## Sullivan Would Abandon Part P.G.E. REPARATIONS DISAGREEMENT HAS BEEN SETTLED BY THE ALLIES

### Reparations Difficulty is Settled by France Accepting Compromise Suggested by Belgium Yesterday

PARIS, Sept. 1.—Premier Poincaré of France accepted the decision of the reparations commission in favor of the Belgian compromise on German reparations after the Belgian government had assured him the arrangement was satisfactory to them. The approval is conditional upon the putting up of a German gold deposit to guarantee deferred payments.

The settlement has the same effect as a moratorium as Germany is relieved of making cash payments for the remainder of the year 1922 and payments for next year will be discussed later.

**French Cabinet Neutral**  
PARIS, Sept. 1.—The French cabinet today simply "took cognizance" of the reparations commission on the moratorium for Germany, neither approving nor disapproving. It specifically reserved however, "entire liberty of action" should later developments make other action necessary. Instead a conference of all the Allies will be called to consider the inter-allied debts and reparations.

**LONDON, Sept. 1.**—The British press accords heartiest welcome to the decision of the reparations commission. The danger of a division in which France and England should stand opposite each other was very near, says the Times, but has been averted.

**Labor Speaks**  
Even the laborite paper, the Herald, applauded the commission for stopping a further invasion of Germany and giving the "real peace-makers of Europe a chance to bring the French people as apart from the government to reason."

**DR. WRINCH IS HEAD HOSPITAL ASS'N. OF B.C.**  
Superintendent of Hazelton Hospital Chosen at Convention Yesterday—Miss Black There

**NEW WESTMINSTER, Sept. 1.**  
Dr. H. C. Wrinch, medical superintendent of the Hazelton Hospital, was elected president of the B.C. Hospital Association at the convention yesterday. Dr. Wrinch has always been an active and energetic member of the association and his selection is popular.

Miss Charlotte Black, matron of the Prince Rupert General Hospital, is the delegate from Prince Rupert.

**LIMIT SENTENCE FOR HOLDUP MEN**  
Judge Cayley Warns Any Found Guilty by Him Will Get Heavy Sentence

**VANCOUVER, Sept. 1.**—"Every holdup man who comes before me is going to get the limit," said Judge Cayley yesterday in sentencing "Sailor" Boysworth, six feet tall and eighteen years of age, to two years in the penitentiary.

Boysworth pleaded guilty to three charges of robbery with violence. He gave King's evidence against his accomplice, John McLaughlin, aged 24, who was sentenced to three years imprisonment a week ago.

**SMALL BOYS COMMITTED FOR TRIAL ON CHARGES BREAKING AND ENTERING**  
Four small boys, the oldest of whom was but twelve years of age, were committed for trial this morning by Magistrate McClymont in the city police court on charges of breaking and entering Fuller's store on Hays Cove Avenue. Burglaries have been reported more than once of late from this store, money having been taken from the till. Last night Special Constable Dewhurst was posted on the premises between 6 and 7 o'clock and he caught one of the boys red handed going through a window. The boy got away but was pursued and caught, the three others being later apprehended.

**G. Welsh, the well known commercial man, sailed last night for Vancouver, where he will spend a week before leaving for Los Angeles, where he is going to locate in future.**

**CAPE BRETON MINERS GO BACK TO WORK BY VOTE OF FIVE TO ONE**  
SYDNEY, Nova Scotia, Sept. 1.—The Cape Breton miners have accepted a settlement of the wage dispute by a vote estimated at five to one in favor of returning to work.

This will have a beneficial effect on the coal supply in the East. As the maintenance men have been working the pumps the men will be able to return almost immediately.

It is expected that the miners will be back in the mines and the military guards will be evacuated by Sunday as a result of the overwhelming vote.

**LARKIN GOES BACK TO JAIL**  
Was Out on Suspended Sentence But Ordered Return to Sing Sing  
NEW YORK, Sept. 1.—James Larkin, Irish leader and former assemblyman, and Benjamin Gitlow, convicted two years ago of criminal anarchy, who have been out on certificates of "reasonable doubt," today were ordered returned to Sing Sing prison to finish the remainder of their sentences of from five to ten years.

**SAY SHOPMEN'S STRIKE BROKEN**  
Railway Executives Report 300,000 Men Working and 75,000 Out  
NEW YORK, Sept. 1.—The railway executives have published figures purporting to show that the shopmen's strike is broken and the strikers are returning to work. It is reported that nearly 17,000 returned to work in three days. Approximately 300,000 men are now working which is only 75,000 short of the normal figures.

**BERLIN FOOD RIOTS**  
Protest Made at Rapidly Mounting Prices in Germany—Police Disperse Rioters  
BERLIN, Sept. 1.—Food riots in Berlin suburbs in protest against the hourly mounting food prices have assumed grave proportions. A strong force of police dispersed the rioters.

Bishop Buno sailed last night on the Prince George for Ocean Falls.

**WOULD MAKE FOREIGNERS OBEY LAWS**  
Women of Kootenay Demand Firm Hand With Doukhobors and Orientals  
NELSON, Sept. 1.—The Kootenay and Boundary Central Women's institute went after foreigners in British Columbia at their convention here. They passed a resolution demanding that Doukhobors be compelled to obey the laws, register births and be punished if they appear publicly naked. Also they demand the exclusion of Orientals and restrictions regarding the sale of land to Orientals.

**Export Houses and Breweries Are Worst Menace to Liquor Law Enforcement, Says Manson**  
VICTORIA, Sept. 1.—Export houses and breweries are the worst menace to a liquor law enforcement in the province, according to a statement issued by Hon. A. M. Manson, attorney general, here. Bonded liquor is being shipped out of British Columbia by export companies and returned secretly to the same ports for sale by bootleggers in competition with government vendors. By this means liquor dealers are evading the \$2.50 a quart excise, payable on liquor for local consumption.

The attorney general declares that Wednesday afternoon trading at government liquor stores in the last few weeks has proved that a good deal of illicit sale was going on in the province.

**MILL STARTS ON OCTOBER 1**  
Frank L. Buckley Returned Last Night From Ten Day Visit to Graham Island

**BRITISH ARE GETTING READY FOR ELECTION**  
Lord Salisbury Says Conservatives Can Win: Labor Active  
LONDON, Sept. 1.—Two pronouncements heralding the opening of the political campaign for next election have been made by the opposition. Lord Salisbury advised Unionist clubs throughout the country that news from all parts of England indicates Conservative party can in the next parliament regain its "freedom in a fight for conservative principles and clean politics."

