TWO MILLION AND QUARTER DOLLARS IN U. S. BANKS FOR IRISH

EDITORIAL

VOTE ON BYLAWS.

There are two bylaws coming before the people tomorrow for endorsement or rejection. One is to authorize the borrowing of \$35,000 to rebuild the Hays Cove bridge, which is at present unsafe and no longer used by vehicular traffic. The other to authorize the borrowing of \$15,000 toward paying for the repairs going on at the Booth Memorial School and which, if not borrowed, will have to be paid in a lump sum from next year's taxation.

There is nothing to rave over to get excited about in these simple bylaws. The ratepayers are the ones concerned and they may either pass them or defeat them as they see fit.

Take the first. Everyone is agreed that the bridge over Hays Cove is needed. To go around by Eleventh Ave as at present is not so bad in summer as it will be in winter. The bus service is not functioning as it ought by being compelled to make the detour. Undoubtedly the residents across the creek will be keen to have the bylaw passed and the wonder is they have not been more active in securing its endorsement. We feel that this bridge should be built as soon as possible.

As regard to the school bylaw no one is hurt and no development is delayed should it be defeated. It is purely a matter of finance. The ratepayers should be the best judges as to how they would like to pay for the work now being done and we refuse to allow political bias or personal animosities to influence us in taking sides in the matter. There has been altogether too much politics in this school matter already. The passing of the present bylaw has nothing to do with holding up the work or forwarding it. If the pupils of the schools were to be deprived of their educational rights by the failure of the bylaw to pass, then we should be in the field doing our utmost to prevent politics interfering with the education of Prince Rupert children. As it is, the children will not suffer. The bylaw simply has to do with paying the bills.

There is a determined set being made against the passing of any bylaws of any kind by those who believe that we have been spending money too freely and that the only way to curb expenditures is to stop voting more money. With them we have a good deal of sympathy. There must be an end somewhere. At the same time we very much dislike to see the people of the district across Hays Cove penalized by failure to build the bridge.

BERT WING MARRIED RECENTLY AT ANYOX
Mrs. M. T. Ranson Bride of Popular Manager of Granby Co.'s Swamp Point Mine

A wedding of interest to many friends in the north took place last week at Anyox. Rev. J. B. Gibson officiating, when Mrs. M. T. Ranson became the bride of A. B. Wing, manager of the Granby Co.'s Swamp Point mine. Mr. and Mrs. Charles Wing attended the couple. Mr. and Mrs. Wing left on the Azurite after the ceremony for Swamp Point where they will reside.

Name of Stevens Goes Before Conservative Vancouver Convention

VANGOUVER, Aug. 22.—It is expected the election of a leader for the Conservative party will be brought up today at the British Columbia Conservative Convention. It is understood that W. J. Bowser, S. L. Howe, and Harry Stevens will be nominated for the honor.

Mr. Stevens said today: "Up to last night I refused to allow my name to stand for nomination. Every representative delegation urged me to become a candidate and in face of their insistence I could not well refuse, so I informed the delegation that if nominated I would allow my name to stand."

Hon. Arthur Meighen spoke advocating the adoption of the name Liberal-Conservative for the party. He said if the party in British Columbia was not big enough to unite, it was not big enough to win.

Tentative acceptance as a basis of procedure of the draft constitution introduced by Leon Ladner, M.P., was the most important business at the first session before the convention yesterday because the credentials committee was unable to complete its work and report. The constitution to be ratified admits to membership privy councillors, senators, members of the federal and provincial parliament, candidates for parliament, past presidents, and ten delegates from each constituency.

SUN YAT SEN TO THE FORE
Is Supported by Wu Pei Fu China's Dominant Military Figure.

SHANGHAI, Aug. 22.—Sun Yat Sen, deposed president of South China, who recently fled here from Canton, leaped to the front today as the pivotal figure in the reorganization of the Chinese Government with the receipt of a telegram from Wu Pei Fu, the dominant military figure of North China, flatly endorsing Sun's recent manifesto and pledging support to Sun's policy for the rebuilding of the federal governmental machinery.

DESERTED BOAT WAS PICKED UP

Schooner Cape Spencer Found Carnelia off Graham Island Crippled and Without Crew

The schooner Cape Spencer, Capt. Dan Larsen, which arrived from the halibut banks yesterday, reported to the customs department the picking up of the Ketchikan salmon troller Carnelia T135 off North Island. The boat was drifting around with the connecting rod broken. There was no one on board but several letters were found apparently ready for mailing after having been written by the crew. The weather had been good and the theory is held that the crew, after their boat had become disabled, had simply left it. A report has reached the city that the owners are already in Ketchikan. The Carnelia was towed into Naden Harbor by the Cape Spencer. She is a 30-foot salmon troller carrying two men and, it is understood, is owned by Sandy Irving, of Ketchikan.

FUR TRADERS TO ORGANIZE

Meeting to Be Held with That Purpose at Hazelton Tomorrow.

An organization meeting of the fur traders of northern British Columbia will be held in Hazelton at the Omimca Hotel tomorrow afternoon. It is anticipated that a large gathering of fur traders and buyers, both from the coast and the interior, will be present at the meeting. J. E. Ormheim, B. Boyd Young, and Pat Phillipson, the local fur men, are leaving on the train tonight for Hazelton to attend the meeting.

GOVERNOR GENERAL NOW IN VICTORIA

VICTORIA, Aug. 22.—A formal reception was tendered Lord Byng of Vimy, Governor General of Canada, and his party on their arrival here today to pay their official visit. The vice-regal party is spending the week at Government House.

BAD CONDITION AUSTRIA TODAY

Chancellor Expected to Ask Nations What They Will Do About It.

UNION WITH GERMANY.

Possible Partition of the Country Is Suggested as Way Out.

VIENNA, Aug. 22.—The visit of Chancellor Seipel to Prague, Berlin and Rome are believed to mean that the Austrian Government is determined to bring the situation of the country to a head. It is understood the chancellor will inform the premiers of these countries that Austria's collapse is morally certain and near at hand and to ask what they are prepared to do when the crash comes.

On his return to Vienna, the chancellor is expected to convene the national assembly and if it is agreed that there will be no solution of the crisis from within he will ask that they approve an appeal to the League of Nations for the fusion of Austria with Germany or for the voluntary partition of the country.

ADDRESSES ELKS

Premier Bracken Speaks at Convention in Winnipeg

WINNIPEG, Aug. 21.—Hon. John Bracken, premier of Manitoba, in addressing the Elks in convention here, complimented the order on the unique features in connection with it. He referred to the fact that it was solely a Canadian organization; its chief strength was in western Canada; it was entering the tenth year of its existence; it had recognized the need of enlisting the co-operation of the ladies and it was endeavoring to bring about a basis of affiliation with Newfoundland. He referred to the fact that the presence of Senator Works indicated the great bond of friendship between the United States and Canada and hoped it was an indication of the strengthening of the bonds of friendship between the two great countries.

