RUPERT MAN TO BE ON RAILWAY BOARD

TURKEY ACCEPTS PEACE PROPOSALS OF ALLIES WITH SLIGHT MODIFICATIONS

EDITORIAL

WHAT IT MEANS TO PRINCE RUPERT.

It is not very easy for us at first to realize just what it means to have a Prince Rupert representative on the Board of Directors of the Canadian National Railway. It means that at all times we shall have a man there who will look after the interests of this section of the railway and looking after the railway means looking after us.

For several years the local end of the railway was neglected. The late Government gave us the bad end of it whenever possible. The ministers had little use for us and the railway management had less. We were in a bad way. Happily, however, there was a change of government, and the Prince Rupert people had the good sense to send to Ottawa a representative of the Government and later to send delegates who were prominent in the community and who had a great deal of influence with the authorities at the capital. The Provincial representative of Prince Rupert also made a trip to Ottawa and added his influence to that of the others.

Looms Larger

The result of all this is that Prince Rupert looms larger at the capital today than ever it did before. People there are recognizing the position it occupies at the terminus of a great railway and the Government is pledged to carry out the Laurier program of development which will mean so much to this city. As an earnest of their intention they gave us a daily train service and now they have followed it up by giving us a representative on the Board of Directors of the railway. This surely is Prince Rupert's triumph.

While we must not expect everything from the railway company immediately, we shall look forward to many improvements and what is better we shall look to see the railway make the best possible use of what it has here.

Fred Stork's Work

Fred Stork, the local member, is to be congratulated on the success of his efforts, for to him is due to a very large extent the success of this effort to have Prince Rupert represented on the board. There is nothing he could have done for this community which would be likely to bring better results.

DISTRICT GETS NEW SCHOOLS

One at Copper City and the Other at Lakelse to be Opened

TERRACE, Sept. 26.—Two new schools are to be opened in the Terrace district. These will be at Copper City and across the river in the Lakelse valley. A commodious new building has been erected for the purpose at Copper City and for the Lakelse children the community hall will be utilized.

Both these new schools have been made necessary by the increase in population in the district and will be very convenient for the children, especially during winter when it is difficult to cross the river.

Mr. and Mrs. D. A. Root arrived in the city on the Chelohsin this morning from Anxox.

F. G. Dawson is to be Director of Canadian National Railways Representing Province of B.C.

VANCOUVER, Sept. 26.—A special despatch received by the World states that F. G. Dawson of Prince Rupert is to be the B.C. Representative on the board of directors of the Canadian National Railways. The formal announcement to that effect is to be made in a few days when the full list of directors is made public. It is not known yet how many directors there will be but it is thought the number will be nine.

Mr. Dawson was born at Wolverton, Ontario, in 1876, and educated in his native province.

DE VALERA'S LOST CAUSE

Confidential Communications of Republican Leader are Seized

LONDON, Sept. 26.—Extraordinary disclosures concerning De Valera will be published by the provisional Government this week, according to a Dublin despatch. A series of confidential communications from De Valera to Liam Mellows was seized. It is understood they reveal a hopelessly chaotic state of the republican organization containing confessions of De Valera that his errors of judgment caused the civil war.

De Valera admits he should have repudiated the occupation of the Four Courts and deals with the republican theories, many of which have been completely changed since he last expounded.

SOVIET RUSSIA ON DARDANELLES

Sends Out Note to Powers in Regard to Her Position.

MOSCOW, Sept. 27.—Soviet Russia in a note to Great Britain, France, Italy, Roumania, Yugoslavia, Bulgaria and Egypt proposing an immediate conference designed to find a solution of the near east situation, warns the powers against again ignoring the interests of the countries directly interested in the freedom of the Dardanelles.

The note reiterates that Russia will refuse to recognize any decision unless she is a party to the agreement.

WESTERN CROPS BIG THIS YEAR

In all Four Provinces Estimates Being Exceeded—Ideal Weather Prevails

WINNIPEG, Sept. 26.—With ideal weather conditions prevailing, harvesting in the three prairie provinces is proceeding with great speed. The yields are proving better than had been anticipated and the grades are uniformly good. It is expected that ten days will see all the grain through the threshers.

British Columbia's fruit crop is being gathered rapidly and the apple crop is exceeding estimates.

There he got his early training but at the age of 22 he came west to Regina, moving from there to Calgary where he was engaged in the wholesale grocery business as manager of a branch office.

However, the far west was still calling and Mr. Dawson is a real westerner. He came to Vancouver in 1906 and two years later opened in business here, forming later the firm of F. G. Dawson Ltd., one of the successful firms of the coast.

The same energy which Mr. Dawson has put into his own business which has been so successful, he will doubtless put into the nation's business in connection with the railways.

Mr. Dawson has from the first taken a deep interest in public affairs. He was president of the Prince Rupert Board of Trade in 1913, president of the Prince Rupert Liberal Association for two years and a member of the board of managers of the Presbyterian Church since it was organized. He is this year president of the British Columbia Agricultural and Industrial Association. He is also a member of the Prince Rupert Club and of the Rotary Club.

While the smallness of the population of this part of the country has somewhat restricted the activities of the new director of the railways, he has filled the largest places that offered and filled them most acceptably. If there is one man that would be picked out here as a sound businessman who could possibly take such a position, it would be Mr. Dawson.

CONTROVERSY OVER FIGHT

Claim is Made that Siki Tripped Carpenter and One Judge Agrees.

PARIS, Sept. 26.—Controversy over the dramatic finish to the Carpenter-Siki fight continues. Manager Deschamps persists in appeals to the Boxing Federation for a reversal of the judges' decision in awarding the championship to the Senegalese.

Many who saw the movies of the fight maintain that Carpenter was clearly tripped by Siki. One of the judges takes this view but claims the foul could not have affected the outcome as Carpenter was already a beaten man.

Some newspaper experts say it is possible the bout may yet be awarded to Carpenter. Meanwhile Deschamps is trying to arrange another bout between Siki and Carpenter.

U. S. SENATOR DIES

WASHINGTON, Sept. 26.—United States Senator Thomas Watson of Georgia died suddenly today as the result of an acute attack of asthma.

NEW YORK GIANTS WIN CHAMPIONSHIP BIG LEAGUE BALL

NEW YORK, Sept. 26.—The New York Giants clinched the 1922 National League championship yesterday by defeating St. Louis five to four in ten innings. The Giants won the championship for the tenth time.

STORK PLEASED THAT DAWSON GETS POSITION

Says British Columbia Should Benefit From Getting Right Man.

Fred Stork, member for this constituency in the House of Commons, whose efforts have been largely instrumental in drawing to the attention of the ministers the desirability of Mr. Dawson being on the Board of Directors, was very pleased when he heard the announcement in regard to the appointment. He said he had confidently expected the appointment to be made as there was no man in British Columbia better fitted for the position.

"Mr. Dawson will be an eminently fair man," said Mr. Stork. "He will naturally work for British Columbia and will see that Prince Rupert does not get any more of the ill treatment that has held back the railway to so great an extent and hindered the development of the country. Under the new management with Mr. Dawson on the board the Grand Trunk Pacific should easily be made to pay its way and before long to produce dividends that will help to lighten the burden of taxation."

