### Irish Free State Bill Passes British Commons Kidnapped Men Returned

LONDON, Feb. 17.—The bill establishing the Irish Free State passed the second reading of the House of Commons today after an amendment offered by Capt. Charles Craig, leader of the Ulster Unionists, had been defeated by a vote of 302 to 60. The amendment provided for the altering of the boundary commission provisions of the Anglo-Irish treaty.

BELFAST, Feb. 17.—The forty-two Unionists who were kidnapped during the recent raids across the border from the south have been released, Michael Collins, Free State president, informed Winston Churchill.

CORK, Feb. 17.—When the mail train from Dublin arrived here this morning a party of armed men seized all copies of the Irish Independent and Freeman's Journal, both Nationalist papers, and drove off in automobiles. The Unionist Irish Times and the English newspapers were untouched.

BELFAST, Feb. 17.—Last night was the quietest experienced since the outbreak, on Sunday night of disorders which have taken a toll of more than 30 lives.

Return to their homes of a large number of kidnapped Unionists has had a stimulating effect on public opinion in Ulster, but the situation on the border continues to be one of danger owing to the proximity of rival forces at various points.

### British Columbia Delegates at Ottawa Urge New Organization to Administrate Pacific Affairs

OTTAWA, Feb. 17.—Premier Oliver and other members of the British Columbia freight rates delegation to the hearing of the Railway Commission interviewed Premier Mackenzie King and other cabinet ministers yesterday. They claimed that the Pacific Coast province was being discriminated against by the present scale of rates which, in fact, constituted a breach of the terms of union under which British Columbia had entered Confederation.

Another point urged by the delegation was the establishment of a federal government organization to control and administer affairs of the Pacific. It was claimed that difficulties resulted from the fact that the centre of organization at the present time was thousands of miles away from the scene of action. The creation of a complete and independent unit of organization in British Columbia to administer the fisheries of the Pacific was urged.

### Library Movement Given Good Start at Initial Meeting

Last evening the public library movement got off to a good start at an enthusiastic meeting in the city police court room, when the whole situation was canvassed and a committee appointed to carry on the work. This committee consisting of Rev. G. G. Hacker, Howard White, T. Ross McKay, G. V. Wilkinson and Mrs. H. Pattinson, met later and chose Mr. Hacker chairman and Mr. White secretary. It was also decided to try to arrange to meet the city council Monday night to place the proposal before them.

The committee decided that what was needed was a grant of \$2,500 this year and a place to house the books, preferably in the reading room. This would be expended, \$1,000 to pay a trained librarian and \$1,000 to buy new books, the other \$500 for incidental expenses. This would make the library a municipal library and insure its continuous support.

An active canvass is to commence to secure books locally, an objective of 1000 being set as the number it is desired to secure. These must be well bound and in good condition.

Practically All Agreed. The public meeting, which was presided over by H. F. Pullen with Howard White as secretary, was enthusiastic and practically all were agreed as to what was needed. Mr. White outlined what had been done at a previous meeting last year and explained that there seemed to be no hope of getting a Carnegie Library so they must rely on their own resources.

Mr. Pullen told of an interview he had with Miss Stewart, president of the Provincial Library Commission. She strongly recommended the formation of a municipal library supported by a millage rate secured by the passing of a bylaw. She said no library should start with less than 2,500 volumes of which 500 might be secured locally. The Provincial Government would lend 1000 volumes for a year or possibly two until the library (Continued on Page 5.)

#### Library for City Seems Assured.

Judging from the tone of last night's meeting and from expressions of opinion heard on the streets, a civic library should be an assured fact in a short time. The new committee is preparing a budget and will lay the matter before the city council in the near future, asking that it be taken up as a regular feature of civic work. At the same time a Library Association is being formed to co-operate with the city and to help gather books and go into the matter of securing a new building in the near future. It will be the business of this committee to foster everything that has to do with library improvement.

Already success is reported in securing the nucleus of a collection of books. These are being carefully stored and catalogued and will be available just as soon as the library is ready to open its doors with a librarian in charge.

