## Money Loan Probably be Called on Matter of Reparations

WASHINGTON, Dec. 16.—Gossip indicates that the United States may loan Germany \$1,500,000,000 with the bankers supplying the money and the government backing Germany's credit. Government circles formally deny such a loan. It was discussed in conferences held by Dr. Weichert, German ambassador, with J. P. Morgan and afterwards with Secretary of State Hughes. The government admits considering the general European financial situation and also that the recall of Ambassador Harvey to Washington for two weeks is connected with money talks.

## REDUCTION OF COUNCIL WAS NOT FAVORED

Labor Party Defeats Provision in Committee's Report on Constitution

## P. R. SYSTEM OF ELECTION URGED

The clause in the United Labor Party's manifesto that the council be cut from eight to five aldermen was defeated after a long discussion at the labor meeting last night in the Carpenters' Hall. George Casey, as one of the committee, brought the question before the delegates and stated that the Civic Employees' Union had passed all the manifesto but asked that an amendment be inserted in the council clause to the effect that a plebiscite be submitted to the people on the use of the Proportional Representation system in the civic elections in place of the present system.

## Smaller Council

Ald. Rod McLeod said he would rather see a council of six men, two for each of the three chief committees. George Casey said that the city had a lot of expensive habits which would have to be cut down if the people wished to practice economy. The council at present is the same size as Vancouver and the city is being run like New York. Let us govern ourselves according to our requirements," he urged.

## On a Vote Being Taken the Motion Was Lost by 18-5.

The P.R. system was also discussed at length and the meeting went on record as favoring it but no plebiscite will be asked in January but rather later in the year when the public have had it explained to them.

## Government Members Oppose Jail Sentence Instead of Fine for First Beer Sales

VICTORIA, Dec. 15.—The worst bone of contention in the legislature debate yesterday on the amendments to the Liquor Act brought forward by Hon. A. M. Manson, attorney general, was the clause providing for jail sentences for the first offence of selling beer.

Capt. Ian MacKenzie, member for Vancouver, especially opposed the measure and was supported in his contentions by H. F. Kergin, the Liberal member for Atlin, and Thomas Uphill, the Fernie Labor member.

Capt. MacKenzie made an impassioned appeal for a fine instead of prison sentence for the first beer selling offence. With that end in view he submitted an amendment.

Mr. Manson said he had voted for the sale of beer by the glass but, so long as there was no such law on the statute book, reasonable enforcement of the law against it must be secured. This could not be done by fines for owners of the bars would put a different vendor in each time and pay the fines when they were convicted.

## Direct Prosecution

Capt. MacKenzie suggested the prosecution of the proprietary clubs to the limit but not returned soldier clubs where no profit was made but simply their own beer was distributed.

Mr. Manson objected and said that proprietary clubs were often in soldiers' names. Hundreds of them were disobeying the law.

Mr. Perry wanted jitney bars restored for the sale of beer up to three per cent.

Mr. Manson objected to this also and said that some municipalities made no attempt to enforce the law. Men, who were otherwise decent citizens, when on police commissions sat back and paid no notice. The same was true of police officers. He was weeding them out and intended to get rid of more yet.

## More Liquor Stores

Mr. Kergin urged the establishment of more liquor stores. Then it would be easier to enforce the law, he claimed.

Capt. MacKenzie, in his final appeal, said that it would be a crime against civilization to send men to jail for selling a drink of beer. He knew that Mr. Manson was trying to enforce the law. All were anxious to do so but that was no excuse for putting a man behind the bars. He appealed especially for his comrades who went overseas.

The measure passed.

## AMENDMENTS TO WORKMEN'S ACT

Manson's Proposals Call For Increase in Compensation and Free Medical Services

VICTORIA, Dec. 16.—Hon. A. M. Manson's bill increasing the amounts payable to disabled workmen under the Compensation Act passed the committee stage last night and will be finally passed before the committee rises.

Instead of fifty-five per cent of the wages being paid the amount will be 62 1/2 per cent and \$100 for burial instead of \$75.

The proposal to make appointments to the Board permanent was defeated on motion of H. F. Kergin, member for Atlin.

Workmen will have medical services but no payments under the Act will be made to people leading immoral lives.

