Irish Government Asserting Itself

SENATE FINALLY DEFEATS BRITISH COLUMBIA'S LIQUOR BILL

House Prorogues After Failing to Pass Liquor Bill

OTTAWA, June 28.—British Columbia has lost out on her proposed liquor importation monopoly. She does not get it this year. After a conference which delayed prorogation until 1:30 this morning, the committee of the House of Commons and the Senate came to an understanding on two of the bills passed by the Commons which the Senate refused to accept and the Commons adopted the bills without the proposed amendments. They affect the sale of certain liquors in Alberta and the right of the British Columbian Government to control the imports of liquor. The result is that the situation in regard to these two regulations is unchanged.

Following the completion of its work, Sir Louis Davies, chief Justice, in the absence of the Governor General, then declared Parliament prorogued.

The Commons filled in the hours of waiting with songs and friendly fighting with other papers and bills, the speaker having left the chair.

Premier Mackenzie King announced in the House that Parliament would meet again in January and that a redistribution bill would be brought down early next session. There will be no general election in the interval. Prorogation of the House was tentatively fixed for 9:30 last night as it was hoped to complete the business by that time. Disagreement with the Senate caused the delay.

Deplores Refusal.
VICTORIA, June 28.—Hon. A. M. Manson issued a statement last night deploring the Senate's refusal to grant the province the right to control the liquor imports. Without this right, the attorney general said, it would be impossible for the province to administer the Moderation Act to the best interests of British Columbia.

INDIAN BAND CONTESTS AT FAIR AGAIN

Meeting of Board Was Held Last Night—Committee Appointed for Popularity Contest.

It was decided at the meeting of the Fair Board last night to hold the Indian band contest again this year in connection with the exhibition and all the prospective contestants are to be notified and contracts forwarded under similar conditions to last year.

The refreshment stand concession both in the building and on the grounds was awarded to Killas & Christopher.

A special committee comprising Jack Venables, D. C. Stuart, R. E. Benson and W. E. Thompson was delegated to take charge of the proposed popularity contest. Plans for this feature are now under way.

There were present at last night's meeting President F. G. Dawson, Manager J. Venables, and Directors W. E. Thompson, W. J. Kirkpatrick, Ald. Silversides, Ald. Kelly, R. E. Benson and M. M. McLachlan.

VETS PLANNING FINE BUILDING

Execution of \$10,000 Memorial Work Now But Awaits Approval General Meeting Friday

The executive of the Great War Veterans' Association will submit to the general meeting called Friday night perfected plans for the erection of a \$10,000 permanent concrete building on the association's property on Third Avenue. The money is all available for the building and plans and specifications have been prepared by H. L. Landrey. All that remains is for the general meeting to accept the proposal and tenders will then be called for the erection of the building.

The building, which the association proposes building at this time, will be 60 feet long, 25 feet wide and 25 feet (two stories) high and will be of a permanent nature built of cement. It will be located directly behind the present building which will remain as it is at present. It is the plan to house the association club entirely upstairs when the new building is built and the entire ground floor of the new building and the present one, which will be joined up, will be rented.

At a later time it is hoped by the association to replace the present frame building which will remain for the time being, with a permanent structure thus making one entire 100 foot by 25 foot two storey solid structure which will be a fitting memorial for all time.

COUNTY CRICKET

Middlesex beat Hampshire in first innings.
Yorkshire beat Kent by 10 wickets.
Lancashire-Warwickshire, rain.
Cambridge University vs. Essex, drew.
Somerset beat Worcestershire in first innings.
Surrey beat Sussex in first innings.
Nottinghamshire beat Northamptonshire in first innings.
Oxford University beat Leicestershire in first innings.

FISH ARRIVALS.

Five halibut boats marketed catches at the Fish Exchange this morning as follows:
Pair of Jacks, 16,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9 1/4c and 4c.
Lumen, 8,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9 1/4c and 4c.
Star, 14,000 pounds, and Brothers, 9,000 pounds, sold to the Pacific Fisheries at 9.8c and 4c.
Marguerite, 6,000 pounds, sold to the Sinclair Fisheries at 10c and 4c.

NOT SELLING B.C. HOUSE

On Advice of Agent-General it is Decided to Hold On

VICTORIA, June 28.—Following the advice of F. C. Wade, agent-general in London, and others, the Oliver Government is averse to selling British Columbia House in London to the Federal Government, Premier Oliver announces. He has wired Premier Mackenzie King to that effect.

Premier Oliver adds that he will gladly have the federal offices as tenants if arrangements can be made with the present lessees of offices in British Columbia House, which is now netting about \$50,000 a year in rentals.

PRINCE ALBERT IS RESUMING SERVICE

G. T. P. Steamer Sails From Vancouver on Sunday, with Capt. McLean on Bridge.

The Grand Trunk Pacific steamer Prince Albert will resume her general coast freight service next Sunday when she leaves Vancouver for Ladysmith to load coal, then coming north with general cargo arriving at Prince Rupert towards the end of next week.

