EFFECTIVE WORK OF MOUNTED POLICE AFTER ONE IS KILLED

Mounted Policeman Murdered by Eskimo but Arrest Follows

EDMONTON, July 22.—Constable Doak of the Canadian Northwest Mounted Police has been murdered by an Eskimo in the north but retribution swift and sure followed, for the murderer is now being tried for the offense at Herschel Island according to British methods.

Constable Doak went into the sub-arctic last spring and arrested an Eskimo who was charged with the murder of five of his countrymen. The Eskimo got hold of a rifle and somehow shot Doak dead while the latter was sleeping at the fort at Herschel Island. The Eskimo escaped only after killing a Hudson's Bay laborer named Binder en route.

The Eskimo went back to his tribe and threatened death to all if he was interfered with, but within twenty-four hours another mounted man was there and he arrested the murderer and brought him back to Herschel Island where he has been placed on trial on seven charges of murder.

LEADER IS CHOSEN
BY UNITED FARMERS
WILL BE PREMIER

John Bracken, president of the Manitoba Agricultural College was last night chosen by the United Farmers as their leader. Consequently he will become Premier of Manitoba and the first farmer premier in the province.

ARBITRATION BOARD BEING SELECTED NOW

Railway Companies Have Yet to Name Representative—James Simpson, Toronto for Shopmen.

OTTAWA, July 22.—The completion of the formation of the conciliation board authorized by the Department of Labor to investigate the wage dispute between Canadian railways and shopmen is awaiting the appointment of the representative of the railways. James Simpson, of Toronto, has been named to represent the men.

FOREST FIRES IN SOUTH CONTINUE

Member of Staff of Forestry Department Says They Are Still Bad on Vancouver Island

That the forest fires continue burning and that the whole of the Gulf of Georgia is more or less enveloped in smoke was the word brought by W. E. Pidecock, auditor of the Forestry Department, who arrived in the city on the Prince Rupert this morning. He states that it is only south of Seymour Narrows that the fires are burning. North of that there is little noticeable.

Just before Mr. Pidecock left Victoria there was a big smoke coming from the Sooke Hills, indicating fires in that direction. Nothing but rain will put out the fires and there has been none for two months.

RAILWAY CONTROLLER ON INSPECTION TRIP

C. E. Friend, of Toronto, Reached City Last Night—Stewart Tonight and Then Vancouver

C. E. Friend, controller of the Canadian National Railways, arrived in the city last night from Toronto. He is on a general trip of inspection and was joined by P. W. Baldwin, local auditor, from Vancouver. Together they will go to Stewart tonight returning to Vancouver tomorrow evening on the steamer Prince Rupert.

FALLS HEIRESS LARGE LEGACY

Canadian Ex-Soldier Leaves His English War Bride £25,000

LONDON, July 22.—A London newspaper states that a Mrs. Nicol, daughter of a farm worker of Stony Kirk, has been informed by Toronto solicitors that she has fallen heir to a legacy of £25,000 under the will of her late husband, David Nicol, of the Canadian Forestry Corps, whom she married while working in a munitions factory during the war.

GRAHAM WILL NOT BE CHAIRMAN OF RAILWAYS

Most of Members of Grand Trunk Railway Directorate Have Resigned.

OTTAWA, July 22.—The Government has received the resignations of most of the members of the directorate of the Grand Trunk Railway following the resignation of the Canadian National directors to clear the way for the consolidation board directing the affairs of both companies and uniting them into one.