#### Great Need Is Trained Librarian.

The one essential to a successful library is a trained librarian who will devote her whole time to the work. To make the library subsidiary to anything else is to smother it aborning. It has to be a distinct entity. The new library may very well take over the reading room and the librarian be given charge of everything subject to either the reading room committee of the council or a library commission appointed by the council but acting independently of it.

The reading room has done good work in the past. It has provided a place where men may go to read the newspapers and magazines and to spend an hour when not otherwise employed. If it is placed under the supervision of the librarian its usefulness should be increased. The librarian would find means of adding to the attractiveness of the place and would aid those who wished to take up special courses of study.

Without a librarian the library would be a dead place. Instance of this is shown in the Red Cross library which was established here temporarily during the war. Mrs. Backus, who was voluntary librarian, took a keen interest in the work, and the result was that the library was used a great deal. Directly she left, the library went out of business. Almost everything depends upon the librarian.

#### Good Class of Books Donated.

One of the noticeable things about the books so far donated to the library is the high class of the literature. Practically all the books were by well known authors, and many were classics. The books were generally in good condition, well bound, and some had been little used.

Those who still have books which they do not use or which they feel they could spare for the public benefit are asked to send them in. They may be left at either of the Orme drug stores. Mr. Orme has kindly allowed the services of his stores in that way until the library is established. When there is a place to put the books they will be removed. Mr. Wilkinson is giving his services free and is cataloguing the books as they come in. All books will be acknowledged through the press.

The difficulty with making collections of this sort is that people forget to bring in the books. The time to do it is today while it is fresh in the mind.

#### Canadian Club Being Revived.

The new executive of the Canadian Club has already held a meeting and arranged for a canvass for members. That the club is one of the institutions of the city that should be encouraged and kept going is generally recognized. While the Rotary Club entertains visiting guests, the Canadian Club is open to all British subjects and does an altogether different class of work. It fills a niche in the life of the place that no other organization can fill. Its success depends on the support it gets from the public.

## MASQUERADE BALL, ANYOX

Valentine Event at Smelter Town Was Wonderful Success.

#### PRINCE RUPERT JUDGES.

ANYOX, Feb. 17.—Elkdom ran riot here on last Tuesday evening, the occasion being the annual Valentine Masquerade Ball, under the direction of the Anyox Elks, which was held in the Recreation Hall.

It proved to be the social event of the season, and one of the most successful and brilliant dances ever held in Anyox.

The spacious hall was beautifully decorated with Allied flags and bunting, the royal purple emblem of Elkdom being in evidence, white colored electric lights were prettily festooned over the dance floor casting a fairylike glow over the galaxy of color displayed by the masqueraders.

Some 175 fancy costumed couples were on the floor, while an additional hundred spectators were seated around the hall.

Dancing commenced promptly at 9 p.m. to the strains of jazz melody delightfully rendered by the Anyox orchestra dressed in the guise of every known and unknown cannibal tribe, under the capable leadership of G. Hayden. Paddy Ryan acted in a capable manner as floor manager.

#### Prince Rupert Judges.

Four prizes were offered for both ladies and gentlemen's costumes, the judges being Ralph LePine, Deputy Grand Exalted Ruler for the northern district, W. F. Roberge, Leading Knight, and E. Unwin, of the Prince Rupert Lodge No. 16, who were visiting brother Elks to the Anyox Lodge. In view of the large number of elegant costumes present the judging proved a difficult task. A grand march commenced at 10 o'clock for the benefit of the judges, and at 10:15 the judging had been completed when amid much merriment the dancers unmasked.

The prizes were awarded as follows:

Ladies—Advertising, Margie McDonald, "The Daily News."

Gentlemen—Advertising—Geo. McCall, "Heinz Pickles."  
Fancy, D. W. Dow, "The Pirate."

Character, Dean Buzzell, "Farmer Giles."

At 11 o'clock the usual Elks' service was held in utter darkness, which was presided over by H. B. Chapman, exalted ruler of Anyox Lodge No. 47.

Refreshments were served at 11:30 by coon soldiers, cannibal kings, pirates and clowns, during which Ralph LePine presented the prizes amid applause.

**DEFENDS ENGINEER.**

Editor Daily News:  
I think it is only fair to the city engineer that it should be brought to the attention of those who read Mr. Maguire's letter, that though the latter gentleman is entirely at liberty to say what he likes about the Seventh Street proposition, he is hardly entitled to criticize the opinion of a professional engineer, particularly through the press which more or less precludes that engineer from replying.