Captain Neil McLean, chief officer of the Prince George who is in port today, will take charge of the Prince Albert and will transfer on Saturday on arrival at Vancouver. William Gleason second officer of the Prince George, will also go to the Prince Albert as chief officer. Edward Mahbs, chief officer of the Prince John, will come to the Prince George as chief. Captain McKernan will remain on the Lorne and Captain Nodden on the John. With the resumption of the Albert in service, there is also a change in the Steward's department. W. J. Pinnell, second steward of the George, going as chief on the Albert, George Giles taking the post of second on the Prince George.

Rumors to the effect that the Prince Albert had been chartered by the Hudson's Bay Co. for a voyage to the far north were contradicted by the officers of the Prince George today.

METHODISTS VOTE AGAINST WOMEN IN PULPITS OF CHURCH

TORONTO, June 28.—Returns show that the quarterly official boards of the Methodist Church in Canada voted by a very small majority against the admission of women to the ministry. The matter will come up for the general conference in September.

CONSTABLES MEET.

VICTORIA, June 28.—The 18th convention of Chief Constables' Association of Canada opened here this morning. Mayor Marchant and members of the city council extending the city's welcome. The session will continue three days.

The Grand Trunk Pacific Coast liner Prince George, Capt. W. S. Moorehouse, arrived from the south today at 12:10 noon with 120 passengers and a good cargo of freight. Good weather with a northwest wind was reported all the way up the coast.

PREPARING TO REPAIR SCHOOL

Orders For Materials Are Being Placed—To Advertise For Foreman

STUCCO PEBBLE DASH TO BE USED ON WALLS

Steps are already being taken by the school board to effect the repairs to the Booth Memorial School as recommended by Architects Whittaker and Jeffers, although actual operations will not commence until Mr. Jeffers returns to the city in the course of two or three weeks time. Last night he sailed for Vancouver to arrange for the securing of some of the materials to be used including the arco-seal preparation. Bricks were ordered by Mr. Jeffers from Medicine Hat before he left the city. The suggestion for the waterproofing of the building by using stucco pebble dash with a cement gun put forward by Mr. Whittaker has been adopted. The board is to advertise for a working foreman for the job who will be appointed on recommendation of Mr. Jeffers.

FOREST FIRES DESTROY CAMPS

Railway and Cars at Menzies Bay, Vancouver Island Go Up in Smoke.

VICTORIA, June 28.—Forest fires on Vancouver Island north of Courtenay are causing great havoc. At the Portage Logging Co. plant at Menzies Bay, the concern lost the entire camp with fifteen railway cars and half a million feet of cedar logs. Three bridges were destroyed.

Reports indicate that all logging camps north of Campbell River are in danger. No less than 230 new forest fires have broken out in various parts of the province during the past six days. This brings the total for the season up to 747. Of these Prince Rupert district had 148, Cariboo 53 and Prince George 96.

Persistent advertising is absolutely necessary to success.

Irish Fight Irish For Control in Dublin and I.W.W. Fortify Building

DUBLIN, June 28.—The Irish provisional government took forceful action today against insurgents of the Irish Republican Army, invading the Four Courts Building where the insurgents were entrenched and opening with a hot attack when the demand for surrender was ignored.

The premises in North Great George Street, occupied by the Communist party and the I.W.W. as headquarters, was fortified after the government attack on the Four Courts Building had begun and government troops fired upon them from a tower of the fortified building. The battle which commenced at an early hour this morning is continuing.

The copper dome on the Four Courts Building had been blown in at 8:30 o'clock last evening, ambulances dashing about in all directions and the scene was one of confusion. The garrison of the Four Courts and Fowler Memorial buildings were replying vigorously to the attackers fire and refused all demands to surrender.

DUBLIN, June 28 (later).—Fighting which opened shortly after 4 a.m. is still in progress. At noon an attack on the insur-

PRESENTS PREMIER WITH CLOCK AND VASE OF ROSES.

OTTAWA, June 28.—Liberal members before the House assembled last night presented Premier Mackenzie King with a clock and silver vase, the latter filled with roses. Hon. W. S. Fielding, in making the presentation, said the Premier had achieved the difficult task of leading a party which did not have an actual majority in the House.

AMERICANS NOT INTERESTED IN EUROPE TODAY

Price of Wheat is All They Think About Says Chief Justice Taff

LONDON, June 28.—Chief Justice Taff of the United States Supreme Court told a British audience today that America was not likely to pay much attention to European politics unless the price of wheat was affected.

The former president in addressing the English speaking Union, said: "To a man in Cincinnati, Chicago, St. Louis, or in the west, Europe seems very far away. What is happening on this side of the ocean does not interest him very much unless the price of wheat or other commodities is affected."

SOVIET WINS OUT

Delegates Accede to the Request That Credits be First Matter at Conference

THE HAGUE, June 28.—Determined to go the limit in conciliation, Europe's delegates acceded to the request of Russia that credits receive the first consideration at the financial conference here, which opened today.