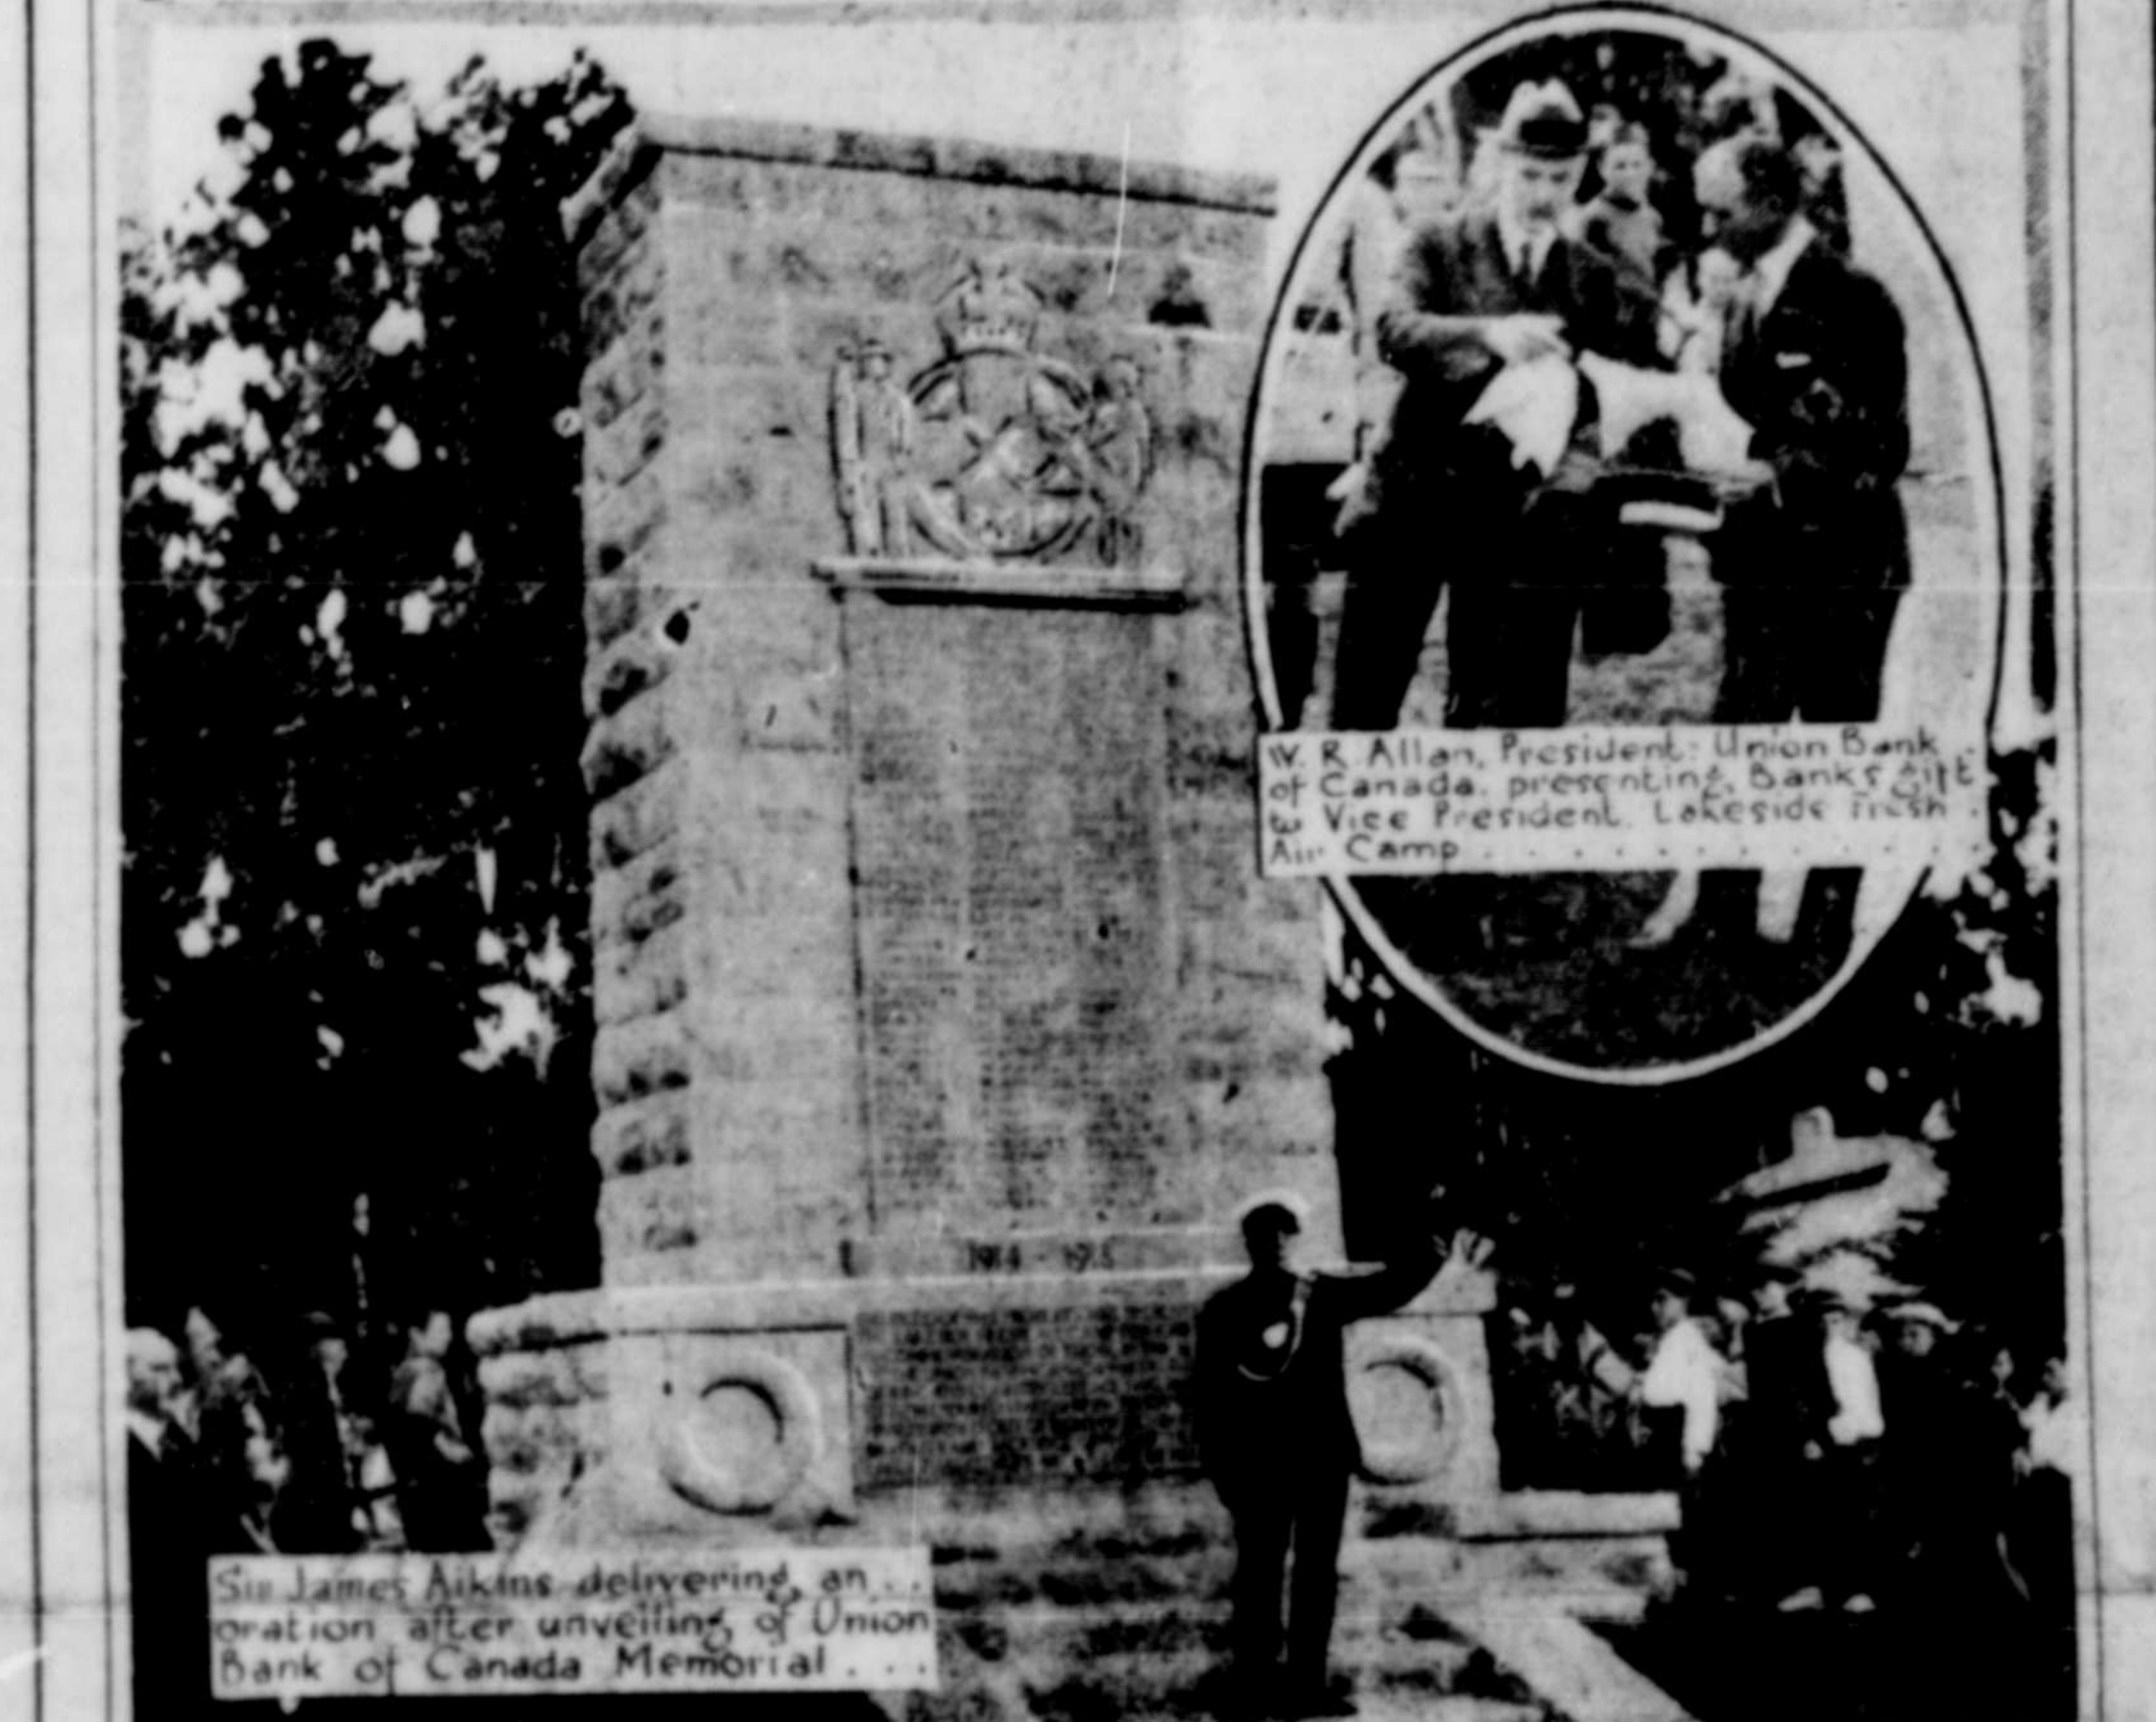

Hon. G. P. Graham denied that he will be made chairman of the new board. He said he would not accept under any consideration.