Further I would like to hear the opinion of transfer men and teamsters on several of the grades he quotes as practical for hauling heavy loads.

**Plans of City.**

He also quotes the original planners of the townsite as authority. I was under the impression that these gentlemen were somewhat discredited in their conception of the layout of this city.

In fact I understand that the city was originally planned by a firm of landscape gardeners to whose plan the Development Company's engineers endeavored to conform at the sacrifice of engineering principles.

In time, the saving of a few thousand dollars in construction of the steeper grades has to be paid for hundreds of times over in haulage costs for all time to come.

The main reason (i.e. easy grade) for the existence of the G. T. P. Railway and incidentally this city, is the same reason that Mr. Maguire endeavors to show as being no reason.

The Canadian National steamer Prince John is due back from the Queen Charlotte Islands at 11 o'clock tonight and will sail at midnight for Stewart.

Private letters in connection with the 1922 assessment were discussed at a three hour private session of the city council last night. It is understood that substantial reductions in some of the waterfront properties have practically been decided upon by the council.

A LESSON FROM Ancient Rome

Two thousand years ago the athletes and fighting gladiators of the Roman Empire, to ensure speedy healthy healing of wounds, sores and injuries used magical herbal oils and balms.

BRINGING UP FATHER

'WHAT HAPPENED TO ROSA' IN PHOTOPLAY

Many of the Things That Happened Were Very Funny.

'What Happened to Rosa?' This is the title of Mabel Normand's latest Goldwyn picture, and indeed plenty of things did happen to her.

She was 'stung' by a fake-erance medium for every dollar of hard earned savings. She became possessed by the spirit of a long passed Spanish ancestor, and her friends called her crazy.

She fell in love with a prominent young physician. She jumped aboard from a fast traveling river steamer, and swam nobody knows how far to shore.

She was given up as lost, but was not. She 'snatched' the clothes off a backbay neighbor boy, after engaging in a hand to hand combat and falling down the coal chute enroute.

She emerged like unto a lump of coal, only to be knocked down by a vegetable cart and carried in a 'fainting' condition to 'her doctor's' office.

It was the office of her doctor here, which was just what she had planned and she told him she was hit on the left temple.

She was not, according to the explanation of the vegetable man she was hit somewhere else. Also she was hit—badly hit in the place where Cupid sends his arrows.

Anyway, she got to see the doctor. 'What Happened to Rosa' after that is a secret which the Empress Theatre will reveal when it shows the picture tonight.

The National League baseball schedule for 1922 has just been announced in New York City. As before there will be the eight cities in the circuit: Boston, Brooklyn, New York, Philadelphia, Pittsburgh, Cincinnati, Chicago and St. Louis.

ST. ANDREW'S WON OVER EXCELSIORS JUNIOR BILLIARDS

The St. Andrew's junior billiard players defeated the Excelsiors last night by a total score of 825 to 798, the losers winning four games and the winners, two.

ELKS DEFEAT SCOTS BILLIARD TOURNEY

B. McEvoy Beat R. Davie in Final Last Night by Score of 200 to 157.

In the final billiard game between the St. Andrew's and the Elks in the Trail Club Shield tournament, R. Davie, St. Andrew's, was defeated by Bert McEvoy, Elks, by a score of 200 to 157. The Elks thus win the tournament by a total of 1070 to 1008.

The standing to date follows: Pl. Pts. Av. Trail 8 9284 1161 Wanderers 8 9029 1129 St. Andrew's 9 9832 1092 Elks 10 10864 1086 G. W. V. A. 8 7897 987 S. O. E. 9 8660 962

The final game in the Wanderers-Great War Veterans tournament between J. W. Scott and W. F. Roberge will be played this evening in the Wanderers' Club.

H. S. Wallace returned last night to Vancouver after having spent a few weeks in the city attending to business matters.

Night Coughs

Terribly wearing on the system is the cough that comes at night and prevents sleep. The constant coughing keeps the lungs and bronchial tubes in such an irritated and inflamed condition that they get no chance to heal.

