Original G. T. P. Policy To Continue REVOLUTIONARY STRIKE IN SOUTH AFRICA ENDS IN BLOODSHED

Very Reassuring Message is Received by Mayor Rochester From Alex. Manson at Ottawa

"We have personally interviewed the Premier and every minister except two and we find them all distinctly sympathetic with our position and desirous of carrying through the Grand Trunk Pacific Railway on original plans," says a very reassuring telegram which was this morning received by Mayor Rochester from Hon. A. M. Manson, head of the Prince Rupert delegation to Ottawa. "The minister of railways may be particularly counted upon to meet our wishes within reason and as speedily as finances permit and, in the meantime, we can safely count on improved service. The minister of railways intimated that, immediately upon the close of the session, he proposes coming to Prince Rupert to investigate the details of the changes. The railway policy will not be announced for some time. "Several ministers have promised to come to Prince Rupert this summer."

CIVIC WAGE REDUCTION DISCUSSED

Figures Submitted at Meeting of Council, with Employees Last Night.

There was a special meeting of the city council last night to further go into the matter of the proposed ten per cent reduction in all civic wages and salaries. Mayor Rochester and all the aldermen were present as well as W. D. Vance, city treasurer, and T. C. Duncan, superintendent of utilities, representing the heads of departments. Besides there was a good sized gathering of employees several of whom spoke. Evidence was laid before the council and after the meeting adjourned to meet again on this subject at the call of the chair.

A list of comparative prices of provisions showing the present cost of living as compared with 1914 and the prices in Vancouver was presented. The list showed, figuring conservatively, that the cost of living in this city now as compared with 1914 had increased by 35 per cent. Costs here at the present time were 26 per cent higher than in Vancouver.

Mr. Vance said that rents in the city had advanced 100 per cent and Harry Birch corroborated this statement.

Not Fairly Compared.

Frank Vickers said that civic employees and railway employees could not be fairly compared. Railway employees had been given greater increases than the most of civic employees and could better stand the cut which had been made in their salaries. They also enjoyed concessions in the way of transportation and bonuses.

T. C. Duncan said that the electrical workers would ask for a meeting with the council before any cut was put into effect. There was at present an agreement between the council and them.

Casey at Length.

George Casey, of the fire department, spoke at length and produced quotations from the Labor Gazette covering costs in 60 Canadian cities on 29 specified articles. This showed an increase of 53 per cent between 1913 and 1915.

Mr. Casey said the firemen would be willing to sacrifice some pay if the two platoon system were adopted but if the present system remained in effect they considered no cut was warranted.

The proposed reduction would practically put the salaries of firemen at \$87 per month and street workers at 37 1/2 an hour graduated to normal conditions.

J. M. Cramer, salesman and field worker of the Washington Egg and Co-operative Poultry Association is in the city. He was formerly a newspaperman of Juneau and is going to Alaska to open up markets for his concern.

STRIKE OVER JURISDICTION

British Engineers Think They Should Say When Overtime Necessary.

LONDON, March 11.—Final attempts to avert a strike of engineers of Great Britain involving a million men failed at the conference last night and the strike was to go into effect at noon today, the engineers announced.

The dispute is chiefly on the point of whether the engineers should decide what constitutes legitimate overtime, which the men wish to keep down to prevent unemployment. The employers do not welcome the interference of the men on this point.

PREMIER TO RESIGN

LONDON, Mar. 11.—According to a message received by Reuters from Greek semi-official sources, the cabinet of Premier Gounaris will resign as the result of an adverse vote yesterday in the chamber of deputies.

BIRTH.

There was born at the General Hospital on March 11 to Mr. and Mrs. James Owens, Sixth Avenue East, a daughter.

GHANDI ARRESTED SAYS REPORT FROM INDIA LAST NIGHT

LONDON, Mar. 11.—The India Office announced last night that Gandhi has been arrested in India. No details are disclosed, but everything is said to be quiet there so far.

POPULAR PURSER GOING NEW YORK

Malcolm Woods of Steamer Prince Rupert Gets Well-earned Promotion.

Malcolm Woods, for several years purser on the Canadian National steamer Prince Rupert, will be making his last trip in that capacity next week, for he is to re-join the marine service of the company to become travelling passenger agent out of New York under C. E. Jenney, general agent at that city. Mr. Woods is very well known here and is very popular with all travellers, who will regret his leaving this coast but will be glad to hear of his promotion.

It is understood that Jack Crawford, purser on the Prince Rupert and that Norman McLean will take Mr. Crawford's post.

Mayor Rochester Urges Ratepayers to Support Bylaw

To the Ratepayers of Prince Rupert: Ladies and Gentlemen,—In December, 1920, the ten-year agreement with the Grand Trunk Pacific Railway for a lump sum of \$15,000 per year in lieu of all taxes, except local improvement, expired and in that year the railway went into the hands of the receiver, namely, the Minister of Railways, who is still in charge of the railway company's affairs, the Grand Trunk Pacific at that time becoming part of the Canadian National System.

