Final Stage in Anglo-Irish Treaty

PLANNING FOR BOXERS TO MEET IN EUROPE PROBABLY LONDON

Anglo-Irish Treaty Ratified today by Irish Parliament

DUBLIN, Jan. 13.—The Anglo-Irish treaty creating the Irish Free State was unanimously ratified this morning by the Southern Ireland parliament in the absence of De Valera and his supporters who opposed the treaty in the Dail.

The provisional government as constituted comprises Michael Collins, William Cosgrave, Eamonn J. Duggan, P. J. Hogan, Finian Lynch, Joseph McGrath, Professor John McNeill and Byron O'Higgins.

BELFAST, Jan. 13.—The military authorities warn citizens that the houses from whose roofs shooting is permitted will be closed or destroyed and the tenants evicted. Sniping from the roofs is becoming serious here. Lord Mayor Dockerill has summoned a meeting of the unionists of southern and western Ireland to consider a resolution pledging unionist support to the provisional government under Griffith in the interest of the peace and welfare of the community.

YOUNG MANAGER BEING CHARGED WITH STEALING

Transferred Half a Million Dollars From Company to Own Account.

MONTREAL, Jan. 13.—Hundreds of thousands of dollars were withdrawn from the account of Thornton Davidson Co. in the Merchants Bank by Colin Cameron, the 28-year-old manager of the company, and deposited by Cameron to his own personal account in the same bank, according to Merchants Bank ledgers produced at the enquiry yesterday. Cameron is being tried on a charge of theft of half a million dollars from the Thornton Davidson Co. and for falsifying the books.

TISDALL MAYOR OF VANCOUVER

Declared Elected by Returning Officer Yesterday Afternoon.

VANCOUVER, Jan. 13.—C. E. Tisdall was officially declared elected mayor of Vancouver by the returning officer yesterday afternoon. He was 451 votes ahead of his nearest competitor. The other candidates were McRae, Taylor, Kirk and Lotzgar.

Mr. Tisdall is the chief owner of a large wholesale and retail sporting goods establishment in Vancouver. He has always taken a keen interest in public affairs in that city. An Englishman by birth, he was educated in that country, but has lived a large part of his life on this side of the ocean. He has served as president of the Vancouver Board of Trade and was for six years chairman of the park commission. For a number of years he sat in the British Columbia Legislature as member for Vancouver, but was defeated in 1916 when the Conservative party collapsed.

MADRAS RIOTS ON ARRIVAL OF PRINCE QUELLED BY TROOPS

MADRAS, Jan. 13.—Rioting synchronized with the Prince of Wales' arrival. The Ghandi faction tried to prevent the citizens meeting the Prince at the station. Troops and armored cars patrolled the section. Two deaths have been reported, one native having been shot by a moving picture photographer.

POINCARÉ BUSY FORMS CABINET

New Premier of France Looked Upon as Country's Greatest Statesman.

PARIS, Jan. 13.—Raymond Poincaré has officially accepted the task of forming a cabinet to succeed the Briand ministry. He will present a list of his colleagues to President Millerand today.

The new premier was president of the French Republic from 1913 to 1919, and before that time had been foreign minister and premier. He is an orator who always commands an audience and he used his talents during the war, when he did splendid service for the nation. He is looked upon as France's greatest living statesman.

CONTRACT FOR EXTENSION OF STEWART WHARF

Let to Leonard Waide—Wharf at Alice Arm Will be Finished on Monday.

The contract for extensions to the Dominion Government wharf at Stewart has been let to Leonard Waide of that place, work to commence in the course of a fortnight or so. The work includes the building of a 30 by 20 foot extension to the present 30 by 20 freight shed as well as 30 by 50 feet of piling for extension to the present wharf and approach.

Advice has just been received at the local federal public works office from William Sloan, government inspector, that the Alice Arm wharf will be completed by Contractor W. T. Muse on Monday.

J. B. Lambert, engineer, leaves for Alice Arm tomorrow night to make a final inspection before work is accepted.

MRS. GREENFIELD DIES.
 EDMONTON, Jan. 13.—Mrs. Greenfield, wife of Premier Greenfield of Alberta, died this morning.