DR. WOOD'S NORWAY PINE SYRUP a remedy without an equal, for soothing the lungs, loosening the phlegm, strengthening the breathing organs and fortifying them against pulmonary disease.

The American League will also travel over the same circuit as last year with teams representing Chicago, St. Louis, Detroit, Cleveland, Washington, Philadelphia, New York and Boston. The schedule will commence on April 12 with St. Louis at Chicago, Detroit at Cleveland, New York at Washington and Philadelphia at Boston.

The Pacific Coast is going after the Allan Hockey Cup, emblematic of Dominion championship, again this year. It will be for the first time since the ill-fated expedition of the Black brothers champions back in 1912 when the Vancouver team was badly defeated in the first round.

British Columbia junior hockey champions will not be listed among those present when the national finals are played this season. The coasters made a trip as far as Calgary for the qualifying round a couple of years ago going to the heavy expense on the understanding that they would be reimbursed.

The Canadian Amateur Boxing Championships having been awarded to Alberta for the first time in the history of the Amateur Athletic Union of Canada, that province is anxious to have them rank as one of the most successful championships ever held in the Union.

The Victoria Pavilion in Calgary, where the matches will be held, is the most modern building of its kind in Canada. It is of reinforced concrete and steel construction, contains permanently numbered seats for 3,000 spectators and the greatest distance of any seat from the centre of the ring is 69 feet.

### CANADIAN CLUB WILL CANVASS CITY AT ONCE

Drive for Members to Be Commenced—Everyone Should Belong.

The Canadian Club executive met yesterday afternoon in the offices of Patmore & Fulton and arranged for an immediate canvass of the city for membership, the annual fee being set at the low rate of one dollar each. Members will be given the first choice of tickets at luncheons. The opinion was expressed that all British subjects should be members.

The matter of luncheons was also discussed and the president will take up the matter of catering with the local institutions doing the class of work.

The matter of unifying the Canadian National Anthem was discussed. It was pointed out that there were a number of different versions but an agreement should be reached as to which should be used.

### LIVER TROUBLE

#### Bad Bilious Attacks

When your liver becomes sluggish and inactive your whole health suffers. Your bowels become constipated, the tongue coated, the breath bad, the stomach foul and sick, and bilious spells occur on account of the liver holding back the bile which is so essential to promote the movement of the bowels, and the bile gets into the blood, instead of passing out through the usual channel.

The only way to keep the liver active and working properly, and thus get rid of the nasty bilious attacks, is to keep the bowels regular by using

**MILBURN'S LAXA-LIVER PILLS**

They are purely vegetable, small and easy to take, work smoothly and gently, and there is nothing of the griping, weakening and sickening effects of the old-fashioned purgatives.

Mr. John S. Caron, Bonavon, Sask., writes:—"I was troubled with my liver, and had severe bilious attacks. A friend advised me to try Milburn's Laxa-Liver Pills, so I took two vials and I have had no more attacks."

**MILBURN'S LAXA-LIVER PILLS** are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### LIBRARY MOVEMENT GIVEN GOOD START AT INITIAL MEETING

(Continued from Page 1)

became wholly self-sustaining and the city should set aside not less than \$1,000 for the purchase of about 1,000 books. That would be enough with which to make a start. By adding say 1,000 new volumes each year the nucleus of a library would soon be formed.

**Must Have Librarian.**

The one thing on which Miss Stewart was emphatic was that a trained librarian must be engaged to have charge. To try to conduct the library otherwise was to insure failure. She thought she could find a young lady who would take charge at a salary commencing at \$1,000 a year which would increase later. The librarian was the very life of the institution and was invaluable. She might be of very great value to the community. Whatever else was left out, the trained librarian was essential.

Mr. Bullen also reported that either Miss Stewart or some other member of the commission would visit Prince Rupert if needed and aid in establishing the new institution and especially in securing the passage of the necessary bylaw.

**Collected Books.**

G. V. Wilkinson explained what he had done. He had already collected 54 volumes and 116 were promised in addition to many vague promises. He felt confident that 1,000 volumes could be secured locally. He was cataloguing the books as they were received and holding them until the library was ready to open.