In 1921 an amicable arrangement was arrived at between the city and the Canadian National whereby they would pay taxes amounting to approximately \$15,000 based on the 1920 rate, but owing to increase of mill rate the sum of \$55,634.19 taxes was paid by them. In addition to this amount they paid on railway lands alienated by lease \$8,926.15; also \$4,339.49 covering special rates on drydock property, as provided for under By-law No. 324.

Under this bylaw the drydock was exempt from general taxes, but through an error on the part of the city they were billed with full taxes on the drydock property, and paid \$22,500 which amount otherwise they would not have been called upon to pay.

The present agreement provides for the railway company to pay annually \$15,000 in taxes for five years, plus all local improvement taxes, approximately \$5,372 for 1922, plus taxes on lands under lease at present and a large proportion of taxes on lands alienated by sale or lease during the five year period and with the drydock property exempt providing that it is operated continuously otherwise this property becomes liable for full taxes.

Regarding the over-payment of \$22,500 made last year the council now seeks authority from the ratepayers to refund said amount which the council believes the City is morally obliged to do, and the railway company has agreed to accept the sum of \$4,500 annually under this agreement without interest. An appeal against the assessment as ratified by this year's Court of Revision has already been filed by the railway company and will be prosecuted should this bylaw fail to carry, and the tax commissioner of the railway company believes that he can obtain the same results, or better, on the appeal.

In view of this situation and of the fact that this City must necessarily depend on the railway company to a great extent for its future development, the majority of the city council feel that it is in the best interests of the city to ratify this agreement, and therefore, would respectfully urge the ratepayers to give it their whole hearted support. If this bylaw passes, the city council believes it will be able to carry on without having to tax improvements, which would be contrary to the principles of the single tax system that has been in force here since the incorporation of the city.

The above are plain facts as confronting the City at the present time. You should not be influenced by misleading figures and misrepresentations now being published.

Respectfully yours,
H. B. ROCHESTER, Mayor.

PROVINCE MAY COLLECT TAX ON LIQUORS

Court of Appeal Decides Their Favor in Two Attempts to Break Law.

VANGOVER, March 11.—The Government Liquor Act is intra vires of the province and British Columbia therefore has power to collect a tax on liquors imported, according to decisions handed down by the Court of Appeal yesterday.

In the first case a man named Ferguson appealed from a conviction of selling liquor on the ground that the act had not been proclaimed by the Lieutenant Governor personally and therefore was not in effect. He lost. In the second case a man named Little appealed against the province assessing him on liquor bought from others than the Government vendors. This decision means that British Columbia can tax liquor brought from outside the province.

PULP ORDER FROM BRITAIN

Sixty Million Dollars Worth to be Delivered Covering Period of Ten Years.

MONTREAL, March 11.—The Saguenay Pulp and Paper Co. has closed a contract with a group of newsprint mills in England for delivery from the Chicomini plant of 150,000 tons of sulphite pulp and a million tons of ground wood pulp spread over ten years. The value of the contract is said to be \$60,000,000. Mills owned by Lord Northcliffe and Lord Burnham are among those receiving the pulp.

TEN PER CENT. DROP IN CIVIC SALARIES VICTORIA EXPECTED

VICTORIA, March 11.—A ten per cent cut in civic wages is expected to take place here. Wages of outside employees will drop from \$4.40 a day to \$4. Firemen and policemen will be reduced and all other services except possibly the teachers. The Teachers' Federation is opposing any reduction in their pay.

LEAGUE ENDANGERED. LONDON, Mar. 11.—The Navy League, founded in 1915, is in danger of dissolution owing to internal dissensions.

DAILY MAIL FLAYS GENOA CONFERENCE

Says Refusal of U. S. to Participate Robs It of Its Importance.

LONDON, March 11.—The Daily Mail says the refusal of the United States to participate in the Genoa conference so greatly deprives the conference of its importance that some doubt is felt in political circles whether it will be held at all and that its abandonment may be a question of days. The paper says that by America's absence the conference loses any utility may ever have been conceived possible from it and denounces it as a costly gradist scheme for humoring Germans and Bolsheviks.

OVERHAUL ON TUG LORNE IS FINISHED

Came From Dry Dock to Ocean Dock Yesterday—Swanson Bay Ferry Also Done.

The Canadian National tug Lorne moved from the dry dock to the ocean dock yesterday afternoon after having completed an overhaul which included painting and repairing of woodwork. It has not been announced what service the Lorne is going into this season, although Capt. Nicholson announced, when here recently, that negotiations were under way with a view to keeping the vessel busy.

