PRICE FIVE CENTS

Are Striving to Harmonize Demands NEW DEVELOPMENT IN CHECKERED CAREER OF ALICE ARM MINE

Russian Document Will Likely be Ready Today For Special Committee

GENOA, April 29.—In line with Lloyd George's declaration that the Allied proposals to the Russians would be considered as a whole, a special drafting committee is today endeavoring to frame a document which would harmonize the differences in demands submitted by the British and French delegations. The preamble was completed last night and the remainder of the draft it is expected will be ready for submission to the full sub-committee on Russian affairs which is scheduled to meet today.

Barthou to Explain.

PARIS, April 29.—A meeting of the entire French cabinet is called for Sunday night, when Vice-Premier Barthou, head of the French delegation to Genoa, will outline the conference situation.

BANDITS STEAL PAPER PAYROLL

Sum of \$4,400 Is Taken From From Cashier of Seattle Star.

SEATTLE, April 29.—Two masked men at 10:30 this morning held up the office manager and the cashier of the Seattle Star as they descended from an automobile with the newspaper's weekly payroll. The bandits secured the entire amount of \$4,400 and escaped in a waiting auto.

PRINCESS LOUISE IS COMING TWO WEEKS EARLIER

In anticipation of an unusually heavy travel into the north this summer, the Canadian Pacific Railway has arranged to send the new steamer Princess Louise to Skagway about two weeks earlier than scheduled. The ship will arrive here on the route for which she was built on June 2 instead of June 12. The steamer will also make the trip of June 12.

On this trip a full passenger list is assured. A large number of steamboat and mining men have been booked, and it is expected that the rush into the Far North will be at its peak. The Louise and Alice will maintain the Skagway service during the summer months, replacing the Princess Mary, which has been on the northern run all winter.

REDUCTION IN SALARY FOR NEW SOUTH WALES LEGISLATORS CARRIES

LONDON, April 29.—According to despatches from Sydney, the legislature of New South Wales yesterday gave a second reading to the bill to reduce the salaries of members of the assembly and ministers of the government by £25 annually. The reading carried 46 to 42, the Labor members vigorously opposing the measure.

GOLDEN YOUTHS ARE ARRESTED ON TRAIN

Stole Clothing and Guns—Now in Custody of Provincial Police.

GOLDEN, April 29.—Two 18-year-old boys, whose names are withheld, were arrested on a freight train near here yesterday with clothing and five revolvers which, between them, they had stolen at Golden. They have been brought here by the provincial police.

NO CHANGE IN CLOCKS

Decided to Postpone Daylight Saving Until Further Discussed by Council.

Daylight saving will not come into effect in the city on Monday, May 1, as decided upon by the city council at a meeting a fortnight ago.

The finance committee at its meeting this morning went into the matter and decided to have it again discussed by the council next Monday evening.

Staying in Palace.

During his stay here the royal visitor will occupy the Onmyo Goshu palace, situated in an extensive park.

This building is open to the Prince for inspection, as well as many famous temples containing relics of pottery and cloisonne which antedate the old buildings by many centuries.

Complications have arisen over the adoption of the measure and the transportation companies have finally decided to stay with standard time. In the event of daylight saving coming into effect it would mean that there would be two separate times in the city.

BIG GUNS ARE HEARD PEKIN

Chinese Generals Are Fighting Along Line From Machang to Pekin.

PEKIN, April 29.—The fighting along the South Pekin-Tien Tsin railway, which began at dawn, is still progressing, and artillery in action can be distinctly heard here. The engagement is between the forces of General Chang Tso Lin, military governor of Manchuria, and General Wu Pei Fu, military leader of Central China. The engagement is reported to extend along a line from Machang, 20 miles south of Tien Tsin, to a point south of Pekin.

PRINCE TAKING REST IN JAPAN

After Brilliance of Tokio Four or Five Days Being Spent Quietly at Kyoto.

KYOTO, April 29.—Free from the maze of brilliant ceremonies which have marked his visit to Tokio and other large cities of the north, the Prince of Wales will spend five or six days resting before resuming his journey to the southern extremity of the empire. Word has gone out that aside from brief welcoming ceremonies, the Prince is to be treated as an ordinary tourist.