All Knights of Pythias please attend special meeting of Skeena Lodge, Wednesday, 28th at 8:30 p.m. Official visit of Grand Chancellor Gardner and conferring of Grand Lodge rank on past chancellors. W. C. GILCHRIST, C. G. H. M. DAGGETT, K.R.M.S.

Polytechnic Institute Scheme is Outlined for Whole of This District

A scheme of night school work on technical and other subjects for those who have left school but who wish to improve their condition has been outlined by John Pinder-Moss, the man who organized the Anox Polytechnic Institute, and a copy of the outline is now in the hands of the city council, it having been sent by the Anox Community League for their consideration. It is a pretentious scheme, cleverly worked out and very comprehensive. It may in some respects be open to criticism, but on the whole the idea is good if it can be carried out.

Mr. Pinder-Moss mentions the conditions which obtain in this north country and the desirability of giving everyone a chance of an education. Young people often leave school early and after they leave they begin to realize their condition. To these people as well as to the more ignorant who wish to learn, the scheme will appeal.

The plan points out that in the old days the apprenticeship system provided for the technical education of the young. Today the apprenticeship system is gone and there is little left in its place. The establishment of continuation schools would fill the need. There are already technical schools in the larger centres but in northern British Columbia there are none.

The writer goes on to say that a technical school in Prince Rupert would benefit only a small part of the northern people. His scheme is rather to take in all the surrounding communities and incorporate them in the scheme. He would include such places as Anox, Alice Arm, Stewart, Terrace, Hazelton, Smithers, Telkwa, Burns Lake, and a number of smaller places, both on the mainland and on the islands. In that area there are reported to be 18,000 people.

It is pointed out that from experience in other places from 15 to 17 per cent of the population take advantage of continuation classes. That would give from 2,700 to 3,060 people in the area mentioned who would wish to study. If the percentage were ten percent, then there would be 1,800 students. At Anox there are 12 percent of the population taking advantage of the classes. The people there enjoy the work and express their appreciation of the opportunities offered.

To Small Communities.
These advantages Mr. Pinder-Moss would bring, not only to Prince Rupert but to the smaller communities throughout the district. The scheme would be carried on as part of the present educational system and the fees of the instructors would be largely paid for by the Government. The sympathy and co-operation of the rest of the community would be necessary.

Classes would be conducted in subjects having to do with the development of the resources of the country such as mining, fishing, farming, building, paper making, and auxiliary trades, professions and industries. The name "Northern British Columbia Technical Institute" is suggested and it would consist of a co-ordinated course of study throughout the whole area, guided and controlled by the one central body.

Mr. Pinder-Moss estimates the cost of the scheme at approximately \$7,000 for the first year and \$6,000 for each succeeding year. This would be borne out of grants made from the various districts served on a percentage basis, according to population. This with the Government grant would pay the salaries of the (Continued on Page 4.)

C.P.R. VESSELS CALLING HERE

Board of Trade Asks That Time For Visitors be Extended

At their meeting yesterday afternoon the Council of the Board of Trade passed a resolution urging the C.P.R. to allow the Alaska steamers to make a longer stop than at present here on their way to and from Skagway. It was pointed out that on some of the trips the passengers were told that the boat would start just as soon as the purser returned from clearing the vessel, no definite time being stated. The passengers complained a good deal about not being able to make small purchases in town which they had intended to do.

It was decided to write Capt. Troup and the head of the C.P.R. passenger department as well as the local agent in regard to the matter with a view to securing a longer stay in this port.

GOLD FOUND CLEARWATER

QUESNEL FORKS, June 28.—Al. Pierce, Edward Gladwin and Jack Sackner, who left six weeks ago for Clearwater country, returned with samples of gold which they struck in large quantities on Blue Lead Creek, sixty miles from Quesnel.

HEAD OF KNIGHTS OF PYTHIAS FOR PROVINCE IS HERE

R. J. Gardiner, grand chancellor of the Knights of Pythias lodge for British Columbia, arrived from Grand Forks on the Prince George today. Mr. Gardiner is visiting all the lodges of the province and will be here until tomorrow evening when he will go south to Powell River, Victoria and Vancouver. Tonight there will be a special meeting of Skeena, Lodge No. 45, to meet Mr. Gardiner and perform Grand Lodge ceremonies and tomorrow evening there will be a banquet and public installation of Pythian Sisters' officers.

NEUTRAL TERRITORY ON ULSTER BORDER HAS BEEN DECLARED

BELFAST, June 28.—A strip of neutral territory on the Ulster border in Pettigo and Beleck districts has been declared a neutral zone and both sides are asked to refrain from hostile acts there in the best interests of Ireland. If the experiment succeeds, the neutral zone will be extended to the whole Ulster border.

Longer Stop Here For C.P.R. Vessels.
 As a result of complaints made by passengers on the C.P.R. steamers, the Council of the Board of Trade yesterday decided to write the officials of the company asking that the Alaskan vessels of their line be allowed to make a longer stay in this port. Passengers wish to spend some little time here in order to see the city and its industries and to make small purchases in the city. This they are sometimes unable to do, owing to the short time the vessels remain here.
 Probably the C.P.R. officials have never realized that the passengers on their vessels were interested in Prince Rupert or they would have made the change long ago.