RAILWAY STRIKE IN IRELAND HAS BEEN POSTPONED

Conference Going on Today in Dublin Between Employers and Workers.

BELFAST, Jan. 13.—The strike on the Irish railroads called for midnight tonight has been postponed for one month. A conference is being held in Dublin today between the employers and the workers.

NO DANGER TO PRINCE IN INDIA

Madras Disturbances Occurred Mainly After His Arrival at Government House.

LONDON, Jan. 13.—Despatches to London newspapers from correspondents in India agree that the Prince of Wales was in no wise menaced personally at the time of the native disturbances in connection with his arrival at Madras. The Prince rode along a three-mile route and was watched by crowds which are described as having been both friendly and enthusiastic. It was after the Prince had arrived at the Government House that the worst part of the outbreak occurred.

DRUM AND FIFE BAND FOR NAVAL BRIGADE IS BEING ORGANIZED

Will Comprise Twelve Members—Ten fifes and two Drums—A. M. Bremner, Bandmaster.

A drum and fife band is being organized in connection with the Boys' Naval Brigade and in the course of a few days drills will commence under A. M. Bremner who is to act as instructor. There will be twelve members in the band, ten fifes and two drums. The personnel will be as follows: Fifes—Bido Gurvich, Joe Chenowski, A. Woods, J. McMullin, Ted Tite, B. Wrathall, Elgin Brochu, F. McMullin, Spiro Gurvich and J. Parker. Drums—Bert Kelly and George Bell. The fifes are already here but the drums have not yet arrived.

The strength of the Naval Brigade is now about 50 members, 26 of whom will have uniforms when an order, which is now being made, for ten more is filled.

Regular drills every Friday will take place from now on.

PERLEY COMING FROM LONDON IN FORTNIGHT

His Resignation Has Not Yet Been Received by Premier Mackenzie King.

OTTAWA, Jan. 13.—Sir George Perley, Canadian High Commissioner at London, will arrive here from England in two weeks. His resignation has not yet been received by Premier Mackenzie King.

CRERAR POLICY IS DISCUSSED

No Political Action Likely Until After the By-elections Are Held.

OTTAWA, Jan. 13.—The declaration of Hon. T. A. Crerar in favor of consolidation of the Grand Trunk Railway with the Canadian National is arousing keen discussion, but it is not thought in political circles that any definite steps will be taken by the new administration until after the by-elections.

Before Mackenzie King completed his cabinet and formally accepted the position which he holds, he had an understanding with the Progressives on the matter of general policy. The Progressive and Liberal movements are parallel to a large extent, but the Progressives are more radical in some subjects, particularly in regard to free trade. The class point of view comes in there.

The decision to allow Mackenzie King to be elected without opposition is meeting with general approval. Indeed his constituents have no wish for a contest and make it clear to all and sundry that they are well satisfied to be represented by Canada's premier.

GENERAL RECOUNT OF BALLOTS WILL START ON TUESDAY MORNING

A general recount of all ballots cast in the federal election for Skeena constituency last month will commence on Tuesday morning. Judge F. McE. Young presiding. Every ballot will be personally examined by the judge and objections and acceptances will be made as he decides. This count will be final.

NEW EXECUTIVES OF CITY WERE SWORN IN OFFICE YESTERDAY

Mayor Rochester, Aldermen Kelly, Montgomery, Perry, Gollart, Kerr, McLeod, Dyblava and Silversides and Police Commissioner Shookley, who were elected in the municipal election on Thursday, were sworn in before Stipendiary Magistrate McMullin in the police court yesterday afternoon at 2:15. They thus officially become executives of the city.

RECOMMENDS THAT GERMANS CHARGED TO BE SURRENDERED

PARIS, Jan. 13.—The surrender of German officers and men charged by the Allies with offences in connection with the Great War is recommended in resolutions which have been adopted by the Inter-Allied Commission on war crimes.