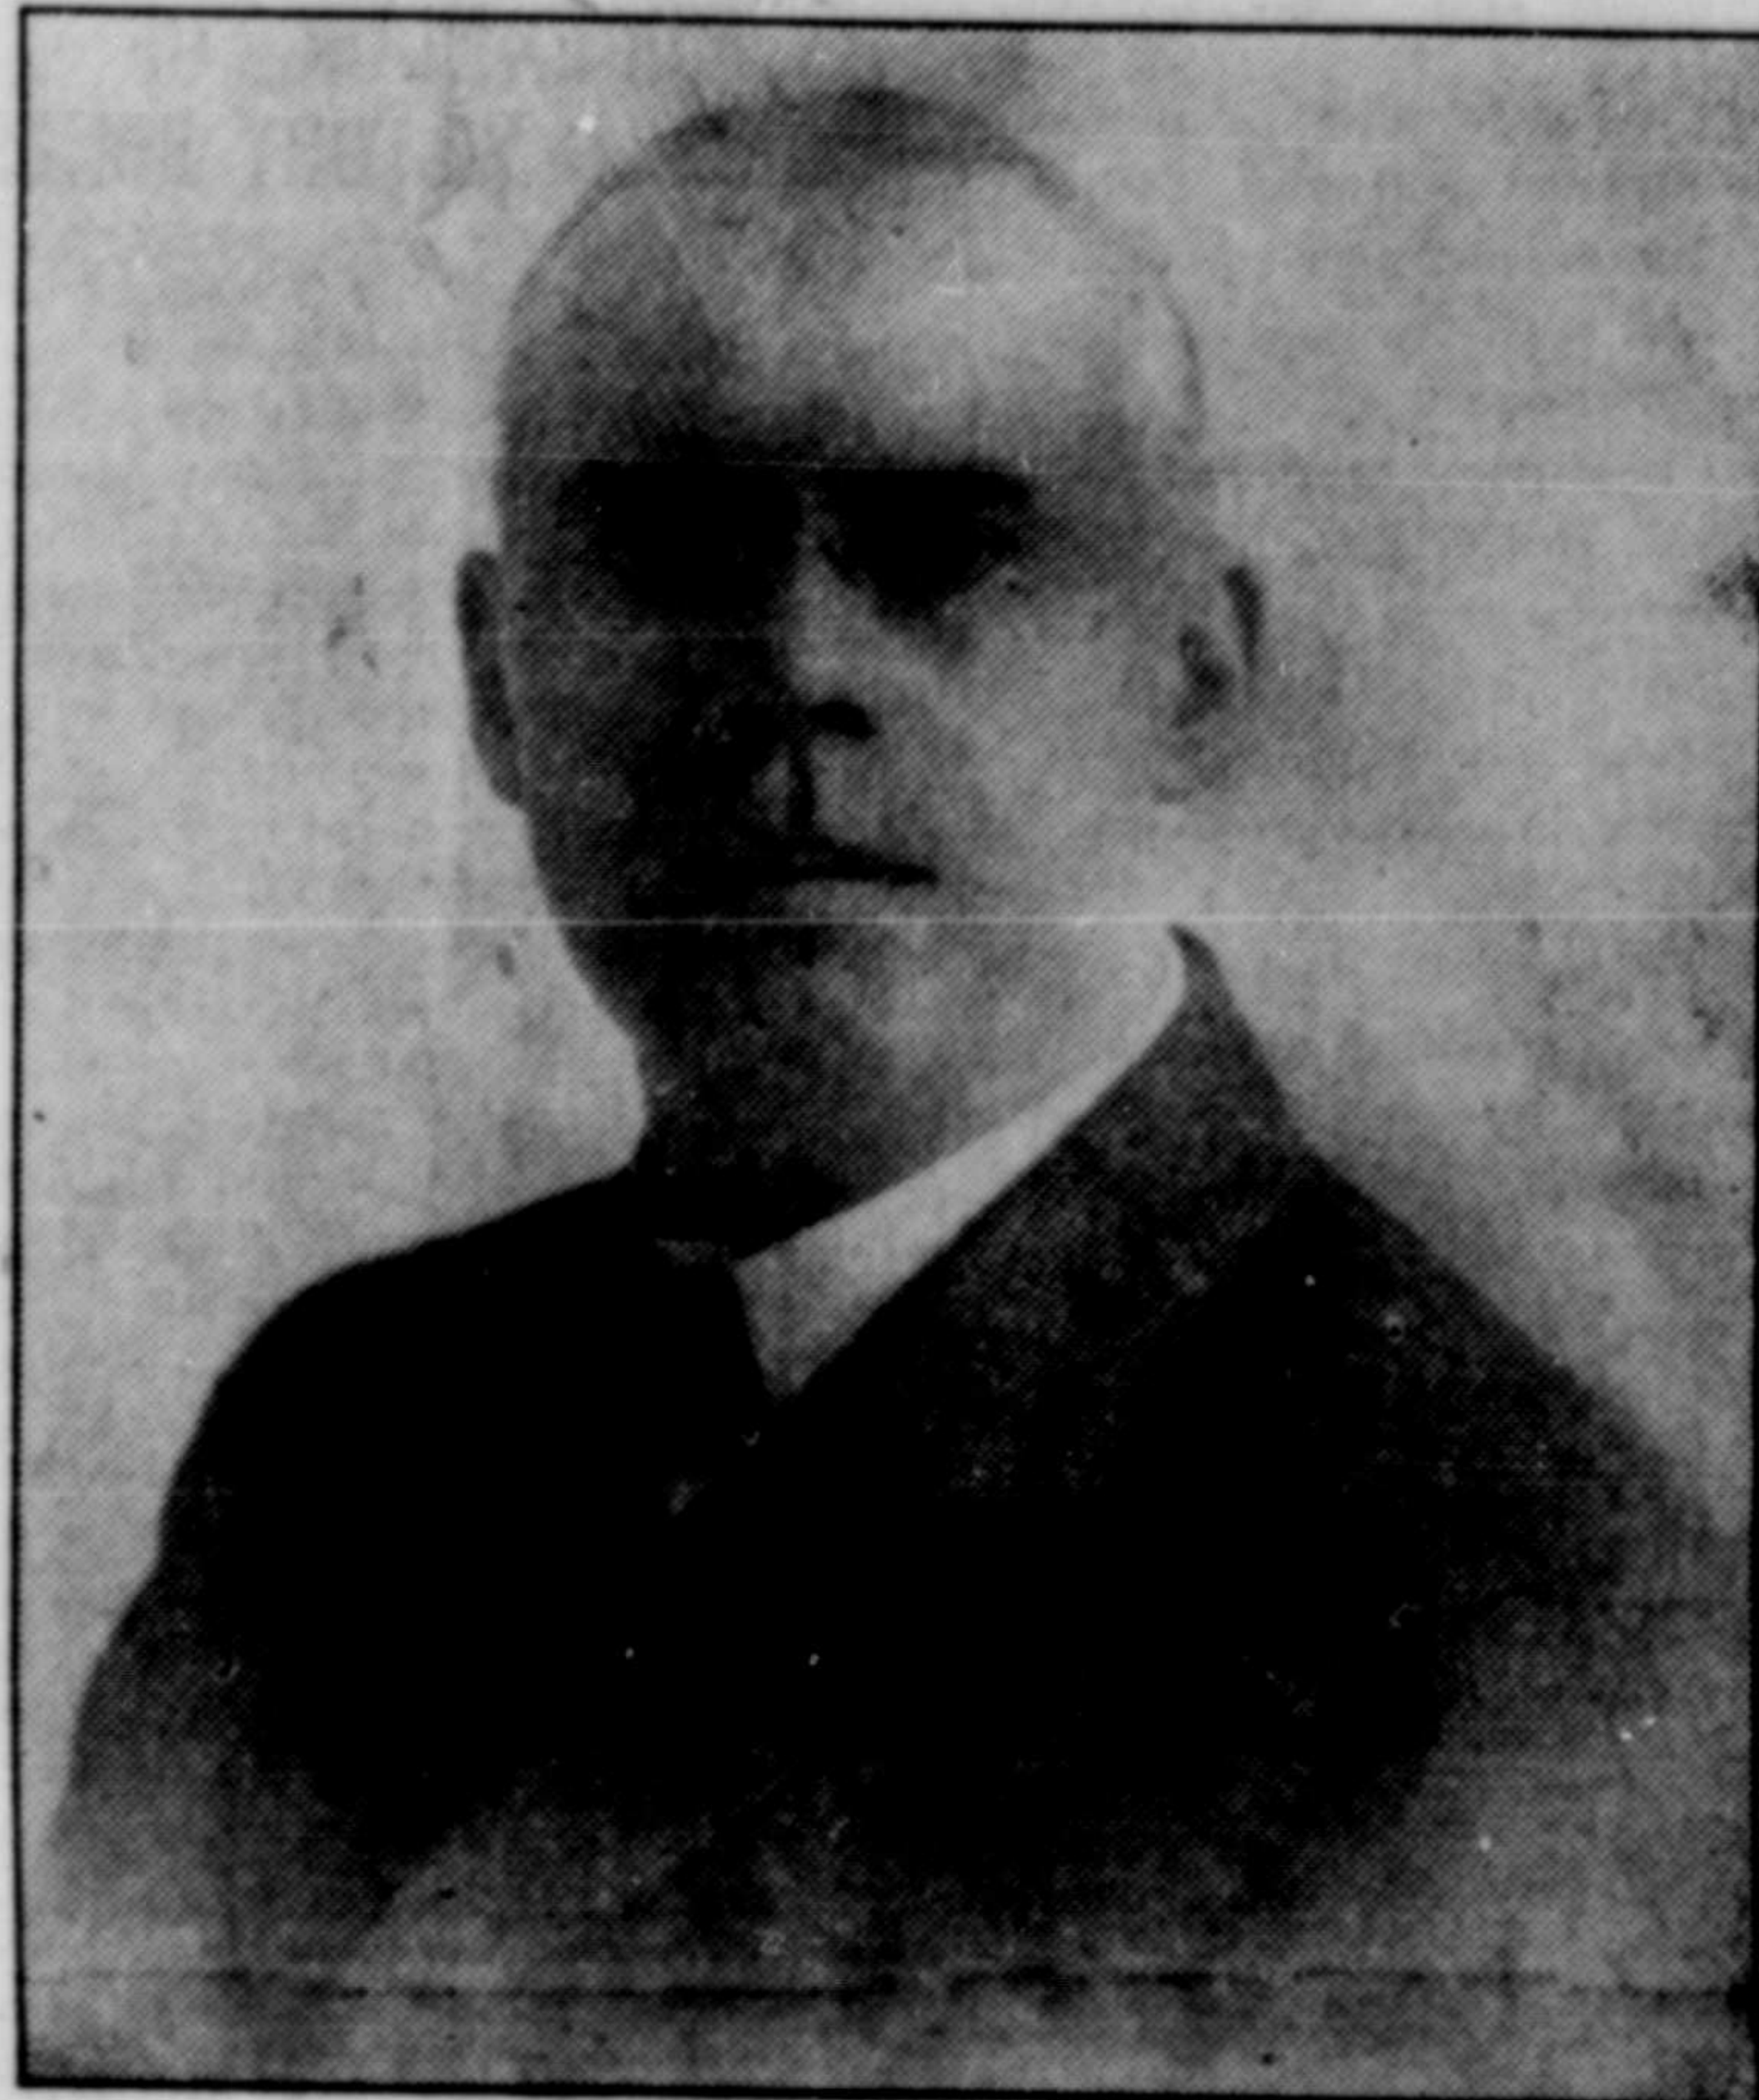

Grain Shipments.

"One of the first things we are hoping for the new board is that it will deal with the matter of western shipments of grain. With the St. Lawrence closed all winter and the grain going south to United States ports even from Alberta, it is time an effort was made to bring more of it westward. This should be done through the ports of Vancouver and Prince Rupert and doubtless Mr. Dawson will at once familiarize himself with the situation in that regard and try to induce the shipment of grain over Canadian roads through Canadian ports and as far as possible in Canadian ships. This should be the first step toward making the road pay."

"I do not know anything the present Government could have done for us that would have been better for us and for the whole west than putting Mr. Dawson on the board," said Mr. Stork.

"As I said before, he is the best man available for the position. He is a keen businessman and knows a great deal about railroading. Dr. King, the minister for British Columbia and W. C.

DIRECTOR CANADIAN NATIONAL RAILWAYS.

F. G. Dawson, Wholesaler, who will be B.C. representative in Canada's Biggest Business.

Turkey Accepts Peace Terms Proposed by Allied Nations with Few Minor Suggestions

CONSTANTINOPLE, Sept. 26.—The reply of the Turkish Nationalist Government to the allied peace note has been completed and comprises acceptance of the conditions laid down by the Paris conference, according to Essad Bey, Kemal's aide. The Nationalists, however, insist upon the right to conduct a military movement during the progress of the conference and demand the admission to the meeting of all the allies of the Angora Government including Russia, Persia and Bulgaria.