MIGHT SELL HER HUSBAND

Mrs. McKendrick, of Frisco, Considering Mrs. Wakefield's Offer.

SAN FRANCISCO, Aug. 22.—Mrs. Harry Wakefield has offered Mrs. Rodney McKendrick \$100 monthly for her wedding ring and conjugal rights and Mrs. McKendrick is seriously considering acceptance of the offer according to a story admitted by all parties concerned here last night.

Mrs. McKendrick is ill and is probably incurable. Mrs. Wakefield proposes to get a divorce in order to live with McKendrick.

ONE CANNERY REMAINS OPEN

Others to Close on Completion of Fishing Tonight it is Understood.

SALMON SPAWNING WELL

Reports From Lakelse and Babine Indicate Fish Reaching There.

The sockeye fishing on the Skeena River closes tonight and it is understood all the canneries will close completely with the exception of the Prince Rupert Cannery of the Canadian Fish and Gold Storage Company. It will continue to operate for a short time and will can cohoes and chums.

Most of the fishermen quit work on Friday night as the sockeye season is practically over but a few are fishing up to midnight tonight. Then all stop except with cohoes and pinks to pass.

Total Pack.

Alaska Salmon.	
Springs	1,950
Coho	800
Sockeyes	5,050
Pinks	1,800
Reports received here from the two hatcheries at Lakelse Lake and Babine Lake indicate that the fish are reaching the spawning grounds in large numbers and other things being equal there should be another good run four years from now. The run this season of sockeye has been nearly 30,000 cases less than the run four years ago.	
At Babine, the fisheries department have had three men at Babine Lake seeing that the Indians did not take salmon from the spawning grounds.	

At Lakelse Lake, the fisheries department have had three men at Lakelse Lake seeing that the Indians did not take salmon from the spawning grounds.

The run this season of sockeye has been nearly 30,000 cases less than the run four years ago.

HOCKEY GAMES THIS WINTER

Arrangements Made For Teams to Visit Prairies and Vice Versa.

VANGOUVER, Aug. 22.—An arrangement that will provide inter-league professional hockey games periodically has been entered into between magnates of the Western Canada and Pacific Leagues. At a meeting here of Western Canada representatives it was agreed to adopt all the rules embodied in the coast game except the seven man play. Each coast team will play in prairie arenas every winter and the prairie teams will all come to the coast.

Immense Sum in United States Banks to Credit of Ireland Now Tied Up

NEW YORK, Aug. 22.—Michael Collins and his associates of the Irish Free State Government have been granted an injunction restraining New York banks from paying out any funds collected for the Irish Republican cause to De Valera or his defeated associates.

The amount tied up in American banks is about \$2,300,000. Some quarter of a million was withdrawn by De Valera's crowd this spring and the Collins group took action to prevent further attrition of the funds which the court was told belonged to Ireland and not to a group of rebels against the Irish Government elected by a popular vote.

FORD CHANGES TO OIL FUEL FOR THE POWER AT FACTORY

DETROIT, Aug. 22.—Owing to the coal shortage, the Ford motor plant has been equipped with oil burners. The change was made without loss of time to any of the 42,000 employees. Twelve million gallons of fuel has been ordered.

SITUATION FOR VOTERS

Ald. Dybhavn Sums Up Concisely What Ratepayers Have to Choose at Polls Tomorrow

"If the \$15,000 Booth School repair bylaw is defeated at the polls tomorrow, it will simply mean that the cost of the repairs will have to be levied under the school rate's next year in addition to the ordinary levy," stated Ald. J. Dybhavn, chairman of the finance committee, in concisely summing up the situation in regard to the bylaw to a News representative this morning: "On the other hand, if the bylaw passes, repayment will be spread over a period of 26 years."

Now that the repairs have been started, Ald. Dybhavn agreed with the suggestion that there would be no question as to whether or not they would be proceeded with. The school board and the city council, jointly, have endorsed the work being done by Architect Jeffers with but Mayor Rochester dissenting.

Referring to the Hays Creek bridge bylaw, Ald. Dybhavn stated that if the bylaw fails it will mean there will be no bridge, the present one which is closed being beyond repair.

INSANE MAN OPENED FIRE

Two Killed and Vancouver Man Seriously Wounded at Portland.

PORTLAND, Aug. 22.—Olvin Price of Kelso, Washington, was shot and killed and R. Widling of Vancouver, B. C. very seriously wounded by George Roberio. The man Roberio was seated at the rear of a stage coach when he suddenly opened fire on two men in front. He was arrested and charged with murder but it is believed he became suddenly insane.

ASK FOR RIGHT LEVY INCOME TAX CITY OF WINNIPEG

WINNIPEG, Aug. 22.—With absolutely no discussion, and only the barely audible comment from one alderman, "I hope it's granted," the city council accepted the recommendation of the finance committee that steps be taken at the next session of the legislature authorizing the city to levy a personal income tax, in the collection of which all realty taxes actually paid in each year by any taxpayers shall be set off against and deducted from the income tax, and in the event of such realty tax being higher than the income tax only the realty tax to be payable by the taxpayer.

VICTORIA, Aug. 22.—Bids for the renewal of city bonds to the amount of one million dollars have been turned down because the conditions imposed upon the tenderers are likely to lead to litigation. New tenders have been called for and today's bids indicate that the bonds will sell at a good price.

DAILY EDITION

Tuesday, August 22, 1922.

Fishermen Will Be Pleased.

American fishermen will be glad to get the news that the Poindexter amendment making it necessary for them to pay two cents duty on fish packed at this port and shipped in bond to the United States has been defeated. They are the ones who would have been badly handicapped by the restriction. It would have meant that they would have received two cents a pound less for their fish than they are getting now or else the American buyer would have paid two cents more. Probably both would have suffered.

The original movement was simply an effort to boost real estate and try to build up Ketchikan artificially. The nearness to success of the movement shows exactly what one persistent man can do when he becomes obsessed with an idea and is willing to devote time and energy to putting it through.

Polytechnic Is Being Organized.

Now that it has been decided to go ahead with the organization of the Northern Polytechnic Institute with J. Pinder-Moss in charge of the work and with Anyox and Prince Rupert co-operating, those people who have been contemplating taking up any particular line of work during the winter will do well to consider the matter carefully. It will be only a few weeks before we shall notice the shortening of the days and after the end of September we shall return to standard time and the winter evenings.

There are probably many grown people who would like to take up some special course of study. Possibly a course in the French language would appeal to a great many, this course being especially desirable in a country which has such a large French speaking population as Canada. Mechanics and related subjects will undoubtedly be popular and geology and mineralogy should be studied in a mining country where almost every man is a prospector.

Some men will take a course in mineralogy which will fit them to prospect for valuable minerals and will spend their holidays in the hills instead of on the water. There is plenty of rich ground within reach and the rewards are great to those who make a find.

China Source Of Danger To World.

China is a source of danger to the world, because if untoward events should take place there in which foreign nations are involved, the country would likely be invaded and once the foreign troops are there it is difficult to get them out. That has been the experience of the past.

