A Shakeup at Victoria is in Progress

ANOTHER STEP TAKEN IN CONNECTION WITH ELECTION PETITION

Scores Skipper of Canadian Importer For Flooding Ship

VICTORIA, Jan. 25.—Wreck Commissioner J. D. Macpherson has issued his finding following an enquiry into the Canadian Importer disaster, which was occurred in by the assessors, A. P. Williamson and J. T. Edmonds.

The finding says that the evidence of the master and officers was given reluctantly with an air of indifference amounting to defiance, but clearly with the studied object of concealing the real cause of the disaster.

The Importer left for New Zealand seaworthy and well loaded and did not begin to take in water until the colossal blunder of pumping out a number of ballast tanks on the vessel, timber-laden and already listing, depriving her of ballast for half her length and leaving little room for doubt or speculation as to what really happened to cause the water logging.

FALL FAIR DIRECTORS

Annual Meeting Chooses Those Who Will Have Charge This Year.

At the annual general meeting of the Northern British Columbia Agricultural and Industrial Association held in the city hall last night the following were chosen to manage the affairs of the institution during the coming year: Hon. president, Fred Stork, M. P. for Skeena; vice-president, Hon. A. M. Manson, member for Omineca; directors, W. J. Kirkpatrick, R. E. Benson, John McRae, H. Pattinson, D. C. Stuart, Fred G. Dawson, W. E. Thompson, C. C. Mills and H. M. McLachlan. E. H. Shockey was re-appointed auditor. Directors appointed by the city council, Aldermen Kelly and Silversides.

SUGGESTS ABOLITION OF SENATE

President Copeland in Address to Farmers Says There Must Be Rigid Economy at Ottawa.

VANCOUVER, Jan. 25.—Urging affiliation of the United Farmers of British Columbia with the Canadian Council of Agriculture, President R. A. Copeland delivered his annual address at the opening of the convention here today.

Mr. Copeland declared that the members of Parliament at Ottawa would be expected to bring about rigid economy in public expenditures and pass progressive legislation. The abolition of the Senate, he said, would save half a million.

The convention will continue for three days, during which many important questions will be considered.

GOVERNMENT HOLDS BACK REGARDING DRYDOCK CONTRACT

OTTAWA, Jan. 25.—The government announces it will not order the commencement or continuing of work on certain contracts awarded by the Meighen government until the public works department thoroughly investigates the contracts. The contracts affected include the drydock at Vancouver.

