Another Fire Sweeps Over Hazelton HOTEL AND OTHER BUILDINGS ARE DESTROYED IN OLD TOWN

Local Man Victim Fearful Fire at Old Hazelton which Destroyed Hotel and Houses

HAZELTON, April 2.—The town of Hazelton was swept by fire, which originated in the Hazelton Hotel at 2:10 on Sunday morning, for the third time in fifteen months. Frank Walsh, northern representative of McLennan & McFeely, the Vancouver hardware firm, was burned to death and eleven buildings, including the Hazelton Hotel, two Chinese cafes, Chinese laundry, two residences and three barns, were destroyed. The fire started in the upstairs of the Hazelton Hotel, the origin being unknown. The total loss is estimated at \$30,000, and there was very little insurance carried on any of the buildings. There were reported to have been some Indians who also lost their lives but this is not confirmed.

The buildings destroyed were Hazelton Hotel, a three storey building with 60 rooms, the B. C. Cafe, the Chinese laundry adjoining, a small house to the rear of the hotel, the hotel barn, the government stable and blacksmith shop, the residence of L. A. Graef, government telegraph operator, and a small cottage adjoining. Mr. Graef lost possibly half of his furniture and clothing and the government property loss was one telephone and several poles.

The body of Frank Walsh was recovered but was burned beyond recognition. As he is missing and his effects were found under the bed in which the charred remains were found there is no doubt as to the identity.

Alarm of Fire.

HAZELTON, April 3.—At 2 o'clock on Sunday morning the citizens of the town of Hazelton were awakened by the alarm of fire and it was discovered the Hazelton Hotel, a large three storey frame building, was already burning fiercely. With water supplied by the forestry department pump and hose line pumping water from a hole in the river ice to the level of the town, hastily organized bucket brigades endeavored to check the spread of the flames, but their efforts were unavailing and within a few minutes the B. C. Cafe, a Chinese laundry, a small cottage and the residence of L. A. Graef, agent of the Government Telegraphs, all situated across the street from the hotel were alight and efforts were directed to prevent the fire spreading to stores of R. S. Sargent, which was for a while in grave danger, and to the store of R. Cunningham & Son. Owing to the heat from the burning hotel it was impossible to save

TOOK OATH TO REPUBLIC

Battalion of Irish Army
Foreswore Dail Eireann
at Smithfield.

DUBLIN, April 3.—Official figures given out today show that 3,220 men left Dublin Republican army on Sunday afternoon, marching to Smithfield where they took an oath of allegiance to the Republic freeing themselves from any further responsibility to Dail Eireann.

a small cottage to the rear of the hotel and the flames spread from there to the hotel barn and to the barn of the forestry department. No animals were in these structures but considerable quantities of baled hay and tools stored in the forestry were destroyed as well as the forestry blacksmith shop.

Tragedy in Hotel.

Frank Walsh, traveller for McLennan, McFeely & Co., of Vancouver was among those who were killed and although a general alarm of fire was given within the hotel, so rapid was the spread of the flames that it was impossible to search each room and all within the hotel had to fly for their lives abandoning all possessions. A hasty check of the guests, made after reaching safety, showed that he was missing, and it was felt he had been trapped within the building. The discovery of his remains after the fire had died down confirmed the tragedy.

It is reported that two or three Indians from the Babine Lake had also lost their lives within the hotel but so far it has been impossible to verify this as no trace of their remains has been found, although the men cannot be located about the town.

The property loss is estimated \$15,000. Cause of the fire which originated in the hotel is unknown.

Eye Witness' Story

Eye witnesses of the fire, who arrived in the city from Hazelton on last night's train, gave a graphic account of the Hazelton disaster. People, who were staying in the Omineca hotel told of having been aroused with the ringing of fire bells, shouting and general confusion. By the time they reached the scene of the fire, the Hazelton Hotel was in a roaring blaze, and the adjoining buildings were catching afire. There is no fire fighting apparatus in the town but bucket brigades were organized and fully 100 persons, both white and natives, were soon working frantically. In half an hour the Hazelton Hotel was practically consumed and adjoining buildings were ablaze. At 3:10 there was a fortunate change

of the wind which saved the police headquarters and the general store of R. S. Sargent, to the rear of the Hazelton Hotel, and other buildings. At 4:30 the fire was smouldering but was pretty well out and under control.

Spectacular Sight

The blaze was a terrible and spectacular sight and the heat could be felt for hundreds of feet in a few minutes the whole town had been aroused and men and women, whites and natives, joined in the fire fighting which was directed by Provincial Constable Cline with good effect. Arthur Lindquist, a prospector of powerful build, made a hero of himself. He took no consideration of his own life and limb and could be seen in close range to the roaring flames working to the utmost in the attempt to save life and property. He finally cut his head. Others who lent valuable assistance in directing the operations and actively working themselves were H. H. Little, manager of the Union Bank, Dr. H. C. Wrench, W. A. Wattie and his son, Bert, and George Rolf, manager of the hotel. The latter saved Cataline, the 95 year old packer and well known character of the north, from his doom. Cataline was upstairs in one of the rooms of the Hazelton hotel after the fire started. In the midst of the flames Mr. Rolf went upstairs and brought down the aged man who was in a frantic state of mind.

There is practically no fire protection in the old village and it looked at a time that this, the third big fire of late, would demolish all that was left from the others. It was only through the fortunate change of the wind and the work of the fire fighters with buckets that saved the police station and the Sargent store. The Union Bank and the Hudson store, not far away, were in no great danger at any time.

Fortunate Change of Wind

Besides the eleven buildings and their contents destroyed, it is claimed that \$2,000 worth of cord wood was also burned. Further to the value of \$1,000, owned by C. W. Dawson, who is now in the south, was also destroyed and two automobiles, belonging to the late James McKay, who was killed last week, were lost as well.

Many of the residents of the town moved their furniture from their homes fearing that the buildings would be destroyed. W. A. Wattie's and R. S. Sargent's stores were thrown open and all the buckets, axes and other fire fighting equipment placed at the disposal of the volunteer brigades.

Walsh Was Popular

Frank Walsh, the unfortunate man who lost his life, was well known in Prince Rupert and was very popular with a large circle of friends in the mercantile and transportation businesses. He was about 32 years of age and his parents lived in Calgary. He was an only son and is survived by a sister. As northern representative of McLennan & McFeely, Vancouver, he has made his headquarters in the city for two years and latterly resided with Mr. and Mrs. Harry Atkins, Fourth Avenue, West. He was a

COAL STRIKE IS ON TODAY

Saturday Was Holiday So Test
Began this Morning

INDIANAPOLIS, April 3.—The first test of strength in the nation wide suspension of work by union coal miners came today. The beginning of the strike on Saturday, an annual holiday among miners, having failed to determine the exact effectiveness of the strike.

At headquarters here of the U.M.W.A. confidence is expressed that the day's development would confirm the union estimate of 600,000 men, among them 100,000 non-union workers laid down their tools.

SUPPLY BILL IS HELD BACK

Interim Bill Introduced Today in
Commons Owing to Opposition.

