REVOLUTION BREAKS OUT IN GREECE TODAY

TWO MONARCHS LOSE CROWN ONE DAY: PREPARE TO DEFEND THE STRAITS

Revolution in Greece Seems to be Entirely Successful and King Constantine has Abdicated Throne

LONDON, Sept. 27.—A bloodless revolution has taken place in Greece. King Constantine has abdicated and the fleet has gone over to the revolutionary party. The people are excited and surge through the streets of Athens and gather outside the public buildings.

Reuter says that authoritative news has been received of the abdication of the king. The Central News says the abdication was without reservation.

PARIS, Sept. 27.—An Athens despatch says the insurrectionists who have nine destroyers and naval aeroplanes besides 2 warships have landed troops at Cape Colonna, southeast of Athens on the peninsula. Martial law has been proclaimed.

ATHENS, Sept. 27.—King Constantine has accepted the resignation of the cabinet which quickly followed the reception of two ultimatums from their cruiser Lemnos. In accepting, the king said he entirely put aside any idea of resistance which would bring as a result a civil war in Greece.

The Crown Prince has abandoned his proposed journey to Roumania for the royal marriage.

BANDITS GET \$7,000 FROM UNION BANK

Ten in Party Which Escapes in
Autos and Probably Gets
Across Boundary.

WINNIPEG, Sept. 27.—Robbers entered the Union Bank of Mooseomin, Saskatchewan, this morning and escaped with \$7,000 cash.

This is the third western branch of the Union Bank that has been plundered within recent weeks. Ten men were engaged in the operation and several shots were fired although nobody was hurt. The wires were all cut. The bandits got away in autos taking the loot with them.

The authorities believe the robberies have been conducted by gangs operating from the United States as all the towns robbed have been close to the border.

BRITISH SHIPS HASTEN TO EAST

Dreadnought, Cruisers and Light-
er Craft All Bound For The
Dardanelles

MALTA, Sept. 27.—The British light cruisers Cerberus, Catsfort and Caledonian, the torpedo boat destroyer and a flotilla was ordered to leave last night for Constantinople. The flotilla will be accompanied by torpedo boat destroyers and one submarine.

The British dreadnought Centurion arrived here today en route to the near east.

PREPARATIONS FOR PEACE CONFERENCE

ROME, Sept. 27.—Instructions have been sent to the authorities at Venice to resume preparations for the near east conference.

SALMON INCREASED

VANCOUVER, Sept. 27.—Indications are that the increase of the B.C. salmon pack this season over last year will reach 200,000 to 250,000 cases.

Salmon Reach the Spawning Grounds of Skeena River and Promise for Future Runs Good

That the spawning areas of the Skeena River waters, in which are located the Babine Lake and Lakelse Lake hatcheries, have been well seeded this year through a heavy run of sockeye salmon and that there has been a record large collection of eggs at the two hatcheries which should mean a good return crop four years hence is the report of J. A. Rodd, superintendent of fish culture for Canada. Mr. Rodd, with an official party, is now in the city after having spent some time at Lakelse Lake, Babine Lake and Stuart Lake in the course of an inspection tour of existing plants operated by the Department of Fisheries and a general survey of conditions at other points with a view to obtaining first hand knowledge regarding requirements and also for the purpose of laying out a program for the next few years. Besides Mr. Rodd, the party includes Charles Bruce, of Ottawa, fisheries engineer for Canada, J. McHugh, of Vancouver, resident engineer for B.C., and C. W. Harrison, inspector of hatcheries for B.C.

Mr. Rodd says that conditions were found very satisfactory at the three points visited in Central British Columbia. The hatcheries, and their surroundings, were in exceptionally good condition and the prospects were favorable indeed. The sockeye salmon prospects and results might be compared to those of agriculture. Not only had the hatcheries been well seeded this year but the creeks had had plenty of spawn in the natural way. Therefore, like a farm, if future conditions were favorable, as present appearances would indicate they would be, there should be a good crop of sockeye salmon four years hence.

Sockeye Eggs Collected
To date, 8,500,000 sockeye salmon eggs had been collected at the Lakelse hatchery and 6,000,000 at Babine Lake. It was apparent that the plants would be filled to capacity without difficulty. In fact, they could hold only a few more thousand eggs than were in them now. This year there had been twice as many eggs collected at Lakelse hatchery as last year. This meant that there would be double the crop of fry. The collection of eggs at Lakelse had been better this season than in any past year since fish breeding had been established there. The hatchery had undoubtedly improved the run in the entire Lakelse system, including river, lake and tributary creeks. A similar statement

could be made for Babine Lake although the hatchery was located at the lower end in Hatchery Creek and, as yet, the whole of Babine Lake had not been affected directly from the hatchery. It had, however, built up the heaviest run they had seen in the whole trip in a creek where, before, the sockeye had been very limited in numbers. The fish had always run in good numbers in Fulton and Fifteen-Mile Creeks and these were again well seeded by natural means.