NOTICE TO DOG OWNERS

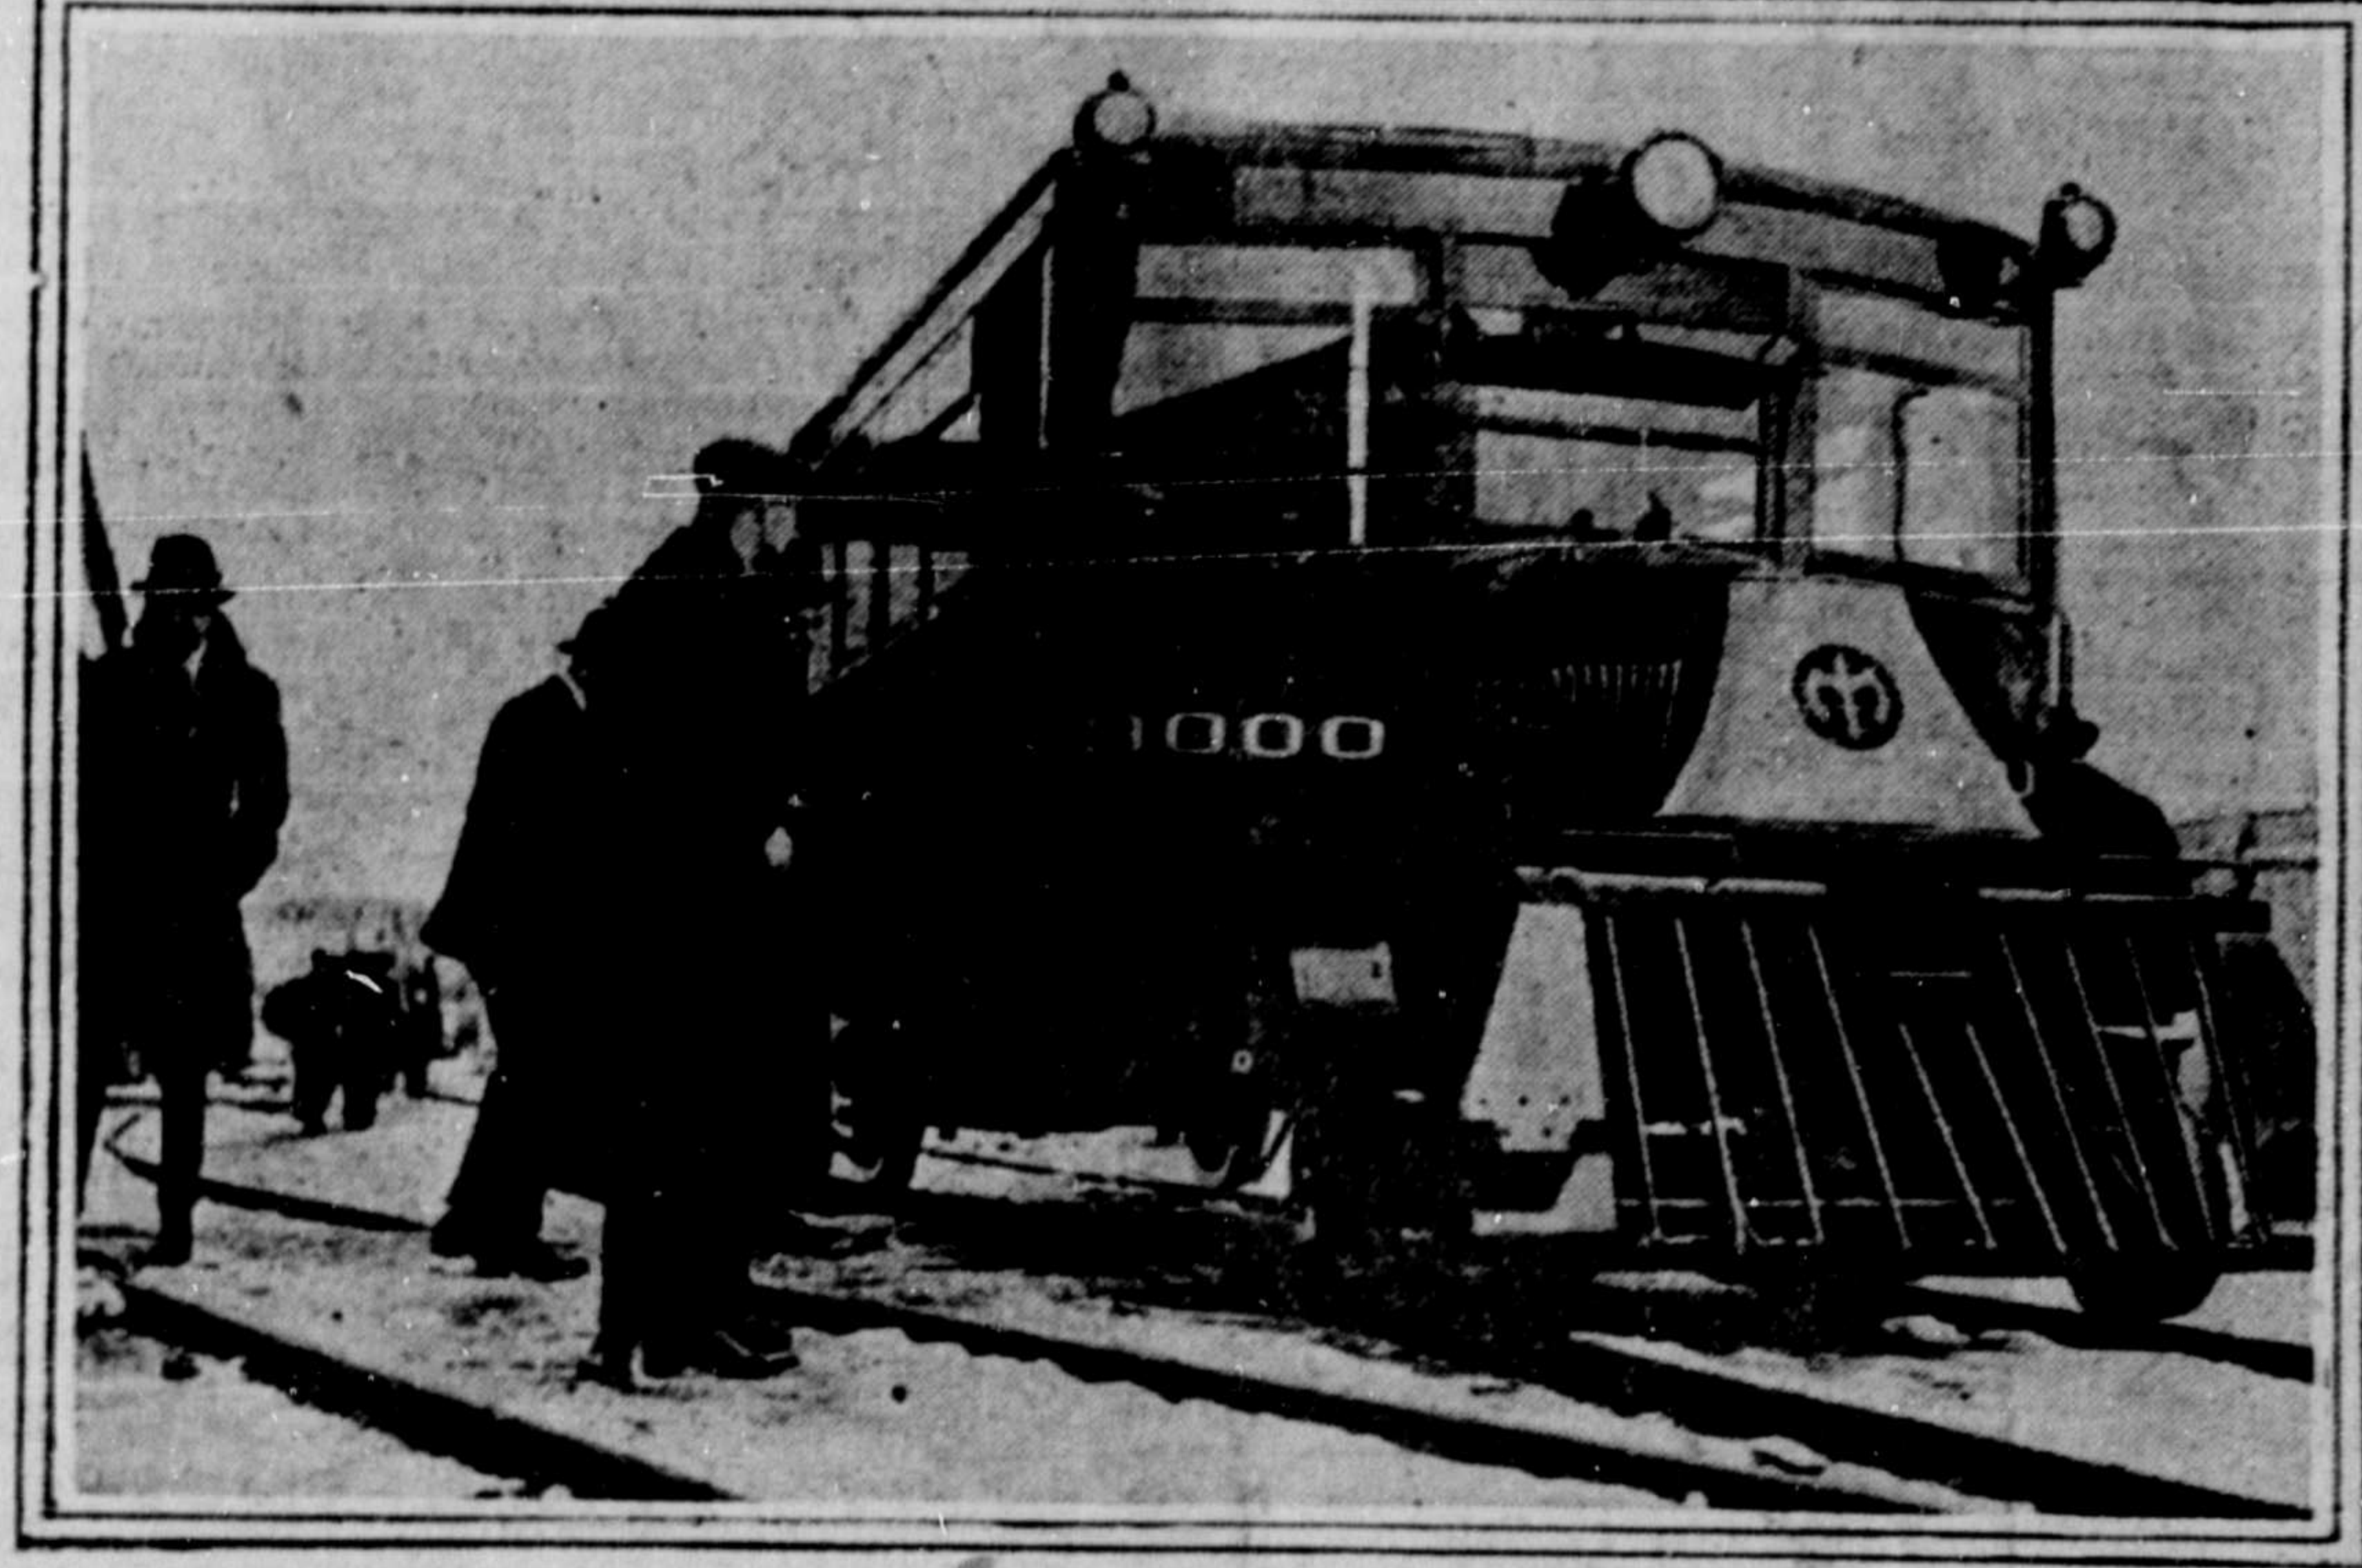

All 1922 dog licences are due and payable at the City Police Station. Dogs without licences after February 28th, 1922, will be impounded.

W. H. VICKERS,
Chief of Police.

SULLIVAN PRESIDENT ENGINEERING INSTITUTE

MONTREAL, Jan. 25.—J. J. Sullivan, former chief engineer of the Canadian Pacific Railway, has been elected president of the Engineering Institute of Canada.

MOTOR DRIVEN BUSES TO SUPPLANT STEAM TRAINS.

Motor driven buses, such as shown in the photograph, will shortly replace steam trains on the suburban lines of the New York, New Haven and Hartford Railroad. They have been tried out by officials of the company and are pronounced a success. The buses, which are gasoline driven, resemble the motor car in many respects. They have, however, air brakes and several similar railroad appliances. Three cars of this type have already been placed on the road and more will be ordered.

Questions of Leadership and Cabinet Membership Discussed By Liberal Members of Legislature

VICTORIA, Jan. 24.—(p.m.)—The session of the Liberal conference here at which questions of leadership of the party, cabinet possibilities and inside policies were discussed, was not attended by members of the cabinet, it being left for the Liberal members of the Legislature to deal with these things without any personal influences in the best interests of the party and of the country. The suggestion has been made that the Premier might retire, and it is generally understood that he has been anxious to do so. The whole question of leadership, organization and cabinet membership is being threshed out.

INSPECTOR GETS AFTER VICTORIA

Attacks Method of Diverting Sinking Funds and Threaten Action.

VICTORIA, Jan. 25.—Investigation by the civic finance committee into Victoria's sinking fund shortages and diversions was wound up yesterday at a session featured by a slashing attack upon the city's sinking fund policies by Robert Baird, inspector of B. C. Municipalities. He threatened to take measures to prevent the diverting of sinking funds unless the present system of handling these monies was abandoned.

MEIGHEN SAYS THE RAILWAY DEFICIT IS NOT OVER \$50,000,000