Turkish cavalry armed with machine guns returned within the neutral zone yesterday at Chanak. General Harrington, British High Commissioner, instructed the Nationalist representative here to ask Kemal Pasha to order their withdrawal. Failure to comply would fall upon the heads of the Kemalists, the instructions said.

FINE HANDED OUT TO OPIUM DISTRIBUTOR

Lum Chue Fined \$500—Oscar Young and Clara Clark in Possession Fined \$200 Each.

Lum Chue, Chinese, was found guilty by Magistrate McGlynn in the police court this morning of distributing opium and was fined \$500 with the option of 12 months imprisonment. Clara Clark, of Comox Avenue and Oscar Young, chauffeur, also implicated in the case and charged with being in possession of opium, were each fined \$200 with the option of six months imprisonment. The latter was also fined \$10 for driving an automobile without a headlight in contravention of the Motor Vehicle Act.

The cases arose when Sergeant McGlynn and Constable Alex. McDonald found drugs on the floor of the automobile in which the Chinaman, the woman and the chauffeur were driving several days ago.

Kennedy, minister of Railways, are to be congratulated on the fact that they were able to see in Mr. Dawson the qualities which we here all know that he possesses."

AIRPLANE RACE AROUND WORLD

Colonel Broome Made Arrangements for Pacific Section of Flight.

VICTORIA, Sept. 26.—Though planned as a pioneering flight, something in the nature of an aerial race around the edge of the civilized world takes place next summer, stated Colonel L. Broome, the noted British aviator, on his arrival from Japan. He has completed arrangements for the section of the flight between Japan and Canada and has a complete map for the guidance of aviators. Three or more machines will participate.

