OUTCOME GENOA CONFERENCE STILL VIEWED WITH MISGIVING

Delegates Set Themselves to Task of Economic Adjustment But Ultimate Success Doubted

GENOA, April 23.—Once more the gyrating Genoa Conference, which for the past week has been alternating between fears and hopes, punctuated by a political crisis which threatened to destroy it altogether, set itself grimly to the task of readjusting the economic life of Europe.

The announcement by the Germans that they would not reply to the Allies' second note, asking for an exact definition as to how far they expected to participate in Russian affairs, because it did not endanger the life of the conference, was received everywhere with faintly uttered words of relief, for everybody is beginning to despair secretly of the conference ending in economic accomplishment.

Refrain From Aggression.

The French delegation announced today that it was willing to subscribe to the proposed agreement under which the nations will refrain from aggression provided it is backed by proper guarantees considered especially necessary in view of the Russo-German treaty.

France May Quit.

BARLEUDUC, France, April 23.—Premier Poincare announced in a speech here today that, if the French delegation at Genoa would not go ahead with its work under the agreed conditions, France would regretfully have to cease participation in the conference.

AERIAL TRAM OVER SKEENA RIVER AT USK

New Sawmill of Kleanza Company Will Be Running by First of June.

The new mill of the Kleanza Co. Limited at Usk will be completed and in operation before June according to John Willman, president and general manager of the company, who is in the city on a short business trip. The difficulty of hauling ties and lumber across the Skeena River by ferry will be solved with the arrival of an aerial tramway which the company has recently purchased in the east. This aerial will have a span of cable measuring 1400 feet tested to carry a safely working load of five tons. It is on the railway at present in transit. The construction of the necessary towers will be commenced as soon as permission is obtained from the Dominion Government to permit of the company building a tower on the Usk side of the river. A 20,000-foot h.m. per day planer is also expected to arrive at the mill any day.

In speaking on mining developments of the company this season Mr. Willman said that George McKay, a mining expert at present employed in Utah, would be coming out to Usk in June for the purpose of examining and reporting on the company's mining properties, with a view to further development and the installation of a concentrating plant. The completion of the hydro-electric plant at Kleanza Creek will be dependent upon the report received.

Report More Serious Than Expected.

Although it was generally felt of late that there were some serious defects in the Booth Memorial School building, it is doubtful if many realized that they were as extensive or as serious as announced by the examining architect in his report at the school board meeting last week.

Building Trade Given Lesson.

Through the Booth School affair the building trade in Prince Rupert has been given a lesson not to be soon forgotten. Weather conditions here present more difficulties to this type of architecture than prevail in the most of cities.

Christianity In Business.

In the course of his address at the war memorial service yesterday, Rev. Dr. Grant gave an account of an interesting interview between Roger W. Babson, the well known American writer, and the president of the Argentine Republic.

The lesson to be learned from these few concise words is a deep one. Dr. Grant argued that the principles of the early British colonizers must be maintained to ensure future greatness, and his argument is a true and logical one.

The argument might be applied internationally as well as nationally. Canadians must be open and above board in their dealings both among themselves and with their foreign relations.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

STEADY ACTIVITY IN SETTLEMENT OF INTERIOR

E. A. Blow, C.P.R. Colonization Agent, Arrives in City From Winnipeg.

E. A. Blow, of Winnipeg, arrived in the city last night and is registered at the Prince Rupert Hotel.

Mr. Blow, who is representing the Industrial and Resources Department of the C. P. N. R., is making a leisurely and complete investigation of the line through the west in connection with settlement plans. Enquiries for central British Columbia lands, he says, are coming in insistently at his department, and much of the migration from the prairies to the states of California and Oregon has been turned towards British Columbia.

Mr. Blow states that there is a prospect of a fair immigration this year both from the United States and Great Britain, and thinks the total at the end of the year will show a much greater influx than last year. The territory into which the new settlers are going is so extensive that with a few going here and a few going there the movement is scarcely perceptible at any particular point, and for this reason it is thought generally that the movement is slow, but taking the country as a whole, there is more land settlement going on than is supposed by most people.