NEW ALDERMEN OF VANCOUVER

Six Were on Last Year's Council—Two Labor Men Were Elected.

VANCOUVER, Jan. 13.—Ald. C. E. Tisdall is the new mayor of Vancouver and the aldermen are R. P. Pettipiece, P. C. Gibbons, Fred Grome, W. R. Owen, Frank Woodside, Joseph Hoskins, T. H. Tracy, and W. J. Selvigens. The last six were all re-elected. One old member of the council, Fred Rogers, was defeated. Pettipiece represents the Federated Labor party and Scribbs, Independent Labor.

Planning for Dempsey to Fight Carpentier in London If Guarantee Sufficient

LOS ANGELES, Jan. 13.—Jack Dempsey will meet Georges Carpentier in London providing the promoters of such a match would post "substantial guarantees," according to Kearns, Dempsey's manager, who declares the champion ready to meet Carpentier or any other contender for the title provided a suitable purse is assured.

NEW YORK, Jan. 13.—Ring followers concede with Rickard that another match in the United States between Dempsey and Carpentier would be a financial fizzle, but they are inclined to agree that the bout might be staged abroad with a fair chance of making a profit.

The Frenchman, after the victory over Cook, the Australian heavyweight, said he would like to face Dempsey again. Dempsey's appearance would prove a strong drawing card abroad, and if Carpentier stuck to his proposed plan of fighting at long range, the European spectators would witness a longer bout than Carpentier staged in the past.

RAILWAY TO BE DISCUSSED

Probability That President Hanna Will Retire, but Nothing Yet Decided.

OTTAWA, Jan. 13.—While the ministers are busy in connection with the forthcoming by-elections, a good many public questions are being discussed and visitors to the capital are being received. After the elections are over delegations will be more numerous and the real work of the administration will begin.

The first matter that will come before the government is that of the Canadian National Railway, its relation to the Grand Trunk and plans for its development and future administration. It is altogether probable that President Hanna may retire, although nothing has been decided upon in this regard.

Make Full Use of Local Shipyard.

The Canadian National Railway has here one of the finest shipyards and machine shops in the country, but it is never operated to anything like its capacity. There is an immense investment bringing little return. Experts say the machinery and other plant are second to none in the country and could be used for repair work on cars and locomotives, for rebuilding cars and locomotives and for new construction work. There is no other place where work could be done more effectively.

The small shed which answers the purpose of a machine shop and roundhouse is just the opposite in regard to its effectiveness. There the investment in buildings is almost nothing, but the results in output are large. If the larger yard were used to anything like the capacity of the smaller we should have an industry here that would make the city prosperous.

It is within the power of the railway company to utilize the shipyard and drydock to such an extent as to make it a commercial success and to save the company money. It would also mean increasing the transportation on this line. Only recently the steamer Newington was sent south for overhaul at great expense to the country when the work could easily have been done here. The company has a fleet of coasting steamers and there is also a large fleet of ocean-going vessels, all of which might be docked here and thus make the local dock do effective work and keep the yards busy. By using the local yard to its capacity it is kept effective and better able to handle other commercial work that may offer. Once the shipping world is fully aware of the fact that they can get service here business will come this way.

Car Building And Rebuilding.

Cars have to be built for the railway, and there is a constant repair business required to keep them running. As little as possible of that work is done here at present. As there is machinery here and power and every facility, the railway would be fully justified in establishing its car shops here both for repairing old cars and building new ones. Such action would be very desirable and would make for business on the railway. To have shops at a point where there are competing railways divides up the business caused by the industry. To install shops here keeps the business with the company operating the shops.

At the local repair shops engines are sometimes rebuilt. Excellent work has been done here, just as good as at any other shops, and that with the meagre facilities at hand. If the machinery and buildings at the shipyard were utilized for the purpose, there might be much more of that class of work done, and even new locomotives could be constructed just as well as in the shops in the east.

Canadian National Interest Is Here.

