## Britain's Premier Makes An Appeal DRYDOCK AND SHIPYARD ARE BEING KEPT BUSY ON REPAIRS

### Lloyd George Appeals to All Nations of the World Behalf Peace and Genoa Gathering

LONDON, Jan. 21.—An appeal to the nations of the world to establish a real peace by which international confidence and world trade might be restored was made by David Lloyd George, Premier of Great Britain and president-elect of the National Liberal Council, before the National Liberal Conference here today.

The Premier praised the achievements of the Washington conference and said the task of the coming Genoa conference would be to end the constant wars and rumors of wars.

Much interest is taken here in the fact that Premier Lloyd George addressed the Liberal conference and was chosen president of the National Council, as it seems to indicate a split between himself and his colleagues in the coalition government. The speech of Mr. Chamberlain in Scotland, taking credit to himself for the Irish peace, seems to indicate that there is a break in the present government.

### ASKING DUTY CANADIAN FISH

Alaska Still Working for Advantage Over Port of Prince Rupert.

Following considerable discussion today, the Jumeau Commercial Association endorsed the proposal of the Ketchikan Commercial Club asking Congress for a duty on fish shipped from Canadian ports into Continental United States and for a requirement that American fish shipped from Alaska waters to Eastern markets must be bonded from an American port, says the Ketchikan Chronicle of recent date. The majority for the resolution was large, a record vote not being necessary.

Charles D. Garfield opened the discussion, explaining the present situation and the effect the legislation sought would have on it. Between 70 and 80 per cent of the fish landed in Prince Rupert, he asserted, was transported to American markets. Canadian fish traffic, he said, is controlled by orders in council from the Ottawa government. He said that he did not believe that the proposed legislation would eliminate Canadian competition, but might have the effect of making it necessary for Canadian buyers to establish agencies in Alaska towns.

### PREMIER KING IS ELECTED

Opponent in North York Retires From Contest to Avoid Election.

OTTAWA, Jan. 21.—J. A. Armstrong, Conservative, who was nominated to contest the by-election in North York against Premier King yesterday withdrew from the contest. The entire cabinet with the exception of Charles Stewart is now elected.

### FRUIT GROWERS FIGHT PESTS

Want Right to Shoot Grouse and Bear to Protect Orchards.

VICTORIA, Jan. 21.—Premier Oliver in addressing the association of fruit growers yesterday said the Provincial Government would give the growers no further assistance beyond that already voted. A request had been made to him by the association for further help in fighting the codlin moth pest. The sum of \$15,500 was voted to the fruit industry last session and the Premier said they could have no more unless they could show that the case demanded such urgency as to justify an appeal to the lieutenant Governor in Council for a special warrant.

The conference adopted a resolution demanding the right for orchardists to shoot grouse and other game pests including bear up to April 15 of each year. Figures quoted show an enormous damage done to fruit buds by grouse.

### FIERCE STORM DOES DAMAGE IN PORTUGAL

Fifty People Killed, Shipping Damaged, Houses Blown Down and Trees Uprooted

LISBON, Jan. 21.—More than 50 deaths and incalculable damage to shipping in addition to the unroofing of houses and the uprooting of trees resulted from a storm which swept Portugal this week. Many ships were driven aground.

### IRELAND STILL IS A PROBLEM

Irish Republican General Has to Declare Martial Law to Maintain Order.

DUBLIN, Jan. 21.—The new Irish Free State is not finding it an easy matter to govern Ireland. Already there are disturbances, and it is the duty of the new government to keep order.

Martial law was declared in the Kilmallock area by the brigade commander of the Irish Republican army. The action was taken because of hay burning and other disorders in the area stated.

### NO ADMITTANCE FOR GERMAN ENGINEERS INTO AUSTRALIA

LONDON, Jan. 21.—Victorian state ministers are dissatisfied at the refusal of the Australian federal government to permit the landing of six German engineering experts to supervise the erecting of coal briquetting machinery at Morwell. The machinery was stated to have recently been purchased in Germany.

### SCOTTISH RAILWAY EMPLOYEES' CASE IS AGAIN BEING HEARD

LONDON, Jan. 21.—The national wages board is now hearing the case for the railway workers in the appeal submitted by the Scottish railway companies for a revision of the wages and hours of employees.

### FIFTY ARRESTED

Three Meetings Dispersed in Prohibited Area, Calcutta.

Calcutta, Jan. 20.—Fifty persons were arrested by the police which dispersed three meetings held in the prohibited area here.

### CHAMBERLAIN TELLS SECRETS

Takes Credit for Irish Peace in Speech at Edinburgh Last Night.

