COUNCIL BADLY SPLIT ON CIVIC WAGE REDUCTION QUESTION

LAPOINTE IS COMING HERE IN SUMMER

Minister of Marine to Be One of Delegation of Cabinet Ministers to Visit Rupert.

OTTAWA, March 30.—The Fisheries regulations for 1922 will contain no change with the exception of the local regulations in regard to a slight lengthening of the close season.

An application for a cannery license in the north has been granted.

The embargo or export tax on fresh salmon out of British Columbia made by the canners has been refused. The request for permission to use gas boats on the Skeena River has been held over pending investigation by the minister in person.

It is likely a delegation of cabinet ministers will visit Prince Rupert after the session and one of the number will be the minister of marine and fisheries, Ernest Lapointe.

CHURCH UNION IN AUSTRALIA

Important Protestant Conference in Sydney is Debating the Question.

LONDON, March 30.—An important conference of representatives of the Anglican, Presbyterian, Methodist and Congregational Churches in Sydney, Australia, is debating the question of Church Union states a Sydney's Reuters' press correspondent. Archbishop Charles Wright, Primate of Australia, is presiding at the conference. The discussion has been cordial and the prospects for an agreement are said to be very hopeful.

WOMEN GIVEN EQUAL RIGHTS

Electoral Disqualification to Be Removed by Government Measure in Parliament.

OTTAWA, Mar. 30.—The Euler motion demanding the abolition of the clause in the Elections Act disfranchising women not born on the American continent was carried in the House of Commons yesterday without a division after the Premier had promised a government measure placing all women on an equal status and removing the necessity for a special certificate.

The clause was originally a war measure and was incorporated in the 1920 Elections Act.

THREE YOUNG MEN WERE ASPHYXIATED IN FREIGHT CAR

TRENTON, Mo., March 30.—Three young men were found asphyxiated in a freight car here yesterday.

One body was identified as that of George Cook, aged 25, of Toronto. A letter in his pocket indicated that he was enroute to Toronto because of the death of his sister and the illness of his mother. The car in which the young men were found was consigned to Canada.

Aviators Pass This Way on Round the World Trip Leaving London April 20

VANCOUVER, March 30.—It was announced this morning by Major McLaurin, superintendent of the Jericho Seaplane Station here, that he has been instructed by Ottawa to prepare for the arrival here early in May of Sir Ross Smith and Sir Keith Smith, aviators, who will start on a round the world airplane flight from London on April 20.

From London the airmen will go to France, cross Southern Europe, Asia Minor, India, China, Japan and Siberia. Crossing the Pacific at Behring Straits, he will fly down the Alaskan coast to British Columbia.

Major McLaurin states that gasoline and other necessities for airmen will be sent north to some point between Vancouver and Wrangell, so that supplies may be replenished. He has not yet decided on a suitable harbor up north, says McLaurin.

GOVERNOR TO VISIT CITY

Fred Stork Announces That Lord Byng Will Be Here in Summer.

Word has been received from Fred Stork, M. P. at Ottawa that His Excellency the Governor-General is to visit Prince Rupert during the coming summer. Lord Byng will tour the whole of Canada, going north to the Yukon, and will make a stop at this city.

B. C. BOARDS OF TRADE ON MANY TOPICS

Favor More Rigid Restriction on Oriental Immigration Leading to Total Exclusion.

VICTORIA, March 30.—The Associated Boards of Trade in session here yesterday appointed a special committee to report on the effect of the importation of foreign oil is having on the coal industry of the province.

Thomas Graham, of the Canadian Collieries (Dunsmuir) Ltd., said the Government was willing to impose a high duty if the conditions warrant.

A resolution was passed urging the enactment of a town planning act.

Another resolution was passed endorsing the "made in British Columbia" campaign.

Premier Oliver was the chief speaker at the luncheon yesterday. He urged increased production and optimism.

The convention went on record as favoring more rigid restrictions on oriental immigration and land tenure leading up to the total exclusion of Asiatics.

BIRKENHEAD MUST TAKE MONTH'S REST

LONDON, March 30.—Lord Birkenhead, Lord High Chancellor, has been ordered to take a month's rest owing to overwork having affected his eyesight.

LOCAL CONTRACTORS WILL BUILD MENTAL HOSPITAL, ESSONDALE

VICTORIA, March 30.—The contract has been awarded to McDougall & McNeill Limited, contractors for the Prince Rupert court house, to erect the new mental hospital at Essondale for the provincial government, the work to commence immediately. The contract price is \$800,000.

BOATS COULD EASILY DOCK LOCAL YARDS

I. J. Tait, Superintendent Engineer C. G. M. M., to Report on Local Situation.

I. J. Tait, superintendent engineer for the Canadian Government Merchant Marine, who arrived yesterday from the south, will return to Vancouver tonight on the Prince Rupert on his way back to Montreal; his headquarters. Mr. Tait is making a tour of the Pacific Coast and was sent to Prince Rupert to look into the local situation with regard to the docking of the ships here. The company operates about 15 vessels on the coast and Prince Rupert and Esquimalt are the only places where they can be docked. Mr. Tait will report on what he has seen to the head office of the company.

Although Mr. Tait said that he was not in a position to make a definite announcement as to the intention of the company or as to his report, he said that all the ships of the fleet could be easily handled here.

FOUR THOUSAND MILE FLIGHT

Aviators Took Air at 7 This Morning and Hope to Reach Brazil Sixty Hours.

LISBON, March 30.—An attempted flight from Lisbon to Pernambuco, Brazil started this morning, naval Captains Saadoura and Coutinho taking the air at 7 o'clock.

It is hoped to make the trans-Atlantic flight of more than 4000 miles in sixty hours.

LENIN AGAIN DEAD.

LONDON, March 30.—A General news despatch from Paris says a report that Premier Lenin of Soviet Russia is dead is published here by Rome newspapers, who treat the report with reserve.

