## Big Schooner Sank off Cape Flattery AIRBOAT ARRIVES HERE FROM SEATTLE; ANOTHER AT HAZELTON

### Railway Company is Completing Ocean Dock by Installing the Electric Fittings and Elevator

The work of completing the Ocean dock at this port was commenced today when G. E. Long, district electrician for the Canadian National Railways with headquarters at Winnipeg, set men to work on the electric lighting and power work. This it is estimated will cost something like \$30,000 and will take about three months to complete. Mr. Long is in the city and will have personal charge of the work.

While two Barrow elevators are planned for the dock, only one is to be installed just now, and there will be some delay, it is understood, in regard to the installation of the electric crane, otherwise the original plans will be carried out and the dock will soon be ready for use.

The arrangement with the city is that the electric current for all the company operations is to be derived at a flat rate and distributed by the company at their own expense to the various departments under their control. The main line is to cross to the company's property at a point near the general offices. The company will put in their own transformers and all wiring and apparatus. Work on erecting the poles started today.

**Completing Other Work**  
Mr. Long is also in charge of the work of putting in electric lines in the wholesale houses owned by the Railway Company by Stewart & Mobley, Kelly Douglas and F. G. Dawson Ltd. These buildings were erected by the present occupants on leased property subject to cancellation of the lease at the end of any five years. The railway company just before the war had plans for a big depot and railway terminal and they thought they would not need the land where the wholesale houses stand. Accordingly they cancelled the leases just before the war and since that time the wholesalers have been tenants of the railway company. As the company under its later management did not see Prince Rupert very big, they reduced the size of the depot to a minimum and the wholesale houses still stand.

### KING IS HOME; CABINET BUSY

Many Important Matters to be Dealt With by Ministers at Ottawa

OTTAWA, July 17.—With the return of Premier King from Washington the way is cleared for strenuous work in cabinet circles. The ministers are expected to deal with the railway question, the royal commission on returned soldier problems and a number of judicial appointments.

### STRIKE BALLOTS ARE BEING DISTRIBUTED TO RAILWAY SHOPMEN

TORONTO, July 17.—It is announced by Union officials that strike ballots are being distributed among shopmen of the Canadian railways following the failure to effect a compromise in the matter of reductions and the withdrawal of the Railway Association from further negotiations. The wage reductions went into effect today.

### BIG SOCKEYE RUN NOT YET

Average Last Week Was From 100 to 150 Fish to Boat.

The average sockeye catch of the Skeena last week was from 100 to 150 per boat, according to T. H. Johnson, manager of the Canadian Fish and Gold Storage Co. The big run has not yet begun in fact towards the end of the week the run fell off very considerably the boats not averaging much more than 20 fish. Mr. Johnson says there should be at least a week of much better fishing than they have yet had.

### TWENTY PER CENT FREIGHT REDUCTION WHEAT TO THIS COAST

Word has been received in Vancouver that the wheat freight rates to that city from the prairies are to be reduced 20 per cent. This will make it possible to continue shipments of grain from the west coast to compete with the east.

### Aviator Roy Jones Arrives From Seattle in his Curtis Seaplane; Leaves Again Soon

Roy Jones, Ketchikan aviator, arrived in Prince Rupert Harbor this afternoon at 1:10 o'clock on his way from Seattle to Ketchikan with his Curtis Model MF flying boat, "Northbird," which he is to use in the Alaskan fishery patrol service. The little grey plane made a neat landing at the government float just east of the Rupert Marine Ironworks dock and will leave here as soon as possible this afternoon, after having taken on oil and cleared the customs, for Ketchikan which place Mr. Jones hopes to reach early this evening. Jerald J. Smith, of Seattle, mechanic, is the second man on the machine.

Aviator Jones left Seattle a week ago and called en route north at Bellingham, Victoria, Nanaimo, Alert Bay, Bella Bella and Swanson Bay. Taking off from Alert Bay a rock was struck and both sides of the fuselage were pierced. It took four days to make repairs but this was practically the only delay on the trip. The flyers left Alert Bay at 5 o'clock last night, reached Bella Bella at 6:45, left there at 8:10 and reached Swanson Bay at 9:10. At Swanson Bay they spent all night and left here at 11 o'clock (daylight saving time) this morning, reaching here in a little over two hours. At the south end of Grenville Channel they had to come down when a wire broke off the spark plug. They stopped near the steamer Spokane.

