Opposition to Manson is Not Likely DISTRICT ENGINEER SPEAKS FAVORABLY OF PROPOSED RAILWAY

Branch Railway to Telkwa Coal Fields Easy One to Build

"The proposed branch railway line from Telkwa to tap the property of the Prince Rupert Coalfields Limited in the Morice River Valley would be a very simple railway to build," said W. S. Featherstonhaugh, district engineer of the Canadian National Railways, when interviewed yesterday by The Daily News on the subject. Mr. Featherstonhaugh was over the ground of the proposed road a year ago last summer, and at that time prepared reconnaissance plans, drawings and estimates which were sent to the Grand Trunk Pacific Railway offices at Winnipeg.

BIG DELEGATION OFF TO OTTAWA

Will Leave on Wednesday to Urge
Claims of Northern British
Columbia.

The delegation from this district to Ottawa will leave here on Wednesday morning. It is composed of representatives of the boards of trade of the north are Hon. A. M. Manson of Omineca constituency, T. E. Jefferson of Telkwa, and Hon. J. G. Dawson and M. McCaffery, representing the creditors of the Prince Rupert Dry Dock & Engineering Co., and Fred Stork, member for the district. All these will lend their aid in backing up the claims of the district. Fred Stork left for Vanderhoof this morning and will join the rest of the party in the interior.

ALBERTA WILL NOT JOIN B. C. IN DEMAND LOWER FREIGHT RATES

At a meeting called by the Hon. Vernon Smith, formerly of this city, the members of the boards of trade of Calgary and Edmonton refused to join British Columbia in the demand of the latter for lower freight rates. At the same time they expressed themselves as being sympathetic to the cause of the province.

IRISH WOMEN REPUBLICANS

Will Support Constitution as
Proclaimed in 1916 at Next
Election.

DUBLIN, Feb. 6.—Six hundred women delegates from women's Sinn Fein organizations called together by Countess Markiewicz, adopted a resolution of allegiance to the republic as proclaimed in 1916 and called on all Irish women to support only republican candidates at the next election.

HERRING ARE NOW RUNNING

Cold Storage Boat Brought in 25
Tons Yesterday.

Herring are now running in large shoals in the neighborhood of Porecher Island. At Captain's Cove the N. M. & B. Fish Co. have a herring pound where they are supplying live bait to the fishermen who go that way. Yesterday the Cold Storage boat Fredelia brought in her first catch of 25 tons and also loaded 15 tons on to another fishing boat and these also were brought to the cold storage plant. The fishing boat W. H. Lord left this morning for the herring fishing and it is expected a large catch will be made. Several other boats are engaged in the herring fisheries but all for bait purposes. No herring are cured at this port.

Yesterday Capt. Horvick was giving away herring to all who came for them.

MINERS' STRIKE IN SOUTH AFRICA SEEMS NOW TO BE WEAKENING

LONDON, Feb. 6.—The solidarity of the striking miners in South Africa appears to have broken as a result of the action of the moderates in repudiating their leaders and asking the United South African Premier to receive a deputation to consider the appointment of an arbitration board. Premier Smuts has consented. Afterwards a mob imprisoned the members of the moderate committee in their office until they promised that they would not visit the premier.

The strike situation appears to be working to a crisis, according to Johannesburg despatches to the Central News. It is said that amidst wild cheering a huge meeting of mine strikers yesterday passed a resolution requesting the members of parliament now in Pretoria to proclaim a provisional government and declare a republic.

VANCOUVER, Feb. 6.—The Provincial Government offer \$1,000 reward for the capture of Edward Clegg, who is alleged to have murdered his wife here Tuesday and wounded his young son and his wife's aged uncle.

CONFERENCE ADJOURNS.

WASHINGTON, Feb. 6.—The arms conference adjourned today just before noon.

HIS MONKEYLIKE ACTIONS ATTRACT SCIENCE.

This ten-year-old youth resembles an ape in action and in instinct. He was born of human parents on the island of Hawaii. The unfortunate boy has the mannerisms and methods of a monkey. When not holding some one else's hand he hops forward with both feet much like a frog. He does not like to stand, but flops downward and rests upon his hands and knees, sleeping this way. If not watched he tears off his clothes. His method of eating is neither human nor apelike, for he has a habit of placing upon the floor to which he lowers his mouth and eats. United States Army officials stationed on the island are now observing him and making notes. The picture shows a side view of the ten-year-old boy whose case is attracting nationwide attention.

NEW POPE IS FROM MILAN

Cardinal Achilla Ratti to
Take Name of Pius XI.

ROME, Feb. 6.—Cardinal Achilla Ratti, Archbishop of Milan was this morning proclaimed Pope in succession to Benedict. He has taken the name of Pius XI.

The new Pope was not among those expected to be chosen.

LONDON, Feb. 6.—Cardinal Ratti when elected received 38 votes in the conclave of the sacred college, says a despatch from Rome.