This picturesque city, for many centuries ancient capital of the nation, still retains much of the air of sanctity which was everywhere apparent when royal families of the dim ages made it the scene of court life.

Beautiful Place.

Even had it no associations with the past, Kyoto would still be attractive for the beauty of its location, situated as it is at the base of an amphitheatre of precipitous mountains covered with great forests of pine, maple and flowering shrubs.

Several of the ancient imperial palaces will be open to the Prince for inspection, as well as many famous temples containing relics of pottery and cloisonne which antedate the old buildings by many centuries.

Staying in Palace.

During his stay here the royal visitor will occupy the Onmyo Goshu palace, situated in an extensive park.

This building is open to the Prince for inspection, as well as many famous temples containing relics of pottery and cloisonne which antedate the old buildings by many centuries.

FOR DEVELOPMENT NORTH AUSTRALIA

Senator in London Makes Suggestion That Coolies Be Imported at First.

LONDON, April 29.—Senator Fairburn of Australia advocates the development of the Northern Australian territory by a chartered company having the right to import coolie labor under government supervision. At the end of the contract the coolies could be returned to their homes.

FARRELL CASE

Came Up This Morning and Adjudged This Afternoon.

The case against Ernest Farrell of Vancouver, who was arrested aboard the gas boat C-5 at Swanson Bay by the Provincial police on April 13 for being unlawfully in possession of liquor, came up this morning before Magistrate McMullin and the case was adjourned until 2:30 this afternoon. Milton Gonzales, Williams & Mansur appeared on behalf of the mortgagees of the boat, and L. W. Patmore for the crown.

FISH ARRIVALS.

Late yesterday afternoon the schooner Polaris sold 28,000 lbs. of halibut to the Canadian Fish and Cold Storage at 8.5c and 4c.

There were two arrivals this morning the Tordenskjold and the E. Neilson. The latter had 15,000 pounds. Neither were sold at noon today.

PRINCESS BIBESCO LEAVES FOR HOME.

Princess Bibesco, daughter of Margot Asquith, whom she is accompanying back to England, and her husband, the Rumanian Minister to Washington photographed upon the Mauretania when that vessel sailed for the Old World. The Prince did not accompany his wife.

Wingfield, Creditor of Dolly Varden Mine, Has Started on Foreclosure

VANCOUVER, April 29.—Foreclosure proceedings against the Dolly Varden silver mine, the Wolf claims and the Dolly Varden railway at Alice Arm have been commenced in the Supreme Court here by George Wingfield of the Consolidated Gold Company of Grizzly Creek, Colorado, who several years ago lent \$200,000 to the original Dolly Varden Mining Co. Paul G. Ghene, receiver for the creditors, is added as a party to the suit brought against the creditors of the Taylor Engineering Co., which in 1920 came into possession of the mine, but who latterly, through financial difficulties, have been unable to proceed with its development.

Wingfield, who is protected by a floating charge on all the Dolly Varden assets which he substituted for an original mortgage, has decided to foreclose on his security.

BELL-IRVING IS AT OTTAWA

Urge Embargo on Fresh Caught Fish—Canneries Can Not Do Without Japs.

OTTAWA, April 29.—The suggested embargo on export fresh caught fish from British Columbia was strongly advocated by H. Bell-Irving, of the British Columbia Cannery Association, before the committee on marine and fisheries yesterday.

Mr. Bell-Irving admitted that the American buying competition brought a better price for Canadian fishermen but he urged that it was to the Canadian advantage to have the work done in Canada.

An attempt to operate the cannery without Japanese would cause a domestic upheaval, Mr. Bell-Irving declared. No cannery, however, object to the policy of favoring white fishermen.

All dumb-bells are not in gymsnasiums.

MEIGHEN AND DUFF CLASH

Latter Says Conservative Leader "Meighen by Name and Mean by Nature."