### 70 to 75 Miles

On the way north a strong head wind was encountered practically all the time. The highest flying altitude was 9,000 feet over Queen Charlotte Sound. Leaving Swanson Bay today they started at 4,000 feet, but had to come lower after Grenville Channel on account of the lowering clouds. The average speed has been between 70 and 75 miles.

The "Northbird" belongs to Aviator Jones and is to be used in the government fisheries patrol. Mr. Jones belongs in Ketchikan and Mechanician Smith in Seattle. The machine has a 180 horse power Hispano-Suiza engine.

Mr. Jones stated today that he will be back to Prince Rupert again. If suitable arrangements can be made with the Canadian Air Board it is the intention to carry passengers between Ketchikan and here.

### FOREST FIRES NUMBER 141

Local Branch of Forestry Department Has Had That Many to Handle—Cost \$6,500

So far this season, the local branch of the provincial government forestry department has had 141 forest fires to handle of which number 22, all in the interior, are still alight. The fires handled by the local office have been all over the district to east of Prince George and the number includes two on the Queen Charlotte Islands, one at Aiyash, on the Naas River, and two in the Bella Coola valley. Putting out and checking the fires has so far cost the department, in the district, approximately \$6,500. The total damage, which is known to be great, has not yet been estimated.

### LOCAL BARRISTER DIED ON SATURDAY

W. H. Johnson Passed Away in General Hospital After Long Illness.

The death occurred in the general hospital on Saturday afternoon of W. H. Johnson, the local barrister and solicitor. The late Mr. Johnson has been in poor health for some time and his death was not unexpected. He was admitted to the hospital over two months ago.

LASZLO SCHWARTZ.

of Laszlo Schwartz's own compositions. Mr. Schwartz has appeared with great success in all the large Canadian cities, and music lovers of Prince Rupert will have a rare opportunity to hear the world famous melodies and dances of the Hungarians interpreted by one who is recognized as an authority on Hungarian and Slavonic music.

Aside from being a spirited interpreter of Hungarian and Slavonic music Laszlo Schwartz is also well known in the music world through his numerous successful songs, some of which will be introduced by the composer himself.

### SCHOONER SANK SUNDAY South of Cape Flattery Four Lost in Collision

VICTORIA, July 17.—The schooner Henry T. Scott, 1295 tons, sank a few minutes after colliding with the freighter Harry Luckenbach, six miles southeast of Cape Flattery Sunday morning. Dense fog and smoke from forest fires made it impossible for the vessels to see each other and this resulted in the collision.

Four men were drowned and twenty-six escaped from the sinking ship in boats and were picked up by the Luckenbach, which was only slightly damaged and will reach Seattle tonight.

The Henry T. Scott was owned in San Francisco by Fred Linderman. The drowned men are the Chief Engineer, T. W. G. Spencer, of Seattle; Assistant engineer N. L. Nilson, and two seamen, E. Logan and L. Jacobsen of San Francisco.

### 13 KILLED MINE RIOT

Sheriff and Twelve Others Dead Following Attack at Standard Mine

WHEELING, West Virginia, July 17.—Sheriff H. H. Duval and twelve other persons were killed and no less than 25 others wounded in a fight at Standard Mine of the Richland Coal Co. near Wellsburg this morning.

The mine was reported to have been attacked by a large party of men from over the Pennsylvania state line and after a fight they burned the tipple. Mine operations were conducted on the open shop basis.

### PLANE REACHES HAZELTON TODAY

Len Bell Is Mechanic and One Passenger from Prince George.

HAZELTON, July 17.—The all metal plane Hazelton, sister ship to the one Explorer Amundsen will use on his dash to the North Pole arrived here at 10:10 a.m. landing ten minutes later with Major Thompson in charge. Len Bell was acting mechanic and she carried one passenger, G. R. Fisher, the fisheries overseer of Prince George.

