GREAT IRISH LEADER LATEST VICTIM RICHARD MULCAHY TEMPORARILY LEADER OF FREE STATE

Michael Collins Assassinated and Died Asking Forgiveness for those Who Killed Him; Ireland in Despair

LONDON, Aug. 23.—Michael Collins, head of the provisional government and of the Irish national army, was shot and instantly killed from an ambush at Bandon, County Cork, last night, a few hours after he had been given an ovation by the people of Cork, who for the first time saw the Free State hero in the uniform of commander-in-chief of the army. Collins' death came at a time when the dissipation of irregulars was considered complete.

CORK, Aug. 23.—"Forgive them." These were the last words of Michael Collins as he lay dying from an assassin's bullet last night. They were addressed to Major General Dalton.

The assassination occurred between Macroom and Bandon. Collins was accompanied by the members of his staff and was visiting various military positions in the south of Ireland. A large number of irregulars were in the ambushed party.

An armed car accompanying the national army officials inflicted heavy casualties upon the republicans. Just as the attack was beaten off, a bullet struck Collins' skull and he expired in a few minutes. The body was brought to Cork this morning and transferred to the steamer for conveyance to Dublin.

A national funeral will full military honors will be accorded him. The body will lie in state prior to its interment in Glasnevin cemetery where Griffiths was buried.

LONDON, Aug. 23.—The assassination of Collins was preceded in Dublin by a kind of battle of propaganda, both provisional government and irregular advocates posting placards setting forth the respective aims and claims of their parties. One poster charged the provisional government with secretly sending an emissary to assassinate De Valera. A sinister fear that Collins was marked for death pervaded the atmosphere of the capital for the past week. If he had any premonition of the fate that awaited him, he did not show it but walked calmly forward, a handsome heroic figure, boyish and confident.

DUBLIN, Aug. 23.—Despatches say it is believed Collins was accompanied by seven Free State officers when he was killed from ambush. Several soldiers are believed to have been killed or wounded during the attack on Collins' party. Major General Dalton who was of the party is reported to have been slightly injured.

DUBLIN, Aug. 23.—It was announced this morning that in view of the assassination of Michael Collins, the Dail Eireann would be summoned immediately, the meeting to take place probably on Saturday of the present week.

Dr. Sun Yat Sen May Become President Of China If The Military Leaders Agree

PEKIN, Aug. 23.—The republican cabinet announces that President Li Yuan Hung is willing to resign in favor of Sun Yat Sen, the deposed head of the South China Government, provided Parliament approves.

The attitude of Li Yuan Hung is friendly but Dr. Sun has refused to come to Peking until he is assured that the various military factions of China have settled their differences.

The military leaders are now conferring with a view to an agreement and the prospects are bright for the establishment of a stable government in China under the southern leader.

Following the rebellion against the Manchu monarchy in 1911 Dr. Sun Yat Sen became provisional president but he was set aside in the election that followed, and Yuan Shai Kai became president and he suspended Parliament and became almost a monarch. He died in 1916. Since that time there has been an almost constant struggle between the reactionaries and the modernists. Eventually the south broke away and set up a republic with the capital at Canton and Sun Yat Sen provisional president.

The government of China is nominally a democratic one based largely on the British constitution, but in fact it is still very largely an autocracy. Dr. Sun

BOTTOMLEY BANKRUPT

Amount of Liabilities About Ten Times Greater Than Assets

LONDON, Aug. 23.—Horatio Bottomley is a bankrupt as well as a criminal. His affairs are being wound up. As a result of a creditors' meeting it has been found that his debts amount to £56,174 and his total assets £5,420. The assets included a sum of £20, the value of the watch and chain of the bankrupt.

FEW VOTES SO FAR TODAY AT ELECTION

Only 82 Ballots Were Registered up to 1:15 This Afternoon at Civic Referendum.

LONDON, Aug. 23.—De Valera, former leader of the Sinn Feiners and leader of the irregulars in Ireland has become a cavalryman and consequently is more elusive than ever. All members of his contingent are mounted.

DELORME MAY BE QUITE SANE

Head of Asylum Refuses to Give Certificate of Insanity.

MONTREAL, Aug. 23.—Interdiction proceedings taken by relatives of Adelaide Delorme, the priest who was charged with the murder of his half brother Raoul and committed to the asylum will be affected by the announcement of Dr. Brochu, superintendent of the asylum where Delorme is held, that he cannot give a certificate that the priest is unable to attend to his own affairs.

The certificate is required so that a trustee can be appointed to administer Delorme's affairs. The decision virtually amounts to a statement that Delorme is not insane and is causing a number of complications. If pronounced sane he can be placed on trial for the murder.

FIRE DESTROYED RAILWAY ROUND HOUSE AT CORBIN

FERNIE, Aug. 23.—A fire of unknown origin totally destroyed the roundhouse and machine shop of the Eastern British Columbia Railway at Corbin, B. C. The estimated damage is \$70,000.

PROFESSIONAL HOCKEY MEETS NEXT SPRING

VANCOUVER, Aug. 23.—The coast will be the scene of two playoffs in professional hockey next spring. It was decided today when coast and prairie moguls concluded a conference.

The champions of the National League are due to play the winners of the Pacific Coast series in whichever city is successful following this the winners of the Western Canada League will meet the coast winners in a battle for world honors. The games will be played in Vancouver where the prairie players have already had experience. The World Series is being staged on the Pacific Coast because there will be no ice in the East by the time the final games get under way.

Bowser Again is Chosen Leader of Conservatives With Stevens Close Second

VANCOUVER, Aug. 23.—W. J. Bowser, leader of the Conservative opposition in the Legislature and former Premier, was re-elected leader of the party at the Conservative convention last night. The official vote was Bowser, 252; Stevens, 201; Howe, 27.

When the result was announced there were wild cheers, which were interrupted long enough to enable the other candidates to move that the vote be made unanimous.

Mr. Bowser, in a brief address, expressed the belief that the convention would proceed as a unit to the business before it.

The name "Liberal-Conservative Party" was adopted by the convention, although some objection to the title developed.

The rule calling for a deposit by each delegate of \$20 toward the travelling expenses pool caused

ASKS ARMY STAND FIRM

Irish Nationalists Issue Proclamation Following Death of Collins.

LONDON, Aug. 23.—Richard Mulcahy, chief of staff of the Nationalists has issued a proclamation to the army in which he said: "Stand calmly to your posts, then bravely and undaunted to your work. Let no cruel act of reprisal blemish your honor. To each of you falls Collins' unfinished work."

A message of condolence has been received from Lloyd George. The provisional government announced that Collins' body would arrive at Dublin tonight.

FUEL SITUATION VERY SERIOUS

Shortage of Coal Will Amount to About One Fourth of Year's Production.

OTTAWA, Aug. 23.—The fuel situation is a very serious one at present in Eastern Canada and its effects will also be felt in the west, according to experts who are giving it their attention. J. A. Ellis has been named fuel controller for the province of Ontario and his duties will be to see that every part of the province has coal before the cold weather sets in.

Controller's Report.

The report of the Dominion fuel controllers has the following:

The strike dated from April 1 last. All anthracite mines were then closed down as well as the unionized bituminous mines producing about 60 per cent of the total output of soft coal.