The flight has been arranged by private syndicate of old country aeronauts for the love of sport and in the interests of aviation.

The Broome party will fly from London through France and the near east. The air ministry will likely be represented as well as two or more British aircraft manufacturers.

DUCHESS APPLES FROM TERRACE

Splendid Samples of Fine Fruit Similar to First Prize Winners

The Daily News is in receipt of a box of fine Duchess of Oldenberg apples grown by L. H. Kenny of Terrace. These are from the same trees that the sample was taken which won first prize at the recent exhibition here and which attracted much attention among visitors. They are fine large fruit of excellent color and flavor and cannot be beaten anywhere.

This sample of apples is another proof of the value of Terrace as a fruit growing district. The time is bound to come in the near future when that district will produce a very large part of the fruit consumed here and throughout the north, for the soil and climate are both right and the fruit is already being grown in small quantities.

A sample of the Duchess apples is on view in the window of McCaffery and Gibbons.

MEIGHEN REPLIES TO PREMIER KING

OTTAWA, Sept. 26.—In a statement issued last night, Ex-premier Meighen declares the Parliament of Canada not only ratified the Treaty of Sevres but gave it definite approval. Meighen's statement was issued in reply to one given out by Premier King last Saturday in which it stated: "There is in reality no Treaty of Sevres and that treaty has never been accepted by Turkey or ratified by Britain or Canada."

C.P.R. DOES NOT WANT P.G.E. SAYS BEATTY PRESIDENT OF COMPANY

VICTORIA, Sept. 26.—No suggestions have been made to the company relative to the purchase of any part of the P.G.E. railway and none will be entertained if made, said E. W. Beatty, president of the C.P.R. here yesterday.

ULTIMATUM TO TURKEY

Must Withdraw Troops From Kum Kalesi Within 48 Hours

CONSTANTINOPLE, Sept. 26.—General Harrington, British commander in chief, sent an ultimatum this afternoon to Mustapha Kemal giving him 48 hours from its receipt to withdraw from Kum-Kalesi at the entrance to the Dardanelles. Kum Kalesi was occupied by the Turkish cavalry last night.

TURKISH SULTAN ABOUT TO QUIT

Breaks Down Following Epithets Directed Towards Him by Mustapha Kemal

CONSTANTINOPLE, Sept. 26.—The retirement of the Sultan from the throne seems imminent. Violent epithets are said to have been directed against him by Mustapha Kemal in interviews which caused painful dismay in the palace. The monarch is said to be in a state of collapse and all audiences have been suspended. Members of his entourage fear that he will be stricken on leaving the palace. Candidates for succession to the throne are being freely discussed.

DAILY EDITION

Tuesday, Sept. 26, 1922.

What Is News?
Asked By Reader.

A reader of the Daily News wants to know what is news and why so many things of little importance are featured. Possibly special reference is to the fact that Carpentier was knocked out yesterday by a negro and that there will now be a scramble to get the right to meet the world champion boxer.

Yesterday there were one or two inquiries made as to what were the war prospects in the near east, but for each inquiry as to war, there were three inquiries as to who won the Carpentier-Siki boxing match. The people were more interested in the boxing bout between the Frenchman and the negro than the possibility of the British Empire being hurled into a world war with all its horrors and miseries.

This answers the question what is news. It is not for a newspaper to dictate to its clientele. Suggestions are always in order but to try to force people to take an interest in that which does not interest them is beyond the powers of a newspaper. If people wish to read about a boxing match, it is for the paper to supply that kind of news. It does not take newspaper editors long to find out what the people want. That is their business. They try to get their fingers on the public pulse and sometimes they try to stem the general trend, but, taken as a general rule, the business of the paper is to supply the news that the patrons wish to read. That means the general average of patrons and not a small section.

Trivial Matters
Become Important.

To a great many people the most trivial matters are important. Many newspapers, it will be noticed, have a humor column on the front page and possibly a story. That is because the editors believe the readers are more interested in that sort of thing than in the news of the day. Whatever will specially appeal to the consumer is placed in the shop window and the front page of a newspaper is the shop window that sells the paper to the public.

Of course editors make mistakes, but it is not long before they feel if something is going wrong. With one finger on the circulation department all the time, it is easy to gauge public opinion. They know better than anyone if the public do not respond to their efforts. Sometimes they make a determined stand in defiance of public sentiment and such policy often wins out in the end if the cause which they champion is ethically and morally right, for the heart of the people is sound. People do not mind opinion with which they differ but they do not like to have to do without the legitimate news of the day.

One Big Family Of
Newspaper Readers.

In a place like this the readers of a newspaper become like one big family and because of that we like to make the paper cater to all their needs and discuss the things in which they are interested. We have here people of all sorts of nationalities and of several races with diverse ideas and ideals. Yet we all have common interests and it is because of that the Daily News tries to be the family paper for the district. In this we know that we are succeeding. There is one thing we all have in common and that is the prosperity of the district of which Prince Rupert is the radiating centre.

In a large district and with so many conflicting interests, we cannot all possibly agree on everything. It is useless to try. We can, however, agree on the fundamentals. We can all work for the north. We are united for the development and prosperity of the district in which we reside and that is the one thing for which this paper stands. We believe in northern and central British Columbia and we feel that the time will come when the north will be the predominating influence in British Columbia.

WHAT CAUSES
HEADACHES?"Fruit-a-tives" Prevents
Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-tives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ATTRACTIVE TERMS
FOR EXCHANGE OF
OLD VICTORY BONDS

The Minister of Finance is offering attractive terms, to exchange Victory Bonds maturing December 1, 1922, for new bonds bearing the same rate of interest and running for a further period of either five or ten years. As an extra inducement a bonus of a full month's interest is given to those accepting the offer which is open until September 30.

The minister's proposals carry us back to the grim war days of 1917 when these bonds were first put out. Under the impetus of the patriotic appeal and the intensive campaign of the first Victory Loan Organization the issue was successful to a degree that the most optimistic had not dared to anticipate. Literally, hundreds of thousands of Canadians became, for the first time, investors in bonds—a result of tremendous importance to the country as well as to the investors themselves. Accumulated savings were invested and surplus earnings for many months ahead were pledged, calling for a very practical response to the "Save and Serve" appeal of the then Minister of Finance.

The 1922 maturity was particularly favored by small investors and, even as it was important to Canada that they should have subscribed in the first instance, so is it desirable now from a national as well as a personal standpoint that their investment should continue. It would indeed be regrettable if any considerable number of the holders of bonds subscribed to under these circumstances should pass over the minister's offer with the idea of using the money at maturity for less sound investments or unnecessary expenditure.

Invested in Dominion securities the money is safe, and the interest return sure and profitable. The minister makes a generous concession to home investors, as a large issue of Dominion bonds were floated in New York last April at 5 per cent.

It is hoped, and anticipated, that there will be a large percentage of re-investors from the ranks of the small investors who purchased bonds for the first time in 1917.

BACK TO STANDARD
TIME NEXT SUNDAY

Daylight Saving Will no Longer be in Effect Here After October 1

On Sunday of next week, Oct. 1, daylight saving time will no longer be in effect and all clocks in the city will be turned back to Standard Time.