Seeding Abundant
In addition to the hatchery collections there were also plenty of fish in the streams to seed them abundantly by natural means. In fact there had possibly been too many fish and natural results might have been better with half the number. As it was the numbers getting through to the spawning grounds had been so great that they had fought and the spawn of first runs had been dug up by later runs.

Mr. Rodd would not be drawn into making predictions for the future and would only state that the seeding had been abundant this year and that naturally there should be a good crop. However, there were always means of destruction which could not be governed. Sometimes, the spawn was lost through receding waters or freshets but the water was so low now that there was little danger of further receding. It was his opinion however, that the destruction of salmon came mostly in the Ocean.

Visit Down Coast.
Mr. Rodd and his party will leave here tomorrow on the fisheries protection steamer Giverny to visit points down the coast. Conditions will especially be examined at Rivers Inlet hatchery and the entire system surrounding it including Owekano Lake, Kennedy and Anderson Lakes on the west

REGIME OF SULTAN OF TURKEY CEASES

CONSTANTINOPLE, Sept. 27.—The Sultan's regime has ceased and Hamid Bey, Nationalist representative, has been appointed by Kemal governor of Constantinople.

HEARST FORCES SELF TO FRONT

Trying to Secure Election as
Governor of New York as
Step to Presidency.

NEW YORK, Sept. 27.—The democratic state convention which opens tomorrow finds William Randolph Hearst making frantic efforts to regain the ground he lost when his support was swamped in last week's primaries.

It is reported that Hearst hopes to win the nomination and the Governorship of New York as the first step to the presidency of the United States two years hence.

He was at first thought that the primary setback had shattered his ambition but Hearst papers have been campaigning to line up delegates favoring the anti-British publisher. As a result Hearst is now conceded a chance for the nomination even by his bitterest opponents.

WALTER JAYNES OF TERRACE IS FATALLY SHOT

Shotgun Accidentally Discharged
Pellets Entering Heart at
Close Range.

Walter Jaynes, of Terrace, accidentally shot and killed himself this morning with a shotgun, the pellets entering his heart at close range. His wife, who was with him at the time, states that the tragic accident occurred when the deceased slipped and fell, the gun discharging.

The provincial police here have been notified. In the absence of Coroner J. H. McMullin, who is in the south, Coroner Conway of Anxox, will conduct an inquest as soon as he can reach the scene. Mr. Conway will arrive from Anxox tomorrow night on the Prince George and will proceed by the first train after his arrival to Terrace.

CAR WAS STRUCK BY TRAIN, TWO KILLED

SASKATOON, Sept. 27.—When their automobile was struck by a Canadian National train at Winter, Sask., P. W. Charleson of Victoria, B. C., and wife were instantly killed. The driver of the car was injured.

coast of Vancouver Island will also be visited as well as Gowichan Lake further south on the Island. The party will inspect all the hatcheries on the Lower Fraser River, Harrison Lake, Pitt Lake, Cultus Lake and Pemberton Lake.

Mr. Rodd had no announcement to make as to future policy or larger undertakings that may be started by the department but stated that lesser repairs and extensions to existing plants would be made immediately.

OTTAWA MAY CALL SESSION

Eastern Situation Not So Encouraging: King in Close Touch

OTTAWA, Sept. 27.—The changed complexion of the near east situation gives rise to renewed anxiety and watchfulness in Ottawa. For several days it seemed that the situation would right itself making military operations unnecessary but things look now less promising.

The Government is watching closely ready to take whatever measures may seem necessary. Confidential messages from overseas keep the Government in touch with the trend of affairs.

If an extraordinary session of Parliament to consider the question of sending a contingent is decided upon it is expected not more than two weeks will elapse from the call is issued until Parliament assembles.

MRS. KERGIN ON RAILWAY TRAIN FOR FIRST TIME

One of the Delegates to Liberal
Convention At Nelson Accompanying Her Husband

NELSON, Sept. 27.—Included in the party of delegates to the provincial Liberal convention here are Mr. and Mrs. H. F. Kergin, of Alice Arm. Mrs. Kergin's trip is like Alice's first trip into Wonderland. It is the first time that the wife of the Altin member was ever aboard a train and everything from the dining car cuisine to the making up of Pullmans was new to her. "I was brought up in Victoria and during my seventeen years residence there I never had occasion to enter a train," she said. "When I married Bert and went north to live I went to a place where there are no trains. I have travelled scores of times on steamers but until I got on this train I had never set foot on a car platform."

Ready to Fight.
H. G. Perry, M.P.P. for Fort George, and P. J. Moran are here from Prince George ready to fight if necessary on the convention floor for the completion of the Pacific Great Eastern to their town and its extension into the Peace River valley.

M. A. Macdonald, K. C., of Vancouver will be candidate for re-election as provincial president.

Yesterday Premier Oliver spent all day at the home of his son in Penticton sawing siding lumber and keeping two carpenters busy taking this exercise as a preliminary to his platform building at the convention.

