## CHILDREN LOSE LIVES IN AUTOMOBILE CRASH IN ONTARIO

### Five Dead When Car Plunges Into Murky River Trent Waters

Four of Youngsters Belonged to One Family, Their Mother and Father Being Saved—Driver Lost Control of Vehicle on Hill

GLEN MILLER, Ont., Oct. 17:—Five children were drowned in the murky waters of the Trent River near here today when an automobile driven by George Conkright plunged into the deep stream. Six others were saved. The dead are: George Conkright jr., aged seven, and Alice, Eunice, Gladys and Shirley Wickens. The saved are Mr. and Mrs. Conkright, Mr. and Mrs. Archie Wickens, parents of the four dead children, and Arnold and George Conkright. Archie Wickens was badly cut about the hands when he broke the windows of the car and helped other members of the party to shore.

Conkright apparently lost control of the car which roared up the left side of the road and began its fatal plunge when it smashed into a fence and rebounded, striking a telephone pole, scraping two more fence posts and then crashed down the bank into the river.

Five of the bodies have been recovered. "The wheel locked on the car," said Conkright afterwards. "I was driving at a moderate rate of speed and, as I swung the wheel to round the curve, it locked."

HIGHWAY TO INTERIOR

In spite of the Kidd report, writers in MacLean's Magazine, pessimists and reactionaries, the people of Northern British Columbia will not give up the plan to connect the city of Prince Rupert with the interior country. Instead of that they will work all the harder and air their views the oftener with a view to having it built.

Every year that passes makes the highway more of a necessity to the people of the interior settlements as well as to the people of Prince Rupert. It means development for both.

RAILWAY CO-OPERATION

If the Canadian National Railway expects to secure co-operation from the people of Prince Rupert and the towns and villages of the interior it should make some move toward giving a reasonable rate on cars from Prince Rupert to Cedarvale. We claim, and we think the claim a reasonable one, that if this were done the railway would benefit. It would create a business which at present is non-existent. It would help develop the towns of the interior from which the railway draws part of its business. In other words it would be a move that would benefit everyone.

So far we have heard no argument advanced by the railway officials which seemed a reasonable one against giving a twenty dollar rate on cars. In addition they would charge regular rates for the passengers. Possibly the new management will be more sympathetic to a scheme for increasing the company's business on this line than was the old one.

JEWS IN CANADA

This year the Jews of Canada are celebrating the centennial of their being granted full civil rights. Prior to 1832 Jews were not allowed to sit in the Legislature. The right was secured after 25 years of struggle and was granted 25 years before similar rights were granted in Great Britain. Today there are 170,000 Jews in Canada and they hold prominent positions in most of the provinces.

IN THE LETTER BOX

COUNCIL AND UNEMPLOYED

Editor, Daily News:— As an interested witness to the controversy on the question of discrimination that took place during the last sitting of the city council, I would like to submit a few words in the interest of clarity, also in fairness to the unemployed man whose objection to working for back-relief prompted the discussion. It was made apparent that the attitude of the city council in the matter is based upon the assumption that a certain recalcitrant minority of the unemployed are unwilling to work for their relief, or as one member of the council stated "they expect to receive something for nothing." Thus as issues were raised that could result in but one logical decision by the council, i.e., that all able-bodied unemployed be required to work in return for value received, I contend that the real issue involved was not stated by any member of the city council. The married unemployed have but one point of contact with governmental authority, and that is the city council. In objecting to work for back-relief they are attempting, with the little means they have, to bring forward consideration of their inadequate relief allowance. The assertion that all relief work is paid for at the rate of standard wages can only be accepted as a chimerical illusion. The married unemployed are receiving from twenty-five to thirty cents a day and, if they consume more food than this sum will purchase, it is only by encroaching on the meagre allowance of their children.

It is regrettable that the so-called labor members of the council felt impelled to stress the iniquity of an unemployed worker expecting something for nothing, but were careful to avoid the real issue so plain before them. For the real question involves a principle greater than that so vociferously expounded by several labor members of the city council. It is a question that cannot be evaded or withheld from consideration by merely shouting adherence to the cause of labor.