PRESCOTT, Jan. 25.—Hon. Arthur Meighen in a public address here last night said the deficit on the Canadian National Railways this year would not exceed \$50,000,000, "or I will be disappointed."

BOYCOTT OFF.

DUBLIN, Jan. 25.—Dail Eireann has issued an official statement calling off the boycott on Ulster goods.

Colonel Peck and Cameron Assent to Annulment of the Recent Dominion Election

Replies by R. W. Cameron, returning officer, and Colonel G. W. Peck, V.C., respondents to the protest laid by Martin O'Reilly as to the conduct of the recent federal election for Skeena constituency, were filed yesterday afternoon in the Supreme Court registry here. Each and every allegation of fact, with the exception of some technical details, are admitted by both respondents and some of the irregularities are explained by Mr. Cameron. Colonel Peck in his reply concurred in the belief that the opinion of the people had not been justly and truly recorded at the election and agreed with the

NEGOTIATE U. S. TREATY

Senators Object to Any Participation in the Treaty of Versailles.

WASHINGTON, Jan. 25.—It is understood the administration has decided to negotiate a treaty with Germany which will provide a separate commission to arbitrate private war claims. This action is being taken because many senators object to the United States participating in the allied arbitration commission under the Versailles treaty.

This country has also agreed to make a loan of \$5,000,000 to Serbia as promised during the war.

INROADS ON FISHING FLEET

Six Newfoundland Vessels Gone Since January 1, and 42 Last Year.

ST. JOHNS, Nfld., Jan. 25.—The schooner Rawlinson sank off Oporto with a cargo of fish. The schooner Asquith, inbound with salt, was sunk in mid-ocean. This brings the number to six ships of the Newfoundland fishing fleet sunk since January 1.

During the year 1921, 42 of the fleet were lost, thus seriously depreciating the capacity of the fleet.

APPOINTMENTS MADE OF NORTHERN MEN

L. R. Seldon, Fort Fraser, Justice of Peace; H. Welch, Smithers, Acting Government Agent.

VICTORIA, Jan. 25.—L. R. Seldon, government telegraph operator at Fort Fraser, has been appointed a justice of the peace. Herbert Welch, provincial assessor at Smithers, has been appointed acting government agent for Omineca, S. H. Hoskins having been given a month's sick leave.