OTTAWA, April 29.—In the course of the department of justice estimates discussion there was a wordy duel in the House of Commons yesterday between William Duff, member for Lunenburg, and Hon. Arthur Meighen, leader of the opposition. The incident closed when Mr. Duff objected to a remark made by the Conservative leader and described him as "Meighen by name and 'mean' by nature." Mr. Meighen replied by informing the chairman of the committee that he wished to preserve the level course of the debate by not replying.

Good progress was made on the estimates before the House adjourned at 6 o'clock.

SIXTY-THREE KILLED BELFAST SINCE FEB. 1

BELFAST, April 29.—Shooting continues in Belfast and last night one man was wounded. Irregular troops occupied the customs house, new docks and a bonded warehouse at Nuns Island and also other public buildings in County Galway.

The paymaster of the Great Western Railway was held up near Dublin and robbed of about \$4,250.

Since February 1 the casualties in Belfast amount to 63 dead. There were also many other murders attempted. The fire loss has been \$400,000.

Irregulars Take Liquor.

Irregular Republican troops today seized a bonded store in Kilkenny and removed the whole stock of whiskey to the Kilkenny jail. Free State officers went to the jail and issued an ultimatum that unless the property was returned by 5 o'clock this evening the Free State troops would move to the prison and take it by force.

WIRELESS REPORT

Georgetown Illustrates Local Handicap.

The fact that the Georgetown mill is compelled to ship its clear spruce for the overseas market direct to Vancouver to be transferred there to Canadian Government Merchant Marine steamers is illustrative of a condition in regard to this port which should not be allowed to exist. There are three main reasons why Georgetown and other mills in the district can not handle their lumber through Prince Rupert: First, freight rates are so high that it can not be shipped across Canada by rail; second, there is no lumber assembly dock here, and, thirdly, Canadian Government Merchant Marine steamers do not make Prince Rupert a port of call. The city is looking for a remedy for these conditions and it is very likely that it will come before long. Of one thing we are assured, that is that Canadian Government Merchant Marine steamers will be calling here before long to undergo repairs in the local shipyard. At the same time they can load cargo here if it offers. The remedying of the freight rates situation is now being dealt with at Ottawa. As far as the lumber assembly wharf is concerned we have not yet been given any definite assurance. With all the Canadian Pacific ports clamoring for harbor improvements and enlarged facilities, it may be a little early as yet to expect much in this regard. However, after the visit of the ministers here in the summer, some action will likely be decided upon and Prince Rupert is pretty certain of getting her share of what is going.

Another Development In Dolly Varden Case.

The despatch from Vancouver published today telling that George Wingfield, the Colorado creditor of the Dolly Varden mine and railway, is taking foreclosure proceedings on the mortgage which he holds on the property may mean good news for Alice Arm mining district. Certainly the situation can not be any worse than it is today with an eighteen-mile railway line, on which a whole mining district is dependent, lying idle. As far as can be ascertained financial troubles are holding up the Taylor Mining Co. Ltd. from going on with development work on the property. The outlook under the present management does not look bright, and it is probably in view of this that Mr. Wingfield has decided to take immediate action. Whether he means to realize on his credit by seizing and disposing of the equipment of the railway and mine or whether he wishes to gain control to proceed with development work and get his money out that way is not indicated. If the Dolly Varden is really worthy of further development he would likely follow the latter course, while if that is not the case there would be no danger of his doing so. At any rate, if he goes through with his intentions the Dolly Varden affair may be cleared up once and for all. While some mining authorities are skeptical as to the Dolly Varden and some of them have gone so far as to express that skepticism, Alice Arm people are still confident that the Dolly Varden is capable of great production and liken its history to that of the Hidden Creek and Premier mines, both of which lay idle for periods of years before their ultimate potentialities were developed and brought to light by operation.

Interesting News For Rum Runners.

Alaska is to change its scheme of dealing with illicit importers of liquor if the recommendation of the grand jury at Juneau yesterday is acted upon by the authorities. This may be of interest to local people, for it is generally understood that "rum runners" are plying their trade in Alaska, working out of Prince Rupert and Vancouver. While present laws make this permissible as far as Canada is concerned, it is not legal in Alaska, and the importers are merely "bootleggers" as far as the northern territory is concerned.