Japan is close at hand and experience indicates that she is ever ready to extend her powers in that country. The ambition of Germany has been temporarily curbed, but international complications arise very easily and it is to be hoped for the sake of China and also for the future peace of the world that she will settle her present difficulties without the intervention of any foreign powers.

Attitude Of France In Regard To Germany.

Opinion seems to be divided here as to the attitude of France in Germany. Lloyd George is anxious to give Germany every chance to recuperate and take her place in Europe as an economic force. France is demanding the pound of flesh. And after all it must be remembered that France was the nation that suffered most from the depredations of the invader and who would suffer again should the move be repeated. For that reason it is easy to understand her attitude. On the other hand to ruin Germany financially might mean also the ruin of other nations. All nations of the world are to some extent dependent on each other for prosperity. Germany, Austria and Russia are at present the sore spots and until they are restored to something approaching normal the other nations will not really prosper.

CLUBS TO GET LEASE OF LIFE

City Council Decides to Suspend Building Bylaw Requirements For Sixty Days

After another lengthy discussion in committee last night, the city council decided to withhold the immediate application of its newly enacted club controlling by-law as far as building regulations are concerned when temporary licenses were granted to the Skeena Club, A. Anderson, manager; Kaien Island Club, F. T. Buckley, manager; Travelers' Club, Harry Killas, manager; and Citizens' Club, G. Giecone, manager, on the condition that the alterations required by the building inspector be carried out within sixty days. A resolution to this effect was moved by Ald. Kelly, seconded by Ald. Perry, and carried, Ald. McLeod voting against it.

This action followed the receipt of letters from Mrs. G. B. Fisher, on behalf of the owners of the Travelers' Club premises, and Patmore & Fulton, for the Kaien Island Club. In both cases it was pointed out that the owners of the buildings were in England and it would be necessary for the lessees to get in touch with them before the work of plastering, required by the building inspector, could be proceeded with. In the meantime, it was asked that temporary licenses be granted. W. O. Fulton appeared on behalf of the Kaien Island Club.

After considerable discussion, in the course of which it was explained by the city clerk that several clubs had been closed up by the police during the week pending the making of alterations, it was decided to grant the four mentioned clubs temporary licenses. Ald. McLeod was absolutely opposed to any such action on the grounds that it would be merely suspending the operation of the bylaw which the council had already passed. Mayor Rochester took a similar view as did also the city engineer. Ald. McLeod moved an amendment that no licenses be granted unless the requirements of the building by-laws were lived up to but he was the only alderman to vote for it.

It was reported by the city clerk that the alterations required at the Empress and Marathon Clubs had during the week been executed to the satisfaction of the building inspector and licenses had already been granted them. The Wanderers' Club was closed in the meantime, the directors having notified him that it was the intention to change the incorporation from under the Companies' Act to the Benevolent Societies' Act.

A license was granted to the A. A. Social Club Ltd., Savoy Hotel, James McAleenan, manager, favorable reports having been received from the medical health officer, building inspector and chief of police.

CITY'S WATER SUPPLY IS OF THE BEST SAYS CIVIC HEALTH OFFICER

A report from Dr. J. P. Cade, medical health officer, regarding the complaint recently made by Henry Smith of the water supply on Ninth Avenue West was received and ordered filed by the council last night, a copy of the report to be forwarded to Mr. Smith.

The report of the officer indicated that the sediment complained of was caused by repairs being made to pipes. "The city water supply is of the best and the trouble does not come from this source," the report said.

Ald. Kelly stated that sediment collected in the pipes here and brought about the result complained of. It was a vegetable matter and could be remedied readily. The city engineer stated that similar sedimentation was

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.

PRODUCT OF CANADA

CITY SOLICITOR TO ATTEND UNEMPLOYMENT CONFERENCE VICTORIA

City Solicitor T. B. Hooper, who is at present in the south, is to attend at Victoria next Thursday as representative of this city a conference between provincial and municipal authorities regarding unemployment relief for the coming winter. The city council, on receiving a wire from J. D. Mc-Niven, deputy minister of labor, last night announcing the conference, decided to delegate Mr. Hooper to attend, the council's instructions to be wired to him.

In regard to the conference at Ottawa on September 5 between federal and provincial authorities on the same subject, it was decided to lay the matter over for a week or until such time as the result of proceedings at Victoria is known, the mayor and city clerk being empowered to draft the Ottawa brief in the meantime, if necessary.

Ten Years Ago In Prince Rupert

August 22, 1912. Following I. W. W. agitations, 2300 workers on the Grand Trunk Pacific Railway at the end of steel near Hazelton are out on strike. Some are going south and others are going overland to the prairies. Station men are still working.

President E. J. Chamberlain of the G. T. P. and his party accompanied by local officials left early this morning on a trip to the end of steel. Mr. Chamberlain has received many deputations since being here and all efforts have been made to press for the developments by the company in the city. The president said that the section 2 bridge may receive financial support from the railway.

The Department of Education has given authority to the school board to proceed with the opening of a high school. Quarters will be secured and one teacher engaged forthwith.

HUNTING IN NORTH.

Lady Yule, accompanied by A. Bryan Williams, formerly provincial game warden, is hunting in the Cassiar district. She is trying her luck for bear, mountain sheep, goat, moose and caribou for the first time.

The contract for kalsominizing and papering the fire hall was last night awarded by the city council to J. A. Curtis, whose tender of \$114 for the job was the lowest. Other tenders were: Bell & Crossell, \$139; F. Scadden, \$122; L. O. Larsen, \$119.70.

MANSON WILL ENFORCE LAW

Says Campaign Against Bootlegging Has Only Just Commenced

Recent developments in Penticton, Princeton and the surrounding territory, which culminated in the biggest drive against illicit liquor sellers in the history of British Columbia, were described as only one part of the government program to stamp out bootlegging by Attorney-General Hon. A. M. Manson, who passed through Vancouver on his way back to Victoria.

"That is only one part of the government program to stamp out bootlegging in this province," he stated to the Vancouver World, "and we are prepared to take similar action in any municipality where the local officials are unable to enforce the law. The fight against the bootleggers is to be pushed through remorselessly. The law is on the statute book of this province forbidding them to sell liquor in this province, and as long as it stands the way it does it is the intention of the government to see that it is enforced."

Hon. Mr. Manson could not state just how many prosecutions in various districts were under consideration, intimating that the work of conducting the campaign was in the hands of officials of the liquor control board, and that wherever action was found necessary it would be taken.

"Those engaged in bootlegging might as well make themselves acquainted with the viewpoint of the government," he said. "That viewpoint is that the law must be respected, and that it will be enforced at all costs. There is to be no let-up. Bootlegging in this province must be stamped out, and we are prepared to keep on prosecuting until it is stamped out."

Stay Open Wednesdays

The attorney-general also expressed the opinion that liquor stores in Vancouver would continue to remain open on Wednesday afternoons.

