# DEMONSTRATION IN LONDON PLANNED

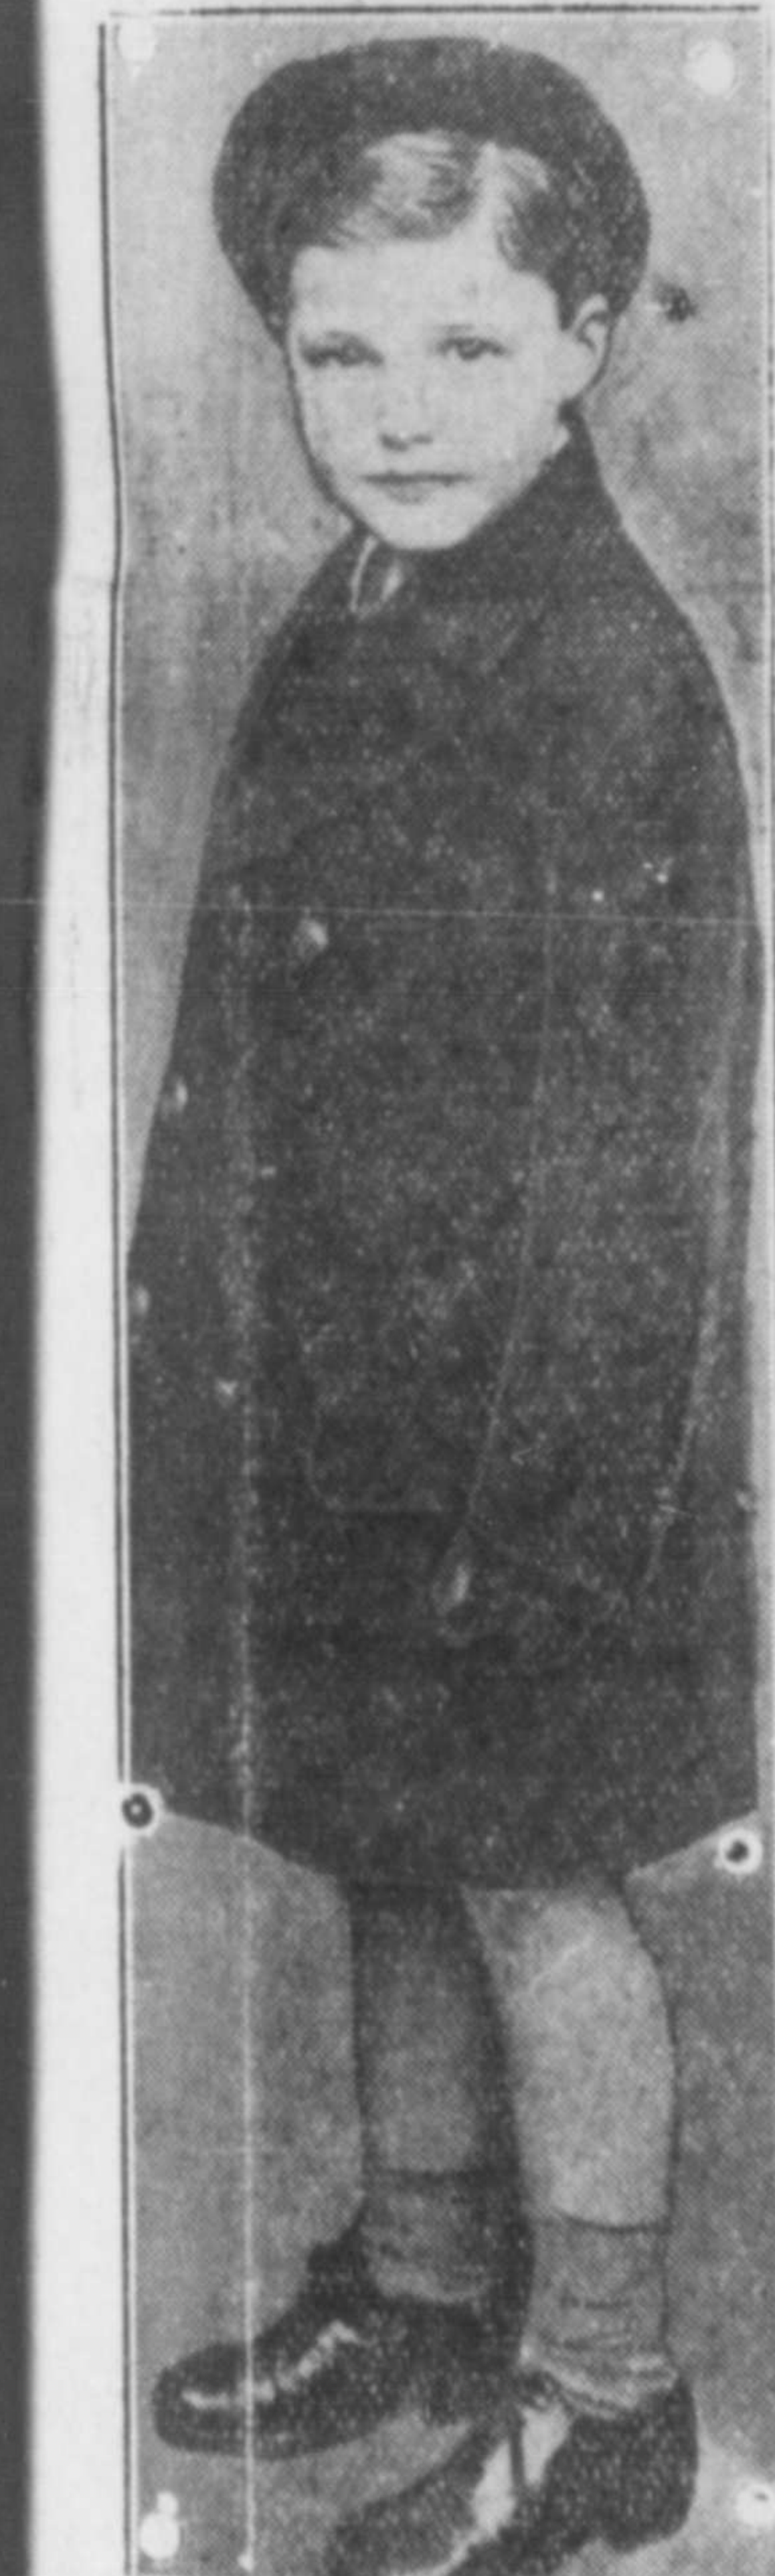

## WELL KNOWN ISLAND MINE RESUMING OPERATIONS SOON

### Leader of Hunger Army Is Arrested Today in Raid Staged by Police

Officers Visited Headquarters of National Unemployed Workers' Movement—March on House of Commons to Be Carried Out, it is Declared

LONDON, Nov. 1.—Police raided the headquarters of the National Unemployed Workers' movement today and arrested W. A. L. Hannington, organizer of the "hunger army's" recent march on London. Twenty detectives raided Hannington's office and took charge of rooms in which clerks and typists were preparing for tonight's demonstration.

### Depressing

Poor John, imagine having only \$8,000 a month on which to live! John Coward of New York is heir to a fortune of \$4,000,000 and his mother doesn't think his allowance is sufficient. The judge said no.

### Interior Weather

Terrace—Cloudy, south-east wind, temperature, 40.  
Hazelton — Part cloudy, clear, 32.  
Smithers—Fog, calm, 22.  
Burns Lake—Clear, calm, 20.

### ABOLITION OF ALL FORMS OF CHEMICAL WARFARE IS URGED

GENEVA, Nov. 1.—A report has been prepared for submission to the forthcoming disarmament conference here urging the complete abolition of all forms of gas, chemical and bacteriological warfare.

Hannington has long been known as a Communist. He was booked at Bow Street police station on a charge of inciting to mutiny.

Hannington had planned to lead fifty members of the marchers to the House of Commons tonight to demand a revision of the dole system.

Other leaders of the unemployed declared that tonight's demonstration would be carried out as planned.

### ROOSEVELT IS HOPEFUL

With Aid of Progressives and Liberals, Expects to Solve Nation's Difficulties

BOSTON, Mass., Nov. 1.—With the assistance of the progressive and liberal statesmen of the country, Governor Franklin D. Roosevelt, Democratic candidate for president of the United States, stated here last night that he hoped, if elected president, to be able to solve the economic difficulties which are now besetting the country and bring about "some sort of a new era." Governor Roosevelt was speaking before an enormous and enthusiastic audience in the Boston Arena. He denied President Hoover's charge of proposing to alter the traditional foundations of American public life. His proposal rather was to uphold these foundations.