The Secret of Good Health

Assist Nature back to normal action
Take

When Nature requires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well, headache, biliousness, constipation, a general sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES"
And Has Been Well Ever Since

MADAM SLOAT

PERTH JUNCTION, N.B., Jan. 22nd, 1920

"For many years, I was a great sufferer from Indigestion, Constipation and Rheumatism. My Stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple. I was treated by two different doctors but their medicine did me no good.

Then I tried "Fruit-a-tives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly.

Mrs. CLARA SLOAT,
50c a box, 6 for \$2.50, trial size 25c.

The Man in the Moon SAYS:

WHICH would you sooner do or go fishing?

BLESSED is he that expects nothing—for he shall get it.

IN the spring a young maid's fancy lightly turns to thoughts of ice cream sundaes.

NOW that English settlers have actually arrived at the Q.C. Islands we look for a golf course and a cricket pitch being mapped out in the vicinity of Masseti.

THE moth is an easy animal to feed. It lives on holes.

A FIGHT for a Home" would be a good title for a movie story staged in Prince Rupert.

IF you broke one of the ten commandments what would happen? There would be nine left.

BUSINESS must be looking up when it's flat on its back.

DING, dong, bell,
I don't feel very well,
Think I know the reason,
Spring cleaning is in season.

RESULTS OF RECENT FOREST EXAMINATIONS

Several Men in Prince Rupert District Qualified in Various Classes.

VICTORIA, April 29.—The Civil Service Department has announced the results of the recent forestry department examinations held at various points in the province.

The list of successful candidates includes:

Grade A—H. W. Sharpe and T. Williams, Prince Rupert; R. B. Eden, Williams Lake.

Grade B—A. E. Calvert, Prince Rupert; A. Hunter and G. A. Forches, Prince George.

Grade C—H. R. Miller, I. Martin and J. B. Scott, Prince Rupert.

E. S. Antle, of Ocean Falls, qualified in the assistant scalers' examination.

Skating on thin ice may be nice but it demands a price.

FRED STORK ON DAYLIGHT SAVING

Says Would Be Wrong to Children—Also Confusing.

In speaking to the motion in the House of Commons to prohibit the adoption of daylight saving, Fred Stork, the local member, according to Hansard, said:

"Mr. Speaker, I am going to support the amendment because my observation has shown me that all attempts to interfere with the workings of Father Time have been failures. The only man who made a success of altering time was Joshua, when he made the sun stand still. We have had daylight saving in operation in the past in the province of British Columbia, and I think I can speak for the people who live in that western province when I say that they have not found it to be a success. In a province where we have daylight enough to read a newspaper by at 11 o'clock at night, I think ample time is given for labor, for rest and for recreation, and daylight saving simply makes confusion. Where we have different times, where the railroad operates on one time and the factory and foundry on another, that does not make for municipal progress. I have particularly in view the cause and welfare of our children. Children going to school are, under daylight saving, compelled to rise an hour earlier in the morning; they do not go to bed at night at the accustomed time, and as has been pointed out before, the mothers taking care of the children are penalized to that extent."

Much Confusion.

"I remember in British Columbia some years ago a liquor prosecution was on, and the whole trial hinged on the question of time. A charge was laid that a violation of the act took place at a certain specified hour. After a lengthy and expensive trial, the case was dismissed on the ground that standard time was set at Victoria and in the eastern part of the province of British Columbia, and that this infringement had not taken place within the specified time. We have fire insurance policies issued in this country, and if any one who has a fire insurance policy will read it he will find that it reads that 'this policy is for one year from a certain date to a certain date and expires at 12 o'clock noon.'

HAZELTON LIBERALS HAD ORGANIZATION

Enthusiasm Great and Many Expressions of Confidence in Governments.

At a meeting that was characterized by enthusiasm and many expressions of confidence in the governments of Victoria and Ottawa, the Hazelton District Liberal Association was reorganized last Saturday, many well known business men and private citizens being named on the committees as follows:

Honorary president, W. E. MacKenzie King.

Honorary vice-presidents, Hon. A. M. Manson, Hon. John Oliver and Fred Stork, M.P.

President, W. W. Anderson.

Vice-presidents, A. Roy McDonnell of New Hazelton and Henry Bretzins of Hazelton.