The result is that there is now over four months' shortage in the year's production of anthracite and an equal period in respect to say 60 per cent of the bituminous production.

The annual production of anthracite in the past has been affected — apart from local causes — by the varying severity of different winters, and the resultant extreme fluctuation in annual production has been about 11 per cent.

Hence it is quite clear the stoppage, which will be five months if the mines do not resume work before September 1, cannot possibly be overtaken in time to meet the needs of this coming winter. Furthermore, the transportation of the supplies will be congested, because normally Canada imports 50 per cent of the year's supply in the months of April to August inclusive.

Extent of Shortage.

Varying opinions are held as to the extent of the shortage that will be caused by the closing of the mines since the first of April last and no one is able to say that the mines will even resume work on the first of September. All agree that there will be a considerable shortage and the utmost care must be exercised to conserve anthracite supplies for use during the coldest winter months.

It must be remembered that the past four winters have been very mild and that possibly next winter may see the return of lower temperatures than have been experienced in the period referred to.

Mulcahy is Temporarily in Charge of Affairs in Ireland Following the Assassination

(Special to Daily News.)

DUBLIN, Aug. 23.—With an ovation given him by cheering thousands in the city of Cork still ringing in his ears, Michael Collins, Ireland's hope, head of the provisional government and commander of the Free State army, was shot and killed in ambush by the rebels at Bandon near his birthplace last night.

Fighting at the side of his staff of seven officers and their escort against rebels who held up his car on the road, Collins fell mortally wounded at the moment when victory over the forces of disorder in Ireland seemed almost within his grasp. As he lay in the dust clutching a revolver Collins raised his head and murmured "Forgive them." They were his last words.

Several attempts had been made in recent months on his life by bombs and rifle shots. When Arthur Griffiths died ten days ago Ireland, pining for peace, looked to Collins, and the death of "Mickey" has now plunged Ireland into the depths of sorrow and almost despair.

Collins was formerly an extremist in the cause against England, but turned round when he discovered De Valera's irreconcilable attitude was against securing a united Ireland.

A public funeral is planned with full military honors in Dublin.

Chief of Staff Richard Mulcahy is temporarily, at least, wearing Collins' mantle of responsibility, and his first act was censorship of the intimate details of the death of Collins.

The slain man was in his early thirties. Born of humble parents in County Kerry, he was engaged to be married to Miss Kitty Kieman.

A special session of Dail Eireann has been summoned.

FAIR DATES FOR DISTRICT GIVEN

Provincial Government Department of Agriculture Announces Exhibition Dates

VICTORIA, Aug. 23.—The provincial government Department of Agriculture announces dates of exhibitions in Northern and Central British Columbia as follows:

Prince George—September 4-6.
Mapes—September 8.
McBride—September 12.

Prince Rupert—September 12-16.

Quesnel—September 15-16.
Fort Fraser—September 16.
Terrace—September 19.
Smithers—September 20-22.

PREPARING FOR THE CHAUTAUQUA VISIT

Committee in Charge of Local Arrangements is Becoming Active

The Chautauqua committee which has charge of the arrangements for the visit of the Chautauqua company to this city on August 30 and 31 and September 1 and 2, are beginning to get busy with the arrangements. It is proposed to have the entertainments and lectures in the Empress Theatre with possibly the Westholme for the opening day.

F. J. Maguire is the chairman of the committee with Sidney Bazett-Jones, secretary. While the committee guaranteeing the expenses of the affair was formerly over thirty, there are slightly less than that number now remaining in the city.

One of the features of the Chautauqua will be the visit of "Wee Jamie" Clark, the pipe major of the famous kilted band.

Mrs. C. C. Mills and child returned to the city today after having spent several weeks in Vancouver visiting.

LABOR ASKS EXCLUSION ORIENTALS

Trades and Labor Council Goes on Record Regarding Immigration.

MONTREAL, Aug. 23.—The total exclusion of Orientals from immigration into Canada was endorsed by the Trades and Labor Congress this morning. It was also recommended that there be effective supervision and regulation of immigration generally to prevent further unemployment aggravation in industrial centres. The monetary provisions and head tax it was held were futile against the influx of Orientals.

ECONOMIC CONDITIONS IN IRELAND ARE BAD

Many Big Business Concerns Hardly Able to Continue Export for Support of Banks.

DUBLIN, Aug. 23.—Grave economic conditions exist in the west of Ireland owing to the policy of the destruction of property by the irregulars. The collapse of some of the big concerns has been only just averted by steady support from the banks. The farmers have been unable to pay interest on loans and bankers will be compelled to withdraw support from many.

The business prospects are bad, prices are falling and produce is spoiling in the warehouses because traffic is dislocated.

Prince Rupert's Assessment High.

A Government blue book which arrived yesterday containing the report of the provincial inspector of municipalities gives figures that will prove of interest to Prince Rupert people. It shows the total assessment of the taxable land on the Prince Rupert townsite is about eight and a half million dollars. In Nanaimo where the population is greater than here the assessed value is a little over two and a quarter million dollars. Oak Bay with three hundred less people is assessed at slightly over four millions. New Westminster with nearly three times our population is assessed at only nine and a half millions. North Vancouver with a population of five thousand, comes nearest to us for it has an assessment of rather less than six millions.

While some of the townsites are much smaller than that at Prince Rupert, there are exceptions to the rule, for Oak Bay is about 300 acres larger than Prince Rupert yet its assessment is less than half.

While a good many cities have higher tax rate than Prince Rupert, the assessment is more reasonable so that, taken on a per capita basis, the tax rate of the city is proportionately too high.

On a former occasion we showed that the general cost of running the affairs of this city was much higher than the cost of conducting the affairs of other municipalities of approximately the same size. This is something for the ratepayers to consider. If we make taxes too high in this city we are taking the surest way of retarding progress.

Danger Of Having Land On Our Hands.

If the taxes in the city go too high, the people on the outside who are holding land here, will refuse to hold any longer and immediately half the revenue of the city will be cut off. To bring about such a condition would be a calamity. We cannot afford to do it. We depend to a large extent for our income on the revenue from outside. Without it we should have to either cut our expenses in half or double our taxes.

High Taxes Defeat Their Own Ends.

As an illustration in another field altogether of how high taxes defeat the ends of the Government that levies them is seen in the cigarette tax. Speaking of it "Saturday Night" of Toronto says:

"The high cost of smoking materials, owing to the excessive excise and other taxes levied under the new tariff is having an effect on Canada's revenue that was not anticipated by the Finance Minister when he revamped the schedule at the last session of Parliament. By raising the excise tax on cigarettes the Hon. Mr. Fielding anticipated that he could increase the country's revenue by a considerable amount. The reverse has been the case, as the returns for June, the first month that the new schedule of taxes was in force, shows a drop of upward of ninety-six million cigarettes, as compared with June a year ago, which means that the Federal treasury is poorer by a quarter of a million dollars for the month than it needed to be; and incidentally the cigarette taxes fell more than a half million dollars below Mr. Fielding's too optimistic estimates in his budget speech. It may interest the reader to know where the fifteen cents goes to that he puts on the counter for a package of ten Virginia cigarettes. It is split up something like this: Excise stamp, sales tax, leaf duties, etc., 9c. This is the Government's share. Wholesaler and retailer's costs and profits, 4c. Manufacturing charges, and costs including profits, 2c. In other words the Government is getting sixty per cent. of the total retail price of a fifteen cent package of smokes. Under the circumstances it is any wonder that the country is suffering from decreased revenue from this source, not to speak of increasing the incentive to smuggle cigarettes from the United States where they are practically half the Canadian price."