Governor Roosevelt visited Maine, New Hampshire and Vermont during the day.

### FEWER ARE REGISTERED

Only 139 Go on Municipal Voters' List as Licenseholders and Householders

Only 139 persons in all qualified as licenseholders and householders for the civic voters' list this year, it was learned at the office of the city clerk this morning following closing of registrations last evening. Last year 232 persons qualified to vote in this category while in 1930 there were 272; in 1929, 296, and, in 1928, 385. Possibly, the fact that little interest has been awakened in municipal politics for next year has been partially responsible for the lack of activity in getting on the list.

Property owners may still qualify to vote at the January civic election providing they have property registered to the assessed value of \$100 or over on or before November 30. Their names go on the list automatically.

### PRINCE TO BE WEDDED

London Wonders Whether Princess Ingrid of Sweden Has Chosen Wales or George

LONDON, Nov. 1.—Reports current here are to the effect that the engagement of Princess Ingrid of Sweden to a British prince will be announced on Armistice Day.

Whether the prince whose betrothal is to be announced will be the "world's most eligible bachelor," the Prince of Wales, or his brother, Prince George, is a matter of conjecture although it is considered more likely that it will be the latter.

Both princes recently visited Stockholm and Princess Ingrid is at present in London.

### HOOVER IN NEW YORK

Spoke at Madison Square Garden Last Night—Demonstrations Against Him Rumored

NEW YORK, Nov. 1.—President Herbert Hoover, who had spoken earlier in the day at Baltimore, Philadelphia, Chester and other points, addressed a mammoth rally in Madison Square Garden last night. It was the most important deliverance the president has made in the course of his entire campaign for re-election as chief executive.

White House secret service officers took special precautions during the day after having received reports that demonstrations against the president were planned. Nothing along this line, however, developed. Mr. Hoover, who was introduced to a wildly enthusiastic audience of some 25,000 persons by Mrs. Theodore Roosevelt, widow of the former president, declared the present contest was not between two men or two parties but between two philosophies of government. He charged Governor Roosevelt with proposing to alter the whole traditional foundations of American national life.

### Are Suspected of Knowing Some of Kidnapping Case

SOUTHAMPTON, Long Island, Nov. 1.—On the persons of three men who were arrested for hit and run driving here were found complete newspaper clippings pertaining to the Lindbergh kidnaping case. The men are also being questioned on this matter in the belief that they may possess some information.

James Hall, Wanted For Non-Support, Drops Out of Sight at San Diego

SAN DIEGO, Nov. 1.—James Hall, well known screen and stage actor, who had been making a personal appearance at a local theatre, disappeared as extradition proceedings were about to be instituted against him for his return to Connecticut where he is being sued by his wife, Irene Hall, for non-support.

### Armored Cars Used in Riot

After a mob of 10,000 Belfast unemployed had stoned trolley cars, barricaded car lines and looted shops, metal-screened armored cars were used to quell the riot.

### HAVE GONE ON STRIKE

Two Hundred Thousand British Textile Workers Involved in Walk-Out Yesterday

MANCHESTER, Eng., Nov. 1.—Many thousands of spinners and cardroom hands declined to go to work in the spinning section of the Lancashire cotton textile industry yesterday, rejecting a provisional agreement for a wage cut of five to eight percent.

It was estimated that, if all the spinners walked out, two hundred thousand workers would be affected.

About eighty percent of the spindles stopped work but the looms were operating normally.

MANCHESTER, Nov. 1.—With an estimated 170,000 workers idle the strike in the spinning section of the Lancashire textile mills was complete today. Opinion prevailed, however, in authentic circles that the workers who struck in protest at a five to eight percent wage cut would be at work again next week. The ballot of the spinners union membership will be completed Saturday and this offers the chief hope of settlement.

### Ocean Falls Is Being Included In Ship's Calls

Starting next week, Union steamer Cardena will include Ocean Falls on her points of call southbound from here to Vancouver. The vessel will continue to leave here for the south at 1:30 Tuesday afternoons as at present.

### TO REPAIR IN SEATTLE

### TWO MEN ARRESTED

### LIQUOR PRICES IN BRITISH COLUMBIA ARE BEING REDUCED

VICTORIA, Nov. 1.—The British Columbia government has decided to pass on to the public the reductions made by the Dominion in its liquor duties and excise taxes of \$2 per gallon. The new price list will be issued on December 1.