EDINBURGH, Jan. 21.—Austen Chamberlain told a political meeting here last night that the Government was maturing plans to send 100,000 additional troops into Ireland at the time King George returned from Belfast. Mr. Chamberlain said he urged Lloyd George to make one more effort at peace before taking the final drastic step and his counsels were backed up by other members of the cabinet and by the King.

them more than any one else, he declared. "With Ketchikan so solidly behind the proposal, association, if for no other reason, should join in the movement," he asserted.

POLITICAL LEADER OF THE DOMINION

PREMIER WILLIAM LYON MACKENZIE KING Who was re-elected yesterday in North York through the withdrawal of his Conservative opponent, J. A. Armstrong.

### Warrant Out for Antony Novatney of Gas Boat Clara for Liquor Theft

KETCHIKAN, Jan. 21.—A warrant has been issued for the arrest of Antony Novatney, of the gasboat Clara, who is charged with the hold-up of the Canadian gasboat Vesta in Canadian waters on January 8 and the theft of 111 cases of liquor which were being handled by the Middle-West Wine Company and the Trans-Canada Transportation Company of Prince Rupert. While it was not given out before, it is now said that Captain Novatney's launch was recognized at the time.

From government officials it is learned also that the Clara was reported to have been in the vicinity of the hold-up at the time, and it was charged that the master was looking for just such an opportunity.

Information regarding the warrant was held up for some time, although the report of the robbery was made shortly after it occurred. The police are said to be hot on the trail of Novatney and his arrest is awaited momentarily.

### IRISH PARLIAMENT ON COLLEGE GREEN

Premises of the Bank of Ireland to Be Utilized for the New Legislature.

DUBLIN, Jan. 21.—The old Irish parliament building on College Green now occupied by the Bank of Ireland is destined to become the official home of the legislature of the new Irish Free State.

### SAVES CHILDREN BUT LOSES HER OWN LIFE

OTTAWA, Jan. 21.—In the act of saving her young children from fire in her home this morning, Mrs. Charles Karysee was overcome by smoke and suffocated.

### BOUT POSTPONED.

NEW YORK, Jan. 21.—Jack Britton, welterweight champion, and Dave Shade of California, have postponed their scheduled bout from January 31 to February 17 because of injuries received in training by Britton.

### SHOT FARMER.

BELFAST, Jan. 20.—Three armed men took a farmer named Kelly from his home near Newtownards and shot him in the spine. He is in a serious condition.

### One Hundred Men Employed at Local Shipyard on Repairing Prince Albert and other Work

One hundred men are at present being employed at the Canadian National Railway Prince Rupert Shipyard at Hays Cove. The work going on includes an extensive overhaul to the Grand Frank Pacific steamer Prince Albert, repairs to eight or ten fishing schooners, and the work of building the Francois Lake ferry boat has also commenced.

The building of the deckhouse and interior fittings of the ferry has started, the woodwork on the cradle being about completed. The vessel is being built in the ship shed.

### POPE BENEDICT REPORTED DEAD

Later Despatch Says Head of the Catholic Church is Sleeping.

LONDON, Jan. 21.—Pope Benedict died today. Word to that effect was received by Cardinal Bourne who said he had been notified by telegraph from Rome that he died at 3.35 this afternoon.

PARIS, Jan. 21.—A Berlin despatch to the Havas agency quotes the Wolfe Bureau as saying that Pope Benedict died at 3.35 this afternoon.

LONDON, Jan. 21.—A Berlin despatch by Reuters this afternoon says word was received there that Pope Benedict was dead.

An exchange telegraph despatch from Rome at 5 o'clock this afternoon states that owing to the fact that the Pope appeared to be sleeping the report was circulated momentarily that the Pope was dead but this was officially denied.

ROME, Jan. 20, p.m.—The Pope lost consciousness this evening and is now in a state of coma. All preparations were made for his death while he was conscious.

Giuseppe (James) Della Chiesa, Benedict XV, 260th Pope of the Roman Catholic Church, was born at Genoa, Italy, on November 21, 1854 so he was 67 years of age. His rise in the church was rapid and especially the latter stages of his career. He was ordained a priest on December 21, 1878, was consecrated Archbishop of Bologna on December 22, 1907, was created Cardinal on May 25, 1914, and on September 3 of the same year was elected Pope in succession to Pope Pius X.

The term of Pope Benedict XV, as head of the Roman Catholic Church including as it did practically the entire period of the Great War, was marked by several efforts on his part to secure peace and a cessation of hostilities. Overtures were made by and through him on several occasions but was a difficult task, the Pontiff being in the position of having his own people fighting in the huge struggle one against the other. Pope Benedict was of a quiet and retiring nature and it is known that the war and his several failures at peace-making caused him great grief and concern.

### STEAMER ASHORE

Schodie, Calling for Assistance off Dungeness, Is a Freighter.

DEAL, Jan. 21.—The United States Shipping Board steamer Schodie was driven ashore off Dungeness last night and is calling for assistance. She is a shipboard freighter.