Rev. G. G. Haeker said no one was better able to advise them than Miss Stewart. He advised against attempting anything too large or too small. He favored the municipal library and thought they could get 1,000 volumes locally. It would be a great impetus to have a visit from Miss Stewart.

W. E. Williams thought they might yet get assistance from the Carnegie fund. He suggested the appointment of a committee of from three to five to handle the matter. This committee would take the matter up with the city council and possibly at the same time write the Carnegie trust. Before long they should have a building and a definite source of income. He thought they would get considerable support from the societies of the city. He moved that a small committee be appointed to handle the matter. This was seconded by H. Pettinson.

**Strewn with Corpses.**

J. F. Maguire said this city like a great many others was strewn with the corpses of most worthy organizations. He had no hesitation in saying that 99 per cent of the failures were brought about because the right man was not secured for the executive office. This movement would be a failure unless the right executive was chosen. He must be both able and willing to give the necessary time. Some were able but not willing, others were willing but not able. The chief executive must be an enthusiast. He asked that no one take the position unless he was able to carry on the work.

Canon Bix thought there was such a thing as going too fast. Someone had suggested to him that the books might be housed in part of his store. He had seen a provincial library at Porecher Island sent out by the government to understand that books would be sent here also if we asked for them.

**Experience of Past.**

S. M. Newton reviewed what had been done in the past when the people had turned down the Carnegie Library proposal. Today the problem was still unsolved. He had written personally to the Carnegie Trust but was told there was no likelihood of any grant being made. It would look as if it would be wise to defer no longer but move in the direction of a decisive step. He suggested that before long they might secure one of the provincial buildings which would be no longer needed by the government. He believed it would be wise to organize and carry on a follow up system. There was no reason why they should not get a good library.

J. C. Brady felt as he had never felt before that they were now going to get a library. They should that night start a campaign and radiate the thought of a public library. He urged a

big canvass for books. If the people here were shown their sympathy would be secured.

H. L. Campbell thought this meeting should take immediate action with a view to having the library established as soon as possible.

**Read More.**

T. Ross McKay thought if Prince Rupert people read more and talked less it would be better city in which to live. He thought two committees, one to collect books and the other to work on the main organization could do effective work.

Mr. Mann urged that there be no delay. He was of opinion that everyone wanted the library.

The committee was then appointed and the meeting adjourned.

### TERRACE LOTS ARE FOR SALE

Government to Offer by Public Auction Part of the Old Townsite.

The Provincial Government is to hold a sale of Terrace townsite lots on Saturday, February 25, when 138 lots will be auctioned off. The lots are both east and west of Katum Street and are part of the original townsite.

The sale will be held at the office of the provincial police at 3 o'clock in the afternoon.

Since the prospect of there being oil found at Terrace and since the fruit lands of the district have been so much in demand, there has been some enquiry for the Terrace lots, and now those interested will be given opportunity to make purchases.

### Cleopatra's way

With a world of ancient beauty arts at her command, she depended on cleansing with Palm and Olive oils to protect, improve and preserve the freshness and smoothness of her skin.

This beautifying was not confined to face alone. The bath was a daily ceremonial with all ancient peoples, palm and olive oils the cleansers used.

Bathe with Palmolive and keep your skin smooth and white. It is a luxury all can afford.

### Simple—Beautifying

The remedy for a coarse skin, for one disfigured with blackheads or ugly blotches, is daily cleansing with a lather blended from palm and olive oils.

Such a cleanser is so mild and soothing that it softens the skin and keeps it smooth. But it removes the accumulation of dirt, oil and perspiration which are responsible for most bad complexions.

You can't neglect your skin and expect to keep it

### Popularity—Low price

Judge Palmolive by other soaps and you will expect to pay at least 25 cents a cake. But the popularity which keeps the Palmolive factories working day and night naturally reduces cost. Quantity production is always economical.

Thus this finest facial soap is offered at a very modest price—a price all can afford. You can economically use Palmolive for every toilet purpose, for it costs no more than ordinary soap.

# Pretty when she wakes up

This is the real test. The girl who wakes fresh and radiant, with a clear, smooth skin which has no defects to conceal, need not worry about her looks. She possesses the greatest of all attractions—the one which outshines all others.