"We have the right to stay open," he said, "and we are going to exercise that right. It is proving a success in depriving the bootlegger in Vancouver of one of the main sources of revenue, and we intend to keep it up."

Commenting on the result of the Cranbrook election, which he had taken part in, Hon. Mr. Manson contended that the result of the election had no particular political significance.

"Under shrewd manipulation the campaign resolved itself wholly into a campaign of personal sympathy for Mr. Wallinger," he said.

The Man in the Moon SAYS:-

THERE is one thing about some of the local launches, they won't be fined for speeding.

NOBODY ever seems to think of putting a self starter on a motor boat.

C. J. Stevens of the Beaver Bottling Co., and his son Bruce returned last night from a successful fishing trip to Lake Khatada.

Mrs. R. P. Ponder of Massett, who has been the guest of Mrs. S. L. Warrior, left on the train last night for Terrace where she will visit for a few days.

U. Murdock and P. Donnelly were found guilty of intoxication in the police court this morning and were each fined \$50 with the option of thirty days in the lock-up.

O. Martinsen was arraigned in the police court this morning charged with stealing an account book, valued at \$1, from George M. Sutherland. Adjudgment was made until tomorrow.

Two Indians, Fred Hensen and Elijah Benson of Kitwanoon were arrested on Friday last at Port Essington charged with obstructing the police in the discharge of their duties. They are being tried before Judge Young this afternoon.

Mrs. W. E. Williscroft and family, Mrs. S. J. Evans and family, Mrs. J. F. Stronge and family, Mrs. B. A. McEvoy and family and Mrs. S. E. Alexander and family, all of whom have been spending the holidays in the old hotel at Port Simpson, returned home today on the steamer Chelohsin.

The first entries for the interior for the exhibition were received in this morning's mail by J. F. Venables, fair manager. They are from Mr. and Mrs. F. W. Bohler, Bill Bohler and Thomas Lever, Kitsumkalum. These pioneer exhibitors of the Prince Rupert fair are bringing their usual big list of exhibits.

On account of insufficient evidence, the charges against Mrs. Fred Schultz and Miss O. Solem of running a disorderly house at 853 Third Avenue West was dismissed in the police court this morning. Magistrate McClymont giving the two women some timely advice as to their future conduct. W. O. Fulton, of Patmore & Fulton, was the counsel for the defense. Evidence was given by W. J. Exley, Constable Logan and Chief Vickers.

FISH ARRIVALS

GORED BY BULL FARMER DIES FOLLOWING DAY

Farmer Near Edmonton Loses Life as Result of Attack From Infuriate Animal.

EDMONTON, Aug. 22.—Joseph Toane, a farmer, four miles south of the city received injuries on his farm from an infuriated bull, that proved fatal, death taking place the following day. The men were all busy in the out buildings at the time of the accident, and deceased was drawing water for the use of the home. While crossing the yard with two buckets, the bull came through the fence and gored him. He immediately ran towards the house; but was unable to make the doorway before being overtaken. The animal then cornered him and inflicted injuries that precluded recovery.

In answer to his shouts for help, his daughter-in-law came to his assistance by beating the bull with a stick; at this the animal turned his attentions to the newcomer and managed to gore her before she climbed into a wagon and won safety. At this juncture Mr. Toane found a club and chased the bull out of the yard, before he dropped from loss of blood.

The commotion eventually was heard by the hands working in the barn, and they came forward in time to isolate the bull and assist the man and girl into the house. Medical aid was summoned, but on arrival the doctor was not able to offer any hope for the farmer. Fortunately the young woman was not hurt very much and will recover from the injury and shock.

Mr. Toane passed away at the farm.

FRESH ROASTED COFFEE FRESH ROASTED

Why Fresh Roasted?

Why does the local baker buy his flour in bulk and bake bread, pies and cakes daily? We might go on indefinitely asking such questions, but why multiply the evidence? The answer in each case is the same. The shorter time that elapses between the finishing process mentioned and delivery to the user the more satisfaction with the product.

GIFTS THAT LAST

HOSPITAL GRANT STILL HELD UP

City Council Wants to Have Further Information Regarding Finances of Institution.

The hospital board has submitted to the city council the financial report that the latter body asked for before the grant of \$5272.29, ear-marked for the hospital as its share of liquor profits, be made by this report it was decided last night, would have to be submitted to the finance committee with a view to ascertaining the deficit of the hospital and what measure of further relief would be needed before the grant would be made.

There was a lengthy discussion of hospital affairs by the city fathers, Ald. Perry and Ald. Montgomery leading in the demand that further information regarding hospital finances should be given before the grant was made. The question in the mind of these aldermen was why \$6,000 more should be given to the hospital this year than last.

Ald. McLeod moved and Ald. Collart seconded that the recommendation of the finance committee be adopted and the money which rightly belonged to the hospital be paid over. Ald. Perry and Ald. Montgomery moved an amendment that the matter be referred to the finance committee again, the amendment passing, Ald. McLeod and Collart voting against.

The financial report from the hospital, which was submitted in detail, showed that there had been 99 patients in the month of July and the hospital days had been 1143. The total expenditure had been \$3774.72, the distribution of this figure being wages and salaries, \$1702; maintenance, \$120.79; medical supplies, \$376; other supplies, \$1576. The average cost of meals was 20c.

GUN-A-NOOT IS NOT AN AVIATOR

Famous Indian Refugee of Many Years Cannot Be Persuaded to Take a Flight in Hazelton Machine.

Some interesting photographs depicting old and new methods of transportation from Hazelton to the Ground Hog mining fields have been brought to the city by S. D. Murphy, of Prince George, one of the directors of the Railway Employees' Investment and Industrial Association which operates the big aluminum hydroplane Hazelton. One of these pictures shows a pack train of 100 horses about to leave for the north; another, the plane in a taking off position.

A particularly interesting feature of the latter picture is that of the famous Gun-a-Noot, the native who was a refugee from the police for many years for the killing of a white man, is sitting on one of the wings. Gun-a-Noot never went up, however. Major Thompson, who is seen seated alongside him, got as far as putting the flying headgear on the noted Indian's head but, no further. Gun-a-Noot may be a bold, bad man on the earth but he does not intend to carry that boldness any further. And he knows the geography of his native district well enough through years of wandering in the wild without having to go up in any airplane to see what it looks like.

THE VALUE OF QUALITY

Quality is the standard by which things are judged. The delicious flavor (which means "QUALITY") that has always characterized SALADA has won for it the favor of millions of discriminating tea drinkers. The standard always adhered to has been the keynote of SALADA success, and rather than lower it, the Salada Tea Company would close its doors. You would appreciate the unvarying "QUALITY" of SALADA. Your own Grocer can supply you with this delicious tea. Ask for it today.

The steamer Canadian Farmer now on the drydock is expected to come off either Thursday night or Friday.

