Facts Regarding Skeena Fisheries LOCAL MAN LOST HIS LIFE IN FIRE AT SEAL COVE YESTERDAY

Depletion of Skeena Benefit Fraser River and American Traps

In connection with the articles and letters published recently in regard to transferring salmon eggs from the Skeena River to the Fraser and the denial of Colonel Motherwell that such action is planned for the coming year, an interview has been secured by a Vancouver correspondent with a former employee of the government, who tells that for several years this transfer has been going on. He says:

"It is about fifteen years ago that the Stuart Lake hatchery was built at the head of Stuart Lake. This lake is tributary to the Fraser River watershed. After it was built it was found impossible to get salmon eggs from the Stuart Lake so the hatchery people crossed over to the Babine Lake, which is tributary to the Skeena River, and took about eight million eggs every year over trail to Stuart Lake, a distance of about six miles.

"When this had been going on for six years the Skeena canners made a protest and the transfer was stopped and the hatchery closed. It remained closed for four years and then the hatchery was started up again and eight million sockeye eggs were taken every year until and including 1921.

"Let me tell you more than that. Not only are the salmon eggs taken away but the Indians are forced to take their winter supply of fish from the Babine Lake instead of the Stuart Lake, and this robs the Skeena of millions of eggs. So many salmon were taken from the Fraser River spawning grounds of recent years that they were forbidden to take any and as a result they came to Babine Lake for their supply. They came across the Stuart Lake trail and camped on the creeks in Babine for the purpose of catching their winter salmon. A great many families came from Stuart Lake and from other points and they took pretty nearly ten thousand salmon, many ripe for spawning. This means that millions of eggs were destroyed by the Indians, who, if not interfered with by the authorities would have taken their fish from the Fraser watershed.

"Fish that are hatched in Stuart Lake go to sea by way of the Fraser River and when mature return to the Fraser River. In doing so they have to run the gauntlet of the American traps and three-fourths of them are taken by the Americans, only one-fourth returning to the River for the Canadian fishermen.

"Fish hatched in the Babine go to sea by way of the Skeena River and return to the same four years later. There are no American traps to intercept them and they are taken by Canadians for the use of Canadians.

"This is a matter for Prince Rupert people to take up. Mr. Motherwell says eggs are not to be transferred this year. Will the Indians be made to come to the Babine for their supplies instead of taking them from the Fraser watershed as formerly? These are matters into which Prince Rupert people should have a complete understanding. Owing to the remote location of the hatcheries it is often difficult to secure information, but happily it has been made possible to publish this definite information for the benefit of this community and the canners of the Skeena River.

PROGRESSIVE CONVENTION TO BE HELD

Executives Met on Saturday and Decided to Invite Delegates From All Sections.

VICTORIA, Jan. 16.—The Progressive Association executives met on Saturday and decided to hold a provincial convention, inviting supporters of the party from all parts of the province to draft a platform and complete organization with a view to contesting every seat at the next provincial election.

Secretary R. S. Anderson stated that labor leaders in all parts of the province had written promising support to the new party.

TUG CLINTON SUNK BY ROYAL AT VANCOUVER

Was Run Down in Narrows and Cut in Two But Crew Saved.

VANCOUVER, Jan. 16.—The Pacific Great Eastern tug Clinton, valued at \$48,000 was sunk in collision with the Princess Royal in a fog on Saturday night in Burrard Inlet narrows. The Clinton's crew of nine men was rescued by the Royal.

The Clinton's tow was a barge which also collided immediately before with the unknown steamer but was not damaged and afterwards was towed ashore.

The fog was dense and no blame is attached to either ship's crew for the collision. The Royal is not damaged but the Clinton, cut in two lies in twelve fathom of water.

TRANSFER OF IRISH POWERS

Provisional Government Took Office Today—Transfer by Lord Lieutenant.

DUBLIN, Jan. 16.—Governmental powers for Ireland as vested in the British authorities were turned over today to the provisional government of Ireland as constituted on Saturday under the Anglo-Irish treaty. The transfer was made by Viscount Fitzalan, Lord Lieutenant, in the Privy Council chamber.

CONDITIONS IN FAMINE STRICKEN RUSSIA UNCHANGED.

These two exclusive pictures show the condition that Russia is in to-day. The picture on the right, taken in Moscow, shows the midwinter dress of a Russian boy from the famine district. He arrived in Moscow after a three months' tramp in his search for betterment and food. The photograph on the left shows two Tartars from the Kazan famine area, who have made their way to Petrograd only after suffering practically intolerable hardships. Oftentimes they had to go three or four days without a morsel of food.

PATTULLO MAY GO TO ENGLAND SOON ON IMMIGRATION

VICTORIA, Jan. 16.—Word received from England that there is not likely to be a general election until late spring or summer at the earliest, will probably influence Hon. T. D. Pattullo to leave for England in the near future to discuss with the British government an immigration scheme for settling British people in Canada. It is understood that the British are much interested in the scheme and are willing to co-operate.

SIR SAM HUGHES' WILL PROBATED

Most of Money Goes to Children and Grandchildren; Furniture to Wife.

LINDSAY, Ont., Jan. 16.—The will of Sir Sam Hughes, which was probated here, shows a total estate of \$392,485, of which personal effects amounted to \$318,876, and real estate \$73,608. Three grandchildren, Sam Hughes, Allie Green and Mary Green, get \$5000 each. The household goods and furniture go to Lady Hughes and two-thirds of the money is to be divided equally between three children, Major Garnet Hughes, Mrs. Byron Green of Chatham and Miss Aileen Hughes of Lindsay.

HON. J. H. KING WILL VISIT CONSTITUENCY

Expected He May Be Returned by Acclamation in East Kootenay.