Manson Gets Support From All Parties in the District; Will Represent Omineca

SMITHERS, Feb. 6.—Hon. A. M. Manson held a meeting here on Saturday night with Rev. James Evans presiding. There were about 125 people present, and on being asked if it was their desire Mr. Manson should go to represent them at Ottawa instead of remaining to fight the by-election they were unanimously in favor of his going.

Mr. Manson addressed them and explained the situation. He told them why he had accepted office and that it was an opportunity for better service. He also mentioned the futility of Mr. Bowser trying to run a candidate there in opposition to him.

FUNERAL OF LATE PATRICK CAREY WAS HELD ON SUNDAY

The funeral of the late Patrick Carey took place from the Catholic Church on Sunday morning. Rev. Father McGrath officiating. There was a large attendance of friends of the deceased to pay their last respects and the casket was covered with many floral offerings.

BRITISH TOY MAKERS HIT

German Trade Puts Many Factories
Out of Business in
Britain.

LONDON, Feb. 6.—A serious complaint is being made to the effect that post-war German competition is pulling out of of business British toy manufacturers. There were 300 plants making toys in Britain in 1919 and 82 closed down and many others are operating on a limited scale. The number of employees has been reduced from 45,000 to 5,000 and an effort is being made by the manufacturers to secure the imposition of an extra duty of 33½ per cent ad valorem.

WILL DISCUSS UNEMPLOYMENT

Premier Oliver to Take Matter
Up with Ottawa Government.

VICTORIA, Feb. 6.—The whole problem of unemployment in British Columbia will be taken up with the Federal Government, Premier Oliver informed a delegation from Vancouver, Victoria and the lower mainland municipalities Saturday. They informed him that unemployment had reached its most acute stage.

The premier intimated that he would leave for Ottawa early this week.

STORK TO OTTAWA

Local Member of Parliament Left
for Capital This Morning—
To Visit Vanderhoof.

Fred Stork, M.P., left on this morning's train for Ottawa where he will take up immediately matters in connection with the Yukon Telegraph service. En route east he will stop at Vanderhoof to confer with the Board of Trade at that point. He will not be back until after the session of the House of Commons which opens early in March.

PALMER QUILTS LIQUOR STORE

P. I. Palmer, who has been liquor vendor here since the local store was first established, has resigned his position, the resignation to be effective as soon as he can be relieved. Mr. Palmer, it is understood, is going to a better position. The appointment of a successor, which will be made at Victoria, will probably be announced in the near future.

DAILY EDITION Monday, February 6, 1922.

**More Daylight
in the Evenings.**

The Daily News has been asked to again draw attention to the desirability of falling in line with Vancouver and other cities by adopting daylight saving. An extra hour of daylight in the evening is worth a great deal. On the former occasions when it came into force in Prince Rupert many of the younger people went to the Salt Lake to bathe every evening. Last year it was not convenient to do that because there was so little time. The black flies get busy before dusk and it becomes rather cool. This is only one of many reasons why it is desirable to have daylight saving. Most people like to go on the water in the evening, and the extra hour is much appreciated. Games are played in the evenings and an hour of daylight is worth a lot in a baseball or football match.

At this time of year we are all more or less tied in. The days are short and we do not get as much sunshine as we should like. In the summer we can make up for it by putting the clocks forward an hour and thus giving an hour extra of sunshine in the evenings; in other words we can adopt daylight saving.

**City Manager
Is Under Trial.**

Cleveland has adopted the plan of appointing a city manager to have charge of all its business, the mayor and council to be a legislative rather than an administrative body.

Under the new plan the mayor becomes merely the titular and ceremonial head of the city, elected not by the people but by the city council. The business chief of the city will be the city manager, also chosen by the council, in the words of the charter amendment, "solely on the basis of his executive and administrative qualifications." When appointed he need not be a resident of the city or state. And to guard further against appointment for political considerations, the charter provides that no member of the city council can be chosen as manager. The manager is appointed for no definite term, and is removable at the pleasure of the council. He thus becomes their administrative servant, charged with the non-political management of the city's business and with power commensurate to his responsibility.

**Need of Change
Clearly Apparent.**

Agitation for city manager government in Cleveland has been under way for several years. The city had been in a civic slump, and the administration at city hall had been progressively growing worse. The present mayor was up for re-election and was opposed by candidates of other parties and factions. The degrading character of the campaign disgusted a great many voters and convinced them that drastic means were necessary to restore decent government to Cleveland. The election on the city manager plan afforded the welcome relief by presenting a chance to reform the whole situation. Cleveland's civic spirit again asserted itself as in the days of Tom Johnson, and she staged a civic comeback which should give political rings in other cities cause for anxiety.