Cape Spear, 8,000 pounds, at 10c. and 7c. to the Atlin Fishers.

## PROVISIONS OF TRADE TREATY

## CHIROPRACTIC DISPOSED OF

Bill Providing for Qualifications Finally Passed by Legislature this Morning

VICTORIA, Dec. 16.—The Chiropractors' Bill was finally disposed of in the early hours of this morning.

Rev. Thomas Menzies, member for Comox, moved that the fifth member of the examining board be not a doctor or chiropractor. This was defeated 27 to 13.

The bill provides that, in order to qualify for practice, a graduate of a three year course in chiropractic may take examinations in the province set by two doctors and two chiropractors. The referee will also be a medical man.

Ships That Don't Come Home.

How often we pass the jest about our ship coming in and what we are going to do with her laden treasure. The thought has quite often taken the edge off disappointment, gilded grey days, filled the morrow with happy anticipation. I want to talk about some of the ships that don't come home, but are lost somewhere in the swathing mists of uncharted seas.

In Which Lie The Most Blessing?

The ship we send out seldom comes home as we expected and intended—quite often she carries on the voyage, and then brings to us a cargo we had no knowledge of and sometimes are at a loss how to handle. We start awkwardly with misgiving and lack of enthusiasm, only to find hidden riches in homely places.

The Bitter Cup Of Popularity.

Perhaps we have coveted popularity, to have our name in all men's mouths, to be able to sway multitudes, to behold them hang breathless on our lips. Surely there can be no thrill like that thrill: it belongs to the music of the spheres. Very few can carry the full cup without spilling a drop, and it is possible for the dregs to be bitter.

Happiest Are Modest And Near Home.

They are the happiest who have little, little boats in life's sea, seeking no wild voyaging, but content with a modest track, with an occasional glint of sunshine to brighten the quiet grey days, and, best of all, never out of sight of the little haven under the hill which men call home.

Annie S. Swan, in the Glasgow Herald.

Make Christmas Merry For All.

In the sweet anticipation of bringing joy, at the Christmas-tide to those near and dear to us, we may forget that there are some right in our midst who, through sickness, unemployment or any other cause, are not looking forward with much cheer to the day of days. How many realize that a single dollar may purchase more joy for the heart of one poor poverty-stricken child than ten or a hundred might bring to one enjoying the comforts of a good home provided by parents well or just reasonably blessed with this world's goods?

LABOR PARTY NOMINATES

Names of Rudderham, Casey, S. D. Macdonald and A. McKenzie Were Endorsed Last Night

Four men were nominated to run for the aldermanic board in the coming civic elections under the banner of the United Labor Party at the nomination meeting held last night. These men will be given a week to accept the nomination and should any fail to run, more candidates will be named next week.

Six names were put up by the meeting and the four receiving the most votes were nominated. The names and votes received were:

- George Rudderham, 18.
George Casey, 15.
S. D. Macdonald, 13.
Alex. McKenzie, 11.
Rod McLeod, 1.
George Kerr, 1.

Messrs. Rudderham, Casey, Macdonald and McKenzie were then nominated. Mr. McKenzie is a member of the G.W.V.A. and the support of this organization as well as all labor interests in the city will be asked by the Labor party for their candidates.

Following out the Labor party's manifesto that aldermanic candidates should also run for the position of school trustees or police commissioner, Messrs. Rudderham and Casey said they were also willing to stand for the school board.

Favor Daylight Saving

Prior to the actual vote taking place, each of the six men mentioned were asked their views on the Labor party's policy and all favored it as well as the idea of having daylight saving for the months of July and August.

Just as the ballots were about to be passed one delegate arose and asked each candidate if he were a member of any political party save the Labor party. All answered in the negative except Rod. McLeod who announced that he had always been a Liberal but that he thought there should be no politics in the municipal affairs and that every man should be free to belong to any party as long as he did not injure the interests of Labor.

## TO THE ELECTORS OF PRINCE RUPERT

Ladies and Gentlemen:

In order to comply with the wishes of a great number of rate-payers, I have decided to offer myself as a candidate for the mayoralty for 1923.

My platform in the main will be as follows:

First of all, economy and efficiency.

A complete re-organization of the city departments.