VICTORIA, Jan. 16.—The by-election in East Kootenay when Hon. J. H. King will offer himself for election as a federal minister of public works is expected to take place in February.

Mr. King is leaving for East Kootenay this week and is expected to get the seat by acclamation.

Mitchell Albert Is Exonerated by Jury; Ran Down Woman

VANCOUVER, Jan. 16.—Misak Aivazoff (Mitchell Albert), a wealthy Vancouver and Prince Rupert broker, for whom the finest mansion in Shaughnessy Heights has just been completed, was exonerated from blame by a coroner's jury on Saturday afternoon which investigated the circumstances of the death of Mrs. Clifford Angus, aged 65, who was killed on Davie Street on Thursday evening when she was struck by an automobile driven by Aivazoff. The defendant is now out on \$50,000 bail on a manslaughter charge, which will likely be dropped when the case is called on January 20 as the verdict of the jury read: "The jury does not consider that the evidence shows the driver of the automobile failed to take ordinary precautions."

MADRAS RECOVERED FROM RIOTS WHICH STARTED ON FRIDAY

Everywhere Prince of Wales is Greeted with Enthusiasm in Lavishly Decorated City.

MADRAS, Jan. 16.—Madras has completely recovered from the rioting which attended the arrival of the Prince of Wales on Friday and no further trouble is anticipated. The Prince has apparently captured the public fancy and crowds await his every appearance and hail him with enthusiasm. The city is lavishly decorated in honor of the royal visitor.

Bootleggers Captured by Pirates at Bellingham Whiskey from Vancouver

VANCOUVER, Jan. 16.—Charles Boyes, engaged in carrying fifty cases of whisky from Vancouver to Bellingham in a fast launch, was boarded by pirates and arrested in the name of the United States. Boyes had \$2100 on him, which was taken as evidence by the bogus federal officers, who took the booty ashore and drove Boyes toward Bellingham, then suddenly pushed him out of the car and sped away.

No trace of the pirates has been found.

Man was Burned to Death when Seal Cove Shack was Destroyed By Fire Early Sunday Morning

Omar Soubriere, an employee of the Canadian Fish and Cold Storage Company, was burned to death early yesterday morning in a fire which completely destroyed the small shack which he occupied at Seal Cove. Following the extinguishing of the blaze, investigation was made by Warden A. H. Bailey of the city police, who found the charred remains of the unfortunate man who had apparently been lying on the bed with his head towards the foot. Although it was impossible to identify him from what was left of his body, it was later learned that it was Soubriere who had been occupying the shack. An inquest was called for Wednesday by Coroner J. H. McMullin.

The fire was first seen by Tom Watts, a watchman at the cold storage plant, at 6:30 in the morning. Fearing that the place was occupied, he rushed to the scene and kicked in the door. It was too hot and smoky to do anything, however, the place being all aflame inside. The call to the fire department was rung in by William McKenzie, engineer at the cold storage, at 7 o'clock.

Probably From Cigarette. When the fire department arrived at the fire the shack was a mass of flames. The blaze was quickly extinguished with one line of hose, but not before the walls and roof had fallen in, and the place was totally destroyed. The remains seemed to be natural, although they were lying with the head towards the foot of the bed. As the floor was burned through below the man's head, it is thought that the fire was started by a cigarette end and that the man had been overcome while asleep. The stove was in another corner of the room and there was no indication that the fire had started from it.

It is understood that Soubriere had been drinking and that a woman had spent part of the night with him in the shack. J. May reported that he had seen Soubriere at 11 o'clock at the cold storage plant with his partner, E. Briand. Briand said he had left Soubriere at his shack at midnight.

One-room Shack. The shack was a one-room affair on a float near the office of the Prince Rupert Lumber Company. It was painted green, belonged to Robert Hanna, the watchman on the Lorne, and was valued at about \$50. All the contents of the place were destroyed, but these are not thought to have amounted to much.

Soubriere was well known about town and was employed in the refrigerator plant of the Canadian Fish and Cold Storage Co. He was a French-Canadian and was born in Ottawa about 35 years ago. He served overseas with the Army Service Corps. He was unmarried and has no relatives in this country. The remains are in the hands of the B. C. Undertakers.

In Mazzei Affray. Soubriere was the informant in the recent Mazzei stabbing affray, as a result of which Louis Mazzei is now serving time at Okalla prison farm. It was he who was stabbed.

VETERAN EXPLORER OF AFIRCA PASSED AWAY

Sir John Kirk Accompanied David Livingstone to Africa in 1853 Expedition.

LONDON, Jan. 16.—Sir John Kirk, aged 90, who was the chief officer of the government expedition which accompanied David Livingstone, the famous missionary to Africa in 1853, died here on Sunday.

FRENCH CABINET IN POWER TODAY

PARIS, Jan. 16.—The new cabinet under Raymond Poincare went into power today with the publication in the official journal of 19 presidential decrees.

BIRTH.

There was born at the Prince Rupert General Hospital yesterday a son to Mr. and Mrs. H. Cochrane of Queen Charlotte Islands.

DR. SIMMONS OF ANYOX DIED ON UNION STEAMER

Well Known Dentist Passed Away Suddenly Near Ocean Falls.

REMAINS TAKEN ASHORE AND INQUEST CALLED

Dr. Harry F. Simmons, a well known dental surgeon who has been practising at Anyox for the last two years and before that at Vancouver, Cranbrook and Greenwood, died suddenly aboard the Union steamer Venture two hours before the arrival of the vessel at Ocean Falls on Sunday morning on her trip north this week. The remains were taken ashore at Ocean Falls and are being held for an inquest. P. Mackeracher of Anyox, a fellow passenger and friend of Dr. Simmons, is also remaining at Ocean Falls as chief witness. Mackeracher is reported as having been the last person to see the deceased alive.