This need not discourage the girl whose complexion is not so good. Proper care will soon transform a bad skin into one admired for its perfection.

Get rid of the clogging accumulations which cause coarseness and disfiguring defects and you will soon be complimented on your fresh blooming complexion.

The secret is simple and about 3,000 years old. It was discovered in ancient Egypt and practiced by Cleopatra.

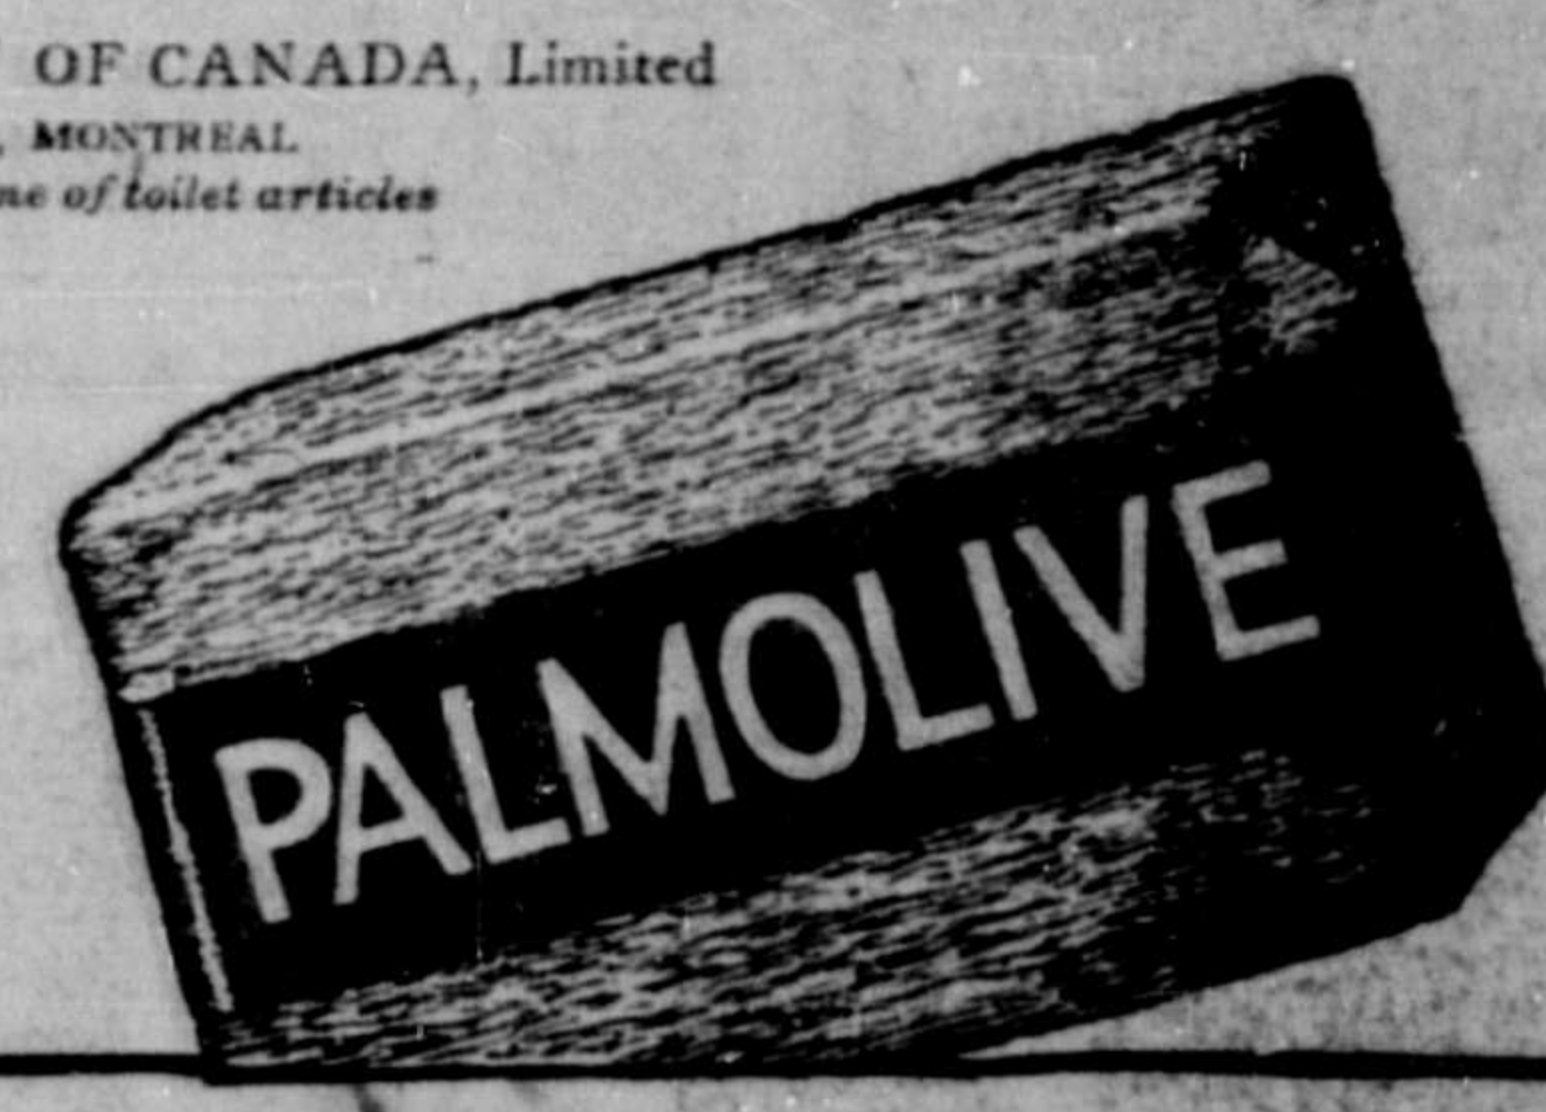

blooming and alluring. The powder and rouge you use to conceal defects deceive no one.

**The soothing cleanser**

Palmolive is the modern combination of the same beautifying cosmetic oils Cleopatra used in the days of ancient Egypt. It is just as valuable today as a face soothing cleanser.

Massage its smooth, creamy lather softly into the network of tiny pores which compose the surface of your skin. It will remove the clogging deposits which enlarge these pores, cause blackheads and invite blotches.

Dry skins are benefited by cold cream after cleansing. If unusual dryness is your trouble, apply a little cream before as well as after washing.

## NORTHCLIFFE TELLS ABOUT INDIAN UNREST

Moslems of That Country Irritated at Attitude of Britain Towards Turkey.

Returning to India after twenty-five years' absence, I am shocked at the change in demeanor and acts towards whites by both Hindus and Mohomedans, and especially Mohomedans, who were formerly most friendly. Said Lord Northcliffe in a recent interview. For the first time in Indian history Hindus and Mohomedans are now acting in close combination. I have