Dr. Chase's Ointment

How to Grow New Skin!

Nothing is more wonderful than the human skin. It breathes through tiny mouths called pores. If it is kept whole and strong it improves the entire bodily health.

Those who know most about the complex structure of the skin appreciate the care that must be taken in deciding what is the safest, purest and best dressing to apply in time of accident or disease.

Much scientific thought and experiment was expended in the search for an ideal natural healing substance, but it has actually been found at last, in Nature's own storehouse of medicinal herbs.

Never in the world's history has there been another preparation like zam-buk. Amongst other virtues, it possesses that rare quality of actually growing new skin in Nature's own way.

A MIRACLE BEFORE YOUR EYES.

Healing the injured and diseased tissues by this precious herbal balm is a miracle that may be performed before your own eyes. Children remember zam-buk best for its great power in soothing and healing their hurts, whilst in the treatment of eczema, ringworm, chronic sores, ulcers and poisoned sores, zam-buk powder, antiseptic and tissue-building properties ensure success.

Again, many thousands have zam-buk alone to thank for their complete release from torturing piles.

Differing fundamentally and in action from all ordinary ointments, zam-buk is free from animal fats and mineral compounds. It is highly refined and contains no ingredient which the skin cannot readily absorb. A fifty-cent box of zam-buk may save you dollars in doctors' bills. It is a unique preparation with a wonderfully wide range of usefulness.

MEMORY OF HEROIC DEAD HONORED AT SERVICE IN THEATRE HELD YESTERDAY.

(Continued from Page one.)

Canadians had fought with initiative and it was the men who fought with the bayonets, the men in the ranks, who had won the day for British arms.

Places Ideals Needed.

It was generally expressed by the men who came back that they did not want to go to war again. The fighting in France had been in inglorious warfare and the men had been disappointed with the battles in the mud. They could not be blamed for not wanting any more. The question was "How are we going to avert war?" The solution was by substituting war ideals with peace ideals feeling that more would be accomplished by peace and happiness than by might of arms. Despite the victory of the Allies there was still the question as to who had actually gained the most, they or the Germans. When one thought of the awful holocaust, the period of reconstruction, what the countries had gone through since 1918 and the conditions of today it made one wonder who had really gained.

It could be plainly seen that there was really no profit in war. The soldiers themselves wished perpetual peace. What should be made impossible by international tolerance.

Anglo-Saxon Alliance.

The speaker referred to the recently signed Treaty between Great Britain, United States, Japan and France for the limitation of arms as one of the greatest achievements towards lasting peace. It was the first time in history that the United States and Great Britain had struck a bargain of such importance. Although he believed in the two other members if the worst came to the worst he believed that the two Anglo-Saxon nations could rule that alliance and preserve peace (Applause). He believed that the United States realized that it was a great factor in the preserving of world peace. Peace could only be assured when there was an understanding between the two Anglo-Saxon nations.

The heart of Canada was with the soldiers for the Canadians realized that they had been saved by their service from the menace of the enemy. They had given service of the highest quality in sacrificing their lives for liberty. The question arose as to what Canada was to do for her soldiers but he felt sure that when the present strenuous times of reconstruction had passed a great memorial of gratitude would be raised for the half million men who had served so well. If they would only be patient that which was most desired would be brought about.

Foundation in God.

"No power that does not find its foundation in God can stand," declared Dr. Grant in closing. "Everything on a false foundation must be pulled down. Canada can never come to greatness until the people come back to the principles on which the country was built, the principles of those pioneers who came from across the ocean to the wilderness of the new land with an axe in one hand, a bible in the other and their trust in God. We will lose unless we come back to the great foundational principles of God.

"No greater love hath any man than that he lay down his life for his friends." That was the principle that was shown in the Great War by the Canadian soldiers and the principle on which all civilization is founded. When we are based on that

foundation we will face our problems and enter into a great sphere. Canada is great today because her pioneers came looking for God and not for gold. For God's sake, men, let us continue to seek God and not break down the ladder on which we have already climbed to greatness."