OTTAWA, April 3.—An interim supply bill providing for a vote of one quarter of the total estimates is expected to be introduced in the House this afternoon when it opens with the prospect it will pass in time to go to the Senate when the Upper House meets on Wednesday for the last time before Easter adjournment.

The supply bill was brought in and then held over by Hon. W. S. Fielding when the fight against its passage developed.

MEN GO NORTH TO SECURE WORK

Thirty Laborers and Eight Bridge
Carpenters Sent to Anyox

J. M. Campbell, Provincial Government employment agent here last night sent to Anyox thirty laborers and eight bridge carpenters to work on the construction of the new railway to the site of the proposed dam. They left on the Venture.

Catholic.

Deceased was in active service during the war from 1914 to 1918 and had been wounded in night raiding operations at the front.

He was to have been married to a Vancouver girl this summer. J. F. Strang, manager of Sunnyside Cannery, who was a close personal friend of deceased, left this morning for Hazelton to take charge of the remains pending receipt of advice from the family in Calgary who have been communicated with.

Local Man There

Two eye witnesses of the fire reached this city last night. One was J. J. Dore, who has been on the telegraph line at Fifth Cabin north of Hazelton and is coming here to take a position out of the local office. The other was F. A. Baker of Vernon, travelling representative of Bovril, who is making his first trip to the north. F. R. Alexander, travelling for F. G. Dawson, Ltd. of this city, was in the Hazelton Hotel when the fire broke out and was one of the first to discover it. He was walking down the upstairs hall and reaching the head of the staircase saw the flames leaping up. Mr. Alexander did not return home last night.

GOOD BUSINESS ON THE G. T. P.

Railway Likely to Play Optimistic
Role in Railway Budget

When the Minister of Railways brings down his railway budget in the House, the Grand Trunk Pacific will, it is expected, play a more optimistic role, says a despatch from Ottawa to the Montreal Standard. Returns compiled by the transportation branch of the Bureau of Statistics available today, show that during the year ended December 31, freight traffic on the G.T.P. provided the outstanding feature of operations. While freight traffic on the C.P.R., the Government railways (except the Canadian Northern) and the Grand Trunk decreased as compared with the previous year, freight traffic on the Grand Trunk Pacific increased by over 31 per cent.

"This," says the report of the Bureau of Statistics, "was due to the operating arrangements with the Canadian Northern Systems, but as that road also showed an increase it was not a case of diversion of traffic."

The revenues increased 15 per cent and as expenses were reduced 16 per cent, the operating loss was reduced by over \$6,000,000.

"Transportation expenses increased 19 per cent with increased business, but maintenance of way and structure expenses were reduced 38 per cent and maintenance of equipment 30 per cent. The average train load increased with the greater traffic density which increased with the freight traffic, 41 per cent."

The operating deficit on the G.T.P. last year was \$3,997,488, as compared with an operating deficit of \$10,134,513, the year previous.

JAPS ARE BROUGHT TO TRIAL CHARGED UNDER GAME ACT

Provincial Constables Gibson and Martin made another visit to the canneries at the mouth of the Skeena River on Saturday and as a result several Japs are appearing before the magistrate at Hazelton this morning charged with having deer meat unlawfully in their possession. The officers will return to the city this afternoon as soon as the hearings are over. The provincial police are making a determined effort to have the Game Act lived up to in this district.

SUNDAY LAW IN VICTORIA

Police Commissioner Is Arrested
For Plying His Trade.

VICTORIA, April 3.—Forty tradesmen were reported by the police for infringement of the no trading order of the police commissioners on the first Sunday of the rigid enforcement of the Lords' Day Act.

Police Commissioner Joseph North, who dissented from the order on the subject of Sunday law enforcement, was arrested for acting as agent of Vancouver and Seattle hotels when the Sunday morning boat reached Victoria.

The attorney general will be asked to rule whether men breaking the act must be prosecuted.

MR. MANSON GOING DIRECT TO VICTORIA

Has Been Successful in His Efforts
Regarding Liquor
Traffic It Is Said.

Mrs. A. M. Manson this morning received a telegram from the Attorney-General stating that he found it necessary to go direct to Victoria instead of coming here as expected. The telegram was sent from Watrous, Saskatchewan.

Hon. A. M. Manson left Ottawa on Friday after spending a month there particularly in connection with the effort to secure legislation giving the province the right to a monopoly of the liquor business. A special despatch to the Vancouver World says:

It is understood that Mr. Manson has accomplished his purpose and that legislation on this line has been definitely promised and is now being drafted. The measure will give any province, such as British Columbia or Quebec, wherein the government operates liquor shops, the exclusive right of importation of alcoholic beverages. Under the existing legislation, while importation of liquor is prohibited to everyone in dry areas, there is nothing to prevent an individual from importing into wet provinces.

Private Importations.

Private importations in British Columbia have gone far to injure the operation of the government's liquor business. It is now proposed by federal statute to give the provinces the exclusive right of importation. This is in line with the policy outlined by the premier the other day to the Dominion Alliance, when he threw cold water on prohibition proposals but expressed a willingness to strengthen provincial legislation and make local control more effective.

Premier Outlines Policy.

Premier King said it was the wish of the government to assist the provinces in making existing liquor legislation as effective as possible. He was hopeful that the government would do something this session and it was the opinion of himself and his colleagues that social and moral reforms could be best dealt with by co-operation between provincial and federal governments.

Legislation is also proposed

to provide for search under warrant of any government railway, vehicle or steamship to seize intoxicating liquors found, and further to prohibit importation for warehouse purposes for export of all intoxicating liquors for prohibited purposes.

BIG LIST OF FISH ARRIVALS MARKED AT EXCHANGE TODAY

The month of April is off to a good start in quantity of halibut being landed, 340,000 pounds in 34 boats having been bought by the various buyers at the Exchange this morning. The price averaged slightly below 10c for first class halibut. The big schooners are beginning to arrive, two or three of them being in this morning.

LLOYD GEORGE MAKES SPEECH

Urges Support of Genoa Resolution—Want of Confidence
if Defeated.

LONDON, April 3.—Lloyd George appeared in the House of Commons today for the first time since February 28 to ask the House for an expression of confidence in the policy of the Government toward the Genoa Conference and to make up the Genoa delegation. He said that if the resolution was defeated it would be equivalent to a vote of want of confidence in the Government. He said the official opposition amendment changed not the subject matter but the scope of the conference. He did not believe such a body as the Genoa Conference could properly consider a revision of existing treaties, even in the event of this being desirable.

It is not expected that a vote on the Premier's resolution will be reached before eleven o'clock tonight and the general belief is that the Government will receive a substantial majority on the fact that the main motion has been narrowed from its original scope to the mere support of the Cannes resolution.

STORMY SCENE IN IRELAND

Meeting Stopped by Republican
Soldiers at Which Michael
Collins Spoke.

DUBLIN, April 3.—A meeting addressed by Michael Collins at Castlebar, County Mayo, last night was stopped by members of the Fourth Western Division of the Irish Republican Army after a stormy scene in which a woman was wounded by a bullet according to accounts received here this morning.