Uselessness Of Senate.
 The closing of Parliament draws attention once more to the uselessness of that appendage of Parliament known as the Senate. The old men who sit there deal with a number of divorce cases and pass on bills which have been considered at length in the other House. It is the old men's home for politicians, the place where the "has beens" are sent, where they may putter away their remaining days in playing at lawmaking.
 Canada cannot afford to keep up such an interesting relic just now, but the difficulty is in ridding ourselves of the incubus. It would be necessary to get the old men to vote themselves out of business in order to secure a change in the British North America Act which would make the thing legal. It would be an admission on the part of the old men that they are a useless body and that they are accepting the people's money under false pretences.

The Liberal party had a plank in its platform years ago advocating the abolition or reform of the Senate. So far, however, nothing has been done, owing to the difficulty in getting the Senators to see why they should be reformed. As long as they do not put obstructions in the path of legislation they are allowed to remain. It will take some big contest between the two Houses to draw public attention to the uselessness of carrying a payroll of that kind without getting return for the money expended.

City Utilities Under Discussion.
 The city utilities have been under discussion a good deal of late and that largely through the lack of information available. The Daily News has published several articles dealing with the matter, one of which was taken from the annual statement of the city auditor and the other the result of a recent meeting at which all the officials of the department were present as well as the deputy minister of finance of the province.
 In view of the divergent views expressed and of the desire of the public for information, it seems as if an authoritative statement should be given out over the signature of the mayor and the chairman of the utilities committee, which would explain the whole situation and let the people see how their utilities are paying. There is too wide a spread between the figures given out by Alderman Montgomery that the utilities have made a profit of \$100,000 and the other that they have lost \$3,000. The probability is that neither are correct.

Must Allow For Depreciation.
 Any business such as that conducted by the city must allow a large percentage for depreciation. There will have to be a new power plant soon, which means that the old one is virtually scrapped. There will have to be a new telephone system installed, which means that the old one will be of little value. When the old plants are set aside they must have been paid for if the books of the city have been properly kept. The depreciation on plants such as those used by the city is very nearly ten per cent. That is what a business firm would write off each year. If this has been done and there is still a good margin of profit, the people should know it and they should know it officially. If, on the other hand, it is shown that there is not a good margin of profit after setting aside a proper sum for overhead and depreciation, then the people who own the plants should be so informed. It is easy to juggle with figures so that the ordinary person does not understand them. What is needed now is a plain statement of fact without any camouflage.

R. G. Johnstone, manager of Inverness Cannery, returned from the south on the Prince George today.

Thursday and Friday, 20 per cent off all plants. Large assortment. Brehaut & Easson, Third Avenue. 151

Inspector A. E. Acland, of the Royal Canadian Mounted Police, returned today from a trip down the coast.

S. W. Taylor, of Williams, Manson and Gonzales, is sailing for Vancouver on a business trip tomorrow night.

Dance at the Rink, Friday night, under the auspices of Adair Carss and Sons of Canada. Westholme Orchestra. 151

Will George Ellis, Watson communicate with cousin, Grace O. Parker, 125 South Huntington Avenue, Boston, Mass. 1f

Mrs. D. H. McDonald and son expect to leave tomorrow night for Spokane where they will spend the summer visiting.

Pythian Sisters and Knights attention. Public installation of officers on Thursday, June 29, at 8:30 p.m. in the K.P. Hall.

Harry Platts, charged with breaking and entering and stealing, was dismissed in the police court this morning, the charge having been withdrawn by the informant, Jessie Manning, with consent of accused.

G.W.V.A. Special General Meeting will be held on Friday, June 30 at 8 p.m. to discuss the plans for the proposed new building so that tenders may be called for the erection. All returned men are cordially invited to attend. 151

Mr. and Mrs. S. B. Neill, of Hong Kong, are in the city today enroute to the Old Country. They arrived in Vancouver last week on the maiden trip of the Empress of Canada, came north on the Prince George this morning, and will resume their long trip East on tonight's train.

The scheme for a technical institute for the whole of this district as outlined in an article in this paper today was brought before the council of the Board of Trade yesterday and passed over to the monthly meeting to deal with. It was received from the Anyox Community League.

Bids are solicited for the following skins: Forty-eight beaver, fifteen marten, three mink, three fisher, two wolverine and one black bear. Peter Morrison, who is offering them is expected to arrive in the city tonight from Hazelton.

The Council of the Board of Trade was called yesterday to make representations in regard to getting a preferential freight rate on fish shipped at this port. Owing to the lateness of the arrival of information and the fact that Parliament was expected to prorogue no action was taken.