Arthur Henderson, secretary of the Labor party, predicted that the election could not be long delayed and would be the most momentous in history.

**INVESTIGATION INTO EXPLOSION**  
Bereaved Families Will be Provided for by Company  
CUMBERLAND, B.C., Sept. 1.—Provincial Mine Inspector James McGregor has arrived here to investigate the coal mine explosion which cost the lives of fifteen men and injured eleven. Officials are unable to advance any theory as to the cause.

Of the eleven injured, two are crippled for life if they recover. Both Orientals and company officials declare that the widows and fatherless children of the men killed will be provided for.

Robert Dunsire and Jack Gibson left six children. John Johnson was a bachelor. The cause in which followed the explosion was comparatively small and repairs will be completed.

**SKENA AND NAAS RIVER AGENCIES ARE AMALGAMATED**  
Rev. W. E. Collison Will Take Over Duties of C. C. Perry With Headquarters Still Here  
With the transfer of G. C. Perry, Indian Agent for Skeena River division, to take charge of the new Vancouver district, the Naas River and Skeena River agencies will be amalgamated again with Rev. W. E. Collison, the present agent for Naas River, in charge. Mr. Collison's headquarters will remain in Prince Rupert. The merging of the two districts is already in effect with Mr. Perry carrying on here until he receives definite instructions to take over his Vancouver post.

## Railway Expert Advises Against P.G.E. Extension to Prince George Would Abandon Southern Section

VICTORIA, Sept. 1.—Unless the people of British Columbia are prepared to continue paying from two million to two and a half million dollars annually for ten years on an investment already made on the Pacific Great Eastern Railway, the whole system should be abandoned, J. G. Sullivan asserts in his report to the government, after investigating the P.G.E. prospects.

Mr. Sullivan strongly advises against extension of the line, urges the abandonment of the section from Quesnel to Prince George and under no circumstances should the line be built north of the Grand Trunk Pacific at Prince George, nor should the line be built from Squamish to Vancouver. He recommended abandonment of the line from Clinton to Squamish 160 miles and using the salvage money to build a link from Clinton to Ashcroft.

**Sell to Lumber Co.**  
The expert recommends selling the southern section to lumber operators. However, the possibility of handing the Pacific Great Eastern over to a private company, Sullivan states is impracticable, as no private owned company would want a railway with "no strategic advantages."

Mr. Sullivan urges that the government abandon the operation of steam trains for passenger and express business and replace them by gas driven motor cars.

The present system of charging to capital accrued interest charges and deficit in operating expenses will cause the interest charges to increase faster than business. The total indebtedness at the end of ten years would be nearly doubled without consideration of the extra expenditure for equipment.

**MOTHER OF LOCAL LADY PASSED AWAY**  
Mrs. J. R. Moran Arrived this Morning from Surf Inlet With Remains of Mother, Mrs. Livingstone.  
Accompanying the remains of her mother, Mrs. Marion Owen Livingstone, who died at Surf Inlet on Wednesday, Mrs. J. R. Morgan and daughter, Miss Margaret Morgan, arrived this morning on the steamer Venture from the south. Funeral arrangements are in the hands of the B.C. Undertakers and burial will take place tomorrow afternoon in Fairview Cemetery, Rev. Dr. H. R. Grant officiating.

The late Mrs. Livingstone succumbed to a stroke of apoplexy. She is a native of Homer, New York, and was 70 years, 11 months and 9 days of age. She had resided in Jordan, Montana, for several years and had been in this district for fifteen months with her daughter. Besides Mrs. Morgan, deceased is survived by other sons and daughters residing in Michigan and Montana.

**INJUNCTION AGAINST RAILWAY EMPLOYEES GRANTED BY COURT**  
CHICAGO, Sept. 1.—The United States Government was this afternoon granted a restraining order against the six striking railroad shopcraft unions, their officials and members from interfering in any way with the operation of the railways or their properties.

The order is in force until September 11, when there will be a hearing for a permanent writ of injunction.

**SEVERAL CONVICTIONS**  
Coquitlam and Matsqui People Fined for Setting Forest Fires.  
VANCOUVER, Sept. 1.—Convicted in the Coquitlam police court yesterday of neglecting forest fires on his property last July, J. F. Wright was fined \$25 and costs.

At Matsqui, J. Pilon, A. Nicholais and Oscar Gederfelt were each fined \$10 and costs for setting fires without a permit.

**KILLED 1800 SEA LIONS IN COLUMBIA**  
ASTORIA, Oregon, Sept. 1.—Nearly 1800 sea lions were killed as salmon destroyers by gill netters this season in addition to those killed by the Government employees in Columbia river. It is estimated by the bounty committee.

**Less Government Says Mackenzie King.**

Yesterday Premier Mackenzie King echoed what has been on the lips and minds of Canadians all over the country when he said that what was needed at present was less government. The tendency of the day is for the governments to interfere with everything to the limit. This is true of all governments. Following a very expensive war, it became more necessary than ever to collect the last sou in order to pay our national debts. Now the limit has been reached. The people are paying all they can stand and the limit of interference has also been reached. What we want now is a chance to do business without governmental interference and changes, for these changes always interfere with business and make developments difficult.

**Definite Date For Lumber Mill To Open.**

A definite date has been set for the opening of the big lumber mill at Buckley Bay. It is announced by F. L. Buckley that cutting lumber will commence on October 1, just a month from now. No intimation is given as to how long operations will continue except that contained in the Los Angeles article recently published in this paper in which it said the promoters wished to have ten million feet on the dock at Los Angeles before work there commenced on the remanufacturing. Much will depend upon the weather. If the mill operates this winter and logging camps are opened at Massett Inlet, it should to a large extent relieve unemployment in the North. The general expectation among those likely to know is that there will be work for everybody without much state or city relief during the coming winter.

**Pioneers Leave For Positions Elsewhere.**

Two long time residents of Prince Rupert are to leave, it is announced. Alderman C. C. Perry and O. H. Nelson, formerly publisher of the Journal in this city, are both getting better positions than they now hold and will leave soon, the one for Vancouver and the other for Victoria. Both will be missed. Ald. Perry has taken a keen interest in public affairs in addition to his departmental duties. Mr. Nelson has devoted his attention more to political life. News of their departure was received yesterday with regret and the hope was very generally expressed that they may not be kept away permanently. In that wish the Daily News heartily joins.