Dr. Simmons was well known in many parts of the province and was a member of Greenwood Lodge, A. E. and A. M. Several residents of the city who were formerly in the Boundary country were intimately acquainted with him. He has a son, Dr. Harry Simmons, Jr., who is also in dental practice at Vancouver.

NO BRITISH ELECTION YET

May at the Earliest Is Set as the Date for an Appeal to Country.

LONDON, Jan. 16.—The British political situation, especially as to when the Government will call a general election again, has been brought into prominence through the return of Lloyd George to France and the removal of the Irish situation from the foreground. It is the general opinion that the election, which was recently foreshadowed for February, will not be held before May at the earliest.

Carefully Guard Skeena Fisheries.

Prince Rupert should carefully guard the Skeena River fisheries. Both the Fraser and the Naas are depleted by the American traps, but the Skeena is an all-Canadian river and nothing should be allowed to interfere with its productivity. We are informed on excellent authority that it has been the custom in the past to take salmon eggs from the Skeena watershed to the Fraser watershed. Also we are informed it is the custom to force the Indians of the Fraser watershed to take salmon from the Skeena River spawning grounds instead of from the Fraser, as had been the habit formerly. This being so, we should protest most vehemently against any such action this year. Unfortunately it is difficult to secure the necessary information in regard to these operations at the time when they are going on. Today we are able to give our readers a resume of what has been done in the past, and this should be a guide as to the future.

Prince Rupert has often protested at the manner in which the fishing has been conducted in the Skeena. Now it is up to the people here to protest at the manner in which the salmon have been depleted for the benefit of American canners in the south.

It is generally admitted that of the fish returning to the Fraser River to spawn, the American canners get three-fourths. Of the fish returning to the Skeena, none are taken except by Canadians. It is a Canadian river for the Canadian people.

While there may be no Prince Rupert people directly interested in the fisheries in the river, and while many of the canners may not treat Prince Rupert fairly in the way they purchase their supplies and the way they market their fish, yet, in spite of this, a great deal of benefit comes to this city from the fisheries. The people who catch the fish for the canneries spend a good deal of their money here, and if it is a poor season, as it was last year, we feel it very keenly. Prince Rupert is bound to take a proprietary interest in the Skeena and should do everything possible to insure that the fish supply at the head waters is not interfered with by government officials.

Direct Service to Various Points.

Direct steamship service with Prince Rupert is essential to her progress. There are points not very far away, such as Surf Inlet, where it is impossible to sell this paper. The mail goes from here to Vancouver and back to Surf Inlet. The same is true in regard to other points on Princess Royal Island. The result is that the people living at those places are not interested in Prince Rupert. They do not see the local advertisements and they look to Vancouver for their supplies, for their news and for their holidays. It is useless to try to influence them otherwise until there is a direct steamship service. With the opening of new mines on Princess Royal Island renewed interest should be taken in that island. Some of our citizens are conducting logging operations near Surf Inlet, but they find it difficult to purchase goods here because of the transportation. At other points such as Butedale and the neighborhood we could do business, but there is no direct steamship service. While it is not wise to worry the Dominion Government with too many things at one time, this is something that must eventually be discussed and efforts made either to have the present transportation companies change their services to oblige Prince Rupert or put on other steamers to serve this community.

Daily Train Service to the Interior.

The establishment of a daily train service is being discussed by railway officials, laymen and politicians. It is perhaps the most important thing that could happen just now to aid in stimulating business. It is not expected that it will be inaugurated until spring, but by then it is confidently expected that there will be a service that will be a great improvement over the present three-day-a-week train. Everyone realizes the desirability of an improved service and with the fish business to supplement it, there should be no real difficulty in carrying it out. The inauguration of such a service would mean a daily fish auction at this port, better service to the fishermen, steadier work for the fish packers, a distinct advantage for the fish buyers, and convenience for the commercial men and general public, and especially for the farmers and business men of the interior.

 ferred we will attend to the cartage for them.

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief

"FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S.

"For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work.

About two years ago, a friend advised me to try "Fruit-a-tives", which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit".

A. W. FRANKLIN.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c., or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

Next the Prince Rupert Hotel

Ten Years Ago in Prince Rupert

January 16, 1922.

The second annual ball of the Kaien Island Club was held at the club house last night. There was a large assembly of Prince Rupert society and it was one of the biggest events of the season.

Mayor Newton has announced his committees for the year. They are: Finance—Ald. Douglas (chairman) and Ald. Bullock-Webster. Board of Works—Ald. Moerisse and Ald. Dybbavn and Ald. Maitland. Utilities—Ald. Clayton, Ald. Kerr and Ald. Montgomery.

The whole city council is to pay a visit to Woodworth Lake at an early date to inspect the site of the proposed hydro-electric plant.

The Man in the Moon SAYS:

A WOMAN will often give advice but when it comes to taking it—well, that is another story.

A PRINCETON professor can live on ten thousand dollars a year. There are others besides professors who would like an opportunity to try it.

FAT people are supposed to be good natured and they would need to be considering the remarks that are made about them.

Some of us have bathed in the hot springs at Lakelse and there is a man I know who bathed in the spring of 1886.

THE greatest thing about a prize fight is the size of the audience.

THE only thing that will make Dempsey fight is a big purse.

What is worrying some Liberals today is the fear that they may have to pay back some of those bets won when Stork was declared elected.

Give the preference when you buy to the merchant who advertises in the daily newspapers and buy advertised goods.

FISHING ON GRAND BANKS

Most of Industry Controlled by United States.