### Skidegate Sunrise Mine Will Ship Ore to Anyox as Soon as Present Financial Plans Complete

VANCOUVER, Nov. 1.—Arrangements are being made here for the re-financing and re-opening of the Skidegate Sunrise mine near Skidegate Indian village on Graham Island, Queen Charlotte Islands. Instead of putting in a mill, the Kitsault-Eagle Mining Co. is planning to ship the developed ore to Anyox smelter. This is being done on the advice of W. G. Norrie, Loewenthal consulting engineer, who recently examined the property and reported very favorably on it, thus backing up the opinion of the district mining engineer.

The decision to raise \$10,000 more money by the sale of stock and to make ready for shipping ore to the smelter was made at a recent meeting of shareholders of the company here, at which \$2,000 out of the needed \$10,000 was at once subscribed.

A freight rate of \$2.50 a ton can be secured from Skidegate to Anyox and the cost of smelting will be about \$5.00 a ton. The average run of the ore is \$12.50 a ton, so a reasonable profit should be made. If only the higher grades of ore are shipped the margin will be quite large.

Work at the mine recently stopped when the money available had been all expended. It has been carried out under the direction of W. G. McMorris, who is himself financially interested in the mine. Considerable underground and surface work has been carried on with the result that indicated pay ore to the present amounts to 4,750 tons.

Another blizzard came since the searchers went out. The body of one of the missing hunters was found at the week-end. Hope has been given up for the other two being alive.

**HEADACHE**

Here's Quick Relief

A lot of things can cause a headache or other pain, but there is one thing that will always give you relief! Just take a tablet or two of Aspirin. Your suffering ceases. Relief comes instantly, regardless of what may have been making your head throb with pain. Aspirin is harmless—cannot depress the heart. So there's no use waiting for a headache to "wear off." It is useless to endure pain of any kind when you can get Aspirin. It is a blessing to women who suffer regular systemic pain; to men who must work on, in spite of eye-strain, fatigue or neuralgia.

**WHAT'S NEWS TO YOU?**

**THRIFTINESS** is a state of mind that is nearly as valuable an asset as a bank account. . . . For thriftiness can always get a bank account of its own.

And it's easy to tell thrifty people from the way in which they read the newspapers — just as you can usually spot the other kind.

The great majority of men and women never put a newspaper down until they have read the important news which is directed to them through advertisements.

The modern woman, especially, finds the advertisements indispensable. She spends more than five-sixths of the family income. And the prosperity, happiness and health of her household frequently depend on her reading of the advertisements and on the wisdom with which she chooses everything she buys.

The advertisements bring you complete information about accepted products and new ones. Through them you can compare values . . . discover ways and means for greater household efficiency and enjoyment . . . and make sure that every dollar spent will bring its full return.

Let the Daily News Classified Ads. work for you.

**COME TO PACIFIC**

Canadians Beginning to Spend Winter Holidays at Home

MONTREAL, Nov. 1.—That Canadians are more and more spending their winter holidays in Canada is being daily evidenced by the vast number of enquiries pouring into the passenger department offices of the Canadian National Railways. The majority of these enquiries come from those living in the eastern provinces and concern Canada's evergreen playground on the Pacific Coast.

British Columbia will this year attract an ever increasing number of visitors from Eastern Canada, all of whom are anxious to escape the rigors of the eastern winter weather. In order to meet the popular demand and to encourage Canadians in their desire to spend their holidays in their own country, both railways are this winter offering return tickets from Eastern Canada to the Pacific Coast at the same fares as were in effect during the past summer for season limit summer tickets.

C. P. Riddell, of the Canadian Passenger Association, in making the announcement here today, stated that these tickets will be on sale from November 15 to February 28 with the return portion good until April 15.

"The Pacific Coast," stated Mr. Riddell, "is, in fact, Canada's evergreen playground. It offers some of the best golf courses in Canada with plenty of hunting, fishing and many normally winter sports. Flowers are in bloom when other parts of the Dominion are snowbound."

"This is the first winter that the Canadian railroads have introduced such favorable rates and, in view of the popular interest, it is anticipated that a very considerable traffic to Pacific Coast points, will develop," stated Mr. Riddell.