The Swanson Bay car ferry also came off the dock today after having undergone a complete overhaul. The second barge is also finished repairing.

LIEUTENANT BRUCE MURDERED BELFAST

Constable Cullen Died as Result of Gunshot Wounds Yesterday.

BELFAST, March 11.—Lieut. Bruce of the Seaforth Highlanders was murdered last night by a party which was afterwards pursued by the military without success. Constable Cullen died from a gunshot wound sustained yesterday.

The official statement shows that 22 Catholics and 17 Protestants were killed in Belfast last month.

SHIRT TORCH SAVED LIVES

Schooner Eileen Lake Foundered and Cook Lost Life—Others Went to Belgium.

ST. JOHN, N. B., March 11.—The two hundred ton schooner Eileen Lake foundered off the Newfoundland coast on January 19 in a two day terrific storm during which time the cook died of exposure.

After seeing two ships pass them, the mate took a pail of kerosine and with his shirt made a torch, which attracted help from the Belgian steamer Persier which rescued the balance of the crew and took them to Antwerp. The men arrived here on the Corsican today. The commander of the Eileen Lake was Captain Shorsworthy.

The Corsican also brought the crew of the wrecked schooner Optimist.

MUCH INTEREST IN NELSON ELECTION

Kenneth Campbell and Mayor C. F. McHardy to Contest Seat—Nomination March 18.

VICTORIA, March 11.—Much interest is being taken here in the by-election in the Nelson riding where a successor to Dr. Rose, Conservative, is to be elected. The Liberal nominee is Kenneth Campbell and the Conservative, Mayor C. F. McHardy. Nomination day is set for March 18. Samuel Fawcett is returning officer.

LONDON, Mar. 11.—Right Hon. David Lloyd George and family left for Criccieth, Wales, for a long holiday. The successor to E. S. Montagu in the India office is not expected to be appointed until Monday.

Strike in South Africa Proves to be Revolutionary

JOHANNESBURG, Mar. 11.—Insurrection prevails throughout the Rand except in the city of Johannesburg. Martial law was declared and fighting became common between strikers and police. Parties of burghers are taking a hand in the situation, which grows out of the miners' strike.

The mine manager and two special constables were taken out on the veldt and shot. Seven special constables protecting a mine were killed.

In the fighting at Newlands strikers disarmed and captured twenty-seven policemen. One was killed and seventeen wounded in fighting at Fordsburg. Bombs were thrown in some places, a train derailed at another, but without loss of life.

Strikers' headquarters have been seized and under martial law the Government of South Africa proposes to take extreme measures to suppress the revolt which is on the part of white men particularly. No natives are taking part.

JOHANNESBURG, Mar. 10.—Martial law was proclaimed here today. Fighting between bands of strikers and the police has broken out in the entire extreme-eastern section of the Rand.

LONDON, Mar. 11.—The general strike called by the leaders of the miners at Johannesburg is really a revolutionary movement, according to a Capetown correspondent of the Daily Telegraph. He says the strike issue is overshadowed by the threat against the state.

JOHANNESBURG, Mar. 11.—Casualties in the fighting between striking miners and the police reached thirty-two killed and fifty-seven wounded up to 9 o'clock Friday night, when firing was still continuing. Of the killed nineteen were policemen. By 11 o'clock last night all the streets were deserted.

8000 WILL SEE HOCKEY BIG MATCH

Six Thousand Regina People Turn Out to Welcome Home Victorious Team.

REGINA, March 11.—Six thousand enthusiastic hockey fans greeted the victorious Capitals on their arrival from Vancouver this morning for the final elimination contest for the Stanley Cup games in the east next week. The players are resting up for tonight's game.

The weather is colder and the ice will be fast when Vancouver and the Capitals line up. It is expected that 8000 will witness the game.

FISHERMAN DIED

The death occurred last night at the General Hospital of Fred Stenning, a Norwegian fisherman, aged 58 years. He was admitted to the institution yesterday afternoon.

Delegation to Ottawa.

Whatever may happen it is evident that the delegation from this city and district to Ottawa has been doing good missionary work. According to Olof Hansen they have haunted the offices of the ministers and deputy ministers and have tried their best to impress them with the desirability of carrying out the improvements asked.

Government Is Matter of Compromise.

As we have mentioned before, all democratic government is a matter of compromise. It is an attempt to harmonize conflicting interests. It is probable that every constituency along the line of the Canadian National Railways wants a branch line.

What is true of branch lines of railway is true of every other branch of government service. Each community has its demands and requests. Each community has good claims for some improvements. The Government would probably like to give something to each community, but there is the financial situation always facing them.

The four-power treaty is before the senate and every effort is being made by opponents of the same to secure its defeat. The old method of appealing to national prejudices is being adopted, but these appeals are having less effect today than in the past.