Duty to Dependents.

President W. E. Denning remarked in his address that he had noticed many, while the parade was passing, who were bent on pleasure. If it was not for the service of the soldiers they would not have been able to enjoy the pleasures of liberty. The soldiers, now wished for peace and happiness but if they were called they would again go to fight for the same principles for which they had fought in France. No monument was great enough to erect for the heroic dead but the interests of their dependents should be attended to and it was up to all returned men and citizens, to secure ample provision for all of them. This day would be observed as long as there was a returned man to honor the memory of his fallen comrades.

The theatre service commenced at 3 o'clock and lasted for a little over an hour. A procession was formed up at the Great War Veterans' headquarters which marched to the theatre and back again at the conclusion of the service. It was headed by the Pipe band, the Senior service, represented by the Boys of the Naval Brigade, in charge of Instructor C. V. Evill, the Trail Rangers, Boy Scouts, Tuxis Boys and a general procession of veterans in which the bright coats of the members of the Royal Canadian Mounted Police were distinctly in evidence. W. E. Denning was marshal.

MANY DIVORCES IN SENATE THIS YEAR

OTTAWA, April 21.—Divorce seems to be on the increase in Canada. During the first month of the first session of the fourteenth Parliament some 132 petitions for divorce and annulments of marriage have been lodged with the Senate. Of these 85 have been filed by husbands and 47 by wives. From Ontario there are 121 petitions, 72 being from Toronto the Good, from Quebec, 10, and one from British Columbia. That divorce proceedings are on the increase in this country is proved by the fact that from Confederation in 1867 until 1921 the total number of divorces granted by Parliament was 607—351 to husbands and 256 to wives. During that period the provinces have been represented as follows: Ontario, 453; Quebec 83; Manitoba 27; Saskatchewan 13; Alberta 21; British Columbia, 2; Northwest Territories, 7, and Prince Edward Island at the foot of the class with one. There is no need to apologize for all these figures, for they tell their own story.

Grave Old Gentlemen.

The divorce committee of the Senate has power to grant a bill of divorce for any cause whatsoever, or without cause if the wife should be the grave old gentlemen who are compelled to listen to the unsavory evidence necessarily adduced, says the Montreal Star correspondent. While a judge of a court can be impeached for corrupt practice, no one can impeach Parliament. As a matter of fact, the Senate has never granted dissolution of a marriage except for two causes, adultery and non-consummation. By the way, it is not correct to describe these as statutory grounds as there is no statute.

There have been at least two moves made by the Senate to get rid of the arduous task of hearing petitions for divorce. Not only has that body advocated the establishment of divorce courts in Ontario and Prince Edward Island, but an effort has been made to put women applicants in other provinces where the old English law prevails on equal footing with men. It will be recalled that under the English law a husband is only required to prove adultery on the part of his wife, but a wife must prove in addition cruelty, desertion or some other ground. Before Parliament, the husband and wife are on an equal footing.

Before the war twenty applications a year for divorce were considered a large number, but today it is predicted that there will be over 150 this session. The majority of applications are from returned soldiers or their wives—infidelity during the long separation. Numerous members of the Senate committees take the stand that where a man was overseas and his wife was unfaithful to him that he should not be charged the large fee—about \$500. So a frequent prac-

ROMANCE AND HISTORY JAPAN

Will Be Brought Home to Prince While Visiting There.

TOKIO, April 24.—Japan's generation for her great leaders of the past will be brought home to the Prince of Wales when he is taken on a pilgrimage to the sacred Tenno shrine, bordering on the ancient capital of Kyoto, burial place of Meiji Tenno, father of the present ruler and the great figure-head of the restoration period; and of Jimmu Tenno, founder of the empire.

The Meiji tomb is situated at Monoyama, a wooded eminence some five miles from Kyoto, a spot which the late emperor is said to have chosen as his last resting place.

The tomb itself is remarkably simple, consisting of a huge mound of concrete, covered with 300,000 minute slabs of white granite, and so constructed as to withstand the ravages of time and nature.