Relief will be felt by all transportation interests and by many others of the community whose business brings them in direct contact with the railways and steamers. While summer time has afforded the extra hour in the evenings for recreation during the past season, it has not been unanimously popular here especially in view of the fact that it was not adopted by the transportation companies with the exception of the Union Steamship Line. Many who favored it at the outset have altered their opinions in view of confusion that has been caused on many occasions.

When you buy advertising you buy CIRCULATION, and see that you get it.

SUN'S ECLIPSE
IN AUSTRALIA

Was Viewed by Victoria and Other Eminent Scientists Last Week.

VICTORIA, Sept. 25.—Dr. Young, a member of the Toronto University party which was sent out to Australia in connection with the observations of the total eclipse, sent a cablegram yesterday to Mr. W. E. Harper at the Dominion Astrophysical Observatory, Saanich, reporting that the observations had been very successful, the conditions being excellent. The party were all well.

The Canadian party was headed by Professor A. Chant, professor of astronomy at the University of Toronto, and was joined, as it passed through Victoria, by Dr. R. K. Young. They arrived in Sydney, Australia, the latter part of July, and proceeded by ship around the southern and western coasts of the continent to Ninety-Mile Beach, an isolated and lonely spot on the northern shores of Western Australia. At Perth the Canadian astronomers were joined by the New Zealand astronomers and the party from the Lick Observatory, California, headed by Dr. W. W. Campbell.

Professor Einstein, the proving of whose universally discussed theory of relativity has been the chief cause of the unusual interest in this year's total eclipse of the sun, was expected to join the Dutch party from Java in observing the eclipse from Christmas Island. The path of the eclipse began in Abyssinia on the east coast of Africa, passing eastward over the Maldives Islands, Christmas Island and Australia, and ending a short distance east of New Zealand. The British expedition made its observations from Christmas Island.

The Man in the Moon
SAYS—

IT'S better to be a mudhen than a duck. You are not as likely to be shot.

MONEY is not everything in this world. It is only ninety-nine per cent efficient.

AT a pantomime High Price had to sing a song and the one he chose was "We're Here Because We're Here."

HE exercised with clubs and weights.

As any athlete may He played at handball puffed and blowed.

And never missed a day. And after months of active life The outcome of it all.

He found alas to his despair His dress suit was too small.

THERE has not been much mourning yet by the ducks and geese over the loss of their comrades from the guns of Prince Rupert sportsmen.

AND no sooner is the vacation spent and the money expended when along comes the hunting season and more money is expended and before it is well over Christmas is here and again it has to be spent or expended and a fellow is broke for the rest of the season. Is it any wonder a chap turns bolshevik?

THERE is one thing about having a home, it is a place to take holidays from.

IF anyone takes pride in the work of Christopher Columbus and the other discoverers of this continent, it should be Canadians, especially in view of the conditions in Europe.

IT'S all very well to scoff at matrimony, but it is surprising how many widows and widowers marry again.

THE speech of Mr. Birks at the luncheon Saturday night set old timers telling about the wonders of Centre Street, the doings at the old G. T. P. Inn, the good times they had before there were any streets or sidewalks here and the relative merits of roughing it and enjoying modern comforts, such as we have today.

A MAN arrived in the city the other day with a pocketful of

coppers. He took them away with him after vain efforts to buy something here.

IT'S all very well to be proud of yourself but the first thing is to do something worth being proud of.

THE visit of a noble lord, a belted knight and an earl makes people here feel that after all they are just people much like ourselves.

WHEN next the Montreal Board of Trade goes on tour, we suggest that they step around and borrow one or two Prince Rupert orators to take with them.

IF you wish to avoid bad luck put your hand to your head. In other words, "touch wood."

ONE of the visitors on Saturday spoke innocently of our fine mud roads. We must explain that a paved road is made of concrete, brick or asphalt. A macadam road is either a mud road or a dirt road, according to what part of Canada or United States you come from.

THE worst worry the young people nowadays have is putting up with their parents.

Ten Years Ago
in Prince Rupert

September 26, 1912.

The Anglican Synod discussed the Indian reserve question all yesterday afternoon and a spirited discussion took place in the course of which Canon O'Meara was censured for fomenting trouble in regard to the policy pursued by the church in their treatment of the natives. Indian Agents C. C. Perry and A. Tyson and Wm. Manson M.P.P. were present on invitation.

Two hundred dollars was taken by daring burglars last night from George Frizzell's butcher shop. Entry was made through the rear and the robbery was easy on account of the combination lock of the safe not having been fastened. Mr. Frizzell discovered the robbery late in the evening.

Last evening at the Premier Hotel the first annual banquet of the Earl Grey's Rifles was held. There was a great program of speeches and music.

Persistent advertising is absolutely necessary to success.

CLEARING COUNTRY NEAR DARDANELLES

LONDON, Sept. 26.—Allied military authorities in Constantinople have ordered the evacuation by residents of the villages close to the Dardanelles in the neutral zone protecting Constantinople and the Bosphorus. The allies are making good progress in removing refugees from Smyrna by sea. 11

BIRTH

A daughter was born to Mr. and Mrs. Louis Amadio, of Fourth Avenue East, at the General Hospital on September 25. 11

HATCHERY OFFICIALS ARE VISITING CITY

Dominion Fisheries Party Arrived Last Night After Having Visited Lakeelse and Babine.

J. McHugh, resident engineer of the Dominion Fisheries at Vancouver, C. W. Harrison, superintendent of hatcheries for B. C., J. A. Rodd, superintendent of fish culture, Ottawa, and Charles Bruce, another official of the fisheries department, form a party of Dominion Fisheries officials who arrived in the city last night in the course of a tour of inspection of the different spawning grounds and hatcheries in the province with a view to investigating fish propagation in the province. The party came in last night from Terrace where they visited the Lakeelse hatchery yesterday. They also were at the Babine hatchery. They will leave for the south in the course of a few days, their next points of visit being on Vancouver Island. 11

FISH ARRIVALS HEAVIER TODAY

Fish arrivals were heavier at the Exchange this morning, ten boats having marketed 171,500 pounds. Arrivals and sales were as follows: 11

Senator, 23,000 pounds, at 11.8c and 7c, to the Atlin Fisheries. 11

Arctic, 24,000 pounds, at 11.5c and 7c; Eastern Point, 3,500 pounds, at 11.5c and 7c; James Caruthers, 50,000 pounds, at 11.1c and 8c; Tramp, 5,000 lbs. at 10c and 6c, to Canadian Fish and Gold Storage Co. 11

Sherman, 14,000 pounds, at 12.4 and 7c, to the Royal Fish Co. 11

Happy, 14,000 pounds, at 12.1c and 7c; and E. Neilson, 11,000 pounds, at 12.1c and 7c, to the Pacific Fisheries. 11

Norland, 27,000 pounds, to the Pacific Fisheries, at 12.2c and 7c. 11

BATTLING SIKI IS OUT FOR MILLION

PARIS, Sept. 26.—A cool million francs is what a battling Siki conqueror of Carpentier wants to go to United States to fight Harry Wills on October 26. Manager Berlers cabled Tom O'Rourke, the American promoter last evening to that effect in answer to the offer of \$20,000. 11

ANOTHER LIMERICK CONTEST TO BE HELD

Verses to Deal With Movie Actors and Actresses: Prize a Good One

In collaboration with the Westholme Theatre the Daily News has arranged a Limerick contest for readers of this paper for which a first prize of ten dollars, second prize a pass for two weeks to the Westholme Theatre, and a third prize a pass for one week to the theatre, will be given. The verses must be limericks. No other verses will be available for the prize. The subject will have to do with the actors, actresses, the theatre building or audiences. Anything having to do with the movies will be acceptable.