NAVY OFFICIAL OF U.S. DO NOT UNDERSTAND NEWS

WASHINGTON, Sept. 27.—A Paris despatch announcing that Vice-Admiral Long, of the American Navy, has gone to Constantinople to direct possible naval operations is not understood by officials here. They state that participation of American warships in any demonstration against the Turks is not part of the present American policy.

British are Preparing to Defend Dardanelles Against Turkish Forces

LONDON, Sept. 27.—British preparations to defend the Dardanelles continue and additional battalions of Highland light infantry and Scottish Borderers and Fusiliers are leaving for the near east.

CONSTANTINOPLE, Sept. 27.—An unofficial forecast says the Kemalists reply to the allied peace note contains conditions unacceptable to the allies in that the Nationalists insist upon using the straits for transporting troops to Thrace before beginning the peace conference.

The British are busy strengthening their lines and checkmating every move of the Nationalists.

New naval and military units arriving daily are impairing Kemal's chances of successfully attacking the straits. The British fleet now includes six dreadnaughts, seven battle cruisers, twenty cruisers, several submarines and giant aircraft carriers. The presence of this great armada and the increase in the British land forces by 30,000 reassures the Christian population.

Block Expected Advance
British forces have advanced from Chanak to Kusukaul, seven miles south to block the expected advance of Turks toward Chanak.

Turkish forces have appeared at Therar, the summer quarters of the allied diplomatic corps, only a few miles from Constantinople.

It is reported that the reply of the Turks to the allied peace note has been completed and comprises acceptance of the conditions laid down with certain reservations.

IMMENSE WARSHIPS ARE ON THEIR WAY TO THE DARDANELLES

MALTA, Sept. 27.—The super-dreadnaughts Ramillies, Centurion and Malaya and three light cruisers and a third destroyer flotilla are expected here bound for the near east.

PREMIER OLIVER AND B.C. FRUIT

Sees Product Thrown to Pigs and
Makes Plans to Save it in
Future

NELSON, Sept. 27.—Seeing a truck load of cull apples sold in Okanagan towns for \$10 a ton as hog and cattle feed and five truck loads of Penticton peaches being hauled to be thrown to the pigs upset Premier Oliver yesterday so that plans to place B. C. made cider on the coast market even if it takes an amendment to the liquor control act to make it possible.

The premier on his journey from the coast paid 35 cents for a dish of sliced peaches at breakfast on the train.

BRITAIN TELLS RUSSIA WHERE SHE GETS OFF

Must Become Civilized Before Can
be Admitted to League of Nations

LONDON, Sept. 27.—The British reply to the demand of Russia to be included in the proposed conference at Venice will be that this conference is a continuation of that which resulted in the treaty of Sevres. On this ground Russia is inadmissible.

Regarding the control of the straits, the reply of Britain is that the straits will be controlled by the league of nations and all that is necessary for Russia to share in their usefulness will be for her to become civilized and join the league.

ALLIES UNITED RE DARDANELLES

British Will Advance on Kemal-
ites if Withdrawal Not
Carried Out

PARIS, Sept. 27.—It is officially declared that France is in accord with the allies in making the strongest efforts to keep the Turks out of the neutral zones and has notified Kemal to vacate the position near Chanak.

LONDON, Sept. 27.—It is stated here that unless the withdrawal of the Turkish forces from the neutral zone is completed according to the ultimatum to that effect sent yesterday ordering them to withdraw within 48 hours, the British will move on the Kemalists.

FISH ARRIVALS

Six Boats Marketed 50,000 Lbs.
at Fish Exchange This
Morning.

Six halibut boats marketed 50,500 pounds of fish at the Exchange this morning, the arrivals and sales being as follows:

Lenore, 14,000 pounds, at 12c and 7c; Daily, 21,000 pounds, at 12.5c and 7c; and Agnes B., 6,500 pounds, at 10.1c and 7.5c, to the Canadian Fish and Cold Storage Co.

Wabash, 3,000 pounds, at 12c and 7c; to the Canadian Fish and Cold Storage Co.

Mayflower, 1,000 pounds at 10.1c and 7c to the Royal Fish Co.

Ethel June, 5,000 pounds at 10.1c and 7c to the Altin Fisheries.

Trade Relations
Should Be Improved.

There should be improved trade relations with the United States. That is something that would particularly benefit Prince Rupert and also it would benefit the people of the United States. If the understanding is not mutually beneficial it is unjust.

Just now an impost of two cents a pound has been placed on Canadian caught fish. In enforcing the collection of the duty and making sure that Canadian fish is not sent into the United States as American, it has become necessary, apparently to place burdens on the import trade that is bound to make the fish expensive when it reaches the consumer.

The halibut is all international before it is caught. It is bred in the high seas and belongs to nobody in particular. Boats go out to catch this fish and at once it becomes national. Some of it is Canadian and some American. The Canadian fish has to pay duty to enter the United States and the other is able to go in free, provided it is properly branded so that there is no doubt about it being American fish.