**Ideal System of
Conducting Business.**

Cleveland has substituted the new but wonderfully simple ideal of a city whose business details are managed by full time, competent men, trained in the specialties and details of a big city's business. "They intend to avail themselves of men who make public service a profession and not an opportunity for political manoeuvring and gain," says a writer in telling of the change. "They will restrict the politically elected officials to their proper functions, namely, the determination of policy and general oversight over the administration. No longer will they undertake the impossible task of selecting by popular vote executive talent trained for the specialized conduct of the details of a city's business. We have long since ceased to select school superintendents by popular vote, and yet our school system is democratic. Cleveland means to apply identical principles to the whole range of her public affairs."

Cleveland is much the largest city which has adopted manager government. Akron is the next largest, followed by Dayton, Grand Rapids and Nashville. Approximately 260 cities and towns throughout the United States have city managers. Only one city having the thoroughgoing system by charter law has given it up.

**The Man in the Moon
SAYS:—**

MONEY sometimes talks but the conversation is not very intellectual.

THERE is said to be a society of men whose motto is, "Lips that have puffed a cigarette shall never touch mine." And yet ten to one they will all break their vows.

MARY has a failed calf. And when the people spy it it gives them all a hearty laugh. So Mary's on a diet.

ECONOMY is one of the things we all preach but only the wise practice.

SOMEONE wants to know why the Man in the Moon is always talking about the girls. In answer I would remark that I do just as my neighbors do.

THE ordinary man may think a girl an angel until she turns him down cold. Then he discovers that he never really liked her.

SOME girls are not half as pretty as the clothes they wear.

SOME clothes are not one hundredth part as pretty as the girl they don't cover.

THERE are a great many grievous sins in this world, but being found out is the worst of all, judging by results.

POLISH is all right but not on the nose.

**Ten Years Ago
in Prince Rupert**

February, 6, 1912.
 The city council last night agreed to grant a site for an armory and drill hall to Earl Grey's Rifles. There was a deputation making a request to this effect at the council meeting. The members were Fred Stork, Captain Partington, J. H. Hilditch and George W. Tife. It is understood that the Department of Militia and Defence plans the spending of \$75,000 for this purpose in the city.

The hospital board has asked for a municipal grant of \$10,000 to assist in the building of the new wing. The matter has been deferred for the time being.

The Prince Rupert Club elected the following officers last night: President, A. J. Morris; vice president, J. H. McMullin; secretary-treasurer, H. P. Wilson; Directors, Frank Mobley, F. S. Long, A. E. McMaster, D. A. McKinnon, A. A. Broderick, G. R. Naden and A. Carss.

**FISHERMAN ON
OMANEY LOST**

Louis Jacobsen Left Boat in Dory Near Yakutat But Upset.

Louis Jacobsen, fisherman on the halibut Omaney, Capt. John Johnson, was lost on the afternoon of Saturday, January 14, and no trace of him has been found since, says the Ketchikan Chronicle of recent date. The Omaney arrived from the sea fisheries this morning bringing the news of the incident.

Jacobsen left the Omaney, which was anchored about two and one-half miles from Yakutat in Yakutat Bay, in a dory at 2 o'clock in the afternoon, bound for a point about two miles from the schooner, intending to hunt for several hours. At 8 o'clock in the evening he had not returned and fearing for his safety the crew hoisted anchor and set out to search for the man. About half an hour later they found the dory bottom side up floating a little way from the shore, and beached it, finding the oars, gun, and other articles that had been in the boat missing.

Never Reached Shore. Enlisting the services of crews of other boats nearby, the shore was searched for miles on either side of the point for which Jacobsen was bound. Members of the crew are certain he never reached the shore because there was snow several inches deep right down to the beach, and no footprints other than those made by the searchers were found during the two days spent hunting for the man. Besides, the dory showed no scratches or other evidences of having been on the beach.

Near the point where Jacobsen was to have begun hunting there is a lagoon at the entrance of which the tide ebbs and flows at the rate of twenty-five miles an hour, according to those familiar with the place. A pronounced eddy results, and it is thought that the dory was upset by this eddy. No other reason can be given by the crew for his disappearance, as Jacobsen was an experienced fisherman and thoroughly familiar with dories.

He is survived by a brother, H. Jacobsen, of the halibut Flora Margaret.

WILL BUILD TRAILS

Fish Creek and Neighboring Districts Near Hyder to Be Opened.

KETCHIKAN, Feb. 6.—As soon as the snow has melted sufficiently, probably some time in June, the Forest Service will begin work on four miles of pack trail and twelve miles of foot trail in the Texas Creek district near Hyder. This trail will be of value to prospectors wishing to reach the country between the Chikamin and Texas creek which is impossible to reach from the Chichamin on account of the glacier in the divide between the headwaters of the two rivers.

Two to four miles of additional pack trail will be joined to the trail put in last year in the Fish Creek district, said Mr. Cline. Fish Creek is probably the most promising of the prospects of the American side, according to ore taken out, which gives indications of being as rich as that mined at the Premier on the other side of the line.