The Canadian National Railways own a lot of property at this point that will become marketable as soon as the place is prosperous. By establishing their shops here and encouraging the shipyard and drydock operations they will add daily to the value of their own property. It is a straight business proposition. The railway has everything to gain and nothing to lose by building up this port. The railway officials put this matter up to the government, where doubtless it belongs, but whoever is responsible, it is their duty to look at the matter from a business viewpoint and to act accordingly. We expect great things from the present government. We shall doubtless get fair treatment, but in order that we may do so it is our duty to place these matters before the authorities in such a way that there can be no mistake. We are just now in a position where we may make this port or permanently stunt its growth. We must not let it be said that it was our own faults that we failed to get good treatment. We must leave no stone unturned to make those in authority see the desirability of building up the industries at Prince Rupert.

ANNUAL MEETING SCOTTISH CLUB

W. M. Brown is New President, Succeeding S. D. Macdonald, Holder of Office for Ten Years.

SCHEME FOR IMPROVING SPORTS GROUND PUT UP

The annual meeting of the St. Andrew's Society took place last night. It was largely attended. Election of officers and submission of annual reports was the order of business. The latter showed that the club was in a very healthy standing in every way.

It was with regret to all that S. D. Macdonald, who has been president of the society for ten years, announced that he was resigning the office and would not stand for re-election. The meeting asked Mr. Macdonald to reconsider, but this he said he could not see his way clear to do. Although private business made it impossible to carry on he said that he would always be ready to assist in every way possible in the work and activities of the society.

Through his long term of service, Mr. Macdonald has always been enthusiastic and energetic and has guided the affairs of the organization with signal success, having seen it grow from the beginning to the important place it now holds in the life of the community. W. M. Brown was elected to succeed him in the office.

Improving Grounds.

A suggestion was brought forward at the meeting that the society co-operate with other similar organizations in the city in raising a fund to guarantee the carrying on of the improvement work on the recreation grounds at Aeropolis Hill. A series of entertainments will be probably the method adopted. It was felt that this was an object towards which all in the city who were interested in sport would lend a hand. The city has already commenced the work and it is proposed that the work be carried on until the rock bluff is completely removed and the grounds are generally put in better shape. The suggestion is to be followed up.

The new officers of the St. Andrew's Society elected last night were as follows:

- Honorary President, Maj.-General J. W. Stewart.
- Honorary Vice President, Major John McGregor, V.C.
- President, W. M. Brown.
- First Vice President, D. C. Stuart.
- Second Vice President, William Reid.
- Treasurer, J. S. Irvine.
- Secretary, H. M. Foote.
- Warden, W. Hamilton.
- Solicitor, Hon. A. M. Manson.
- Chaplain, Rev. Dr. H. R. Grant.
- Piper, Alex. McDonald.
- Executive—W. G. Dennis, Howard Steen, J. A. Allen, J. H. McLeod and J. L. Christie.

SMITHERS

Great interest is being taken in the first civic election which will be held here on January 26 under the Village Act.

Ernest Stubbs' farm house was completely destroyed by fire last Thursday.

The Smithers Farmers' Institute at the annual meeting on Tuesday elected the following officers for the year: President, William Hanna; secretary treasurer, George Oulton; directors, E. Woodward, J. B. Langston and J. T. McCaule.

After weeks of patient waiting the farmers and tie makers are happy on the arrival of a big fall of snow which commenced last Saturday.

The new officers of Omineca Lodge A. F. & A. M. were installed on Saturday and a banquet in the Bulkley Valley Hotel followed the ceremony. The installation was presided over by A. M. Manson and C. H. Orme of Prince Rupert and the following are the new officers: Worshipful Master, J. Mason Adams; Immediate Past Master, Stephen H. Hoskins; Senior Warden, J. M. Graham; Junior Warden, W. F. Boyer; Treasurer, G. V. Storkey; Directors of Ceremonies, J. S.

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief

"FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S. "For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work.

About two years ago, a friend advised me to try "Fruit-a-tives," which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit."