CONSTIPATION BAD HEADACHES FAINT, DIZZY SPELLS

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after, until some serious complication sets in. A free motion of the bowels daily should be the rule of everyone, then there will be no constipation, sick or bilious spells, dizziness, heartburn, coated tongue, foul breath, sour stomach, floating specks before the eyes, jaundice, water brash, etc. Keep the bowels properly regulated by the use of

MILBURN'S LAXA-LIVER PILLS and you will enjoy the best of health. Mrs. Frank Willsey, R. R. 3, Belmont, Ont., writes: "I have been troubled with constipation for nearly two years. I had bad headaches, faint and dizzy spells, and would bloat terribly. I was nearly discouraged for I had tried so many things that gave me no relief. My mother got me a vial of Milburn's Laxa-Liver Pills and told me to give them a fair trial. After I had taken one vial I felt much better and continued their use. Now I have no faint and dizzy spells and am gaining nicely. I would not be without Milburn's Laxa-Liver Pills for the world." Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

POLYTECHNIC INSTITUTE SCHEME IS OUTLINED FOR WHOLE OF THIS DISTRICT

(Continued from Page 1).

director and teachers and provide such equipment as it was necessary to purchase.

Training Desirable. In conclusion the Anxox director says: "Should this project receive the public support that it justly deserves it would be necessary that business men in all walks of life, should recognize the responsibility that the future devolves upon them. We cannot hope to have experienced workmen, men who can be trusted to carry out essentially technical work to a successful conclusion unless we give them every opportunity and help, which is reasonably ours to give. There are very few scientific colleges or universities that can afford the expense of installing all the machinery and equipment that is necessary for a good technical training. We here in the North, on the other hand, cannot hope to find the money for the erection of such a school, let alone the equipping of the same. Unless our business men are prepared to come forward with assistance, many hundreds of men and women are going to be robbed of the opportunity of a technical training which they justly deserve. I believe that our business men are broad minded enough to realize this difficulty and are sufficiently shrewd to appreciate the advantage that such a training would be in the furtherance of their own business, that they would equip the use of their plants and equipment at convenient times to those who wished to learn and climb life's ladder of success. We want trained men and women and I see no other way to train our unskilled labor than in the manner here set forth.

Supply Deficiency. "It was stated at the outset that the apprenticeship system had to a large degree fallen down the reasons were given why this is so. It is for technical schools and institutions of the type that I advocate to supply the deficiency. We want to take the man who is apprenticed as a machinist, for instance, and teach him the subjects upon which his success as a machinist is to be built. We want to take him through a course, spread over a certain number of years, and teach him those exercises in mechanics with which he does not come in contact in his daily work. But that is not the most important item in the education which we would wish to offer him. We want to educate him generally, all around the work he has elected to follow; to give him a knowledge of drafting; of mathematics; chemistry; of applied mechanics; of commercial letter writing and composition and of commercial geography so that he may the better be enabled to equip himself as a true craftsman, in order that he may be a credit to his employer, to the Union to which he belongs and the country in which he lives.

"The same remarks apply to all branches of technical and commercial education whether for men or women. Supplement the shop work with study which is going to increase the speed and efficiency of the individual. "From the institute, after satisfying his instructor and passing examinations in his subjects he will receive certificates and class credits and when he has completed the course in all the co-related subjects, he will receive a diploma.

Obtain Recognition. "It is then up to the public to prove whether the hours spent in burning the midnight oil will be appreciated and recognized. Similar diplomas are recognized in other places by both employers and unions, and apprenticeships are shortened for those who can produce them. It would be the Director's duty to obtain the same recognition for students of the institute.

And surely it would be to the interests of public progress and commercial prosperity for the citizens to get behind and help along such students who have used their time to good advantage. There is no reason why Prince Rupert, in the years to come, should not be the home of a great technical, commercial and industrial institute, worthy of the Province, a credit to the city and at a low overhead expenditure."

Ten Years Ago in Prince Rupert

June 28, 1912.

A. S. B. Lucas has been appointed to superintend the engineering and construction of the dry dock being built at Hays Creek.

The city council has protested against the government granting any further water or foreshore rights to the railway company whether in return for the grant of the site for federal buildings or not. There was a lengthy discussion of the question at the council meeting last night.

The city clerk's adding machine is to remain in the city hall in spite of the fact that Ald. Bullock-Webster thinks it should be returned to the makers. The matter was dealt with last night and some heat developed between Ald. Bullock-Webster and City Clerk Woods in connection with Mr. Wood's "pet."

Supply Deficiency. "It was stated at the outset that the apprenticeship system had to a large degree fallen down the reasons were given why this is so. It is for technical schools and institutions of the type that I advocate to supply the deficiency. We want to take the man who is apprenticed as a machinist, for instance, and teach him the subjects upon which his success as a machinist is to be built. We want to take him through a course, spread over a certain number of years, and teach him those exercises in mechanics with which he does not come in contact in his daily work. But that is not the most important item in the education which we would wish to offer him. We want to educate him generally, all around the work he has elected to follow; to give him a knowledge of drafting; of mathematics; chemistry; of applied mechanics; of commercial letter writing and composition and of commercial geography so that he may the better be enabled to equip himself as a true craftsman, in order that he may be a credit to his employer, to the Union to which he belongs and the country in which he lives.