J. M. DUNN.

REPLY OF UNEMPLOYED

Editor, Daily News:— From a perusal of the press accounts of the city council meeting last week we regret that recriminations obscured several of the issues and furnished opportunity of evasion as if by pre-arrangement. The only point made was publicity and it is felt that we are entitled to claim the privilege of re-presenting our case at the bar of public opinion which, like a pendulum, is prone to react to the slightest influence and swing violently in an opposite direction. We do not wonder at our delegation losing partial control when they encounter a stonewall of precedent defended by the congealed experience of 30 years. This is not 50 years ago neither is it five years ago. This bottomless quagmire in which the world finds itself today is not to be bridged by any time-worn methods of wait and see. We are not preaching revolution so much as attempting the almost superhuman feat of piercing by revolutionary ideas the conservative armor in which the world is encased.

An angle not considered in connection with the civic work program is the fact that the father of a large family has two or three times more work to put in than the married man with no family. This is penalizing what, in pre-depression days, was regarded as a virtue—and in some countries was rewarded with a bonus. Neither man makes a profit however long he labors. We believe there should be a definite ruling on this from Ottawa. Of course there are individuals who cannot be restrained from work-achieve way to drown sorrow.

If over-production be one of the roots of the evil, then those who actually produced this surplus by their actual labor are entitled to enjoy the fruits of their labor, with no slur or suspicion of charity of "dole" attached. It should be handed to them with ungrudging good grace. The unemployed need suffer no shame or qualms of conscience in accepting same as their just reward.

Regarding discrimination, this charge was vehemently denied by all officials at the council meeting,

yet, next morning, one of our public-spirited aldermen notified the tenants of two shacks for which he is agent, to "pay up or get out in 30 days." This carries a threat of eviction at the end of that period. Whether this was done on his own initiative as agent, or at the instance of the church which owns the property, is not known. It may be by the advice of the council. We consider this to be rank discrimination with a vengeance against a working class man for taking a stand against what they consider to be intolerable conditions as these two men formed part of the unemployed delegation to the meeting of the council. We are not surprised that the members of the unemployed association get a strong impression that the words of labor and socialism when coupled to municipal and political ambition are simply words and nothing more and that the average height of the city council is about two feet.

There would be some good men on the city council if they had not happened to be so successful in business. The aldermen undoubtedly wish to point with pride to tangible evidence of their achievements and this is commendable in ordinary times. On the other hand they would equally justify their tenure of office by a more sympathetic attitude towards the welfare of the populace. At the present rate they may be pointing with pride to a well-filled cemetery caused by the depression! I read a letter from the old country today which stated that there were 6000 suicides, traceable to poverty, in Great Britain last year—the land which was to be the home for heroes and democracy.

While we are convinced the utmost has been done and is being done with the means at their disposal, we cannot be convinced that we have to die before some means of raising funds or credit can be found. Representations to the proper authorities should produce results. None of the demands of this association are unreasonable.

The situation at Cow Bay is another instance of the stonewall of precedent and is as raw a deal as can be imagined but nature is on our side as the men there will soon be removed to the hospital. W. A. HOGG, Secretary pro tem, National Unemployed Workers' Association.

THE MURPHY CASE

A special meeting of the executive committee of the Central Council of Employed and Unemployed was held on Sunday night to discuss the arrest of Secretary T. Murphy of the N.U.W.A. and it was decided that nothing could be done till we had a correct statement as to the nature of the charge against him. A motion was passed that we ask for a public statement through the press as to the exact cause for his arrest.

ALL STARS DEFEATED

Canadian Legion Wins Relief Football Game By Score of Four to Two

In a specially arranged football game played yesterday afternoon for relief purposes, the Canadian Legion team defeated an eleven representing the rest of the Senior League by a score of 4 to 2. Although play was very even in the first half, which ended one to nil in favor of the Legion, the match was a rather listless affair due, no doubt, to the fact that the players had been out of practice for weeks following the close of the season's regular activities. The crowd of spectators was not very large although the weather was quite pleasant if a little cool.

The Legion scored all its four goals before the All Star team got started in the closing stages of the match. About ten minutes after the start of the game, Horne opened the scoring. Almost immediately after resumption of the second half, the same player scored again following a corner kick by Baptie. Ten minutes later Murray made it three for the Legion on a pass from Baptie. In twenty minutes Murray went right through on his own to score the fourth and last for the Legion. Ten minutes from full time, Albert Dickens opened the scoring for the All Stars and, in the last minute of play, Christman made it two on a corner.