BOUT SCHEDULED FOR FRIDAY OF FLYNN AND MORRIS IS POSTPONED

FORT WORTH, Jan. 25.—The boxing bout between Carl Morris and Jim Flynn, heavyweights, scheduled for Friday, will be postponed on account of the illness of Morris.

IRISH RACE CONGRESS HOLDS SECRET SESSION

PARIS, Jan. 25.—After a heated debate the world congress of the Irish race decided to hold a secret session for organization of the International Irish League. The secrecy move was hotly contested.

BEGIN FOR ROME.

OTTAWA, Jan. 25.—Cardinal Begin will sail from New York for Rome on Thursday.

NEIL MCKAY DIES.

VICTORIA, Jan. 25.—Neil P. McKay, former Conservative member of the Legislature for Kaslo and well known Victoria lawyer, died here after a long illness.

INFLUENZA IN NEW YORK

Steps Are Being Taken by Authorities to Prevent Its Spread.

NEW YORK, Jan. 25.—The health officials here are taking steps to block further progress of the threatened influenza and pneumonia epidemic, which is indicated by the rapidly growing number of such cases in the city recently.

Deaths in the city have been showing a steady increase, according to the city health commissioner.

STOCKMAN DIES

Andrew Stobie, Manager of the Gang Ranch Succumbs After Illness.

KAMLOOPS, Jan. 25.—Andrew Stobie, manager of the Gang Ranch at Chilcotin, a well known stockman known throughout the province, died here after three months' illness. He was born in Scotland in 1866 and came to B. C. from Manitoba when 21 years of age.

SENATOR DIES.

MONTREAL, Jan. 25.—Senator Arthur Boyer of Montreal died suddenly today aged 71. He had been in the Senate since 1909.

GERMAN TREATY WITH RUSSIA

PARIS, Jan. 25.—The French Government, because of information from Berlin, is much preoccupied by what it considers the possibility of an agreement between the German and Russian Governments with a view to forcing consideration of a revision of the peace treaties at the Geneva conference.

DAILY EDITION

Wednesday, Jan. 25, 1922.

Good Work of Fall Fair Directors.

The annual meeting of the Fall fair voted appreciation of the work of the board of directors last night and everyone is hopeful that there will be an even better fair next year. There was a good meeting and everyone showed interest in the proceedings.

The success or failure of the fair is largely due to the directors. They can make it almost anything they wish or can allow it to languish and die. In the last year or two it has been on the up-grade, and the coming year might well be better than the last. By the autumn the industries of the north should be humming again and everyone prosperous. This will be a great aid in making the fair a success. An excellent board has been chosen and great things are expected of them.

Perhaps it is not out of place to mention here the good work done for the fair by the secretary. As a paid official he does not come in for the bouquets which are usually thrown to others. However, the pay is very inadequate considering the amount of work required, and the secretary has not been one of those who watched the clock when work was required to be done.

Value of Art to Any Community.

Attention was drawn last night at the fall fair meeting to the need of encouraging art in the community. We are rather crude here and as a community do not appreciate art at its true value. In the struggle for existence the beautiful often has to give way to the sordid. We spend all our time engaged in commercial or industrial pursuits and have little left for developing the finer traits of our nature. Art is almost out of the question.

Those who have read the book "Main Street" will have been interested in the descriptions of ugliness in the modern prairie town. So it is in Prince Rupert. Our buildings are ugly, our streets are ugly, and often the interiors of our houses are ugly. Either we have little conception of beauty or we do not apply it. The redeeming feature is the appreciation of our wonderful sunsets by the people and the desire to build where these can be seen.

Museum and Art Gallery Not Quite Impossible.

The establishment of a museum and art gallery at this place is quite within the realms of possibility in the not too far distant future. Museums of natural history, minerals, timber exhibits, Indian work and pictures have been established in smaller places than this. All that is needed is a group of enthusiasts who will get it going. Everything depends upon a few people. Being well to the north, an exhibit of that kind would have a great attraction to tourists, especially on rainy days, and would well repay the expense and effort expended on it. It also would be an educative force in the community.

In a community like Prince Rupert parks do not appeal as much as in some places. During the dull days people look indoors for their attractions. That is why a museum and art gallery would be a great attraction here. It would of necessity have to begin in a very small way, developing as the need arose.

This is the time to secure for the city some of the fine slate work of the Indians of Skidegate and the totems and basket work of others in the district. Very soon it will be too late. If it was known that donations of these articles could be received and taken care of for the community, many would come in. The first need is for the formation of a society to gather such objects and to look after them after they have been secured.

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-intoxication

Auto-intoxication means self poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Berema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

CURIOUS LETTER

Chinese Idea of English Language and Canadian Morals.

The following letter was received by a local employer of a Chinese cook and waiter:

"Dear gent. Sir,
"I am glad to see your in new year. I hope you all well. Be still now. I just have several word to you. The cook is now you has and his partnership he was very sly guy. There is a great harm. Important thing I can tell you. I am tell it you pretty sure. They also bought the provision from the grocery and meat market. Then they tell salesman charge so much per cent in every bill after the statement. When his got they all commission every month. I should say they were very swindler, greedy indeed. We are sure you never saw such a man as they do, so bad in the world. Will you let they both go. Then I come with my help. Shall cooking for you at reasonable wages, when will I cook for your satisfaction as your content. Will your please reply to this as quick as possible and I will come see you at your address. Please surely let me know.
Yours very truly.

LUMBER MILLS WILL ALL WORK

Manager of the Kleanza Company at Usk Looks For Good Season.

HAS A TIE CONTRACT

Already 35 Men Employed Getting Out 150,000 for Canadian National.

Jno. Willman of the Kleanza Co., Ltd., who was in the city last night and left for his home at Usk today, stated while here that all the mills along the Grand Trunk Pacific Railway between here and Edmonton would be working in the spring or early summer. He has just arrived from the prairies and he states that there is no lumber in the yards there and they must have it. This lumber will be cut by the various mills established along the railway.