GERMANY GIVES IN TO ALLIES

Accepts Demands of Allied Committee on Guarantees on Understanding of Moratorium

PARIS, July 22.—Germany has formally accepted the demands of the Allies' committee on guarantees which was presented at Berlin last Tuesday. Chancellor Wirth, in his reply, says that Germany accepts the conditions for the duration of the moratorium which the German government assumed would be granted.

BANK'S MEMORIAL TO ITS GLORIOUS DEAD

Commemorating the heroism of 120 officers of the Bank who gave up their lives in the Great War the memorial of the Union Bank of Canada has just been unveiled, at McEwens, 50 miles from Winnipeg. Sir James Alkins, the Lieutenant-Governor of Manitoba, officiated. Coincident with the ceremonial W. R. Allan, President of the Union Bank of Canada, gave over the deed to 12 acres on Lake Winnipeg for the permanent site of the Lakeside Fresh Air Camp for Children as the gift of the Bank, thus "conjoining the memories of the Bank's heroic officers with the highest type of service to humanity."

This memorial is significant as the national recognition by the Union Bank of Canada of its officers' participation in the Great War. The Bank directors in determining the memorial to mark the self sacrifice of its staff inclined in the view that sacrifice of such a nature should be marked by some corresponding service for the good of humanity and in consequence decided to perpetuate the movement initiated by H. B. Shaw, the Bank's Vice-President and General Manager, in starting a fresh air camp for Winnipeg's needy children. Nearly 1,000 kiddies will be given a holiday at the Association's camp this year.

Six hundred representative persons witnessed the unveiling and took part in the impressive dedicatory services at which His Grace, Archbishop Matheson officiated. Major-General Ketchen, C.R., C.M.G., and staff represented the military.

BUILDING COMMISSION HELD FIRST MEETING

Fire Limit to Be Divided Into Two Parts—Amendments to Building Bylaws—No Permits.

The new civic building commission had its first meeting last night. The session lasted about half an hour and there were present, Ald. B. A. McLeod, chairman, Ald. Theo. Collart, Mayor H. B. Rochester, City Engineer F. J. Whittaker, Dr. J. P. Cade and Fire-Chief Dan H. McDonald.

The fire limits of the city were discussed and it was decided to recommend the breaking of the present limit into two sections, first class and second class. The limit comprises the large part of Section 1, the business section.

The city engineer was instructed to bring in certain amendments to the building bylaws which will be passed upon by the commission at its next meeting and then handed on to the city council.

No applications for building permits were received.

PRICES OF LIQUOR AND WINES TO BE REDUCED

VICTORIA, July 22.—Reductions in the prices of retail liquor in British Columbia will be effective before the end of August averaging ten per cent in hard liquor and up to thirty per cent in wines.

JACK SINCLAIR WALKING EAST

Police Receive Information From Section Foreman at Sockeye Where Missing Man Spent Night.

Jack Sinclair, the missing manager of the Sinclair Fisheries, Ltd., is walking from Prince Rupert to Alberta.

Information to this effect was received by the city police yesterday. P. Gamula, manager of the Alberta market, stated that he had been informed by D. Small, section foreman at Sockeye, that he had seen Sinclair on the first day of his disappearance. He had not endeavored to reserve his identity and had stated that he was traveling to Alberta on foot. He introduced himself by his own name and stayed the night at the station. He had broken his glasses.

Another report received today indicates that Sinclair was seen at Smithers.

On account of bad feet it is not thought that the missing man will continue his walk through the mountains.

VANCOUVER OARSMEN WIN JUNIOR EVENTS

PORTLAND, Ore., July 22.—Vancouver won the junior four oared race and junior doubles at the regatta of the North Pacific Amateur Oarsmen. The senior events are taking place today.

AUSTRALIA REFUSES TO GREASE WHEELS FOR GERMAN TRADE

LONDON, July 22.—The Australian Government has refused to agree to the appointment of German consuls in Australia. Premier Hughes says the Australian ministry does not feel called upon to grease the wheels of German trade.

FIVE KILLED AND SEVERAL INJURED MISSOURI WRECK

SPRINGFIELD, Missouri, July 22.—Five persons were killed and several injured when a St. Louis-San Francisco passenger train struck another train 25 miles west of here.

MAJOR BLAKE NOW IN INDIA

Takes Off This Morning From Karachi Where He Landed Tuesday

LONDON, July 22.—Major W. Blake, British aviator, who is attempting to fly around the world, resumed his flight today from Karachi, British India, where he landed on Tuesday.

Irish Free State Troops Sweeping Irregulars from Strongholds in the South

DUBLIN, July 22.—Limerick is completely in the hands of the Free Staters and so are Waterford and Tullamore. An attack on the general line of this part of Ireland commenced in the final drive to oust the irregulars from their strongholds.

A powerful assault by the Free Staters is said to have compelled surrender by the irregulars at Limerick when ten were killed and fifty injured in the garrison before it surrendered.

The irregulars are said to have set fire to all positions they held in Cork.

CARPENTIER IS MATCHED

Will Meet Battling Siki, Senegalese, For Light Heavyweight Title

PARIS, July 22.—George Carpentier will meet Battling Siki, the Senegalese heavyweight, early in September for a purse of 300,000 francs. The bout will be for the world's light heavyweight championship and the winner will get 200,000 francs.

NO INSPECTOR FOR PRINCE RUPERT PORT

Department of Marine and Fisheries Informs Board of Trade Appointment Not Warranted.

The following reply has been received by Charles V. Eytz, secretary of the Board of Trade, to the request recently made by the board that a steamship inspector be appointed for Prince Rupert:

"I have to acknowledge receipt of your letter of the 15th ultimo addressed to the Honorable the Minister of this Department, forwarding a request from your Board that appointment be made of a steamship inspector to be stationed at the port of Prince Rupert.

"In reply I have to inform you that from the steamship inspection reports it appears that there is not, at present, sufficient work to warrant the appointment of a Steamship Inspector at the port of Prince Rupert.

A. JOHNSTON,
Deputy Minister, Department of Marine and Fisheries."

FISH ARRIVALS

Seven Boats Marketed 47,000 Pounds of Halibut at the Fish Exchange This Morning.

They were as follows: Bringgold, 11,000 pounds, at 10c and 6c; N. and S., 3,600 lbs., and Swing, 2,000 pounds at 9c and 6c; D. C. F., 7,800 pounds at 8c and 6c, to Canadian Fish and Cold Storage Co.

Gape Spencer, 43,000 pounds; Joe Baker, 7,000 pounds, and Kouyosu, 3,000 pounds, to Booth Fisheries Canadian Co. at 10c and 6c.

FITTING CLIMAX SOCIAL SEASON

Ten Thousand Guests Attended King's Reception at Buckingham Palace.

LONDON, July 22.—London's social season came to an end last night with a reception at Buckingham Palace, the largest ever held, the guests totalling 10,000 and comprising statesmen, diplomats, clerics, dukes, soldiers, sailors, leaders, actresses, artists and scientists. Every member of the House of Commons, including the families of the members, was commanded to attend. For the first time in history acceptances or refusals were asked in order to determine the number of guests and prevent wasteful refreshments.

Fine weather permitted outdoor entertainment on the vast lawns of the palace.

DEATH TODAY MRS. BRANNEN

Failed to Recover From Second Operation at Hospital

At an early hour this morning Mrs. Lila Brannen, aged 31 years, passed away at the General Hospital following a double operation for appendicitis. The late Mrs. Brannen was admitted to the hospital on Tuesday last and underwent an operation for appendicitis that a double operation would be necessary from which she never recovered.