Secretary-treasurer, A. A. Connon.

Executive, Messrs. Wattie, Paul and McBean of Hazelton, Messrs. Sienkpiel and Sargent of New Hazelton, Ed McLaren of Skeena Crossing and Louis Meron of Kispiox.

BAPTIST CHURCH TEA AND SALE WAS HELD YESTERDAY

A very successful tea and sale was held in the Baptist Church yesterday afternoon under the auspices of the Ladies' Aid.

Mrs. James Hampton had charge of the sewing booth, and was assisted by Mrs. E. J. Robinson, Mrs. S. J. McDonald and Mrs. George Hibbard presided over the sale of home cooking and the candy stall.

The tea room was in charge of Mr. E. H. Shoekley, who was assisted by Mrs. G. H. Elkins, Mrs. George Johnstone, Mrs. D. M. Peyton and Mrs. B. M. Newell. During the afternoon musical selections were given by Miss Mary Muse and Miss Eileen Carruthers, both being much appreciated.

"THE CHARM SCHOOL" IS WORTHY SEQUEL TO "DANCING FOOL"

Wallace Reid Scores Heavily in New Comedy.

"The Charm School," which scored heavily at the Westholme Theatre last night, is a typical Wallace Reid jazz picture and duplicates the success of "The Dancing Fool." The picture is a genuine blues chaser. Reid puts over a lot of good snappy action and he is well supported by Lila Lee and a capable cast. An added feature is the presence of a large number of young "charmers," all under twenty, who are the pupils of the girls' boarding school which Reid, as Austin Bevans, inherits, and of which he makes himself principal.

It is easy to imagine the romantic complications which result when a handsome young man becomes principal of a girls' boarding school and supplants the old methods of academic instruction with lessons on how to be charming. The support is excellent.

Ten Years Ago in Prince Rupert

April 29, 1912.

A. W. Agnew was among the passengers leaving for the south on the C.P.R. steamer Princess Royal last evening. Mr. Agnew will be absent from the city for some weeks, and may possibly extend his trip to the East.

For the steamer Harrison liner Director, the first of boats sailing direct from the Old Country to Prince Rupert, J. H. Rogers has been appointed local agent. The Director is due to arrive in June.

TAKE PRINCE RUPERT
DOCK TO VANCOUVER;
HANDLE BIG STEAMERSTO START OPERATIONS
ON KITSELAS MINETwo Shifts Numbering Eight or
Ten Men to Be Put on, Says

A. G. Thompson.

The following is an excerpt from the letter written by Noel Thompson of Vancouver to the Vancouver World this week urging the removal of part of the Prince Rupert pontoon dock to Vancouver:

"The government now owns as national roads both the G. N. R. and the G. T. P. At Prince Rupert it has a 20,000-ton floating dock which is seriously deteriorating for want of being used. This is a floating pontoon dock built in sections. One section or two pontoons of this dock will easily take care of the fishing fleet operating out of Prince Rupert for some years to come. The remaining sections of this dock could be towed to Vancouver and leased to the Wallace Shipyards, who would receive the proportion of the subsidy for that part of the dock.

The Understanding.

"This section of the Rupert dock would enable Wallace to take care of the bulk of the shipping coming to Vancouver and it could be done on the understanding that he build a section equal to that left in Prince Rupert which would enable him to dock steamers like the Empress of Russia or anything likely to come here for cargo. It could also be done on the understanding that if a line of steamers was ever established in connection with the Grand Trunk Pacific Railway and other shipping developed in and out of the Port of Prince Rupert, the portion of the dock leased to Wallace should be returned to Rupert, and by that time the Wallace Shipyards would have no difficulty in financing and building a floating dry dock of their own large enough to accommodate the shipping of the port. By this means a large amount of money would be saved to the port of Vancouver, the expense of handling steamers here would be considerably reduced, no injustice would be done to Prince Rupert and considerable unjustifiable expenditure of public money saved."