VOTING OF BYLAWS FROM 9 TOMORROW UNTIL 7 EVENING

Polling on the two bylaws—the Booth School \$15,000 repair by-law and the Hays Creek bridge by-law—will commence in the city council chamber tomorrow morning at 9 o'clock and will continue till 7 in the evening. Only property holders of British naturalization will be entitled to vote. Not more than 100 ballots will be cast, it is expected.

City Clerk Ernest A. Woods will be in charge and his assistants will be Harry Birch, E. Unwin, E. G. Baker and H. Hampton.

PARIS AS CENTRE FOR DIVORCES HAS MANY ATTRACTIONS

Lack of Publicity and Elasticity of Laws Makes Divorce Easy

PARIS, Aug. 22.—The increasing number of divorces obtained in Paris by prominent foreigners seeking relief from matrimonial infidelity has led to many inquiries as to why the French capital apparently has become such an European Reno for discontented spouses.

The chief magnet appears to lie in the fact that divorce proceedings may be brought in French courts with silent ease and completed without even friends and acquaintances becoming aware, at least through the medium of French newspapers, that there has been the slightest ripple on the sea of domesticity. Publication of such proceedings by native newspapers is a criminal offense, on the ground of lowering public morals. The newspapers may print the names of those involved, if they can obtain them, and the fact that a divorce has been granted, but nothing else.

Provisional decrees usually may be obtained in France in from one to three months. The complainant must establish residence in France, but declaration that he intends to stay indefinitely is held to be sufficient, or the inclusion of a year's lease on an apartment among his papers. The second essential condition is that the defendant must appear before the court in person, or through a counsel if he is a resident of France. But if the defendant lives outside the country notice must be given through the State Department.

Adultery, conviction of a felony, cruelty, physical and mental violence, and mental anguish are included among the grounds of divorce in France. Divorced persons are not allowed to remarry in France within ten months.

PRIESTS OBEY ORDERS GIVEN BY THE POPE

Monsignor Orsenigo Dislikes Diplomatic Life But Did as Commanded

ROME, Aug. 22.—(Associated Press).—"Priests and soldiers receive orders and must obey them," were the words of the pope in deciding the question who should become papal inter-nuncio at the Hague. "You will be the right man in the right place," Monsignor Orsenigo bow-

ed, and the matter was closed.

The monsignor had hesitated for conscientious reasons, not considering himself fitted to deal with the responsibilities of the position. But the pontiff thought otherwise, and thus disposed of a problem which for some time had caused speculation in Vatican circles.

Disliked Diplomacy

Monsignor Orsenigo's life, for the past 25 years has been devoted to works of charity. To be torn from the paths he had chosen for himself made him hold back; he was perplexed by the possible difficulties of a diplomatic post which has acquired special importance in view of the Russian conference recently held at the Hague.

Usually the representatives abroad of the Holy See are chosen from among the young priests who have attended the Academy of Noble Ecclesiastics in Rome, "the nursery of Cardinals." They are generally first sent out as secretaries, and are later promoted until they reach the rank of Papal Nuncio. The Pope had met Monsignor Orsenigo in Milan, where he had collaborated with him in a church paper called "St. Charles Borromeo." Pius XI. noticed then his great culture; his fluent knowledge of most modern languages, and the historical insight shown in some books which Monsignor Orsenigo had published. These qualities the Pope remembered when the question arose of who to send to the Hague, and the decision was quickly made.

FIGHT WITH LIONS

Savage Lioness Sprang Into Motor Car But Driver Escaped

NEW YORK, Aug. 22.—Having a savage lioness spring into a small car with one is an unusual experience even in South Africa. H. A. Snow, the naturalist and explorer from Oakland, California, who recently has been staying in this city, give the following account of this adventure on his recent tour:

"About twenty-five miles from Nairobi, in British South Africa, I had placed two camera men in the blinds a mile apart, and thought it would be possible to my automobile, and proceeding make a detour of five miles in a circle gradually drive some game toward the blinds. When I was about two miles from the blinds and passing over low rolling hills bordering the Theka River, I fired at a herd of gazelles and brought down a buck. I got out to get the animal when I noticed a lion stalking the herd.

"He was about fifty yards away, and presently disappeared. Thinking I had seen the last of him, I put the buck in the car. I looked again, and the lion raised his head. My blood was up and I meant to go after him. I made a detour around the hill, but coming over the top I found instead of one lion, six. They practically surrounded the car and I could not proceed. I halted the machine and left the engine running. Then I let fly at the biggest of the brutes. The shot went over his head, but the second shot brought him down.

"I had only three shots left and with them I brought down two more lions, and then saw behind me a lioness, evidently ready to charge. The only thing I could do was to start the car, and go straight ahead, for to turn around was impossible. But the first thing I knew the lioness came right over the top and into the back of the car. I ducked under the steering wheel and trusted to luck. The car gave a lurch and threw the lioness out. "I stood up and shot then, and

brought her down, and then the next thing I knew I was stalled on a hillock with, I feared, my car out of commission. I expected any minute that some of the other lions would come after me, but evidently they had had enough of the fight. I finally got my motor started again, and limped back to the blinds. There I got my son and the two camera men and we went back and picked up the lions."

POST OFFICE WINDOWS TO GO IN THE STATES

WASHINGTON, Aug. 21.—(By Canadian Press).—The familiar post office "window" where all sorts and conditions of people have received their mail for generations is to be abolished. Uncle Sam will serve his customers over a counter and quit shoving his post office wares through a hole. "The principle reason for the arrival of the counter is the parcel post," said a spokesman of the department recently. "Bulky packages do not easily go through the narrow slot at the bottom of the gridded windows."

Persistent advertising is absolutely necessary to success.

CANADIAN NATIONAL RAILWAYS. WESTERN LINES.
TENDER FOR TIES.

Sealed tenders addressed to the undersigned and endorsed "Tender for Ties" will be received at this office until twelve o'clock noon, Saturday, 14th day of September, 1922, for 4,500,000 railway ties to be manufactured from timber cut between October 1, 1922, and May 1, 1923, and delivered between December 1st, 1922, and September, 30th, 1923, on Canadian National Lines West of Armstrong and Port Arthur, in accordance with the specifications No. 2856 dated March 18th, 1919.

1,000,000 to be delivered on Canadian National Lines between Armstrong and Winnipeg.