LUNenburg, Jan. 16.—The Grand Bank of Newfoundland, the largest, located southeasterly from the Ancient Colony, covers an area about 330 miles north and south and 300 miles east and west and it is generally traversed by ships crossing the North Atlantic ocean between European points and ports in Nova Scotia or on the Bay of Fundy. The general depth of water on the Grand Bank varies from thirty to forty-five fathoms and the bottom is usually sand, gravel, or broken shells. The water surrounding drops off to anywhere from sixty to one hundred and forty fathoms. The only dangers to navigation on the Bank that have been verified are the Virgin rocks and banks and the Eastern rocks. The area covered by the Grand Bank really includes St. Pierre and Green Banks, which are separated only by narrow channels.

Plenty of Sea Fowl.

The approach to the Grand Bank is generally evidenced by an increasing number of sea-fowl around the vessel. The great shearwater, well known to the fishermen as hag and hagedie is seen all across the Atlantic, but on the banks it, as well as divers and other sea fowl, becomes very numerous. The shearwater, by the way, derives its name from its skimming or shearing the water when flying.

One will observe by studying a chart of the North Atlantic how close Canadian maritime ports are to the chief fishing banks as compared with American ports, yet it is an actual fact that our neighbors to the south take from these areas between two and three times the quantity of fish Canadians do, and are serious competitors for foreign trade. It seems logical from an economical and geographical standpoint that the business should be centralized in the Canadian Maritime provinces, excluding possibly supplies destined for consumption in Portland, Boston, New York and other American centres conveniently at hand. Undoubtedly fish may be landed sooner in Canadian ports and if intended for the fresh fish trade will be on the way to interior markets much sooner than when travelling circuitously via Boston. Furthermore, the proximity of the port gives the fishermen more actual time on the banks. Naturally, when the distance to port is shortened the fishermen can produce more in a stated time and consequently should be able to meet all competition profitably. With the exception of Georges Bank the Americans are at a disadvantage.

Advantage with Canada.

The fresh fish demand in Canada is developing rapidly and fish consumption generally is on the incline throughout the Dominion and the United States, as well. Foreign trade has grown tremendously in recent years. Canada should be able to produce cheaper than anyone else and the premium on the American dollar at the present time handicaps the United States' producer further in competing for foreign trade. Canadians have everything to help them but Americans are still doing a large proportion of the business.

The North Atlantic Banks are fished by fleets from the United States, Canada, Newfoundland, France and an occasional ship from Iceland. Large French fleets operate with the French Island of St. Pierre as a base. A cold storage plant costing \$1,200,000 having a freezing capacity of 200,000 in twenty-four hours and storage capacity of 6,000,000 pounds boxed ready for shipment, has recently been built there by the French Government and especially equipped steamers are provided to carry the supplies to Europe. The Paris government is lending great assistance to the fishing industry looking, apparently in that direction for material for her navy.

SURE SIGN.

Moka—"Does yuh really love me or does yuh jes' think yuh do?"
 Moka—"Yas, indeed, Honey, I really loves yuh; I ain't done any thinkin' yal."
 Black and Blue Jay.

NEW BACKBONE MOSLEM WORLD

If Turkish Nationalists Powers Get Successful Foothold.

MOSCOW, Jan. 13.—It is believed here that if Mustapha Kemal Pasha succeeds in establishing a real Turkish Nationalist power, the Turks would form a new backbone for the Moslem world. This might seriously threaten the domination of Russia in the Caucasus, in Turkey, Persia and Armenia for there is a very general racial and religious union among the Moslems.

"After all, we are Orientals and we hate and despise the Russians," was the way one Moslem stated the situation.

While the Central Soviet here certainly has helped the Turkish nationalist movement, it is believed that a conflict of interests and distrust will assert itself when or if Turkey succeeds in her national aims. The 15,000,000 Moslems of Russia certainly dislike Russian rule.

Members of the Moslem missions, such as the Persian, Azerbaijan and the so-called Turkish Soviet republics and the official Turkish mission form a clique apart in Moscow and cooperate materially.

In addition, there is the group headed by Enver Pasha, the former Turkish minister of war who fled from Turkey after the war and who was sentenced to death by Turkish court-martial. A member of his mission here is Djemal Pasha, another young Turk leader who also received the same sentence.

NO INSULT MEANT.

Tree was accosted by a stranger in the Haymarket.
 "Aren't you Beerbohm Tree," asked the stranger.
 "No," said Tree.
 "I'm sorry, I thought you were. You look so like him."
 "I assure you, you are mistaken," said Tree.
 "Well, I didn't mean to insult you," said the stranger, "but I did think you looked like him."

NOMINATIONS ON THURSDAY

No Opposition Yet to Re-election of Ministers in Quebec Province.

MONTREAL, Jan. 16.—With nomination day on Thursday, the by-elections for ministers of Premier Mackenzie King's cabinet who are seeking re-election in Quebec are arousing interest, but no serious opposition has developed up to today and it is generally accepted that the elections will be by acclamation.

ROYAL WEDDING PREPARATIONS

Gown to Be of Cloth of Silver— Bridesmaids Are Already Chosen.

LONDON, Jan. 16.—Princess Mary's wedding gown is to be of cloth of silver of magnificent design and material brought by the Queen from India some years ago. Many schemes for presenting gifts to the King's daughter are afoot. The Lord Mayor of London is opening a popular fund for the purpose with contributions limited to one pound sterling.

It is officially announced that the bridesmaids are to be Princess Maud, Lady Rachel Cavendish, Lady Mary Thynne, Lady Victoria Cambridge, Lady Doris Gordon-Lennox, Lady Elizabeth Bowes-Lyon, Lady Diana Bridgeman and Lady May Cambridge.