J. H. Pillsbury, superintendent of the yard, reports that the list of men on the payroll fluctuates from time to time, but there are a few more working at present than there have been since the railway took over the establishment. He hopes for an increasing amount of repair work for the yard.

### Albert Repairs.

Speaking of repairs to the Prince Albert, Reginald Beaumont, superintendent of the service, stated this morning that the vessel was undergoing a survey for classification. This is described as Second No. 3 survey, and it is necessary every four years. Mr. Edwards, Lloyds' representative, was here last week in connection with this matter. He returned south on Thursday evening.

The work of repairs has all been laid out and what is to be done on the dock has already commenced. The job consists of making a general overhaul to keep the ship in first-class shape. Two plates are being renewed, others are being chipped, sealed and reinforced where necessary and the frames are being strengthened. Most of the work is inside and below, where tanks are being renovated. There is also a little work on the decks and the hull is being thoroughly repaired following the recent grounding. The ship should be out of the hands of the repairers in a fortnight's time. The matter of other repairs under the survey are now being gone into.

### DR. J. H. KING GOES TO OTTAWA

Definitely Accepts Position of Minister of Public Works for Dominion.

VICTORIA, Jan. 21.—Hon. J. H. King, Minister of Public Works in the Oliver cabinet, said today he had definitely decided to accept the Federal portfolio of public works and was leaving the middle of next week for Ottawa. He started today to clear up departmental business prior to handing over to his successor, who is yet to be appointed.

### OLD COUNTRY LIBERALISM

LONDON, Jan. 21.—The action of the Liberal convention here in forming a National Liberal Council on a program of peace re-trenchment reform followed a proposal made by Sir Gordon Hewart, an important member of the Lloyd George Government. Sir Gordon said in his address nobody was so foolish as to advocate the restoration of unlimited veto rights to the House of Lords.

DAILY EDITION  Saturday, Jan. 21, 1922

**Need of Care to Prevent Fires.**

There is great need of care in order to prevent fires. Several small blazes have taken place lately, doing some damage and endangering surrounding property. These fires could have been prevented. Every citizen should watch carefully to see that no papers are left lying around, that accumulations of boxes and other debris are cleared away. Stove pipes should be properly secured and provision made so that overheated stoves would not be likely to occur. We can not afford to have a big fire in Prince Rupert. So far the fire department has been able to give ample protection, but the time may come when the fire will get too good a start and when, carried by the wind, much of the business section of the city will be endangered. To guard against such an occurrence the utmost care should be taken. As a community we are all dependent on our neighbors for safety.

It is suggested that one of the fire alarms did not work last night, possibly through ignorance of how to use it. Business men and their employees should find out where is the nearest fire alarm box and what is necessary to be done to notify the fire department that their services are needed. An ounce of prevention is worth a pound of cure in this department of civic service. Possibly regular inspections of all premises in Section 1 would be an advantage.

**Political Situation Being Cleared Up.**

The election of Premier Mackenzie King by the withdrawal of his opponent clears the Dominion political situation and gives the Premier an opportunity to get down to work in preparation for the forthcoming session of Parliament. There is much to do and everyone will agree that nothing should be placed in the way of a settlement of outstanding questions. The next thing to consider will be the sending of the delegation from Prince Rupert to Ottawa to take up with the Government the matters which closely affect the Skeena electoral district.

**Prepare for Election in Great Britain.**

Preparations are being made for an election in Great Britain. On Thursday evening there was a big convention of Liberals at which it was decided to form a National Liberal Council. This council will have charge of the election campaign and will endeavor to unite all factions of the party. The election of Lloyd George as president of the council and Winston Churchill, vice-president, is an indication that the days of the coalition are numbered and that the Liberals will drop back to their former affiliation just as they did in this country.

**Understand France's Position.**

To understand the position of France in regard to her demands that Germany fulfill the treaty obligations to the letter, it is well to understand that France is one of the chief sufferers from the war. Not only were thousands of lives lost from the invasion of the country but also the homes of the people were destroyed, the farms made unproductive and her life as a nation threatened. Add to that the fact that when France was beaten by Germany years ago Germany exacted the very last dollar from her, even though German territory had not been violated. The French homes have to be rebuilt, the farms again brought under cultivation and the French industries restored. All this must be done with German money, hence the determination of France to allow of no evasions from her former enemy.

**Reports All Tend to Show Activity.**

All reports coming in tend to indicate that there will be activity here in the spring. Mills are preparing to operate, loggers will be going into the woods, miners will come north soon, salmon fishing promises better results this year, and everything points to production from the utilization of our natural resources. With the shipyard busy and the possibility of the shingle and planing mills being operated, a good season should result.

