He would prefer that it take the whole responsibility and would have liked to have seen the re-organization in running order before a new council came in. Of course, that was impossible at this late date. Anyway, this council should take the initiative so far as possible so that it might bear part of the blame or get a portion of the credit as the case might be.

Ald. Collart thought the present council should do the whole job or not touch it at all.

Ald. McLeod felt it would be unfair to put the new council up against new heads. Then it would have the troubles of the heads besides its own worries. He thought the new council should do its own choosing. It was too late for the present council to do it.

An Amendment

Ald. Collart moved an amendment that the present council do the re-organization taking in all those who had been given notice. Instead of this, Ald. Kelly moved that the whole question be reconsidered. This was seconded by Ald. Collart but it failed to pass.

The motion that the mayor's report be adopted changing the date for new applications from Jan. 15 to Jan. 8 was then voted upon and also failed to pass, Ald. Collart, Ald. Dybbavn and Ald.

Montgomery voting for it and Ald. Kerr, Ald. McLeod, Ald. Kelly and Ald. Silversides voting against.

Ald. Dybbavn then moved and Ald. Montgomery seconded that the mayor's report be adopted without change. This carried, Ald. Collart dissenting.

Eliminate Fire Hall

On the grounds that the fire department had given good satisfaction and that it would not be in the best interests of the city, especially from an insurance standpoint, to make any changes, it was moved by Ald. Kerr and seconded by Ald. McLeod that the notices to the fire department be withdrawn and that no new applications be called.

Ald. Montgomery, in speaking to this motion, said that they should not interfere with any department giving good service. The utilities and city hall departments were what they wanted to get at and he could see no object in going after all departments. There was nothing against the fire department and he considered it would be unfair to disturb a department that was giving good service.

Ald. Kerr and Ald. McLeod concurred in this view.

Candid Statement

Ald. Silversides congratulated Ald. Montgomery in making the first candid statement of the whole discussion. If the utilities and city hall departments were the only two they wanted to get after why not deal just with those two? However, he thought they should stand by their original resolution and make no eliminations even though he had always considered it was wrong.

Ald. Dybbavn thought that it was only a bit of comic opera to talk about eliminating certain departments now. He may not have been entirely in accord with the action taken last Monday but still the council had gone on record and it should stand by its guns.

The vote on the motion that the fire department be eliminated was then taken and it failed to pass. Ald. Kerr, Ald. McLeod and Ald. Montgomery voted for it and Ald. Dybbavn, Ald. Collart, Ald. Silversides, and Ald. Kelly against.

Getting New Heads

The question of advertising for new heads was then taken up and it was decided, on motion of Ald. Dybbavn, seconded by Ald. Montgomery, that advertisements be placed in outside and local papers for the offices of city engineer and utilities superintendent, separate or combined, city solicitor and city clerk, separate or combined, and city treasurer, and for the other offices in local papers only. Applicants will be required to give qualifications, references and salary required.

In compliance with the resolution passed by the council last week, reports from the various heads of departments on re-organization were submitted and read at the opening of the discussion. These reports were, however, not dealt with.

Engineer's Department

The city engineer reported that there had only recently been a re-organization of his department which now consisted of himself, assistant, clerk and outside foreman. It was impossible to reduce further and maintain efficiency.

Questioned by Ald. Collart regarding extra help that had been in the office recently over and above the staff mentioned, the city engineer stated that this was only temporary and was made necessary by extra work in the department. Ald. Collart mentioned that the extra temporary help seemed to be there a long time and was costing the city more by the day than it would be regular salary.

Other Departments

The superintendent of utilities reported that the question of re-organization had been dealt with by the committee in March and no reduction had been deemed advisable then. Now they had one man less than in March and the staff needed increasing rather than reduction.

The fire chief concluded that the only way to reorganize that department would be by cutting off a man or two and replacing with volunteers. Volunteers, however, were not as efficient as regular men and, in the eyes of the insurance people, it took four volunteers to equal one regular man. In the past they had called for volunteers and had received no offers. The department for two years had been pressing for the two platoon system and all cities of any consequence had now

A Fuel Saving Secret

This is a message to conscientious housewives, and a piece of advice to all.

The shortage and high price of cooking fuel has brought to light many things which might never have been known otherwise. Here is one thing, for instance. Did you know that good enameled ware cooking utensils heat more quickly than utensils made all of metal, such as copper, brass or aluminum? It's true. Try it!

Take a good grade of enameled ware saucepan, and a similar sized saucepan made of copper, aluminum or brass. Put two quarts of cold water into each. Set them on the fire and time them—see how long it takes each to boil. Over a moderate heat, water in the enameled ware saucepan will boil in approximately ten minutes. But the water in the all-metal saucepan, with the same heat will take approximately eighteen minutes—almost double the time—to come to the boil!