Unuk Valley. A full reconnaissance of the Unuk River Valley will be made by the Forest Service during the year from the standpoint of finding a route into the interior country and to look into the timber resource of the region. "A party will be sent clear to the headwaters of the river," Mr. Cline said, "and will remain in until all the required data is obtained." A trail into that region would open it up to prospectors and miners who would use Ketchikan as an outfitting centre, because of its being the largest town near the Unuk.

Work on a trail along the river will also start during the summer.

**"HARRIET AND THE
PIPER' AT WESTHOLME**

Curious Story of Mixed Loves Is Shown Tonight in Picture.

It is a curious story of mixed loves and breaking of conventions that is shown tonight at the Westholme Theatre.

Small town life palled on Harriet Field. She longed for opportunity to visit the great bustling, bustling metropolis of New York and finally came. She was attracted to the famous Bohemian quarter, Greenwich Village, and soon became an ardent devotee of free and ultramodern thought and the other subjects which the villagers mother in an attempt to be "different." She receives the amorous advances of Royal Blondin, a handsome young man leading a life of cultivated indolence at the expense of a rich aunt. He easily convinced her that convention was a useless code followed blindly by the unenlightened and, agreeing to his proposal of a free love marriage, went through the empty ceremony with him. Blondin's former contract wife, known as the "Tam-O-Shanter Girl," witnessed the "wedding"—her first knowledge of the fact that her love affair with Blondin was ended.

Harriet, arriving at Blondin's studio home, finds a package from her sister containing a letter with the details of her marriage and explaining that the lilacs enclosed are from the bower in which the ceremony was held. The sweet, refreshing lilacs, symbolical of the pure, good things in life compared with the wild and free lotus blossoms which Blondin had placed in her hair moves Harriet to a realization of her error. Blondin, entering the room at this time and finding her in tears, is at a loss to know how to pacify her. This sweet and innocent girl has been disillusioned. His advances only terrify her and finally she faints. Just as Blondin finishes putting her to bed his aunt arrives on the scene with a policeman and the Tam-O-Shanter Girl.

All sorts of queer things happen after that.

FIFTEEN YEARS MANSLAUGHTER

Judge at Edmonton Spoke Scathingly of Bootlegging and Moonshine.

EDMONTON, Feb. 6.—Fifteen years imprisonment was the sentence imposed on George McKinney in the supreme criminal court Thursday when he was found guilty by the jury on the charge of manslaughter, the charge of murder preferred against him having been reduced to the lesser offence by the jurors after a deliberation of half an hour. The jury made no recommendation for leniency though they had been advised by Mr. Justice Simmons in summing up the evidence that they might make any suggestions they wished.

The accused displayed no feeling whatsoever when the jury brought in their verdict against him and maintained the same expressionless attitude when Mr. Justice Simmons imposed the sentence upon him.

Indictment of Liquor Traffic.

That the whole circumstances connected with the death of Pat Doyle and the trial of the accused for his murder was a terrible indictment against the illicit traffic in liquor as carried on by some people at the present time was the opinion expressed by his lordship in passing sentence on the prisoner. There was a great deal he said to suggest that there had been a drunken orgy which had been indulged in by both the deceased and the accused but that in itself from the point of view of law or morality was not sufficient justification for the accused to take the life of another man. Bootlegging and moonshine liquor came in for the strong condemnation of his lordship as having a great deal to do with the exaggeration of the circumstances surrounding the case but this, he considered, was no justification for the indignity the accused perpetrated upon the deceased in burying him in a manure pile and of practicing such inhumanity in the presence of his wife or family or at least of having done it with their knowledge.

BOYLE IS LEADER

EDMONTON, Feb. 6.—Hon. John R. Boyle, attorney-general of the province in the Stewart government, was elected leader of the Liberal opposition in the new legislature at a conference of opposition members. The conference was extremely harmonious with only two members absent and the decision was made on the first ballot. Mr. Boyle being successful over Hon. C. R. Mitchell, former provincial treasurer, who was the other nominee. Mr. Mitchell at once proposed that the election be made unanimous and this was done enthusiastically.

NEW ICE PLANT MAY BE BUILT

Plans for Addition at Cold Storage Have Gone East.

The Canadian Fish and Cold Storage Company, operating the largest fish cold storage plant on the coast, have completed plans for an additional ice tank capable of making 30 tons of ice a day. The present plant makes 75 tons a day which is used by the company for its own plant and is also sold to the fisherman and the other fish dealers in the city.

The proposed new plant, plans of which are now before the directors in the east, will cost \$25,000. It is badly needed here for every summer, during the busy season there is an ice shortage at this port.

CONNECTED WITH INDUSTRIAL SCHOOL

The Canadian National Railways have connected up their telegraph service at Fraser Lake with the Indian industrial school so that messages from outside can be delivered to that institution.