BUSINESS HELD UP BY FUNERAL OF SIR JOHN EATON TODAY

TORONTO, April 3.—Business is almost entirely suspended throughout the city, the factories are shut down and the Ontario legislature and City council have adjourned their sessions during the burial of Sir John Eaton here this afternoon. Prominent clergymen of four denominations assisted in the services.

OCEAN FALLS PLANT WAS TO REOPEN TODAY

Word received from Ocean Falls today is to the effect that the rain has made it possible for part of the plant to reopen today. Owing to the drought and the cold weather, the whole plant has been shut down for a short time.

REV. ROBERT CONNELL SECRETARY OF SYNOD

After consultation with the executive committee of the Anglican Provincial Synod of British Columbia, Archbishop Du Vernet, announces that he has appointed Rev. Robert Connell of St. Saviour's Church, Victoria, secretary of the synod in place of the late Rev. C. G. Litterer.

MANY RETIRE FROM SERVICE

Deputy Minister of Finance and
Others to be Pensioned off

VICTORIA, April 3.—The retirement of 16 civil servants pensioned off was announced on Saturday by provincial secretary J. D. McLean. At the head of the list is W. J. Goepel, deputy minister of finance; J. E. Armstrong, chairman of the board of investigation in the water branch; G. Anderson, engineer in the water branch; W. A. S. Morley, treasury department; and Dr. E. C. Arthur, hospital inspector. They all retire on June 30. The retirement becomes effective under the Superannuation Act under the provision which provides for retirement at the age of 65. The pensions are determined according to the length of service.

DAILY EDITION

Monday, April 3, 1922.

Death of Frank Walsh Was Terrible Tragedy.

A young man who went through the war unscathed, returned to civil life and made good was cut off in a horrible manner yesterday morning. Frank Walsh left here on Saturday in the course of his commercial duties and stopped off at Hazelton. A few hours later the hotel in which he was sleeping was burned to the ground and with it went the life of the young man. It was a terrible death and brought a feeling of awe to all who heard of it yesterday.

Walsh was a likeable young man, a general favorite in this city, where he has resided for some time and where he had made many friends. General regret is being expressed everywhere and the sympathy of the whole community will go out to those who will feel the loss even more than do the people of Prince Rupert.

Magazine Writes of Super-bores.

One of the American magazines that published a couple of pages of comment on public questions deals with the question of prohibition in the United States along these lines:

"What is the acutest bore known to the human race? There is a game in which each player confesses his tastes. He names his favorite novel, opera, pastime; what character in history or fiction he hates most; what experience is most distressing. To one person, listening all night to a window fiddle may top the annoyance list; to another, sitting in wet underclothing in a draft. Is there anything more excruciating than the talk with which the haters of prohibition flood dinner tables? Night after night, month after month they emit canned diatribes. No sooner is your napkin unrolled than the topic begins. Since January, 1919, there has not been a new word said. People drink now because it is forbidden; they drink too much; bootlegging flourishes; workingmen, instead of being drunk every Monday, are loaded every day; drug addicts increase; homes are breweries; young people learn contempt for law. Expand these ideas and serve. Other topics are dead. Society has become a nightmare.

"This editorial is no argument for prohibition," the article continues. "It is a wail against boredom. These asses, who now fill their empty heads with the evils of prohibition, never made an effort to cure the evils of the saloon. High license was the nearest their mind could reach. The prohibition wave rose to its inevitable power, because our legislators and our public were supine. While they slept, money intended for shoes and education of children was taken from the wives and the poor and wasted in sodden drink. The saloon became the centre of political corruption, of gambling and prostitution. It was for the dress-suit or ruling class to check these scourges. They never stirred. After long suffering popular wrath took action with roughness. Now it is for the same dress-suit class to hang its head, to hold its tongue, to give to the new institution a decent trial."

Outlook Improves For Better Business.

A more optimistic feeling is apparent in the reports from all parts of Canada on business conditions, says the Royal Bank report. In the eastern provinces, particularly, is this the case. Here in spite of the fact that inactivity in some lines still persists, the general outlook is improving, and it gives promise of betterment as the spring advances. A fairly large number of manufacturers are experiencing a slight revival in business, the impetus of which is extending, in some measure, to the wholesale and to the retail trade. In the West the movement is not so pronounced, but here, too, there is some ground for encouragement, so that taking it by and large it would seem that a return to somewhat more normal conditions in trade is one of transition.

As the situation in the West is so much affected by the harvest, the final figures of the various crops, that now are available, will throw some light on conditions at the present time. The total yield of the 1921 wheat crop is finally estimated at 300,000,000 bushels for the entire Dominion, from a sown area of over 23,000,000 acres. This is an increase in yield of 14 per cent over the previous year. The total value of the crop, however, is estimated at about 243 million dollars, which is 43 per cent lower than the estimated value of the 1920 crop.

BOOTH SCHOOL STILL CLOSED

Entrance Class Reopened This Morning at Borden Street—Other Rooms Open Next Week.

The School Board decided at the special meeting held on Saturday afternoon to reopen the Booth Memorial School entrance class under Mr. Harkness this morning at the Borden Street school but to keep the rest of the divisions in the Booth School closed for at least another week. In the meantime the process of drying out the walls at the Hays Cove School by keeping the furnaces going full blast will go on. Next week the classes there will likely resume if the expert, is to be brought here, and he reports favorably on the building.

There was nothing new reported on the condition of the Booth school and the matter of appointing the expert from the outside to make an examination with a view to reporting on ways and means of remedying the defects in building was laid over until tonight when the council and school board meet jointly for the purpose of going further into the matter and coming to a decision. City Engineer Whitaker was present at the meeting and reported similarly as at the meeting held earlier in the week. The drying out of the school was going on and temporary repairs were being made to the fine walls.

Successor to Miss Hall

The matter of appointing a successor to Miss Georgia Hall, of the teaching staff, who is resigning, was taken up but no definite appointment was made pending the receipt of answers to wires that have been sent. Miss Osherta McPherson has been asked to accept the position.

There were present at Saturday evening's meeting Dr. W. T. Kergin, chairman of the School Board, Mayor Rochester, Trustees L. W. Patmore, J. C. McLennan, Mrs. E. V. Ling, Secretary W. D. Vance, City Engineer F. J. Whitaker and Superintendent Harold Campbell.

PIPE DREAMS

By Newton Pullen

If any "columnist" on the American continent has failed, during recent days, to remark that Wrangell Island is well named owing to the dispute over the possession of it the pun is hereby pointed out to him. There is no charge for this service.

Rev. W. M. MacKay of Milton, Ontario, announces that a Plymouth Rock hen of his has laid a record-sized egg. It was Moses who got water from the rock years ago, and now we find that one of his followers gets from a Rock an unusually large amount of lemon pie surfacing done up in packages.

At the present time English law holds that where husband and wife are partners in crime the husband alone shall be punished on the assumption that the wife merely obeyed his command. Lady Astor is endeavoring to have this law altered to make wives equally responsible. If she wanted to claim them more responsible than husbands she would have precedent with here, e. g. apple-eating in Eden orchard.