No discrimination, but a fair and square deal to all.

Strict and sound business methods to be applied in all deals in order to keep away the "tax-eater" and to keep the taxes down as low as possible.

An equitable assessment according to cash values.

Good roads at low cost, and a trunk road from end to end of townsite.

If this will meet with your approval, I hope you will give me your support at the next election.

## LOOK AT ONCE TO SIGNS OF A COLD

Colds or Grippe Should Be Promptly Checked

No person who has any regard for health, can afford to neglect a cold. You positively can't afford to say: "It's only a cold, let it run its course." Any physician will tell you this is a grievous mistake, one for which many pay the price in the form of acute disease, some with fatal results.

As soon as signs of a cold appear start taking Grip-Fix, the remedy which can be obtained at any drug store, and which will give relief in a single night. Its action on the system is almost immediate, the natural channels for carrying off systemic poisons being kept open, the feverish condition developed by colds kept down, and the accompanying muscular pains in the back and other parts relieved.

There is absolutely no secret about what is in Grip-Fix. The formula is printed on every box. Show it to your family physician if you want to. Most doctors will heartily approve it.

On sale at Ormes Drug Store Ltd. 32c per box.

105th Annual Meeting of Bank of Montreal

Sir Vincent Meredith, President, Takes View That on the Whole Trade Conditions More Satisfactory than a Year Ago. Sir Frederick Williams-Taylor, General Manager, Show Necessity for Bringing Down Cost of Living in Canada—Reviews Features of Annual Statement.

At the annual meeting of the Account—the accumulation of the Bank of Montreal, Sir Vincent Meredith Bart, the president, in his address, gave a comprehensive review of Canadian and foreign conditions, and said the outlook was for reasonably profitable operations in most lines of business. Sir Frederick Williams-Taylor, the general manager, in dealing more particularly with domestic conditions, said that if Canada were to make the progress which they all hoped for it was imperative that taxation and the cost of living should be reduced to the level, at any rate, of that obtaining in the United States.

In referring to the Merchants Bank Sir Vincent said: "To the incidents, connected with this transaction it is not necessary to refer, nor to the criticism it evoked, further than to say, that, in my judgment, the prompt action of your directors, subsequently ratified by you, averted a situation that might otherwise have proved serious to the country at large, and secured the shareholders of that institution from losses greater than were suffered. It will interest you to know that the work of co-ordinating the staffs with a view to economies is proceeding with all possible celerity, and that the acquisition of the Merchants Bank is reasonably realizing the expectation of your Board. Under our own organization and with the economies that have been effected, the future gives promise of increased earnings."

**Foreign Trade Expansion**  
He touched on the fact that Canada's foreign trade was again expanding, saying that a satisfactory feature of the figures is the large export of agricultural produce, amounting in the seven months to \$270,084,000 an increase of \$27,000,000 over the seven months of last year—a substantial addition to the income of our farmers. The balance of trade had turned in favor of Canada, having been the considerable sum of \$60,000,000 in the April-October period as compared with an adverse balance of \$22,700,000 in 1921, and of \$140,000,000 in 1920. Within two years, therefore, there had been a betterment of no less than \$200,000,000 in our foreign trade, a factor contributing in a considerable degree towards the restoration of the Canadian dollar to par. Taken altogether, the foreign trade figures afforded encouragement.

**Farmers' Business**  
He expressed gratification at the fact that the government had embarked on an energetic immigration policy and continued: "Statements have been made in the public press by uninformed people that debtors, especially in the West are being subjected to undue pressure by the Banks, Loan Companies and other creditors. So far as this Bank is concerned, every consideration and great latitude have been given to debtors who, through bad harvests or other mischance, have been unable to meet their obligations. This is and at all times has been the policy of the Bank, and never had that policy been more forcibly impressed upon our managers than during recent critical years. "Banks are business, not benevolent institutions. They are expected to pay their shareholders a reasonable return on their investment, which includes the cost