Splendid Youngsters In Prince Rupert.

Prince Rupert has a splendid lot of children. In spite of some limitations in their activities owing to physical conditions, they enjoy life and are just as healthy as in any part of the world. To watch the boys and girls swimming at Salt Lake is one of the prettiest sights imaginable. They seem to be quite at home in the water and enjoy it to the full. School statistics show that the school attendance here is very high, a sure sign that the health of the pupils is good.

SETTLEMENT ON ISLANDS

Moreton Frewen Writes in London Newspaper Favoring Queen Charlottes.

POINTS TO FAILURE.

Famous Financier Sees Great Possibilities in Future Settlement There.

Moreton Frewen, the famous financier, well known to many people of Prince Rupert has written an article for the Daily Telegraph, London, in regard to the great possibilities of settlement on the Queen Charlotte Islands. In part his article follows:

My attention has been directed to the reply given by Colonel Amery in the House of Commons to the question asked by Colonel Wedgwood as to the suitability for settlement of those remote outposts of the Empire, the Queen Charlotte Islands. Colonel Amery's reply was by no means of a nature to promote settlement there; indeed, quite the contrary, and as the writer was two years since the guest of the Government of Ottawa on a, to me, very memorable visit to "the Charlottes," I should like to be permitted to give my reasons for believing that in no part of the Empire is the right kind of settler so likely to "make good" as there, "next door to Asia." I can only write that the prospects of a well organized settlement there appears to me more promising today than at any other spot in our Empire which is known to me. My friend, Colonel Amery, and there is no better son of the Empire may have with the best intentions put back the hands of settlement and colonization on a clock in a corner of the world which reminded me but with many and great advantages of what is now populous and thriving Vancouver was when I first visited that site two years before the rails of the Canadian Pacific reached its harbor.

Change at Vancouver.

How magical it seems today to find what was less than forty years since an untouched virgin forest, showing no signs of man's presence, but which is now a thriving western metropolis. And it seems to me that with the westward pressure of a continent where are, not as in those days 40,000,000 but nearly 120,000,000 of the most restless and energetic people in the world, and who earn the highest rate of wages, these Charlottes cannot fail to have a phenomenally rapid development just ahead. They compare with Prince Rupert and the mainland opposite, some eighty miles away, on very much the same terms of advantage that Victoria compares with Vancouver.

True the rather excessive moisture at Vancouver has not interfered seriously with the growth of that splendid city, but no one who is free to select his home would compare the amenities of life in Vancouver with those in Victoria, with about half the rainfall, and in the days at hand, the delicious, equable climate of the Charlottes, never hot, never cold, with its rain fall of about 50 in., with other things being equal, he a great magnet to draw the home-seekers who might well be repelled by the 100 in. rainfall of Prince Rupert and the mainland. These islands were, until a few years ago, the refuge for a large herd of domestic cattle, which had become wild and wintered where they pleased; they were found at all seasons to be in fine condition and in increasing numbers. I think the story this tells of the climate of Graham Island the largest of the Charlottes, is worth a dozen guide-book monographs.

The Ocean Wealth.

But what will build up with phenomenal rapidity the settlement of these islands is the immense wealth of the ocean at their very doors. There centres

SUITCASES TRUNKS CLUB BAGS

Large Stock on hand. Prices very low.

J. F. MAGUIRE
 Next the Prince Rupert Hotel

around Massett the greatest fishing quarters in the world. When I first discovered Victoria in 1884 I thought it the loveliest sleepy hollow in the Empire I used to row out into the harbor in the evening, trolling a spinning bait behind the row boat, and return generally with a score of salmon, which I gave away or sold to the local fish dealer for a half-penny a pound. So recently as 1915 there had been opened at Prince Rupert a modern cold storage plant, where unlimited supplies of salmon and halibut were sold for cash across the counter at 2d a pound. But in 1920 I returned to Prince Rupert to find the price of these fish no longer 2d, but 8d, a pound, and that 2d more will deliver these fine fish in Liverpool.

I was shown over the Canadian Fish and Cold Storage plant by T. H. Johnson, Mr. Johnson had at that time on his premises over 14,000,000 pounds of frozen fish, the quality quite admirable, but to ensure that quality the fish must be frozen as nearly as possible alive. In this is the secret of success. But I do not think that we in England can depend upon any large and permanent fish supply from these Pacific fisheries, wonderfully rich and abundant though they are. For the fish captured and frozen at Massett in Graham Island, a hundred miles west of the town of Rupert, will be intercepted on their road east to meet the rapidly growing demand of the prairie communities and of the great Eastern markets, such as Winnipeg, Toronto, Chicago, St. Paul, and even Boston—Boston the home of the cod-fish. This demand on the part of the highest wage earners in the world will year by year take all the harvest of any settlement of fisher folk in the Charlotte Islands, and at prices higher than today. It is to the waters of the North Atlantic—to Newfoundland and not to Hecla Straits—that we must look for our permanent supplies.

Fishing Colony.

A fishing colony on the Queen Charlotte Islands, with headquarters at beautiful Massett, with branch establishments further west on Naden Harbor or fishing the wonderfully rich waters around Langara Island could not, if properly organized fail of success. And to watch these growths as I have watched the growth of Victoria during the past forty years would be of immense interest. I beg Colonel Amery therefore, on no account to throw cold water on any such project, for its financial success stands clean out of the picture. Fishing colonies on the Pacific coast got as black eye over the failure of Sir George Doughty, but he began his venture when the necessary railroad was as yet 1,500 miles from the Pacific port, and thus he had nothing to convey his Charlotte Islands wealth to any Eastern market. It was a strange mistake for a clever man to make, one hailing, as he did from Grimsby. Sir George relied, no doubt, on the market for his fish in the Pacific coast towns between Prince Rupert and Seattle, but the chance visiting steamers were not adequate for his purposes, and his whole venture was badly staged. It was this, I expect, Colonel Amery had in mind when replying as he did to Colonel Wedgwood.

Ten Years Ago In Prince Rupert

E. J. Chamberlain, president of the Grand Trunk Pacific Railway and partly have returned from a trip to the end of steel. Every satisfaction is expressed by them with the work of General Superintendent W. C. C. Meehan.

Dr. W. T. Kergin left this morning for the south enroute to Eastern Canada where he will take up post-graduate work. Dr. E. W. Kergin will be in charge of his brother's practice during his absence.

The Prince Rupert Longshoremen have challenged the Gallies and Roses teams to meet them at soccer.

The Man in the Moon SAYS—

LIBERTY is one of those things the politicians talk about but few of us ever attain.

LIBERTY is something no one can give you. The only way to get it is cut off the shackles yourself.

INSTEAD of abolishing money in the Red countries they have increased it to such an extent that everybody can have all he wishes, but the disappointment is he can't buy anything with it.

THERE'S one thing about a motor boat, it keeps you busy tinkering with the engine and painting the hull so that you have no time to brood over your wrongs.