**The Secret of Good Health**

When Nature requires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well, headache, biliousness, constipation, a general sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

**COULD HARDLY MOVE IN HER BED**

Eight Boxes of "FRUIT-A-TIVES" Completely Relieved Her.

MADAM RICHER  
 Labelle, P.Q., April 18th, 1921

"It is my duty to tell you and publish to all what your remedy 'Fruit-a-tives' has done for me."

I suffered with Rheumatism for ten months; could hardly move in bed, and was miserable all the time. I tried several physicians and took many remedies, but they left me at the same place, in bed and suffering, the Rheumatism was so bad.

Finally started in taking "Fruit-a-tives" and continued the treatment regularly as I found myself getting better. After using eight boxes of "Fruit-a-tives" (which cost only \$4.) I am completely well without a trace of Rheumatism.

Madam J. RICHER.  
 50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

**The Man in the Moon SAYS:**

IT'S funny to hear  
 A girl's retort  
 When you say: "My dear  
 Your skirt's too short."

BUT funnier still  
 It is to see  
 A skirt trail down  
 Below the knee.

IN spite of the fact that men see a lot more of women than they ever did, they do not seem to understand them any better.

EVERY man is a printer, when it comes to saying good-bye at night to his best girl.

MAKING social calls after Christmas is always dangerous. It is wiser to wait until all the cigars wife gave her hubby for a Christmas present are smoked.

THE correct thing is to let sleeping dogs lie but a lying pup should die for his sins.

ALL the French ask from the Germans is that the law be administered.

VANCOUVER shinglemen have just discovered that the freight rates are too high. If they had come north they would have noticed the silence which follows the fearful devastation of an unwise freight rate policy.

POSSIBLY the Queen Charlottes may yet be placed on the map in such a way that the ordinary person may see them without a monocle.

THE Flu'll catch you if you don't watch out.

IF one dam at Skidegate set forty natives to work, how much work would an old fashioned logger get done if he were to turn loose his vocabulary for two minutes.

THE Skidegate Indians have reached the stage where they use ballots in their election. The next stage will be a recount and after that they will learn about election petitions.

WATCHING a dance all evening without taking part is like sitting down to a turkey dinner with your store teeth on the bureau upstairs.

**PICTURE FOR ALL TO SEE**

"Man, Woman, Marriage" is a Story That is Different From the Ordinary.

Everyone should see the picture "Man, Woman, Marriage" which was shown at the Westholme last night to a packed house and is to be repeated there tonight.

Costly, gorgeous and brilliant, "Man, Woman, Marriage," the drama eternal, depicts woman throughout the ages. In scope of achievement and richness of presentation it sets new standards. In theme of universal appeal it reveals the changing spheres she has occupied since the dawn of history. Its magnificent sweep crystallizes the story of woman from the cave period to today.

Its dominant note is faith. Faith on the part of woman that right must conquer might. That love will find a way to overcome the malignant forces which have robbed her of the rewards of her love, devotion and striving for the better things of life. It shows how in the crucible of time woman has worked out her own salvation. It traces the ascendancy of the sex through the opalescent haze of mythology down through the centuries to the present. It depicts courtship, marriage and the fiery furnace of inevitable misunderstandings which occur when wealth, power and alienation estrange the man from his life partner, woman.

Throughout this drama of the ages the same principals play the parts of lovers, husband and wife—"the man and the woman."

**Fitful Vision.**

Dorothy Phillips is the woman and James Kirkwood the man. The drama opens and closes in the present, but in between come the stone age, the Roman and the mediaeval, admitting of scenes in which thousands of players sweep across the vision. The transition of the lives of David, the man, and Victoria, the woman, from the present into the remote past is accomplished with that "art which conceals art." Thus the spectator witnesses the various reincarnations as if he were turning over life's pages. David, whether in the present facing life's ideals yet succumbing to temptation, or as Constantine, the pagan emperor

converted to right by the Christian slave, is one and the same, while Victoria, representing woman, steadily gains place and power through the years by virtue of the highest attributes of womanhood. A thousand colorful incidents devolve into this mosaic of the screen, the drama eternal—"Man, Woman, Marriage."

**BAD FIRE IN MUSIC STORE**

Premises of Mr. and Mrs. J. Gawthorne Gutted While They Were at Theatre.

The fourth fire of a rather serious nature to occur in the city within the last five days broke out last night about 7 o'clock in the Prince Rupert Music Store, owned by Mr. and Mrs. J. Gawthorne. The living quarters in the rear were badly burned and the store part in front suffered from water and smoke. The total damage is estimated at about \$2500 partially covered by \$1000 insurance.

The fire apparently started from the kitchen range and Mr. and Mrs. Gawthorne and family were at the theatre at the time. It had gained a good foothold by the time the fire department was called out. Fire Chief Dan McDonald noticed it from the Hall and started the brigade for the scene and in the meantime, a telephone alarm was rung in. A large crowd assembled and there was quite a blaze which alarmed the residents of Borden Street and other parts of the city who could see the glare in the neighborhood of their places of business.