of many years—as well as the Capital of the Bank. The rate of dividend is not disproportionate to that investment and certainly has not proved so lavish as to encourage capital to seek the banking field. As a matter of fact, the distributions to shareholders in Canadian Banks is substantially less than that made by banking institutions in Great Britain or the United States. "He deprecated radical changes in the forthcoming revision of the Bank Act, saying that such would incur grave danger to the stability of trade and to imperil the credit structure of the country, and he knows of nothing more certain to arrest the development and progress of Canada than rash experiments in the domain of banking and currency. Sir Frederick Williams-Taylor's Address Sir Frederick Williams-Taylor, the General Manager in his annual address, dealt more especially with the affairs of the Bank and conditions at home in Canada. Sir Frederick emphasized particularly the need for a readjustment of living costs in the country, when he referred to the economic position of the Dominion. In this connection, Sir Frederick said: "Canada's economic position is not satisfactory. How could it be satisfactory, with the whole financial world out of joint? As everyone is aware, our troubles have partly been the result of this universal condition; partly the result of the war. It is well, however, to bear in mind that our problems are largely of our own creation. "Readjustment will come in time, for this is a country of vitality and untold resources; yet one thing stands out signally, in my opinion, namely, that Canada cannot go ahead again as she should while taxation and the cost of living are higher in this country than they are in the United States of America. "Canada is one of the best countries in the world to live in, to work in, to play in—in point of stability, security and comfort it is an earthly paradise as compared with Europe—but we must not stand still, and in order to progress the cost of living and taxation must be diminished; otherwise, we will fail to attract immigration; and improved conditions are largely dependent upon increased population. "As to ways and means they are obvious to all who reflect, and

The necessity thereof is now being brought home to the heedless by that pitiless but unerring teacher—necessity.

**Sound Banking System**  
In conclusion Sir Frederick stated that the manner in which Canadian banks generally had come through the agitating times since 1914 must be taken as evidence of the fundamental soundness of the Canadian banking system. There was reason to be thankful that no great commercial breakdown had occurred. Senator Foster, in proposing a vote of thanks to the president, general manager and directors, said he was sure that shareholders would gladly join in a vote of thanks to the president, general manager and directors of the bank. There were people, he said, who were under the impression that when they bought a share of bank stock in some mysterious way it found its way into the coffers of the bank, and proceeded without efforts on the part of anybody to earn as much, or more, than they could make the money earn themselves, but those who know anything of the business of the bank could appreciate that the statement that had been presented that day, could only have been produced as a result of co-operation and splendid effort on the part of everybody in the institution.

**Bank Act**  
Referring to the fact that the Bank Act would come up for revision next year, he said it behooved those who were interested in the banks of the country to wisely and prudently consider proposed new legislation that might be reasonable and fair, but it was also imperative that they should scrutinize such proposals very carefully and remember that any blow against any bank or banks was a blow against the best

Interests of the financial fabric upon which this country is built. Mr. W. R. Miller seconded the proposal, which was carried with applause. Sir Arthur Currie proposed a vote of thanks to the general manager, assistant general managers and other officers. He said in these days of unrest an institution like the Bank of Montreal had a great responsibility, and he was sure that the steady influence it exerted in Canada was due in large part to the loyalty of its officers. All the motions submitted were unanimously adopted. Subscribe for the Daily News.

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

There is one spot in the city where business is humming, where the fish buyers have been having a strenuous time. That spot is along the waterfront.

The past week has been attended with a good deal of excitement and there have been many up-town visitors to the waterfront. The reason for the up-town interest was the arrival of H.M.C.S. Patrician, which steamed into the harbor on Monday afternoon under the command of Lieut. J. E. W. Oland.

**Waterfront Whiffs**  
 boy in the person of Bill Cash of Booth Fisheries fame. Bill is now comfortably installed in Seattle and says the fish game down that way is hitting a merry chop—in fact he's counting fish in his sleep. Outside of the fish business Bill intimates that business is dull although Santa Claus has promised to visit his city in addition to Prince Rupert on his forthcoming trip. The family 's O.K. and altogether life is of a rosy hue. Bill said to hand his best regards to a clean plate to all his old friends.