REWARD IS OFFERED FOR ARREST PIRATES

The Trans-Canada Transportation Co. is offering a \$1000 reward for the arrest and conviction of the party or parties who held up the launch Vesta on January 8 and took away 111 cases of liquor which included O.F.C. Stag Bourbon, Green River Bourbon, Pommery Champagne, Johnny Dewar's special liquors, Johnny Walker's Red Label whiskey and Gordon's Dry Gin.

FUNNY STORIES.

W. S. Gilbert met Burnand, editor of Punch.
"I suppose," said Gilbert, affably, "a great number of funny stories are sent to you at your office?"
"Thousands, hundreds of thousands," said Burnand.
"Then," said Gilbert, "why don't you publish them?"—Sunbeams.

There was a special meeting of the police commission on Saturday afternoon to investigate yesterday afternoon to investigate against Constable George Logan. The informant and witnesses did not put in appearance and the officer, who had been temporarily suspended, was reinstated.

QUEER WAY TO PAY RENT IN ENGLAND

LONDON, Jan. 12.—England is noted for venerable traditions and odd customs. Some days ago, two bundles of faggots, a hatchet, a billhook, six horseshoes and "sixty and one" horseshoes nails were given to an agent of King George V as "rent in kind" for a small plot of land in the Strand where a forge originally stood and for another piece of land in Shropshire. Away back in the year 1235 a tournament was being held in a field where the law courts now stand and during the tournament a knight's armor gave way. A smith repaired it so well that the King gave him the right to erect a forge on the field, stipulating that the annual rent should be six horseshoes and sixty-one nails. The rent has been paid ever since.

FARMERS TO MEET.

CALGARY, Jan. 16.—About 1-500 delegates are expected to attend the annual convention of the United Farmers of Alberta which opens here tomorrow night.

STUDY THESE PRICES

of the famous

Nanaimo-Wellington

	On Dock	Delivered
MINE RUN, in bulk	\$12.00	\$13.50
MINE RUN, in sacks	\$12.50	\$14.75
LUMP, Double Screened in bulk	\$13.25	\$14.75
LUMP, Double Screened in sack	\$13.75	\$16.00

We are positively satisfied, after having tested every other coal in the market, that Nanaimo-Wellington at the above prices is by far the best and certainly the cheapest coal offered to the public today. It has the lasting qualities and the heating power, and gives the greatest satisfaction with the least trouble.

We are the only coal dealers in town who have the equipment to guarantee 100 pounds of coal in every sack, irrespective of the weight of the sack, wet or dry. The sacks do not enter into our weights, the coal only being weighed. Is this worth your consideration?

Think this coal question over. Watch your monthly bills. Our coal outlasts all others. Living costs are high enough. Let us save you a dollar by phoning your coal order now to

PEPS

the real breathable tablets, make the throat, chest, and lungs cold-resisting. When a nasty cold or a coughing bout foretells the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and

PROTECT

the chest. When a Peps tablet is taken from its preserving silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air-passages, and destroy any germs that have got into

YOUR

nostrils and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchials, breathing is made easy, and that distressing cough and throat soreness disappear. By this direct treatment Peps keep trouble off the

CHEST

and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

Peps

WORKSHOP AND HOUSE BURNED

Fritz Schultz' Place Suffered Loss of \$2500 Covered by Insurance.

The shop and residence of Fritz Schultz, the handyman, was gutted by fire which broke out yesterday afternoon at 2 o'clock. The alarm was sent in to the fire department by box 14 and when the brigade reached the scene the place was a mass of flames and the adjoining house of T. Budenich was also on fire. Schultz' place was badly gutted and the contents were all damaged with a loss of about \$2500 covered by insurance. The Budenich house got off with slight scorching, and the Osborne House on the other side belonging to J. W. Exley, the city hall janitor, was not damaged although it was threatened for a while.

The fire originated from an overheated heater which had been left burning while Fritz had gone out to visit nearby. Quite a crowd gathered and there was a good deal of flame and smoke. Once the fire department was on hand, the blaze was quickly extinguished; two lines of hose being used.

Insurance policies issued by J. Lorne MacLaren, Limited. Pay promptly and cost less.

STEAMER MEN MAKE PRESENTATION TO LOCKPORT MERCHANT

Handsome Shield Designed and Made Here to Be Given to William Moran, of Lockport.

A handsome shield, designed and made by John Bulger, of this city, is to be presented to William Moran, the Lockport merchant, by the officers of the Grand Trunk Pacific steamers when the steamer Prince John calls at the Moresby Island port this week. The gift is being awarded as an appreciation of the courtesy and hospitality of Mr. Moran who for many years has kept open house for the crews of the various vessels in the island service.

The shield is a handsome affair of mahogany and sterling silver. It is surmounted with an engraving of the steamer Prince Rupert, under which an appreciative text signed by the masters, pursers and mates of all steamers who have ever made the Lockport call.

LUMBER PARTY BACK FROM GRAHAM ISLAND

F. L. Buckley and Party Returned to South By This Morning's Train.

Fred L. Baker, the Los Angeles shipbuilder and transportation man; F. L. Buckley, the prominent lumber man, and J. F. Hanna, of Victoria, and J. E. Maguire, of Seattle, returned early this morning on the tug Tartar from a visit to Mr. Buckley's mill and timber holdings on Graham Island. They left on this morning's train for the south by Lucerne and the C.N.R. overland route.

Seen by the News on his return from the Islands, Mr. Buckley had nothing further to say in regard to future operations at Buckley Bay.

Mr. and Mrs. S. S. Magoffin left on this morning's train for Winnipeg.