A MOTOR boat owner is never a real Bolshevik.

ONE thing about this town there is no need for a regulation against joy walking.

A BACHELOR is a man whom no intelligent female has tried to land, according to Bob McQuillen.

IGNORANCE is just a matter of relativity, as Einstein would say. To the educated man anything he does not know is not worth knowing. The ignorant feels browbeaten when asked, frantically, what was the result of the Greco-Turkish war.

UNITED STATES believes in keeping out of European politics but she had another two and a quarter million dollars all ready to keep up the trouble in Ireland.

OIL keeps the Ford factory running, according to the despatches.

THERE is great excitement in Prince Rupert over the choice of a Conservative leader in Vancouver. Thousands through the streets and excited groups discuss the relative merits of the candidates. It is realized that the fate of nations depends on the outcome.

AUSTRIA is like a lot of the rest of us. Her financial condition is somewhat precarious. In other words she is close to being dead broke. No citizen can sympathize with her just as well as can a newspaperman.

TOMORROW'S head lines in this paper should read something like this: "Great Excitement at the City Hall. Crowds surge toward the polling booth in efforts to cast votes. Many trampled to death in effort to get near poll clerks and their last words were 'Give me a vote or give me death.'"

Miss Charlotte Black, hospital matron, will attend the B. C. Hospitals' Association convention at New Westminster on August 26 as delegate from Prince Rupert. The board, last night at its meeting, decided to give Miss Black an allowance to cover her expenses while attending the convention.

CANADIAN NATIONAL RAILWAYS. WESTERN LINES.

TENDER FOR TIES.

Sealed tenders addressed to the undersigned and endorsed "Tender for Ties" will be received at this office until twelve o'clock noon, Saturday, 16th day of September, 1922, for 4,500,000 Railway ties to be manufactured from lumber cut between October, 1922, and May, 1923, and delivered between December 1st, 1922, and September, 30th, 1923, on Canadian National Lines West of Armstrong and Port Arthur, in accordance with the specification No. 3416 dated March 18th, 1919.

1,000,000 to be delivered on Canadian National Lines between Armstrong and Winnipeg.
 500,000 to be delivered on Canadian National Lines between Port Arthur and Winnipeg, excluding lines in Minnesota.
 100,000 to be delivered on Canadian National Lines West of Winnipeg in Manitoba and Saskatchewan.
 600,000 to be delivered on Canadian National Lines in Northern Alberta.
 500,000 to be delivered on Canadian National Lines between Red Pass Junction and Port Mann.
 1,000,000 to be delivered on Canadian National Lines between Red Pass Junction and Endako.
 500,000 to be delivered on Canadian National Lines between Endako and Terrace, B.C.

Tender forms and Specifications can be obtained at the office of the General Tie Agent, Room 211 New Union Station, Toronto, J. B. Parkin, District Tie Agent, Winnipeg, Man., or C. C. Labrie, Purchasing Agent, Vancouver, B.C. Tenders will not be considered unless made on form supplied by the Railway Company.

No tender for quantities less than 5,000 ties will be considered.

The lowest or any tender not necessarily accepted.

Arrangements will be made through the District Tie Agent—J. B. Parkin, Winnipeg, to purchase ties produced in small quantities by actual settlers from their own lands.

W. H. GRANT, General Tie Agent, Canadian National Railways, Toronto.

FRESH ROASTED **COFFEE** FRESH ROASTED

Why Fresh Roasted?

Why does the local baker buy his flour in bulk and bake bread, pies and cakes daily?
Why does the butcher slice his dried beef and bacon as they are called for instead of buying them ready sliced?
Why does the local fruit store or peanut man roast peanuts daily in- stead of getting a month's supply at a time or three month's supply? We might go on indefinitely asking such questions, but why multiply the evidence? The answer in each case is the same. The shorter time that elapses between the finishing process mentioned and delivery to the user the more satisfaction with the product.

FINANCING OF NURSES' HOME

Hospital Board to Hold Conference at an early Date With Representatives of Societies.

The hospital board, at its monthly meeting last night, instructed the secretary to call a conference of representatives of various societies in the city at an early date to discuss the procedure of raising funds for the proposed nurses' home.

President D. G. Stewart brought the matter of the home forward for the approval of the board. He reported on the meeting last week with Miss Helen Randal, inspector of training schools for B. C. and gave a review of the financial situation. The sum of \$2,100 was already on hand, \$5,000 might be expected as share of liquor profits this fall and it was his opinion that the remaining \$8,000 required for the \$15,000 building proposed might be raised either through public collection or the floating of bonds, he favored the former method.

D. C. McRae thought the bond proposition the best one and pointed to the example of the Presbyterian Church where success had attended such an effort.

Mrs. Darton said that Architect Jeffers had stated a five building as a first unit might be built for \$7,000.

Mr. Stewart and Mr. McRae felt that it might not be necessary to have separate rooms for each nurse. If such was the case, 25 rooms would be needed. The matter of the Bullock Webster concert was brought up and it was decided to leave it over until after the conference on the nurses' home question.

TENDERS RECEIVED AMBULANCE SERVICE

Three Firms Tender on Caring For and Driving City Machine—99 Taxi Offer Favored.

The offer of 99 Taxi Co. to take charge of the hospital ambulance service was recommended by the ambulance committee last night to the hospital board for acceptance. The report was referred back to the committee to ascertain if the contracting firm will not undertake the responsibility of making collections.

The three offers submitted to the board for the ambulance service were as follows:

99 Taxi, Fred Higgins, Mgr., \$4 a trip, care and housing of machine free.

Royal Taxi, E. J. Large, Mgr., care and storage of car and supplying of gas and oil, \$12 a month; trips, \$3 each.

Kaizen Garage, Ross & Long—etc., \$15 per month; driving, \$3 a trip.

The matter of insuring the ambulance, supplying equipment and arranging authority for making calls was also left in the hands of the committee.

PREPARING FOR LABOR DAY CELEBRATION BY T. AND L. COUNCIL

Planning the program for the Labor Day celebration took up a good deal of the time of the Trades and Labor Council regular meeting last night. President S. D. Macdonald was in the chair and there was a fair attendance of delegates. Reports submitted showed that the public had given a very ready response to the appeal for prize money donations. The program of the day will be out tomorrow night.

CARPENTERS' UNION STAND IS ENDORSED

Trades and Labor Council Supports Subsidiary Union in Combating Reduction in Wages.

The Trades and Labor Council, at its regular meeting last night, endorsed the stand of the Carpenters' Union against any attempt at reduction of wages. It was also reported that the local union was being supported by the Carpenters' Unions of Vancouver and Victoria.

TWO PREVIOUS SOCKEYE RUNS SKEENA RIVER

Dr. Gilbert in Official Report Tells of Need of Conservation.

In the report of the minister of fisheries for British Columbia, Dr. C. H. Gilbert speaks of the sockeye runs up the Skeena for the years 1920 and 1921.