**Fire Insurance Relief Arrives.**

The announcement that there has been relief in the matter of fire insurance rates in this city will be very welcome to those who just now are feeling the squeeze of hard times. The rates, it is generally acknowledged, have been too high in this city. The companies have been making huge profits from Prince Rupert insurance and yet the people here were helpless. The Board of Fire Underwriters are supreme in this matter and what they say has to be adhered to by all board companies.

**Better Business In Some Lines.**

Mayor Rochester stated last evening that there had been more travel here this year than ever before and that business with him had been better. The daily train service had been a great advantage as people did not all come on the same days. The travel was more regular. It is refreshing to hear that business is good in some quarters. We all expect that there will now be an improvement throughout the city. September should mark the beginning of the coming of better times for Prince Rupert and for the whole of the west.

**WASTED DOLLARS**

How often have you returned home on a Saturday night, after having spent \$5 or \$10 without any particular pleasure or profit?  
 Wouldn't it have been better for your future if—instead of spending the money, you had deposited it to the credit of your savings account?  
 Think it over! Open a savings account next pay-day at our nearest branch, and save all your spare dollars.

Copy of our Booklet "One Dollar Weekly" free on request.

**ENGLISHMAN ROTARY GUEST**

Sir Thomas Robinson Gave Short Address at Luncheon Yesterday

One of the speakers at the Rotary Luncheon yesterday was Sir Thomas Robinson of Grimsby, England, who has been visiting in the city this week, the guest of Mr. and Mrs. T. H. Johnson, Fourth Ave., and who left last night for Vancouver accompanied by Mr. Johnson.

Sir Thomas spoke of Grimsby as the premier fishing port of the world. While he was proud of the fact, he did not care how soon Prince Rupert wrested the honors from them. He spoke appreciatively of the work of the Rotary Club and said it was a pleasure for him to renew acquaintances at Prince Rupert.

Sir Thomas, who took a leading part in organizing the food supply during the war, spoke of the splendid loyalty that had been shown by Canadians during the early years of the war. Its manifestation has been a marvel to him and was fully appreciated across the ocean.

Speaking of the financial condition of affairs just now, Sir Thomas said that all Prince Rupert was short of was money. Much could be done if money were available. He hoped the needful would come to hand so that development might go ahead. The port had a splendid natural position and he hoped to see it grow. If the government would advance the money for railway facilities what was wanted should come.

**Ten Years Ago in Prince Rupert**

September 1, 1912.  
 V. W. Smith has purchased from G. H. Helgeson two lots on Third Avenue opposite the post office for \$33,000. These same lots were sold eight months ago for \$14,500.

The funeral of the late Dr. J. O. Reddie took place this afternoon under Masonic auspices, Rev. F. W. Kerr officiating. The pallbearers were Dr. N. M. McNeill, Dr. H. E. Tremayne, Dr. L. W. Kergin, Dr. C. A. Egger, Dr. J. P. Cade and P. W. Anderson.

Pastors in all churches of the city are taking part today in the giving of eloquent appreciation to the late General Booth, head of the Salvation Army, who passed away last week.

**Ten Years Hence in Prince Rupert**

September 1, 1932  
 The annual Regatta of the Royal Haida Yacht Club opened here today with the largest list of entries for the four races that has been seen since the first regatta was held. There were nine entries for the 23 metre class, which has proved to be by far the most popular. Steve King's "Caulkless" carried most of the money for, in the past, she has proved herself to be the fastest thing afloat when hauling to windward. Although handicapped 4 min. 25 sec. she managed to round the course twice, in the lead with several seconds to spare.

The course was from the commodore's anchorage just east of Massett Inlet, round Langara Buoy and north east to a buoy at North Island and back twice. During the day, the North Beach was crowded with planes arriving from Prince Rupert and Port Edward, while the big excursion planes hovered over the course carried eager hundreds every trip watching the seaman-ship.

There was a light breeze from the south-west which freshened considerably as the afternoon wore on, giving the skippers lots to think about. During the earlier part of the day, there was a lot of light canvass evident when the wind was fluky. Rising rapidly it was not until Bill Kergin's spinnaker was carried away that the other boats shortened sail and the course was finished with most of the yachts carrying two or three reefs.

When the gun went off at 41 o'clock, C. C. Perry's "Pepellet" was first over the line, with Frizzell's "Steek" following close. The favorite, Steve King's "Caulkless" came third well to windward and drew ahead from the very first. Pulling ahead out of the ruck, she maintained her initial lead to the end. Harry Walford's "Dreamer," Bill Kergin's "Gagoom," Henry Kergin's "Kitkatla" and Doug Stork's "Sunbeam" crossed in a bunch with Professor Benson's "Poinsettia" five seconds astern. Carl Thompson's Uneda and the Hon. Sir H. K. Freeman's "Narbethong II" crossed together several seconds later. The same order was maintained until round the Langara Buoy. The wind was light and fully an hour and a half was taken on this first leg. Running free before the wind, which began to freshen right after noon, every inch of light canvass was hoisted, "Caulkless," rounding the buoy first, drawing away in fine style. Beating back from North Island to Rose Spit, Caulkless made the most of her fine qualities, but between the Spit and the Commodore, she got into a calm which permitted the Pe-pellet and Poinsettia to close up. On the second round, the breeze was decidedly fresh by the time Langara was reached and Caulkless again got away with every spinnaker drawing. It was here that Gagoom met with her accident fifteen minutes later, the stronger wind carrying her spinnaker away bodily. In half an hour, reefs were being taken in and Poinsettia gave up. It was straight going until North Island buoy was again rounded when the close hauled qualities of Caulkless won her the race on the last leg.

**PRESERVING FRUIT CARNIVAL**

The next two weeks should see the greatest bargains in preserving fruits that ever were offered in Rupert. Conditions were never so favorable for cheap fruits for preserving as today. The railroad strike in the States has cut off almost completely the competition of Eastern markets with the result that Coast markets are glutted with fruit that must be sold regardless of profits. Here is your opportunity to save money by canning your own fruit.

Remember Monday, Sept. 4th, is Labor Day. Shop early this week.