Newspapers Win Against Paper Company.

During the time of rising prices toward the close of the war the paper companies of Canada were refusing to supply many of the newspapers of this country at the prices set by the board of commerce because they could get higher prices in the United States.

At the time when there was paper shortage the Fort Frances company refused to supply Canadian papers and some of them had to close down or pay the increased price demanded, contrary to the ruling of the board of commerce, which at that time controlled prices.

UNABLE TO WALK FOR A YEAR

Paralysis Entirely Relieved by "Fruit-a-lives"

The Wonderful Fruit Medicine

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, nervousness makes itself known by hysteria, insomnia, constant headaches, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Heacock was.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me weak and unable to walk for a year. Seeing your 'Fruit-a-lives' advertised in the paper, I decided to try them. I continued to use them regularly and today I am able to go about my home duties and care for my family."

Any form of Nervousness is often caused by, and is always aggravated by, constipation, which poisons the blood, irritates the kidneys and inflames the nerves. "Fruit-a-lives" stimulates the action of liver and bowels, kidneys and skin—tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system.

In a word, "Fruit-a-lives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system.

PIMPLES ON FACE DIDN'T LIKE TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.

There is only one way to get rid of this obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine.

BURDOCK BLOOD BITTERS and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.

Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes:—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters chased them!'"

B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.

Mr. Wesch senior left this city two years ago after living here for about four years. He was well known here.

NEW STATION AND APPROACH SOON COMPLETE

Contractors Expect to Have Everything Finished by April 15.

Considering the unfavorable weather of the past few days, excellent progress is being made on the building of the new Canadian National Railway station here by P. W. Grahame, the Moose Jaw contractor, and it is expected that the job will be completed by April 15. Construction of the overhead bridge approach from the present general offices to the second floor of the station will be commenced in a very short time.

The actual brick laying on the station is now practically all finished and the cement coping has been placed on the tops of the outside walls. The roof of 5-ply composition is being put on and should be finished in the course of a day or so. Gravel and tar will be spread over all.

The work of steamfitting and plumbing commenced on Thursday, and the company electricians have started their work which will entirely be in conduit piping.

The ceilings and walls of the second floor will all be plastered, those in the lavatories and boiler room being over metal lath. The walls of the first floor will be of brick, the ceiling of the baggage and express rooms having two coats of Johns-Manville fireproof and waterproof material. The baggage and express rooms will have ceilings only.

The ground floor, where the express and baggage rooms will be located, will have inch and a half composition flooring and the second floor, where the waiting rooms will be, are to have maple floors.

A. Mather is in charge of the work for the contractor. Charles Clarke is foreman steamfitter and P. H. Reynolds, carpenter foreman.

REPAIRS MADE FAIR BUILDING

Agricultural Association Protests Manner in Which Hall Was Used During the Winter.

There was a meeting of the Fair Association last evening, the principal business being the passing of accounts in connection with recent extensive repairs made at the Agricultural Hall. The work done has made a great and pleasing change in the appearance of the place and includes the laying of a fine dance floor, chained in, the lining up of the walls below the galleries and the facing of the galleries.

Permission was granted at the meeting to the Elks' Lodge to use the building on May 24 for a big carnival and dance which is to be put on for the purpose of raising funds for the establishment of a summer camp for Boy Scouts and Girl Guides.

Several remarks of protest were made at the meeting as to the care that had been taken of the hall by the Basketball Association during the winter. It was stated that, notwithstanding the efforts that had been made by last year's fair board to ensure proper care of the building, it had been left in shameful condition. Ineffective supervision by those to whom the care had been left and the indiscriminate use of keys by the children were said to be the cause.

SHIPBUILDING MEN ARE GOING NORTH

Princess Mary, Which Called Here Last Evening, Had Big List of Passengers.

The Canadian Pacific Steamer Princess Mary, which called here last evening bound for Skagway, had a big list of passengers on board for northern points. Among them were a number of shipbuilders who are going to White Horse to work in the shipyard, where a new river boat and barges are being built for the Stewart River run to Mayo. This boat is being built for the White Pass Company. It is understood that Capt. Barrington, of Skikine River fame, is also to build a boat at White Horse for service on Stewart River. Mr. Green, who is in charge of the yard at White Horse and was here while the auxiliary cruisers Otranto and Orbita were undergoing repairs in the local dock, was aboard the steamer.

Other prominent people going north were:

Leo Simmons, collector of customs for White Horse, who has been ill.

George F. Johnstone, of the Klondyke Thawing Machine Co., Dawson.

Martin Conway, Skagway merchant.

Judge Wickersham of Juneau.

Captain Bragge of White Horse.