The plane will be used in connection with George M. Birnes' big game hunting and fishing tours in the northern part of B. C. Hunting parties will be landed in the big game paradise within an hour to two hours' flight, pack trains taking from two weeks to twenty days. They will also be able to land prospectors and miners in the placer fields at Manson Creek, Tom Creek and the Omineca River within two to three hours, pack trains at present taking thirty to forty-five days each way.

The cabin of the plane comfortably seat 5 passengers with luggage and two of a crew. The freight capacity of the machine is from 2500 to 3000 pounds.

### FLY TO INTERIOR

Intention to Carry Passengers and Hunting Parties to North.

CHICAGO, July 17.—Peace prospects in the railroad strike were dimmed today by the addition of approximately 100,000 men to the forces of the strikers. By many it is believed that the nation will next week meet the industrial crisis of its history.

Approximately 25,000 maintenance of way men struck this morning without permission from union headquarters.

**Canadian Anthem  
 Written By Judge.**

Archer Martin, one of the judges of the court of appeal and one of the best and hardest working judges in Canada has written a national anthem: "Canada, Our Canada."

The Judge has very strong anti-British sympathies, hence the reason for there being no trace of pro-British sentiment in his anthem. It is intensely Canadian and there is little evidence of his real sentiment, although careful reading may show it.

Two of Judge Martin's sons fought in the British army overseas and were wounded. At the opening of the war Mr. Martin was a judge of the admiralty and also a prize court judge. To him was given the trial of the case in connection with the vessels seized under suspicious circumstances off the coast of the United States or Mexico. The British authorities were anxious to delay the trial as they did not want the boats turned back to the enemy to be used again during the war. This the judge refused to do. He defied the authorities and was promptly relieved of his commission as prize court judge.

Since that time the eminent jurist seems to have nursed a grudge against the British and has not been backward in expressing his views. The anthem is interesting when read in connection with the circumstances here mentioned:

**Canada, Our Canada.**

Hail! stately country of our sires!  
 To thee we light the altar fires,  
 Ne'er to be quenched 'till life expires,  
 Canada, our Canada!

**Chorus:**

Canada, we hail thee!  
 Whoever may assail thee,  
 Never shall we fail thee,  
 Canada, our Canada!

Each true son's heart glows with the flame,  
 Of patriot pride to see thy name,  
 Writ large upon the roll of fame,  
 Canada, our Canada!

From East to St. Elias' towers,  
 The cry comes through th' awakened hours,  
 "Arise, assert thy manhood's powers,  
 Canada, our Canada!"

"The time has come to take thy place,  
 Among the nations, face to face,  
 Equal at last with ev'ry race."  
 Canada, our Canada!

**Eamon de Valera  
 As Seen By American.**

An indication of where Eamon de Valera stands today in the estimation of the citizens of the United States is given by a very plain-spoken editorial printed by the Tribune, which paper is generally conceded to reflect the viewpoint of the better class of the community. The Tribune says in part:

"One look at the countenance of de Valera suffices to explain the man. His narrow face, his over-prominent nose, his eyes close together, a thrusting jaw betokening willfulness, his humorless expression—his is the typical face of a fanatic. When they are right men such as he are valuable. But alas! they are seldom right. They espouse wrong and then, in ecstacy of self-martyrdom, are immovable. The ancestors of de Valera were not Irish, with hot heads but warm hearts, but cold and cruel theologians. His blood is Spanish, like his name. He is of the breed of Torquemada, whose doing of evil became to him a religious duty.

"It is vastly creditable to the Irish that they refused de Valera's leadership and disregarded his artful appeals to their patriotism. Ireland appears as entirely competent to look after her own affairs, with the resolution to suppress, even to the shedding of blood, disturbers of her peace.

"That even for a few days the Irish capital has seen the horrors of civil war is regrettable, but there is a corresponding gain. The Irish care enough for the substances of democratic government to be willing to shoot in their defense. The record will be calming to other de Valeras. An easy-going majority has need to establish once in a while that its commands are not likely to be gainsaid and are more than advice. The shots that fell about the fugitive head of de Valera in his retreat are notice to his henchmen generally to be quiet."

 in Prince Rupert**

July 17, 1912.