The deceased is survived by her husband, Captain E. Brannen of Thompson Street, and three children, David, Virginia, and Jean. The funeral arrangements are in the hands of Haynor Bros., and will take place from their parlors on Monday afternoon at 2:45 o'clock to the Catholic Church where service will be held at 3.

PREPARING FOR VISIT OF GOVERNOR GENERAL

Members of the North B.C. Regiment held a preliminary parade last night preparing to form a guard of honor for Baron Byng of Vimy, Governor General of Canada, who will visit the city officially next month. Regimental Sergeant-Major William Brown was in charge of the parade and drill which took place at the provincial government wharf.

MAJOR BLAKE NOW IN INDIA

Takes Off This Morning From Karachi Where He Landed Tuesday

LONDON, July 22.—Major W. Blake, British aviator, who is attempting to fly around the world, resumed his flight today from Karachi, British India, where he landed on Tuesday.

DAILY EDITION

Saturday, July 22, 1922.

Internationalism Labor Organizations.

When discussing the internationalism of labor, the average labor leaders think either of the two countries United States and Canada or of the English speaking world. A few would take in the European countries. Very few indeed look with hope across the Pacific with the idea of forming any union with the forces of labor in the Orient.

And yet it is clear that once the labor groups in the Orient become unionized they will form much stronger unions than do the people of the white races. They stick together better. This has been well illustrated among the Chinese merchants by the boycotts they have put in effect against offending nations. On several occasions when Japan has been over aggressive, a boycott has been placed against Japanese shipping with the result that for months not a pound of Chinese merchandise was moved by a Japanese ship. Boycotts have been kept up for years occasioning much loss to the shippers but as nothing compared with the Japanese companies.

At the present time the more ignorant Orientals may not be able to stick together on account of the lack of communication over large areas through failure to read and write. It is noticeable, however, that strikes are becoming more frequent in the Orient. The lowly wage earner in China and Japan is learning the power of organization and is already using it with good effect so that before very long he will have pulled himself out of the gutter.

First Strike Year Ago.

It was hardly more than a year ago that China witnessed its first important strike. Since then the larger cities have experienced walk-outs in almost all classes of work, with the result that business is demoralized, transportation is so uncertain that merchants refuse to ship, and in many cities the public health is menaced through strikes of street sweepers and waterworks employees.

At the present time in Canton the carpenters, painters, school teachers, butchers, street sweepers and city employees are on strike, while the seamen and launchmen, who but recently returned to work, are on the verge of another walk-out. The city of Macao is in the thick of a general strike which is almost a state of siege. The casualties to date have been 40 killed and nearly 200 injured.

The situation in Hong Kong is similar to that in Canton, although even there the beggars and thieves have formed unions which they are using for political purposes. The sanitary condition in Foochow, the purely Chinese section of Hong Kong, is said to be deplorable, as the street sweepers, garbage collectors and water carriers are out to a man.

Great Success Shipping Strike.

The seamen's strike here has had a tremendous effect all over the Far East, as it has given the laborers confidence in their new guilds and stimulated their desire for better living conditions. The seamen have been so successful in forcing their demands that they now talk of going into the shipping business for themselves. The men are being asked to subscribe five dollars each, and judging from the eagerness with which they are responding the backers of the project expect soon to have a steamer running between Hong Kong and Canton.

Hope For Betterment Lies In Equalization.

The hope for betterment of labor conditions lies in the leveling up of the labor forces of the world. Until the keen competition of the Oriental is eliminated, little can be done. While the Chinaman works for a few cents a day in his native land and the skilled Japanese mechanic earns not half as much as the unskilled laborer here, there will be keen competition from that source and no prohibitory laws or shutting out of the Oriental is going to improve matters much. To set up one section of the world as immeasurably better than the rest and to demand better treatment for it will fail today just as it did in the time of the early history of the Jews. In these days of rapid communication and of education we stand or fall together. The world is one and not a dozen. The Arab, the Indian, the yellow man, the Negro must join the one big international union before it will be possible to place labor where it belongs.

Duty Of Labor To Other Races.

Because of this necessity of co-operation, the duty devolves upon labor to see that the more backward nations of the world get a chance. There is no need to admit them into the country in competition with the white races, although this may have to be done if the white people do not come. Missionary work is necessary. The people have to be educated in their own land under natural conditions and unless that takes place there will always be the keen competition from outside which will make impossible the success of labor in taking its rightful place.

FOX RANCHER CAUSES WORRY BY DELAY SAYS SKIPPER OF SENATOR

While fishing off Middleton Island, Capt. John Hansen of the halibut boat Senator, noticed a flag hoisted on the beach. He went ashore and found a woman pacing along the beach, half demented. They learned from the woman that her husband, Mr. Hyburg, who has a fox-ranch on the island, had left on a small gas boat for Cordova, to secure provisions, and had been gone ten days. Before leaving the island he had told his wife that he would return in three days and asked her to keep a light burning after the second night, so that he would be able to find his bearings.

For eight days and nights Mrs. Hyburg had kept watch, without a wink of sleep. Captain Hansen told the woman not to worry, as the weather had been fine and that about all that could have happened was engine trouble, or some delay in getting away from Cordova. The captain said this news braced the woman up and she went home to take a rest, and sleep.

Opportune Arrival. In the morning the captain and crew of the Senator heard the puffing of a gas boat, and went ashore. Mr. Hyburg had arrived. He had been detained in getting his winter supply of provision at Cordova, as the Outside boat had not arrived there. It is almost impossible to get into Middleton Island in the fall or winter, so the supply has to be brought in during the summer, and Mr. Hyburg waited over in Cordova for the arrival of the boat. Then he had engine trouble just before reaching home, and all the night before was in sight of the halibut boat and the signal on the beach at Middleton Island.

Besides the fox ranch, Mr. and Mrs. Hyburg do a little mining on the beach during the summer months. They told the captain they make over \$2,000 a year placer mining, and showed him some fine nuggets stowed from the beach.

FUR FARMS OF CANADA SMALL BY COMPARISON

Total Fur Production For Dominion Valued at Ten Million Dollars Yearly.

How insignificant the contribution of the fur-farming industry is to the total of the demand for furs is shown by two bulletins recently issued by the Dominion Bureau of Statistics.

Canada has made rapid progress in the establishment of fur farms, there being 794 in 1921 situated throughout the country, from Nova Scotia to the Yukon. This is an increase of 206 over the previous year. The total number of animals on the farms was 22,455 of a value of \$5,775,695. There were 158 farms for foxes, 12 for mink, 9 for raccoon, 3 for marten, 2 for skunk, 4 for karakul sheep, 3 for beaver, and 3 for muskrat. The investment in these farms for land and buildings alone was \$1,560,500 or a total value for animals and plant of \$7,335,595.

The figures for the total marketing of some species of pelts and those of farm-bred animals, being raised in captivity, are:

	Farm-bred	Total
Foxes—		
Gross	3,089	492
Red	18,097	336
White	21,416	
Blue	121	
Beaver	161,351	
Mink	117,296	91
Marten	47,140	
Muskkrat	2,065,295	
Otter	10,871	
Skunk	71,956	
Ermine	385,254	

There were also 235 miscellaneous pelts, valued at \$1,810.

3,790 silver fox pelts were sold in the calendar year 1921 as compared with a total of 2,828 for the fiscal year 1920-21.

The 2,924,500 pelts that reached the market in 1920-21 were valued at \$10,133,571, establishing the fact that the fur trade of Canada, the first of our natural resources to be exploited is yet a long way from being dependent upon fur farming. The fur-farming industry owes its rapid development—not to the production of pelts of animals that are commonly trapped in large numbers—but rather to the production of certain high-class

STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"

MAPLEBURNE PARK, HILLBURG, P.Q. "I am in my 78th year. About 25 years ago, I began to have trouble with my stomach. One doctor said I had cancer; another said, Ulcer of the Stomach; another, Gallstones; others, Ulcers of the Liver and Inflammation of the Gall Bladder. Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO." Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much."