There is every reason why the United States and Canada should have reciprocal relations. Already the United States is given the privilege of using the Canadian inside passage from Seattle to Alaska without being compelled to call at a Canadian port each way. That is a special privilege given to United States only. Also there is a reciprocal arrangement in regard to the protection of seals. This arrangement is very injurious to Prince Rupert because our boats could go out sealing and bring the pelts here were it not for the international treaty. The treaty could be annulled at any time and then there would be a considerable industry spring up here which would benefit our fishermen. Eventually the seals would be all destroyed but in the meantime we should have the fun.

There are numerous other advantages the United States gets from friendly relations with Canada. There probably are advantages Canada gets although we cannot just now recall them. At any rate the general policy of reciprocal trade relations are an advantage to both. Trade should be as free as possible, both in the interest of the producer and the consumer.

Victory Of Turks
Causes Uneasiness.

The victory of the Turks over the Greeks is causing a certain amount of uneasiness in the adjoining countries. Victory has given the Turks power and it is at once seen that Russia and the neighboring countries are anxious for similar power attained in a similar way. They are beginning to assert themselves.

Britain is taking steps to safeguard British interests in that region and to see that there is no surprise sprung that will cause trouble there. She has learned that preparedness is the price of peace. Strength is the surest safeguard. She has been most careful in refraining from hostile action, even in face of provocation, but the enemy must not overstep the bounds or they will find themselves in trouble.

The Dardanelles neutral zone was established by treaty and the treaty right must be maintained at all cost, else why arrange treaties?

League Of Nations
Not Very Effective.

The League of Nations is not very effective. It has no power of enforcing its decisions and even if it had, any one determined power could get an immense advantage long before the league had finished discussing the issues. While the league may be useful as a means of getting the nations together and providing for the discussion of outstanding international problems, there are times like the present when it is of little value.

Should The Turks
Have Constantinople?

The question of the disposal of Constantinople is one that is being discussed in every country of the world. It is undoubtedly a Turkish city and is also the centre for the Mohammedan religion and therefore the Turks have a peculiar claim on it. It is arranged that the city be given back to Turkey after being administered by Britain since the war under a mandate from the powers. The health of the city has been improved and the administration has been efficient. In spite of this there is a sentimental objection to its being controlled by a foreign power. It will again be administered by the Turks in their own way and if the administration is not a good one they will be the sufferers. As a matter of fact the Turks are likely to improve in matters of government, especially since they have seen the advantages of the orderly conduct of affairs.

The Man in the Moon
SAYS—

FINDING out what the public thinks is something like finding out what a rabbit drinks. Neither does it.

THERE is one industry that the dull days encourages. Some of the men are again beginning to turn their thoughts to poker.

AND just as we got the new maps printed and were thinking of learning the whereabouts of some of the European countries, along comes Kemal and causes the atlas to be out of date.

THE young man remarked that this cold weather chilled him to the bone so he must get a thicker hat.

THE dictionary shows no difference between the meaning of sight and vision but just you call the young lady "a sight" when you meant to say "a vision of delight" and see if there is any difference.

KNOWING from oft repeated maxim that wealth does not bring happiness, a young couple tried poverty and you ought to have heard the language in which they cooed at each other.

THE jealous you have always with you.

THERE is always some big world event to look forward to. Just now it seems to be the next scrap with Battling Siki and the playing of the world series.

IF you notice your companion suddenly become thoughtful and commence to scribble on a slip of paper, you will know he is working out a limerick that will win the ten dollar prize in the theatre limerick competition.

ONE of the stirring problems of the day the settlement of which everybody is awaiting is whether Siki really tripped Carpenter or did the Frenchman just double up around the Negro's foot.

WHAT is the difference between an ordinary million and a cool million. Jinks says he'd take a chance on either.

Ten Years Ago
in Prince Rupert

September 27, 1912.

The concluding session of the Anglican synod took the form of a public meeting in St. Andrew's Hall last night. Interesting addresses were delivered by the two pioneer missionaries, Rev. J. B. McCullagh, of Aiyansh, and Rev. F. L. Stevenson, of Bulkley Valley. Following were the conveners of various committees elected: Indian Committee, Archdeacon Collison, of Kincolith; Executive Committee, Archdeacon Collison; Sunday School commission, Rev. E. C. Burch; Board of Governors Anglican Theological College, Archdeacon Collison, Moral and Social Reform, Archdeacon Collison.

The Kirmess and Minstrel Show held last night in the Westholme Theatre was a great success. The house was crowded and the singers and dancers were of the best. Professor Douglas was director and those taking part included Miss Dorothy Hendricks and Miss Effie Kyle, of Seattle; E. J. Waterman and minstrels, Harry Fletcher, A. Clapperton, Maurice Corkill, W. Brown, J. Russell, J. Kerry, Numa Demers, Miss Shorey, Miss McKay, Miss Jean Bailey, Miss Moya Bailey, Miss Doris Partullo, Miss Mabel Westenhaver, Miss Lily Shrubbsall, Miss Ethel Gray, and Miss Lottie Casley.

Persistent advertising is absolutely necessary to success.