"The same remarks apply to all branches of technical and commercial education whether for men or women. Supplement the shop work with study which is going to increase the speed and efficiency of the individual. "From the institute, after satisfying his instructor and passing examinations in his subjects he will receive certificates and class credits and when he has completed the course in all the co-related subjects, he will receive a diploma.

Obtain Recognition. "It is then up to the public to prove whether the hours spent in burning the midnight oil will be appreciated and recognized. Similar diplomas are recognized in other places by both employers and unions, and apprenticeships are shortened for those who can produce them. It would be the Director's duty to obtain the same recognition for students of the institute.

And surely it would be to the interests of public progress and commercial prosperity for the citizens to get behind and help along such students who have used their time to good advantage. There is no reason why Prince Rupert, in the years to come, should not be the home of a great technical, commercial and industrial institute, worthy of the Province, a credit to the city and at a low overhead expenditure."

The little ball game is not at all tame. When we cheer And we jeer And make it clear We're the winning side Then we cheer again For we fear again We shall not win Without a din.

Harvey leads us all As Easson hits the ball Then we shout And yell about Some lazy loud Who ought to hop around All the bases at a bound For we cheer him on. There's nothing to queer him on For we're out to win That's why we make a din.

MORE UNEMPLOYED IN CITY PAST FEW DAYS

J. M. Campbell, Agent, Reports an Increase in Number of Job Seekers Here.

James Campbell, of the Provincial Government labor bureau, reports an increase in the unemployed list in the city during the past few days, the number now standing at 70. This is accounted for by the number of floaters who have reached the city recently from Vancouver and Edmonton. Some had come to the district to work on the railway and the Anxox dam but did not stay with their jobs. A few men are being sent right along to the various logging camps, the Anxox dam and the railway. The tendency for men to come from the prairies, where there is plenty of farm work, to the coast is still apparent.

"BITS OF LIFE" SEEN AT THE WESTHOLME

Marshall Neilan's latest "First National feature, "Bits of Life," which is to be seen at the Westholme tonight is another innovation in motion picture production.

The film was recently shown to a gathering of prominent motion picture producers in Los Angeles who were unanimous in their prediction that it would establish a new type of motion picture entertainment.

Offering as it does four separate and distinct stories, "Bits of Life" presents the short story magazine idea on the screen in a manner never before attempted. Each story has a different type of plot, the first episode disclosing a satire, the second a comedy-drama, the third a melodrama and the fourth a farce which is expected to send the patrons away with a laugh. In selecting his four stories, Mr. Neilan drew from the works of writers who were prominently identified with the respective type of plot they offer in this picture.

Mrs. J. P. Walsh arrived on the Prince George this morning from Vancouver to visit her parents, Captain and Mrs. F. T. Saunders, Digby Island.

BENEFIT GAME WELL ATTENDED

Close Football Match Between Sons of England and Selected Team.

There was a splendid turnout last night at the Acropolis Hill grounds to witness the benefit match for Bert Wearmouth, who unfortunately suffered a football injury recently. The contest was between the Sons of England and a team selected from the league resulting in a 3-2 victory for the League Selected. The game was well contested throughout and was very clean in play.

The teams lined up as follows: Sons of England—Stockdale, goal; Lamb and Kelsey, full back; Mansell, E. Craggs and A. Craggs, half backs; Hodgson, Wiggins, Tinker, Farquhar and Butters, forwards.

League Selected—Martin, goal; Menzies and Kinghorn, full backs; Davis, W. Anderson and J. Hynd, half backs; Kilday, Warren, Mackintosh, Kirby and Marks, forwards.

Bob Mercer acted as referee.

First Half.

The teams took the field with the Sons of England kicking on the down grade. From the kick-off the Sons got away and Farquhar tried Martin with a long shot which went over the bar. The Selected then took a fancy to the leather and Kirby tried Stockdale without effect. Kilday for the Selected forced a corner but nothing matured.

The Sons got away with Hodgson on the run who passed to Farquhar but the ball was too far ahead. As the result of a determined and spirited dash by Kilday of the Selected who was playing a good game, and consequent help by Mackintosh at centre, Kilday got the ball at his toe in front of Stockdale and beat him with a swift shot.

From the centre the Englishmen brought the ball down and Butters tried Martin who cleared efficiently. Tinker then tried Martin with a drop shot but nothing happened.

The League pressed Stockdale hard but the Son's custodian was very sure and made some excellent saves. The Englishmen made a combined dash and Tinker beat Martin with a swift ground ball. With the score evened up, both sides played with a determination to win. From the centre the Englishmen got away and Wiggins tried Martin with an awkward shot which was tipped round the post. During a scrimmage in front of Martin, the ball was fouled and a penalty was awarded the Sons. However, there seemed to be an element of doubt about the matter and Tinker did not take advantage. Farquhar for the Sons made several fine dashes but was unable to find the net. From a corner kick in favor of the League, Kirby headed in past Stockdale thus putting the score at 2-1 in favor of the League Selected at half time.