H. W. EDWARDS. 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

furs—notably silver fox—of which there is an inadequate supply from wild fur-bearing species.

The Man in the Moon SAYS—

THERE'S one advantage British Columbia has over other places if she should ever need to print her own money, like Russia does. She has plenty of timber to make currency paper.

SOME people play their baseball on the athletic grounds and others do it in the tobacco shops. It all depends.

IF a tax were put on corporations some of us would have to pay a whole lot.

SPENDING a vacation is just another way of spending money by most people.

EXIT HANNA! Adieu a fond adieu! says Prince Rupert.

NOW it has been proven beyond shadow of a doubt that the native born Canadians can beat all the rest in football, the thing to do is to see that there are plenty of native born Canadians in future. Its up to the Scotchmen, Irishmen and Englishmen to encourage sport.

GOOD OIL SHOWINGS

Price of Oil Stocks in Fraser Valley Take a Jump Following Strike at Empire Well.

VANCOUVER, July 22.—Some good oil showings in the the Empire well has caused quite a flurry in local oil stocks. Just what the oil fund amounts to has not yet been made clear but if the Empire well gets commercial oil there will certainly be a big flutter and other wells will go down immediately.

Some time ago there was wet gas struck at the Boundary Bay well but the pressure of water held it back. Efforts have been made to relieve that pressure by pumping, and backers of the Boundary Bay well feel confident of success.

Yesterday's quotations showed Empire changing hands at 4 1/2 and slightly higher, while Boundary Bay jumped to 4 1/2 and over.

POWERS TOUR PARTY FROM CHICAGO HERE

Party on Steamer Princess Louise is Personally Conducted by Illinois Newspaper-man

Included in the big tourist list of the Canadian Pacific steamer Princess Louise, which is returning south this afternoon from Skagway to Vancouver, is a party sent out by the Powers Tour Association, of Chicago. This party is being personally conducted by Clint C. Tilton, proprietor of the Morning Press, Danville, Illinois, and is made up of the following persons: Mr. and Mrs. James E. Lennon, Mr. and Mrs. John Tyne, John Tyne Jr., Miss Laura A. Johnson, Miss Clara M. Stube, Mrs. O. A. Miller, Mrs. A. E. Hogan, Mrs. Margaret M. McNamara, Miss Margaret E. McNamara, Mr. and Mrs. J. Bloomenthal, Master Ernest Bloomenthal and Miss Carolyn Bloomenthal, Chicago; Mrs. Raymond Hatfield, Miss Helen W. Hatfield, and Mrs. Fred C. Tyson, Danville, Illinois; Mrs. W. H. Knowlton and Miss Knowlton, Denver, Colorado.

In the Letter Box

RENTS ARE DOWN

Editor Daily News— Believing that you wish to publish only truthful editorials I wish to correct yours of the 18th inst.

After commenting on the housing problem rapidly soaring rents, etc., that followed the war, you state "Everywhere there is a tendency for rents to come down, although there has as yet been no reduction here."

One of the great needs of this young city is more people, and I do not think you are encouraging them to come when you tell them they will be held up with the old high rentals.

The truth is rents in this city are much lower than they were last year. I have reduced the rates on each of my ten houses since the New Year. The lowest reduction figures out at 6 1/2% and the highest at 37 1/2%, of an average of around 25%, and I believe I am right when I say that the landlords have done more than their share toward reducing the unreasonably high cost of living.

I do not know of anything that I eat, wear, or use that has been reduced 25% this year. Only a few days ago I paid \$10.00 for a year's subscription to the Daily News. Why slam the landlord when you have not reduced the price of your own product? If you can't boast, don't knock. J. W. McKINLEY.

Ten Years Ago in Prince Rupert

July 22, 1922.

An enclosure for deer is being constructed at Aeropolis Hill and one deer has already been secured for it.

Mr. Sandels, manager for Kelly Douglas, and Mr. Smith, of the G. T. P. Inn, brought in a fine catch of rainbow trout from Fiddler Creek, Mile 127, yesterday.

Some 300 railway workers arrived from up the line last night, a strike having been declared in Foley, Welch and Stewart's camps. There was a meeting in the Majestic Theatre which was addressed by Ald. Montgomery who pointed out that the demands being made by the men were in accord with statutory enactments which were not being adhered to.

Persistent advertising is absolutely necessary to success.

CROP REPORT IS FAVORABLE

Rains on Prairies Have Improved Conditions; No Rust Yet

WINNIPEG, July 22 (Canadian Press).—Fine clear weather has been experienced during the past week over the three prairie provinces. Crops are making rapid progress with no rust indications and present weather conditions are unfavorable to this menace. Rye is proving a good crop and cutting is already in progress in some districts and it is expected will be fairly general within a week. Southern portions of the three prairie provinces give promise of a heavy yield in all grains. Other sections promise more than average with the exception of areas west and southwest of Saskatoon and along lines north of Edmonton, according to the crop report issued by the agricultural Department, Canadian Pacific Railway.

Promise Good Yield.
All crops are making good progress in Manitoba, the report shows. Wheat heads are full and fairly long, giving promise of good yield. With ripening weather harvesting should begin the first week in August. Pastures are generally luxuriant and all livestock is doing well.

With the exception of the district west of Saskatoon to Hardisty and the Lanigan line south of Cupar, crops in Saskatchewan are good to excellent. Continued dry weather is causing anxiety in the districts mentioned. Fall and spring rye indicate a fine yield. Crops in the greater portion of the province promise well.

Cutting Begun.
Wheat is heading out rapidly. Cutting of winter rye has begun in some districts of Alberta but it is expected that considerable of this crop will be retained for stock feeding. Present indications are that grain and hay crops will prove better in the south than in central and northern parts where rains have been irregular.

In the Edmonton Dunvegan and British Columbia railway districts showers have occurred at some points. Heavy rainfalls are needed, however, over the entire district. The crop outlook is better but yields will prove short of earlier expectations owing to delayed rains.

BOARD OF TRADE WILL HAVE LUNCHEON HONOR AGRICULTURE MINISTER

The entertainment committee of the Board of Trade had a meeting yesterday afternoon and it was decided to put on a luncheon in the St. Regis Cafe next Saturday, July 29, in honor of Hon. W. R. Motherwell, federal minister of agriculture, who will be in the city on that day.

BODY OF KISPIOX SETTLER IS FOUND

Nels Green's Remains Found Five Miles From Scene of Accident

HAZELTON, July 22.—Following a diligent search conducted since the accident which resulted in his death by drowning in the Skeena river early last month, the body of Nels Green, the Kispiox rancher, was found last week on a sand bar located about five miles from the point where the accident occurred. The body was discovered by an Indian and the police here were notified. Examination of the body brought out nothing that would indicate anything but an accident while attempting to cross the flooded Skeena to his ranch, and interment was ordered. The deceased was one of the earliest settlers in the Kispiox valley, and by hard work that was always stimulated by confidence in a great future for that district was reaching a point where his hopes were being realized when he lost his life.

BRINGING UP FATHER

ELKS BLEW UP IN THE EIGHTH

Long Baseball Game to Knights of Columbus by Score of 6 to 7.

ARE NOW IN CELLAR

One of Best Games of Season Staged Last Night at Acropolis Grounds.