**Flossie Flirt**  
 Flossie Flirt's letter from the Wheat City is as follows:  
 Dear Admiral: I guess as how its getting near the good eat season so I shall write you hoping that you won't forget. That blamed world, four is hanging five and we're froze up tighter than the skin on a two-bit drum. Had to thaw my feet out Sunday morning by breathing on 'em before I could get my shoes on. Podge has gone and froze his nose and when it itches he scratches it with the egg beater affair. Lady Dredgill says as it's regular rude and annoying don't yer know? I know sure enough as it's D— cold. The other morning the tea froze coming out of the pot and we had to break it off and chew it like candy. I don't like tea the Hess-kinow way. Podge is happy 'cos the water in the bath room is froze up and he can't be washed. Ain't it just like a boy. He's like you ain't he? Can't say as how I'm sorry about it particular. The bloomin' ice man had the check to call to book orders for next summer's ice so I knocked him down the stairs. Some guys sure have lots of cheek. Send me something warm for Xmas if it's only a bottle of three star.

**Happy Harry**  
 Harry Daggell is one of the happiest men in the world today and he has good reason to be. One of Prince Rupert's best friends, the stock, paid a visit on Thursday night and left a little footballer. Consequently, there is great rejoicing not only in the Daggell domestic circle but among the waterfront boys generally among whom Harry is popularly known. Flags are flying full mast along the front and the Admiral of the fleet is contemplating promoting Harry.

**Froze Up**  
 When the engine freezes up with a big fire burning in the same cabin you can bet your life it is cold. That was the experience of Dr. Gade and D. C. Stuart while out on a hunting trip aboard the Kerma during the week. The two well known sportsmen had gone to Swamp Island to hunt swans and were caught in the cold weather. Dave says it was so cold that the

**HEART PALPITATED and Was Short of Breath**  
 Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble.  
 Many people may be unaware of having anything wrong with their heart till some little excitement, over-work or worry starts it to palpitate and throb, skip beats, beat fast for a time and then so slow as to seem almost to stop, then it causes great anxiety and alarm.  
 To all such sufferers  
**Milburn's Heart and Nerve Pills**  
 will give prompt and permanent relief. Mrs. Alice Bishop, 15 Hawthorne Ave., Hamilton, Ont., writes:—"I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I had been. I suffered from palpitation of the heart and shortness of breath; my heart would skip beats, and in the night, at times, I would have to sit up to get my breath. I could not go up stairs without my heart fluttering, and my nerves were all unstrung, but since using your famous Pills I have felt like a different person."

been in the frying pan froze on top and only cooked on the underside.  
 After much difficulty, the engine was thawed out and the intrepid hunters returned to port on Thursday afternoon. The next time Dave goes hunting in the winter he says he'll take a sealskin walking stick and a fur lined handkerchief along. They didn't get a god darned swamp.

**Wedding Bells**  
 It looks as though wedding bells will soon be ringing among the staff of the P.R. Bouthouse. This time the romance is woven around Harry Gilbert, the popular skipper of the launch 23, who is going south tomorrow night. The secret service has got the matter in hand and Harry will be watched closely. In the event of the bells actually ringing down south watch for a front page article giving full particulars of one of the snappiest love knot tying stunts ever pulled off in the province. The secret service have the name of the lady but will not divulge it until the sequel takes place.

**SUPERLATIVE VALUE**  
 How a combination of three papers in one, such as The Family Herald and Weekly Star of Montreal, can be produced and delivered to subscribers at the low price of two dollars a year, remains an unsolved mystery to the reading public. In each issue of this seventy-two page weekly there is a complete farm journal, a home magazine containing seven days' reading for every member of the family, and a weekly digest of world news, which if it were not enough, we now read an announcement by the publishers of The Family Herald that for a limited period they are offering each new subscriber a choice of five valuable books, cost free. Present subscribers who send in one new subscription to the Family Herald in addition to their own renewal also qualify for a book. Any one of the following books may be selected: (1) "The New Farmer's Manual," compiled and published by The Family Herald and Weekly Star, without question the best book of reference ever offered to the Canadian farmer; (2) "The Family Herald Cook Book" complete, scientific but non-technical; (3) "100 of the Best Songs"; (4) "100 Singing Games"; (5) "Album of Sacred Songs."  
 The fact is emphasized that these valuable books will not be sold for cash at any price, but can be obtained only as a reward for new subscriptions at the rate of two dollars per year. The supply is said to be limited, but the publishers' guarantee delivery provided the new subscription is received by December 31.