Mr. Willman says his own firm will start up their mill in the spring and cut steadily. In the meantime he is getting out 150,000 ties for the Canadian National Railway and has 35 men working on the contract. In addition to that he has orders for bridge timber to be delivered to the prairies.

Mr. Willman looks for a good season. He says some of the mills already have men at work getting out ties. Others will follow suit in the near future. Everything looks like a busy season.

Mr. Willman will be back in town again in a few days to attend the meeting of the local timbermen's association.

AUDITOR MAKES FINE REPORT ON EXHIBITION

Expenditures Amount to \$11,065.65 With Credit Balance of \$923.98.

The auditor's report to the meeting of the Northern British Columbia Agricultural and Industrial Association presented at the annual meeting last night, shows that the society has, after paying all expenses, the sum of \$923.98 in the bank, and the sum of \$11,065.65 collectable, all of which will be available to commence the new season.

The balance sheet for last year shows total receipts from admissions to the buildings and grounds, fees, grants and subscriptions, selling advertising, the hayseed dance, the I.O.D.E. tea rooms and other sources to be \$11,993.63.

The expenditures for prizes, attractions, medals, improvements to grounds, secretarial services, publicity, stock and equipment, and various other expenses amounted to \$11,069.65.

Auditor Shookley complemented the retiring board on the splendid showing made. He said the society was in better condition than it had ever been before.

OIL WELLS IN ALASKA WORKING

Not of Gusher Type But Ten Are Producing High Grade Oil.

While not of the gusher type, Alaska can boast of producing oil wells that for years have supplied the district with as high grade oil as is found anywhere on the North American continent, says the Alaska Dispatch. Analysis has shown this oil to be of the Pennsylvania type, 44 degrees Baume, Paraffine base. Situated at Katalla, the Chilkat Oil Company, with head offices at Seattle, is operating ten wells and a complete refinery, capable of handling 150 barrels of oil per day. While not operating to capacity at the present time, it is estimated that with the summer development full capacity will be maintained throughout the year. The plant is at present producing gasoline, kerosene, engine distillate, lacquer spirits, diesel oil and a high gravity naphtha. The entire output is being sold in the direct vicinity, the canneries taking all the lacquer spirits they can secure.

Good Market.
"We could sell many times the amount of products we are now producing," said Mr. Falcon Joslin, president of the Chilkat Oil company, "as the quality of the oil is far better than usual, which makes the refined products just that much better. Unlike the popular opinion, we sell our products for less than in the States."

"This is not fuel oil as it is too high gravity. It is Diesel oil, and is secured at a depth of about 1000 feet."

Owns Claims.
The Chilkat Oil company has the only patented oil claim in Alaska, which was secured immediately before the public lands were withdrawn from entry, by act of congress in 1906. Drilling is continued throughout the entire year, as the climate does not affect the work. Sufficient gas is produced from the wells for all drilling operations as well as cooking and heating purposes.

FIRST SKYSCRAPER IN GERMANY TO BE ERECTED AT HAMBURG

HAMBURG, Jan. 25.—The first skyscraper in Germany will soon be constructed in the old business section of the city of Hamburg. It will be 16 stories high, topping the highest building in Germany at this time by five stories.

Architects believe the erection of this building will institute the era of skyscrapers in Germany, and expect to see a number of similar buildings constructed within the next few years.

Unusual difficulties must be overcome. The city water plant is equipped to furnish water only to the eleventh story and this brought up the question of fire danger and insurance, as well as the probability of financial loss in view of difficulties in renting offices on the five higher floors.

Despite these difficulties the promoters have secured permission to erect the structure "provided the building does not destroy the architectural symmetry" of the streets.

20 SECRET POLICE FROM RUSSIA ARE LOCATED STOCKHOLM

STOCKHOLM, Jan. 25.—The presence in Stockholm of 20 secret police of the Russian Soviet government, well supplied with funds, has been disclosed by press investigations. Angelica Holmhanov, internationally known woman agitator of the Soviet regime, has recently arrived in Stockholm via Reval. The Stockholm police are watching the visitors closely.

The activity of the Bolsheviks in Sweden has attracted considerable attention ever since the revolution last year of a widely ramified red conspiracy which gave rise to a long and sensational court proceeding in Stockholm.

Ten Years Ago in Prince Rupert

January 25, 1912.

The city fathers put in a strenuous day yesterday sitting from 3 to 7 in the afternoon and again from 8 to 11 in the evening. Telephone matters constituted the chief topic of discussion.

Ald. Morrissey's charge that one hundred men on the city payroll were not actually working was sifted by the city council last night and the result was that Ald. Morrissey made a motion finding no irregularities and no city officials to blame.

Diver Ole Evensen this morning went down to the sunken tug Glen Rosa. The pilot house windows were found to be broken in but there were no bodies in sight.

The Presbyterian Bethany Girls put on a charming play "Breezy Point" before a large audience in the hall last night. Mrs. J. Chisholm was director and among those taking part were Miss Caroline McKenzie, Miss Margaret McPhail, Miss Margaret McDonald, Miss Annie Brown, Miss Florence Gray, Miss Jewel Garton, Miss Vilda Matson, Miss Vera Lockhart, Miss Marie Rowley and Miss Maude Hazlett. Frank Ellis was stage manager.

Father—Why is it that you are always at the bottom of the class?

Johnny—It doesn't make any difference, father. They teach the same things at both ends.—Harper's Magazine.

"With The Cream Left In"

R. W. Sinclair, of Inverness Cannery, reached the city by last night's train.

D. G. McKay and E. J. Spear arrived this morning from Ocean Falls on the Prince Rupert.

George Bruggy, the well known Alice Arm storekeeper, arrived yesterday from the north on the Venture and will return tonight on the Prince Rupert.

Frank Saunders, who is now in the main office of the Royal Bank of Canada at Vancouver, arrived this morning from the south to visit with his parents, Captain and Mrs. F. T. Saunders, Digby Island.

James A. Thompson, father of Dr. Alfred Thompson, former federal member for Yukon, and J. H. Thompson, the local hardware man, died a few days ago at his home at Nine-Mile River, near Halifax, Nova Scotia, aged 80 years.