When Howard Frizzell walked and failed to receive the support of his field in the eighth inning of last night's baseball game and allowed four hits and one walk which netted five runs, the Knights of Columbus won over the Elks by a score of 7 to 6 and, as a result, now occupy second place in the Senior Base Ball League with the Elks in the cellar. The game was well played, most of the time, errors were fewer and it was as good and interesting an exhibition of the

DR. DOUGLAS Has Babe Ruth's homely figure with a million-dollar smile. Ask Harvey F., "in the dugout."

American National sport as has been staged this season by the Seniors. A good crowd of fans was on hand to witness it and enthusiasm, at certain stages, ran high.

Fall in Eighth.

The Elks had things pretty well their own way with the exception of the disastrous eighth inning when five runs were made by the Catholics. The two other runs for the Knights were made in the second and were due, purely and simply, to fielding errors of the Elks which should have been avoided. The Elks made four runs in the third when Astoria allowed his most hits and some clever base stealing and errors did the rest. Single runs were tallied by the Elks in the fourth and fifth making up their count of six. Both pitchers held up well, with the exception of Frizzell in the eighth, and almost airtight ball featured several of the sessions.

Glaring Errors.

The Knights of Columbus made five hits and the Elks, eight, and errors were three and four, respectively, some of these being of glaring nature and of considerable effect on the score card and the result of the game. Frizzell struck out seven men and walked three. Astoria struck out eleven and walked two. No batters were hit by either hurler.

The Knights came first to bat. Wakefield and L. Moore being put out at first and George Hill fanning. Frizzell and Eason were the opening battery.

The Elks opened with Taylor who was put out at first from a grounder picked up by second base. Sherman struck out. Ratchford took a walk and G. P. Smith was put out at first, the side going down.

In the second Douglas got to second on a doubtful hit and an overthrow to first. He stole third but that was as far as he

and for Henning was put out by a neat one-handed catch of Jack Ratchford's in right field. J. Moore was put out on a fly to the pitcher and Hamilton struck out.

The Elks went down in rapid succession, Eason striking out and Dickenson and Ed. Smith being out at first.

Dropped an Easy One.

Greenwell, in the third, was put out at first after Eason had dropped the ball on the third strike but recovered it in time for the throw. Astoria walked and Wakefield got on base through Frizzell's bad error in dropping an easy one. L. Moore was put out at first with Astoria getting home and Wakefield to third. Taylor let Hill's easy one get through and Wakefield made the second run. The side went down, with Douglas at bat, when Hill was caught stealing third.

Disaster Comes.

In the eighth disaster overtook the Elks. Greenwell was put out at first from the box. Astoria walked and stole around to third almost before anybody noticed it and was scored by Wakefield's one base hit. Moore was put out first but Hill got first. Wakefield scored on Douglas' one base hit and both Hill and Douglas made home when Henning made a three sacker. R. Moore sent out a two bagger and scored Henning for the one run lead. Hamilton ending the fun for the Knights when he struck out.

Change in Elks.

At the beginning of the fourth there was a change in the lineup for the Elks with arrival of Shaw who went behind the bat. Eason took up his regular post at short and Sherman, who had been there, went to second and Taylor retired from the game. Douglas walked and Henning was put out at first. Dick Moore, was also put out at first after Frizzell had successfully held Douglas at third. Hamilton was put out on Eason's catch and Douglas died running to the home plate.

F. Smith was put out at first.

Stork struck out but Frizzell managed to get to first. Shaw pointed out a timely two bagger and scored Frizzell but died himself at the home plate when Sherman was put out at first. Greenwell struck out in the fifth and Astoria was put out by another of Ratchford's neat

JACK RATCHFORD Let's little by that hit on right field.

right field catches. Wakefield got first on a third base error but was put out stealing second while L. Moore did not finish batting.

Ratchford was put out at first from short and G. P. Smith made a two bagger. Eason got to first on an error which allowed the runner to score. Dickenson struck out again and Ed. Smith was put out by a first base catch.

Short Sixth.

L. Moore, Hill and Douglas were all put out at first in the

The Stuart shield is a brand new trophy which has been put up by D. C. Stuart, president of the league. The series for it will consist of six home and home games similar to the league schedule. The proceeds will be placed in a trust fund which will be devoted entirely towards the assistance of injured players. The series will commence early in August.

The Gilbey Cup three game series will also be played in August.

While no definite arrangements have yet been made by the Exhibition Association for this year's prizes, it is expected that the series will take place as usual just before the Exhibition with the final play-off on one of the fair days.

The Canadian Open Golf Championship will be competed for this year on July 28 and 29 over the links of the Mount Bruno Golf Club near Montreal. It is expected to attract all the professionals in Canada as well as a number from the United States and also the best amateur players all over the Dominion. As the contest does not conflict with any important tournament in the United States it is expected that many visitors from across the border will be Kirkwood, the remarkable Australian, as well as Hutchinson, ex-British Open Champion, Haggan who recently won the British Open Championship and Barnes, Open Champion in the United States last year.

Canada's first line of defence will be O. R. Murray, of Montreal, winner of the Quebec Provincial Championship, George C. Cummings, winner of the Toronto and District Open Championship, and Davis Hieck of Vancouver. The championship is open to all amateurs and professionals. It will consist of 72 holes medal play, 1 of which will be played in the morning of the first day and another 18 in the afternoon. The second day's program is identical. The tournament which will take place under the rules of the Royal Canadian Golf Association, will commence on the morning of July 28.

The course at Mount Bruno comprises a distance of 3,244 yards going out with 2,299 yards coming in making a total of 5,543, an exceptionally lengthy course. The holes are all good, but the twelfth is worthy of special mention, being 595 yards from the tee to pin, and the thirteenth, which is 110 yards long. Up to the twelfth hole, the player has been looking over a picturesque panorama of valleys and distant hills, but when he faces the flag he is looking towards cool woods apart from the vista, however, he is facing a difficult task. The average player requires three full shots to be hole high, while five is very often expended. Besides the great length of the hole the course runs uphill which greatly adds to its difficulty. The thirteenth is another picturesque hole, the bush having been cut away to provide a fairway, and when he has left the tee, the player emerges into what appears to be a new world.

VICTORIA CITY FAVORS RACING

Six Aldermen Vote For Pari-Mutuel System and Five Against It

VICTORIA, July 22.—Unshaken by the arguments of Mayor Marchant, set forth in a lengthy communication, and the protests of Rev. Dr. W. G. Wilson, president of the Ministerial Association, and letters denouncing horse racing written by officers of the Retail Merchants' Association, the Chamber of Commerce retailers' section and other organizations, the Solid Six in the city council voted against reconsidering the resolution passed on June 26, authorizing horse racing under the pari-mutuel system at the Wilcox track this fall.

Oak Bay Against

As the Oak Bay Council, which apparently has jurisdiction in the matter, has already barred racing at the Wilcox this year, thus settling the racing issue, the most important effect of the city council's vote last night was that, not only was the C. Agricultural Association prevented by Oak Bay from holding a race meet, but it must run the exhibition without any grant from the city.

"Morally Unsound"

Rev. Mr. Wilson attacked horse racing on the grounds that it was "bad business" and "morally unsound."

Mr. Wilson described some effects of the horse race meets in Toronto and declared that store bills had remained unpaid for weeks after the races as a result of losses at the track, and bank managers had declared that savings of small investors had been seriously depleted on account of betting.

Horse races were described by Mr. Wilson as "home wreckers" and the cause of domestic troubles, a lure for the worst elements of society and an agency for the corruption of the youth of both sexes.

"Horse racing has been proven positively wrong to morals and unprofitable to youth," declared Mr. Wilson. "For that reason it simply cannot be justified on economic grounds."

"I hope," he added, "that you do not imagine that the Ministerial Association is anxious to step up on every occasion and protest or claim the right to be consulted whenever you do anything. We are simply trying to be good citizens and to make Victoria a better place to live in."