Dr. Gilbert shows that the Skeena River sockeye run of 1920 agreed with that of Rivers Inlet in being derived in part from a good brood-year and in part from a very poor brood-year. The five-year fish of 1920 belonged to the brood of 1915, which produced a pack of 116,553 cases; while the four-year component of the 1920 run was derived from the brood-year of only a 60,923-case run. The result was clearly reflected in the character of the run, which was well below the average in size, giving a pack of only 90,869 cases. The run consisted largely of five-year fish, showing that the run of 1916 contributed very little to its number. Like the Rivers Inlet and the Naas River colonies of sockeye, the Skeena is dependent more on its five than its four-year members, and thus approximates a five year cycle. The average percentage of the five-year group in the eight years from 1912 to 1919 is 60 per cent and the highest attained in any year was 75 per cent. But in 1920 the five year group comprised 82 per cent of the one-year-in-lake type, and must be attributed to their favorable brood year, in conjunction with the very favorable brood-year for the four-year fish. As already noted, an entirely similar condition in Rivers Inlet, produced in 1920 a still larger representation of the five-year group, 95 per cent, of the run.

Poor Brood Year.

The salient features of the sockeye run in the Skeena in 1921, Dr. Gilbert states, are best brought out by a comparison with the run of 1920. The latter was produced by the good brood year 1915 and the poor one of 1916. The result was a run of medium size, over four-fifths of which were progeny of 1915. The run of 1921 had as antecedent two extremely poor brood-years, the worst, with a single exception, that has hitherto occurred on the Skeena. The result of this portentous combination was, in 1921, a still lower level of production than the Skeena has previously attained. The pack of only 41,000 in 1921 registered a further decline of 35 per cent, compared with the extremely meagre yields of the two brood-years that produced it.

Discussing this feature, Dr. Gilbert states: "If the salmon runs were enemy forces that we were desirous of annihilating, no more certain method could be devised than destroying them."

Thus in detail. The detachment appearing each year operate wholly independently of those that immediately precede and follow. If we succeed in destroying only one or two annual detachments in a five-year cycle, the results become cumulative and the eventual destruction of the run is assured.

Safety Factor.

"It cannot too often be urged that a rational policy of conservation must prescribe a large annual safety factor. We must continue each year to provide for the escape of larger numbers of spawning fish than are necessary to ensure adequate production during seasons in which conditions are favorable. A rationally controlled stream will show its spawning-grounds each year seemingly overpopulated. This is nature's method of preventing serious depletion during the not infrequent years when conditions are unfavorable for successful propagation and growth, and there is no other safe method. Failure to observe this obvious precaution must be held responsible in no small measure for the certain depletion with which all our salmon-streams are threatened."

"The appearance of occasional good years in the course of a declining run is customary and to be expected. They should not serve in any degree to allay our apprehensions. Poor years also, it is true, have occurred during the most prosperous periods of productivity in our streams. But in a declining salmon run the poor years become more numerous, they infallibly in the long run produce their kind, and they fall to lower levels. The average production for a series of years can always be depended on to tell the tale."

Measure of Control.

"With these facts in mind, no one can doubt the serious condition we are fast realizing on the Skeena and it may be just to remark, on all the great salmon-rivers of the Province, 'The measures adopted in 1908 for the preservation of salmon-fisheries for the Province were of much promise. By preventing the incursion of new canneries in districts already fully developed, and by limiting the amount and character of the gear that should be used in each fishing district, a measure of control was assumed which would, if adequately administered, ensure the preservation of the salmon run. This method is incontestably the best that has been devised for the purpose. Opposed to it stands the alternative method of unrestricted competition, the results of which are now so alarmingly manifest in the waters of Alaska. But restrictions in numbers of canneries and in amount of fishing-gear obviously will not suffice to protect a stream unless the restrictions are adequate in amount."

"It is impossible to know in advance the utmost extent of the drafts that can safely be made on the run of any stream. Canner restrictions and adequate boat-rating must always be considered tentative measures. The situation is one that calls for solicited inspection and constant watchfulness. Regulations should be subject to annual revision on the part of responsible officials closely in touch with conditions as they develop."

WISTARIA WANTS TO SEND CAR OF CATTLE

Fair Board Receives Letter From George Larsen, Secretary of Livestock Association.

George Larsen, secretary of the Livestock Association, Wistaria, has written to the Fair Board expressing the desire of his association to send a car of cattle as an exhibit in the forthcoming exhibition. An answer is being sent setting out the conditions under which the exhibit may be handled.

SMITH ISLAND WILL HAVE EXHIBIT FOR PRINCE RUPERT FAIR

A letter has been received by the Exhibition Association from Mrs. Theo. Eysfelsen, of Oslund, announcing the intention of the Smith Island Farmers' Institute to send a district exhibit to the fair fall. This will be the first exhibit that Smith Island has ever sent to the local exhibition. Arrangements are being made to provide for it.

QUARTER MILLION DOLLAR TUNNEL FOR KETCHIKAN WATER

Will Also Supply Electric Power for City and for Possible Manufactures.

KETCHIKAN, Aug. 23.—The huge tunnel, 8 feet by 6 1/2 feet now under construction by the Citizens' Light, Power and Water company, which is to run from the power house to Fawn Lake and from there to Big Lake with a branch tunnel to Granite basin, will increase three or four times the water supply for the city of Ketchikan.

The tunnel runs through solid rock that has been blasted inch by inch. Starting at the power house, 84 feet above sea level, it runs in a nearly straight line 2500 feet with a gradual slope upward of 30 feet. There it turns and extends upward for 230 feet at an angle of about 50 degrees to Fawn Lake, connecting with a horizontal tunnel 930 feet long—305 feet above sea level—which enters the bottom of Fawn Lake.

Two-thirds Complete.

An aerial line has been built 1500 feet long to carry powder and tools. A blacksmith shop is kept busy sharpening the drill steel used by the large machine drills. It has an oil forge for heating the drills and a compressed air sharpener that does the work of ten men.

Working seven days a week since last January with a crew of from eleven to fourteen men, about two-thirds of the tunnel to Fawn Lake has been completed. The company expects to have the tunnel built to Fawn Lake by next Christmas. The entire project—which is being so completed until a year from next Christmas. Expert engineers state that it will serve not only this generation but many succeeding generations.

Faith in City.

This fine piece of engineering work is being constructed at a cost of over \$250,000. It will insure Ketchikan a water supply that will make her better

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to \$5 an acre, second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering any land suitable for agricultural purposes and which is non-occupied and unimproved.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1 acre before receiving Crown Grant.

Where pre-emptor in occupation before 1918, and has made good portions of improvements, he may be cause of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$200 per annum and records same each year. Failure to make improvements or record same renders pre-emption void.

Records cannot be obtained in less than 5 years, and improvement of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may receive another pre-emption on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows traceable by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTIONS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons holding and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrospective.

No fees relating to pre-emption are due or payable by soldiers on pre-emption records after June 24, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emption.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents acquired direct or indirect, remitted from enlistment to May 31, 1920.

SUB-PURCHASES OF CROWN LAND

Provision made for issuance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes paid by sub-purchasers do not claim whole of original purchase price due and taxes may be distributed proportionately over by May 1, 1920.

GRAZING.

Grazing Act, 1915, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travelers, up to ten head.

PRODUCTION OF COPPER IS CHEAPER

Granby Is Now Able to Produce For About Nine and Half Cents a Pound.