- Bartlett Pears for Preserving. We offer for arrival Labor Day, delivery Tuesday, 50 Boxes of Extra Fancy Wrapped Stock at \$2.65 Per Box.
- Each box weighs at least 15 lbs. nett and we assure you that 6c per pound does not leave the grower enough to pay for the boxes. We will book orders only to the amount we have arriving.
- Freestone Elberta Peaches now in stock, plenty of large sizes at \$1.45 Per Box. We hope to have an even lower price but would advise you not to wait.
- Italian Prunes now in stock. 50 lb. Boxes for \$3.50. 20 lb. Lots for \$1.50. Per 5 lb. Basket 40c.
- Fresh Shipment of North-West Biscuits just arrived. We included a trial order for Graham Wafers packed in 6 lb. Wooden Boxes which is big value at \$1.25 per box. Buy them now. They are fresh.
- Citron, per lb. 8c.
- Pumpkin, per lb. 8c.
- Hubbard Squash, lb. 8c.
- Veg. Marrow, per lb. 5c.
- Medium-Sized Cucumber, 2 for 15c, 4 for 25c.
- Large Heads Celery, 2 for 25c.
- Yellow Bantam Corn on Cob, per doz. 60c.
- Choice White Cauliflower, large heads, 35c, 40c, 45c.
- Okanagan Green Cabbage, 6 for 25c.
- New Carrots, 6 lb. for 25c.

Universal Trading Co. Phone 376

were wild cheers which were interrupted long enough to enable the other candidates to move that the vote be made unanimous. Mr. Nelson will make his official residence in Prince Rupert, of which city he was formerly a resident.

**PREST IS TAKING MOVING PICTURES CENTRAL ALASKA**

FAIRBANKS, Sept. 1. — Since the wreck of his machine, the Polar Bear, in the wilds between here and Eagle some weeks ago, C. O. Prest, the aviator, with the assistance of the Fairbanks News-Miner and citizens of Fairbanks, has been making moving pictures of the Fairbanks country, showing the farms, the mines, the new college and interesting activities, as well as the scenery of the country. These pictures together with one that Mr. Prest took of the caribou among which he made the landing that proved fatal to his plane will be prepared for the motion picture theatres of the country.

### COUPLE FROM PORT SIMPSON MARRIED HERE LAST NIGHT

The wedding took place last night at 6 o'clock at the Savoy Hotel of Miss Clara White and David A. Johnson, both of Port Simpson. Rev. G. G. Hacker officiating. Reuben P. Ryan and Miss Helen White were the attendants and the bride's parents were also present.

Mr. Johnson is a well known resident of Port Simpson and conducts a general store there. After spending a day or so in the city, Mr. and Mrs. Johnson will leave for Port Simpson to take up their residence there.

### PRINCE GEORGE

Hiram Carney, Prince George delegate to the Conservative convention at Vancouver, reached home this week. Mr. Carney says that the Kootenays, Fernie, Cranbrook, Rossland, Trail and Grand Forks went solid for Bowser and carried the day for the old chief in his fight for leadership.

The sale of government lots on the Prince George townsite will take place on September 14. James Smith, of the lands department, has arrived in the city to prepare the sale.

The Prince George Athletic Association has completed arrangements for a ten round boxing bout here on Labor Day between Harry Anderson, of this city, and Cecil Hartley, of Vanderhoof.

The Edson baseball team will play a series with Prince George at the first of the week. The Alberta team will arrive on Saturday night. Three games will be played.

Mayor Johnson and Richard Corless made a trip by automobile to Ashcroft last week. They believe that much tourist traffic will come here when the auto road between Quesnel and this city is completed.

Prince George took the last game of the Vanderhoof-Prince George "Carney" cup baseball games last Sunday by a score of 8 to 7. Much looseness on either side was a feature.

#### EXHIBITION PLAY-OFFS

Following are the dates for the Exhibition football play-offs: Sept. 5—Grotto vs. Sons of Canada. McCulloch, referee. Sept. 8—Sons of England vs. Calties. Waldorf, referee.

A GLANCE AT OUR ELECTRIC BREAD

will tell you at once that it must be good. A taste of it will tell you it is even better than it looks, which is saying a lot. Why bother with home baking when you can get such wonderful bread for so little.

BRINGING UP FATHER

Archbishop Visits Upper Stikine and Tells of the Wonders of the Country

After having baptized the chief of the Talh-tan Indians, confirmed a number of natives, and travelled for days among the most wonderful scenery in the world, Archbishop DuVernet is home again this week from a visit to the upper Stikine country. There the Indians go to church twice every day when they are at home. At Telegraph Creek a parsonage is just being completed and a new church is to be commenced soon. Hunters are going into the country for big game and incidentally they see lava beds and basaltic rocks which are intensely interesting to the geologists.

Speaking of his visit, the Archbishop said: "The Upper Stikine country is a vast and interesting region in the northern interior of British Columbia. It can be easily reached in the summer time by taking a gas boat from Wrangell, Alaska, and proceeding up the Stikine River. The journey to Telegraph Creek, which is a government and a Hudson's Bay Company post 150 miles up this river, occupies about two days and a half when conditions are favorable and the water is not too high or too low.

"About twenty miles up the river the boundary line is crossed, and the Canadian Customs officer takes a careful record of every one entering the interior by this route. This is important as lonely prospectors might easily be lost in the wilds.

"It is doubtful if any navigable river in the world affords grander scenery. Both banks are lined with towering mountains varying in rugged outline. There are at least a dozen large glaciers, and many more smaller ones. Popoff glacier is so called because the ice comes to the edge of a precipice and then pops off. The Big Glacier is six miles wide where it spreads out like a fan on the north bank of the river after having slowly descended fifty miles between mountain peaks.

# LECTURE ON ASTRONOMY

Was Delivered at Chautauqua Last Night by Dr. Arthur D. Carpenter.

Dr. Arthur D. Carpenter, astronomer, was the speaker of the evening at the Chautauqua last night, his lecture being entitled: "Worlds in the Making." The address was bright and interesting and dealt in a pleasing manner with matters astronomical.

Taking as the backbone of his lecture a historical account of the development of the study of astronomy from the early ages to the present day, Dr. Carpenter branched off from his narrative at various junctures to deal with different astral subjects as they came up. Sun, moon, earth, planets, stars and other heavenly bodies were described and accounted for and also theories given as to the past and future of the universe.

**Theory of Ptolemy**  
The early idea of the earth, the lecturer said, was that it was flat and inhabited only on one side. This had been the theory until the second century when Claudius Ptolemy, the Alexandrian astronomer, built a mathematical system based on the principle that the world was round but static and that the stars, sun and planets revolved around it. This theory had been universally received until the fifteenth and sixteenth centuries when it was displaced by the Copernican theory of the sun as the centre of the planetary system with the earth revolving about it. This theory had been quietly advanced by Copernicus, the Prussian astronomer, but was taken up actively a century later by Galileo, the Italian, who constructed a telescope and studied the sun and moon and discovered that they revolved on their axes, in revolving about each other. He also had discovered dark spots. Incurring the displeasure of the Church for his teachings, Galileo was

## Green Tea Drinkers

Natural Leaf Green Tea. It's strength Flavour and Economy in use will prove a revelation.