The city council, finding the cost excessive, has decided to change the plans of putting in sewers for Section 1 at the 14-foot level to 5-foot.

Premier Sir Richard McBride, Attorney General Bowser, W. H. Hayward, M.P.P., William Manson, M. P. P. and Lawrence McRae, secretary to the Premier, returned this morning from Hazelton where they addressed the settlers and met an Indian delegation regarding lands. Shortly after they sailed on the Prince John for Granby Bay. They were accompanied up the line by W. C. C. Meehan, general superintendent and G. A. McNicholl, assistant.

Prof. Odium, of Vancouver, with a party of mining men, arrived in the city on the Prince George this morning enroute to Hazelton to examine some interests there.

**NO NEW RULING IN  
 REGARD TO BAIT IS  
 PASSED AT OTTAWA**

Explanatory Telegram From Capital Says Reports published in United States Unfounded.

OTTAWA, July 17.—(Canadian Press)—Reports published in the United States that Canada had adopted new regulations regarding the terms on which the United States fishing vessels are allowed to use Canadian Pacific ports are quite unfounded. This was stated definitely this morning at the department of marine and fisheries.

**In Force Two Months.**

The order-in-council to which reference was made in the United States despatches was passed on May 9 last and has been in force ever since. This order-in-council is limited in its application to United States fishing vessels during the calendar year, 1922, and its effect is to allow American fishing vessels to secure bait and supplies and to ship crews in Canadian ports providing they land their catch at a Canadian port.

"During the present calendar year, 1922, foreigners or foreign corporations," the order-in-council reads, "bringing fresh fish in vessels registered in the United States of America to any port in British Columbia shall be permitted to land such fresh fish at such port without payment of duties and tranship the same in bond to any port in the United States, or to sell such fish in bond to such local dealers as may be duly licensed therefor, which shall export the same in compliance with the bonding requirements."

**Must Have Catch.**

United States fishing vessels are also given the right under this order-in-council "to sell such fish for use in Canada on payment of the duty." Further United States fishing vessels, bringing fresh fish to a port in British Columbia shall be permitted "to purchase bait, ice and supplies, and ship crews for such vessels at any port in British Columbia, provided also that such foreigners and foreign corporations before bringing fresh fish into a port in British Columbia, may be permitted to purchase bait and ice in any port in said province upon undertaking to the satisfaction of the minister of customs and excise that catches of fish made with any baiting supplied shall be landed at a port on the mainland of British Columbia."

A party of parents and friends of the Girl Guides and the Brownies, who are camping for a fortnight on Porcher Island under the capable leadership of Mrs. H. L. Roberson, made a very enjoyable trip over to the island yesterday on the power boat Hanaco under ideal weather conditions.

The camp was found to be in excellent shape and the youngsters are undoubtedly having the time of their lives. The tidy condition of the tents was a great credit to the camp, and the girls are to be congratulated upon the soldierly manner in which the tents have been erected. Mrs. Roberson has inculcated sufficient discipline to insure obedience to orders and the smooth running of the organization. A camp service was conducted yesterday morning at which the visitors attended. All the children were entertained by the visitors during the day. In the afternoon a twenty minute bathe was permitted. A most enjoyable time was spent. The Hanaco left on the return trip at 7 p.m.

The Girl Guides are to return home Tuesday, July 25.

## MENTAL HOSPITAL AT WINNIPEG CRITICIZED

### Grand Jury at Assize Opening Outspoken Regarding Institution.

WINNIPEG, July 17.—A scathing criticism of the deplorable conditions found at the Selkirk hospital for mental diseases, due to overcrowding; a severe arraignment of the business administration of the assize courts which permits so many petty cases to be taken before the higher courts at great expense to the province and a recommendation that the present prison farm give place to a larger and more productive one that it might support itself, featured the report of the grand jury presented to Mr. Justice Galt in assize court. The report also criticized conditions as found at the Salvation Army rescue home at East Kildonan, which was condemned as a fire-trap.