R. B. Matier, Liquor Control Board auditor, is in the city having arrived last night from Prince George. Before returning to Victoria Mr. Matier will also visit Stewart and Anyox.

Sport Chat

As a result of their had defeat at the hands of the St. Andrew's Society in the Trail Shield billiard tournament last week, the Sons of England are now pretty firmly established in the standing and the distance between them and the Veterans, the next lowest team, seems a little too long to be overcome at this late stage in the schedule. As far as the leadership in the league is concerned, the Wanderers, 26 points behind the Trail, still have a chance but it is a very slim one and their going into the first position before the series closes is very unlikely.

The St. Andrew's last week worked up a little in the standing but are still a long way behind the Wanderers for second place. On the whole, the teams are now so well spread out that there is little possibility of ranks being changed at all. Tonight the Trail and the Great War Veterans are scheduled to meet. The latter team has been playing in much better form just lately than at the first of the season and it is quite possible that they may reduce the standing of the league leaders a few points.

There are six more tournaments to be played before the grand final on February 27 when the Trail and Wanderers, leaders and runners-up respectively, meet.

WINTER ECZEMA 'CHAPS' & COLD-SORES

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure boric Zam-Buk.

Zam-Buk instantly soothes the smarting irritation, it kills disease germs, and quickly heals all soreness, roughness and chafing. It is neglected, often develops into eczema or other chronic skin disease.

Use Zam-Buk Medicinal Soap and enjoy real skin health.

TO SHIELD YOURSELF AGAINST SKIN DISEASE APPLY Zam-Buk TO THE FIRST ITCHY SPOT OR ERUPTION

This was an obstinate case.

Mrs. Henry Amey, 42, Lyall Avenue, Toronto, says: "My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tin of Zam-Buk Medicinal Soap. In a few days these brought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

THE SAMPLE BOXES of this great skin remedy! Write for them (for return postage), give name and address of paper, and return Zam-Buk Co., Dept. 8, Toronto. 50c. box, all postpaid.

DINNER TO DISCUSS AFFAIRS OF ALASKA

President to Entertain Governor Scott Bone and Others Interested at Washington.

WASHINGTON, Feb. 6.—Alaska, her future and the legislative and administrative acts that are necessary to insure her prosperity, will be the subjects of discussion at an Alaska dinner to be given at the White House in a few days by President Harding. Following an interview, Gov. Scott C. Bone of Alaska had with the President yesterday, the president notified the governor that he had planned this dinner at the earliest possible moment. There will be present, in addition to Governor Bone, Secretary Fall of the department of the interior, Secretary Wallace of the department of agriculture, and possibly several senators and representatives who are particularly interested in Alaska problems.

Administration plans for a reorganization of the agencies which have to do with the administration of Alaska, as well as plans for reorganizing the whole government, are being delayed because of the opposition of Secretary Wallace's department to the proposed surrender of its existing jurisdiction over national forests in Alaska to Secretary Fall's department.

This proposed transfer has been suggested by the joint congressional commission on the reorganization of the government and also in bills now before Congress. Until the fight being made by the department of agriculture and its friends is settled, no great progress can be made. The White House dinner is to be staged in an effort to end the dispute.

In his conversation yesterday with Governor Bone, the President again expressed his profound interest in Alaska and his questions to the governor indicated his familiarity with the situation.

Governor Bone today said that his canvass of the Senate and House shows that the situation is favorable to the enactment of wholesome legislation for the territory in the near future.

OCEAN FALLS GRAND BALL

Mechanics Make Pronounced Success of Second Annual Event at Paper Town.

AND EVERYONE ATTENDED

Dancing Continued Until Well Past Five O'Clock in the Morning.

OCEAN FALLS, Feb. 6.—Barely three weeks ago the Mechanics' Annual Ball committee was formed. Many meetings followed its inception to discuss the business of putting on the event of the season. Good ideas were listened to, but only those par excellence accepted by the committee. A program was finally adopted after much deliberation and work commenced. Day and night it continued—electrician, machinist, millwright, tinsmith, carpenter and plumber, fifty of them—all united in the effort to make the ball a smashing success.

F. G. Sherbourne and his staff of electricians taking charge of the decorative and electrical effects showed a masterly understanding of this art. The entire ceiling of the hall, converted into a green and white crepe paper trellis work intertwined with evergreens and white paper chrysanthemums, had every appearance of a hanging garden, while the red, green and white lights completed a blending of colors that could not have been improved upon. The wall panelings for the entire length and on each side of the hall were filled with large vari-colored paintings representing the aurora borealis, and with the constantly changing colored lights the effect was very realistic. Large shields also adorned the walls, each bearing a symbol done in silver paint to represent one branch of the craft.

The stage was transformed into an outdoor scene representing snow-covered Mount Baldy with the Link Lake Falls in the foreground. Much praise and thanks are due Dr. V. H. R. Biscoe, who is responsible for the perfect scenic effect. This painting took Dr. Biscoe over eighty hours to complete and certainly proves his exceptional talent as an artist. The work covered a space of 13 by 11 feet, and with the natural fir trees placed in the foreground the effect was startlingly realistic.