SYNOPSIS OF LAND ACT AMENDMENTS
Minimum price of first-class and reduced to \$5 an acre; second-class to \$2.50 an acre.
Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emption abolished, but parties of equal value may arrange for adjacent pre-emption with joint residence, but such making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre before receiving Crown Grant.
Where pre-emptor has occupation more than 2 years and has made proportionate improvements, he may be issued a license to purchase, but no arrangement for adjacent pre-emption with joint residence, but such making necessary improvements on respective claims.
Records without permanent residence may be issued, provided applicant makes improvements to extent of \$200 per annum and records same each year, without actual occupation. If record same will operate as if future. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 1/2 acre cleared and cultivated, and residence of at least 2 years are required.
Pre-emptor may be purchased grant may be received another pre-emption, if he occupies land in conjunction with his wife, or other person, provided statutory improvements made and residence maintained on Crown granted land.
Uncultivated areas, not exceeding 20 acres, may be leased as homesteads, title to be obtainable after paying residential and improvement conditions.
For grazing and industrial purposes areas exceeding 640 acres may be leased by long term of company.
MIL. factory or industrial sites on timber land not exceeding 40 acres may be purchased on condition of payment of stumpage.
Natural hay meadows, inaccessibility existing roads, may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.
PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.
No fees relating to pre-emption are due or payable by soldiers on pre-emption records after Nov. 26, 1914. Taxes are remitted for five years.
Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, see or taxes on soldiers' pre-emption.
Interest on agreements to purchase town or city lots held by members of Armed Forces or deceased, acquired direct or indirect, remitted from an instalment to March 31, 1920.
SUB-PURCHASERS OF CROWN LANDS
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights to purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1922.
GRAZING ACT, 1913. for systematic development of livestock industry provide for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers range; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for stock of campers or travellers, up to 100 head.

ALASKA SALMON SEASON'S CATCH

Over Four Million Cases Estimated to Have Been Packed This Year

JUNEAU, Aug. 22.—The salmon pack of the Territory, it is estimated by E. M. Hall, assistant fisheries agent, will total approximately 4,043,000 cases this year. Mr. Hall's estimate is based on reports received from agents of the bureau of fisheries in all sections of the Territory in which canneries are located, personal observation and reports in some instances from the operators themselves.

If this estimate is approximately correct, and Mr. Hall is confident that it will be, it is evident that the salmon pack is virtually on a normal basis as compared with the pack of every year since 1914. It will be less than the two big years, 1917 and 1918, but in excess of last year's production of 3,446,173 cases, the 1924 pack being reported as 2,596,826 cases.

Previous Years' Pack

The pack of the past eight years, as shown by the records of the bureau of fisheries was:

- 1914—1,056,653 cases.
- 1915—1,500,295 cases.
- 1916—1,990,627 cases.
- 1917—5,917,286 cases.
- 1918—6,035,845 cases.
- 1919—1,583,688 cases.
- 1920—1,129,463 cases.
- 1921—2,596,826 cases.

The pack in 1917 and 1918 is considered abnormal and was reduced by the heavy demands on the fish caused by war-time conditions.

TROLLING SEASON IS ABOUT AN AVERAGE

Some Earned Good Money But Others Have Little Left; Fishing Continues

One of the white trollers fishing at Bonanza Island cashed in a check for \$800 over and above all expenses for a "season" of two months' work. That was the high end for the season. Another with two men cashed in \$120, but the time taken extended over a longer period.

The Japanese averaged about \$100 each for the two months and others about \$200. White fishermen varied a great deal. The best worked got good sized checks, higher than the Japanese, but some got almost nothing by the time they had paid for everything.

The buying stations at Dundas and Langara are to remain open but the one at Hippo Island will close.

SIXTY MILES FROM GALLON OF GAS MADE BY FRENCH AUTOS

PARIS, Aug. 22.—Gasoline consumption for automobiles is such a serious question here, with gas costing from 55 to 60 cents a gallon, that recent French tests to develop better carburetors are being continued.

Cars smaller and lighter than those generally used in the United States, recently have averaged about 60 miles to the gallon of gasoline in official public contests. The winner in the principal competition of this sort made 61 miles to the gallon.

Large cars, weighing more than 4,000 pounds, averaged close to 16 miles to the gallon in the recent Shasburg race of 110 miles over the Grand Prix course and under the same regulations. This was the first race of this kind organized by the Grand Prix officials, and it proved such a success that a similar contest is announced for next year.

These results, however, were under the special conditions that govern all such affairs and admittedly are not attainable by the average driver, particularly in the United States.

Several cars of a popular American make competed in the LeMans test for light cars, and their showings illustrates the progress made in economizing fuel. Equipped with the same carburetor as the winner that made 61 miles an hour, one ran 39 miles on a gallon, and another made only 36 miles.

These economy tests, according to carburetor manufacturers taught them lessons that will show next year improved design, but so far there has been no revolution in engineering that is applicable to automobiles in general.

HUDSON'S BAY COMPANY ARE FARMING REINDEER

Report of Sir Robert Kindersley Tells of Latest Venture of Big Corporation

In the report of Sir Robert Kindersley, president of the Hudson's Bay Co. to the shareholders recently, he said:

Over two years ago your company were approached by Mr. Stefansson, the well-known explorer, with a view to introducing reindeer into Baffin Land. A separate company was formed, in which your company hold the greater part of the capital, and a lease of the southern half of Baffin Land was secured from the Dominion Government free of charge for fifteen years, after which there is to be an annual rent of \$11,300. Five hundred and fifty reindeer, accompanied

SHE HAS RAISED A FAMILY OF TEN

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY NEVER FAILED HER

Mrs. Erin W. Stairs, East Waterville, N.H., writes: "I have raised a family of ten children and have always used Dr. Fowler's Extract of Wild Strawberry for summer complaint, and it has never failed."

Four years ago, when the cholera was about, some of my neighbors called in the doctor, but could get no relief. I told them about "Dr. Fowler's", and after taking it they were soon well again. I also used it for two of my own children at the same time when they were passing blood, and a few doses soon made them well."

If you want to be on the safe side ask for Dr. Fowler's Extract of Wild Strawberry, and insist on getting what you ask for. There are many imitations on the market, so be sure and get the original "Dr. Fowler's"; price, 50c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

by Lapland herders and their families and paraphernalia, were successfully transported in one of your company's steamers from Norway to Baffin Land last autumn.

In deciding to carry out this experiment, your company were actuated by the knowledge that the project had the active support of the government of Canada, and we also felt it was desirable that if the work was to be undertaken it should be done by your company, who possessed a thorough knowledge of the natives in that region, rather than by some corporation who had no such knowledge, and who might conceivably interfere unnecessarily with the hunters of fur-bearing animals.

Increase 30 Per Cent

Furthermore, we carefully investigated the results of the reindeer ranches in Alaska, where 2,000 reindeer were originally introduced, which have since increased to well over 200,000. We understand that the natural increase should be over thirty per cent per annum.

It must be recognized, of course, that the project is entirely in the nature of an experiment, the success of which is largely dependent upon climatic conditions, but one which it was evidently desirable should be made in the interests of Canada. That being so, it was only right that your company, being the largest trader in the district, should lend its aid.

Immense Area

Sir Robert referred to a statement in a periodical of the Canadian Pacific Railway that the area suitable to raising reindeer in Northern Canada amounts to 1,000,000 square miles, sufficient to graze 50,000,000 reindeer, but adds with typical conservatism: "I ask you to note that this is a quotation and not my own estimate."

TOO MUCH BEER AND ROLL OF BILLS GOES

Winnipeggers Lift Wad From American Visitor According to Story

WINNIPEG, Aug. 22.—The difference between \$595 in cash and two safety pins is a large number of long, cool beers.