GIRL GUIDES' DANCE
LAST NIGHT VERY
ENJOYABLE AFFAIR

St. Andrew's Hall last night was the scene of a pretty and successful dance given by the Girl Guides Chapter, Imperial Order Daughters of the Empire. Some 60 couples indulged in the telescophean art until the early hours to the melodious strains of Arthur's Orchestra. The arrangements were admirably carried out by Mrs. Robert Blance, regent, and Mrs. McMullin, convenor, assisted by Mrs. George Woodland, Mrs. O. H. Nelson and Mrs. George Tite. Mrs. McMordie was the master of ceremonies. Delicious refreshments were served at 11 o'clock, after which dancing was continued until 1 a.m. Robert Blance and George Woodland were on the door.

Mrs. G. M. Brown left on this morning's train for Montreal and New York. Mrs. Brown has gone to join her husband, who was engaged for some time as paymaster by the Canadian Fish and Cold Storage Co. Ltd., and who took up a position in New York some four months ago.

These refugees were recruited from among the more than 20,000 Greeks who were driven from their homes by the Bolsheviks and who have been awaiting two years for repatriation. The condition of the others is said to be serious, with from 25 to 30 dying daily of hunger.

Trees are now spreading southward from the well-established forest along the Saskatchewan. In addition to this natural process of forest growth individuals and communities have planted groves all over the West. The Dominion forest nursery station at Indian Head has sent out over sixty million trees to forty thousand farmers in the last twenty years, and this with civic and school planting is helping to change the appearance of the prairies.

REPLY TO T. L.

Editor Daily News:

I see by a recent issue of the News that the Trades and Labor Council passed a resolution condemning the Queen Charlotte Islands immigration scheme. I am surprised to think that such a body of men was so short-sighted as to pass a resolution for the sending of a letter to Mr. Stork. He himself lived in a shack in the early days so you cannot tell him anything about this country. He knows. The Trades and Labor Council should show the people of Prince Rupert the right they have to criticize the building up of this northern country with white population. I always thought the Trades and Labor Council was against the Asiatic and favored the advancement of our district. Rather than condemn the progress of the country they had better by far close up their hall if that is all the benefit the town gets.

CONSTANTINOPLE, April 29.—Living for 16 days on mixed sea and fresh water and limited bread rations, 500 children and 3000 adult Greeks have arrived here on the Greek steamer Michael Archangel from Novorossisk, Russia, with no food or water aboard.

Suffering from cholera and other epidemic diseases, many of the refugees were ill and two had died at sea. Green military authorities and delegates of the Greek High Commission inspected the ship, supplied medical aid and arranged for emergency food supplies to last the vessel until she reached Saloniiki, where the able bodied will be debarred for transportation to the tobacco farms and road camps in the vicinity of Kavalla.

These refugees were recruited from among the more than 20,000 Greeks who were driven from their homes by the Bolsheviks and who have been awaiting two years for repatriation. The condition of the others is said to be serious, with from 25 to 30 dying daily of hunger.

Asked for His Reasons

for carrying Life Insurance with The Manufacturers Life, one of our large Policyholders cogently replied:

1st.—"In case I do not accumulate a competence, or meet with reverses in business, I know my wife and family will not become objects of charity, as my Life Insurance will supply sufficient funds for their needs."

2nd.—"Life Insurance is always the first asset realized on—so, if at my demise, the time is not opportune to dispose of my other assets, my Executors will not need to sacrifice same to obtain ready money."

3rd.—"It is the only way I can make absolutely sure of providing for my dependents."

4th.—"It is the very essence of good business."

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

With fine weather and good to their water pets. The speed prevailing among the boats are being tuned up and from the machine gun fire clatter of their machinery do not seem to have lost any power in spite of their somewhat long winter idleness. From the activity already shown by its members the Yacht Club seems to be in line for a busy season.

An ode to the local islands: "Oh, for romp through that blissful land,

The Isles of the summer sea,
Where nature appears in her fairest dress,
Where the days are cool, and no heats oppress,
And the heart must dance with glee."

The good ship Murineag needing repairs and her skipper, Captain Merrill Sollars, having the price, it was decided to do the necessary work at the McLean yards. Mae said that the gridiron was vacant and that he could go to it. A nice handy high tide came along which lifted the ship up very conveniently on the grid. Work was duly commenced which only consisted of a few minor details.