Several ministers are advocating that young people's meetings be made a courting hour. With the doctors holding health weeks and the dentists carrying on dental hygiene propaganda, surely there can be no objection to the ministers stimulating business in their own line.

Nellie Schramm applied to Judge Graham, San Francisco, for a divorce. The Judge set the case down for the opening day of the ball season, found that both husband and wife were base ball fans, and invited them to be his guests at the opening game and make up. And so it looks as if love will be born anew to the tune of "Attaboy."

Two members of the Bulgarian Cabinet resigned as the result of the Government's decision to eliminate three letters from the alphabet. It would be worth a civil war if the Bulgars would spell the names of places and public men so that the Anglo-Saxon could negotiate them.

WORTHLESS CHEQUES CAUSE MAN'S ARREST

WINNIPEG, March 29.—Several thousand dollars is said to have been obtained through issuing worthless cheques by Carl Budke, formerly employed by a Minnesota financial institution, who was arrested by Detectives Melville and Cox. Budke, who was arrested in St. Vital, has been in the city for some time and according to police, was employed by a local business house under the name of Gordon.

The request for Budke's arrest came from Sheriff William Leehy, Steel County, Minnesota. Budke is to be prosecuted by the Minnesota Bankers' association, having defrauded a financial institution which is a member of the association, it is alleged.

The Man in the Moon SAYS—

LORD RYNG
Old Theng

Come and hear us syng
In tones that Ryng
God Save the Kyng.

SHLY boob wants to know what all the cities that adopt daylight saving are going to do with all the daylight they save.
HE says he thinks it is like the man who saved ten dollars by spending twenty instead of thirty on a suit of clothes. All he had was twenty.

WHAT I should like to know is where do they keep those twenty dollar suits?

A DOCTOR is said to have ordered a Prince Rupert patient a change of climate. And yet I cannot see where the patient could get more changes of climate in a short time than are provided right in this fine little metropolis.

A MAN does not need to be a person of loose morals to know that putting around a boat on

AUCTION SALE

There will be a sale by auction again tomorrow at 2:30 p.m. and also in the evening at 7:30. The store is also open in the morning from 9:30 to 1 p.m. for private sale at Auction Prices. On Wednesday the store will only be open for private sale in the morning, and there will be no sale that night. Thursday, Friday and Saturday will be sales days. Come early while the choice is at its best.

BARGAINS!

Many of Mr. Bulger's friends are sorry to see his goods going so cheap but our reply is that most of the sales made are to customers of this store, and people who have helped to make us leaders by their patronage are sure entitled to participate in the distribution of bargains such as is seen going out during this sale.

NO WORRIES

When the sale is over Mr. Bulger will have his credit 100 per cent and no worries in a financial way. Just stop and think what that is worth to a business man. Ladies and gentlemen! it cannot be measured in dollars and cents. Worry has killed countless of millions of days of human lives and wise is he who takes his losses quickly and has it over with.

ACCOMPLISHED

Saturday the opening day of our sale proved a very fair starter though we expected better prices. Most likely they will come but if they don't we will still go on till the required reduction has been accomplished. Don't forget to keep your tickets. All tickets given out during the sale are good for the drawing for the silver tea service at the last and final sale.

MINIATURE FIELD DAY AND PEANUT DRIVE ON SATURDAY

Laughter and merriment abounded in the home of Mr. and Mrs. L. G. Eby, Fourth Ave. W., on Saturday evening, the occasion being a peanut drive, and a field day in miniature, in which many guests joined with great enthusiasm. Miss Thomas proved herself quite a heroine with the hatpin and annexed the first prize in the peanut drive.

The story contest was the cause of much laughter, and Mrs. T. Priest was the winner with high honors. Miss E. M. Earle proved a very efficient and capable mistress of ceremonies. Delicious refreshments were served at 11 p.m. and at midnight a very successful evening came to a too early close.

Among those present were: Mrs. R. G. Parsons, Mr. and Mrs. Priest, Miss Beatrice Bates, Mr. and Mrs. J. Jacks, Miss Alice Monroeur, Miss E. Davies, Mr. and Mrs. G. V. Wilkinson, Miss Thomas, Miss Hughes, S. Webb, Harry Love and S. M. Newton.

BEAVERS OF JUNIOR LEAGUE MAKE FIRST WIN OVER EXCELSIORS

The Beavers made their first win of the season in the Junior Billiard League series last week when they defeated the Excelsiors by a total score of 819 to 766. Each team won three games.

The individual scores were as follows:

M. Stephens (Excelsiors), 71; P. McGowan (Beavers), 150; W. Hamill (Beavers), 109.

H. Frizzell, 137; G. S. Hill, 150; L. Wilson, 150; E. Hudson 136; R. Lancaster, 108; S. Hunter, 150.

D. Graham, 150; R. Macdonald, 124.

The standing to date:

Maple Leafs	6	5224	871
Excelsiors	5	4096	819
St. Andrew's	6	4854	809
Grotto	4	2968	742
Elks	5	3727	745
Beavers	6	4391	732

MACK SENNETT COMEDY AT THE WESTHOLME

Feature Film is Full of Fun and
Also is a Good Story

Mack Sennett comedy is the feature at the Westholme tonight "Love, Honor and Behave" is not a loose-jointed assemblage of "gags," "stunts" and "chases" but a legitimate story from which arise comedy situations that crowd and jostle each other, so closely do they follow one another. But with the skill of a painter mixing his colors, Mack Sennett avoids the monotony of mirth by the injection of legitimate appeal, human interest and thrills, so that when the beholder feels that he can laugh no longer, he is not surprised with mirth but is given the sobering influence emanating from a real and interesting story.

CROWD HEARS CONCERT SMITHERS LAST WEEK

Sum of \$140 Raised for Worthy
Purposes by Shamrocks

SMITHERS, April 3.—The Smithers' Hall was crowded on Thursday night at an Irish concert given in aid of the Bulkley Valley hospital here and the Nursing Home at Telkwa. The stage was appropriately decorated in green and black with the harp in gold mounted at the back of the stage. The proceeds amounted to \$140 net. Every item on the program was applauded and there was much favorable comment afterwards on the quality of entertainment put on by the Shamrocks.

AUCTION AT BULGER'S PROVES ATTRACTIVE

Many Get Good Bargains; Being
Continued This Week.

A new departure in auction sales took place at Bulger's, Third Avenue, on Saturday last when a large crowd of citizens attended both the afternoon and evening auctions. Horace Dorner, who is in charge of the auction, proved himself a past master at the game and his whimsical selling ability was really much enjoyed, although he proved himself master of the situation at times.

One can go into the store and choose an article required when the auctioneer will put it up right away for auction. Some wonderful bargains have been carried away by lucky purchasers.

Anyone who is out on a bargain should drop in at Bulger's and take advantage of the sale. The high class stock carried at Bulger's is to be cleared out regardless of cost.

The ladies were in great evidence at the opening sale and evinced a keen sense of values. Undoubtedly Bulger's store will be a popular rendezvous for the buying public during the balance of the auction.

NOTICE.