Ask Reconsideration

Ald. David Leeming, leader of the anti-racing faction in the council and whose active part in the controversy was the cause for the distribution of insulting poetry at the city hall last week, expressed the thanks of the council to Dr. Wilson and moved that the resolution to allow racing be reconsidered.

Ald. Joseph Patrick seconded the motion, but it was defeated on the following division: For—Mayor Marchant and Aldermen Woodward, Leeming, Patrick, Dewar, Azains, Aldermen Todd, Hayward, Harvey, Gillespie, Perry and Andrews.

Newspaper advertising reaches out throughout the community and tells those who want to buy about the things you have to sell. Newspaper advertising, with a guaranteed circulation, is a necessity in modern business. If

TELLING FISH YARNS BEFORE THE CAMP FIRE

Great and Glorious Feeling When You Land a Big One.

It is a great sport, this fishing and the best part of it all is that you really don't have to catch fish in order to enjoy it. Just to lazy around in the boat, with the old corncob drawing merrily, and the warm sun beating down upon you is joy enough. But, of course, when the big fellows get to biting, and the line runs out over the reel with much enthusiasm, you get that tingling of the nerves that baffles description, and if you land him—oh, boy, what a grand and glorious feeling goes throbbing through your frame. And then think of the stories you can tell when you get home.

His One Weakness.

"Is Jones a truthful man?" "Yes, generally, but he will go to any length in telling a fish story."—Portland Express.

Chance of Tune.

Fisherman (chumming up to stranger in smoking car)—You're not supposed to fish hereabouts this month but I've 100 lbs. of fine cod in the baggage car.

Stranger—Say, d'ye know who I am?

Fisherman—No, who are you? Stranger—I'm the state game warden!

Fisherman—Well, I'm the biggest liar in the state.—"Topics of the Day" Films.

Narrow Escape.

"The biggest fish got away." "That's what they all say. I bet if I hooked a big fish I would land him."

"So would I. But he didn't even show up where I was fishing."—Houston Chronicle.

Kid? No. 0003

Willie—Mamma, will you answer just one more question? Then I won't bother you any more.

Mother—All right, then. What is it?

Willie—Why is it that the little fishes don't drown before they learn to swim?—New York Sunday News.

Survival of Fittest.

Mother—Willie, have you fed the gold fish?
Poutful Willie—Yes, Mamma, I fed them to the cat.—"Topics of the Day" Films.

No Chance At All

The Angler—Is this a public lake my man?
The Inhabitant—Aye.
The Angler—Then it won't be a crime if I land a fish?
The Inhabitant—No; it'll be a miracle.—Edinburgh Scotsman.

Why not try a classified advertisement if you wish to buy or sell, rent or loan? It is the business barometer of the place.

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

The Admiral of the Mosquito Fleet is strutting around the waterfront in a very jubilant humor, and when you see his lordship wearing a broad grin you can bet your rubber boots that the crews are living up to the tradition of the fleet, and that tradition today is "Get busy or get out." There are few boats around the home port this week, and those that are in port are only in for a few hours to enable minor repairs to be made and to take on provisions when its a case of back to the briny for Percival.

During the week 279,500 lbs. of halibut has been marketed and some fifteen carloads have been hauled over the steady ribbons to distant eastern points. Prices have remained steady, the highest price being 14.1c and 6c and the lowest 10c and 5c. The fishermen have been favored with good weather during the week and the catches per boat have been well up to the average.

A mishap occurred in the vicinity of Cow Bay on Wednesday afternoon which fortunately was not attended with any serious consequences.

A portion of the Warq Electric dock suddenly collapsed and precipitated three men into the slight depths below. H. Ward, with two companions, was standing on the wharf when the collapse took place but were quick enough to grab hold of a good pile in the downward motion which arrested their fall somewhat at any rate sufficient to prevent any serious personal injury. Upon examination it was found that the piling had become absolutely rotten. This will be replaced immediately or as soon as the necessary pile driver can be got on to the site.

The launch Oh Baby, Capt. Myhill-Jones, is on the Ward slips undergoing a keel painting and other minor necessary repairs. Cap. expects to have the old reliable in the water again ready for the week end.

A very interesting and well attended moving picture exhibition was given in the Fishermen's Muz-Up at Cow Bay on Wednesday evening by the Rev. J. Gillett of the Massel Island Missionary Service. A number of fishermen and their kiddies took in the show which was of a highly interesting and instructive character.

The Frisbie A, made port on Thursday morning from Dundas Island. This sturdy little craft has been engaged in the salmon trolling and has put into Cow Bay for minor repairs. She will leave for the home fishing grounds over the week end.

The provincial government has already commenced upon the work of laying the fresh water main to Cow Bay and a gang of men are at present busy digging the necessary ditch to take the iron pipe. The main will terminate at the corner of the Big Bay Lumber Company's lot which will give easy access to the fishermen and other dwellers in the vicinity.

The Bob, Captain Swedemark, arrived in port from McAuley Island early in the week having in tow a quantity of boat lumber and nearly a ton of charcoal all manufactured at Cap's own plant. Cap found a ready market locally for both the lumber and charcoal. The latter

Steve Carter, officer commanding the Booth Booster ranch situated on Sixth Avenue East, has made an addition recently to his already beautiful home by the purchase of some real antique furniture. In fact it is so antique, according to Steve, that he reckoned the owner should have paid him handsome to have carted it away. The word carted is no pun on the name Carter, please note. It was like this. A good friend of Steve's was breaking up his happy home probably to become happier, and Steve got wise that there was some classy furniture going cheap. Up goes Steve to the point of sale and looks the goods over. After a lot of chat and various drinks—egg-nogs, Steve summed up enough courage to ask the price and was told sixty bucks. The price nearly turned poor Steve's hair the color of seaweed. After he came round he said he would call again. On arriving home he called a board meeting, at which the lady of the house was pres-

ent, and drew various blue prints of the way the goods looked, going thoroughly into the purchase price. The meeting broke up with the decision having been made that Steve would storm the \$60 stronghold again and strike out for a lower price. This he did with the result that the market went down with a slump, bids fell and the buyer and he sadly drew out thirty greenbacks and the purchase was completed. Of course the seller told him that it was a wonderful buy, at the same time pocketing the spondulix, and casually remarked that the stove in the deal was O. K. but it was broken. This put a match to the fireworks and Steve burst into tears with rage, the seller hiding behind the washing machine. Steve says that the next time he buys any goods with a stove among the lot he'll want a written guarantee or a 99 year lease on trial before he parts with a nickel. Anyway the stove looks fine if the bricks on which it rests were painted black.

The following boats have marketed fish during the week: Oak Leaf, Eastern Point, Johanna, Star, Fram, Happy, Dolphin, Bartolome, Teddy J., Kobe, Murcellor, Alliance, Lillian M., Chancellor, Annie J., Clara N., Mah, Brothers, Sherman, Guilford, All, E. Lipsell, Imperieuse, Myra, Norneen, Lenore.

"Keyhole" Hanna, it is understood, has been appointed Admiral of the Port Edward salmon trolling fleet for services rendered. The services rendered means that he has been high man of the fleet two weeks running and grabbed off a \$10 pot each time. Congratulations are being shipped under separate cover from the local Admiral in this connection.

The Ketchikan Packing Company, operated for some time by J. A. Benolkin, was recently put up for sale by the U. S. marshal. Only one bid was received from J. R. Beckman amounting to \$15,000.00.

A seaw load of motor fuel for Capt. A. Swanson arrived in port per the Anyox tugboat Atholite on Wednesday, which returned with an empty scow. This special motor fuel is manufactured by the Granby Smelting Co., of Anyox.