Think of the wasted heat and the amount of wasted money it

must represent! Just figure what this would run into in a year!

Use enameled ware utensils for cooking and save heat and money. Don't purchase cheap, flimsy enameled ware. Get the best, either Diamond Ware, which is sky blue and white outside with a snowy-white lining, or Pearl Ware, which is a beautiful pearly grey and white mottle inside and out. Another enameled ware of really super qualities is snow-white outside and inside with deep blue trimmings. It is called Crystal Ware and is now used in many of Canada's finest homes.

All three of these wares carry a green and red shield shape SMP trade mark on every utensil. Don't buy enameled ware unless it carries one of these trade marks. You can buy SMP Crystal Ware, Diamond Ware or Pearl Ware at any hardware store. Don't accept substitutes.

Local Agent—Thompson Hardware Co., Third Avenue

COUNCIL DECLINES TO MAINTAIN PROVINCIAL GOVERNMENT ROADWAYS

The city council last night declined to accede to the request made by A. L. Carruthers, provincial government district public works engineer, that it undertake the maintenance of the provincial government road leading to the level crossing and provincial government property at Cow Bay. The request was first submitted to the council last week and was referred to the Board of Works for report. The committee, however, had had no time to deal with it and referred it back to the council maintaining that, anyway, a matter of policy was involved which the council as a whole should decide upon.

The communication of the district engineer stated that it seemed unfair that the government should have to bear the cost of maintenance of the road when it was used principally by others than the government, such as the dry dock, Imperial Oil Co., coal dealers, etc. It was really a city street. The department was prepared to build and maintain roads paralleling government property but this one did not. Its condition was now unsatisfactory and immediate attention was needed.

Ald. Kerr stated that the Board of Works was not inclined to do anything. It was the only provincial government road in this district and was on provincial government property. The city had asked for a re-

fund of automobile taxes. He thought that the province should be able to maintain the road.

Ald. Montgomery mentioned that the provincial government had not much road expense in this district. As far as the lessees at the water-front using the road was concerned, that was a question for the government to take up with the G.T.P. and not with the city.

Ald. McLeod thought this was just a feeler being put out by the government and Mayor Rochester concurred in this opinion.

The motion of Ald. Kerr and Ald. McLeod to the effect that the city council did not feel justified in maintaining the road was unanimously passed.

Prosperous advertising means regular continuous advertising.

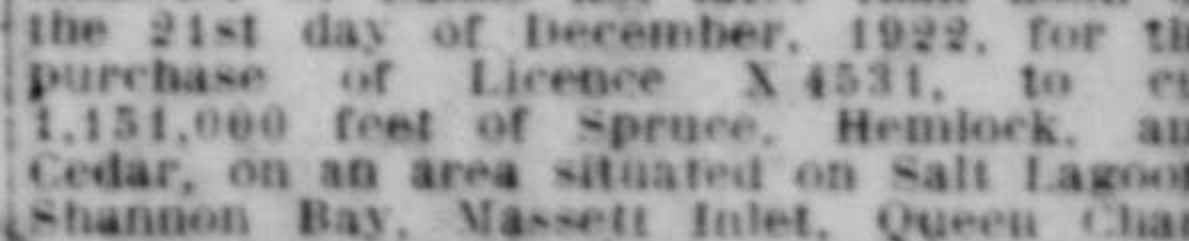

TIMBER SALE X 4485.

COLDS ARE ENEMIES OF HEALTHY LUNGS

A Neglected Cold is Always Looking For Mischievous

It may start in the head—nothing unusual—just an ordinary cold, but that is just the cold, because you neglect it, which sows the seed of lung troubles. Prevention is far better than cure. The cold can be cured and other and more serious ailments thus prevented. Anyone suffering from a cold, however slight, should take prompt measures to break it up.

You cannot do better than take Grip Fix, which has an uncalculated record of success in cases of either cold or grippe. Grip Fix does its wonderful work in a single night. It tones up the system, takes away the fever and relieves the soreness. It is compounded of the same pure drugs which every physician prescribes, which are stated on the box. Grip Fix, however, comes in a capsule form that is ideal for home use. It can be given to children without the slightest fear of harm. Once you have tried Grip Fix, you will keep it as a friend in use whenever you or another has a cold. On sale at Orme's Drug Store Ltd. 35c a box.

MUSICAL PESTS ARE PLAYED IN VERSE

Music Hath Charms But the Saying is Not True of Jazz.