VANCOUVER, Aug. 23.—Granby Consolidated Mining, Smelting & Power Co., is making its copper for around 9.50¢ a pound. This is cheaper than at any time in the company's history, comparing with 11.63¢ a pound last year and 15.94¢ in 1920. With a 44-cent copper market and a monthly production of about 2,500,000 pounds, Granby should be earning at an annual rate of \$1,200,000. Operations last year resulted in a profit of \$12,838, against a \$687,000 deficit in 1920. Production last year totalled 229,967,051 pounds of copper. Production in the first half of 1932 was at the annual rate of 25,000,000 pounds. Production through the latter half of this year will probably total 25,000,000 pounds as the company does not intend to increase output before completion of the new dam unless there is a material increase in price of copper. With present equipment Granby could produce about 50,000,000 pounds of copper annually.

Mines 75,000 Tons Ore.
Granby is mining from 75,000 to 85,000 tons of ore monthly at Anyox, where it is employing about 1,500 men and doing considerable construction work in connection with Hydro-Electric installation. The new storage dam for impounding water should be completed in three months. The use of Hydro-Electric power will enable the company to decrease the cost of producing copper one-half to two-thirds of a cent a pound. Diamond drill work is meeting with good results, and ore in sight is fully as large as at the first of the year. At that time estimate reserves of high-grade ore in sight were 10,761,527 tons of 25 per cent copper.

Uses Own Coal.
Granby produces its own coal, mining about 25,000 tons monthly from its property on Vancouver Island. Most of this is used in supplying the Anyox smelter and mill. Some is sold commercially. After the completion of the Hydro-Electric plant Granby's coal will be used for making coke for the company's blast furnaces, and the surplus sold.

Fred Benson and Elijah Benson, the two Kitwano Indians charged with obstructing Constable A. J. Watkinson in the pursuit of his duties, are having

their cases proceeded with before Judge Young this afternoon. Crown evidence was heard yesterday and adjournment made until today. W. O. Fulton, of Patmore & Fulton, is conducting the prosecution and S. W. Taylor, of Williams, Manson & Gonzales, the defence.

PIGS FED BETTER THAN ARE RUSSIANS

Former Juneau Priest Tells Story of Want in Letter From Russia

JUNEAU, Aug. 23.—"Five years ago pigs in Russia were fed better than the mass of the Russian people are today," declares Rev. John Bartnosky, the first Russian priest in charge of the local Russian Church and located here from 1894 to 1896. In a letter just received by Rev. A. P. Kash-evaroff, who now occupies the position then held by Father Bartnosky, the latter describes touchingly the terrible conditions prevailing in his country.

In his letter he said: "No doubt some of the Juneau people still remember me. I was the first rector of the Juneau church. Please tell them that at present I and the family are in great want. We are without sufficient food; we suffer from lack of clothes, footwear and underwear. To make my story short, I may say that five years ago the Russian pigs were fed better than we are at present and the most needy beggar had less necessity for clothing than we have. There are no places to buy from and certainly we have no money to buy with."

Prices are Prohibitive.
"Commerce is just about beginning to be re-established, but prices for all commodities are very prohibitive. As examples: One needle is worth 100,000 rubles. Salt is worth 4,000,000 rubles for a pound (36 American pounds). Flour 8,000,000 rubles per pound. Ten eggs 300,000 rubles. Butter 8,000 rubles.

"The winter is approaching and we are hungry and naked. We have no permanent home. Just now I am serving at a temporary pastorate at Peskie. I am anxious to get to my native country of Poland, but the government will not allow this. I beg the clergy of St. Nicholas Church to make our wants known to the public. Perhaps some kind soul may be found who will respond to our appeal."

CHILDREN'S CLINICS HELD IN ALBERTA

EDMONTON, Aug. 23.—Between fifteen and twenty children's clinics have been held at various country points throughout the province this year by the provincial department of health and special attention has been given to travelling clinics in the unorganized districts. Some of these clinics have been held at fairs and in connection with the Soldiers' Settlement board.

There have also been a number of such clinics held by the nurses in the southern part of the province in their own districts. Among the nurses who have been travelling around on this work have been Miss Emmerson, Miss Lavell, Miss Conroy, Miss West, Miss Reid and Miss Jones. Four nurses have been working in the unorganized districts of the south and permanent child welfare stations have been established in a number of places.

HYDROPLANE CAN RIDE OUT ROUGHEST SEA

Innovation in Air Craft May Have Wide Effect on Naval Construction

EDMONTON, Aug. 23.—A hydroplane that can ride out the roughest sea and will bridge to anchor like a whaleback, is now being experimented on in Great Britain. Captain A. G. Haskell of the Royal Air Force, who was a visitor to the city recently, stated that the new machine is an innovation that might modify naval structures to a considerable degree. Although the strictest secrecy is being observed regarding details, it is known that the machine is in reality, a ship to which aeroplanes are attached. The hull is long, of slight beam and extremely flexible; the elasticity is the outcome of many years of mechanical research at the Royal Aircraft factory. The combination is supposed to give airworthiness equal to the craft's seaworthiness and it is further proposed to establish an aerial navy if performance is as indicated.

An experimental machine that was completed recently carried but seven people but models now designed will be entirely suitable for transoceanic use. They will be turned out on a commercial scale and with two engines will be capable of maintaining a cruising speed of 100 miles per hour. Its principal naval value lies in the fact that it can travel on the water should it not be able to fly; thus it could accompany battle fleets without cumbersome housing facilities. The service machine will be equipped with a full complement of arms and incidental accessories in the shape of wireless, bomb sights, camera and other instruments.

CALLIES DEFEAT SONS OF CANADA

Sons Eliminated From Gilhuly Cup Series by 5 to 2 Score

The Callies proved themselves the masters of the situation in the football match against the Sons of Canada last night on the Acropolis Hill grounds to the tune of a 5-2 victory in the first round for the Gilhuly Cup. A good turnout of soccer fans witnessed the Scotch victory. The game throughout was a fast one and the first half was particularly exciting. The rain had made the ground and ball heavy, the latter being hard to control. The teams lined up as follows:

Callies—Brice, goal; Kinghorn and Martin, backs; Abbott, Scott and Campbell, half-backs; Jack, Sellars, McIntosh, Currie and W. Mitchell, forwards.

Sons of Canada—J. Scott, goal; Wood and Anderson, backs; G. Mitchell, Tait and Davis, half-backs; Marks, B. Long, J. Marks, Warren and J. Mitchell, forwards. W. Waldorf acted very capably as referee.

First Half
Upon the teams taking the field the Sons of Canada kicked on the up grade. From the centre the Sons took the offensive but the Callies' defence proved equal to the task. The Callies soon took hold of the ball and Scott, in goal for the Sons, was called upon to watch things. A corner awarded to the Callies and taken by Jack was not converted. The Scotchmen continued to force the play and Wally Anderson conceded a corner. W. Mitchell, on taking the award, put in an excellent centre, but Scott cleared and the half-backs took the sphere from the danger zone. During a scrimmage in front of the Son's goal, Davis endeavored to clear a greasy ball at his toe but it glanced off it into his own goal taking Scott completely by surprise. This constituted the first point for the Scotchmen. From the centre the Callies got away and Jack tried a shot at the Son's goal which went wide. A dangerous dash by the Scots was pulled up short by Anderson. The Canadians then made a combined dash and worked the ball in front of Brice. Warren for the Sons heading it into the net, thus equalizing the score. This put every man on his toes and from the centre the play was very spirited. Two corners in favor of the Callies were not made use of. After good combination work the Sons succeeded in getting the ball within shooting distance of their opponents' stronghold, but were unable to use it to advantage. As the result of an excellent dash by E. McIntosh for the Caledonians who shot at Scott, the latter fumbled the ball in the goalmouth and Jack finished the job. From the centre the Sons made various dashes for Brice but were unable to get very far, the defence of the Callies being too strong. Good team work by the Callie forwards put Eric McIntosh in an open position of which he took full advantage and with a fast ground ball Scott was beaten for the third time. At half time the score stood 3-1 in favor of the Callies.