In dealing with conditions found at the Selkirk hospital for mental diseases, the report stated that the hospital was found to contain 165 patients, when accommodation was provided for only 260. The over-crowding has resulted in the members of the staff being forced to seek sleeping quarters in the basement, while rooms that normally should contain only three or four beds have as many as eight and nine. Although sleeping in the attic is forbidden, some members of the staff made their stay conditional upon being allowed to sleep there, as it was the only place they could obtain any rest. Many cots have been placed in the corridors, and on the ladies' floor there are only two bathrooms. The report praised the manner in which the institution is being conducted and expressed wonder that the staff is able to cope with the situation in the manner ascertained. All members of the staff, from the superintendent down, were commended upon the way they are discharging their duties, under such trying circumstances. Early completion of a separate home for the nurses was urged strongly.

Fred Ross and J. Carly were fined \$50 each in the police court this morning having been found guilty of drunkenness.

Miss MacDonald and Miss Gladwell, of the local teaching staff, sailed for the south last night. Miss MacDonald is going to Victoria and Miss Gladwell to Victoria.

### NEW BUILDING THIRD AVENUE

Permanent Block Started by Late W. B. McLaughlin to be Finished by His Sister

Thomas McClymont is in receipt of advice from Victoria that the building started on Third Avenue between Second and Third Streets by the late W. B. McLaughlin is to be proceeded with, Parfitt Bros., the Victoria contractors, having the contract for the work. The plans, which have been received, show a two-story concrete building with pressed brick and glazed tile front. It will have 50 foot frontage and 70 foot depth and will contain three stores arranged to suit tenants. M. Parfitt, who was here a few weeks ago, will return to the city at an early date to get the work started for Mrs. Hilda Gray, of Piedmont, Cal., sister of deceased, who has now come into possession of the property.

### ARRANGEMENTS BEING MADE FOR EXHIBITION NATIVE BAND CONTEST

Contract forms for the native bands which will compete at the forthcoming fall fair competitions are being sent out by the exhibition board. On suggestion of Bandmaster R. G. Rowland, conductor of Rowland's Concert Band, Vancouver, two pieces have been selected for the competition, "King Lear" overture by Edward Hazel and "Kieffer's Special March" by W. H. Kieffer. The winning band in the first will receive a diploma and each of the players, silver medals. The band winning the second will receive a silver medal. Each band will have to have 30 or more members and unless there are at least three entries there will be no competition. The sum of \$200 will be paid each competing band and for those coming more than 50 miles to the city there will be an extra \$50 for travelling expenses.

### ALASKAN EXPORTS ARE ON THE INCREASE TO UNITED STATES POINTS

JUNEAU, July 17.—A net gain of \$346,871 in Alaska products exported to the States for June 1922, over the same month last year is shown by the monthly commerce statement issued by John C. McBride, collector of customs. The estimated value of Alaskan products exported last month is given by Mr. McBride as being \$1,425,307, with products of the United States returned there valued at \$80,192, making the total values of all exports for last month \$1,515,485.

### Only Decrease in Salmon.

Increases in virtually every product, with the exception of salmon, was shown for the month as compared with June 1921. Copper ore shipments were made totaling 6,321,973 pounds having a value of \$819,834 as against a value of \$429,514 last year. Salmon exports dropped from \$552,542 last year's shipments, to \$413,336. All other fish products exported for the month increased from \$82,711 last year to \$95,331 in June of this year. Gypsum remained stationary. Stone products, including marble and manufactures of wood showed gains.

### GIANT RATTLESNAKE KILLED IN ONTARIO

OTTAWA, July 17.—A giant rattlesnake, measuring five feet three and a half inches from the end of the snout to the tip of the tail, was killed in the vicinity of Blue Sea Lake by a young French-Canadian resident of Ottawa who had gone up the Gatineau on a fishing trip over the holiday. The young man, who did not give his name, brought his trophy back to the city and took it to a taxidermist to have it stuffed and mounted.