Historical Associations. This district is particularly rich in historical associations. It is the site of the famous palace of the dictator Hideyoshi, built in 1594 but now completely destroyed.

R. L. Brown returned to the city on last night's train, and is registered at the Prince Rupert Hotel.

STEWART

Mrs. Carolan and niece, Muriel Forsyth, moved to Hyder recently to take over that end of their dairy business.

C. S. Baker and R. L. Glozier have been busy getting supplies started up the road to be used in connection with work on the Kausas group this summer.

Mrs. R. Grossebusch of Hyder, who has been visiting her daughter in Seattle, returned on the last boat, and is at present the guest of Mrs. I. N. Hoguewood.

BOOTH SCHOOL CLASSES FIND NEW QUARTERS

Six of Eleven Divisions Will Be Running Tomorrow—Other Five End of Week.

Six of the eleven classes of the Booth Memorial School will be in operation in new quarters by tomorrow morning. Emergency rooms for the remaining five are now being constructed in the basements of King Edward High School and Borden Street and should be ready for occupation by the end of the week.

The classes to be running tomorrow will be housed in Borden Street School, the old domestic school annex on Seventh avenue, the Lutheran Church on Ninth Avenue and the three upstairs rooms vacant in King Edward High School. Three more rooms are being constructed by means of putting in partitions in the basements of the Borden Street School, as are also two at the King Edward High School.

The children of the five classes which are to move into their temporary rooms tomorrow will assemble at Booth Memorial School at 9 o'clock and will take their books from there and proceed to the new rooms.

Technical Classes.
For the remainder of the term, unless the school board alters the present plan, Miss Stephens, domestic science teacher, and R. H. Shockley, manual training instructor, will conduct their work in regular class rooms of the various schools. Miss Stephens will give sewing lessons and Mr. Shockley will carry on with mechanical drawing as well as assisting in the regular school drawing lessons.

Borden Street, Seal Cove and Westview schools reopened this morning after the Easter holidays, as did also the Booth School entrance class, which is finding temporary accommodation at Borden Street.

WOMEN KEPT BACK FROM EMIGRATION

LONDON, April 22.—"A far larger migration of women would be effected if financial assistance could be given," says the annual report for 1921 of the Society for Overseas Settlement of British Women.

"Under the present conditions," the report continues, "the cost of the journey is prohibitive to most women, thousands of whom would be willing to go to the Dominions to do the work most required of them."

The report proceeds to point out the conditions of life in the Dominions, which are still little understood by the majority of the people in the United Kingdom. The pictures painted there are often unreal, and girls and women start on the new venture in many cases unprepared for the realities of life in the Dominions and with light-hearted irresponsibility which too often leads to unhappiness for themselves and for those among whom they have to live. The report emphasizes the fact that such emigrants need advice and assistance.

English Conditions Bad.
In speaking of conditions in England Mr. Pusehart said that business was in a deplorable state, and that he himself had been out of employment for the last two years. He said that thousands of families were eager to come out to Canada but that the question of money prevented them from so doing. As a consequence of the Great War he contended that the Old Country people had their eyes constantly on Canada, the Canadian troops having endeared themselves to the hearts of all while they were in the British Isles. The people were ever ready to listen to and read anything of Canadian origin.

Mr. Fister said that they had all come to Canada knowing full well what they had to come to.

ENGLISH PARTY REACHES HERE

Twenty-seven Immigrants on Way to Settle on Q. C. Islands.

Nine families, totaling 27 persons in charge of Dr. Dunn, arrived in the city on last night's train from England bound for the Queen Charlotte Islands for settlement in the vicinity of Massett. This is the advance guard of the thirty families who are being brought out from the old country through the efforts of Charles Harrison and Dr. E. H. Lawson, the latter having arrived some few weeks ago to make arrangements for their reception on the Islands. The remaining families it is expected will arrive in June.