By the time she was ready for the water again, all hands itching for something to be doing in the revenue bearing line, it was discovered, much to the consternation of the skipper, that the high tide necessary to lift the boat off was conspicuous by its absence. The time elapsing between the going on and completion of the work did not suit the tides and as a consequence two weeks enforced idleness was absolutely necessary until Father Neptune saw fit again to raise the water. However, the trusty craft is at last resting gently on the silvery waves in Cow Bay. Everything is in first class shape for hiking to the high spots and the skipper has engaged a wonderful crew consisting of Peter Meuse, who will act as secretary to the skipper if he can find a tripwriter, and Fred Collins, who will keep the steering wheel warm while Cap gets a mug-up. A good dory has been added to the deep sea monster fighting equipment. This will act as pup to the mother craft. After picking up bait from Captain's Cove the Murineag hit for the high seas on Thursday morning.

Captain "Frenchy" of the Snipe is on the casualty list and his left hand is swathed in bandages. Upon being asked what happened he replied: "The god-darned Snipe up and pecked me when I wasn't looking." However the injury happened it will

be a few days yet before Cap will be able to pull off any of his usual fancy stunts in hauling a carload of timber across the bay in a dory.

The Dorothea, Captain Bass, of the Queen Charlotte Islands, owned by the Kelly Logging Company, is tied up at Cow Bay. Cap is awaiting word from higher authority as to the equipping of the boat with a new Diesel engine.

Vic Markland, owner of the new boat "Gub II," was out on a trial trip on Wednesday afternoon. Cap reports that every little thing worked like a charm.

Captain Henry A. Watson, skipper of the Starston, returned to his happy hunting grounds last Friday, after a sojourn in the Old Country of some three months, bringing his bride with him. There was to have been a State reception by the Fleet on the return of Captain and Mrs. Watson but, unfortunately the big drummer of the Cow Bay orchestra, went on strike the previous week and as no one else could blow the drum the music was off, hence the cancellation of the State stunt. Upon being asked how the Old Country looked these days, Cap said that he just noticed it in passing and that the time flew so quickly and he had so much business to attend to, he had forgotten what it looked like. Not having returned to the Old Country to look into the economic conditions and make a report he was sorry that he had no portfolio to read in public on the subject. The happy couple returned on the Mauritania to New York in which city they stayed for a few days, leaving for Vancouver via the Canadian Pacific Railway.

The Starston is once more in active commission and is leaving shortly, in the capable hands of her skipper, for the Georgetown mills to get a scow of lumber.

The Mosquito Fleet, through the columns of Whiffs, welcome Captain and Mrs. Watson and wish them every prosperity in their married life.

The Vivian of Seattle is in Cow Bay undergoing a machinery overhaul, minor repairs are also being made to fishing gear.

Flossie Flirt's new power yacht, the Olympic, is still on the Jack Toner ways awaiting some silver plated fittings which are to come up from somewhere down south. With the arrival of this equipment together with a barrel of Mother Siegel's syrup for the engine, it is expected that this billion dollar craft will be ready for a southern cruise. Flossie has been practicing with her new automatic sealing gun and has become expert in shooting around corners.

It is understood that Flossie raised particular "L" around the Admiralty offices one day this week because the color of the India rubber did not match her new Easter hat, and that the Admiral had to hike up town and buy a bunch of flame red mistake chasers before a peace could be arranged. The Admiral said he thought the coming of the warm days had perhaps affected the top story of Flossie's anatomy but of course Flossie didn't hear him otherwise a bat with an anchor might have affected the Admiral's huffy.

The salmon troller Onawa, Captain William Higgins, has just completed a spring over-haul, and will hit for the salmon grounds over the week end.

J. D. Lockwood arrived in port on Monday aboard the Tip-Top from Captain's Cove and reports that everything in that neighborhood is in first class shape ex-

cept that the weather last week wet his spats. He says the herring bait is doing fine in the pound and that there is enough to last until the middle of June. This is remarkable bait. It is said that with one of these bait herring on board a boat that the halibut will follow the boat and endeavor to climb aboard, when it is necessary to stand at the sides and club them back into the sea to prevent them swamping the craft. Lockwood said that a piece of the herring stuck to his boot one day and that on going up town and chancing to look round he saw a halibut following him. We don't know what brand it was.