A. W. FRANKLIN.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c., or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

PRINCE GEORGE

The first hockey game of the season was played here on Sunday when the Married Men beat the Rosebuds by a score of 12 to 2. The teams were as follows: Married Men—Alex. Moffatt, M. C. McKay, Alex. Wimbles, Jimmy Williams; Ivor Guest, and Ken McKay; Rosebuds—H. Kennedy, R. Knight, C. Brown, G. Adams, A. Mackenzie and H. Gross.

Dr. H. J. Meiklejohn, managing director of the Sovereign Life Insurance Co., was a visitor in the city this week conferring with Charles A. Pyne, the manager for British Columbia.

J. M. Wiley, the prominent Winnipeg grain man, was a visitor here during the week looking over his land and timber interests in the district. Mr. Wiley was a pioneer of Prince George and was here in 1907. He notes great progress in the city and district.

George Anderson, a promising young scrapper, has sent a challenge to Harry Anderson, of this city, a former champion lightweight of the Pacific Coast, for a bout to be fought here shortly.

MAYOR SCORES FISHERMEN OF GLOUCESTER

Says International Race Committee Should Resign—Fakes in Fisheries Business.

GLOUCESTER, Jan. 14.—Bitter attacks on the Gloucester Chamber of Commerce, the American Fishermen's Race Committee, the men in charge of the local fishing industry, and sailors of the United States navy were made by Mayor Percy W. Wheeler in his inaugural address here.

The mayor's charge in regard to the fishing industry, in which he declared that the men at the head of the business were responsible for Gloucester's decline from a port of 500 vessels to one of a scant 100, came with startling effect. He claimed he had seen pollock dyed and sold for salmon. "You have heard the Gloucester Chamber of Commerce called a 'den of thieves,'" he asserted. "They violate the moral code of decency, if not the Sherman anti-trust law, every morning when they meet to control the price of fish in Gloucester."

The mayor asserted that many young girls have been ruined by the sailors ashore in Gloucester on liberty; said that he would see to it that a 9 o'clock curfew law was strictly enforced, and declared that he would stop the debauchery of young girls if he had to employ policemen to do it.

Condemns Racing Boat.

"Sailors are only human and young girls are foolish," he said. Mayor Wheeler also paid his respects to the race committee in no uncertain terms.

"The American fishermen's international race committee should resign out of decency, if for no other reason," he cried. "They had no right to bar the Mayflower from competition, with their talk about the deed of gift, when the Elsie was allowed to go down to Halifax with sails, main boom and gaff which were not made for her, but which were taken from the equipment of another boat."

Good Sports.

"The Canadian committee are good sports, and I can't understand how they could put up with the kind of men making up the American racing committee."

The mayor's charge in regard to the Elsie's equipment is regarded as a serious one, for it amounts to a direct assertion that the schooner did not comply with the rules governing the contest, in that she raced with sails and gear other than her regular fishing equipment.

Mayor Wheeler was virulent in his attacks on the things that, he says, are being done in the fishing industry. He said that all of his charges in this regard were based on things that he had seen, not on what he had been told.

Attacks Police Heads.

"I have seen a kit of mackerel packed with a quart of whisky and shipped to Maine. I have seen harbor pollock split down the back and sold as mackerel."

"I have seen Old England hake misbranded and sold as sea trout or ocean bluefish."

"I have seen a large pollock split, dyed pink and sold for ocean salmon."

"I have seen fish so rotten that when you started to split them they fell apart."

The mayor then attacked the police department, saying that while the personnel of the department was good, the men in charge were inefficient. He asserted that a shakedown was due, and asserted that bootleggers and rum smugglers must go.

Wheeler, 55 years old and a former boatbuilder, was elected last fall by the biggest majority ever given a mayoralty candidate here.

BORROW MONEY THIS COUNTRY

That Is Opinion of Toronto Globe As Policy For Coming Year.

After being out of the money market in a large way for more than two years, the Dominion Government will become a borrower again in 1922, says the Toronto Globe. This is mainly to meet a maturing issue of Victory bonds, due December 1, amounting to \$194,000,000, but in addition, it is expected there will be floating indebtedness of an unknown amount to be met. This indebtedness may be attributed, in part to the decline in Customs revenue during the period of depression, and partly to deficits on the Government Railways, which have not been able to make any great headway as business slackened and traffic decreased, while wages have not correspondingly declined.