Second Half
From the commencement the Callies forced the play. The Sons got away with the sphere and after a few moments exciting play in front of Brice, J. Mitchell put the ball past him. From the centre the game continued at a merry clip. The Caledonians were constantly on the ball and a good try by McIntosh at Scott went wide. At this juncture the fog crept over the field for a few moments and the light was not of the best. A foul against the Sons resulted in Eric McIntosh putting a fast ball past Scott.

The Callies were certainly on the ball and Scott was called upon to save from Jack. An independent run by W. Mitchell for the Callies, which was a very pretty piece of work, resulted in him beating Scott with a ball to the corner of the net, the final score being 5-2 in favor of the Callies.

Comments on Play
The Callies deserved their win and certainly had the best of the play throughout. Everyone of their men played a good game and it would be hard to mention exactly who was the best. Both Kinghorn and Martin at full back were on the job at all times while the half back line gave excellent support. McIntosh, Jack and W. Mitchell in the forward line played

The Tobacco with a heart

CIGARETTES

ed exceedingly well. While the Sons tried hard they seemed to lack the necessary sting and their forward combination was not as good as they have in the past displayed. Scott, in goal, played a useful game and Tait and Davis in the half back line did well. Marks at centre forward, Warren and J. Mitchell in the forward line, were perhaps the outstanding men in the attack.

Geo. Waugh and Sid Butters acted as linesmen.

Sport Chat

Weather permitting (reminds one of old times) the Elks and Sons of Canada will meet tonight on the Acropolis Hill grounds for the fifth lacrosse game of the season. If the Sons win they have achieved their fourth victory of the season and, out of the series of eight games originally planned, it will give them a pretty good cinch of the championship for the year and the Stark Cup. On the other hand an Elks' victory, which fans concede is about due, will make the race more interesting with the Sons having three wins and Elks, two. The lineups this week will be about the same as last.

A post-season baseball series between the Elks, Mine and Smelter teams at Anyox is now in progress. The games will be played on Wednesday and Sunday evenings until one team has won three games, that team being declared the winner of the series. The entire profits of the series will be devoted by the Community League council to a complimentary smoker to be held later in the season in appreciation of the sport enjoyed during the past season both in baseball and soccer.

The local players returning from Ocean Falls this week report that there is little likelihood of the baseball players from the paper town coming north this season but there is a chance that a lacrosse team may come north to play the locals. Such a game, if it could be arranged, would be just as great an attraction as a baseball game and the matter is worth following up.

Arrangements have finally been completed for a 12-round boxing match between Harry Anderson of Prince George and Cecil Hartley of Vanderhoof. The bout will be held in Prince George on the evening of the first day of the Fair, Monday, September 4 and the Ritts-Kifer hall has been engaged for the event.

A meeting between these well-known mitt artists has long been eagerly anticipated by boxing fans in every part of the district, and a first-class contest is being looked for.

ANYOX ELKS INVITE PRINCE RUPERT TEAM

Want Return Baseball Game in Order to Reciprocate Kindness and Get Revenge if Possible.

An invitation for a return baseball game at Anyox has been received by Ben Self from William Robertson, of the Anyox Elks' Lodge sports committee. The intention, it is stated, is to reciprocate the kindness extended by Prince Rupert to the smelter boys on Flag Day and also, if possible, get revenge. The letter asks when the local team could make the trip and what guarantee is expected.

EDMONTON SWIMMING POOL WAS COSTLY

EDMONTON, Aug. 23.—Action taken by Aldermen Richards at the last meeting of council in asking for a report upon the cost and operation of the south side swimming pool has precipitated what appears to be a very serious situation.

The main point is that the swimming pool has cost up to the present some \$18,000 to \$20,000 instead of \$10,000 for swimming bath purposes for which consent was given by the council. Ever then it was not anticipated that the whole amount would be spent on the one bath, and Ald. Adair has been raising objection to what has taken place along that line.

As for the \$18,000 the burgesses recently turned down a \$20,000 bylaw for the south side market, and it is fairly sure they would have turned down an \$18,000 swimming pool bylaw had it been submitted to them.

QUICK WORK OF A REVENUE OFFICER

The effete east may be slow in some things but not in carrying out the ends of justice. Inland Revenue Officer Floody of Toronto recently left the city at 6 o'clock, proceeded to a farm in Toronto township near Erindale, seized a still on the premises, arrested Arthur Dunning, brought him to Port Credit, had him arraigned before the police magistrate and fined \$200 and costs for operating a still, and got back in the city by 9 o'clock. Three hours was enough time to complete the entire job.

Another PRICE Suggestion Cookies and Small Cakes

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

(All measurements for all materials are level.)

COOKIES
1/2 cup shortening
1 cup sugar
1/2 cup milk
2 eggs
1/2 teaspoon grated nutmeg
1/2 teaspoon vanilla extract or
grated rind of 1 lemon
4 cups flour
3 teaspoons Dr. Price's Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough additional flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

DR. PRICE'S CREAM Baking Powder

Made from Cream of Tartar, derived from grapes. Produces foods that are finer in texture, richer in flavor and thoroughly wholesome.

MADE IN CANADA

COCOA DROP CAKES

4 tablespoons shortening
1 cup sugar
1 egg
1/2 cup milk
1/2 cups flour
3 teaspoons Dr. Price's Baking Powder
1/2 cup cocoa
1/2 teaspoon salt
1 teaspoon vanilla extract

Cream shortening; add sugar and beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth; add vanilla. Half fill greased muffintins with batter and bake in moderate oven about 20 minutes. Cover with boiled icing.

ORANGE CAKES

4 tablespoons shortening
1 cup sugar
1 egg
2 cups flour
3 teaspoons Dr. Price's Baking Powder
1/2 teaspoon salt
1 teaspoon orange extract
grated rind of 1 orange

Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

BRITISH PUBS NOT VERY BUSY

Temperance Advocate Says Country Will Go Dry, According to Despatch

Prince Rupert people who come from England will be interested in a despatch sent out to American papers by the Associated Press correspondent in regard to the liquor question and dated from London:

"Prohibition is marching up the roadways of the British mind today, and these roadways cannot be closed."

This is the defiant announcement made by John G. Wooley, temperance advocate from the United States, who is busily at work driving the "demon rum" out of his haunt into the open for a finish fight in the "tight little isle."

Much as they would like to scoff at Wooley there are a whole lot of Britishers who are afraid that he is right.