The rattler was seen by the young fisherman sluggishly making its way across a seldom frequented country road. The young man, who at first mistook the rattlesnake for a big garter snake, which are fairly common in the Ottawa district, grabbed a stick, and with a few vigorously applied and well-directed blows soon killed it. The snake when attacked did not show fight. It was only after examination of the dead viper that the angler made the somewhat startling discovery that the snake he had just despatched was a rattler.

is \$3,269,320, with an estimated amount of \$130,580 to be added, according to the assessment lists compiled by H. R. Shepard, city tax assessor, and submitted to the city council. This is \$499,568 less than the 1921 appraisal and \$369,378 less than that of 1920.

On the basis of last year's tax levy, 18 mills, the gross tax collections this year will amount to \$61,200, or \$8,831.19 less than last year's taxes, and at 20 mills, \$3,628.20 less than in the taxes for 1920.

Mayor Robertson suggested the advisability of changing the present method of payment by instalments instead of a lump sum settlement as is now required by the city ordinance. In the discussion of the suggestion, all of the members present tentatively approved the plan. No action, however, was taken.

### NEARLY HALF BILLION FOR STATES NAVY

WASHINGTON, July 17.—(By Canadian Press).—The United States navy is a long way from the pre-war appropriations, in spite of the recent naval agreement, and in spite of public pressure for economy and for going slowly in the matter of preparedness.

It is a fact that comparatively few people in the United States have a real understanding of the facts with respect to the scope of naval preparedness as indicated by the naval appropriations bill just passed. Actual reductions in expenditures by the United States for the present fiscal year, as compared with the fiscal year which ended June 30 is almost negligible, while the expenditures provided for the present year will be nearly three times those of the pre-war period.

### AMOUNT TO BE SPENT THIS YEAR ALMOST AS LARGE AS PRIOR TO CONFERENCE

The remarks in the naval bill discussion of Representative Byrnes of South Carolina, a democrat, and a member of the sub-committee that framed the naval bill in the house, are illuminating. Mr. Byrnes' figures were not successfully controverted and are undoubtedly correct. He said:

**Immense Sums**

"It is true that the bill as agreed upon makes a direct appropriation of \$289,336,577, but this is not the total amount which the bill authorizes the navy to spend. In addition to this direct appropriation, the bill authorizes the navy to spend under the head increases of the Navy, unexpended balances amounting to \$46,250,000 and an additional \$8,000,000, which the navy department is authorized to collect on certain notes due the government. The bill authorizes no appropriation at all for clothing, but by a bookkeeping transaction it makes available \$1,800,000 for the navy. By a similar transaction it makes available \$150,000 for clothing for the naval reserve. These amounts total \$56,500,000, which when added to the direct appropriation made in the bill makes a total amount that the navy is authorized to spend for current operations during the

## Rules Laid Down for the Conduct of Movie Actors and Actresses Los Angeles

A motion picture stock company has been formed in Los Angeles with a view to providing a school for motion picture actors and actresses which will be conducted under commonsense rules and regulations and which will control the action of the members both inside the studios and outside. There are to be courses of physical training and members are all expected to keep themselves fit all the time.

The following are the rules:—  
"1.—To protect the good name of their profession, the members of the Paramount Stock Company have suggested and adopted these rules of conduct and work. Therefore infringement of these rules not only works harm to yourself as an actor and an individual, but it also works injury to your associates. Strict adherence to these rules is demanded of every member of the company, and it also is requested that members by precept and example strive to have other members of the company observe them.

**Health all important**

"2.—The basis of all good work is good health. Therefore, members of the Paramount Stock Company should guard their health as their most precious asset and avoid any conduct or circumstances that will put their health in peril. Proper exercises, sufficient sleep, fresh air, proper diet—all these are essential to good health. Avoid alcoholic stimulants and late hours. If you are a woman, nothing can destroy your good looks so quickly; if you are a man, nothing can incapacitate you so much for the arduous work of the studio.

"3.—Any member of the Paramount Stock Company who fails to maintain seventy-five per cent standing in classes, attendance and general deportment is liable to expulsion from the company.

"4.—Although the stock in trade of the members of the Paramount Stock Company is their ability to portray their emotions, the place for such portrayal is on the screen, and not in the studio. Temperament is a valuable asset, but temperament out of control is a nuisance to yourself and everybody about you. Bursts of so-called temperament in the studio will not be tolerated; we are all grown men and women, and our actions should be governed by sanity and common courtesy.