THIS GIRL THE SPOOK OF ANTIGONISH.

The Antigonish ghost is a girl, 16 years old, according to Dr. Walter Franklin Prince of the American Research Society, after almost a week's search for a solution of the mystery. It was the daughter of Mr. and Mrs. Alexander Macdonald of Caledonia Mills, Nova Scotia—Mary Ellen Macdonald—who, impelled possibly by a disconcerting intelligence, took clothes from the line, braided the tails of cows and started within the farmhouse all the fires. The picture above shows Mary Ellen Macdonald.

Council Turns Down Resolution and Two Amendments on Matter of Wage and Salary Reductions

The city fathers wrangled for two hours in special session yesterday afternoon on the civic wage and salary question and the proposed reductions and, after producing two amendments and a motion pertaining thereto, both of which were defeated on the votes being taken, found themselves no further ahead on the matter than they were when it was first brought up last month. As a result of the deliberations and actions the whole matter is practically at a standstill without progress having been made as far as changes are concerned. Many hours during the past month have been spent on the question and about the only gainers as a result are the city fathers, themselves, who may or may not have learned a little more about civic administration and its cost after delving into the wage and salary question.

Outside of a blanket recommendation for a general cut of ten per cent in all wages and salaries, which emanated from a council committee meeting where it was reported to have been decided upon unanimously, from the outset there has been little of a definite nature produced on the question and the different views of the mayor and aldermen as expressed yesterday, were instrumental in killing the whole matter of proposed revision, no one course of action being acceptable to all members. On the whole it was a fight between the Finance Committee, who were apparently agreed on the ten per cent cut with final settlement by an arbitration board, and the majority of the rest of the council who were of varied opinions. The Board of Works claimed that it had done its share towards retrenchment in civic administration and the Utilities Committee that it was tied up with union agreements and interlocking of offices with the Finance Committee. Although reductions or readjustments in salaries and wages of employees of the city are for the time being "up in the air" it is expected that the question will make its appearance before the council again in a very short time.

IRISH JOURNAL BADLY TREATED

Office Freeman's Journal Wrecked and Fired—Staff Taken but Afterwards Released.

DUBLIN, March 30.—A large party of armed men held up the offices of the Freeman's Journal, broke the presses, poured gasoline about and fired the building. They held the staff in custody for a few hours and then released them. Managing Editor Moore is a Toronto man.

Nearly all the motor lorries in the city of Cork have been commandeered and driven to an unknown destination, presumably by Republicans.

Captain Collins, the Cork harbor commission, was kidnapped.

NEGOTIATIONS PROGRESSING
Irish Question is Being Considered at Conference in London Today.

LONDON, Mar. 30.—Leading representatives of the British Government, the Irish Free State and the Ulster Government gathered today to consider proposals advanced yesterday at the initial session of the conference to consider means for pacifying Ireland. That negotiations are progressing "very satisfactorily" is the only authoritative word given out.

CHARLES IN BAD SHAPE

Former Court Physician is Called to Side of Former Austrian Emperor.

VIENNA, Mar. 30.—Dr. Delug, formerly Austrian court physician, left Vienna today for Funchal, where he will attend former Emperor Charles. Reports received here today from Funchal say that the condition of Charles is critical.

The sum of three million francs has been raised among the monarchists here in aid of the ex-ruler.

MAY DEPOSE W. J. BOWSER

Growth of Sentiment in Conservative Ranks Against His Leadership Increase.

VANCOUVER, March 30.—One of the important matters to be discussed at the big Conservative convention to be held here in June next will be the question of leadership. The young Conservatives are out in open rebellion against the Bowser leadership and many others of the party are coming round to the opinion that the party would be stronger with a new leader.

The recent setback at the interior elections have had a depressing effect on the members of the party here and in other parts of the province and drastic measures are likely to be decided on to try to reinstate the party in the confidence of the people.

It is pointed out here that Mr. Bowser secured his position as head of the party, not by being elected to that position but by ousting out the late Premier McBride. All these old scores are being now remembered against him.

PLUGGING CASE IS DELAYED IN SOUTH TILL MANSON BACK

The Comox-Alberni plugging case, in which Graham Campbell has launched prosecution against Gordon S. Wismer on Election Act charges, has been remanded for eight days in Vancouver until Hon. A. M. Manson, attorney-general, who is to personally investigate the matter, returns from Ottawa. A proviso has been made that the time may be further extended if Mr. Manson has not returned within the eight days.

W. D. Carter, K.C., deputy attorney-general, appeared in the Vancouver police court stating that Mr. Manson had wired from Ottawa asking that the proceedings be delayed until he returns.

SIR AUCKLAND GEDDES ARRIVES IN SEATTLE

SEATTLE, March 30.—Sir Auckland Geddes, the British ambassador to the United States, and Lady Geddes are here today. Civic officials are welcoming them this afternoon and tonight Sir Auckland will address a meeting of the British societies of the city.

JAMES M'KAY OF HAZELTON WAS KILLED

Thrown from Wagon Last Night and Dragged Dying in Hospital.

WAS FORMERLY HERE.

HAZELTON, March 30.—James McKay, a well known oldtimer, running a transfer and taxi service in this district, met with a fatal accident last night when enroute to the railway station. The wagon evidently skidded when it struck ice in the road, throwing McKay from the seat down between the front wheels where he hung on and was dragged some distance. He was taken to the hospital where he died three hours later, never regaining consciousness.

McKay ran a parcel and delivery service here for some years, having been formerly in partnership with Andrew Huddle of this place. Before that he ran a parcel delivery service in Prince Rupert during railway construction days. He leaves a widow and three small children living in Hazelton and a mother and brother and sister in Calgary.

CHILDREN BURN TO DEATH AND MOTHER DYING

Father is in Jail on Charge of Being in Possession Stolen Property.

NANAIMO, March 30.—James and Grace Dibley, 19 months and 5 years respectively, were burned to death and their mother Mrs. Victor Dibley, was burned, probably fatally, when their home on Dog Fish Island was destroyed by fire yesterday.