This party left Liverpool on April 8 aboard the Cunard liner Seythia arriving at Halifax on April 16 when they transferred direct to the train and left for this city. The party, all of whom are residents of London, consists of Dr. and Mrs. Dunn and four children of Old Street, London, E.C.; Mr. and Mrs. Fister of Clerkenwell; Mr. and Mrs. Pusehart, and three children of Highgate; Mr. and Mrs. Barker and child of Woodgreen; Mr. and Mrs. L. Howe and child of Clerkenwell; Mr. and Mrs. A. Williams and son of Clerkenwell; A. Iverson of Hammer Smith; Miss Mabel Hennessey of St. Pancras; and Dr. and Mrs. Palmer and son of St. Pancras.

The party report having experienced a splendid trip, the weather having been perfect. They are high in their praise of the service and attention meted out to them both aboard ship and on the Canadian National Railway. The accommodation was all that could be desired and their treatment from Winnipeg west was splendid. In speaking of service one of the party said: "On leaving Winnipeg I discovered one of the children had lost a rubber boot, and on notifying the train agent, he wired back. Word was received on arrival here that the shoe had been found and was being sent on to us. I have yet to learn of a railway in England that could beat that for service."

Pending steamer arrangements for their transfer to the Queen Charlotte Islands the party remained in their car on the sidetrack over night. They will leave on the Prince John early this week for Massett.

Frank Barrieau, who arrived in Toronto recently lost no time in coming to terms with Eddie Ridd, promoter of the Toronto April 28 boxing show. Barrieau simply gave his terms for the bout, stipulated that Johnny Klesch must make 156 pounds ringside, and post a weight forfeit of at least half of his purse, and then announced that he had nothing further to say about the matter. Ridd had to agree to terms immediately or lose the bout, and he promptly took the former course of action.

Barrieau, flushed with his recent wins over Heinie Schumann and Johnny Hillman, thinks that he will beat Klesch without difficulty. He looked over Klesch's record, which includes two 12-round contests with Bryan Downey, who is fifty-fifty middleweight champion with Wilson, one a draw and one a loss, a win over George Chip, ex-world's champion, and a victory over Bob Moha, who beat "Battling" Levinsky, and Barrieau then commenced to enumerate some of his own bouts. Barrieau has participated in over 75 battles in the last couple of years without being beaten. He knocked out Mickey King the Australian middleweight champion and beat both Billy and George Shade. He knocked out in six rounds Billy Weeks, while the best Klesch was able to do with this boy was nose out a decision in twelve rounds.

The Trim schooner Henry Ford, built to fish out of Gloucester and as a possible challenger for the North Atlantic fisherman's cup now held by the Canadian Blue Nose, was launched at Essex, Massachusetts last week. The Henry Ford is somewhat smaller than the schooner Puritan and Mayflower, which may be her competitors for the right to challenge the Canadian defender. She measures 138 feet, eight inches over all and has a 26 foot beam with a 12 foot depth of hold.

The French Olympia committee has decided to hold the 1924 Olympic games at Colombes, a suburb of Paris. It was announced this week. It will organize the games without the help of the Paris municipal council and stage them on the grounds of the racing club of France which has undertaken to build a stadium.

well what they had to come to. They did not expect to pluck money off the bushes, but if hard work and honesty of purpose would accomplish anything they were convinced success awaited them. As to turning their hand to anything, he said he had been in to most things from farming to silk worm keeping, and that he was game to try any old thing. He was tired of the outlook in England where everyone was running over the other to get an existence.

"GIRL IN A TAXI" IS GREAT COMEDY

Countless Funny Situations Make Latest De Haven Picture a Scram.

Countless funny situations present themselves in Carter De Haven's latest farce comedy "The Girl in the Taxi" which is to be shown at the Westholme Theatre tonight and tomorrow night. Son hides in a taxi to avoid meeting his father. A beautiful young girl enters and he is whisked away. He had pawned his father's best clothes. His father had insisted on calling him a "mollycoddle." Father catches him in a jam with another woman and had to convince his mother of his innocence. A policeman, on being called to quell a disturbance, finds his wife a member of the riotous party.

A REAL gentleman is said to be a man who buys his beer by the barrel.