To whom it may concern:

Notice is hereby given that on and after this date, I will not be responsible for any debts incurred by my wife, Mrs. Malvina I. Millard, now resident in Prince Rupert.

SETTLEMENT
THIS COAST

Writer in English Review Sees
Imperial Need in Developing
Pacific Seaboard.

RAILWAY TO STEWART

Men and Money Needed to Make
Prosperous Communities
at Strategic Points.

Setting the seaboard districts of British Columbia is one of the difficult and important problems of the Empire, according to J. B. Thornhill, writing in "United Empire."

What we want is a series of settlements by young married Englishmen—for the married man is anchored—drawn from the agricultural and seafaring villages of the British Isles, he says. These men, their wives and families, must be maintained while settling—three years' maintenance and free land is a sine qua non for successful settlement—and the cost of their settlement must be borne by us in England.

The question of developing the industries of the province has been threshed out time and again. The whole world knows that these resources are fabulous, but that we have no local markets. Developing the industries will help settlement by furnishing local markets for the products of agriculture and animal husbandry which, in every country, are the basis of settlement. We want world markets for our timber, our fish, and our metals. These we will build in time. But above all we want population—a resident white population. Population should come first.

Every thoughtful Englishman should realize:

Firstly, that the coastal belt of British Columbia is not only Canada's undefended western frontier, but it is the Empire's hold on the North Pacific.

Climate Insular.

Secondly, that our North Pacific seaboard can not be regarded as part of continental Canada, for its climate is even and insular, and is much the same as that of the British Isles with the exception of their fogs.

Thirdly, that the coast with its six hundred and odd islands—one of them larger than Switzerland—and its fringe of mainland—longer than Sweden—can not possibly be settled unless money is "scrapped" on land clearing, for the whole country west of the Cascade Mountains is a dense forest of fir and pine.

Portable Pulp Mills.

Where, on the coast of British Columbia the timber is small there are no markets at present. I do not see that there will ever be markets for small stuff on the Pacific Coast unless we are able to improve on and introduce the small portable pulpmill that is in use in out-of-the-way parts of Sweden, a country that teems with mechanical genius. I strongly recommend the government of the province of British Columbia to purchase one or more of these portable pulpmills, and by actual experiment to determine whether it would be possible for pre-emptors north of Vancouver Island to make and market pulp at a profit. If this can be done land can be cleared under the same conditions under which it is cleared in Newfoundland and Eastern Canada.

There, where the trees are small, two men, working with one horse, a stump-puller (£20), and using 100 lbs. of dynamite to each acre, can clear 5 to 6 acres of logged-off land in a month.

After dealing with settlements

Children's Coughs
Quickly Relieved.

It is hard for the children from taking cold; they will run out of doors not properly wrapped, or have too much clothing on and get overheated and cool off too suddenly, they get their feet wet, kick off the clothes at night; the mother cannot watch them all the time, so what is she going to do?

Mothers should never neglect the children's coughs or colds, but on the first sign should procure a bottle of

**DR. WOOD'S
NORWAY PINE SYRUP**

It is pleasant and nice to take, and relieves the cough or cold in a very short time and thus prevents bronchitis, pneumonia, or perhaps consumption getting a foothold on their systems.

Mrs. E. Smith, 288 Victoria Avenue, North, Hamilton, Ont., writes:—"I have three children who have had very bad colds, due to change of climate. I have tried different remedies, but I seem to get the best results from Dr. Wood's Norway Pine Syrup. I have no difficulty in giving it to them as they like it. I always have at least one bottle in the house."

Price, 35c and 60c a bottle at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

in the south Mr. Thornhill says: Both ends of the Queen Charlotte Archipelago which shelter 12,500 square miles of the best fishing grounds in the whole world, will ultimately need garri-sons.

Gribble Island (where the little white bears come from) undoubtedly offer the best site for the administrative headquarters of the Northern Settlement areas. Like King Island, it is granite, and the settlement area must be indefinite, in other words the whole of Gribble Island must be taken for settlement purposes. The Douglas Channel, the entrance to the Kitimat, should become an important fishing settlement and a fortified naval base.

The mouth of the Kitimat has 50,000 acres of alluvial land at its head. Rather more than half this area would be required for settlement purposes.

Development of Stewart.

The mouth of the Naas is unsuited for a larger commercial harbor, and when Canada's Fourth Transcontinental is built it will be found more advisable to make western terminus of the Fourth Transcontinental at the head of the Portland Canal (Stewart) than at the mouth of the Naas. However, for the development of the anthracite coal-fields in the Naas Valley and for the extension of agricultural settlement in that valley, a settlement at the mouth of the Naas is imperative, and such a settlement would be in the same relation to Stewart at the head of the Portland Canal as New Westminster at the mouth of the Fraser is to Vancouver on Burrard Inlet.

In the concluding paragraph of my suggested land-settlement schemes, I mentioned Canada's Fourth Transcontinental. There is only one possible route for this railway—from Nelson (ice-free for five months in Hudson Bay to Stewart (also ice-free) at the head of Portland Canal.

The building of this railway—1,500 miles through easy country—is outside the subject of this article. It has, however, a bearing on it. This railway would shorten the distance between Japan and England by over a thousand miles. It would do much towards helping the settlement of the Peace River country, which is inadequately served by the present transcontinentals.

Settlement Schemes

To return to the settlement schemes. On account of the fishing grounds being mostly in the north as well as owing to their almost entirely unsettled state, the Northern areas should be dealt with first. To help forward their settlement the Dominion

Government may reasonably be asked to establish consular agencies throughout Japan, China, the Straits Settlements, and India. Further, we might ask of the Dominion a direct subsidy to help forward the sale of dried fish in markets—half of the world's population—markets that are shrieking for fish.

In both the Northern and Southern areas the government of the Province of British Columbia must provide the necessary amount of free land required. Without this assistance no settlement scheme could succeed.

We in England must provide the men and the money for their maintenance. In the King's speech at the opening of the present session of the Home Parliament, a Bill to enable the Imperial Government to give effect to the policy of co-operation in Empire settlement is foreshadowed. The navy is being cut down. I feel that now is the time for the Colonial Secretary and the First Lord of the Admiralty to "get together" and try and put my scheme through.

England's Burden

On the present basis of food-importations the Coastal Belt of British Columbia requires an additional 600,000 acres of cleared land. I have said for less than a quarter of this amount—70,000 for the Northern areas, and 48,000 for the Southern. I ask for £3,500,000—less than one day's cost of the war. This must be England's share and England's burden—if burden it be. The Dominion Government must help the settlement scheme by adequately lighting their North Pacific Coast. If the coast were as well lighted as is Newfoundland, 800 lighthouses would be required. A tenth of this number would do for a start on the seaboard of British Columbia.

Finally, the government of the province of British Columbia must grant a direct subsidy for the systematic prospecting of the "Contact" in the Cascades—a very difficult country.

Personally, I am convinced that this is the richest mineral field in the whole Empire—I ask the Province to set aside £500,000 to be expended over three years for the prospecting of the Cascades. I assure them a reward of many millions in addition to the satisfaction of settling their seaboard and strengthening the Empire's hold on the North Pacific.