The fire is believed to have been the result of Mrs. Dibley attempting to start a fire with gasoline.

The woman's husband is being held in jail here on a charge of being in possession of stolen property.

HEAVY VOTE FOR POINCARÉ

French Chamber of Deputies Supports Government on Army Service.

PARIS, Mar. 30.—The government of Premier Poincaré yesterday received a vote of confidence in the Chamber of Deputies, the vote standing 305 for the government and 157 against. It was taken on the army service question. A motion for a reduction of military service to eight months was defeated.

ITALIAN HARBOR STRIKE IS OVER

ROME, March 30.—Leaders of the harbor strike which has been called for two weeks in sympathy with the striking port workers are satisfied with the measures taken by the government to end the strike and have sent word to all ports calling it off.

DAILY EDITION

Thursday, March 30, 1922.

Visit of Governor Will Be Appreciated.

The announcement published today that Lord Byng, Governor-General of Canada, will visit Prince Rupert is one that will be received with appreciation by the people of this city.

Liberals and Allies Have Huge Majority.

The vote taken at Ottawa on Tuesday indicates that the Progressives and the Liberals are determined to stand side by side in the interests of good government.

If the Liberals and Progressives stick together and vote together there will be no difficulty in carrying on. Each will tend to modify the policy of the other and the country will benefit.

School Fiasco Is Regrettable.

The Booth School fiasco is a most regrettable affair. It also seems likely to prove expensive for the ratepayers of the city who will, apparently, be saddled with the cost of rebuilding part of it.

It seems clear from the reports of experts that there is no danger to pupils who may attend. At the same time the job must be made permanent and complete soon and the citizens must pay the bills.

Many Would Like to Hear Lloyd George.

Many people in this city as in other parts of the Empire would like to hear Premier Lloyd George address the British House of Commons. Mr. Lloyd George moves the vote of confidence in connection with the Genoa conference.

SCHOOL SAFE FOR OCCUPANCY

City Engineer and Experts Made Examination Yesterday—Meeting Saturday.

At a special meeting of the school board held yesterday afternoon a report on the condition of the Booth School was received from Chairman W. T. Kergin and P. F. Whittaker, city engineer which made it quite clear that while there was faulty work in the new school and some rebuilding would have to be done the structure is quite safe and could be used at any time without the least danger.

The building was visited yesterday by Dr. Kergin, accompanied by the city engineer, the superintendent in charge of construction at the station and a government inspector. As the result of an inspection it was found that the lower part of the building was quite solid, so solid that it was with difficulty they were able to get a brick out of the wall. In the upper part, however, things were different. The mortar was soft and crumbly and the work was anything but first class.

Dr. Kergin said that even to a layman it looked like slovenly workmanship. It was not plumb and there were one or two places where you could see daylight through the wall. The mortar in the upper part was nowhere perfect. The important thing to know was whether it was perfectly safe or not. He believed the engineer was satisfied that it was perfectly safe.

Mr. Whittaker said if they protected the upper part from water and let the building dry a little longer it would be perfectly safe to occupy it until the holidays when permanent rebuilding work could be done such as might be necessary. The work done by Peyton in the lower part of the building was exceedingly good. Above, the walls were wet and the mortar flaking. A few bulges might have to be removed and in the summer he thought the walls would have to be taken down to the window heads. Mr. Potter did not think so but he did not say so.

In answer to Mr. Patmore, Mr. Whittaker said he was perfectly willing to give the board a letter saying that the building was safe for occupancy.

After considerable discussion in regard to securing an expert to make a thorough examination, the Mayor was asked to attend.

Mayor Rochester said he had visited the building this afternoon in company with two men from the station building and they had said there was no menace. If the water continued to come in, it might make the building unsafe but the walls were partly dry and he thought they should wait and see the result.

Mr. Whittaker said if they protected the upper part of the walls and allowed them to dry out and gave an undertaking that building would be repaired in the summer, everything would be all right.

The Mayor said it had been proved without any doubt that all the trouble came from the top. If the top were waterproofed, the building would have a chance to dry out. There were a lot of places where the wall was quite hard and at other places the mortar would hardly hold the brick.

Dr. Kergin said no one questioned the matter of the poor workmanship in the building.

Mr. Rochester said it was drying and he thought it would be better not to occupy the building for a few days longer.

Another Special Meeting. It was then arranged that another special meeting should be held on Saturday at five o'clock which the mayor promised to attend. In the meantime the school will remain closed. It was also decided to secure any other rooms until after Saturday when it would be decided what was best to do. A joint meeting will also be held with the city council to decide on an expert who should make a thorough examination of the building with a view to putting it in perfect order in the summer holidays.

Mr. Patmore said they would not reopen the building unless they were thoroughly convinced it was safe.

BEYNON IS AGAIN ORDERED OFF PORT SIMPSON RESERVE

William Beynon of Port Simpson, charged yesterday by the Dominion police with returning to the Indian reserve after having been lawfully removed therefrom, was found guilty by Stipendiary Magistrate McMullin and released on suspended sentence with the understanding that if he was again found on the reserve he would immediately be brought before the magistrate and sentenced.

The case was brought under the trespass provisions of the Indian Act, which provides that no persons other than Indians of the band are allowed to reside on an Indian reserve without the written sanction of the superintendent general of Indian affairs. It was pointed out to Beynon that if he was brought back before the magistrate he would receive a straight jail sentence without option of fine or appeal.

Eminent Ethnologist.

Beynon is a Victoria half-breed and is married to a woman of the Port Simpson tribe. Last year he was convicted by Magistrate McMullin of attempting to supply liquor to Indians, and his wife was convicted of supplying and was fined \$50. In 1919 he was ordered off the Indian Reserve by Magistrate McMullin but has persisted in remaining there. He claims to be a high official of the ethnological branch of the department of Indian affairs and a lengthy article appeared in the

Vancouver Province some time ago in which he was given the credit of being the greatest living authority on Indian ethnology and investigation. Constable Watkinson conducted the prosecution yesterday and L. W. Patmore of Patmore & Fulton appeared for the defence.