Victory Loan Success.

How should the Government raise the necessary funds during the coming year? The success of the Canadian Victory Loan campaigns during the war and after created an immense source of money at home until about 80 per cent. of the national debt is owed to our own people. It is considered by many authorities that the principle of borrowing at home should, as far as possible, be continued. Interest and dividend obligations on outside capital in Canada already amount to about \$200,000,000 a year, which alone is a severe drain on the country's annual income. It seems to be desirable that one form of refunding be adopted which would at least preserve, if possible, as lenders to the Dominion Government the people who now hold Victory bonds maturing in 1922. A percentage of them, no doubt, will desire to cash in, but the fact that much of this money would be frittered away instead of invested, makes it the more desirable that the inducement for reinvestment should be attractive.

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta., writes:

"I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. After I had taken one box I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Waterfront Whiffs

Doings of the Mosquito Fleet Which is the Chief Source of Prince Rupert's Prosperity

There is a hum of activity along the waterfront, and the members of the Mosquito Fleet are busy with hammer, saw and nails, putting the finishing touches to their vessels prior to embarking on a new fishing season.

Now that the herring fishing is due, several boats are being equipped for this class of work, and a few boats have already left port on herring-seining expeditions. The weather, at time of writing, is just ideal for this fishing, consequently the fishermen are anxious to get out of port and on the job.

The mention of the auxiliary fleet of approximately thirty-five boats from Seattle in last week's Whiffs, which it is expected will fish halibut from this port, has caused quite a deal of interest in local fishing circles. If this becomes an established fact it will give quite an impetus to the local industry. As the Admiral of the Fleet puts it "the more the merrier."

Flossie Flirt had a great brain wave during the week, and has been spending a lot of spare time with pencil and paper drawing up plans, under the guidance of the engineering expert of the Fleet, for a new fishing invention.

The idea struck Flossie with terrific force while using the electric vacuum carpet sweeper on the Turkish carpet in the main salon of the Mug Up. Here it is. If a vacuum will draw up dust into a carpet sweeper why could not a vacuum be used in drawing up fish into a boat? There is the whole thing in a clam shell. The idea is to have a sort of torpedo tube arrangement underneath the boat with a vacuum worked by the engine, and while floating over the deep suck the fish up the tube into the boat, the water to be drained off the tube by an out-take pump. This sounds easy to the nautical brains working on the scheme, and if it proves to work satisfactorily, Flossie will live to see the day when her staff of servants will live on Graft Hill and the City Hall will be used as a pantry. From the plans on view it looks something like a game of Chinese Fan-Tan.

A sequel to the Christmas festivities has just come to light, and it concerns a member of the crew of the auxiliary flagship to the Fleet. A few days prior to Christmas the hero of the story, who is the possessor of a lovely wig, received a sum of money from home, and having assured his comrades that he was a man of iron will and nerve and knew how to handle himself, proceeded up town presumably to carry out some philanthropic work. However the best intentions of the strongest men sometimes fail, and our hero proved no exception. The result was that along about midnight he got aboard the boat, with his "mainsail" flapping in the wind. His comrades of course helped the distressed mariner to his berthing station, and in the confusion which usually happens at these times, the hair got mixed up with the gear. In the morning the possessor of the tonsorial equipment missed his necessary head covering, thinking the loss had been sustained up town proceeded in a bald manner to hunt it up. During his absence, however, in shifting the gear around the "lost one" was discovered, and, much to the delight of the wearer, the curly locks were floating from the flagmast on his return.

The Big Bay Lumber Company have two scows arriving on Sunday from the north with fish boxes and three cartloads of clear lumber for eastern shipments. A correction: In a recent issue of Waterfront Whiffs it was mentioned that the Georgetown Lumber Company had loaned a scow to Bill Shelim in the raising of his yacht Kelpie. This should have read the Big Bay Lumber Company. The Georgetown Mill is the point of manufacture of the Big Bay Lumber Company.