LEGISLATORS IN NEW
YORK USURPING ON
DANCING TEACHERS

Proposed Bill Tells Proper Methods of Dancing and Sets Time Measure.

ALBANY, N. Y., April 3.—Creation of a state public amusement commission with power to regulate dancing is proposed in a bill introduced in the legislature by Assemblyman William Duke, Jr., Republican, chairman of the Assembly Codes Committee.

Jazz dancing, hugging, cheek-to-cheek dancing, neck-hold dancing and all classes of suggestive dances are sought to be banned by the bill.

Enforcement of provisions of the bill would be placed upon the shoulders of inspectors named by the proposed commission and approved by the Women's Christian Temperance Union and religious organizations of Protestant, Catholic and Jewish women.

No Dim Lights.

Dancing under dim lights is specifically forbidden by the bill, which also has the unique distinction of containing pictorial illustrations of "proper dancing." The bill describes the proper

NEW CHURCH AT OCEAN FALLS

Building Started This Morning at Paper Town to Be Used for Union Purposes.

Word has been received in the city that the old Methodist Church has been torn down and a new building was to be commenced this morning which it is expected will be completed in June. It will be a wooden building 74 by 30 and with a fourteen foot wall and with a Sunday School room and kitchen attached. It will be used as a union church, Rev. Frank Boshfield in charge.

The Pacific Mills Ltd. had donated a site on a 99 year lease on the corner where the old building stood. The company has also donated \$500 toward the new building and loaned \$2,000 without interest. The Missionary Society has also promised \$2,000 and the balance will be raised by the local congregation. The building will have a concrete foundation, will be heated with steam and lighted by electricity.

MADAME FAHEY WILL SING IN ALL CITIES OF WESTERN CANADA

Says a Victoria paper: The many Victorians who treasure a particular affection for Madame Lugrin-Fahey, the popular dramatic soprano, will be delighted to learn that she is to give a concert at the Royal Victoria Theatre in this city on May 8. This concert is included in an itinerary which will extend through Western Canada and the United States.

Since Mrs. Fahey left Victoria eighteen months ago she has risen to a prominent place in the larger musical world of the East and has been received with acclaim wherever she has appeared. In addition to being the soloist at one of the principal churches in Toronto, the Timothy Eaton Memorial Church, Mrs. Fahey is in constant demand for recital and concert. At the conclusion of a concert in Peterboro, Ont., recently, she was immediately booked for a return engagement in October of this year. Before leaving on her western tour Mrs. Fahey will give two recitals in Toronto, in addition to four other appearances in that city. She has made six appearances in Hamilton, four in Brantford, and will appear again in the latter city shortly.

Her reappearance in the city of her birth will be awaited with much interest and eager anticipation.

Sport Chat

To catch big steelhead trout in such numbers and with such ease that it was necessary to obtain a horse to haul the catches home was the experience of George Fitzmaurice, of this city, who returned last week from Tlell, Graham Island, where he spent two months visiting at the home of the Richardson Bros. Fitz says that all reports that have reached here regarding Tlell as a sportsman's paradise are perfectly true and unexaggerated. While he was there they caught trout through holes in the ice with ordinary cuttyhunk, hooks and bait. In the summer the streams may be angled with great results in the usual rod and fly method. Besides the unexcelled fishing great sport may be obtained on Graham Island in duck and goose shooting and bear hunting. The former abound in great numbers at all times of the year. The residents are quite used to the great abundance of game but it proves at once surprising and delightful to visitors. The season for birds, of course, is out now but the residents live closely up to the law and there are very few cases of the game being taken out of season.

There has been considerable delay of late in the playing of the fixtures in the Junior and Intermediate Billiard Leagues. This has been due to the fact that there has been a good deal of illness in the ranks of the players. The League has practically no rules and there is no provision for games being defaulted on the non-appearance of players. For that reason recent tournaments have been dragging along unfinished and interest has been dampened. The same condition prevailed to a certain extent towards the end of the Senior League series. In future tournaments rules should be set out to guarantee the games being played with dispatch. This will be more convenient for players and the public and will ensure a greater interest being taken in the games generally.

The annual regatta of the Pacific International Yachting Association will be held this year at Seattle on the shores of Lake Washington from July 24 to 31. It was decided at the annual meeting of the organization at Victoria. For the past two years the regattas were held in Cowichan Bay and Victoria, respectively, and it was thought that the annual events, which attract thousands of spectators, should be held in the United States this season. Seattle has not had a regatta since before the war and plans are being made to make that of 1922 the

MACDONALD'S Cigarettes

The Tobacco with a heart
10 FOR 15¢

greatest affair of its kind ever staged on the Pacific Coast.

Captain James Griffiths, commodore of the Seattle Yacht Club, was re-elected admiral of the association. Commodore G. V. Gyles, of the Vancouver Yacht Club, was chosen as vice-admiral, and Commodore L. A. Genze, of the Royal Yacht Club, Victoria, was re-elected rear-admiral. Mr. Daniel Pratt, of Seattle, will continue as secretary.

The Lipton Cup races will be sailed on Lake Washington as a feature of the association regatta, and will be contested by the Sir Tom, of the Seattle Club and the Patricia, the Vancouver club's entry. The former won the series last year.

There will be the usual yawl, schooner and other races and more power boat races are promised. Victoria Lipton cup races will constitute part of the regatta program, the course being from Port Townsend.

The association will hold an Isherwood Cup regatta at Port Townsend on Labor Day. Victoria Lipton Cup races will also be on the regatta program, the course being from Port Townsend to Brochie Ledge and return.

DUTIES DESIGNED TO INJURE CANADIAN TRADE WITH STATES

Delegate Dan Sutherland Tells Electors of Alaska What He Has Been Trying to Do.

In his address to the electors of Alaska, Delegate Dan Sutherland says:

The House bill passed to the Senate with a provision for a duty of 1 1/2¢ per lb. on pickled herring. For this tariff I worked consistently before the Ways and Means Committee of the House, and appeared before the Senate Committee on Finance in advocacy of its retention in the bill.

This I consider a very important legislative measure for Alaska.

I have taken up with the trans-continental railroad lines the matter of a reduction in rates on refrigerated pickled fish, and although a small reduction has been made, I am hopeful of a greater reduction.

If Alaska pickled herring can be placed in the Eastern market at a price equal to or a little less than the European product it will mean the expansion of an industry that should be one of the greatest and most permanent in the Territory, and one which should draw permanent population to our Coast.

Duty on Halibut.

I appeared before the Senate Committee on Finance and asked that a duty of 2 cents per lb. be placed on foreign halibut and also filed a brief on this subject.

The major part of the halibut caught in the Pacific by Canadian vessels comes to the American market duty free. Canada fixes a duty of 1 cent per lb. and 7% ad valorem on halibut.

I have also asked for a duty on crab meat and on the following minerals and metal products: Quicksilver, chrome, iron and platinum metals.

Prosperous advertising means regular continuous advertising.