After the blaze had been extinguished the music and instruments were removed, the most of them being placed in the Empire office. There was little damage to the stock what there was being occasioned by smoke and water.

The business and stock belongs to Mr. and Mrs. Gawthorne and the building to the Paul Kauffmann estate for which the David H. Hays Co. are agents.

**BIRTH**

A daughter was born to Mr. and Mrs. S. G. Moore at Wintipeg on January 12. Mrs. Moore is a daughter of J. Carroll of Prince Rupert.

## FIRE ALARM SYSTEM EASY

Directions Not Followed Last Night When Attempt Failed.

Several minutes before the fire department reached the blaze at the Prince Rupert Music Store last evening, an unsuccessful attempt was made by a passer-by to ring in an alarm from the box at the corner of Third Avenue and Third Street. Apparently this person did not know the simple process of operating the signal with which it is the duty of every citizen, man, woman or child, to become familiar. The operation is a simple one and is clearly explained in the following directions which appear on the back cover of all the telephone books:

1. Break glass.
  2. Turn brass key inside glass to right thus opening door.
  3. Pull white knob inside box and let go.
  4. Remain at box until arrival of fire brigade.
- The glass may be readily broken with a small stone, pocket knife or any other object or with a shove of the elbow. The brass key only requires an eighth turn and the door will spring open. The white knob is then simply pulled down from the top to the bottom of the slot and the alarm is then completed. The person establishing the alarm should be on hand on the arrival of the department so that any necessary directions may be given.

Several persons have apparently been under the impression that the turning of the brass key is all that is necessary. This, however, is not the case, for the white knob must also be pulled down.

## DANCE GIVEN LAST NIGHT BY LIONEL HOLTBY FINE AFFAIR

Ninety-five Couples Attended and Voted Function One of Season's Best Successes.

The dance given last night in St. Andrew's Hall by A. Lionel Holtby for his many friends in the city was decidedly one of the brightest social functions of the season. There about 95 couples present, all of whom enjoyed the affair to the fullest degree. The hall was attractively decorated with many large flags and pennants hung from the ceiling, and the lovely gowns of the ladies still further added to the brilliance of the scene. Music was provided by the Elks' Orchestra, comprising Charles Balagno, William Balagno, Will Browne, R. Greenfield and A. A. Easson, and Miss Blanche Curtin and C. Dickenson played for the opening dances. At midnight appetizing refreshments were served in the hall.

At the conclusion of the dance, about 2:30 o'clock, the large gathering surrounded Mr. Holtby and his mother, Mrs. A. R. Holtby, and sang "For They Are Jolly Good Fellows," and then gave three hearty cheers for the host and hostess. In replying Mr. Holtby simply thanked his guests for their attendance and said that the credit for any success that had been achieved was due to his mother. The large turnout and the spirit shown by all testified to the popularity and esteem which Mrs. Holtby and her son enjoy among a wide circle of friends.

Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlook the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

This letter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when cause arises for its use.

Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good results. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

BLUE FOXES RAISED ON THIS COAST

Duke Harris Has Plan for Going into Fur Business on an Island Nearby.

While the interior of the continent and the colder sections are well suited to the raising of silver foxes for their pelts, the coast islands on the Pacific will in future specialize in blue foxes, the price of which is always high. The industry is said to be very profitable if conducted properly.

Duke Harris of Hazelton has recently interested himself in the industry and is proposing to go into it if a suitable location can be secured and a partner with the necessary support be available. He has visited some of the fox farms on the Alaskan coast and made a study of the business and says that it is very simple and a sure money-maker.

In connection with this the United States Government report on fox farming on the Pribilof Islands is interesting. It says:

Fox Farm Valuable.

"Another valuable natural resource of the Pribilof Islands is a herd of blue foxes, which are practically dependent for food on the carcasses of seals killed for their pelts. Under the careful handling the herd is now receiving, the number of animals has steadily increased and the yield of skins has become larger than ever before under government auspices. The fox pelts taken during the winter of 1919-1920, numbering 901 blues and 37 whites, were sold at public auction in St. Louis in February, 1921, for \$80,699. During the winter of 1920-1921, after an ample breeding reserve had been released, the department's agents took 1425 blue foxes and 14 white foxes, whose skins will be sold in due course."

OVERHEAD CARS ARE EXTREMELY ANCIENT

NEW YORK, Jan. 20.—(By Canadian Press)—New Yorkers who travel to and from their work on the elevated railway, or the 'L' as it is familiarly called, have a new form of amusement. It is trying to guess the age of the cars they are riding in. The recent wreck on the Ninth Avenue 'L' brought to light the fact that some of the cars now in use were built in 1879. The Transit Commission is considering the problem of the replacement of this antique equipment with modern steel cars.