Johnny O'Leary, the former Canadian lightweight champion boxer, who was shot and killed in Seattle yesterday morning, was well known to many boxing fans in this city, for it was in the McIntyre Hall in this city in 1915 that O'Leary lost the Canadian title to "Rough Charlie" Burns. In the same year he also had an exhibition match at an Eagles' smoker with a man named McKay. Following his defeat by Burns, O'Leary went to the East and made his headquarters in Buffalo, meeting such men as Johnnie Dundee, Freddie Welsh, Rooky Kansas and Johnny Kilbane who have since made big names for themselves in the boxing game. O'Leary was about 27 years of age.

Billiards is enjoying a good measure of popularity in the town of Smithers this winter. At the Empress pool room a lively competition is going on and exciting games are provided every night. The great majority of the men in town are participating in the popular game and the hand-leaping so far has proved so accurate that the various matches have been closely contested with narrow margins of safety for the winners. Good prizes are hung up by the management. The second round is in progress this week. At the Kennedy billiard parlor a contest is also being waged in the shape of a weekly competition with prizes for the players making the highest break.

The Junior billiard handicap tournament at the Prince Rupert Pool Room is now well under way. The first round is finished and some of the players have advanced to the second and third rounds. The results of the games in the first round were as follows: Emerson beat Arthur; G. Mitchell beat L. Astori; R. Macdonald beat C. Barker; S. Howe beat J. Beasley; J. Rynd beat T. Halverson; W. Beasley beat R. Smith; H. Frizzell beat G. S. Hill; L. Wilson beat G. Hill; S. Suga beat D. Graham; L. Anderson beat G. Shaw; W. Lambie beat M. Chenoski; Karl Halliday beat E. Hudson; W. Hamilton beat J. Bond; J. Davidson beat S. Hunter; B. Marrie beat W. Dunnean; A. Blackhall beat Elmer Smith.

TRAIL SHIELD

The score in the last Trail Shield billiard tournament between the Sons of England and the Trail Club was 1200 to 575, taking into account the final game which was forfeited by Tom Silversides to Jack Suden.

The standing of the clubs for the season was thus as follows:

This is increased to \$140.00 per month the second year and \$150.00 a month the third year provided satisfactory service is given and sufficient marks are obtained in the examination. There are opportunities for promotion to higher positions for those who fail to qualify for the higher grades in their first examination may have an opportunity to do so at a later date.

Qualifications for Candidates.
Candidates must be British subjects not more than forty-five years of age, resident in British Columbia for at least one year, of good character, good physical condition and with woods experience. They should be familiar with the practical side of logging, timber cruising, surveying and forest protection, and have ability to organize work and handle men. The examinations are partly written, partly oral, and are designed to test the candidates' ability along the above lines. All statements made by applicants are subject to verification by the examining board. Preference is given to returned soldiers with the necessary qualifications.

The above examinations will take place at Prince Rupert on March 16th and at Prince Rupert on March 16th and at Prince Rupert on March 16th and at Prince Rupert on March 16th. Applications for forms should be filed on or before the 15th day of March, 1922, and mailed to the District Forester, Prince Rupert.

"You Are Working Too Hard, John"

"WELL, I cannot help that. I am trying to figure out how the business is going to pull through and meet the liabilities with prices falling the way they have been lately."

"But, John, if anything happens to the business your health will be more necessary to you than ever, and you cannot afford to take chances of putting such a strain on your nerves. You are looking so worried and nervous, and you do not half sleep."

"What am I to do? You know I have got to keep plugging along and try to see things through."

"One thing you can do is to begin a treatment of Dr. Chase's Nerve Food. You know how well that brought

me around when my nerves gave out and I was so miserable."

Mr. Charles E. How, R. R. No. 5, Aylmer, Ont., writes: "My system became generally run down, and I suffered from dull, heavy headaches. I was nervous, could not sleep at night, and my muscles used to twitch. My appetite became poor. I had indigestion and weak spells. I consulted a doctor, who gave me a tonic, but it did no good. I used other remedies, too, before finally trying Dr. Chase's Nerve Food. I found that this did me more good than anything I had ever taken."

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

With a change for the better in the weather the Admiral of the Fleet reports that the fishing for the past week has been up to normal, although the prices have not kept up so well as during the previous week.

While some of the boats returning from the "high spots" report heavy weather being encountered on their homeward journey most of them were successful in getting good sized catches, and from the tone of the morale of the crews of the Fleet everything is jake.

No fur arrivals have been reported during the week, although there are a number of the smaller craft of the fleet still out, and expected to return any day.

The flu epidemic is abating somewhat along the waterfront, and the fish houses are working with full staffs again, although the recent victims of the contagion are still feeling a bit groggy.

Last week a hospital was improvised in one of the local fish houses to meet emergencies and W. J. Cash was appointed as temporary house surgeon.