In Sealed Packets Only — At All Grocers.

charged with heresy and was brought to an inquisition in Rome where he was condemned by the church court and forced to abjure his theories. The pioneer of modern astronomy had been Sir William Herschel, the English astronomer of German birth, who built the first large telescope in the eighteenth century and made explorations of the heavens making new discoveries notable among which was that of double stars.

**Valuable Study**  
Dr. Carpenter stated that the study of astronomy was one of the greatest means of widening the vision and it was a subject that could be taken up by anybody. He urged the use of the telescope in the schools. The lecturer advanced the theory that the earth was gradually losing its water and air and, like the moon, would some time in future ages be a barren and desolate waste, its surface covered with high mountains and deep valleys where formerly had been continents and oceans. The sun was now in its middle age and would also millions of years hence likely burn out and revert to a cold mass. However, it had been burning for some twenty million years now and would likely continue to do so for another five million years. The ultimate fate of the earth, the astronomer suggested, would likely be its crashing with some other mighty astral body and its disappearance like a flash reverting into a gaseous shapeless form.

The lecturer's descriptions of the speed with which light travels, the unmeasurable distances of the universe and the sizes of some of the starry bodies which cause the earth to shrink into practical insignificance as a factor in the mighty system were very interesting without being encumbered with the usual mathematical calculations. In closing his lecture, Dr. Carpenter expressed his firm belief in the Christian God as the controlling factor of the Universe.

**Musical Numbers**  
The musical part of last night's program was provided by Wee Jamie Clark, the famous piper of the Canadian Killies Band, and his drum accompanist W. McRoberts. Their forty minute entertainment was a novel and delightful character, comprising pipe and drum solos, dancing and a line of patter.

**In the Supreme Court of British Columbia in Probate.**

In the Matter of the Administration Act, and In the Matter of the Estate of George Crook (deceased), Intestate, in Chambers, before His Honor F. McE. Young, Thursday, the 24th day of August, 1922.

UPON the petition of J. H. McMullin, Official Administrator, upon reading the affidavits of the said J. H. McMullin, of Albert Edwards, of Alexander Johnson and of Andrew Brown; and upon hearing Mr. W. O. Fulton of Counsel for the Petitioner; IT IS ORDERED that the death of the above-named George Crook (deceased) shall be presumed to have occurred on the 24th day of April, A.D. 1922, at Seven Mile Point, Graham Island, British Columbia. IT IS FURTHER ORDERED that the said J. H. McMullin may apply for administration of the said estate and declare to the death as having occurred upon the said date upon publishing a copy of this order in a newspaper published and circulating in Prince Rupert, B.C., for a period of one month at weekly intervals. F. McE. YOUNG, J.S.C.

## SONS OF CANADA WINNERS AGAIN

Defeated Sons of England in Stuart Shield Soccer Game by Score of 2 to 1

The Sons of Canada defeated the Sons of England in last night's Stuart Shield football game by a score of 2 to 1. The match was a "loose one and was featured by little play of brilliant nature on either side. The Sons of Canada, kicking down hill, made their first counter through Warren in the first half. Each side made one goal in the second, Wiggins scoring for the Englishmen and Warren again for the Canucks. Thirty-five minute halves were played.

W. McCulloch was referee and the linesmen were A. Clapperton and S. Butters, the teams lining up as follows:

Sons of Canada—H. B. Scott, W. G. Anderson and H. Menzies; G. Mitchell, V. Menzies and W. Davis; S. Marks, J. Mitchell, J. Marks, E. Warren and Howard Frizzell.

Sons of England—Stockdale; Hemmonds and Dick Lamb; P. Cameron, G. Mansell and E. Craggs; Hamilton, Hodgson, D. Wiggins, R. Greenwell and J. Farquhar.

## Sport Chat

As an introduction of the wrestling game in Prince Rupert nothing better could have been desired than the contest on Wednesday evening between Ad. Gustavo and Jack Olsen. Indeed, one might go for a long time in a large city where talent is much more easy to find than it is here and a witness such a good, clean cut and lively match as the local fans were treated to on this occasion. Many persons who have followed the ring game here for years declared the bout the most interesting that was ever put on here. Jack Judge and Roy Barnes, as well as the principals themselves and any others who had a hand in the promotion of the match, are to be complimented on the success of such a well appreciated event.

As many had expected, the match was largely one of cleverness and lightness pitted against strength and weight. Such a combination is not often seen in the wrestling game for it very seldom works out satisfactorily. Olsen showed himself to be a game sport, however, in granting a handicap, although it would seem that he did not have his opponent well judged. The fans will all agree with the remark that Olsen made quietly after the match was over: "One of the toughest customers I ever met."

Gustavo had a large measure of popularity in the city before the match. As a result of it his stock has even gone up further and everybody is hoping that he may be matched again before long in the city with some wrestler of repute of about his own weight. He will be a favorite now with the best there is going. It is understood that steps are already being taken to import a real good opponent of his own class and if the present intentions are carried out something may be staged during Fair Week. That is not very far off, however, and if anything is to be staged then some quick action will have to be taken.