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

There is a deserted look about Gow Bay and the waterfront generally, the majority of the boats of the Mosquito Fleet having cleared port during the week for various fields of production.

The herring seineing has lured quite a number of the smaller craft to try their luck, while a few boats have gone out on trapping expeditions.

The larger boats are hitting the "high spots" on the halibut fishing grounds.

Repair work on boats still in port is making great headway, and the owners are speeding up their efforts to enable them to be out and doing at the earliest possible moment.

A few enterprising owners of boats have met with decided success in the shrimp fishing business in local waters, and doubtless in future this will be a much invaded field of endeavor during the slack winter periods. There is a good local market for this class of fish, and from reports to hand it is proving a remunerative venture.

The trapping branch of the Fleet has produced some splendid specimens of Mink, Marten and Fisher skins, and the vicinity of Gow Bay has become the rendezvous of various buyers. The arrival of the trapping boats and the consequent unloading of skins, with the fur buyers clustered around exhibiting a keen interest to buy, the floats around Gow Bay often have the appearance of a Hudson Bay trading post in the far north.

Captain F. W. Wallace, editor of "The Canadian Fisherman," and National Secretary of the Canadian Fisheries Association, resigned his position to take over the editorial duties of "The Fishing Gazette," New York.

Captain Wallace was one of the hardest workers on behalf of Prince Rupert in connection with the obtaining of additional fish refrigerator cars during the fish car shortage in 1921. He was the author of The Shack Locker, Blue Water and The Viking Blood.

Charles H. Coulton, who was director of the marketing, publicity and transportation branch of the Department of Marine and Fisheries, Ottawa, has succeeded Captain Wallace pro tem. Mr. Coulton, along with the delegation to the Canadian Fisheries Association Convention held in Vancouver in June, 1920, visited here on his way south and is familiar with the local situation.

Captain Hance of the Iris, and his partner Jimmy, returned to port on Wednesday night, after an absence of over a month, from a trapping expedition and landed a cargo of blue skins. Among other skins there were 50 first class mink.

The W. & E., Captain C. Cook, left port on Thursday night for the deep sea fishing grounds.

The Scrub, Captain Dolph Prince, has completed her overhaul by the Lear Brothers, and left for the halibut fisheries Thursday night. The pilot house has been completely re-built, and the cabin refurnished in mahogany effect. New crockery and culinary utensils have been added to the equipment. It is rumored that in future the Scrub will be used by the Admiral as the reception ship of the Mosquito Fleet.

The Atli, Captain Brandy Newell, left port on Thursday night on his first halibut fishing trip of the season.

The Wigwag, Captain Claude Ketchum, is undergoing her annual overhaul in Gow Bay. The engine is receiving very careful attention at the hands of first mate Jimmy Thomas, and the repair work will be completed by Monday next.

The Starston, Captain Harry Watson, has returned to port after her "pirate chasing" cruise. Unfortunately the pirates were not sighted and the machine gun was never tried out as a consequence.

The Ruby Mae, owned by J. and C. Currie, went out on her maiden cruise on Thursday afternoon. The engine trials proved entirely satisfactory.

Weather permitting the Admiral of the Fleet will stage a State Ice Carnival on the Salt Lakes rink tonight. The Admiral will take the society of the Fleet across the bay aboard the flagship, and will wear on this occasion, for the first time, his new Admiral's lid, which arrived from Timothy Eaton's Mail Order department during the week. The hat is a most gorgeous affair, and is trimmed with silver paper and seagull's feathers, with elastic under the chin to prevent its blowing off into

the bay. The sword of state has been resharpened and this will be worn by the Admiral also. The Gow Bay orchestra will be in attendance if the drummer can get a new skin fixed on the drum in time. Flossie Flirt was trying out a new barefooted dance on the drum, during the drummer's absence, and her toenails ripped the skin off.

Jack Toner will take the "windjammer" across and will play suitable musical airs during the interval.

The feature of the occasion will be an ice skating and ice-breaking exhibition by Flossie by the light of a bonfire. Of course the bonfire will not be built on the ice.

The refreshments will be served by Mrs. Doolittle Drinkwater, and the menu will comprise clam nectar, hot dog, sausage dissolved in water, crabs, and cold spinach.

Prizes will be given for the best fancy skaters as follows: First prize, ladies, two hot dog sandwiches; first prize, gentlemen, skunk fur lined necktie. Names of competitors will be received at the offices of the Admiral of the Fleet up to 6 p.m. tonight.