Do Your Bowels move regularly, or do they become constipated

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble that flesh is heir to that is more liable to be neglected, because material inconvenience may not be felt, at once, from irregular action of the bowels. When there is not regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

MILBURN'S LAXA-LIVER PILLS will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.

Mr. Samuel Buckler, Tatamagouche, N. S., writes: "For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Laxa-Liver Pills. I procured two vials of them, but after I had taken one I found that I was relieved of my trouble. I do not hesitate to recommend Laxa-Liver Pills for any kind of constipation." Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PRINCESS LOUISE TO MAKE FIRST TRIP TO ALASKA ON JUNE 12

The new Canadian Pacific steamer Princess Louise, which is now about completed in the south, will arrive at this port

on June 12 on her first trip in the Alaska service for which she was specially built. It is understood that she will be in command of Captain Slater, the senior skipper of this service. With the trip of the Princess Louise the summer service of the C. P. R. to the north will be commenced. It will provide for two steamers one week and one steamer the next alternating thus until well into the fall. The Princess Alice will be the second steamer.

The service of the company this spring provides for fortnightly trips by the Princess Mary until March when a ten day schedule will be put into effect until the summer service opens in June.

JOHNNY SPILLS THE BEANS.

Johnny was entertaining his sister's caller and said, "Helen told me yesterday you were a horn politician." "Indeed!" said the young man pleased as he could be. "Why does she think that?" "That's just what pa wanted to know, and Helen said it's because you can do so much talking without committing yourself." —Boston Herald-Examiner.

A DOCTOR'S DAUGHTER & Zam-Buk

Well-known Salvationist Tells of Mother & Son Saved from Blood-Poison & Disablement.

"One cannot speak too highly of this wonderful Zam-Buk," says Mrs. Jane E. Zealley, an ex-Major of the Salvation Army and daughter of the late Dr. Bevan, of St. David's, South Wales.

Called upon at her home, 3, Rushmore Avenue, Toronto, Mrs. Zealley said: "Eight years ago my boy Alfred scratched his leg with the brass tag of a shoe lace and blood poisoning set in. I had used various ointments on the sore, without doing good, when hearing splendid reports about Zam-Buk I decided to give it a trial. You can imagine my relief, when, after a few applications of Zam-Buk, the itching had already started. Continued treatment quickly removed every trace of the obstinate sore. It made me realise what pain and suffering I might have saved the boy, had I got Zam-Buk at first.

"When I fell over a steel fender and injured my knee badly, I again used Zam-Buk. My daughter, who was a nurse, thought an operation would be necessary to remove the mass of inflammation and pus, but I hadn't forgotten my previous experience with Zam-Buk. Again regular applications of the balm took out all pain and swelling and healed the wound in a few days. The knee has never given further trouble." Herbal Zam-Buk is 50c. box, all dealers.

FREE BOXES!
Send 1 cent for return postage, mention paper, and Zam-Buk Co., Toronto, will forward Free Trial Sample. Unequalled for eczema, ringworm, ulcers, piles, etc.

MANSON FOR THE CABINET

Pattullo Will Visit Eastern Canada and Then Proceed to Europe.

VICTORIA, Jan. 16.—Hon. T. D. Pattullo, minister of lands, returned today from a tour of Northern British Columbia, and the feature of the news brought to Hon. John Oliver was that he had interviewed H. G. Perry, member for Fort George, and that Mr. Perry was likely to attend the caucus of Liberal members in Victoria on January 23.

"Mr. Perry will be very glad to support the party," said Mr. Pattullo.

"That means then, he will be back in the Liberal caucus?" Mr. Pattullo was asked.

"Yes, I think he will be," the minister replied.

New Attorney-general.

Mr. Pattullo also said that he had talked with Hon. A. M. Manson, speaker of the Legislature, who, according to the best reports will be the next attorney-general. The minister said there was a general feeling in the north that Mr. Manson would be returned by acclamation.

Mr. Pattullo is planning to leave next month for Eastern Canada to take up departmental matters at Ottawa and to discuss with financial interests the starting of a pulp and paper mill at Prince George. He will likely go to Europe to further the immigration scheme which will be taken up by the British House of Commons at the next session.

THE OPTIMIST

An optimist is the man who counts a few stray hairs across a bald head.—Milford Chronicle.

Optimist: A man who can make a mole hill out of a mountain of trouble.—Oklahoma News.

Optimists are expecting to soon get two full bites out of every two-bits.—Washington Times.

An optimist must be a man who puts entire confidence in the suspender buttons on his trousers.—"Topics of the Day" Films.

Optimist is one who lets his wife buy his ties and tells her they are just what he wanted.—Vaudeville News.

An optimist is a man going up the river with a canoe, a bashful girl, a basket, a blanket and a couple of pillows.—Cranford Spark.

The champ optimist is a man who goes to the average banquet to get something to eat.—Winnipeg Free Press.

An optimist is a man who puts his hat in the alleged rack under the theatre seat and expects it to stay there.—Nashville Tennessean.

Here's a definition of an optimist: A stranger who goes broke in Scotland, expecting to borrow his fare home.—Boston Record.

An optimist is that husband who believes his wife as good a cook as the dinner guests assert.—Westfield Leader.

It takes an optimist to rejoice in the fact that after a woman has fired his kisses he can eat as many onions as he likes.—Dubuich Herald.

In the Letter Box

TERRACE BRIDGE.

Editor Daily News:

As you already know we had a visit from our representative at Victoria, Hon. T. D. Pattullo who gave us a very appropriate address dealing with general and local matters.

In regard to the Skeena River bridge at this point, which you know has been the live issue here for the past twelve years, Mr. Pattullo said that the Government was ready to "make a start on it if the people of the locality would agree on its location.