William Barton was referee and J. N. Kelly and Charles Barker acted as linesmen.

# Support Farmers of Central B. C.

The farmers and gardeners of Central British Columbia are making an effort to supply the Prince Rupert market with vegetables, fruit, potatoes, poultry and eggs and other products of the district.

Prince Rupert people are asked to encourage this movement by asking for Central British Columbia products whenever practicable. Co-operation in this matter encourages merchants who buy from farmers and if the farmers are prosperous it will be an encouragement for others to take up land and thus add to the buying power of the whole northern and central part of the province.

Householders can help by keeping this in mind and asking merchants for Central B. C. products whenever possible.

## ADVANCE ON DEPRESSION

President Hoover Given Great Reception on Giving Address at Cleveland

### Demos Scored

Satisfied If Issue is Settled on Records Instead of Eloquence

CLEVELAND, Ohio, Oct. 17.—Reiterating his belief that in the war against depression "retreat" had been changed to "advance," President Herbert Hoover, delivering the second major address of his campaign for re-election here Saturday night, appealed for a renewal of mandate in order to carry on to completion the policies which, he declared, would bring complete recovery to the United States. Mr. Hoover made a vigorous defence of his administration and its achievements and declared that the Democratic party, although in control of Congress for two years, had entirely failed to propose anything of a beneficial nature during a period when constructive statesmanship had been most urgently needed.

The president reviewed at length his administration's program of economic relief which he claimed had saved the country from inward national ruin. He presented a 12-point program designed to remedy unemployment and forestall national chaos. Mr. Hoover expressed himself as being in favor of the holding up of wages to the highest possible level so that the buying power of the people might be maintained. Partial employment was preferable to plunging people into complete unemployment.

Mr. Hoover contradicted the assertion of Governor Franklin D. Roosevelt and other of the Democratic speakers that the world depression had originated in the United States and had been brought about by the economic policies of the administration. The depression had developed from causes over which no single nation had control, the president declared.

He was satisfied to leave the issue to the nation to decide on the basis of records rather than eloquence, the president stated in closing.

#### Enthusiastic Reception

Enthusiastic thousands crowded the auditorium in which the president spoke and he was given a rousing welcome. Other thousands were assembled in overflow meetings to which Mr. Hoover's address was transmitted by special radio arrangements.

Immediately after the meeting, President and Mrs. Hoover and their party returned to Washington by special train.

## DRAMA IS POWERFUL

Impressive Cast Enacts "Night Court" on Screen of Local Theatre

Phillips Holmes, Walter Huston, Anita Page, Lewis Stone and Jean Hersholt head an impressive cast in "Night Court" which is being presented as the feature offering on the screen of the Capitol Theatre here at the first of this week.

The picture offers a sensational story of political corruption which is declared to be based on actual fact. It focuses attention upon a night court magistrate who uses his office to further his activities in the underworld, being finally caught in the meshes of his own machinations.

Huston plays the part of the unscrupulous jurist who presents a respectable side to public but shows quite another to his nefarious associates. Holmes is seen as a taxi driver whose home is undermined by the activities of the crooked magistrate but who finally brings the dishonest judge before his own bar of justice. Miss Page enacts the role of the chauffeur's wife who is framed on a moral charge and sent to prison to seal her lips from judicial investigators.

Dramatic material of the plot leaves room for a wide variety of powerful episodes.

## ANNIVERSARY IS OBSERVED

Silver Wedding of Mr. and Mrs. C. H. Elkins Inspires Surprise Party By Friends

In honor of the twenty-fifth anniversary of the marriage of Mr. and Mrs. C. H. Elkins which fell yesterday, some forty of their friends descended upon their home at 1128 Sixth Avenue East in a delightful surprise party on Saturday evening.

Bridge playing was enjoyed and delicious refreshments brought by the uninvited guests were served.

The feature of the evening's proceedings was the presentation by James H. Thompson, on behalf of those assembled, of a beautiful gift of silverware. Mr. Thompson spoke suitably in making the presentation and Mr. Elkins replied fittingly.

## Whales Were Seen From the Highway

Yesterday afternoon about four o'clock four whales were seen by a number of Prince Rupert people from the highway about a mile and a half beyond the bridge. They were diving and blowing and seemed to be enjoying themselves.