The Mug Up has undergone a gigantic transformation during the week, and the main salon has been completely remodelled. A brand new looking glass of giant proportions graces the southern wall, and has replaced the large oil painting which formerly hung in that spot. A number of the latest sport, and pictures of worldly interest, adorn the northern wall, and have so been arranged together that on one walking smartly along the salon and keeping an eye on the picture a moving picture exhibition is clearly seen of either the Carpentier-Dempsey scrap, or September Morn being handed a purse of gold. It just depends on which row of pictures you keep your eye on. To date there have been so many eyes on the September Morn pictures that the lady blushes every time you look at her.

Another improvement is the moving carpet, in fact it moves so often that nails have failed to keep it in position for ten minutes at a time.

A very appropriate notice hangs over the reception doorway adorned in a beautiful gilt frame which reads, "Don't spit on the ceiling while soup is on the table." Taking into account the range of costly improvements installed, this well known hotel should become a very popular meeting place for all classes of society. Jack says if someone will build another four stories to the Mug Up, he'll stand the expense of putting in an elevator.

The Gups, Captain F. Neilson,

Since the fifties men have looked for good Tobacco to - MACDONALD'S - and they found it! The Tobacco with a heart

is undergoing extensive repairs and a general overhaul in Gow Bay. The engine has been thoroughly gone over, and the Cap. expects to have everything in shape to enable him to hit the halibut fishing grounds early in the week.

The Murineaz, Captain Jud Thurber, is on the slips at the N. M. McLean shipyard to undergo a thorough hull overhaul. She is to be repainted and have considerable caulking work done.

Captain Myhill-Jones, of the launch Oh Baby, has been particularly busy during the week carrying happy skating parties over to the Salt Lakes rink.

Captain Bursley has rented the St. Eloi to Messrs. Wilson & Findlayson who left port on Thursday on a gill netting cruise for the Canadian Fish & Gold Storage Company.

The Hanaco, Captain C. Malone, is undergoing a general overhaul at the N. M. McLean yards. The hull is having minute attention, and will be repainted and thoroughly caulked. The work will be completed in time for her to leave for the halibut grounds on Monday.

A scow load of boxes arrived in port on Wednesday from the Georgetown mill for the Canadian Fish and Gold Storage Co.

George McAfee of the Big Bay Lumber Company returned to Georgetown on Wednesday.

The secret service of the Fleet have Captain Newcome of the Dixie Rupert under observation. Early on Thursday morning the Dixie Rupert sneaked out of port on a secret mission, and her destination is a mystery. Information has been gleaned that the Cap. recently purchased a fur trading license and it is thought he has his eye on some very rare specimens at a distant port.

Captain Dinty Moore has been located by the S.S. of the Fleet. The delinquent was discovered right at Gow Bay with a pack of cards in his possession, evidently going to start a poker game. However the Admiral of the Fleet has confiscated the cards and is using them himself. Dinty is being watched pending further instructions from the south.

The 'Cushag, Captain T. Scott, left port Friday morning for the deep sea fishing grounds.

The result of the Federal election re-count was a disappointment to certain members of the Fleet who had backed the unsuccessful candidate. On the other hand, those who were on the winning side, have several bets to collect and are in jubilant humor.

The schooner Sunner, recently sold to Captain Soriano by the Canadian Fish and Gold Storage Company, left for the deep sea fishing grounds on Thursday.

Bill Shrubbsall, of smoked black cod fame, in turning his spare attentions to "turkey" farming, and if his scheme works out he'll sure be doing some business next Christmas if no one gets

wise. The idea is to cultivate a breed of waterfront turkeys recruited from seagull stock, and with this end in view he is often found busy feeding fish to his pets to prime them up. The gulls are evidently a very trusting bird for when Bill comes on the scene they start to chirp and chatter like a lot of parrots in the expectation of a feed, little anticipating what ill intentions are lurking in the mind of their "meal ticket."

The Grier Starrat, Captain Pete Wingham, of the Canadian Fish and Gold Storage Company's fleet, returned to port during the week and left yesterday for northern points with a cargo of fresh herring bait.

### STEAMER BOOKED UP FOR MIDDLE OF JUNE

New York Rotary Club Reserves All First-class Space on G. T. P. Vessel.

As an example of the new interest being taken in the north it may be mentioned that all the first-class accommodation on the G. T. P. steamer leaving Seattle for Prince Rupert on June 18 next has been reserved for the members of the New York Rotary Club. The members of that club will be returning from the international convention at Los Angeles, Cal.

### FORMER CHIEF JUSTICE OF SASKATCHEWAN DIES

VICTORIA, Jan. 21.—Hon. E. L. Wathorne, former chief justice of Saskatchewan and one time leader of the Conservative opposition in the Legislature of that province during the time of Premier Blair's administration, died here yesterday at the age of 81 years. He headed the commission in 1914 which investigated Indian affairs in British Columbia.

### Ten Years Ago in Prince Rupert

January 21, 1912. Chief Dudward and his people of Port Simpson are deeply interested at present in the projected railway between Port Simpson and Prince Rupert, the surveys for which were completed last summer. In the terms of the charter, construction must start by April 15 of this year.