There are only two feasible sites where that bridge can be put in—Hell's Gate Canyon or Little Canyon. The two canyons are two and a half miles apart and the question of the location of the bridge interests the people very much.

At Hell's Gate.

No doubt the Government has thoroughly investigated the matter. If it has not it should. It is my opinion the bridge should be put in as near as possible where the best land and natural resources lie, not only for the sake of the present but for the future generations. In my judgment, looking at the strategic and economic point of view, The Gate is the only bridge site. I understand it has been recommended by engineers that have looked at the two sites in question since the early days. The Gate is central and would be best for the people of Remo, Lakelse, Kitsumkalum and Zyanogotiz valleys.

In the future another bridge will have to be built between the mouth of the Copper River and Usk. Kitselas is another natural bridge site. Then with a good wagon road to Terrace on the railroad side in this way the towns of Terrace and Usk would be connected. In my judgment this would give justice and a square deal for the people.

Bridge Needed.

The bridge in question is certainly needed for the proper development of this part of the district. Its location should interest everyone who has the welfare of northern British Columbia at heart. So let us use a little strategy and commonsense and proceed with the work.

SKENA RIVER OBSERVER.

NAMES AND NUMBERS.

Editor Daily News:

In the matter of improvements for the city one of several things as they exist—occur to me as being anomalous, for example the nomenclature and ought to be very considerably improved.

As I read your paper I notice addresses given as block so and so, Jones' Block, Brown Block, ad, inf., without any inkling of what avenue or street or what portion of the street or number. The location might be as far as the information goes, anywhere between Pillsbury point and Seal Cove. Then again there are the sections. What information is it to a non-resident looking for an address to learn that it is in some section which he knows nothing about.

Do you not think that there might and ought to be an improvement in defining the locations more intelligently so that the wayfarer though a fool may not err therein.

These suggestions I commend for the consideration of those in authority and your endorsement. NON-RESIDENT.

LEAGUE HOCKEY

National.
Ottawa, 5; Toronto, 2.
Montreal, 10; Hamilton, 6.

The Wanderers Club and the Sons of England are scheduled to meet in a Trail Shield billiard tournament fixture. The Wanderers are priming themselves for a clean sweep of the Sons as they did in the early part of the first half schedule. They need it just about this time too with the Trail still far away in the lead for the first place and the St. Andrew's team showing menace of jumping into second place and displacing them to third if they do not get a move on towards an advance in the standing in short order. Victory for the Wanderers in tonight's tournament is pretty certain but the efforts of the club will be towards making it as big and perfect a victory as possible in order to strengthen this position.

Practice Schedule.
The following is the schedule of practice hours that has been drawn up:
Mondays—Maple Leafs, 6:30 to 7:30; Checkers, 7:30 to 8:30; Colts and Knight of Columbus, 8:30 to 9:30.
Wednesdays—Meteors; Telephone Girls; Sons of Canada, 2 teams, (same hours).
Thursdays—Junior Boys; Knights of Columbus and Colts; Elks, 2 teams.
Saturdays—Comets, 2 to 3; Canucks, 3 to 4; Checkers, 4 to 5; Meteors 6:30 to 7:30; Maple Leafs, 7:30 to 8:30.
Sundays—Juniors, 11 to 12; Sons of Canada, 2 teams, 12 to 1:30; Elks, 2 teams, 1:30 to 3; Telephone Girls, 3 to 4.

Had Bad Cough and Sore Throat

Never neglect a cough or cold however slight. If you do it can have but one result; it leaves the throat or lungs, or both, affected. A single dose of

DR. WOOD'S NORWAY PINE SYRUP

will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and barks promptly eradicates the bad effects, and the persistent use cannot but help to bring about relief.

Mr. Albert Marsh, Lower L'Ardoise, N. S., writes:—"About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I sent for the doctor, but what he prescribed did me no little good. I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to be leaving me, so I resolved to continue its use, and after I had used five bottles both my sore throat and cough were gone. I would not be without Dr. Wood's for any money."

Price, 35c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Dorothy Phillips, appearing in "Man, Woman, Marriage," at the Washolme Friday and Saturday.

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

BANK SPEAKS OF CONDITIONS

Monthly Commercial Letter of Financial Institution Interesting.

Should the conference now sitting at Washington result in the leading nations pledging themselves to a programme of disarmament, there may be some hope that the present heavy burden of taxation, which is depressing industry and hampering the exchange of goods and services between the various countries of the world, will be sufficiently lightened to permit an accumulation of capital and to encourage it once more to flow into the accustomed channels of trade and commerce, says the Canadian Bank of Commerce. If this takes place, Canada may look for some revival in her export trade, especially with Great Britain, which in the past has been one of her main customers, taking 32 per cent. of her total exports during the twelve months ending October last, as compared with 30 per cent. in 1920 and 43 per cent. in 1919. There are many other nations in need of our surplus products which would be only too glad to purchase them were they in a position to pay, but under present conditions they are unable to do so. Any measure of relief which the disarmament conference may give will aid in the solution of such problems.