Mr. and Mrs. C. B. Srigley and family, of Buckley Bay, arrived from the south on the Prince Rupert this morning. Mr. Srigley is storekeeper at the mill town and will be proceeding across the straits with his family on the next steamer.

S. H. Hoskins, government agent for Smithers, arrived in the city on last night's train and will continue his journey south to Victoria on the Prince Rupert tomorrow night. Mr. Hoskins has been given a month's sick leave from his duties at Smithers.

Richard Howe returned this morning from a brief trip to Vancouver.

W. E. Buell, the Seattle contractor, who went north last week to examine the site for the proposed new dam at Anyox, returned yesterday to the city on the Venture and is registered at the Hotel Prince Rupert.

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—skim milk.

But you can soon enrich thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed restless and easily worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Annual Fall Fair Meeting Is Enthusiastic Over Next Year's Prospects for Success

Starting the year with something like \$4100 to the good, the members of the Fall Fair Association seemed unanimous at the annual meeting last night that next year more money should be spent in securing exhibits from the outside points. While there were special advocates for improvement in the various sections—industrial, art, trade display and Indian work—yet it was evident that the first work of the organization, if it follows out the ideas of the gathering last night, will be to induce the exhibitors of the various points on the Grand Trunk Pacific, the islands and coast mainland to send in their products so that there may be a representative display of the whole of Northern B. C.

George Munro, the retiring president, spoke of the renewed interest in the exhibition by the people around Smithers. He had been told that the Terrace and Kitimat people were not going to have it all their own way this year but that some of the exhibits would come from Smithers that would make all the others look sickly and pale into insignificance. The spirit of rivalry was a good one and he thought this year there would be a good deal of it.

Mr. Munro gave credit to the various committees for the good work of the past season and said that whatever success they had attained was because of the co-operation of the committees each of which did its own work.

There had been a disappointment in not getting in exhibits from Skidegate and other points owing to the failure of the steamer to make the trip. The people there were all ready to come and to bring their exhibits with them, but the boat did not call.

Everyone Pleased.

Fair week last year had been the biggest week they had ever had in Prince Rupert. Everyone seemed pleased including the ball teams and the natives. The events financed themselves. Much permanent work had been done in improving the grounds and the interior of the building.

George Bryant said the secretary's report showed that good subscriptions had been taken around town. In the sports great credit was due to Jack Venables, Ben Self and W. E. Thompson, especially in connection with the hayseed ball which raised \$882.75. Ben had been the real man who had got the ball teams here and these had been a success financially. The fine weather had helped.

The president said so many had helped and done it so well that he had felt reluctant to mention any. Credit for the hayseed ball had been due to Jack Venables but Ben Self had worked very hard. C. G. Perry, a past president had also worked well. The name of W. E. Thompson should be mentioned.

Looks Like Success.

W. E. Thompson thought it spoke well for success to see the interest taken in that meeting. In the past it had been difficult to get enough present to pick a board of directors. A great deal of work had been done and most of this had been the work of one big committee. The credit of over a thousand dollars indicated that there had been harmony of purpose. Much money had been spent on the carnival grounds and a small cow barn had been built and all this was permanent work as well as the improvements inside of the building. The work had been carried out in the proper spirit. R. Pattinson, vice-president, urged the appointment of a poultry fancier next year's board.

C. G. Perry, a past president spoke appreciatively of the balance sheet. Usually there was enthusiasm at the meetings but this enthusiasm dwindled. It would be great if all would stay with the game and each do his best.

The Indian department had done pretty good work and he was glad to see that they were encouraged by the association. The directors did not need to fear for that section of the fair.

Attention to Art.

Theo. Gallart urged that more attention should be devoted to the art section this year. A good many were interested in handicrafts but in showing them lots of light was necessary.

C. O. Rowe spoke of the need of encouraging the home industry section. At the last exhibition one of the judges of this department had neglected to award a prize to one of the men

who richly deserved it. His exhibit had paid him well but he did not know whether he would have an exhibit there his year.

Jack Venables suggested in this respect that a better classification would improve matters. Both home industry and outside exhibits should be encouraged. He mentioned the need of more farm exhibits and the value of the wonderful Indian exhibit.

E. H. Shockley and H. K. Pullen spoke of the art department urging improvements. The latter said that many people were interested in the photographs and art departments. He thought if more attention was given them, this would be a great attraction to visitors. He instanced the Indian basketry exhibit by Mr. Perry at the last fair as the best he had ever seen and one that could be shown with credit in any part of the world.

Mr. Pullen also spoke of the fact that many of the people in the interior were new settlers and many of them had never even visited Prince Rupert. It should be the care of the association to interest these people in the fair.

Agricultural Exhibits.

D. C. Stuart bemoaned the gradual falling off in agricultural exhibits as being contrary to the spirit of the institution. He urged that someone should be paid to collect the exhibits. There should be exhibits from Smithers, Telkwa and other places. He thought if this was attended to, the industrial part would take care of itself. The main thing behind the city was agriculture and this should be encouraged.

Ben Self suggested that a sum of \$500 should be set aside to get the exhibits from outside points. In sports they had set a mark and gone after it. The same might be done in regard to exhibits. He told of the perpetual shield he was putting up which would be sent to Anyox and Ocean Falls and then to Prince George to be held until next fair.

J. G. Steen said he had come to the conclusion the fair was a good institution and should be encouraged.

Several of the speakers made further suggestions and after the passing of resolutions of thanks and the election of officers, the meeting came to a close.

LABOR COUNCIL NEW OFFICERS

S. D. Macdonald Is Chosen President for Coming Year.

At a well attended meeting of the Trades and Labor Council held last night officers were elected as follows:

President—S. D. Macdonald. Vice-president—James Black. Sec.-Treas.—T. Ross Mackay. Statistician—L. Dewhurst. Sergt.-at-arms—J. G. Anderson.

The new officers were installed by J. J. Gillis. A couple of committees were appointed to enquire into and adjust difficulties that have arisen locally.

The action of Fire Chief McDonald in urging the immediate installation of fire-escapes at the new school was unanimously endorsed, not because it would provide a little work but because it was regarded as an urgent necessity to insure reasonable protection to the children of that school.