"5.—No member of the company will be allowed to make a public appearance at a theatre or public entertainment without permission of the director of the stock company.

"6.—Gifts and gratuities to any instructor or officer of the Paramount Stock Company, or anybody else connected with the studio, are strictly forbidden.

**Care on Details**

"7.—Members of the stock company will be expected to play any part assigned to them. Success can be based only on good work, and ability to do good work can be demonstrated as well in a small bit as in a leading role. Therefore, never slight your work, no matter how inconsequential your role may seem.

"8.—Be careful in the choice of your associates outside the studio. Remember: 'A man is known by the company he keeps.' A woman is known by the company she avoids.

"9.—Do not confine your outlook on life to the activities of the studio. Broaden your viewpoint. Read good books; read a good newspaper and keep abreast of developments in politics, literature, economics, art. Remember that your mentality and your tastes shine through your eyes on the screen.

**A Great Career**

"10.—The motion picture, because of its great distribution, gives you popularity, wealth and a great career. But, by virtue of this very distribution, it also brings enormous responsibilities. You must accept these responsibilities. The motion picture has made you an intimate friend of countless people whom you will never see. You are their friend, nevertheless, and it must be your constant care never to do anything or say anything that will betray the confidence these millions of motion picture lovers have placed in you. Therefore, members of the Paramount Stock Company are expected to avoid places, people, circumstances and conduct which might in any way bring themselves and the motion picture profession into disrepute. Any member failing strictly to observe this rule is liable to instant dismissal from the company."

## NORMA TALMADGE LIKED BOBBED HAIR

Famous Actress Says it is Indicative of Feminine Character

Miss Talmadge is heartily in accord with the theory that bobbed tresses are indicative of feminine character.

"The theory is perfectly right," she says. "The idea that bobbed hair indicates that a girl or woman is unreliable and that sort of thing is all wrong. It is a sign that she is ambitious, alert and interested in her work."

"My hair is bobbed, and as long as I continue to be a motion picture actress, it will stay bobbed and probably a long time afterward. Back in the old days when I was fighting for recognition I had to be at the studio early and many times very late. I knew I had to look my best and the result was that I was losing a great deal of needed sleep because I had to get up so early in order to properly arrange my hair.

"That loss of sleep handicapped me. It told on my appearance and in the late afternoon or at night I felt that I had lost my energy. So it was a case of not giving my best to my work or bobbing my hair, so my hair was bobbed."

"The Wonderful Thing" is the title of the latest production starring Norma Talmadge, distributed by Associated First National Pictures, Inc. It is announced as the attraction at the Westholme Theatre tonight.

The production is in a considerably lighter vein than anything which Miss Talmadge has done recently, but it has an underlying strain of a love-drama which gives Miss Talmadge opportunity

## "THE WONDERFUL THING" WESTHOLME TONIGHT

The march talked of picture, "Hail the Woman" which has been such a great attraction in the big cities is due at the local theatre Wednesday of this week. It is somewhat of a problem play emphasizing the injustice of the double standard and exemplifying the highest type of womanhood.

The picture tells the story of the life of two girls. One was led into a secret marriage, depending on a man's promise with fatal results and the other rebelled.

Norma Talmadge in "The Wonderful Thing"

for some bits of the superb emotional acting that has made her so popular as a screen star. As Jacqueline Boggs, the only daughter of the American "Hog King," a finished product of a French convent, she is irresistibly good. As Mrs. Donald Mannerly she becomes a dramatic figure, and once again her father's daughter, she is tragic. One advantage, however, which a drama of love has over a drama of life is that a happy ending is possible, and one comes in a very satisfying manner in "The Wonderful Thing."

"Wanted a comedy with plenty of real humor in it" is a perpetual advertisement continually on display by all movie fans. The average audience is very tired of slapstick slush.