The verses will be published from time to time in this paper and the prize awarded to the verses adjudged to be the best. The competition is open to anyone, young or old, not necessarily subscribers to the paper. Following is an example of a limerick:

An actor whose first name was Doug.

Was seized by an athletic bug, He married Miss Mary

Whose tastes seem to vary And who led him off home by the lug.

It will be noticed that the verse has five lines, the first two and last of which all rhyme and the third and fourth also rhyme. The length of each line is important. All limericks are alike in form. Here is another taken from the play being shown last night and tonight:

Said Carter de Haven, "My dear, There's only one thing that I fear:

The girls I once knew Will be jealous of you,

And soon may begin to appear."

Send in your verses at once to "Competition Editor," Daily News Office.

ASKING PERMISSION FOR LEVEL CROSSING

City Takes Preliminary Steps Towards Opening of Sections 7 and 8 to Waterfront.

The city council is making application to the G. T. P. Railway Co. for permission to construct a temporary level crossing over its property at Hays Cove and also to change the present cinder path over the right-of-way there to a wagon road. This was decided upon last night following the receipt of a recommendation from the Board of Works to this effect.

In speaking to the report, Ald. Kerr stated that while it was not the policy of the city to build roads over railway property this was considered of special importance since at the present time it would afford a more direct outlet to Sections 7 and 8 especially in view of the closing down of the Hays Creek bridge. The mayor said that the railway company would probably grant permission provided the city took all responsibility of any accidents that might occur. If the road were put in notices would have to be posted notifying the public that they use the road at their own risk.

Ald. McLeod said that the road was needed very badly especially in connection with the supplying of coal to residents in the east end. There would be very little chance of accident and a level crossing there would be even safer than the one at Cow Bay.

BRINGING UP FATHER

MAYOR WILL STUDY CIVIC MANAGEMENT IN CITY KAMLOOPS

The mayor, while at the Union of B. C. Municipalities at Kamloops, will take the opportunity of studying conditions of city management in that city which it is understood, is similar in size and conditions to Prince Rupert. Reply to this effect was given Ald. Kelly who last night requested the mayor to look into the details there of organization of city work, the number of employees, their wages, conduct of utilities and police, etc., with a view to making comparisons and ascertaining if the overhead here was really exorbitant as claimed by some.

Ald. Kerr asked the mayor to take up the unemployment question and also to go to Nelson and see the incinerator there.

HEALTH COMMITTEE PUTS FORWARD NEW MILK REGULATIONS

In View of Recent Destroying of Dairy Cattle in City Found Affected with Tuberculosis.

The city council next Monday night will confer with the medical health officer and local dairymen in connection with proposed amendments that have been recommended by the health committee at the instigation of the medical health officer following the recent visit of Dr. M. Sparrow, provincial inspector of dairies, who ordered 26 local cattle destroyed following their affection with tuberculosis having been discovered. The first recommendation of the health committee as announced by Ald. Kerr last night is that dairy owners be notified that they will no longer be allowed to keep cattle with the city limits in view of the past tuberculosis

affection. The second recommendation proposes the raising of the butter fat standard from 3 per cent to 3.2 percent. Ald. Kerr stated that the fact that 26 cattle had been destroyed had caused anxiety among users of milk. However, Dr. Sparrow had given assurance that every cow now being used was free from tuberculosis. The dairy on Eleventh Street was found by Dr. Sparrow not to be in compliance with requirements but the other was, it being built on a concrete floor. A large number of cattle had been destroyed for tuberculosis during the past few years and the committee felt that it was time something was done.

SILVER IS LIKELY TO GO HIGHER SOON

Mining Men Looking for Improvement Which Will Affect B. C.

The prospect of higher silver prices is giving an impetus to mining operations in Northern British Columbia. There is a general belief that the metal will go higher soon. Speaking of this and its effect in the East the Financial Post says:

Mining men are predicting that there will be an enhancement in the price of silver towards the end of the year and it is understood that some of the large Cobalt operators are holding as much metal as possible to take full advantage of such a rise, so confident are they that there is a rise coming. The control of the silver market rests in London. India has been buying steadily but it is said that China has been more or less out of the market for some time. Her return, it is believed, will force the loosening of the London grip.

Cobalt silver mines have held silver on other occasions when it was believed that a rise was coming and on the last notable

- 36 by 2 1/2 tires for fire truck, \$25 net each.
- 36 by 8 tires for fire truck, \$72.80 net.
- 34 by 4 tires for Packard truck, \$27.20 net.

ALD. KERR IS TO BE ACTING MAYOR

There was a mayoral election at last night's council meeting. Ald. Dybhavn and Ald. Kerr were nominated to fill the duties of acting mayor during the absence of Mayor Rochester at the Union of B.C. Municipalities Convention next week.

Ald. Dybhavn was proposed by Ald. McLeod and seconded by Ald. Perry, the mover stating that he had two reasons for proposing Ald. Dybhavn, first, because he was in charge of the finance department, and second, because it was rumored he was looking for higher honors at the end of the year.

Ald. Silversides and Ald. Kelly put forward an amendment nominating Ald. Kerr.

The amendment on being put was carried, Ald. McLeod being the only one to vote against it with Ald. Silversides, Ald. Kelly and Ald. Montgomery voting for it. The aldermen not voting were declared in favor of the amendment.

WORLD SERIES TALKED ABOUT

Connie Mack of Philadelphia Has Hitherto Won Three Championships.

NEW YORK, Sept. 24.—Baseball's annual classic, the world series, is just in the offing. The fan begins his speculations. For the sake of argument he turns back to series of other years.

What manager has had greatest success in world series? And the answer comes—Connie Mack, christened Cornelius MacGillivuddy of the Philadelphia Athletics. Mack has carried three of his Philadelphia teams to the world championships. Twice he met and defeated John McGraw and his Giants. In the other series Mack triumphed over Frank Chance, the great Cub leader. McGraw triumphed over Mack in 1905.

with the Cubs; Carrigan won two with the Boston Red Sox and McGraw has taken two with the Giants.

The following table shows the winning managers since 1905.

Winner.	
1905—	McGraw, New York Nationals.
1906—	Jones, Chicago Americans.
1907—	Chance, Chicago Nationals.
1908—	Chance, Chicago Nationals.
1909—	Clarke, Pittsburgh Nationals.
1910—	Mack, Philadelphia Americans.
1911—	Mack, Philadelphia Americans.
1912—	Stahl, Boston Americans.
1913—	Mack, Philadelphia Americans.
1914—	Stallings, Boston Nationals.
1915—	Carrigan, Boston Americans.
1916—	Carrigan, Boston Americans.
1917—	Rowland, Chicago Americans.
1918—	Barrow, Boston Americans.

OTTAWA PAPER ON APPOINTMENT

Citizens Discuss Possibility of Minister of Fisheries.