Ten Years Ago in Prince Rupert

March 30, 1912.

Another outbreak is feared among the Indians of the Nass River. Two business men, Alex. Wallace and Fred Benworth, were compelled to return from Mill Bay in a launch unable to proceed any farther on account of the hostile attitude of the natives. Fifteen other white men were also forced back.

Dr. W. B. Clayton has demanded an apology from Mayor Newton for a remark passed in a public meeting in the recent provincial campaign. The matter was taken up in last night's council meeting but it was decided to settle it privately.

Anderson & McKinnon have secured the contract for the building of the concrete foundation of the new Anglican Church.

BIG TANKER HERE WITH FUEL OIL

J. A. Moffatt Unloading Half Cargo in Local Tanks and Will Clear Tonight for Anyox.

The Standard Oil tanker J. A. Moffatt reached port yesterday afternoon from San Pedro, California, with about 75,000 barrels of fuel oil. Half of the cargo is being discharged into the local Imperial Oil tanks at Hays Cove and the ship will clear tonight for Anyox, where the remainder will be delivered.

ROYAL YEAST CAKES Canadian Made As a health builder, Royal Yeast is gaining in popularity every day. It is a food - not a medicine. It supplies the vitamins which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamins, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market. Two to four Royal Yeast Cakes a day will work wonders: A full day's supply can easily be prepared at one time by using one glass luke warm water and teaspoon sugar to each yeast cake. Allow to stand over night in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day. Send name and address for free booklet "Royal Yeast Cakes for Better Health." E.W. GILLET COMPANY LIMITED WINNIPEG TORONTO CANADA MONTREAL

DEVIL FISH ARE CAUGHT

Local Fisherman Captured 13 of Them in Skeena Yesterday—Table Delicacy.

Some people might not like the idea of eating octopus or devil fish, but to others this ugly monster of the deep is considered quite a delicacy. A halibut fisherman off the mouth of the Skeena River yesterday afternoon captured thirteen of these ferocious looking creatures and brought three of them to the Prince Rupert Fish Market in this city. Two of them have already been sold, one to some Japs and the other to a white man. The third is on exhibition in the shop window, where it is attracting quite a lot of attention.

The fish were caught yesterday off the rocks of the river by the fisherman in a rowboat. The ten which were not brought here will be used for halibut bait.

The meat of the devil fish is white and has a surprisingly dainty appearance. It looks like eel flesh but has a taste all of its own, like that of skate more than anything else.

SCHAEFER DEFEATED WILLIE HOPPE BY TWO GAMES OUT OF THREE

CHICAGO, March 30.—Jake Schaefer, retaining the world's eighteen two ballline billiard championship, defeating Willie Hoppe 32 points on three games, Hoppe won last night's game. Schaefer the other two.

COUNCIL TURNS DOWN RESOLUTION AND TWO AMENDMENTS ON MATTER OF WAGE AND SALARY REDUCTIONS.

(Continued from Page One.)

with the reading of the mayor's report on the first committee meeting on wage readjustment where it had been decided to cut all city salaries, with the exception of the city solicitor's and the city engineer's, by ten per cent. It was then moved by Ald. Collart and seconded by Ald. Kelly that the resolution of last Monday night calling for a Board of Arbitration be rescinded to make way for the resolution to follow. This was carried. Another resolution that notice be given to the local International Brotherhood of Electrical Workers that the agreement setting out wages, etc., for electrical workers of the city cease to be in force from and after May 1 with a view to opening the way for the proposed general wage cut was also carried.

Main Resolution.

The main resolution of the meeting, moved and seconded by Ald. Collart and Ald. Kelly, was then presented. It was as follows:

"WHEREAS, in the opinion of the council, the wages and salaries hereinafter set out should be made owing to the increase in the cost of living.

"And whereas, the matter of such reduction of wages has been discussed on several occasions with representatives of the employees who have emphatically opposed any such reduction and have requested that the matter be made the subject of arbitration under the Industrial Disputes Act."

"And whereas, the council is desirous that the new scale of wages should apply from and after May 1, 1922.

"And whereas, it is expedient that the matter in controversy between the city and its employees be made explicit,

"Now, therefore, be it resolved that a ten per cent reduction in wages and salaries be made to become effective from and after May 1, 1922 except in the cases of the city engineer and the city solicitor; that thirty days' notice be given the employees that such reduction in wages will be made from and after May 1, 1922; that the council notify the employees of its willingness to submit the matter to a Board of Arbitration; that proper steps be taken to have the matter dealt with under and in accordance with the provisions of the Industrial Disputes Act; and that the mayor be authorized to take any and all steps that may be necessary in procuring a suitable Board of Conciliation if required."

Silversides Opposes.

Ald. Silversides said that he did not like the wording of the resolution. A general ten per cent reduction to him did not seem feasible especially in connection with small salaries. The electrical workers wages were based on those in force at Vancouver and he felt they should be revised this year on that basis. Outside labor, he understood, did not average \$100 per month so no cut should be considered there.

Ald. Kelly stated that wage reductions had become general. All the city wanted was arbitration which would be fair to all and might result in no cuts being made. He was willing to see that all got a fair and square deal.

Ald. Perry felt that the ten per cent reduction was putting ammunition in the hands of the board. Suggestions of a prejudicial nature such as this should not be advanced. The Conciliation Board should act

Nervous Breakdown Couldn't Sleep Nights.

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, irritability, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected, too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damgaard, Young's Cove Road, N. B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

without suggestion. All concurred that some of the employees were not being paid as high as they should be and in such cases reductions could not be supported. He did not oppose conciliation.

Collart Scapegoat.