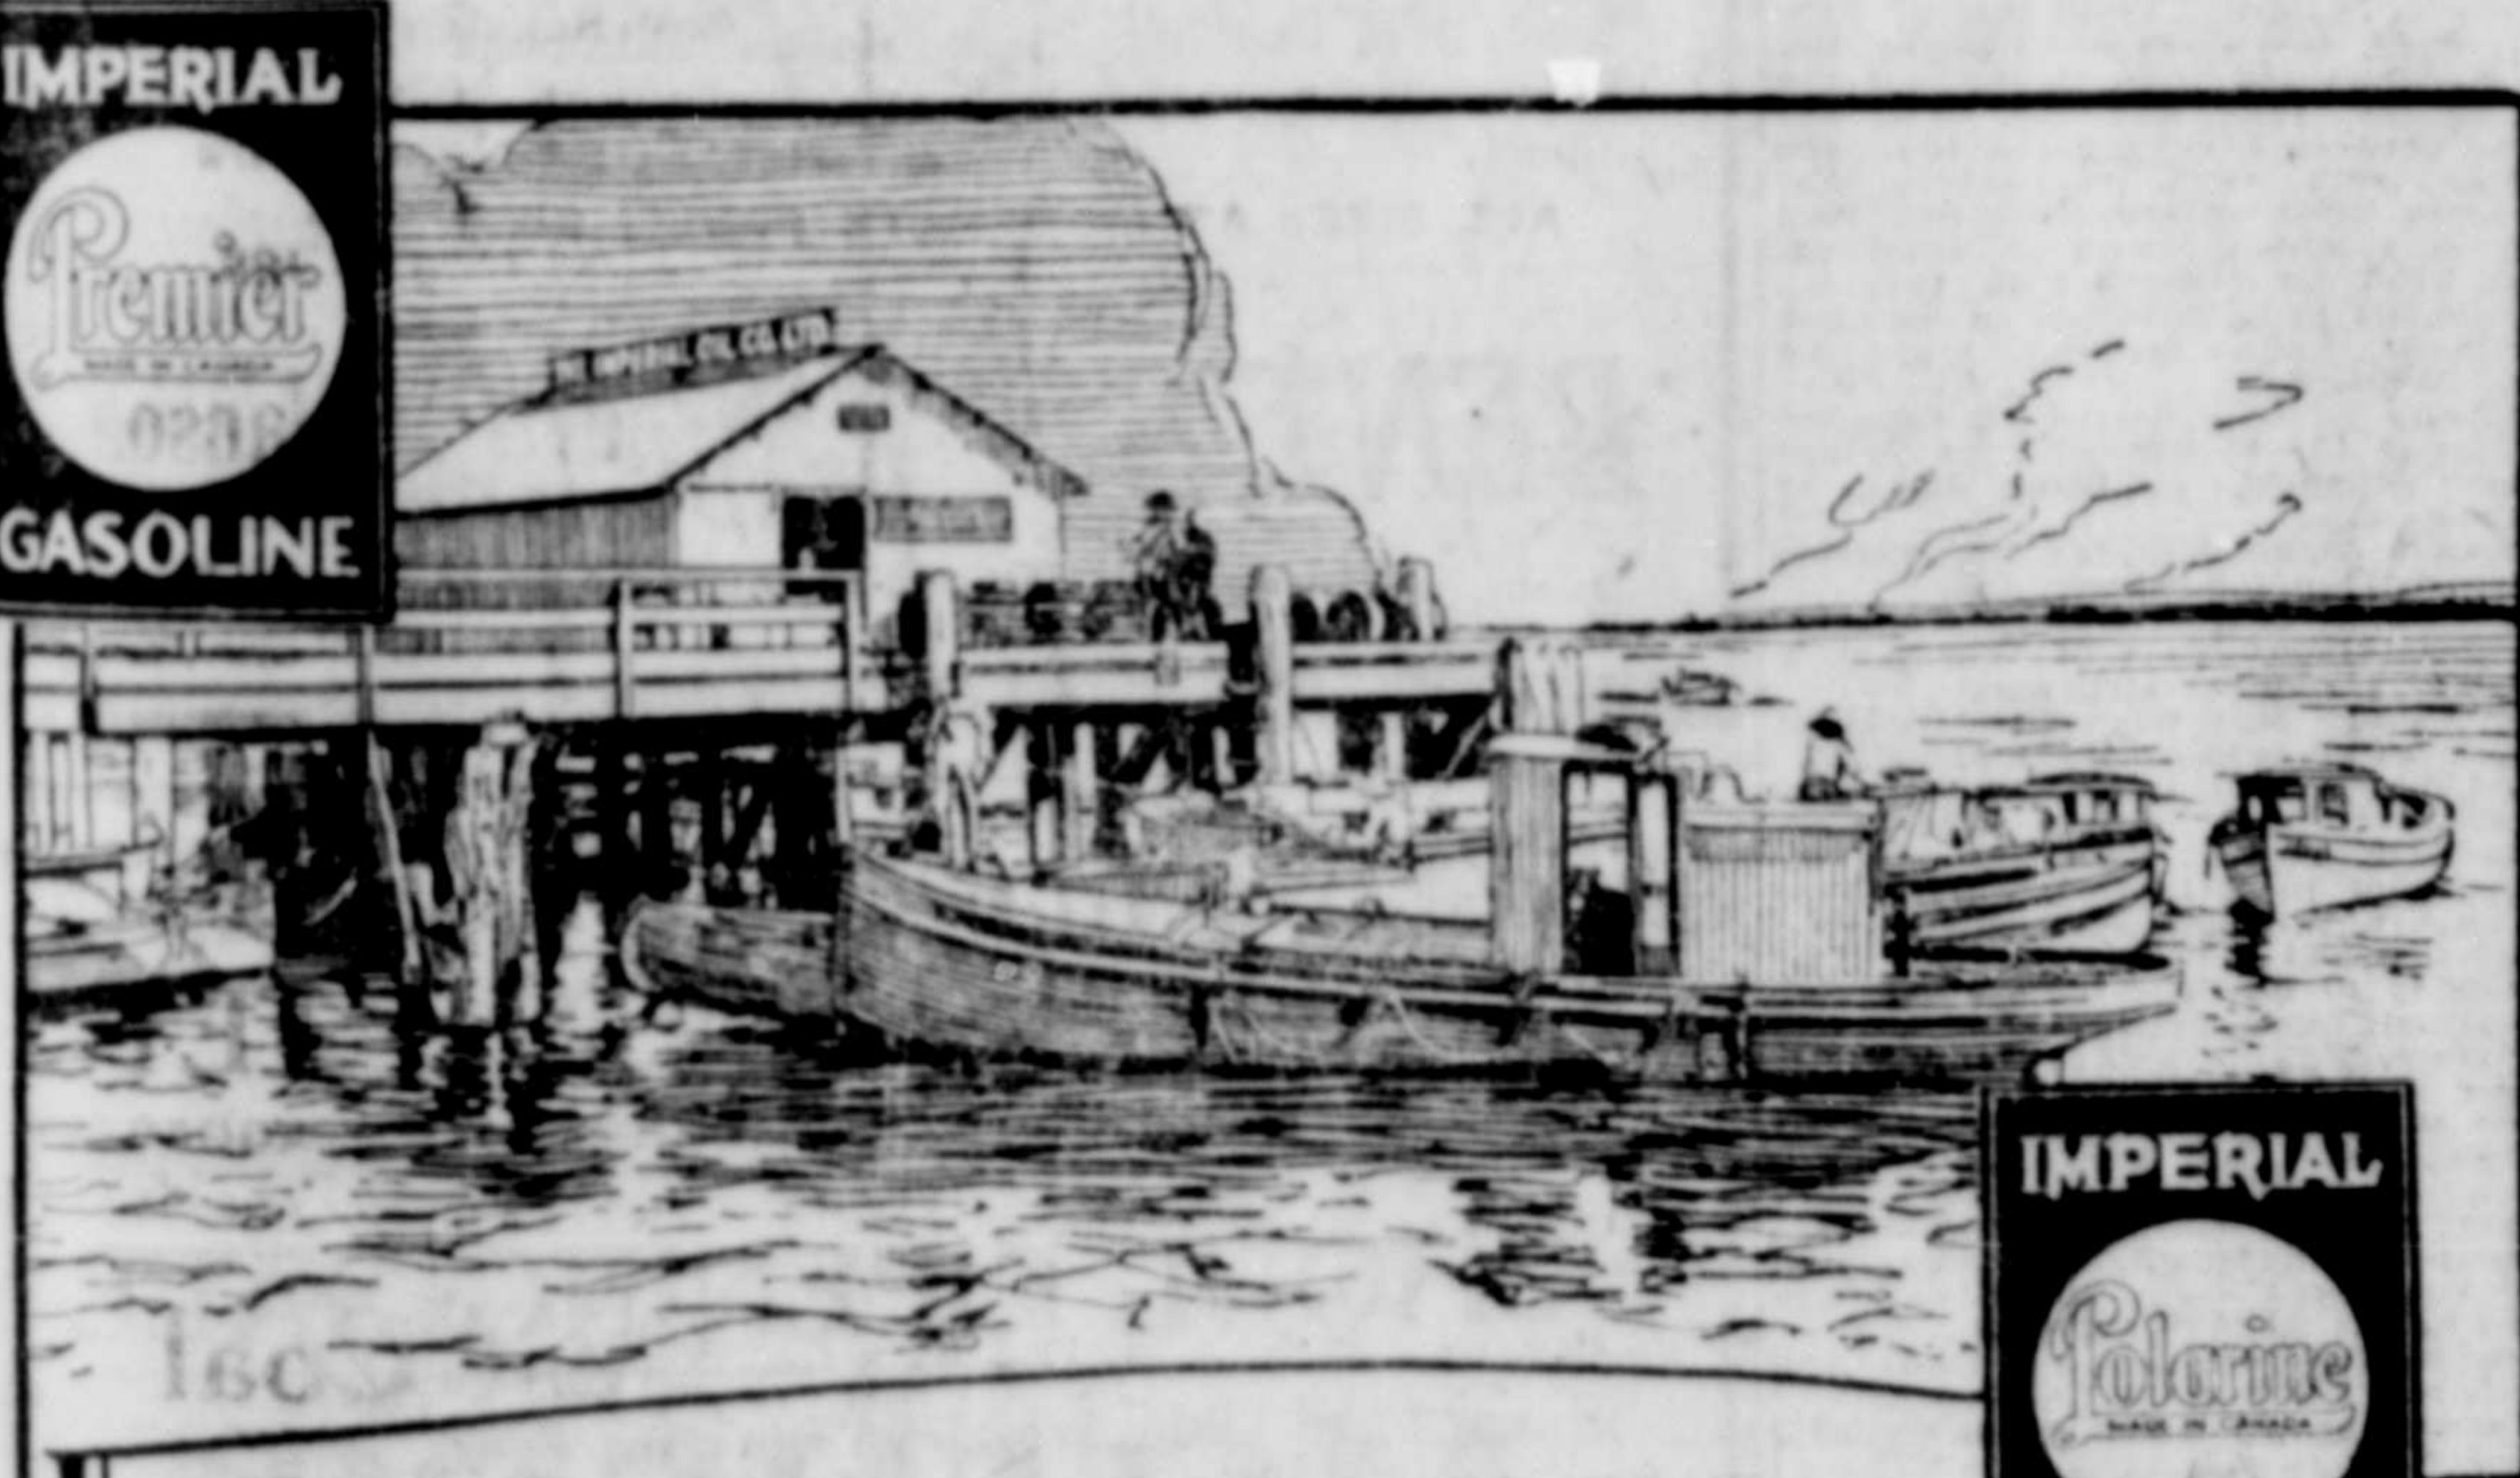

Weather permitting, the Elks and Knights of Columbus will meet tonight in the last game on the Senior Baseball League calendar. In view of the recent events it would seem that these two clubs are pretty well matched and should give a good contest with not too much advantage on either side. Two postponed games of the league schedule—Knights of Columbus vs. Elks and Sons of Canada vs. Knights of Columbus—are yet to be played. The dates for them will likely be set at the next meeting of the league.

Mrs. James Lamb and daughter, of Cassiar Cannery, arrived on the train last night and sailed on the Prince George for Vancouver. They have been spending the summer at the cannery where Mr. Lamb is manager.

## SWAT PESSIMIST SAYS SPEAKER

Samuel Grathwell Urges Rotarians to Cultivate the Right Attitude

"Swat the Pessimist" was the title of a splendid lightning address given by Samuel Grathwell to the Rotary Club yesterday afternoon. He explained that a pessimist was one who got a wrong view of life. To him nothing was ever right. To some people today, everything was in the dumps. Everyone fancied he was the worst injured. As a matter of fact all had been hit.

The speaker told of the time during the end of the war and after when all people thought of was "get, get, get." During 1919 and 1920 warnings were sent out that the condition could not last but the people did not heed the warning. Prices were boosted and business men lost their heads. The result was frozen credits, securities fell and everything came down.

**Depression Passing**  
Now dividends were again being paid, securities were climbing and everything showed we were getting out of the economic depression. Railway earnings were increasing and we were getting back to a sound financial condition. Under these conditions everyone ought to be an optimist. There may be hard places yet but if we set our teeth and kept go-

ing the difficulties would be sur-

mounted. The speaker told of big men who are all optimists. It was a fundamental of optimists to develop the attitude of success. The pessimist was a person who weighted down progress. People were like eggs or rubber balls. If stepped on the rubber ball came back. He urged all to be rubber balls.

## MAE MURRAY TONIGHT IN "PEACOCK ALLEY"

In "Peacock Alley," at the Westholme Theatre tonight, Mae Murray does the most striking characterization of her career. It is a picture which to the natural interest of a powerful love story is added the attraction of gorgeous settings and wonderful costumes.