A fisheries commission under the chairmanship of William Duff, M.P., is at present sitting in British Columbia, says the Ottawa Citizen. The purpose of the commission is apparently to inquire into the needs of the Canadian fishing industry. According to the Canadian Press report in yesterday's Citizen, from Vancouver, the president of the Canadian Fisheries' Association, A. L. Hagar, would favor the appointment of a minister of fisheries for the Dominion. L. H. Martell, M.P., also argued that a competent minister with an expert staff, experienced in fish dealing, as well as other branches of the industry, would save the country more than the cost of the proposed department.

The spokesman for the Fisheries Association said that various fisheries' organizations had urged the appointment of a minister, but without results. They would even be satisfied with a deputy minister. But Mr. Duff, in the chair, remarked that if a deputy only were appointed it would not materially alter the present arrangement. Mr. Duff continued, according to the report as follows:

Country Should Know.

The need for a farmer as minister of agriculture and a labor man as minister of labor was recognized today. Why not a man experienced in the fisheries as minister of fisheries, he asked. Mr. Lapointe was an able man, but it did not follow that he was the proper man for the administration of fisheries in Canada.

Mr. Duff's success in the financial side of the fisheries industry at Lunenburg would, naturally, give weight to opinions he may have to offer on the needs of the industry. Before another minister is appointed, however, the country should know what benefits the consumers and producers in Canada may expect from it.

The fisheries commission with Mr. Duff as chairman should find no difficulty putting forward

commissions have sat before however and made recommendations. A parliamentary committee under the inspiration of Mr. Clarence Jameson, as member for Digby, a few years ago, went exhaustively into the questions. The committee's report contained some impressive information and practical recommendations. Perhaps the lack of a minister to put the case before parliament, with the government behind it, would account to some extent for the neglect of the report. Certainly there should be more fish sold in the Canadian market. There are no greater fishery resources anywhere than off the Canadian coasts.

ward impressive evidence of the possibilities of developing the Canadian fish trade, particularly in the home market. But something more will be needed than merely to appoint a minister and expert staff. There must be a policy. The present commission has the opportunity to outline a policy to appeal to the public.

Former Commission.

Commissions have sat before however and made recommendations. A parliamentary committee under the inspiration of Mr. Clarence Jameson, as member for Digby, a few years ago, went exhaustively into the questions. The committee's report contained some impressive information and practical recommendations. Perhaps the lack of a minister to put the case before parliament, with the government behind it, would account to some extent for the neglect of the report. Certainly there should be more fish sold in the Canadian market. There are no greater fishery resources anywhere than off the Canadian coasts.

SHAKESPEARE GOING STRONG IN IDAHO

Former Local Pitcher Said to Be Due for a Berth in the Coast League Next Year.

According to reports that have been received in Prince Rupert from Mullan, Idaho, where Jimmie Shakespeare (Chucker Day) has been playing baseball during the past season, the former local pitcher is making good and has sustained his reputation. Pitching air-tight ball and also going strong in the batting department has marked Shakespeare's achievements. Some interesting clippings are to hand.

One tells of a game in which Shakespeare, pitching for Mullan against Rochester, shut out the latter team and made ten strikeouts, allowing only three hits. The score was 4 to 0.

In another game against Wallace, Idaho, Shakespeare pitched his team to victory by 10 to 2 and contributed to the score himself by making a home run.

Another clipping tells of a defeat for Shakespeare's team by 3 to 4 when he was faced by a pitcher who has since been drafted to the big leagues.

It is understood that Shakespeare is himself due for a berth in the Coast League next

year. Frank Tonneti, who also formerly played ball here is at Mullan, Idaho, as well. For a month he was acting chief of police there.

Sport Chat

The Grotto and Sons of England playing tonight in the Exhibition soccer final will present a new combination for fans with the assurance that one of the two, neither of which have yet carried away a trophy or a championship this season, are to get an honor. Which will be the lucky team seems rather difficult to say. Both of them have been pretty even in quality of play all through the season so they should put up a good tussle on this occasion. A good crowd of fans is expected and they, as well as the players, are asked to be at the grounds on time so that an early start may be made to prevent playing in the dark in the second half.

A few months ago an unknown factor in the world's boxing circles, today the most promising contender for the heavyweight championship of the world sums up the spectacular entry of Battling Siki, who knocked out Georges Carpentier last Sunday, before the eyes of fight fans the world over. Siki's victory means another opponent for Jack Dempsey looming on the horizon. Before he meets with the big American, however, it will likely be necessary for him to take on Harry Wills who is also now in the spotlight as a contender for the world's crown. Siki's win over Carpentier has excited more talk of the game than has prevailed since before the meeting of Dempsey and Carpentier at Jersey City fifteen months ago.

Just as Siki's victory raises his stock so does the defeat of Carpentier have a similar effect in the opposite direction for him. Whether Siki is a new marvel or whether Carpentier has simply hit the downhill trail with a bang it will be necessary for the forthcoming events to prove. Of course, there may be something to the contention that Carpentier was beaten through a fluke. If Carpentier is still as good a boxer as he was a few months ago, Siki must be a formidable man anyway and should be a great rival for the

championship. In any case, in view of recent developments, it looks as if Dempsey will be brought into action to defend his laurels before so very long now.

In dealing with the season's sport in the retrospect the activities of the juniors should not be forgotten. Baseball was the only line that was organized among the younger boys this year and the management of the Junior and Juvenile Leagues by W. J. Cash has met with great success. Good ball has been played and the matches have caused much general interest. Next year it is to be hoped that football and lacrosse will be organized among the younger boys as has been baseball this season. The Lacrosse League has given promise of taking hold of the boys next year and, through the schools, something will likely be done in the football line.

It is very important that athletics should be developed among the youth of the city for these boys will some time be the seniors and to them the fans and all interested in sport look for future material. Already some good talent has developed in the seniors from among the ranks of the boys that may be considered Rupert's Own having practically learned all they know about sport while growing up in the city. The school board has manifested its interest in the development of sport in a material way and many of the teachers have shown an admirable spirit of co-operation. Sport is ever becoming a more important factor in educational curricula.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Dated at Ottawa, 8th August, 1922.

W. S. FIELDING,
Minister of Finance.

CONTRACTS LET SECTION FIVE GRADING WORK

A. Antonelli Gets Two Sections of Work and C. Lundquist, One.

The city council awarded contracts for the Section 5 grading work last night and authorized the mayor and city clerk to execute the contracts immediately in order to have the work started by Sept. 30, four months being allowed for its completion. C. Lundquist, Ed. Brokke, Chris. Rokjaer and Nels Rokjaer secured the contract for No. 1 station and Angelo Antonelli and partners the contracts for Stations 2 and 3.

The tenders were as follows: Station No. 1, rock cut, \$3.79 per yard; Station No. 2, \$3.75; Station No. 3, rock, \$3.70, muskeg, 95c.
C. Lundquist, Ed. Brokke, Chris. Rokjaer and Nels Rokjaer—Station No. 1, \$3.70 rock; Station No. 2, \$3.80 rock; Station No. 3, \$3.70 rock and \$1.10 muskeg.

AMENDMENTS FOR BUILDING BYLAW

Board of Works and Building Commission Put Its Recommendations Before City Council

The city council in committee of the whole last night dealt at length with proposed amendments to the building bylaw and then left the matter over for a week, the Board of Works in the meantime to have a conference with local contractors and builders.