The action proposed by Ald. Perry, re, the inauguration of a double platoon in the fire hall and a reduction of the "Light and Power" rates was endorsed.

The unemployment situation was reviewed very carefully and all members were urged to canvass their friends who had in view the starting of any work to do so at an early date. All can assist in reporting even short jobs.

POLITICS IN AUSTRALIA

Proposal to Amend Constitution to Enlarge Federal Powers, Would Abolish Senate.

MELBOURNE, Australia, Jan. 21.—(By Canadian Press).—The question of amending the constitution of the Commonwealth of Australia is again to the forefront and Premier Hughes has introduced a bill to provide for the creation of a Federal Convention to study the constitution which was adopted in 1900, and report on the various proposals for amending it. According to Mr. Hughes' plan the convention would consist of 75 members chosen by the electors of the 75 Federal constituencies, 18 members selected from the sitting members of the two Houses of the Federal Parliament, and 18 members appointed by and from among the members of the six State Legislatures.

When the Labor party became a power in Commonwealth politics it found that its federal program of social legislation clashed with state rights, and it presently began an agitation to alter the federal constitution. Mr. Hughes, then an outstanding figure in the Labor movement, drafted the plank in the party's platform, demanding the enlargement of the Commonwealth powers.

Abolish Senate.

In 1916 Mr. Hughes, following the split in the Labor party over conscription, formed his Nationalist Coalition government, and, finding himself in alliance with the Liberals who had been the chief champions of state rights, induced the new Nationalist party to adopt, as a compromise, a plank favoring the creation of a federal convention to examine the constitution. In the press of other matters the question of altering the constitution was allowed to languish until the Inter-State Labor Conference, recently held at Brisbane, brought it forcibly to public attention again by unanimously adopting the following platform:

Commonwealth constitution to be amended to provide:

(a) Unlimited legislative power for the Commonwealth Parliament and such delegated powers to States or Provinces as the Commonwealth may determine from time to time.

(b) Commonwealth Parliament to be vested with authority to create new states and provinces.

(c) Senate to be abolished.

(d) High Court of Australia to have final jurisdiction in all Australian causes.

(e) Principle of adult suffrage to be embodied in the Constitution.

(f) Initiative and referendum. Year to Report.

In presenting his bill providing for a federal convention, Mr. Hughes said his object was to remove the question of Constitutional amendment from party politics, but as his proposal involves elections throughout Australia some doubt is expressed as to whether his purpose will be achieved. When the convention reports—and it will be given a year after its creation to do so—its recommendation must be approved by majorities in the Senate and House of Representatives, and ratified by a referendum of the electors in all the states before they can become effective.

At present the Nationalist and Country parties have a majority over the Labor party, and it is considered unlikely that the proposed convention will make any drastic changes in the Constitution.

The Man in the Moon SAYS:-

OF my friends who were away for their midwinter holiday I notice some are back to work and others at their usual jobs.

THERE were several serious fires here last week, but just think what the fires left standing.

IT'S wonderful how sharp some of the young people are these days. There's one girl wears leather things to hold up her other things so as to strop her shoulder blades.

MONEY isn't everything but think what a great and glorious feeling it would be to handle a brand new crisp hundred dollar bill.

TIMES are certainly hard and I pity the poor hoodluggers who scarcely make enough money to keep them the rest of their lives after a year's operations.

YESTERDAY without so much as a twinkle of his eye a well known citizen when walking up the street remarked that he was finding it difficult to keep his head above water.

IS the place where the girls curl their hair known as curling rink? And if so what is a bonspiel?

THE weather forecast for tomorrow is overcast with rain or snow, possibly blizz.

SPECULATION ON NEXT POPE

Cardinal Gasparri Mentioned as Possible Successor to Benedict XV.

In the speculation as to who will be the successor to Benedict, the most prominently mentioned is the secretary of state, Cardinal Gasparri, whose election would represent an endorsement of the policy by him and by Benedict in the last seven years during the grave period of the whole war. Cardinal Gasparri, who also holds the position of chamberlain of the church, is entrusted with the direction of the Holy See during the interregnum from the death of the pope to the election of his successor.

Another member of the Sacred College, who is considered as a probable choice, is Cardinal De Lai, secretary of the consistorial congregation, which deals chiefly with the selection and appointment of archbishops and bishops throughout the world, except the countries still under the jurisdiction of the propaganda file. The election of Cardinal De Lai would gratify the desire of the Sacred college to have again, as under Pius X., a pope above all religious, that is, who would not play such a prominent part in world politics as Benedict XV. and Leo XIII.

Spaniard Suggested.

Among the cardinals living in Rome there is another who has a considerable following and whose election would be a new departure, since for several centuries there has not been a foreign pope in the chair of St. Peter's, namely, Cardinal Merry del Val, who was secretary of state under Pius X. Cardinal Val's parents were Spanish and his brother is Spanish ambassador to the court of St. James, but he has resided almost his entire life in Italy, where his father was Spanish ambassador to the Vatican.

GERMAN LABOR FOR FRENCH REBUILDING

PARIS, Jan. 25.—Residents of some of the war devastated districts of France are divided almost evenly as to whether German labor should be employed in reconstruction work. This question was submitted to the vote of some 400 families residing in a dozen villages in the district of Chaulnes.

As the result, 51 percent opposed it and 49 percent favored it. The opposition was based mostly upon dislike of having Germans freely circulating in the district as it would be impossible to keep them in barracks.

M. Loucheur, Minister of Liberated regions, has said it would be impossible to consider a general scheme for employing German labor unless 80 percent of the French residents of this district were in favor of it.

GAMBLING KEEPING PATRONS AWAY FROM MOVING PICTURES

HAVANA, Cuba, Jan. 25.—Theatre and moving picture managements are threatening to close their houses as a protest against what they declare is an enormous increase in illegal gambling. Athletic and other exhibitions upon which bets can be made have become so common, they claim, that the public has neither the money nor the desire to buy tickets for amusements where the wagering thrill is absent.

Commercial bodies also are supporting a campaign to limit betting to those enterprises licensed under the tourist encouragement law.

Head and Nostrils Clogged Up.