There was only one objection to the arrangement and that was that the patients were loath to get better owing to the excellence of the arrangements and the wonderful attention given them. A day and night staff were employed, and Dr. W. T. Kergin was responsible for the skilled medical attention. The star patient, W. K. Knight, assistant to the general manager of the Booth Fisheries who has recovered from a week's illness, said: "If I had had three mothers looking after me I could not have been treated better."

E. Rosang is building a brand new combination halibut and troller craft and L. Vestre is responsible for the design and workmanship. The new boat, when completed, will measure 35 feet long by 9 feet 4 inch beam, will have a 4-ft. 6 inch draught and will be fitted with a 7 h. p. Frisco Standard engine. The work is well under way and the boat has already taken on a real snappy appearance. It is expected it will be completed around the middle of the month. It will be capable of carrying an 8000 pound fish cargo.

The Rosespi, Captain A. Olson with chief engineer, Olaf Stevagie, assistant chief, George Kaddal, and first mate, Anton Mowan, arrived in port on Sunday night with 6000 pounds of first class halibut aboard, which was sold to the Cold Storage. The skipper reports that the last week out was rough which interfered somewhat with the fishing.

The Hippo, Captain Wicks, made port from the halibut banks on Sunday with a 9000 pound fish cargo, which was sold to the Royal Fish Company. Cap reports an uneventful trip.

Jack tells an eye witness story of the great preparedness parade which was held in San Francisco during the early days of the great war, when a bomb was exploded during the parade killing and maiming a number of people, and for which Tom Mooney was tried and convicted. Jack had arrived that morning in San Francisco from Union Bay aboard one of the Red Stack tow boats towing the hulk Golden Gale loaded with coal. Having received a month's wages, the weather being hot, the hotel Mo-hawk being in close proximity, and Jack having the desired thirst, our hero hit for the cool seclusion of this popular waterfront rendezvous to quaff down a little throat lubricant. After finding a resting place for three man sized drinks Jack inquired from the company present what day it was and was told it was the day of the great preparedness parade. This was right in Jack's mit so he hiked out for the scene of the festivities, taking up his sightseeing position some thirty yards from the corner of Market and Stewart Streets.

On the corner of Market and Stewart streets stood a saloon which was a vantage point from which many spectators were

viewing the procession. Well the procession came along, and after several sections had passed consisting of nurses, car conductors and various other local bodies, an instant the air was rent by a terrible explosion, which to Jack seemed like the firing of a broadside of 15-inch guns, and which seemed to daze the onlookers who were fortunate enough to miss the full force. This occurrence naturally terrified the people who turned and ran. As Jack turned and looked around he noticed the windows of the stores had been smashed and then guessed what had happened. If there is anything doing at all Jack likes to be in the thick of it, so he straight way hit for the scene of the explosion, which had taken place right at the saloon on the corner of Market and Stewart. The sight which met his gaze was a terrible one. The ground was strewn with wounded, dying, and dead men, women and children. Our hero stopped to help a wounded man, who had his leg badly shattered, and seeing the wound Jack grabbed his handkerchief and started in to render first aid. By this time the mounted police, ambulances, and motors of every description were arriving upon the scene. Having tended the wounded as best he could Jack then got him on to one of the wagons, and with much trouble was able to run alongside, keeping hold of a stick he had wound in a handkerchief to stop the blood, and after a hard time reached the hospital with his patient. Naturally the horror of the scene and the excitement had affected Jack somewhat, so he made for the old original starting-point, namely the Mohawk, and going in ordered a drink, at the same time feeling in his pocket for his change. Much to his dismay he found that the balance of his month's wages was conspicuous by its absence and realized that while he had been acting the Good Samaritan, a thug had been practicing some sleight of hand work on his pocket book, with much success. Jack says, "I didn't give a hang about the money so long as I was able to help a fellowman in distress," and he is still getting three good squares a day and a bed.

The Iris, Captain Hensen, having completed her overhaul, proceeded to Ona River, Porcher Island, on Wednesday with the family of A. O. Franks aboard, who are taking up their residence at that point for the summer months.

The E. Lipsitt, Captain Petersen, arrived in port on Sunday

night from his maiden trip with 13,000 pounds of halibut. Having experienced trouble with one of his oil tanks this defect is being remedied before he proceeds on another trip. It is expected it will take a week to complete the repairs and replace the tank.

The Amy S., Captain M. D. Sullivan, arrived from Porcher Island early in the week, accompanied by John Murray, Jas. Wauchope, Gen. Batt, Mr. Allen, M. Macfadden and Mr. Raymond. Captain Sullivan reports that there are good indications of oil on the Island several seepages having been located, and this discovery will have further and expert attention. Also that George Batt's copper mine, situated on the Bald mountain, Jap Inlet, is looking fine, and that the Paterson gold mine is shaping exceedingly well. There is some 15 tons of \$200 rock piled up on the beach at the present time, which will be shipped in the near future, probably to the Tacoma smelter. The party was in town on business and for supplies. Eddie Howe, of Prince Rupert, has been engaged by Cap as first mate on the Amy S.