interrogated over a hundred Moslems of every class and sect and they are unanimous. In the Dutch Indies, Malay States, Ceylon, Madras Southern India, Hyderabad, Central India, the United Provinces, the Punjab, Rajputana and Bombay the attitude of Moslems is now one of sullen silence or outspoken hostility. A distinguished loyal Mohomedan, a judge, who was educated at Oxford, whither his son is now proceeding, said to me: "The most dangerous sign is that our women are now becoming infected with the anti-British poison, and all students of Islam

know what that means."  
**Anti-British Caps.**  
Continuing, Lord Northcliffe said:  
In the streets many Mohomedans are to be seen wearing anti-British white caps, which are the emblems of Gandhism. Loyal Mohomedans demand the instant arrest of Mr. Gandhi, saying that it would prevent outbreaks by Hindu and Mohomedan extremists but peace can not be assured until the Moslem question has been readjusted. Moslems bitterly resent our attitude after causing Moslem to fight Moslem in Mesopotamia. The recent loan to Greece is especially resented. To explain the demands of modern Moslems as follows: In effect they state that Indian Mahomedans who are communicating with all Moslem countries intensely resent our policy regarding Turkey and feel most deeply the slight they consider has been put upon the Khalifat. Their veneration of the Sultan of Turkey as head of Islam is of quite recent date; it did not exist in the days of Shah Jehan, and only came into being about the time of the Crimean war, although extremists deny this.