Captain Petersen is having the engine transferred from the Viking to his new craft, which is under construction at the N. M. McLean ship yards.

H. R. McMillan, of the Big Bay Lumber Company, will be passing through the city on Monday aboard the C.P.R. boat. He is proceeding north on business in connection with his company.

Captain Charlie Pratt of the Helen D. is absolutely fed up with the halibut fishing business. He says the halibut have ceased to show any fighting spirit lately and are just laying down to be caught. "If you are after a whale," says the Cap. "I'm going out after the big fellows." With this object in mind the Helen D. is covered with repairing implements, and it is understood a harpoon gun of wonderful possibilities is being fixed on the bow. The Cap. is a marvel with a harpoon gun and claims to be able to hit a shrimp at 500 yards. Reckoning on the basis of the size of the whale as a target as against the size of a shrimp the Helen D. should not have to travel very far from home, that is if the range of the gun will carry the harpoon. There is nothing to prevent the Cap. from shooting whales from his bedroom window.

The new Rudy May, owned by Messrs. J. and C. Currie, is undergoing final touches before proceeding on her maiden cruise. She is to be used ultimately as a logging boat. Her dimensions are 40 ft. long by 10 ft. beam and she is fitted with a 16 h.p. Frisbie engine.

The Livingston II, Captain Tony Martineau, cleared for the deep sea fishing grounds on Thursday afternoon.

The Bethune, Captain Jack Bradbury, with Jack Smith as first mate, left port Wednesday on a herring-seining expedition.

The Ethel June, Captain Dave Richards, left port for the shrimp fishing grounds on Thursday morning. Cap. Richards has been fishing consistently for the past few weeks, and some of the specimens he landed are of gigantic proportions. It is evident that in future there will be no slack season for Cap.

The N. M. & R., Captain Charlie Neville cleared from port on Thursday morning to seine herring. This is his first trip of the season.

Captain Jud Thurber, has completed his deck repairs and is now engaged on overhauling gear. He expects to clear from port for the Whale Back fishing grounds early in the coming week.

The Mayflower, owned by Jud is going on the dry dock in the near future for the purpose of having a new keel put in.

The Joe Baker, Captain F. Blondin, is undergoing final touches, and the gear is being overhauled, ready for her first trip of the season to the deep sea fishing grounds.

The secret service of the Mosquito Fleet received word recently from Vancouver to be on the look out for Dinty Moore, the bosom chum of Mr. Jiggs, who it is stated, is posing as a captain somewhere on the Pacific, and it is thought perhaps he is contemplating starting some poker games amongst the members of the Mosquito Fleet. His appearance, of course is well known to readers of the Daily News. It is understood that Dinty gave Maggie a bad nickel in some winnings at a poker game, and it is the lady of rolling pin fame who is trying to get him traced. Any information of Dinty should be communicated at once to Gow Bay.

Captain Tommy Smith has been appointed as overseer of the Mosquito Fleet, according to orders recently published by the Admiral of the Fleet. Captain Smith will be responsible for

seeing that no equipment of an unauthorized nature is used in connection with the shrimp fishing, that is poison gas or any such like instruments of torture.

The Shelma, Captain Ole Hansen, is busy overhauling gear and tuning up the machinery ready for the halibut fishing grounds. He expects to leave port today.

The Alliance, Captain Chris Hendrickson, is a boat of mystery to the Fleet. Sounds like hammerings and cursos of the skipper have been heard issuing from the bowels of the boat for the last week, and it was thought extensive repairs were being undertaken. Kegs of nails, various sized hammers, all descriptions of timber and unlimited squares have been located aboard by the secret service. However minute observations have failed to discover just what the skipper has accomplished in his week of anguish. It is said that a Gow Bay rat would have done twice as much work as Chris has completed, with a little less than half the noise.

The Rupert Dixie, Captain Newcombe, returned to port on Thursday morning with a party aboard from Shawatians.