Hearing of Prince Rupert Cities of Eastern Canada Especially at the Capital

OTTAWA, April 3.—While things move slowly where so much business has to be attended to, Prince Rupert is gradually coming back into the public eye at the nation's capital. This is largely due to the strong Prince Rupert delegation that has been on the job for a month or more here and to the efficient work being done by the member for the district Fred Stork. The Prince Rupert group has been moving in a way to make itself felt. Here is an editorial reference in a recent issue of the Ottawa Morning Journal:

"Vancouver is figuring on how to help the unemployed. And here we were, reading the Vancouver papers, thinking that the Pacific Coast metropolis was the biggest and busiest place in British Columbia outside of Prince Rupert."

Big Impression

Of course Mr. Stork's speech was bound to attract attention. The special correspondent of the Montreal Herald, writing to his paper from Ottawa says:

"Mr. Alfred Stork, the stalwart Liberal from Skeena, made a big impression by a well delivered, sound speech, and he met with a good deal of support from the Progressive benches. In fact, he received an ovation from the Farmers when he resumed his seat. A good speaker, he held his audience from the start, and put the case for his constituency most clearly. He explained that next to Yukon, Skeena was the largest constituency in the country."

Mr. Stork brings with him the atmosphere of the pioneers, who have done so much to develop our northlands, and he has every reason to be satisfied with his debut."

Telling of the same speech, a staff correspondent of the Toronto Globe says:

"Nine members were heard today and probably the best impression was made by Fred Stork, Liberal member for Skeena. Mr. Stork represents a riding, as he said himself, which is bigger than the British Isles, with Belgium and Denmark thrown in. He spoke of the Grand Trunk Pacific road and of the great new country which, with some branch lines, it will open up for production of agricultural and mineral wealth."

Able Debater

And later in the same paper: "Alfred Stork (the new Liberal member from Skeena, B.C.) contributed a clever speech, and he will in future prove an able debater on the Liberal side. The House realized the vast extent of Canada when Mr. Stork said that he represented a riding inside which could be placed England, Ireland, Scotland and Denmark, with enough room left to ac-

commodate almost all of Belgium. He talked of the Grand Trunk Pacific line from Edmonton to Prince Rupert. He compared the growth of the country along the Grand Trunk Pacific with the growth along the Canadian Northern from Alberta to the coast, by telling of the number of schools built, much to the advantage of the Grand Trunk Pacific. He spoke of the vast territories of agricultural lands and the coal and other mines which could be reached by the construction of short stub lines, the longest being 80 miles from the Grand Trunk Pacific."

Talk Prince Rupert

Around the Chateau the Prince Rupert delegation has become quite familiar to politicians and newspapermen. They are forever keeping Prince Rupert and Northern British Columbia to the fore. They are pointing out the value of the G.T.P. to the nation as a whole and the advantage it would be to develop a northern port. They urge the development of the resources of the north so that the Government railway and the Government steamships may be put on a paying basis.

BOUNDARY DISPUTE TO BE SETTLED SOON

GENEVA, Mar. 29.—The Swiss government, which was asked to arbitrate the long standing boundary dispute between Colombia and Venezuela, is expected soon to announce its decision.

Dr. C. Lardy, former Swiss minister at Paris, has made an exhaustive study into the merits of the case and has transmitted his findings and recommendations to the political department of the government.

It is not possible to forecast the nature of the report, but both Colombia and Venezuela have notified the Swiss government that its decision will be accepted as final, no matter which side is favored.

Hobson—Sir I am a self-made man.
Dobson—Who interrupted you?—Til-Bits.

See, Mama, There is Your Medicine

"YES, dear, that is the medicine which made mama well and I am sure neither of us shall ever forget it."

"Are you going to buy some?"
"No, darling, I do not need any more. You know how well I sleep now, those terrible headaches do not bother me any more and we are able to take our nice long walks every day."

"You never used to walk, did you?"
"Not for a long time. My nerves were so bad that I could not do anything, and I am afraid I was often very cross and irritable with you and daddy, but, thanks to

Dr. Chase's Nerve Food, that day has gone by and I know what it is to be well and happy."

"Why don't all the sick people use your medicine?"
"Far more of them would if they only knew of the good it would do them. I have told lots of my friends and they nearly all have been benefited just as I was."

Clear brain, splendid circulation, ruddy complexion, sound, restful sleep, good digestion, greater strength of mind and body and better health are the results of using Dr. Chase's Nerve Food. 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

BURNS LAKE

At the last general meeting of the Citizens' Association, Fred Fraser was elected secretary to take the place of Lewis Bonham, who was leaving for a trip of southern cities.

Barney Mulvaney is heading a delegation of mining men to the Williams Lake country.

The supper and dance given to Mr. and Mrs. Bonham on the eve of their departure was well attended. Both of these well known people have done much to benefit the town and will be sorely missed. The people wish them every success in their new field.

Dillman and Robb's new warehouse is nearly completed and should enable the firm to carry a much larger stock.

There has been talk of a branch of the Canadian Bank of Commerce opening here. The growth of the place as a distributing centre makes it desirable from a banking point of view.

Ed. Williams of Edmonton is in town looking for a store site.

SMITHERS

Reginald L. Gale has been suffering from hay fever.

The electric light plant is expected to arrive this week. This will enable the use of the extension of the service which will be very welcome.

During the absence of Rev. F. V. Abbott the anglican church services are being conducted by Rev. J. Snowden Brayfield, of Telkwa.

The intelligent, shrewd attention which is given to selling should include advertising.

EXTRA SPECIAL 150 lbs. SWEET POTATOES 3 lbs. for 25c

We are overstocked and are forced to move them at reduced prices.

ORANGES

Do not judge an orange by its outward appearance as more than half the oranges now being shipped are tree-frosted. This trouble cannot be detected without cutting in half, and then you will note the orange is practically dry, in spots. Unfortunately we have had one lot of these tree-frosted oranges, but we will not handle any more, no matter how cheap they can be bought. When buying oranges demand guaranteed stock or Sunkist quality and you are then assured of the best.

FUNERAL WAS HELD WITHOUT THE CORPSE

Empty Coffin Buried in London But Body Was Not in It.

LONDON, April 3.—One of the most astonishing mistakes ever made at a burial occurred at Shooter's Hill Cemetery, S.E., when a flower-bedecked coffin was lowered into a grave with solemn funeral rites while all the time the body was lying in the undertaker's shed.

The body was that of Police Constable George Parker, who met with a fatal accident on his allotment and was taken to the infirmary, where he died. The body taken to the undertaker's offices in a shell ready for placing in the coffin.

Forgot the Body.

The shell was placed in a van in a shed at the back of the undertaker's shop. Two workmen were instructed to take the body out of the shell to place it in the coffin and then to put the coffin in the hearse. Instead of doing this they screwed the coffin down and placed it in the hearse, carefully arranging the wreaths on the top and around the sides.

The hearse went to the house of the relatives and the funeral cortege passed slowly to the cemetery being met at the gates by 100 of the dead constable's comrades, two divisional inspectors, and a representative of the Commissioner of Police.

Six policemen bore the coffin to the graveside, where the funeral service was performed, and the coffin was lowered into the grave. Later in the day the grave was filled in.