On the evening of February 3, about 9:30 o'clock, the crowds commenced pouring into the hall, many of whom were visitors from Bella Bella, Bella Coola, Nanaimo and other districts. Complimentary tickets were also sent to Swanson Bay, Rivers Inlet, Prince Rupert, Vancouver, Portland, Camas and San Francisco.

Orchestra Tore Loose.

The excellent six-piece orchestra tore loose and over five hundred dancers were right after them. Highland schottisches and other good old dances gladdened the hearts of the older people, while the younger set fox-trotted and one-stepped the floor boards loose.

Then came the big feed. Attention Barney Oldfield, speed expert!

EPRECATES OPPOSITION

Independent Political Association Passes Resolution Favoring Attorney-general.

That this association deplores any attempt to oppose the election of Hon. Alex. Manson, attorney-general, in the Omnica contest at the present time, on the grounds that such opposition is inimical to the best interests of British Columbia, was the resolution proposed and carried at a meeting of the Independent Political Association on Monday last. It was pointed out at the meeting that such opposition is bound to result to the detriment of the north, and that the time has passed when the south should be allowed to dictate political policy in the north. That both was tried of being made political football of either Conservative or Liberal, and that there was no doubt that in the Alex. Manson the north had a man who by his actions had done for the north what he has done for the south, and all the time.

MRS. RITCHIE WED SATURDAY EVENING

The marriage was solemnized at the Mause at 7:30 o'clock Saturday evening of Mrs. Jemima Ritchie and Malcolm Lamb, Rev. Dr. H. R. officiating. Miss Alexina attended the bride and groom. Miss Violet Duffie, sister of the bride, was the only other person present.

Mrs. Lamb arrived in the city two years ago from Scotland. Mr. Lamb is a well known player and is particularly well known in athletic circles. The bride wishes to be extended to both bride and groom. They will take their residence on Ninth Avenue at Conrad Street.

FERDINAND THE FOX CAN NOT RETURN TO SAYS STAMBOULISKY

SOFIA, Feb. 6.—There is no chance of former King Ferdinand's return to Bulgaria, declares Alexander Stamboulisky, Bulgaria's vigorous statesman, premier and reformer.

"If ever Ferdinand should dare put his foot on Bulgarian soil, the Premier told the correspondent with a tremendous thump on his desk, 'the people would rise against him as a traitor and they hang him or thrust him into jail.'"

"No, you may tell the American people not to listen to these frequent reports of the return of Ferdinand. We have done complete penance for our sins and part of that penance has

REFUSE TO SING INTERNATIONALE

Never Heard in Streets, and Threats for People Tired of It.

MOSCOW, Feb. 6.—The "Internationale" is fast becoming a lost song in Russia. Nobody wants to sing it. It is never heard in the streets of Moscow, or in the towns of the provinces. When it is played by order in public gatherings, the crowds and audiences refuse to join in the singing.

This was illustrated at the Grand Opera, recently, when Leon Trotsky, the war minister, appeared with some friends in a box. The orchestra struck up the tune of the revolution and but a very few in the audience rose, out of respect.

Lately Isadora Duncan, after a public performance of her dances, asked the audience to join her in singing the "Internationale." This seemed a signal for the audience to leave. Everybody began going out, as the orchestra played and Miss Duncan was left to sing alone.

One of the reasons for the lack of enthusiasm for the song is that it has been sung too much. People are tired of it; here, just as British soldiers got tired of "Tipperary."

Children's Coughs Quickly Relieved.

It is hard for to keep the children from taking cold; they will run out of doors not properly wrapped, or have too much clothing on and get overheated and cool off too suddenly, they get their feet wet, kick off the clothes at night; the mother cannot watch them all the time, so what is she going to do?

Mothers should never neglect the children's coughs or colds, but on the first sign should procure a bottle of

DR. WOOD'S NORWAY PINE SYRUP

It is pleasant and nice to take, and relieves the cough or cold in a very short time and thus prevents bronchitis, pneumonia, or perhaps consumption getting a foothold on their systems.

Mrs. E. Smith, 288 Victoria Avenue, North, Hamilton, Ont., writes: "I have three children who have had very bad colds, due to change of climate. I have tried different remedies, but I seem to get the best results from Dr. Wood's Norway Pine Syrup. I have no difficulty in giving it to them as they like it. I always have at least one bottle in the house."

Price, 35c and 60c a bottle at all dealers. Put up only by The T. Millburn Co., Limited, Toronto, Ont.

Starring tonight at the Westholme Theatre.

Tables and chairs moved with lightning-like rapidity and precision. Under ten minutes over five hundred people were seated. In fifteen minutes the dance hall floor had been converted into a huge banquet room and everyone satisfying the inner man. Even here the color scheme dominated, the mechanics' colors of green and white were evidenced in the cakes, jellies and salads, and mechanics the boys certainly made snappy waiters.