Archie Stewart of Porcher Island is expected to arrive in the city to look over a good employment proposition. If the proposition turns out successfully Archie will take up his permanent residence in Rupert.

A wire has been received from Flossie Flirt at Seal Cove, to the effect that her return to the city may be expected tomorrow, and things are humming around the Mug Up these days. During Flossie's absence the popular

hostel has sort of been neglected and if Flossie was to arrive while it is not looking spick and span there would not be enough rolling pins manufactured in the world to break over Jack's head. Of course it is hoped that no one will be mean enough to tell Flossie these facts.

A reception is to be held in her honor and the Admiral is making overtures by wireless to prevail upon the fair damsel to return home aboard the flagship of the fleet. It had been suggested that a salute should be fired from the shore batteries but unfortunately a dead cat got wedged in the battery which has put the firing idea out of court entirely.

To welcome Flossie home to the Mug Up new washers have been put on the taps and the boot brushes have been thoroughly dressed with hair restorer. Jack says if these preparations don't please Her Highness he'll tell her "there's the Bay, go to it," perhaps.

The Wigwam, Captain Claude Ketchum, arrived in port on Tuesday night from Metlakatla with a seaw load of gravel for the new roadway around Cow Bay.

The Narbethong, Captain Freeman, returned from a mysterious trip on Monday night. It is understood the secret service are purchasing a submarine chaser and when this is added to the fleet Cap. will get a run for his money.

The Dixie Rupert arrived in port on Tuesday morning from Captain's Cove.

Captain W. Shaw of the Mauritania, is fixing up his tools preparatory to a logging expedition around his Robinson Cruise estate on Porcher Island.

The Violet, Captain Thompson has taken on provisions ready for the first trip of the season. She will in all probability be leaving port over the week-end.

The tugboat McCulloch arrived in port early in the week with a seaw load of boxes from the Georgetown mill for the Cold Storage, Pacific Fisheries and Stewart & Mobley.

Captain A. Swanson has been a patient in the General Hospital suffering from the flu. He is progressing satisfactorily.

The Fatoosh of Seattle, Captain K. Martinsen, arrived in port on Monday with 23,000 pounds of halibut and sold to the Alfin Fisheries. Cap reports bad weather coming in. After taking on ice and bait he is hitting for the high spots again over the week-end.

The Malamute, Captain Nick Carter, arrived in port on Monday with 20,000 pounds of real honest to goodness halibut, which was sold to the Booth Fisheries. This was one of the best trips of the season.

The following boats are in port: White Lilly, S. Vito, Lillian F., Elma, Lancelot, Birdie B., Towana, Fox Trot, Riga, Vesta, Wigwam, Dixie Rupert, Gobe, Bekla, Thelma, Spot, H. & R., E. Lipsitt, Bilford, Fram, F. C. Hergert, Vivian, Hesquiat, Fatoosh, Imperial and June.

ANYOX MAN LOST \$1000

Paid Cash for Whisky but J. W. Hansen Accepted Delivery of the Same.

After having laid a beautiful scheme for buying whisky for \$50 a case in Vancouver, taking it by gas boat to Tacoma, burying it in the sand at night and then selling it at \$80 a case F. O. S. at Tacoma, Robert Engblom got a disappointment, says the Vancouver World. Somebody else got the whisky, after he had paid for it.

The story of this little venture was unfolded before Mr. Justice Clement in the Supreme Court when Engblom sued J. G. Brooks and Hesse & Brooks Company for the return of \$1000 he had paid them.

"How can you expect the courts of this province to come to your help? This transaction strikes me as being against the laws of British Columbia. You bought this whisky in Vancouver and it was delivered in Vancouver. It seems to me that it was directly against the law of the province," stated his lordship, interrupting one stage.

Making Lots of Money.

Engblom is a former Anyox man who had saved up his money, he said he learned that J. W. Hansen, formerly of Anyox, in partnership with a man named Hugo, had been doing well running whisky across the border. He determined to go into the business himself, and he got Hansen and Hugo to take him with them when they went to buy a stock at Hesse & Brooks' warehouse.

In Partnership.

"We talked about the best brands to sell and I decided to take twenty cases of Old Crow. I paid for it with a cheque for one thousand dollars and told them I would call in the morning. When I went in the morning to tell them I could not take delivery for a few days, I found they had handed the liquor over to Hansen and Hugo, and I've never seen it from that day to this," said Engblom.