Ald. Collart declared that the rest of the council were trying to make him the "scapegoat" for wage reductions. All the members of the council must take their share of the responsibility for all who had attended the committee meeting had agreed to the reduction. He thought the time was ripe for readjustment and this would be the right way to bring it about. The conciliation board would protect the small fellow. The resolution presented would bring matters to a head and would put an end to the bickering and arguing.

Ald. Montgomery said he was opposed to cutting wages but if the majority favored it he might as well fall in line. He would favor reorganization but he felt that the time was not ripe for large cuts. The public generally, he thought, favored reorganization. Some departments possibly had too many employees and there was too much overtime. There would be more saving in reorganization than in cutting.

He would vote against any cut.

City Solicitor Hooper explained what the result of the resolution would be and the workings of a conciliation board. If the council decided that certain salaries would be left as they were they would not be dealt with by a conciliation board. Each case would be treated individually. The council should decide on what cases would be presented for reduction.

Ald. Perry stated that the council had presented no alternatives to the ten per cent cut. There had been no attempt at readjustment.

Clerk's Suggestion.

City Clerk Woods suggested that the resolution might be made to apply only to ladies receiving more than \$108 and men more than \$125.

Ald. Montgomery said he doubted if the council favored the general ten per cent cut. In that case a Conciliation Board would not be necessary and they could get down to the work of readjustment. There was too much overtime.

Ald. Perry then moved an amendment that a schedule of all salaries and wages be submitted to the council in committee and that all cases be dealt with individually by the council. Ald.

Silversides seconded this amendment.

Ald. Dybhavn felt that further discussion by the council would be merely wasting time. If the council was going to act on the matter let them say so. Already a month had been wasted and nothing had been accomplished. He believed from information gathered that it was fair to assume that reductions were justified in certain cases. The resolution presented a basis for settlement. Negotiations could be made either direct with the employees or through the Board of Conciliation. The question might then be settled by May 1. It would not be necessary to set out the exceptions suggested for each case could be dealt with individually.

Ald. Montgomery then submitted another amendment that no cuts be made to salaries under \$135. This was seconded by Ald. Kerr.

Board of Works Acted. Ald. Kerr said that he understood each of the committees were to bring in reports on necessary readjustments in their departments. The biggest kink was in the City Hall which came under the Finance Committee. The Board of Works was prepared to give a report showing reductions and increased efficiency already and would also recommend more reductions and revision. If the other committees would do the same the difficulty would be solved.

Ald. Perry explained that the Utilities Committee was tied with agreements with the Electrical Workers' and the Telephone Operators' Unions. As far as clerical work of the department was concerned this was attended to jointly with the Finance Committee.

After more discussion the amendments and resolution were then put in the following order and with these results: Ald. Perry amendment: Aye—Ald. Perry, Ald. Montgomery, nay—Ald. Collart, Ald. Dybhavn, Ald. Kelly, Ald. Silversides, Ald. Kerr, Lost.

Montgomery amendment: Aye—Ald. Montgomery, Ald. Kerr, Ald. Perry, nay—Ald. Collart, Ald. Dybhavn, Ald. Kelly, Ald. Silversides, Lost.

Resolution: Aye—Ald. Collart, Ald. Dybhavn, Ald. Kelly, Mayor Rochester, Nay—Ald. Kerr, Ald. Montgomery, Ald. Perry, Ald. Silversides, Minority vote lost.

Ald. McLeod was not present but, it is understood, was also opposed to the resolution.

SHIPPING COPPER CONCENTRATES FROM VANCOUVER ISLAND

VICTORIA, March 30.—The first shipment since December, 1920, one hundred tons of copper concentrates, left the Sydney Inlet mine of the Tidewater Copper Company in the hold of the steamer Princess Maquinna, consigned to the Tacoma smelter. The company plans to make shipments at regular intervals of twenty days. The first shipment is smaller than the succeeding shipments will be, owing to shortage of water on the property cutting down the mill's output. The shipments under normal circumstances will amount to at least 200 or 250 tons each. The low price of copper made it necessary to shut down the plant just before the close of 1920.

RAILWAY TRAFFIC OFFICIALS GOING EAST FROM HERE

Oshorne Scott, Canadian National general passenger agent, of Vancouver, and J. M. Horn, general freight agent, who arrived from the south on the Prince Rupert yesterday, continued the trip to Anxox on the vessel. Returning from the smelter town tonight they will proceed by the Prince Albert tomorrow evening to Stewart.

Mr. Scott had nothing to announce at the present time in regard to daily train service to Prince Rupert but intimated that he was on his way East and some announcement might be expected in a week or ten day's time.

"Just Listen to This"

"I HAVE been after you to try Dr. Chase's Nerve Food and you always say it is intended more for women."

"Well, that is what I always understood, for I hear you women talking so much about using it."

"Don't you think men have blood and nerves as well as women? It says here that Dr. Chase's Nerve Food forms new, rich blood and nourishes the exhausted nerves back to health and vigor."

"Yes." "Well, the doctor says it is your nerves that are responsible for your indigestion and sleeplessness. Why not try some of Dr. Chase's Nerve Food? You know what it did for me."

"I would like to know of some men in my condition who used it."

"Just listen to this: Mr. A. W. Foster, 178 Le Breton street, Ottawa, Ont., writes: 'For a year I was troubled with "nerves," was restless, especially on retiring, and unable to sleep for hours. I was easily fatigued and very irritable. "A friend told me to try Dr. Chase's Nerve Food, and before I had used the treatment a week I was enjoying a good night's rest every night. I gained rapidly in every way and my general health is very much improved."

"That sounds all right." "Yes. This statement is vouched for by Mr. E. M. Ahearn, the druggist, and is no doubt correct."

"Well, I will give it a try-out." Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

MADAME FAHEY COMES TO SING

Famous Operatic Soprano Being Brought Here Under Auspices of Ladies' Musical Club.