Since the only hope of the Sons of Canada for winning the season's soccer championship rests in victory tonight over the Callies, it may be assumed that the team will be on its toes extending itself in every way possible to win and that the match will be a drawing card for a record crowd of fans. Victory tonight will at least assure the Sons a play-off with the Sons of England if they themselves win from the Grotto on Thursday. A win for the Canadians tonight will also mark the disappearance of the Grotto chances for championship for their only hope lies in the Canucks' loss tonight and their own victory over the Sons of England. A little attention to errors of the past and their usual good form should make the Canucks a pretty safe bet for the game tonight although, as the fans learned last Tuesday night, "you can't always sometimes tell." The Callies might come through with their first win on their last appearance.

Harry Lipsitt, the stolid goal tender for the Elks in the lacrosse league and the man to whom much credit is due for the starting of the game in Prince Rupert, is out looking for a leather helmet. Reason—Harry was kicked by a horse way back in 1906 and he has a bad spot on his forehead where nothing but skin covers his ability to play lacrosse and attend to various and sundry bits of business for his marine clients. Thus it is that if a lacrosse ball or anything else like that should land on his noble brow he might turn up his toes right there. It is to be hoped that Harry finds the leather armor plate before he enters the lists on Wednesday night in that fast and furious league opener.

## PAPER MONEY AD INFINITUM

Soviet Russia Flooded with Valueless Notes with More on Way.

THE HAGUE, July 17.—The brave claim of the Soviets that they had established a budget system for Russia went up in smoke when the Bolshevik delegation presented the present Governmental figures and smothered the other delegates in a cloud of billions and trillions and promises of what they could do. The headaches of the diplomats got was Litvinoff's revenge for the brisk rebuff in the morning session when the other delegations refused to join the Soviet propaganda scheme.

Out of 40 pages of figures, mostly zeros, the facts stand that not only have Russians been running the Government on an issue of paper money almost ad infinitum, but that instead of getting better the situation is getting worse, for in the month of June, the very month in which their delegates came to The Hague, the Soviets issued 85,000,000,000,000 paper rubles, 20,000,000,000,000 more than in May, and seven times as many as in January of this year.

### Deficit Even Then.

There is now in circulation in Russia 270,000,000,000,000 rubles and if all the taxes the Russians expect to come in this year come, they will have to issue paper to meet a 20 per cent deficit, an amount exceeding the total paper circulation on July 1. The fiscal toboggan on which the Soviets find themselves is shown by the astounding fact that on July 1 there were in circulation eighteen times as many paper rubles as on January 1 of this year. Instead of getting down to meet expenses by creating a revenue, the only known way of making a budget, the Russians are going in the opposite direction and travelling with some speed.

## FOUND AMMUNITION AND MACHINE GUNS

Russian Fined in London for Being in Possession of Weapons

LONDON, July 17.—At Wimbledon police court, George de Bolotoff, a Russian agent, was summoned for keeping firearms and ammunition without having certificates.

It was stated that the police, having received information that ammunition, etc., was being stored at Wimbledon Park House, Arthur Road, made a raid upon the premises and found two German machine guns, a German automatic pistol, 4,157 rounds of Russian ammunition, and a revolver in the possession of de Bolotoff.

### RAIN IN INTERIOR

N. B. Walton Says Most Was at Prince George—Fires Under Control.

N. B. Walton, general superintendent of the Canadian National Railway, who returned Saturday night from a visit to the eastern section of the district, states that while there has been rain in the interior it has not been enough to put out the forest fires. However fires are pretty well under control. The most rain was in the neighborhood of Prince George.

### THE BISHOP REFORMED.

Phillips Brooks liked to have his joke as well as any man. One day Mr. Baldwin of the Christian Union was writing to him and slipped into the letter a newspaper clipping of a talk he had given on profanity. Promptly came the answer from the good Bishop: "My dear Baldwin I have just finished reading your remarks on profanity. You will be glad to know that I agree with them, and have entirely abandoned the habit."—Boston Transcript.

John Matheson and John Murray are cutting down a big yellow cedar tree back of J. C. McLennan's residence on Borden Street this afternoon at 3:30. The tree is a big one and as there are a number of residences close by it will take some careful guiding. However Mr. Murray is an expert feller and it is expected there will be no difficulties. The tree they are felling is a well known landmark.