Time was when reference to the "tight little isle" was more or less double-edged, for about half of the isle was more or less "tight" after nightfall. But things have changed in Britain since the war. The old "public house" that stands on the corner of the street and emits odors of stale beer and staler tobacco smoke is not doing as well as it used to.

Workmen Discuss Issue
The "pub" is still the "poor man's club," and the laboring fraternity gather nightly to discuss the affairs of the world over an "arapintabitter," which is the equivalent to "schooner of beer," but they call it a day when the "arapintabitter" is consumed, and the "Bobbies" are not kept busy helping the "clubmen" home.

Along Regent Street, Oxford Street and in the environs of Piccadilly the "pubs" begin to look lonesome after 8:30 at night. Everyone seems to have gone home, and the barmaids powder their noses in majestic serenity, awaiting the closing hour.

Along Fleet Street the "pubs" are busier, for there are many night workers who are anxious to get a bit of stimulant to carry them through until morning.

In the residential districts of the better class the "pub" is a dreary place, patronised mostly by itinerant taxi drivers.

Things Are Dull
Down in East London, through Limehouse and Poplar, where the "pub" used to be the scene of nightly warfare, things are surprisingly dull and uninteresting. Lascars, Chinese, Japanese, Malays, Senegalese and men of all the nations of the earth come off their ships and wander down East India Docks Road and stop in the "pub" to get their beer, but the old nights of brawls and murders and the like seem to have gone.

England won't stand for prohibition if it knows it. England detests "Pussyfoot" Johnson and his band. But England seems to be consuming less alcoholic stimulants and putting itself on a voluntary semi-prohibition basis.

The "tight little isle" is no longer "tight" in the bacchanalian sense of the word.

Prosperous advertising means regular continuous advertising.

TIMBER SALE X 4114.

Sealed tenders will be received by the Minister of Lands at Victoria not later than noon on the 21st day of September, 1922, for the purchase of license X 4114, to cut 1,250,000 feet of Cedar, Spruce, Hemlock and Balsam, on an area situated at Big Lake, Elsie Channel, Range 3, Coast Land District.

ST. BONIFACE CIVIC EMPLOYEES GIVEN NOTICE TO LEAVE

WINNIPEG, Aug. 23.—All permanent civic employees of the city of St. Boniface are to be served with notice that three months from the end of August their services will no longer be required. This drastic measure was adopted by the city council after the most startling revelations had been made by J. D. Reid & Co., special auditors, who had been instructed to make a thorough investigation of all the city's books and accounts, in an interim report submitted to the city council.

Every possible error and omission had been made in the books, in fact they were in such a condition that the auditors were practically unable to obtain any of the information they required, said Mr. Reid.

The investigators had found the city's bookkeeping in such a mess through utter lack of system, that they had in many cases to entirely reconstruct them.

APPEAL TO TURKS

Constantinople Newspaper Urges Revival of Industrial Activity.

CONSTANTINOPLE, Aug. 22.—A campaign for the revival of industrial activity in Turkey has been started by the Turkish press. The influential Heri, a morning newspaper, says:

"The slow extinction of Moslem economic activity has been going on now for several years. This can only serve the interests of our enemies, who observe our lamentable economic situation and gain the idea that the day will soon come when the Turkish nation will die out automatically. We must arouse ourselves to this danger. Day by day our commerce and industry are bidding us farewell. We are selling to strangers our house properties and our real estate, and very soon we shall begin selling them our furniture and moveable property. Turks must awake from their slumber; they must link their private life to the national needs. They must economize and save and work, remembering that to waste a single piastre is an attack upon the national destiny."

EDMONTON NURSE GOING TO MAYO

EDMONTON, Aug. 22.—Miss Martha Morkin, who for some years has been on the staff of the provincial department of health, has been offered a position as matron of the new Dominion government hospital at Mayo Landing, Yukon Territory. It is a twelve bed hospital and Miss Morkin has practically decided to accept the offer, in which case she will have to leave shortly for her new post as she will have to be on duty September 20. She will go by Prince Rupert and Whitehorse. The Dominion government has found it necessary to establish a small hospital at Mayo.

Take a look over the classified column today. There is something for sale there that may interest you.

VANDERHOOF

The annual Presbyterian Church Sunday School picnic will be held tomorrow to Nulki Lake.

R. H. Moore and J. W. Holford have gone to Vancouver to attend a convention of the Soldiers' Settlement Board.

Amos Clarke died last week at Chilco from cerebral hemorrhage. Deceased was 13 years of age and leaves a widow and baby son.

There is a great improvement in the condition of the crops in the Nechako Valley and the prospects for the winter are much better than had been expected before.

Father Wulf has been appointed principal of the big Catholic Indian School at Fraser Lake in succession to Father Allard who has been transferred to the Yukon territory.

Mrs. J. D. McDonald, mother of Mrs. W. Ross Stone, has returned to Vanderhoof after an absence of nearly three years in Quebec.

W. J. Rimes, editor of the Vanderhoof Chronicle, has left for Vernon to attend the annual convention of the British Columbia and Yukon Press Association which opens tomorrow.

Mrs. Warren Johnson and her daughter Helen, Mrs. Tibbets and daughter Velma, Harold Johnson and Mr. Atkinson have left for a motor trip to Washington State.

PRINCE GEORGE

Dr. G. A. Wilson, of Vancouver, laid the cornerstone of the new Presbyterian Church here last week. Rev. A. E. Mitchell, of the same city delivering the address.

The next meeting of the provincial game board, it is expected will be held in this city.

The Physical Culture girls returned to the city last week after having spent a fortnight camping at Salmon River. The camp was under the direction of Mrs. Graham assisted by Mrs. Sutton and Miss Lawson.

Ald. J. M. McLean is in Vancouver where he attended the convention of the Canadian Bar Association last week.

Benning Anderson, son of Mr. and Mrs. A. P. Anderson, leaves shortly for Vancouver to take a college course in business and architecture. Mrs. Anderson daughter, Inga, are spending the summer at Vancouver.

Donald Gaskill, formerly of this city, is here on a visit from Vancouver where he is employed on the staff of the World.

ALICE ARM

The Esperanza Mine, which was recently purchased by a syndicate of Anyox men, is working nine men and ore shipments to the smelter are being made again. Another rich strike was recently made on the property.

The death occurred in Anyox last week of H. Bromley, an old resident of the Alice Arm and Anyox mining camps. He is survived by a widow.

E. Elge, former owner of the Esperanza Mine, is driving a 25-foot tunnel on the Shatrock and Arruga claims, on McGrath Mountain, owned by E. Ness.

A. Maguire has returned from Vancouver and announces the formation of the Silver Bar Mining and Development Co. which will do work on the Silver Bar claims on the northeast fork of the Kitsuik River this season.

Mrs. E. Rowlands, Mrs. M. Zucco, Mrs. N. Bloom, Mr. and Mrs. Wharton, Mr. and Mrs. D. Buzelle, Mr. and Mrs. R. Armour, Mrs. Cane, Mrs. Barkins, and Mrs. Teabo, of Anyox are staying this week at the Alice Arm Hotel as guests of the Anyox Community League summer camp.

H. Butler, government telegraph operator, left on Thursday to visit his old home at North Battleford, Sask. He is being relieved by H. J. Hicks, of Prince Rupert.