Arrangements are being made by the Ladies' Musical Club to bring Madame Fahey to this city, possibly about the middle of May. When the famous operatic soprano was here before she gave a wonderful recital in the Westholme Theatre. Since then she has been singing in Toronto and New York and other centres with great success. She has been taking part in grand opera, and everywhere has been acclaimed as a great singer. She is this summer making a tour of Canada and will include Prince Rupert in her itinerary.

REDUCES WAGES IN VICTORIA

Day Labor Now Receives \$4 a Day From City in Capital.

VICTORIA, March 30.—After involving itself in a mesh of resolutions and counter-resolutions, and after framers of the now famous salary reduction report had urged that this document be scrapped altogether, the City Council at last decided definitely to cut the wages of city laborers. While in the City Engineer's Department staff salaries were left intact, common laborers will be paid \$4 a day instead of \$4.10, maintenance garbage men and sewer laborers will receive \$3.25, boulevard and park workers \$3 a day. Alderman Woodward proposed that all laborers who have been employed by the City for more than a year be placed on a monthly salary basis of \$100, but this idea was not supported.

As soon as the meeting started to consider the ill-fated salary report Alderman Leeming called upon the Council to face the financial facts, and reduce wages to a figure which the city could afford.

Alderman Leeming recalled that the sinking fund investigation had shown conditions that could not continue this year. Local improvement sinking funds had been "scraped" into the general sinking fund for several years and this must stop this year, he asserted. He pointed out that city tax collections had been \$322,000 short last year, that the city had been forced to borrow \$75,000 to carry on and that \$28,000 in bills had been left unpaid.

Must Face Facts. "How can we take care of our commitments this year?" he demanded. "What are we going to do about it? We shall not get the necessary money in, I can assure you of that. And here we are going merrily along as if we were going to have all the revenue in the world. You can't raise the money by higher taxation and the bank has cut down our borrowings. The question now is not whether we should pay such and such a wage but how much can we get the work done for? We have been stealing money in the past and it can't continue this way."

FIFTEEN BOILS ON NECK AT ONE TIME

Anyone who has suffered from boils can sympathize with poor old Job. There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Nowadays no one need endure the misery of boils.

Boils are simply evidences of the bad blood within coming to the surface and just when you get rid of one, another seems ready to take its place and prolong your misery. All the poulticing and lancing you may do will not stop more coming.

What you have to do is take BURDOCK BLOOD BITTERS and the blood will be cleansed of all its impurities, and then every boil will disappear. Mr. Roy McSwain, High Bank, P. E. I., writes:—"I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly." For the past 45 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

PRINCE RUPERT AND ANYOX MAY MEET NEXT WEEK

Arrangements Just About Completed for a Three Game Basketball Series.

Anyox and Prince Rupert basketball teams will meet next week in a three game series if arrangements that are now being planned go through, stated W. E. Williseroff, president of the Prince Rupert Basketball League yesterday.

As far as Anyox is concerned it has been practically agreed upon that the Prince Rupert team will go north next Wednesday night. Two games will be played on Thursday, one in the afternoon and the other in the evening, and both teams will come down in a special boat from Anyox to Prince Rupert arriving here early Friday morning. The third game will be played in this city on Friday evening. The Anyox players will then return North as soon as convenient.

The matter has yet to go before the executive of the local association and official word confirming the arrangement is expected here from Anyox tonight.

FAIR WAGE OFFICER HERE IS REQUESTED

Trades and Labor Council Asks For the Appointment of J. M. Campbell.

Local union members when they have the price to buy a cigar will confine their choice in future to union made brands. This action was decided on Tuesday night at the meeting of the Trades and Labor Council as the best method of assisting the Cigarmakers Union in their efforts to maintain good working conditions.

The Ocean Dock Warehouse and the new Station were given some attention and a little criticism, a couple of delegations registering dissatisfaction with the warehouse job. In this connection a resolution was passed and copy will be forwarded to Fred Stork, M.P., and Hon. Jas. Murdock, urging that J. M. Campbell of the local Employment Service office be appointed a deputy fair wage officer for this district. Without a local man the office is of little use as in case of a dispute the work may be completed before action is secured in this remote corner.

One of the Labor aldermen will be asked to have Daylight Saving brought to the attention of the city council at an early date. Members of the public Utilities committee will be invited to the next meeting of the Trades and Labor Council.

The question of government employees engaging in work other than their official duties was debated at considerable length. President Macdonald gave a report on Police affairs with special reference to the efforts being made to suppress the "Drug Evil."

The Man in the Moon SAYS:-

THERE are several licenses that give trouble. There is the auto license, the gun license and the marriage license.

MARRIAGE is a gambol.

THE recent hockey series does not seem to have increased the faith of the people of British Columbia in professional hockey.

THOSE who lost bets are the ones who are most convinced there was something not quite all right about it.

BRITISH people are sobering down. As a matter of fact they have little money to spend on liquor, especially at present prices.

MOUNT ETNA is in eruption, boiling over and spouting fire. Just like some of the old fashioned orators you have heard about.

THEY are about to construct a new dam at Anyox, but what is one dam more or less to a place like Anyox.

MACDONALD'S Cut Brier MORE TOBACCO FOR THE MONEY Packages 15¢ 1/2 lb Tins 85¢ The Tobacco with a heart

Sport Chat

On Saturday, April 8, a vote will be taken at Anyox on the question of adopting daylight saving for the summer months. The Anyox Community League will handle the polling and all residents will be entitled to vote. There has been quite an agitation in sporting circles at the smelter town for the adoption of the system which will mean there, like here a very long evening for the holding of games. Among the less energetic residents, who apparently did not want to rise one hour earlier in the mornings, there was a certain amount of opposition so, as feeling was divided, it was decided to take the vote. It is believed that the most of the people, however, are in favor of daylight saving for the summer.