KEMAL PASHA
IS DESCRIBEDFamous Turkish Leader is Keen
Patriot According to British
General

Major-General Sir Charles Townshend, M.P., in a letter to the London Times, contributes the following character sketch of Kemal Pasha, the victorious Turkish commander:

Piercing blue eyes, fair hair, a diminutive close-cropped mustache (these are the salient features of Kemal Pasha, the force behind the Turkish push, that impressed me when I met him face to face at Konia only a month ago.

He is a man of middle height, and he wore at the time of our meeting plain clothes—the knickerbocker breeches were well cut and rather in the English style—sporting stockings, and on his head the universal "kalpak" of astrakhan, in a larger size than usual. The distinctive and useful feature of this "kalpak" is that it may be worn with either uniform or plain clothes. In appearance it closely resembles the fur caps of the Russians and the Persians.

Adored by Army

Kemal, as far as I have been able to judge, is adored by the army and the populace, and it is in vain that the propaganda agents strive to represent that there are divisions in the Kemal ranks. In Constantinople actually ninety per cent are for Kemal, and the Turks in Anatolia support him to a man. His orders are obeyed implicitly, his rule is an iron one beneath the velvet glove, and under him the government of National Turkey works smoothly and well. His will is law.

Kemal Pasha speaks little unless it is on a subject which vitally interests him; then he is eloquent. For example, one night when dining with me we discussed for a long time Napoleon's campaign of Austerlitz in 1805. This campaign provides one of the very few examples where Napoleon attacked the enemy's center; his usual method was to hold his adversary in front with a minimum part of his force, whilst he delivered his principal effort against one of the enemy's flanks.

Higher Tactics

When I went in to dinner I certainly had no idea that I was going to have a discussion on Napoleon's strategy and higher tactics. We both agreed that Napoleon's doctrine is as valuable today as it was one hundred years ago, and I discovered that Kemal is an enthusiastic admirer of Napoleon's campaign in Italy in 1799. I mention this in order to show that Kemal is a close student of military history—as every soldier who aspires to military warfare must be.

Laborious and indefatigable to the point of excess, Kemal is always at work, and possesses a wonderful grasp of European politics and affairs. This is all the more remarkable as his education was purely a military one received at the Ecole de Guerre in Constantinople. He was in the Tripoli campaign, and later served in several theatres of the war; his best service was in the defence of Gallipoli, and it was for this service that Liman von Sanders had him promoted to the command of an army. He was afterwards on the tottering front of Palestine, where the Turks in the final stages were hopelessly outnumbered.

Out for Liberty

Kemal was Inspector-General of the Turkish Army in Asia Minor after the armistice in 1918, and his patriotism came into prominence after the occupation of Constantinople by the Allies, when the Nationalists ran to arms.

Kemal is a patriot; he is out for liberty and independence—Turkey for the Turks—and he desires peace, but an honorable peace; His terms are the immediate evacuation of Asia Minor by the Greeks. He says: "How can I trust assurances that the Greeks will evacuate after four months, as was said in the Paris Conference last March, when, in the middle of the London Conference last year, during an armistice, the Greeks suddenly launched their offensive?"

"Will you try to persuade us that the British Government did not know of that offensive being prepared?" he remarked to me. "If you can convince me of that,

then can you persuade me that the British Government could not have stopped that offensive by raising a finger?"

PRINCE GEORGE

A dispute has arisen between Special Policeman James Todd and the police commission over the payment of reward for bootlegging convictions. Todd was engaged by the mayor on the understanding he would receive \$5 per day wages and \$50 for each conviction secured. Three convictions were made through Todd and the police commission rejected the claim for reward as well as wages. The matter was taken to the city council and has now been referred to the city solicitor.

There were 18 applications for the position of janitor of the city hall and high school. John Hill secured the job at a salary of \$120 per month.

The Montreal Board of Trade excursion party made a thirty minute stop here on Sunday evening from 9:30 to 10 o'clock.

Carl G. Johnson, who spent the past five years in Prince George and vicinity, leaves this week on a holiday trip to his old home in Stegersrud, Millersvik, Sweden.

Mayor Johnson and Dick Corliss made a hunting trip to Fort George canyon last week and returned with two fine moose.

H. G. Perry, M.P.P., P. J. Moran and W. Somerton left last Sunday for Nelson where they will attend the Liberal convention. Other delegates from the district are W. E. Wall, McBride, W. J. Hooker, Dome Creek, Dr. O'Hagen, Lucerne, Mrs. E. B. Smith and R. McCorkell, Vanderhoof.

Charles W. Frederick, managing editor of the Peace River Record, passed through the city last week enroute home after having spent a three weeks' holiday at the coast.

SUCCESSFUL HUNTERS AT KENNEDY ISLAND

O. P. Smith, Ben Grossett and W. A. Bell Got a Deer Apiece Yesterday Morning.

O. P. Smith, captain of the launch Billy Boy, Ben Grossett and W. A. Bell were the members of a successful hunting party which returned last night from Kennedy Island with one fine buck apiece. They were away for two days, Monday and Tuesday, but only had one morning's real hunting, yesterday. They report the going tough for it was necessary to go clear to the top of the mountains to find the deer, there being none lower down. The fine, warm weather recently and the fact that there is no snow whatever on the hills yet, keeps are quarry high. Members of this party are not so enthusiastic about again tackling the job of packing a full sized deer down from the mountain tops.