The story opens in a small Anglian village, shifts to Paris, back to the village and then to New York. It pictures the adventures of a Parisian dancer who forsakes the plaudits and favors of the gay city of pleasure to become the wife of a small town American youth only to find that her husband's people are scandalized at her and will have nothing to do with her. Then the youthful lovers try to make their way to New York but the big city proves full of trouble which the lovers finally solve but not in the way that either expected.

As Cleo of Paris, the dancer, Miss Murray does the finest acting of any of her pictures. There

is no artist on the screen can display gorgeous costumes to better advantage than the blonde star and she has a wealth of them in "Peacock Alley."

## WANTS STEEL WORKS

Cranbrook Now Out With Claim For New Industry

VANCOUVER, Sept. 1.—Cranbrook, famous as the centre of the latest political excitement, is the logical place for any large steel works established in British Columbia, according to statistics which have been laid before Premier Oliver by Cranbrook people.

Cranbrook, the premier has been told, has on its east the vast coal resources of the Crow's Nest Pass and on the other side enormous iron resources. Lying between the two it is an ideal place for a steel mill, Cranbrook people declare.

Information to prove that the idea of an iron and steel industry in British Columbia at present is impracticable also has been laid before the premier by coast business men. According to the premier's informants it would be impossible to market profitably the output of a big steel industry. They point out that pig iron manufactured in China undersells in Seattle pig iron manufactured in the United States, in spite of a duty of \$4 a ton against it.

### PARSON GIVES ADVICE TO YOUNG PEOPLE IN REGARD TO MARRIAGE

Says Time Coming When Girls Will Propose to Men—Avoid Hasty Unions

TORONTO, Sept. 1.—The time is coming when the girl will be able to go to the man and suggest the possibility of their becoming engaged, Rev. Byron Stauffer, of Toronto, told the congregation in St. James Methodist Church last night.

Hasty marriages are responsible for four-fifths of the divorce cases and should be avoided, he declared. He looked forward to the time when a uniform marriage law would be in operation throughout the Dominion.

The speaker deprecated what he termed the "modern misanthrope" writers who teach so-called new and liberal standards of virtue, such as trial marriages. Such writers are to be avoided.

**Women Propose**  
Reviewing the different steps to marriage from the college to the altar, the speaker looked forward to the time when the young woman can go to the young man and propose. This he considered a most important transgression of the present system, but a little variety at least in the process could do no harm.

The idea of publishing the banns as is done in the Catholic Church, he commended. "Publicity of this nature is very good," he said, "and helps to eliminate hasty marriages which are an evil to society."

He said he had frequently been asked whether after an engagement the couple should exclude other young men and women from their attention. He believed they should because before the engagement a sort of competitive process of selection had been going on, and others

THE WHITEST, LIGHTEST

MAGIC BAKING POWDER  
CONTAINS NO ALUM

should be excluded, not for fear of jealousy, but because the test was to find out whether each would be satisfied with the other alone.

**City vs. Country.**  
There is very little difference between the culture of the country and the city, and the country girl is just as good as the city girl, he thought. It was a mistake to think different, he said, and referring to the boys were left sweethearts in their home towns he declared that these girls make just as good wives as the city girl, adding "we all do not want wives as smart as Margot Asquith."

The best protection which parents could give their children was to teach them a high standard before choosing a partner for life. He could not see the advisability of familiarity at the first glance. There was something wrong today, but if the gospel of Jesus was followed the right path.

### MC KIM'S DIRECTORY FOR 1922 ISSUED

There Are Published 125 Daily Papers, 999 Weeklies, and 301 Monthlies in Canada it Says

The 1922 edition of the Canadian Newspaper Directory has been issued by A. McKim, Limited, of Montreal, Toronto, Hamilton, Winnipeg, and London, England.

Messrs. McKim are the foremost authorities on the newspaper situation in Canada and their annual publication—the Canadian Newspaper Directory—is the one authentic record of the standing of the Dominion's advertising media.

The firm of A. McKim, Limited, is the oldest and largest organization in the advertising agency business in the country and the edition of the Canadian Newspaper Directory is the fifteenth issue of this work. A. McKim, Limited, the newspapers of Canada and the Directory have all grown up together, the first edition of the book being published more than thirty years ago.

The Canadian Newspaper Directory describes in detail every town and village in the Dominion which boasts a newspaper of any description at all; it gives also the surrounding towns and villages that have no papers of their own and are obliged to look to the town listed for their news of the world's happenings.

The Directory gives the exact location of each town in its relation to other centres of importance, the railroads and waterways by which it is served; the telegraph, banking and express facilities; the public buildings, the chief industries and the various occupations in which the people of the town engage. It proceeds then to describe the papers that are published there, giving their periods of issue, dates of publication, names of publishers, politics, subscription prices, number and sizes of pages, circulations, etc.

The Canadian Newspaper Directory shows that there are today 125 daily papers being issued in the Dominion, as compared with 121 last year; 999 weeklies and 301 monthlies. With the other publications issued at various intervals there are in all 1543 journals of one sort and another being published and read by the people of Canada at this moment.

Mrs. J. P. Cade was a passenger for Victoria on the Prince George last night.

### LARGER HOTEL FOR JASPER PARK LIKELY BE BUILT NEXT YEAR

EDMONTON, Sept. 1.—Walter Pratt, general manager of the hotel and sleeping and dining cars department of Canadian National Railways, who arrived here from Jasper, where he has been making investigations in connection with his office, stated that immediately on his return East he will make recommendations to the Dominion parks department to push the Maligne, Cavell and Miette roads as fast as possible, as for the season 1923, the C.N.R. will construct sufficient new buildings in Jasper Lodge to accommodate at least 200 persons. At the present time accommodation is provided for 75. A motor road is recommended from Jasper to the hot springs at Miette.

**Sightseers' Paradise**  
Mr. Pratt considers that Jasper Park contains enough to keep people sightseeing years and years. Visitors declare themselves charmed with the surroundings of the lodge. Jasper itself is filled with prominent people.

The buildings to be erected at Jasper Lodge will be duplicates of those already constructed, although there will be some slight improvements. They will be built for different capacities, and will contain all modern conveniences in the way of electricity and bath. In addition to the small lodges there will be one large central hostel, having rooms which will be adapted to the accommodation of older persons or invalids. The general rustic scheme, however, will be adhered to.

Immediately the road is completed to Miette, Cavell and Maligne Lake, the company will also construct a number of chalets to take care of the visitors to each of these beauty spots.

### Prosperous advertising means regular continuous advertising.