The Scrub, Captain Dolph Prince, is taking a rest in Cow Bay for a few days while minor repairs are being made.

The Eleanor Mae is reclining gracefully at her moorings in the Bay and will undergo a gear overhaul before leaving for the high spots over the week-end.

The Tip-Top, Captain Jack Bradbury, left port on Wednesday morning for Captain's Cove.

The Malamute, Captained by Major Macgregor, V.C., after taking on coal for the flap jack machinery, cleared port for the high seas on Thursday morning.

The Westfjord, after taking on ice and bait, cleared for the halibut haunts on Wednesday afternoon.

It is understood on high authority that Jimmy Thomas has resigned his position of first mate on the Wigwam and contemplates turning his attention to a wider field of endeavor. Salmon trolling seems to be the first field of exploitation and it is rumored that tenders have been called for the building of a suitable craft. A library will be installed to accommodate the colossal collection of books of a political nature which Jimmy amassed during the last Dominion election.

The Azores II, Captain G. Edwards, glided into Cow Bay on Wednesday afternoon with a signal of red flags flying on each side of the mast. The Secret Service of the fleet are sitting up nights wondering what the signals meant. The chief of the S. S. suggested that the Azores had joined the Irish Navy but we don't think so.

The Laura, Captain Ole Olsen and his secretary Geo. Wickdal, arrived in port on Monday and reported having brought in a good catch. George said that they caught two fish on one hook using herring bait. Which occurrence he said, went to prove what a hungry and rude fish the halibut was.

The Booth Fisheries Canadian Co., it is understood, have taken up another branch of industry and have appointed S. Carter as officer commanding chicken hatcheries. Not chicken halibut nor chicken you can meet and can't eat but real live domestic fowl, which are to be known, when hatched as Booth Boosters not roosters. The proposition is that W. J. Cash will supply all the lumber and wire netting necessary for the building of a chickery to supply sufficient "Boosters" for chicken dinners on demand. At any rate said Carter is going to take a chance and is already sneaking away before the five o'clock whistle blows to lay out the foundation.

The following boats are at present in port: Wolf, Narbethong, Ern, Dixie Rupert, Oh Baby, Glide, Donald, Laura E., Birdie B., Margit, Chatham, * * *

SERVICE

The first baseball game of the season in the Bulkley Valley took place last Sunday at Telkwa when that town was defeated by Smithers by one run scored in the ninth inning. Les Lane, formerly of Prince Rupert, was in the box for the railway town. The game was played on the Telkwa Strawberry Hill and was watched by a large contingent of fans despite the cold and cloudy day. The line-up were as follows:

Telkwa—McKay, 1; Wakefield, cf; McMillan, 1b; Wallace, p; Hunspurger, lf; Harvey, 2b; Fenton, 3b; Fenton, rf; Goodacre, ss; Smithers—Roberts, tb; Arnold, 2b; Lane, p; Warner, c; Eby, lf; Chapman, cf; Gazeley, rf; Finney, ss; Matheson, 3b.

With the fine start that has been made towards the establishment of a permanent and well-located skating rink in Prince George, through the organization of the Prince George Rink Ltd., it is expected that next winter will see either a good covered rink or else a first class open one at the corner of Quebec and Fourth avenue, the splendid location acquired in that town by the rink company last fall. The project was commenced too late last year to make proper progress.

During the past winter the popularity of the small rink on the slough near Connaught Park demonstrated the possibilities of the skating rink as a winter attraction very well, and at other points along the line of the G. P. R. rinks also sprang up and prospered.

ONE OF THE GREAT NEEDS OF OUR CITY is a more abundant supply of money available for building loans. What more public-spirited use can you find for your savings than assisting some young married couple to acquire the home they so greatly need? Is your money not more usefully employed, both to you and the borrower, when invested in gilt-edged mortgages at 8 per cent. than in the savings bank at 3 per cent.? And we will make sure of the security for you.