The trip was made on the Billy Boy.

Dance in De Luxe Hall tonight 9 to 1:30. Gentlemen 75c, Ladies 50c. Refreshments, Arthur's Orchestra.

Take **BEECHAN'S PILLS** for Constipation

For Cody's Transfer, Baggage and Coal, phone 178, night or day. 1f

Miss Mary Hughes returned to the city today after having spent a two-month holiday visiting in Oregon and on Vancouver Island.

Fred Harrison failed to answer to a charge of intoxication in the police court this morning and his \$50 bail was estimated.

Mr. and Mrs. H. F. Tilley are in the city today enroute from Vancouver to Edmonton. Mr. Tilley is C.N.R. travelling passenger agent at Edmonton.

Mayor Rochester expects to leave by the steamer Princess Alice on Friday afternoon for the south enroute to Kamloops where he will attend the convention of the Union of B. C. Municipalities. He will also pay brief visits to Vancouver and Nelson.

Harry Fowler, partner with H. F. Kergin, M.L.A. in the ferry boat Wake which plies between Anyox and Alice Arm, is in town today returning north on the steamer Prince George after having been away for five months on a trip to his old home in Cambridgeshire, England.

The case against the Prince Rupert Mercantile Co., charged with unlawfully selling liquor, to-wit two barrels of Cascade beer, was called this morning in the police court before Magistrate McClymont and adjournment was made until this afternoon. Witnesses this morning were Mayor Rochester, Sergeant McGlinchy and W. J. Wakefield or the prosecution and George James for the defence. Defence evidence will be proceeded with this afternoon, J. Sigmund and H. Capstick to take the stand.

NEW BULLETIN OF POLYTECHNIC INSTITUTE

The bulletin of information in regard to the Northern Polytechnic Institute of British Columbia is off the press today and copies may be obtained from the office of the institute. The bulletin contains a list of the officers and staff, general information and aims of the institute, time table, description of subjects and an announcement that there will be a series of popular lectures during the winter months, a time table and program of which will be issued later.

SWEATERS WON BY ENGLISHMEN

Exhibition Final Last Night Resulted: Sons of England, 4; Grotto, 1

The Sons of England defeated the Grotto in the Exhibition soccer final at the Acropolis Hill grounds last night by a score of 4 to 1 thus winning the Northern B.C. Agricultural and Industrial Association's sweater prizes. The Englishmen were fully deserving of their victory for they showed the better style both individually and collectively. Be it said for Grotto, however, that they might just as well have had another goal or two notched to their credit had they availed themselves of opportunities presented. Had their team work been a little more effective and concerted they might even have won, but as matters stood the Sons were the best and at no time were serious chances of losing to be seen for them. Getting away to a good start, they held their lead well.

In the first half especially the Sons showed their superiority and played a much brighter and faster game than the tobaccoists, the most part of the period the leather being in their quarter. The Grotto were often offside and made the larger percentage of fouls. The latter team entered the first one man shot and had the disadvantage of both sun and adverse grade which might or might not have had something to do with the lack of form they displayed. The first of the few scoring chances that were presented was offered to the Grotto but they failed to avail themselves of it. The first counter came 19 minutes after the start when Wiggins finished off the trick after both Farquhar and Hamilton had made good tries following a pass from E. Craggs. About 20 minutes late Bill Willisroft appeared on the scene to fill the vacant position at back. Mercer made a gallant save after he had been knocked down, the half ending shortly after this with the score standing 1 to nil.

Second Half

The Grotto appeared to brighten up in the second half and they made a better showing throughout this period, the players assuming a vestige of speed that had been certainly lacking in the

Chillies and Sons of Canada met tonight in a Stuary Shield football match. The game should be attractive to fans for a Sons of Canada victory will settle the trophy race with them the victors. On the other hand a win for the Chillies would still leave them a chance to tie up the standing and make a play-off. This is the last game the Canucks have to play while the Chillies have one more meeting besides tonight namely with the Sons of England, the match that was postponed last Friday night on account of rain. A Holmberg will handle the whistle in tonight's encounter.

AMERICAN LEAGUE IS WELL IN LEAD

NEW YORK, Sept. 27.—(World Series)—American League pennant winners have won 16 of the world series played since 1905, and National League clubs have taken seven.

Last year the Giants threw off a jinx that had followed Greater New York National League clubs in world series since 1905 by defeating the Yankees. Four times previously the Giants had lost series to American League champions and the Nationals had been unsuccessful twice.

The Philadelphia Athletics hold the record for the least number of runs scored in a series. They counted but three in the five-game series against the Giants in 1905.