Immediately after supper Photographers F. K. Bennett and Samuel Johnson requested the crowd to stand for a flashlight photo. A dozen flash-pans were placed in different positions around the hall which were instantaneously flashed by electricity. Messrs. Bennett and Johnson used the second best type of lense made in the United Kingdom for taking this picture.

A raffle was also held. Dr. John Christie being the lucky man for the gentleman's prize and Mrs. Archie McLean the fortunate lady.

Dancing continued until past 5 a.m., when the crowd reluctantly broke up. Three cheers and a tiger were given the mechanics and everyone voted the affair a complete and unprecedented triumph.

Those Who Helped.

Many thanks are due F. D. Simons, the floor manager. His was no easy job, but Fred peeled off his coat and got in with his good-natured smile and jokes, thereby instilling more pep into the crowd than he could have done with a shotgun, and at the same time giving them all exactly what they wanted.

Chief Jack Raymond showed his usual ability on the ticket end of it and boosted the sales away out of sight. They didn't see much of Jack on the floor, but he surely gave a hefty shove to put the premier hop on the map, and much appreciation and thanks should be his. It. Denton's supervision of the cats leads one to the suspicion that Bob is an epicurean. E. J. Spears tenderly watched the coffee and put it over big. A. C. Knowles' cartooning and advertising on the outside scored a bulls-eye every time he threw his pen. Bud Fisher's billet pays well; bow about A. C.?

F. J. Cameron as purchasing agent, J. Sperm as chairman; C. James, cloakroom; J. Browning, door; E. Musgrave, music; F. Chrich, reception, and many others are to be thanked for the way they all conducted their departments, sparing no labor to make the event such a big success.

Special mention should be made of the Ocean Falls ladies

who so ably assisted by making the paper floral decorations, cakes, etc. The community has much to thank them for.

Taken all in all, it is extremely doubtful whether brothers in some of the bigger plots along this coast will ever be able to equal, let alone surpass, the second annual Mechanics' Ball.

The Ocean Falls poet was inspired by the great occasion and burst forth as follows:

Sound of Revelry by Night.

Hark, what meant the stir and bustle,
The stir of feet and silken rustle?
Here was no hint of coming battle,
But laughter gay and ladies' tattle.
All tending in the same direction,
As if of birth was some infection.

From mountainside and rock-zirt shore,
From every home, came more and more,

Bella Coola sent its rarest,
And Bella Bella of its fairest;
Stout Rupert to Vancouver proud
Sent of its best to grace the crowd.

And now'twere best to give the reason
This crown and glory of the season;
This blending of nature and young
Had been for weeks on every tongue—

The merry, merriest night of all,
The second gay Mechanics' Ball.

"RINSIN"

"Lan' sakes, nothin' to that. I jes' jounces 'em up and down a couple of times, that's my method"—a colored washer-woman told us recently. Power laundry procedure is somewhat different to the above method.

We propose to set down from time to time, the fourteen different formulas recommended by the Mellon Institute, and the material used. Just think of it! Your washing classified into fourteen different lots, each lot receiving different treatment. The materials recommended: Neutral soap and soda in proper proportions. Javelle water, the same solution used so extensively during the war for the treatment of wounds. Acetic acid or other harmless sour, bluing, and last but not least—oceans of pure soft water.

Our "rinsin," unlike mammy's, requires over three hundred gallons for each washing.

This service is at your disposal.

SPOOK STORY IS SPREADING

Many People Try to Account for Curious Manifestation in Nova Scotia.

HALIFAX, N. S., Feb. 6.—Nothing having been heard of the sea serpent since it was reported frozen in the St. Lawrence River below Montreal, Nova Scotia has been vastly interested in a tale of the performances of alleged spooks coming from Caledonia Mills in Antigonish County, N. S. There in a little isolated valley lived a farmer named Alexander McDonald and his family. But, recently according to stories he has told his neighbors, Robin Goodfellow or some other spirits developed a habit of riding his horses by night, returning them to the stable before dawn in a lather, while other spooks turned his cattle out of the barns and drove them over the landscape, and occasionally braided the tails of his heifers. At the same time mysterious fire imps began to infest his house, and little fires appeared in all sorts of unexpected places. According to reports, the family was kept busy putting out fires, which for some reason appear to have done no damage. But, so the story goes the mysterious manifestations finally got on the nerves of Mr. McDonald and he boarded up the house and moved his family away.

Talk of Countryside.

The Antigonish Gasket, in its last issue said: "The mysterious fires at the home of Alex. McDonald, Caledonia Mills have become the talk of the countryside. Trustworthy witnesses state that the fires have broken out in their presence in a room so small that any human agency would be detected." A representative of the Halifax Herald interviewed several neighbors who according to their testimony, saw little flames flare out from the top of a fireless stove, from walls and ceilings, and even the window blinds. Phenomenon is that after the appearance of the magic flames wads of absorbent cotton or calico were usually found somewhere in the vicinity.