Gus Reize, who came to Winnipeg from North Dakota a week ago told Magistrate R. M. Noble all about the money, the beer, and the safety pins when he appeared in city police court to give testimony against Thomas Parks, charged with stealing from the American visitor \$595 in U. S. money.

Gus came to town, he said, to invest his money in some farm lands. He had made all arrangements to see some land in the country, but the owner was unable to accompany him, so he gave up the trip the Monday following his arrival here and went to the Stratheona hotel, where he had a beer—at least, he said, what they called beer. There he met Tom Smith, and they had two or three beers. Then the two went out for a while and had one or two drinks of beer, after which they came back to the hotel and had two or three beers. After dinner together, had a couple of glasses of beer, and when Tom Parks came along and was introduced by Smith, the trio quaffed several beers and had a cigar.

More Beer

Forth the three sallied, this time to the Sherman hotel, where Reize continued his story, they had a glass of what undoubtedly was beer. That was all he remembered. When he woke up on the cold stone floor of the Sherman hotel cellar he had two safety pins. The \$595 roll the safety pins had embraced was gone, vanished, an unknown quantity. The safety pins were in as the only exhibit in the case, despite objections of Hugh Guttler, defending Parks, who didn't see how anyone could identify a couple of safety pins.

Stafford Savage, who was held as a material witness, then told the court how he had seen three men come into the hotel and have a drink of beer, after which Reize laid his head upon the bar and tried to go to sleep. Going down in the basement the American was followed shortly by Parks and Smith, and when the two returned a few moments later Smith had a roll of money, some of which he gave to Parks, according to Savage's testimony.

RUSSIAN BANDIT DIED FIGHTING

Was Last Leader of Band That Opposed Bolsheviks

TAMBOFF, Russia, Aug. 22.—Alexander Antonoff, whom his followers considered in the light of a reincarnated Robin Hood, but whom the Soviet government classed as a Jesse James, fought to the last when surrounded and killed by the state police at his hiding place in a tiny village near Tamboff recently.

Antonoff once was in the old Russian army. When the Bolsheviks took power he opposed them and, gathering about him thousands of followers—fast horsemen from the Steppes—he harassed the Red army in the south of Russia for several years.

Betrayed by Followers

Last September Antonoff's last band was broken up by the Reds. For months the state police sought out his hiding place. Finally some of his former confederates were promised amnesty and betrayed him.

Early one June evening eight men led by Policeman Pokulokin came to the hut of a peasant woman, Marie Katosanova, whose name will go down in the fantastic legends surrounding the life of Antonoff. In this hut in the thick woods near the river Vorona, Antonoff was hiding. The police called to her and she came out of the house denying Antonoff was there. No sooner had the woman turned away than two men started firing upon the police from the windows of the hut. Peasants, attracted by the shooting, ran to the village church and rang the bells and hundreds of peasants armed themselves with sticks and stones and formed a cordon about the hut.

Was Burned Out

For several hours the battle continued until, with night at

WON SPOON AT RIFLE RANGE

W. M. Brown Made Best Record For Week and Secured Memento

Lieut.-Col. McMordie has donated a spoon each week to be shot for at the local ranges and this week it was won by W. M. Brown. The shooting showed some improvement, the score of 85 out of a possible 165 being not bad work. In the following scores there was a possible 35 at each distance:

	200	500	600	Ttl
W. M. Brown	30	32	23	85
W. Davies	30	26	23	79
W. J. Greer	30	25	22	77
C. Lemon	27	27	24	75
E. J. Lister	29	24	22	75
M. M. Lamb	29	23	22	74
D. Green	31	10	28	69
H. White	28	18	16	62
R. E. Hudson	24	12	16	52
J. B. Elford	20	10	14	44
F. Smith	14	15	14	44

Sport Chat

A letter has been received by Charlie Blythe, manager of the Sons of Canada baseball team, from Jimmie Shakespeare, the star hurler of the Sons' team of last season and a few before that. "Chucker" is now located at Mullen, Idaho, where he is engaged as second string pitcher with the semi-pro team of that town in a league which comprises Spokane and Butte and other towns in that country. He has pitched several games this season and has only been beaten once by a score of 4 to 3 when his field fell down on him. "Chucker" would like to come back to Prince Rupert and says that nobody needs to be surprised if he steps off the boat any day. He says that, if provision could be made for them, he would come back with a catcher. No doubt it would be a great acquisition to the local team but it hardly looks as if it can be managed. It is understood that Shakespeare is due for a berth in the Pacific Coast league next season.

Jack Olsen, Pacific Coast light heavyweight champion wrestler, is due here on the Prince George tomorrow morning to go into a week's training for the match to be pulled off in the Empress Theatre between himself and Ad. Gustavo, Argentine middleweight champion, next Wednesday. (August 30). Gustavo has been here for a month now and many local fans who have seen him are giving him strong backing and are convinced that Olsen will have to produce "the goods" to handle him.

The Sons of Canada and Cal-lies, keen contenders in many a football fixture of the past, are due to meet tonight in the first game of the Gilhuly Cup series. Both teams being eager to go into the finals for the valued trophy, a good hot game may be expected and a bumper crowd of soccer fans will likely be on hand. The Stuart Shield series is being deferred for ten days while this contest is in progress.

HOLY ORDERS FOR WOMEN IN CHURCH

Order of Deaconesses Proposed For Anglicans at Convention

NEW YORK, Aug. 22.—(By Canadian Press.)—Holy orders for women will be put before the coming convention of the Episcopal Church in Portland, Ore., according to reports published here. It has been felt for some time that the Order of Deaconesses was not clearly enough defined from the province now covered by the sisterhoods, and a commission was named at the General Convention in 1919 to present a report to the convention.

"Minor orders" only are contemplated, and the report makes this clear in the proviso that nothing in the proposed canon shall be taken "as favoring the opening of the priesthood to women, but instead, to provide an order similar to the primitive Order of Deaconesses as found in the Epistles of St. Paul and in the Acts of the Holy Apostles."

It is expected that this report will create more fire than a similar one passed at the Pan-American Conference in London in 1920. The fear is expressed that the canon will mean the opening wedge to the priesthood for women.

Cookies and Small Cakes

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

(All measurements for all materials are level.)

COOKIES

- 1/2 cup shortening
- 2 cups sugar
- 1/2 cup milk
- 2 eggs
- 1/2 teaspoon grated nutmeg
- 1 teaspoon vanilla extract or 1/2 teaspoon of 1 lemon
- 4 cups flour
- 3 teaspoons Dr. Price's Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough additional flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

COCOA DROP CAKES

- 4 tablespoons shortening
- 1 cup sugar
- 1 egg
- 1/2 cup milk
- 1/2 cup flour
- 3 teaspoons Dr. Price's Baking Powder
- 1/2 cup cocoa
- 1/2 teaspoon salt
- 1 teaspoon vanilla extract

Cream shortening; add sugar and beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Half fill greased muffin tins with batter and bake in moderate oven about 20 minutes. Cover with boiled icing.