Could Hardly Breathe

When you become all choked up and stuffed up with a cold your head becomes thick, the nostrils become so clogged up you can hardly breathe, a feeling of weight or oppression in the chest and the cough rasps and tears your lungs and bronchial tubes.

This is the time to take

DR. WOOD'S

NORWAY PINE SYRUP

before things get to be too serious. There is no remedy to equal it for clearing up the cold, making the breathing easy, loosening the phlegm and soothing and healing the lungs and bronchial tubes.

Mrs. Edward Kincaid, 60 Bryden St., St. John, N. B., writes:—"I wish to express my hearty thanks to your valuable remedy Dr. Wood's Norway Pine Syrup and what good it did me. Last fall I contracted a severe cold, the like I never had, my head and nostrils were so clogged up I could get no vent, and could scarcely get my breath. I tried remedy after remedy until at last I thought I would try Dr. Wood's. After the first dose I felt relief, and by the time the bottle was finished I was all better. I will always keep it in the house."

Price, 35c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

PRESENTATION MADE TO CAPTAIN NOEL

Party of Northern Friends Did
Old Friend Honor Before De-
parture of Venture Last
Evening.

Captain J. E. Noel, the pioneer skipper of the steamer Venture, who is to take up duties soon as member of the B. C. Pilotage Association at Vancouver, was last night farewelled by several of his northern friends just before the steamer pulled out for the south. The captain was presented with a case of pipes by George Frizzell and eulogistic remarks were made by R. L. Brown and George Tite. Among those taking part in the presentation were Jock Morrison, T. J. Rogers and Steve Morrison, of Alice Arm; Captain John Williamson, of Usk, and George Tite, George Frizzell and R. L. Brown of this city.

MUCH TYPHUS AMONG POLES

Disease Among Thousands Men,
Women and Children Re-
turning Home.

WARSAW, Jan. 25.—Government inspectors say there is much typhus among the thousands of Polish men, women and children who are being repatriated from Russia through the camp at Baranowice, near the Polish-Russian border. The disease, they assert, is becoming more widespread as it does each winter as the cold weather sets in.

Repatriation of the Polish population which was withdrawn by the Russian armies in 1915 in their retreat is scarcely half finished. It began last July. Estimates of the number to be repatriated vary from 600,000 by the Polish Commission to 1,300,000 by the Russian evacuation commission. It is estimated that more than 300,000 already have passed through the Baranowice camp alone and that the total number returned to date is approximately 450,000. The care of these people is in the hands of the Polish government aided by several welfare organizations.

These refugees have been dying in such numbers at the Baranowice camp that the authorities have found it necessary to bury the victims in great trenches. Of 62,000 who passed through the station in November, it is estimated by Polish health officials that 1,500 died after reaching the camp. Doctors attribute the majority of deaths to disease contracted enroute and brought about by exposure and lack of proper nourishment.

PROGRESS IN OIL BORING IN ALBERTA

Operations Near Monitor Show
Good Results—Others Active.

EDMONTON, Jan. 25.—In the early part of December oil was reported to have been found in the drilling of the West Regent Oil Company, near Monitor, when the drill had reached a depth of between 25 and 28 hundred feet. As soon as the oil was discovered operations for the winter were abandoned, the manager of the company returned to Scotland to report to his directors, and samples of the oil were forwarded to the laboratory of the Alberta University for analysis, and it has just been learned that the sample represents a good grade of crude oil. Work will be resumed on the West Regent holdings in February.

The Tapley-Arnold well at Birch Lake, will shortly resume operations also with the arrival of J. R. Talpey, who has been in California, and it is understood that a large rotary drill will be used in the Viking field, where showings of oil were met with in some of the gas wells drilled there. The Imperial Oil company's drill at Fabyan, near Irma is going down steadily and has now reached a depth of 1500 feet.

MEDICINE ROCK IS UNDER EXAMINATION

Famous Indian Red Stone Known
As Medicine Rock by Indians.

Regina, Sask., Jan. 25.—The Provincial Historical Museum now contains a sample of "Medicine Rock," the location of which has been a secret carefully preserved for generations by a family of Indians near the Bear Mountain in northeastern Saskatchewan. The famous rock was visited during last summer by the Saskatchewan government exploration party. There are only a very few Indians acquainted with the location of it and the party respected the hereditary rights of the family which have been the natural custodians of the life giving "Medicine Rock."

The rock is looked upon by the Indians over a wide area as one of the great gifts of "Kitchew Manitou" and they claim the great red medicine creates new and pure blood. An analysis of the material showed that "Medicine Rock" is possibly what its name implies as it is a form of iron which might be of value in anemic conditions. The rock shows a narrow ribbon or seam of the blood-red material pressed in between heavy layers of stone. According to the Indians the red substance was a vein of blood to nourish the rocks whose walls surround it. For generations it has been looked upon as one of the greatest remedies for loss of blood or any run down condition and the possession of the secret of this rock's location has been a very famous monopoly for the fortunate family of Indians who pass along the secret from father to son as their most precious heirloom.

DINNER AND BRIDGE IN HONOR MR. AND MRS. FRED STORK

Mr. and Mrs. R. L. McIntosh entertained delightfully at dinner and bridge in their residence Fourth Avenue last evening in honor of Fred Stork, member-elect for Skeena, and Mrs. Stork. Among the guests were: Mr. and Mrs. E. A. Wakefield, Mr. and Mrs. Reginald Beaumont, Mrs. Langill, of Winnipeg, Mrs. A. M. Manson, Rev. Dr. H. R. Grant and J. F. Maguire.

The Ladysmith-Wellington Collieries during the last fifty years have been continuously mining coal and have established a reputation for producing THE BEST COAL for all heating purposes (whether for household use or steam plants). The quality of this splendid coal remains unsurpassed.
WE GUARANTEE FULL WEIGHT

Tapestry, Cretonne, Chintz, Scrim and Lace Curtain

SALE

Starts Thursday, Jan. 26

AND CONTINUES TO THE END OF THE MONTH

Being through with our inventory, we found that we are over-loaded with the upper five lines, and being notified by our jobbers that these lines have dropped down we are therefore meeting the market by reducing our prices on these lines considerably.

Grasp the Chance!