I DREAMT that a burglar broke into my bedroom last night looking for money and that I got up and helped him look for it.

WE hear this talk about "the gravity of the short-skirt craze." There doesn't seem to be sufficient gravity, however, to make them come down.

MONEY making is a pure pastime in Russia.

THE COUGH with that Ticklish Sensation

A little tickling in the throat; now and then a dry, hacking cough; you think it is not bad enough to bother about, but every hack makes a breach in the system, strains the lungs and prepares the way for more serious trouble.

DR. WOOD'S NORWAY PINE SYRUP

It is just the remedy you require to stop that irritating, tickling cough on account of its soothing, healing and expectorant properties.

Mrs. P. Johnson, Port Alberni, B. C., writes:—"I have suffered for years, off and on, with a tickling cough. I could not sleep nights and had to sit up in bed to get relief. In fact, I coughed so I used to vomit. I tried different doctors' prescriptions until I heard of Dr. Wood's Norway Pine Syrup. I tried it and found great relief after I had taken the first bottle and have not been troubled since. I shall always keep it in the house."

Be sure and get "Dr. Wood's" when you ask for it. Price, 35c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

ELECTIONEERING IN HUNGARY IS ROUGH BUSINESS INDEED

BUDAPEST, April 21.—A new occupation, open only to young huskies not afraid to fight at the drop of a cabbage, has come into being here as a result of intensive campaigning for the coming elections.

Candidates opposing the government have met with such pronounced hostility that they now employ as many athletic young men as their campaign funds will permit to act as bouncers, body guards, spotters and shields for the speakers.

Opposition candidates decided to buy protection after dozens of their meetings had been broken up by bands of the notorious "Awakening Hungarians," who acquired remarkable skill at heaving cabbages and soft tomatoes, ill-smelling bombs and occasionally bricks during fits of political enthusiasm.

The bouncers ate stationed at various points through the hall and galleries and on the speaker's platform. Those in the audience attempt to quell disturbances at the source, but should a stray vegetable break loose and head for the stage, there is always some of the hired help ready to jump in front of the speaker for an instant.

On the rare occasions when there are no disturbances, the huskies act as claqueurs. In many of the gatherings this is said to require almost as much courage as speaking for an outburst of applause from any section of the house is sure to bring a collection of missiles.

The newspaper with the circulation is the real advertising medium.

REFUGEES IN BERLIN CITY

German Newspapers Liken the Capital to a "Foreign Colony."

BERLIN, April 21.—Hordes of Russian refugees are flocking here on every train. The arrivals have settled themselves in a section of the city which they occupy almost to the exclusion of other nationalities, and have opened their own restaurants, clubs, saloons and theatres. Some of the Russians are wealthy, but most of them are penniless.

The police have found them a problem, as they insist upon their own customs, and have little commerce with the Germans. The greatest difficulty is found in compelling the immigrants to observe the 1 o'clock closing regulations. They follow the Russian custom of beginning dinner after midnight and continuing their eating and drinking until daylight.

Fall of the Mighty.

In several of these restaurants former wealthy Russians are working as waiters, cooks or entertainers. A prince and his wife, a baron, and another of their countrymen constitute the orchestra in one small eating place. They were bankrupted by the revolution and must work or starve.

Profiteers who made fortunes out of the Russian revolution frequent the cafes in this quarter, where they have become conspicuous figures in the night life because of their lavish expenditures.

The German newspapers complain that the great influx of easterners has deprived Berlin of its "German character." One paper asserts Germany's capital city has become "a foreign colony, as surely as it would have become if our enemies had marched in and taken it." Another declares Germans have become "guests in their own homes."

Fear Epidemic.

Government quarters, which have shown little concern for the financial status of the refugees, have suddenly become intensely interested in the new arrivals, particularly from Poland and Russia, fearing an epidemic of typhus and cholera. German Red Cross physicians have warned the government that unless closer border control can be maintained an epidemic in the spring is certain. The German Red Cross has also notified the government that there is danger of the Russians carrying the plague to America unless greatest precautions are taken, for scores are seeking admission to the United States.