ORANGE CAKES

- 4 tablespoons shortening
- 1 cup sugar
- 1/2 cup milk
- 1 egg
- 2 cups flour
- 3 teaspoons Dr. Price's Baking Powder
- 1/2 teaspoon salt
- 1 teaspoon orange extract
- 1/2 teaspoon of 1/2 orange

Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

ASIA HOME OF ANIMAL LIFE

Bones of Possible Missing Link Among Those of Reptiles and Others.

VALUABLE FOSSILS.

Expedition from American Museum of Natural History Meets Success.

NEW YORK, Aug. 22.—(By Associated Press).—Proof of the paleontologist's pet theory that Asia was the "mother of continents" and the cradle of life on this globe—carrying with it great promise of the discovery in the wastes of the Gobi desert of the long-sought "missing link" in the evolution of mankind—has been found by the Third Asiatic Expedition led by Roy Chapman Andrews Museum of Natural History, Henry Fairfield Osborn, the Museum's director.

The "proof," to the uninitiate would appear to be just a heap of fossilized bones, dug up by a band of curious men in the frozen wastelands of Mongolia. But to the mind trained in groping back through hundreds of thousands of years for history of the days when man was not, these fossilized remains of dinosaurs and other prehistoric beasts and reptiles furnish a conclusion simple and inevitable as "two times two."

A little further on than the expedition has gone so far is the section labelled "primate"—the species of ape held by paleontologists to have been the first ancestor of man.

So enthusiastic has Dr. Osborn become over the expedition's discoveries to date, and the promise for the future that he plans to sail for Peking, the winter headquarters, September 15, to get first hand reports and aid in mapping out the campaign for the second year of the five-year program.

Answer to Question.
Writing, with elation, on the report received from Dr. Andrews, Dr. Osborn said of the fossil deposit:

"This discovery gives the answer to one of the four great questions which the expedition sought to solve; namely, whether ancient Asia is the mother of the life of Europe in the far west and of paleontologic Garden of Eden—of the birthplace, or Asiatic homeland, from which many kinds of reptiles and animals spread westward and eastward."

"The existence of such a centre has long been a matter of pure theory—We have waited until 1922 to verify it. This verification has come with unexpected suddenness and with a completeness beyond our fondest hopes, and there still remains four years in which the great expedition, under Roy Chapman Andrews will fill out the details."

Mr. Andrews' report was made in a letter dated May 9 at Urga in upper Mongolia. The party had set out from Peking a month before, traversing the desert by motor truck toward Turin, where they planned to meet a caravan of 75 camels with supplies, which had been sent on ahead.

Bones of Monsters.

Halfway across Mongolia, between Kalgan and Urga, the attention of the explorers was caught by some interesting geological exposures, and camp was made. While supper was cooking, the three geologists of the party—Walter Granger, Charles

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-Intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood. As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich. 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

P. Berkey and Frederick Morris—began prospecting, and within a few yards of the camp, discovered some bones of dinosaurs. This was the first discovery of giant reptiles in northern Asia.

The region promised to be so interesting that Mr. Andrews left the geologists at work and pushed on to Turin, 152 miles south of Urga, with other members of the party to meet the caravan. He accompanied the caravan to Urga, planning to plunge deeper into the heart of Asia. But at Urga he received a letter from the fossil-hunter-in-chief, Granger, telling of such discoveries that he hurried back.

The dinosaurs' remains of which were discovered in great profusion, were found to belong to the Upper Cretaceous period—the very close of the Age of Reptiles—and to be strikingly similar to those of the Rockies in America and those found in Europe.

Mammalian Fossils.

On top of the dinosaur beds were layers of mammalian fossils, belonging to the dawn period of mammal life—the Socene. Above these were fossils belonging to the Lower Miocene, or middle period, and mingled with these were the remains of a giant mammal not found either in Europe or North America, but similar to one discovered some years ago in Baluchistan, southwest India, and dubbed Baluchitherium—the largest land animal known to have existed.

Other findings included fossils of rhinoceroses, immense tortoises, large carnivores, crocodiles and turtles and enough others to make a Barnum weep that none such still live. These bygone animals, said Mr. Granger, bore unmistakable resemblance to those found in Wyoming, including two kinds of flesh-eating dinosaurs and a smaller running fellow called the ostrich dinosaur.

There were other fossils, of the dinosaur known as the Iguanodonts—a tall, two-legged herbivorous beast which ranged from southern England to the New Jersey coast.

CHURCH TREASURES IN RUSSIA SHORT OF EXPECTED SUM

Work of Melting Down is Going on at Ekaterinburg.

MOSCOW, Aug. 22.—The work of melting down the treasures confiscated from the Russian church by the Soviet government has begun at the smelting works at Ekaterinburg, in the Ural mountains.

Up to the 25th of June there had been requisitioned, according to the Pravda, from all parts of Russia, 857 pounds of gold; 718,776 pounds of silver; 29,955 diamonds; 5,024 pearls; 26 garments embroidered with seed pearls to the total weight of 239 pounds of pearls; 59,267 rubies, emeralds and other precious stones; 2,109 pounds of gold and silver articles ornamented with diamonds and other precious stones; 763 other articles of fine workmanship but of non-precious metals; silver coins to the amount of 17,128 rubles, and gold coins amounting to 4,540 rubles.

The largest diamond secured is said to have been something over 35 carats, discovered at Petrograd. Most of the diamonds, however, are small and of doubtful value.

Moscow churches furnished

about 25 per cent of the total secured up to June 25.

One Fourth of Sum
M. Kalenin, president of the All-Russian Central Executive Committee, says the government had hoped to realize one hundred million gold rubles from the treasures seized, but the actual value of the articles in hand at present is probably only about one-fourth of this amount. The most precious of church treasures, located in some of the historic monasteries and considered of museum value, were not seized. Also many valuable articles were secreted by the priests, or stolen before the requisitioners arrived.

ILLITERACY INCREASE AMONG WHITE CUBANS

Failure of Education System Said to Imperil Republic

HAVANA, Cuba, Aug. 22.—Illiteracy among white Cubans between the ages of 10 and 14 years has increased 15.5 per cent between 1907 and 1919, and among blacks 22.3 per cent, according to an analysis by Diario de la Marina of data contained in the 1919 Cuban census, which has just been made public. The paper points out that this increase in illiteracy occurred while Cuba enjoyed self government, and declares that it indicates a "fundamental crash"; failure of the Cuban school system.

The following figures are quoted by Diario de la Marina to substantiate its analysis: The 1907 census showed that 79.5 per cent of native white and 69.9 of native black children could read and write. The 1919 tables showed a decrease in these per centages to 55.1 and 47.6 respectively.

In pointing the moral of its analysis, the paper asserts that this illiteracy imperils the republic, for the ignorant children of 1919 will soon be the citizens who will direct the country's destinies.