The Portland Canal Mine and the interests of Sir Donald Mann & Stewart are to be merged according to an announcement made by General Manager W. J. Elmdorf, of the Portland Canal Mining Co. There is to be an early resumption of work on the properties.

E. L. Morgan, representing a Winnipeg syndicate, has completed arrangements for the sale to his interests of the copper-zinc claims at Lockport, Morrisby Island, of D. R. Bell and Joe Davis. The sum of \$125,000 is involved in the deal.

### COULDN'T DO HOUSEWORK HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung. Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc.? Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flushes, faint and dizzy spells, smothering and sinking spells and can't sleep at night?

MILBURN'S HEART AND NERVE PILLS as the best remedy to tone up the system and strengthen the weakened organs. Mrs. Daniel Robinson, Loganville, N. S., writes: "As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me. My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is." Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### PRINCE GEORGE

Miss Elizabeth Gaul was married to John McKay last week at the home of Mrs. Roy Winkler, the bride's sister, Rev. William Graham officiating. Both bride and groom are well known here.

Interest in hockey is becoming greater every day and there is talk of a series between Prince George and Smithers. Local teams provide interesting games at the rink every Sunday both ladies and men playing.

Harry Le Duke, the Endako pioneer, visited Prince George for the first time since the city was started last week.

Mayor J. H. Johnson has appointed the following standing committees for the year: Finance—Ald. Alward, Ald. Patterson and Ald. Bunton; Fire and Water—Ald. Patterson, Ald. Taylor and Ald. McLean; Public Works—Ald. Taylor, Ald. McKay and Ald. McLean; Light—Ald. Bunton, Ald. McLean and Ald. Taylor; Health—Ald. McKay, Ald. Bunton and Ald. Patterson; Better Housing—Ald. Alward, Ald. Taylor and Ald. Bunton; Hospital—Ald. Alward.

Jack Wilson, son of P. E. Wilson, the city solicitor, is continuing his brilliant work at the University of B. C. and at the Christmas examinations headed the province in the second intermediate class.

Secretary Fred Taylor, of the Fair Association, has issued a financial statement showing that the organization has a cash balance on hand of \$665.56 after a splendid year in which expenditures were not stinted.

Pete Cameron, an old timer, who has been absent from this section since the war started, is here renewing old acquaintances. He plans going to South Africa with the railroad expedition of General J. W. Stewart.

Al Young last Sunday brought down a golden eagle which spanned seven feet from wing tip to wing tip.

Rev. Father Cocola is here visiting with Rev. Father Leray, the newly appointed parish priest.

### SMITHERS

Jimmie Michel, the well known Indian, is in the Smithers Hospital as a result of having been struck on the head by a falling tree, at Lake Kathlyn. He is in a precarious condition.

Vanderhoof and Smithers played hockey here last week, the first game being won by Smithers, 6 to 2 and the second game by Vanderhoof, 3 to 2.

Mrs. C. W. Applegren, whose husband was killed in a railway wreck at Forestdale last May, has been awarded \$16,500 damages.

Mrs. John Short, of Burns Lake, passed away at the Smithers Hospital last Monday night.

### PRINCESS LOUISE ON VANCOUVER RUN

VICTORIA, Jan. 21.—The steamer Princess Louise, recently constructed by the Wallace Shipbuilding Company at North Vancouver, will enter the British Columbia coast service on the night run between Vancouver and Victoria commencing on Tuesday next, pending the opening of the Alaskan season when she will take that run.

### ROUTINE BUSINESS HOSPITAL MEETING

President Stewart Welcomed Mrs. Darton and Ald. McLeod, New Members of Board.

There was little more than routine at the monthly meeting of the Hospital Board held last night in the city council chamber. President D. G. Stewart was in the chair and there were present Mrs. S. Darton, the new delegate from the Ladies' Auxiliary, Ald. R. A. McLeod, the new member from the city council, Ex-Ald. M. J. McNeill, D. C. McRae and Major George E. Gibson, secretary.

President Stewart welcomed Mrs. Darton and Ald. McLeod, stating that he hoped each would find the work congenial. All the members of the board took a keen interest in the work and he thought they would also. The new members replied suitably.

Ex-Ald. M. J. McNeill reported for the ambulance committee stating that the matter had been referred to the new city council which was now dealing with it.

Mr. Stewart announced that the annual meeting would be held next Thursday night and he hoped there would be a good attendance of members of the association. Mrs. Darton inquired if the delegates of the Ladies' Auxiliary were entitled to vote at this meeting and was informed by Mr. Stewart that they were, provided the fee of \$5 which entitled them to membership was paid. This matter will be taken up by the Auxiliary next week before the meeting.