A record of games and runs beginning with 1905 follows:
1905—New York Nationals.
1906—Chicago Americans.
1907—Chicago Nationals.
1908—Chicago Nationals.
1909—Pittsburg Nationals.
1910—Philadelphia Americans.
1911—Philadelphia Americans.
1912—Boston Americans.

Sport Chat

The time is here again when the World's Series is the all absorbing topic of discussion in baseball circles. The date for the opening game between the New York Giants and Yankees, which two teams it is now a pretty well assured fact will participate in the big play-off, is set for October 4, next Wednesday, at the Polo grounds. Last year's prices will prevail and it is likely that, with increased accommodation for spectators this year, the attendance of last year, itself a record breaker, will be exceeded. So much interest and enthusiasm has accompanied the close pennant races in both the American and National Leagues this year that the fans will doubtless follow it through, although more interest might possibly have been attached to the World's Series had an outside team won one of the flags. It will be again an exclusive Gotham party this year.

No less than 269,970 persons paid their way into the Polo grounds last year to see the world series games between the New York Giants and the New York Yankees. This set a new record, the largest paid attendance previously having been in 1912 when the Boston Americans defeated the Giants. The attendance at that series was 252,237. The official gross receipts last year were \$900,233, eclipsing the former record of receipts, \$722,414 recorded in the Cincinnati Reds-Chicago White Sox series of 1919.

Distribution of last year's receipts follows:

TWO DOLLARS A LINE FOR BEST LIMERICK

That is the Price to Be Paid in the Theatre Competition.

The ten dollar prize to be paid for the best limerick in the theatre competition works out at two dollars a line or a five line verse. That is pretty good pay. In addition there is the chance of winning a free pass to the theatre for two weeks.

Attention is particularly drawn to the fact that the verse must be a limerick. None other can win a prize. Here are a few offerings that have been received:

Rather Mixed.
There once was an actor named Mix
Was clever with all sorts of tricks
When he put up his gun,
They all had to run
And one quickly ferried the Styx.

The Audience.
"Ah shorley does like lil' Connie"
"There's nary a lassie see bonnie"
"La! La! ah zoso eyes—"
The Frig-eater cries,
While Olie says "Gash she hane fonnay."

I once saw a picture "The Sheik"
Twas "shot" on a desert so bleak
With undubious curves;
If got on my nerves,
I'll swear I ate sand for a week.

For subject matter it must deal with the movies.
The competition is open to anyone.
Verses should be sent to "Competition Editor, Daily News."

As many as possible of the limericks will be published. If the verse is not published the writer will know it is not eligible for a prize.

The prize will be:
1. \$10.00 cash.
2. Free pass to theatre for two weeks.
3. Free pass to theatre for one week.

TRADES AND LABOR COUNCIL WAS BUSY

Discussion on Various Subjects of Interest to Workmen.

At the meeting of the Trades and Labor Council held last night S. D. Macdonald was nominated for membership of the B. C. Executive of Trades and Labor Congress of Canada.

G. B. Casey, chairman of the committee recently appointed to assist injured workmen in presenting their cases to the Workmen's Compensation Board reported that two cases of disability had been satisfactorily adjusted since last meeting.

The Labor Day Committee made a report showing that \$550 had been distributed for prizes and a total disbursement of over \$1000 on Labor Day. It was decided to offer a prize of some description in connection with the work of students in some subject to be taught at the Technical night school here.

The employment of Orientals in clubs was condemned in a discussion of civic affairs that embraced everything from the local hospital to the reckless speed with which automobiles are allowed to drive. Specific cases of narrow escapes were given.

A committee was appointed to draft a program with a view to political action in the civic and provincial arena. All labor men are urged to have their names put on both city and provincial voters' lists.

There was a good attendance with President S. D. Macdonald in the chair.

TAX SALES

Sale of Lands for Unpaid Delinquent Taxes in the Prince Rupert Assessment District

I HEREBY GIVE NOTICE that, on Thursday, the 12th day of October, A.D. 1922, at the hour of 10 a.m., at the Office of the Provincial Collector, in the City of Prince Rupert, B.C., I will sell at public auction the lands on the list hereinafter set out, of the persons in said list hereinafter set out, for delinquent taxes unpaid by said persons on the 30th day of June, 1922, and for interest, costs, and expenses, including the costs of advertising said sale, if the total amount due for the period ending 31st December, 1920, is not sooner paid.

The Collector will be pleased to receive any information respecting the following list where the owner is a member of the Allied Forces and entitled to the benefits of Section 29 of the "Taxation Amendment Act, 1918."

CANADA AS A NEW NATION

Sir Campbell Stuart, Managing Director London Times Writes on Subject.

PAYS VISIT TO QUEBEC.

To See Premier Mackenzie King at Head of Affairs Was Real Inspiration.