Certain points were accepted as recommended by the building commission and the board of works such as new standards for Class D buildings within the fire limits. These buildings in future will have to have two thicknesses of asbestos paper or one thickness of asbestos paper and one thickness of waterproofing as formerly provided for. All such buildings will also have to be plastered in future, the use of metal or wood laths or plaster-board being optional. Formerly wooden walls were allowed. One layer of asbestos paper and one layer of waterproofing is also provided for in the walls between the shipyard and the outside sheet-piling.

The council found itself getting rather deep into the subject when the consideration of the proposals for Class E buildings came up and decision was then made to leave the subject over until the committee had conferred with the building trades.

It was explained by the city solicitor that the changes proposed had been brought forward by the city engineer to provide as far as possible at this time fireproof buildings in the fire limits. The recommendations had been originally proposed by the fire marshal.

SURPRISE PARTY

Birthday of T. M. J. Fortune Celebrated by Visit from Friends.

A pleasant surprise party was held at the home of Mr. and Mrs. T. M. J. Fortune, Seventh Avenue and Lotbiniere Street last evening the occasion being the

birthday of T. M. J. Fortune.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the Administration Act, and In the Matter of the Estate of Joseph Lapple, Deceased, Intestate. TAKE NOTICE that in order of His Honour F. McR. Young, made the 16th day of September, A.D. 1922, I was appointed Administrator of the Estate of Joseph Lapple, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified to me, on or before the 30th day of October, A.D. 1922, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

JOHN H. McMULLIN, Official Administrator. Dated this 20th day of September, 1922.

CERTIFICATE OF IMPROVEMENT. NOTICE.

"MINERAL SPRING" Mineral Claim, situate in the QUEEN CHARLOTTE MINING DIVISION of QUEEN CHARLOTTE DISTRICT, located on Louise Island. Take Notice that I, Duncan Fraser, Free Miner's Certificate No. 60118, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim. And further take notice that action, under Section 37, must be commenced before the issue of such Certificate of Improvements. Dated this 14th day of September, A.D. 1922.

ROYAL YEAST CAKES RICH IN VITAMINES

MADE IN CANADA
The importance of Vitamines in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. Send name and address for free copy "Royal Yeast Cakes for Better Health."

birthday of Mr. Fortune. Those present were Mr. and Mrs. N. M. McLean, Mr. and Mrs. J. J. Gillis, Mr. and Mrs. H. McGillivray, Mrs. Alex. McDonald, and Mrs. Brown. The evening was delightfully spent with cards and music and light refreshments were served, the proceedings being brought to a close by the singing of Auld Lang Syne.

CITY TAX SALE WILL TAKE PLACE SATURDAY

Finance Committee Will Find Auctioneer Outside City Hall at Fee of \$50.

The annual city tax sale will take place next Saturday and the finance committee has been instructed by the city council to appoint an auctioneer at a fee of \$50 to take charge. The committee brought in a report last night recommending the appointment of E. A. Woods, city clerk, as auctioneer, but this did not meet with the approval of Ald. Montgomery and Ald. Silversides, who moved an amendment giving auctioneers in the business in the city a chance for the work. It was provided that if no auctioneer will take it on for \$50 Mr. Woods will then be appointed. Those voting against the amendment were Ald. Perry, Ald. Dybbavn and Ald. McLeod, who felt that Mr. Woods was best fitted to carry out the work.

RAT FISH IS FOUND FLOPPING ON ROAD

Picked up by Motorist 150 Feet From Sea Alive and Kicking

VICTORIA, Sept. 25.—While driving over the Malahat at 3 o'clock in the morning, one of the drivers of Cameron & Caldwell's sightseeing cars bound from Alberni to Victoria, came across what is known as a rat fish, the circumstances of the discovery being rather unusual.

In the glare of the lamps the driver noticed something which he thought to be "rounded pheasant" flopping around on the highway. Stopping the car he was amazed to find that the creature was a fish. He placed it in the car and brought it to Victoria, where it is now on display at the C. & C. Government Street department.

As there are numerous crabs around the mudflats of Finlayson Arm, it is believed that one of the birds dropped the fish while flying over the highway, the point where the fish was found being about 150 yards from the nearest water.

The fish is a strange looking creature, and though the Pacific Coast forms the haunt of such fish, none of them have ever been discovered in local waters, particularly in Saanich Arm.

Arthur M. Gee, a student of Queen's University and resident of Victoria is spending the day in the city and leaves on the train eastbound this evening. He is about to commence his fourth year in medicine.

GIRL RUN DOWN BY MOTOR BOAT WHEN SWIMMING; INJURED

SANDUSKY, Ohio, Sept. 25.—While bathing at Cedar Point, Sunday afternoon, Lena Finberg, 15, daughter of A. Finberg, West Market street, was run down by a motor boat and painfully injured. That she was not killed is probably due to the fact that she dived when she saw the boat almost upon her.

According to the girl, three men and a boy were in the boat, and the man who was at the wheel was looking backward, watching another boat and aquaplane. The boat passed over the girl's back and when she came to the surface again, she did not realize that she had been hurt. The occupants of the boat called to her, asking if she was all right, and when she answered in the affirmative, went on, their identity not being established.

A moment later the girl discovered that she was bleeding and went ashore. Then it was found that flesh had been torn from her back. Dr. Charles Graefe was called to attend her Monday.

The accident occurred near the Braunstein cottage on the Chautauque. It is the first of the kind ever known here.

LYDD GEORGE WOULD LIKE TO SEE MOOSE HOME IN STATES

WASHINGTON, Sept. 26.—Premier Lloyd George of England, wants to be shown over the children's institution at Mooseheart, Illinois, established by the Loyal Order of Moose, and presided over by Secretary of Labor Davis.

The British premier expressed this desire to Secretary Davis in a letter received by the secretary congratulating him on his recent book, "The Iron Puddler," which is based on Mr. Davis' own life. Mr. Davis being a Welshman like Lloyd George, told a story which appealed to the British statesman.

Following is Lloyd George's letter: "While trying to snatch a short holiday I have been reading your autobiography, which you so kindly sent me. I have found it most fascinating. The early chapters describing your up-bringing in Tredegar conjured up memories of my own childhood. What especially attracts me is the drama of the struggle of one who, tutored in the hard school of the world and framing the alphabet of life from the letters of his own experience, still keeps bright his faith in his fellow men and still cherishes the ideals inspired by a Welsh home.

"I was also greatly attracted by the conception and fulfillment of the Mooseheart scheme, and if I go to America I should very much like to be shown over the institution.

COMPANY OF BARBERS FORMERLY SURGEONS

None of Members Now Practice Profession

LONDON, Sept. 26.—A reminder of the survival of the ancient trade guilds in London, long after their members have ceased to have any connection with trades they ostensibly represent, is provided by the election of Sir Samuel G. Sheas as Chairman of the Company of Barbers for the ensuing year.

Sir Samuel never was a barber, and if any of his ancestors ever were he has forgotten it. And the same is true of all the members of the company. But they are very proud of the old traditions which the company once maintained, and get together on stated occasions to eat a general dinner, washed down with good wine, and listen to speeches about the good old times.

The company is an ancient one. It was incorporated in 1161, and 50 years later an act was passed which prevented any persons not members of the company from practicing surgery within seven miles of the City of London unless they had been licensed by the Bishop of London.

Barbers were versatile folk in those times, combining the avocations of surgeon and dentist with the work of trimming hair and beards.

WESTHOLME THEATRE

Tonight, Tuesday