Gordon S. Wismer, counsel for Brooks, brought out from Engblom the admission that he had given the impression without committing himself, that he was in partnership or about to go into partnership with Hansen and Hugo. "I just kidded them; I had made an arrangement with another man to be my partner, but didn't want Hansen and Hugo to know what I was going to do with the liquor. I thought it was safe enough in a warehouse for 24 hours," said Engblom.

The defence is that the three men all came in together and acted as partners, so the liquor firm handed over all the purchases to Hansen and Hugo, who went off that same afternoon with 54 cases

of whisky, which included the 20 cases bought with Engblom's thousand dollars. The stuff was "cleared" for an address in Mexico.

FIXING RESPONSIBILITY

Nothing escapes the scientists of the Mellon Institute when they analyze the cause of wear on laundered fabric. Even the unsuspected clothes line is questioned as to its responsibility.

Here, as is often the case, that supposed friend of the housewife, is found to be quite culpable.

Expert tests have shown that clothing exposed for 24 hours on the clothesline, has suffered a loss of 2 per cent.

This explains in no small measure the almost universal failure of lace curtains just below the line of the opened window sash.

By this test, the laundry industry is vindicated, and we are shown that after all, even the home laundry process has its imperfections.

We do not use clothes lines in our process, your clothing is thus saved this 2 per cent loss, which may be even greater here when such high winds prevail.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N. S., Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Dill, now of Windsor, N. S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows:—"I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells I would be under the doctor's care. I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes, and they helped me so I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food, having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. SMITHERS

The Smithers Athletic Club put on a splendid dance on Thursday evening in the public hall.

The town council and F. Ockleshaw clerk, are very busy at the present time on preliminary organization work. The assessment roll of improvements is being revised and new valuations are being made.

Endako Liberals have elected the following officers: President, P. McGettigan; vice-president, C. Christian; secretary-treasurer, F. Bratton; executive, C. J. Kettle, J. A. Thompson, S. Poole, A. Thorson, G. A. Carlson, C. C. McKay, Mrs. Olds, T. T. Hamilton, F. Sammons, J. McHugh and C. Ross-camp.

Following the bitter cold prevailing throughout the month of February, the weather has moderated and a good deal of the snow has disappeared.

After an absence of two years, during which time they resided at Assinaboia, Sask., Mr. and Mrs. William Kirton returned to Smithers this week and will again make their home in the district.

There has been considerable delay in the getting of the Smithers electric light system into operation and the citizens are patiently waiting for the work to be wound up and the lights turned on.

THOMAS OXLEY DIED SUDDENLY

Thomas Oxley, father of Mrs. John McRae, passed suddenly away at 10:30 last evening at the home of his daughter, 344 Fourth Avenue East. Mr. Oxley had apparently been in good health right up to the time of his death although he had had a slight attack of influenza a few weeks ago. Death was due to heart failure. He had been sitting in the lounge and Mrs. McRae and suddenly collapsed in his chair. He was removed to the lounge and Dr. L. W. Kerghin was called but by the time he arrived life was extinct.

Mr. Oxley was 70 years of age last December and was born in Sheffield, England. He came to Canada some twenty years ago and resided for ten years in the Boundary country near Phoenix. For the past ten years he has spent most of the time in Prince Rupert and Anxox. He was a miner by calling.

He is survived by two daughters, Mrs. John McRae of this city and Mrs. Harry Comer of Stewart, and one son, Thomas Oxley, shift foreman at the Granby mine, Anxox. His wife predeceased him exactly eleven years ago today and a co-incidence was that her passing was also from heart failure when she dropped dead in a street car in New Westminster.

Pending receipt of answers to wires sent to Mrs. Comer and Mr. Oxley, Jr., funeral arrangements have not yet been completed. The body is resting at the B. G. Undertakers' Parlors.

REMAINS OF LATE LOUIS HAUDENSCHILD ARRIVED FROM SOUTH

The funeral of the late Louis Haudenschild, son of Mr. and Mrs. Sam Haudenschild, Kitsumkalum, is being held at Kitsumkalum this afternoon. The late Mr. Haudenschild died in St. Paul's Hospital, Vancouver, on Wednesday, and the remains were brought to the city by the Princess Mary yesterday afternoon going out again this morning on the eastbound train.

Besides his parents, Mr. Haudenschild is survived by four sisters, Mrs. T. Ballinger and Mrs. F. Wesch of this city and Mrs. Charles Oxley and Mrs. Roy Goppersmith of Tacoma, and a brother, Sam Haudenschild of this city. All went out on this morning's train to attend the funeral. Mrs. Oxley and Mrs. Goppersmith having arrived from the south with the body yesterday.

There were floral tributes sent from this city to Kitsumkalum by the family, Moose Lodge and Miss H. A. Smith.

The late Mr. Haudenschild resided in this city with his parents some years ago. He was a member of the Tacoma Moose Lodge which was in charge of funeral arrangements. He was 37 years of age.