Cost of Manufacture.
Efforts to bring the cost of manufactured products into harmony with the lowered scale of prices for agricultural produce are still in evidence. Faced with the inability to continue in business under the labor conditions imposed upon it, an engineering firm in the Maritime Provinces has transferred its activities to a locality where the labor cost is 45 cents per hour, as compared with the 75 cents which it had been required to pay. Further evidence of the endeavor to bring the domestic machinery of production and exchange into more active and satisfactory operation is shown by the effort to reopen activity in the building trades. These trades have reasonable assurances that much important work has already been planned, but the cost of building, and particularly the item of labor, is such as to make the execution of these plans impracticable. The actual volume of construction in Canada is diminishing, largely as the result of estimates of cost in some instances being substantially exceeded. Hopes of a reduction of the rate per hour paid for labor, and of increase in efficiency have not materialized. It is clear now to those engaged in building and in the manufacture of building material that greater activity will not take place until conditions are such as to justify the investment of capital in building. Even the high mortgage rate of between 7 and 8 per cent. in the chief urban centres does not attract capital under present conditions, and would-be builders realize that the prospect of profit is too remote and the risk involved too great to warrant them paying such rates of interest in addition to the abnormally high municipal taxes to which improvements are subject, and which show no signs of abatement in the near future. Rents and carrying charges on property represent a large proportion of the cost of production and distribution of most commodities, and substantial reduction in these items are, it would appear, essential to renewed business activity.

LAND ACT.
Notice of Intention to Apply to Lease Land.
In Skeena Land District, Recording District of Prince Rupert, B. C., and situated in District No. 1, second block from entrance on east side.
Take notice that Edgar Harold Crawford, occupation holder, intends to apply for permission to lease the following described lands: Commencing at a post planted in the second block from the entrance of east side of Skintz Inlet, thence 20 chains north, thence 20 chains east, thence 20 chains north, thence 20 chains west and containing 40 acres more or less.
EDGAR HAROLD CRAWFORD, Applicant.
Dated December 14, 1921.

Say It Plainly

We get some splendid suggestions from those who use Pacific Milk. We are indebted to a Westminister lady, who has suggested that we mention the importance of asking for Pacific Milk by name, rather than simply saying "a tin of milk" or "a case of milk." She says the last two cases she ordered she herself forgot to say Pacific, and each time some other brand was sent. It cost the grocer two extra trips to make the exchange, and it was not his fault either. We pass this suggestion on to you.

Nervous Breakdown

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:—

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least noise would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect. A friend advised the use of Dr. Chase's Nerve Food and I can truly testify today to the great benefit received. There was a marked change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the quick and permanent relief it has given me."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmansson, Bates & Co., Ltd., Toronto.

SHIPPING CHILLED MEAT TO BRITAIN

Matter Will Be Discussed by Farmers of Alberta at Convention Tomorrow.

CALGARY, Jan. 16.—A scheme for the shipping of chilled meat from Alberta to Great Britain will be discussed at the forthcoming convention of the United Farmers of Alberta here commencing tomorrow. A special committee was appointed at the convention last year and a thorough inquiry into the subject was instituted during the past year. Outstanding in the investigations are the reports of William Spurrel and John Wilson, who were sent to the Old Country by the late provincial government to secure first hand information. An extremely encouraging report on the prospects for such trade was brought back by Mr. Spurrel but Mr. Wilson in his survey declared the scheme to be quite impracticable. Mr. Wilson gave a very practical presentation of the whole matter at a recent convention of the Western Canada Livestock Union, which was followed by the passing of a resolution declaring the chilled meat trade between Canada and Great Britain was unprofitable and that every effort should be made for opening avenues for securing access to the British market for live Canadian beef cattle.

Several members of the United Farmers of Alberta hold the same view and state they are inclined to agree with the Hon. George Hoadley, provincial minister of agriculture, that the province should not go into the chilled meat industry but that the great hope lay in the export of well finished beef cattle. Without advertisements, this paper would not be as interesting to you, because information about goods for sale in the stores is less. Just that.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to \$5 an acre; second class to \$2.50 an acre.
Provision now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least a free before receiving Crown Grant.
Where pre-emptor in occupation for less than 5 years, and has made proportionate improvements, he may be allowed to purchase the land on the basis of the value of the improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homestead, title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes (timber land not exceeding 40 acres may be purchased) conditions include payment of stampage.
Natural hay meadows hereafter made conditional upon construction of a road 10 feet wide, one-half of cost of road, not exceeding half of purchase price is made.
PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retroactive.
No fees relating to pre-emption are due or payable by addressees on pre-emption records after June 26, 1918. Taxes are remitted for five years.
Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, fees and taxes on addressees pre-emptors.
Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, accrued direct or indirect, remitted from enactment to March 31, 1920.
SUB-PURCHASERS OF CROWN LANDS.
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchase or otherwise, to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

THE LAND OF HORROR.

Robert Henri, the New York painter, was telling stories about his life in Spain.
"Spain is above all things," he said, "the land of spoiled, caterwauling children. Wherever you go—to church, to fashionable restaurants, to the opera—caterwauling children surround you. Spain would have delighted Theodore Roosevelt's heart with its large families. Families of 12 to 15 even of 20 children are nothing there.
"One summer day on the beach at San Sebastian a little boy rushed up to a fat man who was trying to soothe a pair of yelling twins.
"Senor, senor, come quick! the boy panted. Your son Santiago is drowning!
"The fat man before laying the twins down to go to the rescue turned doubtfully to his wife:
"Dolores," he said, "have we a Santiago?"

FUR PLENTIFUL

EDMONTON, Jan. 16.—Fur is very plentiful in the north, say arrivals from Fort McMurray, and in addition to the usual run of peltries, many choice silver and cross foxes are being brought in to the northern town by local trappers. Similar reports come from the north as far as Chippewyan and Fitzgerald, and next week a string of dog teams will arrive in Fort McMurray from Chippewyan, laden with furs.

The brigade includes dog teams belonging to Hadmon & Ally, T. Woodman and Colin Fraser, all of whom have trading posts at the Athabasca Lake point. The ice on the Athabasca is said to be excellent for dog travel at the present time and the teams are making rapid journeys. The mail team of the Northern Trading Co., driven by McGee, left Fort Smith on Christmas day and arrived at McMurray on January 2.

IT MIGHT BE.