In returning to Canada this last summer I had a fixed intention to revisit the great Prairie Provinces and see for myself the new Canada that had developed there since I was a boy. Says Sir Campbell Stuart, managing director of the London Times, writing in his paper, "His health prevented the realization of that wish and I had to content myself with remaining in my native Province of Quebec. I do not want it to be thought that I grumbled at having to stay there, for I wonder if anywhere in the world the traveller can find such peace and contentment as in the back country of French Canada. Labor difficulties are practically unknown, and the simple, picturesque, healthy life of the French-Canadian habitants always proved to me that they had learned the secret of happiness. They seem to have learned also the secret of prosperity. The Province of Quebec had a surplus this year of about \$600,000, a surplus which, according to M. Taschereau, the Provincial Premier, is equal to the surplus of all the other Provinces for the last five years.

Different Canada.

I found a very different Canada from the one I had known. I found the young men were more interested in public affairs than before the war. I found the consciousness of nationhood more apparent. I found a greater appreciation of the fact that she needs all her brains, be they in the east or in the west, English or French, to guide her

destines at this critical hour in her history. I found a real desire to remain a nation in the British League of Nations, but at the same time a very proper wish to look after her own affairs. I found a greater interest in her history and traditions. There are no more romantic pages than those of Francis Parkman, and I fully sympathize with the present Prime Minister in his wish that a national memorial should be erected to the memory of that great historian.

New Responsibilities.

But nationhood brings responsibilities. Let no Canadian misunderstand that. Once assumed they are not easy to lay aside. The important international question which interests Canada today is the appointment of a Canadian Minister to Washington. The Order in Council provided that in the absence of the British Ambassador he should be in charge of the Embassy. In my opinion the minister will have enough to do to look after the affairs of Canada, to whom he is responsible, without embroiling her in world problems—and perhaps a world quarrel. Could not the British Counsellor of Embassy become Charge d'Affaires in the ordinary way? That Canada should have a minister there I have no doubt. Canada's interests at Washington are enormous, and the man who is charged with them should understand in every detail the feelings and the wishes of Canadian people.

What Canada needs more than anything else is population. She needs a strong immigration policy, together with the widest possible advertisement of what she has to offer. Her empty spaces are calling for settlers. She has less than three people to the square mile, whereas her neighbor across the border has thirty-five, and the Japanese across the Pacific has more than three hundred.

Was Inspiration.

It was a real inspiration to see the grandson of the great Canadian reformer, William Lyon Mackenzie, directing the destinies of his country. Senator Ingham wrote in his immortal poem that "opportunity knocks once at every door." I say with much respect that at no door has it ever knocked more loudly than at that of William Lyon Mackenzie King, the man who has been entrusted by the people with the highest office in their gift. He inherits a new Canada, sanctified by war, recognizing for the first time her own strength, respected by the whole world as a factor to be reckoned with, harassed by problems of transportation, possession of illimitable resources. It is his great hour of opportunity. He has attained the highest position to which a Canadian can aspire, and while he holds that office it is the duty of every Canadian who lives away from home, far from the turmoil of party politics to uphold him and assist him in every possible way for the good of the land they love so well.

FOR THE FANS.

"Do you regard baseball as a healthful game, doctor?" "Well, I should say it ought to do a great deal towards strengthening people's lungs."

VANDERHOOF

The Montreal Board of Trade and English parliamentary visitors who were here on Sunday afternoon were taken by cars to see the farming section north of the Nechako River. W. L. Egert was in charge of their reception. The visiting ladies were entertained by Vanderhoof ladies at an afternoon tea in the Nechazo Hotel those in charge being Mrs. W. Ross Stone, Mrs. E. C. McGeechay, Mrs. R. G. Matthews, Mrs. J. B. Armistead, Mrs. J. M. Johnston and Mrs. E. F. W. Heath. A special attraction at the hotel was an exhibition of Vanderhoof district grains, grasses, vegetables and dairy products. The visitors were deeply interested and much impressed with all they saw.

Fred C. Borhaven, of Vanderhoof, competing against the best Guernsey breeders in the Fraser Valley, took three first prizes and three second prizes with exhibits of his stock at the Chilliwack Fair.

Mrs. A. Nelson, of Prince George, has arrived in Vanderhoof to take a position in the Nechako drug store.

Miss L. Kinley, of Vancouver has taken charge of the Ellisby school which reopened last week. Other new teachers in the district are Mr. Day at Mapes, Miss Lillian Baffery of Vancouver, at Hultait, and W. Troughton, of Vancouver at Chilco.

Mrs. Long, who came from England to visit with her daughter, Mrs. F. Choveaux, has returned to Montreal.

ALICE ARM

Tretheway Bros., of Abbotsford, have recently made a contract with the Pacific Mills calling for delivery of twenty million feet of logs from their Alice Arm limits, the timber to be delivered within two years. Reports have reached here that the work of getting out the logs will commence this fall. It is understood that the stumps will be pulled out of the logged over land which will then be available for agricultural purposes.

Mrs. T. W. Falconer and her sister, Miss Velma Selkirk, of Vancouver, have been spending a few days at Anxox the guests of Mrs. Whalen.

High grade ore is coming down from the Esperanza mine in a steady stream and is being hauled to the government wharf from which it will be shipped to the Anxox smelter. Over twenty-five tons is now ready.