Second Half.

From the commencement of the second half the League Selected boys made a bold bid for victory and Kilday tried Stockdale with a shot which hit the bar. The Sons were equally determined however and the scene of play was quickly transferred to their opponent's stronghold, but after a combined raid on Martin and nothing resulting, Menzies and Kinghorn cleared the way for the League forwards to get the ball. A corner against the Sons taken by Marks resulted in Kilday backing the ball past Stockdale thus notching a third point in their favor. During strenuous midfield play Ernie Warren got his face slightly in-

IMMIGRATION AND LABOR MATTERS AT T. AND L. COUNCIL

Regular Meeting Held Last Evening—8 Hours Day Observance to Be Asked For.

When Hon. T. D. Pattullo, Hon. A. M. Manson and Hon. Dr. W. H. Sutherland, provincial cabinet ministers, visit this city early next month they will be waited upon by a committee of the Trades and Labor Council with a request that steps be taken to have the eight-hour day put into effect at various industrial points along the coast. Decision to this end was made at the regular meeting of the council last night in view of several complaints that have reached the council recently.

A letter from the Vancouver Unemployed Association on immigration matters was also read and discussed at the meeting. The missive, which condemned all immigration generally, came for endorsement but this it failed to receive. The council took the stand that the bringing of bona-fide settlers for the land with sufficient means to carry on for themselves might be endorsed but that financial assistance by the provincial government for outsiders on the land should not be encouraged while there was still unemployment in the country. More information on the land settlement policy of the provincial government is to be asked from the Minister of Lands.

A communication from Hon. James Murdoch federal minister of labor on labor problems was left in abeyance until the return of Fred Stark, M. P. from Ottawa.

Celebrate Labor Day.

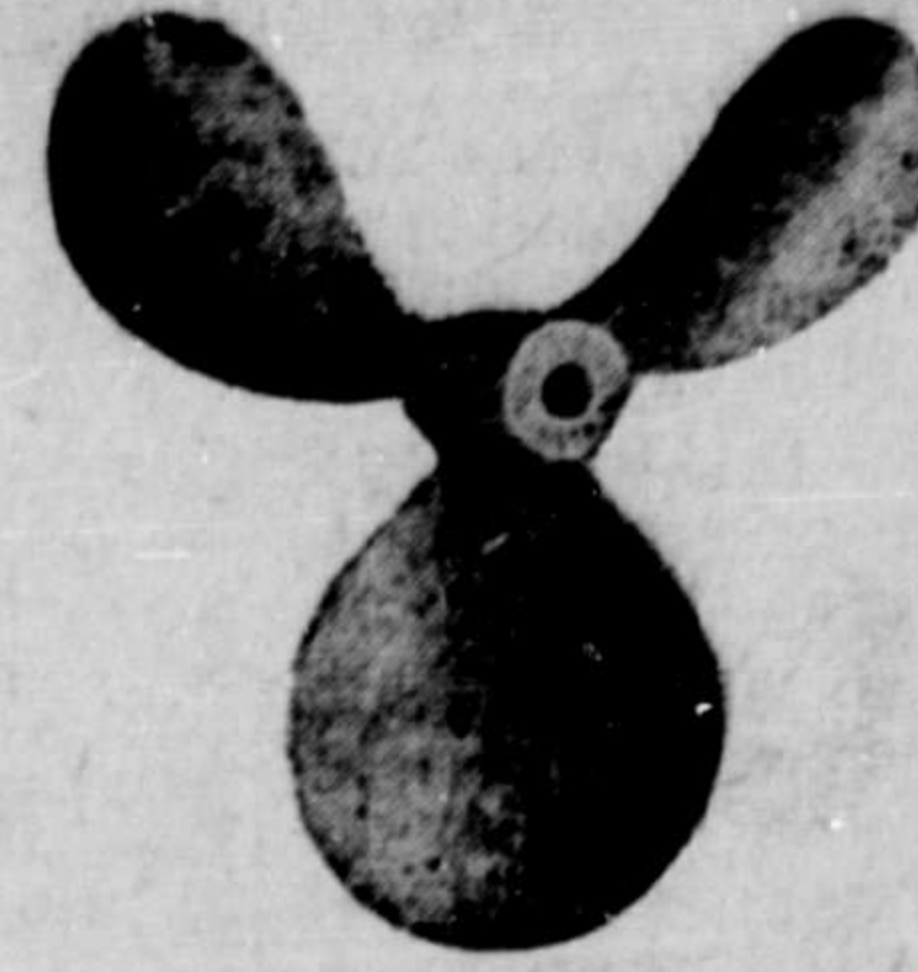

The first steps towards the holding of the Trades and Labor Council celebration on Labor Day were taken and it was decided to ask the city council for the use of the Acropolis Hill grounds on that day.