"Music hath charms to calm the savage beast," quoth Aesop, or some other famous sage. But, that was long before the modern "trick" instruments for making noisy music were invented. As a matter of fact, when an aggregation of jazz artists serenaded the animals at the Bronx Zoological Gardens in New York City, the beasts became so enraged that they could not be calmed for several days. Since these instruments are not popular with animals it may be taken for granted that many humans do not acclaim jazzy noise as music. The worst part of these odd instruments is the amount of practicing that must be done on them to make good discord. This practice makes all of the neighbors sorry. There's nothing that peeves the neighbors more than to have somebody next door or in the flat above struggle with a musical exercise.

DESTROYER PATRICIAN IS PAYING HER FIRST VISIT TO PORT TODAY

(continued from page one)

served on a number of vessels, although the Patrician is his first command. He won his distinguished Service Cross for extreme gallantry in rescuing survivors in a heavy gale in the North Sea.
 He is rated as one of the leading experts on torpedo work and is a highly skilled man. He is extremely popular with both his officers and his men. Lieut. Oland is a native of Nova Scotia and all the officers are Canadians.
 A very interesting personage on the Patrician is Lieut.-Commander Jefferson, chief engineer of the vessel. He too is a highly skilled man in his line and served in charge of the engine room of the destroyer Superb in the Battle of Jutland with Admiral Jellicoe's fleet. On this occasion he remained with the engines for twelve hours and all he could hear was the continual banging of guns. Once he called through the speaking tube to the bridge and asked what was doing. He was informed that they had just past two cruisers floating bottom up. He communicated this to the rest of the staff with him and cheers rose up. A little later it was found that the wrecked boats were British vessels.

Commander Jefferson also served with H.M.S. Glorius, Millbrook, Adventurous and Scout, Submarine Expert.
 V. E. W. Godfrey, first lieutenant of the Patrician, is a specialist in submarine work. He served in the C.21, K.9, and E.31 during the war and once in the C.21 had the unpleasant sensation of nearly being trapped when a depth charge was exploded near his vessel. He also served on destroyers in the war, mostly in the North Sea.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-acre and second-acre to be \$200 and \$100 respectively.
 Pre-emption now confined to surveyed lands only.
 Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
 Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.
 Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre before receiving Crown Grant.
 Where pre-emptor in occupation for less than 2 years, and has made no permanent improvements, he may be granted a temporary certificate of pre-emption and transfer his claim.
 Records without permanent residence may be issued, provided applicant makes improvements to extent of \$200 per acre and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$1000 per acre, including 1/2 acre cleared and cultivated, and residence of at least 2 years are required.
 Pre-emptor holding Crown Grant may transfer his claim, if he transfers land in conjunction with his farm without actual occupation, provided improvements made and residence maintained on Crown granted land.
 Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads. Title to be obtained after fulfilling residential and improvement conditions.
 For grazing and industrial purposes areas exceeding 600 acres may be used by one person or company.
 Lots and blocks of industrial sites on Crown land not exceeding 10 acres may be purchased on conditions to be prescribed.

Natural hay meadows (including existing roads) may be purchased by the Government, or by a road owner. Release of one-half of road of road, not exceeding half of purchase price to be made.
PRE-EMPTORS' FREE GRANTS ACT.
 The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The Act will apply to the heirs or devisees of a deceased pre-emptor who apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrospective.
 No fees relating to pre-emption are due or payable by pre-emptors on pre-emption records after June 26, 1913. Taxes are required for five years.
 Provision for return of moneys advanced for grants of pre-emption, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1923.

SUB PURCHASERS OF CROWN LANDS.
 Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1923.

GRAZING.
 Grazing Act, 1912, for systematic development of livestock industry provides for granting districts and range administration under Commissioner. Annual grazing permits issued based on number of head of livestock. Grazing fees and taxes may be levied on owners. Stock-owners may form Associations for range management. Fees, or partially free, permits for selling samples of travellers, up to ten head.

Weight and Value
 The total weight of the machinery is about 110 tons and the ship is valued at \$1,000,000. She was built in 1916 and is

only took five months to build her, working night and day, while in peace times it takes about eighteen months.

Every nook and corner on the Patrician is utilized for some purpose. Storage tanks to hold 300 tons of oil are placed in various sections of the boat. The oil is fed to the furnaces through sprayers and when going full blast will reach a temperature of 2500 degrees Fahrenheit. In the tropics the heat is almost unbearable but in cooler climates the draught fans keep the room at a fairly cool temperature.

In the boiler room there is a very novel arrangement for the firemen to tell whether they are raising a smoke screen or not. A mirror has been placed high up on the boilers and reflects the top of the shaft so that it is very easily seen how much smoke is being emitted.

A horse shoe may bring you luck; but when it's thrown you'd better duck.