The city of Nelson, through Mayor C. F. Mellardy, has taken the lead in southeastern British Columbia for the organization of athletics on a strictly amateur basis. The mayor last week called a meeting to form a sport governing body in the city and the result was that there were 60 or 70 persons present and the Civic Sports Committee was formed. The committee comprising five prominent citizens, including the mayor and a clergyman, and supplemented by representatives from each branch of sport, will take charge of funds collected by an authorized canvasser and apportion them on a fair basis to the different lines of sport represented, will have full charge of the city recreation grounds and the allotment of hours for their use. A second committee appointed, representative of the different branches of sport, will secure data necessary to the forming of a recognized athletic association and will prepare a constitution. The city council will in future grant no funds to any body but this civic sports committee.

WELL, SOMETHING WAS GOOD. The owner of a car of doubtful vintage, ultimately concluded that it needed overhauling. After the garage man walked around it a couple of times, he remarked: "That's a good horn you have. Let's jack it up and run a new car under it."—American Mutual Magazine.

MARY PICKFORD STORY OF THE WEDDING RING

Incident in Connection With the Filming of "Little Lord Fauntleroy."

When a reporter writes a news story he is supposed to put practically all of the facts into the first paragraph. But when he writes a human interest yarn, he can start pretty much as he pleases. This is to be a combination fact and human interest story, so we will take a little license and put the important facts into the second paragraph instead of the first.

On Friday "Little Lord Fauntleroy" will be the feature of the bill at the Westholme Theatre. The greatest interpreter of child roles the world has ever known—Mary Pickford—is to be the star, and she will play a dual role. There—so much for the important facts; now for the story.

Little boys do not wear wedding rings. Married women do. Mary Pickford is a married woman, having for her husband Douglas Fairbanks. But in "Little Lord Fauntleroy" she has to be a boy, and being married it quite naturally followed that to interpret the role of a boy realistically she would not wear a wedding ring.

Kept the Vow. But when Mary Pickford poised her finger and Douglas Fairbanks slipped on the tiny diamond-studded platinum band that united them, she vowed that the ring would never be removed. It symbolized not only the solemnity of wedlock but also all that is deep and undying in the way of romance and sentiment. So for Mary Pickford the great problem in making "Little Lord Fauntleroy" was not the matter of securing the most capable and talented cast, nor the difficulty of building stupendous and realistic sets, nor the question of proper costumes, period furniture, etc., but how could she wear her wedding ring and still play the part of a boy.

The problem was solved quite accidentally; Benjamin Zeidman, production manager for Miss Pickford, happens to wear a broad signet ring on his little finger. And one day Miss Pickford spied it.

"May I see your ring, Bennie?" said she.

Big Signet. Whereupon the production manager took it off and passed it over. Miss Pickford slipped the band on to the third finger of her left hand and discovered that it completely covered her wedding ring.

"Wonderful," said she. "Bennie, from now on your ring becomes a part of the wardrobe of 'Little Lord Fauntleroy'." So when you see this ring in

the close-ups of the little Lord you will know that beneath it is the jewel-studded emblem that cements one of the greatest romances the world has ever known.

WESTERN LUMBERMAN INTERESTING PUBLICATION

Deals With Everything of Value to Those Engaged in Industry.

The March issue of the Western Lumberman, just out, is a number which justifies the claim of the publication which has for over 19 years been a reliable source of information to the lumbering interests of Western Canada, that it is a magazine which appeals to every man connected in any way with the industry. The number has an interesting and message for every British Columbian engaged in the business whether he be an employer or employee in mill or camp or getting out timber as an individual. The issue contains about 100 pages with especially handsome color cover. Every page is full of valuable and up-to-date information.

Special articles give a complete survey of B. C. timber resources and markets, covering the local, Northwest, Eastern Canadian and export markets, these being supplemented by reports and market quotations from regular correspondents at all points. The department of Mill and Logging Equipment is, as usual, replete with up-to-date information as to new types of equipment both for the mill and woods as well as the methods which are being successfully followed at many mills and camps, these articles being written in a most practical form.

The popular departments, Camp Chat and Mill Clatter are full of interesting notes and pointers on operation while the personal pages give the news of the men who follow the mill and camp or handle lumber in all parts of the West. The Western Lumberman is published and printed at Vancouver by Hugh C. MacLean Western, Ltd.

BOY WAS VAGRANT.

VANCOUVER, March 30.—Clad in overalls and minus underwear or overcoat, Leo Kersey, 18-year-old sailor, crossed Canada from coast to coast this winter, stealing rides on trans-continental trains. He reached Vancouver with a charge of vagrancy attached to him and now is in jail. Kersey was born in Murphy's Lane, Nfld., and has followed the sea for eight years. When his sentence is finished the police authorities have promised him a steady job—if the wanderlust will permit him to hold it.

FUTURE OF MOUNTIES

Matter is Discussed at Ottawa—Numbers Likely Reduced.

OTTAWA, March 29.—The future of the Dominion and Royal Mounted Police is creating a good deal of speculation. The former are at present absorbed in the latter, making a total force of over sixteen hundred men. The period of engagement of what is known as "the 1919 class" expires in June next, when some six hundred men will either be allowed to go or be re-enlisted. The present probability is that they will be dropped. There is a good deal of speculation in the western provinces as to whether the police will be retained there or not. In the House the other day a British Columbia member, Mr. Neill, of Comox-Alberni, urged that they be removed from that province, where he said they were no longer needed as they had their provincial police.

The minister of militia recently communicated with the governments of the different provinces, asking them to express an opinion as to whether the retention of the Mounted Police was desirable or not, and is now awaiting this advice before formulating a definite policy regarding them.

KEVIN OIL WELL IS EXPECTED TO BE HEAVY PRODUCER

LETHBRIDGE, March 29.—The new oil well south of here and a short distance across the border gives every indication of being the best well yet brought in in the state of Montana. It is in Toole County. Two gas sands were struck, the first at 1010 feet and the second at 1550 feet. These were high in gasoline content, producing oil sand with heavy gas pressure was found at 1770 feet.