The letter from the Anyox Community League regarding the establishment of correlated continuation schools throughout the north was referred to a special committee. It will likely be endorsed with modifications.

S. D. Macdonald, president of the council, was in the chair and there was a good attendance of delegates. Remarks were made on the recent renovation of the interior of the hall.

D. W. Wilson, of Sunnyside reached the city yesterday afternoon.

jured which incapacitated him for a few minutes. The play throughout the second half continued to be of a backward and forward nature, with possibly the League in the ascendancy.

As the result of good forward work the Sons worked the ball to within shooting distance of Martin, and Tinker scored for the second time. The game resulting in a 3-2 win for the League Selected.

P. McGowan and A. Clapperton carried out the duties of linesmen in an efficient manner.

Subscribe for the Daily News

Greater interest than ever has been aroused in the Senior Baseball League race as a result of the last two fixtures played. Besides lying the standing up, these games have shown conclusively that all three teams are closely matched and are an indication that many a good hot game is in store for fans during the rest of the season. While the quality of baseball in the city this year may not be any better or as good as in past seasons, the interest and enthusiasm is as great as it ever was before and certainly greater than last year.

The Knights of Columbus have now been eliminated from the contest for the Dominion Day Cup prize on account of their defeat by the Elks on Monday night and the Elks and Sons of Canada will compete in the finals on Saturday. The first prize is to the value of \$50 and the second to the value of \$25. It is just a case now of who gets the big prize and who the little one. Both teams are confident of winning the day's laurels.

The first inter-town baseball game of the season between Van-

derhoof and Prince George took place at Prince George last week and proved to be one of the most exciting games ever played between the two associations, Vanderhoof winning by a score of 11 to 10. W. Johnson pitched throughout for Vanderhoof while Conrad and White shared the Prince George box.

The Mine is now well in the lead for the Anyox baseball pennant says the Granby News. The Elks, who once looked unbeatable are in second place, the Smelter is well down the lower rungs of the cellar ladder. No team has yet a claim on the town championship and all three have chances. The schedule is creating a great deal of interest in the smelter town.

Arrangements have been completed at Anyox for the meeting of the Ketchikan Baseball club and an all-star Anyox aggregation on Dominion Day. On account of the splendid performances which have been given in the Town League series at the smelter town, the Granby baseball players and their supporters are confident that they will give a good account of themselves before the visitors from Alaska.

The newspaper with the circulation is the real advertising medium.

NEW SILVER MONEY

Soviet Issuing Coin Which Eventually Will Replace Notes.

PETROGRAD, June 28.—New silver money which in time the Soviet government hopes to put in circulation to replace, partly at least, the paper ruble of today is being coined in the Petrograd mint, the only existing plant of its kind in Russia. The mint began operating several months ago; up to the present time it has manufactured 5,000,000 rubles in silver of denominations of 10, 15, 20, 50 copecks and 1 ruble pieces. The coins contain 90 percent silver and ten percent copper, and in general appearance are much the same as those in use before the war. Close inspection, however, shows that the Soviet coat of arms has replaced the old Imperial eagle. Another striking feature is the Bolshevik motto "Proletariat of the world, unite" on the reverse side. The new coins are sent to Moscow where they are held as part of the government reserve. When sufficient quantity has been assembled the government contemplates using them as a form of guarantee for paper money to be issued in the future. Ultimately it is hoped to put them generally in circulation, and thus obviate the present necessity of calculating in billions and millions for the needs of every day life.

The new coins are sent to Moscow where they are held as part of the government reserve. When sufficient quantity has been assembled the government contemplates using them as a form of guarantee for paper money to be issued in the future. Ultimately it is hoped to put them generally in circulation, and thus obviate the present necessity of calculating in billions and millions for the needs of every day life.

PRINCE GEORGE

RI. Rev. A. E. dePoncier, bishop of Cariboo and New Westminster is paying a visit to the district. He presided at the church services on Sunday, held confirmation on Monday and visited McBride on Tuesday.

Mrs. F. McB. Young, of Prince Rupert, is here visiting with her son, Alex McB Young, Miss Marguerite Young also arrived from Toronto where she has been attending the Conservatory of Music. Mrs. Young and Miss Young will leave shortly for Prince Rupert.

A. G. Hamilton, one of the pioneer traders of the district, passed through the city last week enroute from Stuart Lake to Vancouver, where he now resides.

John Flower has left for a six week's holiday trip to Green Bay and Milwaukee, Wisconsin, where he will visit relatives.

Terry Johnson has arrived in town to spend the summer with

his parents, Mr. and Mrs. Albert Johnson.
Misses Laleah and Jean Robertson, daughters of Judge and Mrs. Robertson, arrived last week from Vancouver, where they have been attending convent, to spend the summer with their parents.

Hon. T. D. Pattullo, Hon. A. Manson and Hon. Dr. W. H. Sutherland are expected to pay a visit to this district about the middle of next month.

The prospector named Mc-Donough, who was seriously ill in his cabin near the headwaters of Willow River, has been brought to the city by the provincial police and is now in the hospital here.