The fact that McDonald left his home of many years in the middle of a very cold winter has apparently gained credence and the Halifax Herald has received hundreds of letters offering explanations of the alleged phenomena as weird as the stories from Caledonia Mills themselves.

Witchcraft.

One lady writes: "It is nothing more or less than witchcraft. The animals in the barn prove this to be the case. I thought this thing was done away, but I see that it is reviving."

Another correspondent signing N. E. Morse, Halifax, writes: "My idea of the mysterious fires at Caledonia Mills is that a disturbed spirit is causing them. This spirit when in mortal body may have during its life suffered indignities by being placed in such a dependent and humble position that it could not resent them openly but could brood over them daily. Being in such a position it is natural to assume that cheap cotton garments

Liver Pains

Pains under the shoulder blades tell of liver derangements. Other indications are sallow complexion, indigestion, constipation, biliousness and bilious headaches.

The quickest way to arouse the liver to healthful action is by use of Dr. Chase's Kidney-Liver Pills. Continued use will insure lasting relief, correct the whole digestive system and purify the blood.

Mrs. Wm. Barten, Hanover, Ont., writes: "For some time I suffered from liver trouble. There was a hard, bearing-down feeling in my back which I could not get rid of. Some one advised me to try Dr. Chase's Kidney-Liver Pills. I did so, and found them excellent. The dragging feeling in my back disappeared and I felt much benefited generally. I have great confidence in Dr. Chase's Kidney-Liver Pills, and always keep them on hand for general use."

BULGARIA HAS DEBT BURDEN

Fails to Pay and Allies Are Asked to Waive Payment for Reasonable Time.

SOFIA, Feb. 6.—Bulgaria is tottering under a burden of debt and indemnities which its financiers say will take several generations to liquidate. Under the peace treaty the smallest of the belligerent nations is required to pay to the Allies 2,225,000,000 francs gold (\$150,000,000).

Converted into Bulgarian francs (levas) as the current rate of exchange this amounts to the staggering total of 67,000,000,000 levans. If to this sum is added the country's external and internal debt of 40,000,000,000 levans, a total of 107,000,000,000 levans is reached. Nominally a Bulgarian levan would be worth about 19 cents.

Nobody knows, even the Bulgars themselves, how this colossal sum can be paid without wrecking the country and exhausting its resources.

Installments Not Paid.

Under the Neully agreement the Bulgarians were to pay their first instalment of the \$150,000,000 indemnity in 1919, but up to the present they have lapsed in three instalments.

Bulgarian government officials say they can make the state solvent and pay all its obligations if the powers will waive the indemnity payments for a reasonable period of time. They insist they can make little progress so long as the reparations commission holds the indemnity demand over their heads like Damocles' sword.

The country's total outstanding paper money amounts to 3,250,000,000 levans, only one-third of which is covered by gold reserve.

An encouraging feature in Bulgaria's otherwise apparently hopeless financial and economic situation is the steady increase in her exports, which for 1921 were in the proportion of 3 to 2 1/2 to her imports.

With the object of stimulating exports and imports the government is planning the establishment of an international bank, composed in part of foreign capital, with branches or representatives throughout the world. An effort will be made to interest American bankers in the institution.

CONSTIPATION BAD HEADACHES FAINT, DIZZY SPELLS

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after, until some serious complication sets in.

A free motion of the bowels daily should be the rule of everyone, then there will be no constipation, sick or bilious spells, dizziness, heartburn, coated tongue, foul breath, sour stomach, floating specks before the eyes, jaundice, water brash, etc.

Keep the bowels properly regulated by the use of

MILBURN'S LAXA-LIVER PILLS and you will enjoy the best of health.

Mrs. Frank Wilsey, R. B. 2, Belmont, Ont., writes: "I have been troubled with constipation for nearly two years. I had bad headaches, faint and dizzy spells, and would blot terribly. I was nearly discouraged for I had tried so many things that gave me no relief. My mother got me a vial of Milburn's Laxa-Liver Pills and told me to give them a fair trial. After I had taken one vial I felt much better and continued their use. Now I have no faint and dizzy spells and am gaining nicely. I would not be without Milburn's Laxa-Liver Pills for the world."

MANY SETTLERS FROM THE UNITED STATES

WINNIPEG, Feb. 3.—With a total cash capital of \$3,786,000, twelve thousand and eighty United States settlers entered western Canada last year. This, according to the report of Thomas Golley, commissioner of immigration, is a decrease of approximately 40 per cent. from 1920. In addition to cash, effects valued at \$982,070 were imported by the new settlers. The decline is attributed largely to the general poor condition of farming, the restrictions of labor conditions and the stringent financial situation.