A test is to be made for production just as soon as the tanks are in place. There is a big rush to the district, not only on the American side but in the district on the Alberta side of the boundary line.

LAND ACT.

Notice of Intention to Apply to Lease Land. In Prince Rupert Land District, Recording District of Coast Range 5, and situated in vicinity of Port Essington, B. C.

Take notice that W. Julius Johnson and Walter Niemi, of Port Essington, B. C., occupation fishermen, intend to apply for permission to lease the following described lands: Commencing at a post planted at southeast corner of Lot 15, Range 5, Coast District, thence northeast 4 chains to low water mark, thence south 5 chains along high water mark to point of commencement and containing 3 1/2 acres, more or less.

SO EASY TO BE WELL AND STRONG

Take "Fruit-a-tives" The Wonderful Fruit Medicine

805 CARTER ST., MONTREAL. "I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headaches and was unable to sleep at night. I was getting so thin that I was frightened. At last, a friend advised me to take 'Fruit-a-tives' and in a short time the Constipation was banished, I felt no more pain, headaches or dyspepsia, and now I am vigorous, strong and well."

MADAM ARTHUR BEAUCHER. 50c a box, 6 for \$2.50, trial size 25c. At Dealers or sent postpaid by Fruit-a-tives Limited.

ALICE ARM

Jack Hauber is in town from the Black Diamond claim on Clearwater Creek where he spent the winter doing development work. Four tunnels have been driven, the showings are good and work is to be continued.

The Esperanza mine last week shipped 90 tons of ore to the Tacoma and Anox smelters through the Dolly Varden bunkers. Shipping will continue until July 1.

Mrs. E. Ness and family have returned from Ladysmith where they spent three months visiting.

Mrs. E. Elze returned last week from the Anox Hospital where she was an influenza patient for three weeks.

P. Fraser, provincial government school inspector, visited the Alice Arm School last Friday.

C. P. Riel's sawmill, which has been closed for two months, resumed operations last week.

G. A. Young, provincial government road superintendent, announces that the Kilsault River dam above town will be extended 300 feet as soon as the snow is off the ground.

VANDERHOOF

A wedding of considerable interest in the Nechaco Valley took place last week at Prince George when Miss Nettie Steele, daughter of Mr. and Mrs. William Steele, became the bride of Douglas Donovan Ellis, son of Mr. and Mrs. James Ellis, Rev. William Graham officiated. The young couple have taken up residence in the Noolki Lake district.

A net profit of \$37.85, realized from the St. Patrick's concert, has been appropriated to the Vanderhoof Cemetery fund.

R. M. Taylor and H. V. Taylor, of Victoria, have bought out the hardware business of Robert C. McCorkell and have taken over the management. Mr. McCorkell retains his farm machinery and fur business which has grown to extensive proportions.

Miss B. C. Suter, of Asquith, Sask., is spending a two month holiday here with Mr. and Mrs. R. H. Moore.

Miss B. G. Donette has returned to Edmonton after having spent several weeks here visiting with her sister, Mrs. H. V. Goodwin.

BUSY BARTENDERS LEAVE WITH POLICE

DETROIT, Mar. 29.—An electric switch which shut off real beer and permitted only near-beer to flow, or yielded the real beer as the operator willed, did not deter members of the police clean-up squad when they raided the Garvey hotel, sometimes known as the "Stockyards Inn," 67 Dix Avenue, Thursday. Suspicious, because the bar was doing such an immense business that four bartenders were kept busy, the squad made a careful investigation of the basement of the hotel, discovered a switch, and then seized nine half-barrels of beer, 12 quarts of whiskey, seven quarts of champagne and 80 cases of bottled beer. The squad also arrested the four busy bartenders.

FLY ACROSS PACIFIC IS PLAN OF AVIATOR

EDMONTON, Mar. 30.—In the hope of putting Canada in the front rank of progress in the world of aerial transportation, G. Roach, formerly a member of the Royal Air Force, advocates a trans-Pacific flight. Mr. Roach will endeavor to interest Canadian capital in the project and plans to purchase a machine similar to the J. L. type of twin-engine biplane, of vastly modified principles.

The proposed route, as outlined by Mr. Roach, would be north along the British Columbia coast to Alaska, then to a point in the Aleutian Islands, across the Behring Sea to a point on the Kamchatka Peninsula and finally south to Japanese and Chinese points. The establishment of fuel stations at distances of from 500 to 1000 miles would be arranged for, and an effort made to secure the co-operation of the countries immediately affected by such service.

WIRELESS REPORT

8 a.m. DIGBY ISLAND—Raining, light southeast wind; barometer, 29.74; temperature, 40; sea moderate; 9 p.m. spoke steamer Prince Albert left Skidegate 9 p.m. northbound; 12:45 a.m. spoke Redonda, 135 miles south of Ketchikan, northbound; 12:45 a.m. spoke Northwestern 8 p.m. at Port Althorpe, discharging, northbound.

Six Rules for Making GOOD COFFEE

- KEEP YOUR COFFEE AIRTIGHT—It loses its strength and aroma when exposed to air. Keep it in an airtight container.
- MEASURE CAREFULLY—Experiment until you find just the proportions of coffee and water that suit your taste. Then stick to them. Guessing usually means a poor cup of coffee.
- USE GROUNDS ONLY ONCE—Don't leave the coffee grounds in the pot for the next meal. Used coffee grounds are of no more value in making good coffee than ashes in building a fire.
- USE BOILING WATER—Bull your water, but don't boil your coffee; don't let the water and the ground beans boil together after they are mixed.
- SERVE AT ONCE—Many a pot of perfect coffee has been ruined by letting it cool. If you must wait, keep the coffee piping hot but never let it boil. Reboiling injures the flavor.
- SCOUR THE COFFEE POT—It is not enough to give the pot a hurried rinse and set it away to dry, scour it even more carefully than other cooking utensils.