Undertaker's Discovery.

In the evening the undertaker went to his shed to get the shell which was needed for another body, but found he could not lift it. After procuring a light he looked into the shell, saw the body and called two workmen. Both were terrified, one crying out that the body was "the ghost of Constable Parker."

The most remarkable thing is that when lifting it neither of the men noticed the weight of the coffin although the dead man weighed 15st. Each thought the other must be shouldering the greater part of the weight.

A coroner's warrant was obtained to open the grave. The relatives of the dead policeman were informed of the mistake and a second burial took place next day.

OUR CLERICS CLEARED.

Little by little the jokesmith's stock in trade is being repelled through scientific discovery. An English professor now declares that people get sleepy during the sermon because they hypnotize themselves gazing fixedly at the preacher. It is not because they are inattentive, but because they are too attentive. Therefore jokes on the subject are not knocks for the parson but boosts.

A Million from Milk

Last year the dairy industry, the box, can and label manufacturers produced \$5,700,000 for British Columbia. Our own purchases of the above materials used in the manufacture and packing of Pacific Milk were almost \$1,000,000, and this did not include the huge sum spent by us for wages. And Pacific Milk is the only milk produced in British Columbia.

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

BIRD WILL PREVENT INSECT RAVAGES AND SAVE CANADA MUCH

OTTAWA, April 3.—The statement made recently by the Dominion Entomologist that the annual loss to Canada in field, orchard and garden crops, due to destructive insects, is more than \$200,000,000, emphasizes the importance of the relationship of birds to agriculture. Were it not for the consumption of insects by birds, the injury and loss to domestic animals and crops would be disastrous. In addition to insectivorous birds, or birds that subsist largely or wholly upon insects, there are species which consume weed seeds or eat habitually field mice and other rodents which take their toll from man's food supply.

Save the Forests.

Our forests are always being attacked by insects which, unchecked, would soon destroy them. Insect-eating birds play a very important part in keeping such foes in check. The fact that birds are very mobile forms of life enables them to congregate readily where their food most abounds. Thus, in the case of an insect outbreak, they perform exceptional service to man.

Under the Migratory Birds Convention Act, entered into between Great Britain and the United States in 1916, protection is afforded to birds, which habitually migrate twice a year across the border between Canada and the United States. This act is administered, so far as Canada is concerned, by the Canadian National Parks Branch of the Department of Interior at Ottawa. As a result of its operation and of other legislation the protected species of birds have increased in numbers and the maintenance of a plentiful supply of useful Canadian birds seems assured.

ESQUIMALT TAX RATE GOES UP FIVE MILLS

Is Now Set at 23.5 on the Dollar—Improvements Are Free Daylight Saving.

VICTORIA, April 1.—The tax rate in Esquimalt for 1922 will be 23.5 mills, of which 13.55 mills will be for general purposes, while 9.95 mills are for school expenses. Last year's tax rate was 18.50 mills just 5 mills lower than the present year. All improvements will be free from taxation.

The estimates for the ensuing year were given final consideration last night when the rate was struck. While the tax rate has been increased, the assessment of lands in the municipality has been substantially reduced. Last year the taxable assessments totalled \$1,571,606, while this year's figure has fallen to \$3,625,225, making a reduction of almost one million dollars.

The special committee reported that the total cost of collecting and disposing of the garbage would this year total \$5,662. It was decided to start a garbage system by June 1.

The Council decided to ask H. A. MacLean, K.C., to settle a legal point as to whether the council or the police board had the authority to appoint the police prosecutor of the municipality.

The council signified its willingness to co-operate with the city in the matter of adopting daylight saving.

TELKWA MAN WAS MARRIED TODAY

Mrs. Helen D. Lewis, of Cedarvale, is Bride of George L. Murray.

George Leonard Murray, of Telkwa, and Mrs. Helen D. Lewis, of Cedarvale, were quietly married at the Methodist Parsonage this morning by Rev. G. G. Haeker at 10:45. Immediately after the ceremony they left on the train for Telkwa where they will reside. The groom is a well-known farmer of Telkwa and was a conservative candidate for the provincial house in the last election. He is a brother of W. G. Murray, the local manager of the Northern Interior Co-operative Store. The bride is well known in the interior.

SUCCESSFUL SALE METHODIST LADIES

Sum of \$150 was Raised at Fair Held Saturday Afternoon in Red Cross Hut.

The Ladies' Aid of the Methodist Church held a very successful sale of plain sewing, home cooking and candy in the Red Cross Hut on Saturday afternoon. The sum of \$150 was realized for general church purposes.

Mrs. W. B. Cornish, assisted by Mrs. B. Stockdale and Mrs. Stanley Bennett, was in charge of the home cooking tables and Mrs. A. J. Mallett, Mrs. W. H. Kerin and Mrs. G. W. Kerr conducted the plain sewing booth. The candy sale was in charge of the Canadian Girls in Training, those taking their turns at the tables being Miss Stella Nickerson, Miss Annie Kelly, Miss Alberta Gorall, Miss Petra Lindland, Miss Ina Lindland, Miss Winnie Dibb, Miss S. Calderone and Miss Marjorie Lancaster.

EGGS IN ALBERTA TAKE ANOTHER DROP

EDMONTON, April 3.—Egg prices on the city market have taken another drop and were selling for as low as two dozen for 55c. Some vendors were getting as high as 40c per dozen but most of the sales were a 35c. The supply was fully one-third larger than usual, however, with the reduction in price week-end shoppers who were out in goodly numbers were in the market for eggs and most of the dealers were having little difficulty of disposing of all they had. Over production is reported as being the cause of this reduction in price. During the past two weeks with the bright sunny weather, the hens have been working over time and with the weather still cold enough to chill the eggs and make them unsuitable for storing, the local markets are being flooded.

Dairy butter was offered in fairly large quantities and was in fairly good demand. Most of the sales were at from 35c to 40c per pound, although some was sold for as low as 30c.

J. O. Peterson, of Shames, arrived from the interior on last night's train.

The question for the advertiser to consider is how many people read the paper. You can't get results without circulation.

CONSTIPATION BAD HEADACHES FAINT, DIZZY SPELLS

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after, until some serious complication sets in.

A free motion of the bowels daily should be the rule of everyone, then there will be no constipation, sick or bilious spells, dizziness, heartburn, coated tongue, foul breath, sour stomach, floating specks before the eyes, jaundice, water brash, etc.

Keep the bowels properly regulated by the use of

MILBURN'S LAXA-LIVER PILLS

and you will enjoy the best of health.

Mrs. Frank Wilsey, R. R. 3, Belmont, Ont., writes:—"I have been troubled with constipation for nearly two years. I had bad headaches, faint and dizzy spells, and would bloat terribly. I was nearly discouraged for I had tried so many things that gave me no relief. My mother got me a box of Milburn's Laxa-Liver Pills and told me to give them a fair trial. After I had taken one I felt much better and continued their use. Now I have no faint and dizzy spells and am gaining nicely. I would not be without Milburn's Laxa-Liver Pills for the world."

Price, 25c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