The Pachena, Capt. D. Taylor, is in the government fishery service, having been chartered for the season by the Dominion government.

Flossie Flirt has written another very interesting letter to the Admiral from Winnipeg. It appears that Flossie is getting into society back east and the other day was invited out to a pink tea. We give her experience in her own words. "I was out to Mrs. Drinkenough's to a pink tea the other afternoon, and never was so disappointed in my life. I had never tasted pink tea in Rupert and was looking forward to trying a new drink. You can imagine how disgusted I was when they brought on tea which was just ordinary common or garden black dope, just the same as you and I used to have aboard the flagship. Now I puts that down to getting peo-

I had never tasted pink tea in Rupert and was looking forward to trying a new drink. You can imagine how disgusted I was when they brought on tea which was just ordinary common or garden black dope, just the same as you and I used to have aboard the flagship. Now I puts that down to getting peo-

ple out on false pretenses don't you? Say Cap, the guys in this city are darned fresh. Was walking back to my 50c a night bed the other evening when a little fellow stops me and says 'Haven't I met you somewhere before?' I didn't argue the point but just drew back and gave him a Cow Bay poke, like you showed me, and says 'No, you ain't and I guess you won't see me again for a while.' A policeman came up, and he was a perfect gentleman, because he told me he used to live in the same town in England with a live Lord, now ain't that fine. He was very civil and said he'd stick around and if the guy I hit didn't come round in an hour he'd take him away and tell the chief that he'd been run over. Now that fellow deserves promotion. I made a date with him and we're going to the show one night soon and going to have ice cream and sausage and mash afterwards, and if he gets paid perhaps some pop too. One can have a good time anywhere if they acts just ladylike and knows how to address a gentleman. This policeman chap is named Sandy Slush, and I think that's a cute name for a beau if you don't. Will be returning to you all soon. By the way them teacher ladies as visited Rupert, have noised it all over how you good people treated 'em, and some of 'em are saving up already to get back again next year. Advertising pays Cap."

The following boats are in port: Timber Wolf, Narbethong, Wigwam, Frisbie A., Napoleon Bruno, Glen, Starston, Eleanor Mac, Volunteer, Billy Boy, Mekla, Katherine, Eastern Point, First Place, Forward, Myra, M. M. Christopher and Chief Leggie.

Prosperous advertising means regular continuous advertising.

ABOLISH WAR SAYS PREMIER

Head of Sweden's Government Delivers Lecture Before University of Christiania.

LOOKS TO LABOR

Many Illusions Have Been Shattered Yet Spire of New Hope Rises.

STOCKHOLM, July 22.—(Can. adian Press).—The strongest hope for the abolition of war is to be found in a universal League of Nations and Labor Internationale of Amsterdam, is the opinion of Hjalmar Branting, Sweden's Social Democratic Premier. He expressed this idea recently in his Nobel Peace Prize address before the University of Christiania. Mr. Branting divided last year's peace prize with Christian L. Lange, of Norway. According to the terms of the Nobel Foundation, the winner must deliver an address before the University of Christiania on the subject of peace.

Foe to Bolshevism.
For years Premier Branting has been closely identified with the labor movement as represented by the international unions, and of late years he has proved an implacable foe of Bolshevism in the ranks of labor. In his speech he stressed the importance of the role that enlightened labor could play as peace-maker. He declared that the League of Nations was now weak because of "the absence of President Wilson's own country as well as that of the great defeated powers, Germany and Russia," adding that the limitations and short-comings of the League must be eliminated if our civilization is to endure.

"Nevertheless," declared Mr. Branting, "the League opens for the first time, after a huge military catastrophe, perspectives of peace, understanding and justice between the free and self-governing people of the world."

New Europe Emerges.
"Although recent years have seen many illusions shattered as regards human progress," continued Mr. Branting, "it is not certain that the future will deem the years we have lived through only as a period of destruction and retrogression. The spires of new hope are too many, too numerous and too promising for that. We must not altogether forget that out of this hard travail a new Europe has emerged. The League of Nations must become universal. No people is too great to keep outside of the League."

"Before the world war many hoped that the workers of the world would never permit a war. We know now that this hope did not materialize. But will labor be powerless now that public opinion against war has been so much strengthened? The political internationalism may at present be weakened by dissensions introduced into the ranks of labor by Bolshevism, but the Labor Union Internationale in Amsterdam, representing 20,000,000 workers of all countries, stands stronger than ever before. Its huge membership is a power to be reckoned with, and the propaganda against war is being incessantly carried on among the masses. The situation may soon be such that when the question is asked: 'Who has done most for the cause of peace in the spirit of Alfred Nobel, the reply will be: 'The Amsterdam Internationale.'"

Mr. Branting closed his address with this quotation from James Bryce: "If the peoples do not try to annihilate war, then war will annihilate them."

'DR. FOWLER'S' Saved The Lives of Four Children

Diarrhoea, dysentery, cholera infantum and summer complaint are responsible for more deaths, especially among children, during the summer months than any other form of disease. According to statistics, in the City of Toronto alone, in the past five years out of 1008 deaths of children, from diarrhoea, 257 died during the four summer months. It therefore behooves every mother to look after her children on the first signs of any looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has been proven to be the best there is.

Mrs. Harold Sellers, Penfield, N.B., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of four of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I will always recommend it, and now always have a bottle on hand in case of emergency."

FINDS TRIBE SUMO INDIANS

Scientist Makes Trip Into Little Known Country in Nicaragua

PHILADELPHIA, July 22.—Wharton Huber, assistant curator of the ornithology section of the Academy of Natural Sciences, returned recently to this city from hitherto little known regions of Nicaragua where he assembled a large collection of birds, beasts, fish and reptiles, a number of which he believes have not yet been classified. He also claims to have penetrated to the villages of Sumo Indians who rarely had seen a white man. The scientists' specimens include 600 birds, 10 rare mammals and 2,000 fish, reptiles and insects, all of which he placed on exhibition in the local institution.

Heavy Rainfall
"My research work has done about 180 miles inland from the Nicaraguan coast," said Mr. Huber. "We established our headquarters at a small mining camp whence we made trips further into the country. The average annual rainfall here is 147 inches. From the time I reached the interior until I left there never was a dry article of clothing on me. The country is infested with red bugs, smaller than fleas which burrow under the skin and inflict serious wounds."

"I went up the Prinz Polka river for 180 miles in a pitpan, an open boat made of a hollowed-out mahogany log. Then in a smaller pitpan I ascended the Babana river to Mininda. The district is hilly, and covered with tropical forests so dense that it is impossible to enter them until a way is cut by Indians.

"The only inhabitants are a few scattered tribes of Indians apparently of Spanish and Miskito Indian descent. With a body of these Indians as guides I penetrated to certain villages of the Sumo Indians.

Skillful Hunters
"The Sumo men are very skillful hunters, but the tribe is rapidly becoming extinct. With all their ability in hunting and their courage in facing wild animals, they are excessively timid of strange human beings, and will run away even from members of other Indian tribes. Miskito Indians sometimes walk into their villages and take anything they want without meeting resistance. The Sumos, numbering about 500 souls all told, have the slant, almond eyes of the Chinese and their skin is about the same color as that of a Chinaman."

Killed by Jaguars
Mr. Huber had with him a number of dogs, two of which were killed by jaguars. The scientist believes that fully 40 per cent of the birds and animals he shot were lost because neither dogs nor Indians could make their way into the jungles to the point where they fell. He used dynamite to secure his fish specimens. Mr. Huber emerged from the jungle region weighing 40 pounds less than when he entered, at which time his weight was 180. Although he warded off illness during his expedition, he was taken down with fever immediately it was over.