The launch Belmont is in port from Surf Inlet.

The Molde, Captain Flagstead, is in port at Gow Bay overhauling gear. After having completed minor repairs he will clear for the halibut fisheries early in the week.

The Georgetown mill will close down for annual repairs as soon as the fish companies are supplied with sufficient boxes to tide them over this period. It is expected the repair work will take two or three weeks to complete.

Albert & McCaffery report that the S. S. Prince John will be due on Saturday with 400 tons of coal for local consumption.

The Anna J. is having minor repairs done aboard and all the gear is being overhauled preparatory to leaving port for the deep sea fisheries.

The Starston, Captain H. Watson, cleared from port on Wednesday, with M. Druxer of the Middle-West Wine Company aboard to hunt for the "whiskey parrots" who so ungraciously lifted the "joy liquid" from the Vesta during the week.

In view of the encounter with pirates, experienced by the launch Vesta recently, the Admiral of the Fleet is advising all skippers of boats to carry arms so that in the event of trouble they can defend themselves from the wiles of the passing adventurer.

The Narbethong, Captain Freeman, is away from port on a secret mission. It is thought that he has gone south this time on another fur buying expedition, but the secret service has been unable to confirm this suspicion.

Captain Billy Thane of the Silver Spray is busy aboard, fixing up traps, and cleaning his ball, in readiness for a prolonged trapping expedition.

The Grier, Starraf, Capt. Pete Wingham, one of the Canadian Fish and Gold Storage trawlers, left the Cold Storage dock on

The following boats are at present in Gow Bay: Wigwam Oh Baby, Dixie Rupert, West-rner, Tseekwa, Birdie B., Laura L., Violet, Lovera, Kobe, Ring-leader, Viola, Mab, Helen D., Minnie V., N. M. & R., & Murineer Kimmound, Azores H., Silver Spray, Colonia, Cedric.

Eczema or salt rheum, as it is so often called, manifests itself in little round pimples which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to a strong heat, is almost unbearable, and relief is gladly welcomed.

BURDOCK BLOOD BITTERS. Take it internally and it gets at the seat of the disease in the blood and drives it out of the system.

Apply it externally and it takes out the itching, stinging and burning, and promotes healthy healing.

Mr. J. Sage, 215 Princess Ave., Vancouver, B. C., writes:—"Having suffered with eczema on the face and head for the last five years, I consulted several doctors, and tried various kinds of salves and lotions, but I derived no benefit from any of them. I did not know what to do until a friend advised me to try Burdock Blood Bitters, and after I had used two bottles I began to get better and now after taking eight bottles I have not even a blotch on me. I feel that I cannot praise B. B. B. too highly. I hope you will make full use of this recommendation for the benefit of those who are suffering from this terrible complaint, eczema."

lief of the sufferers from the famine in Russia, has been extended to Wednesday, the 18th inst, it having been realized that today was too soon, in view of the short notice, to secure the best results. Results so far have been fair, and it is hoped that the extra time allowed will permit the adjective "good" being used. An estimate of the Russian Trade delegation in London recently stated—"So far all foreign relief organizations are supplying food to about 1,500,000 children; but these constitute only about 20% of the total number of starving children. The principal burden of supplying food to the other 80% falls on the shoulders of the exhausted people of Russia. However great their efforts and sacrifice, millions will perish unless additional help is forthcoming from outside Russia. And this help must come at once, for the terrible effects of the famine are becoming more pronounced from day to day, with the exhaustion of the scanty supplies obtained from the September harvest."

J. H. BURROUGH, Secretary Relief Committee. P.S.—An audited financial report of the work accomplished by the local committee will be published Monday. J.H.B.

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. WAS REGARDED AS PROPHET

Abdul Baha Abbas Was Great Personality — Advocated Brotherhood of Man.

JERUSALEM, Jan. 13.—The death at Haifa, Palestine, recently of Abdul Baha Abbas, founder of the Bahai movement, removes from the Orient a great personality who has long been regarded as a prophet by thousands of followers scattered throughout the Orient as well as in the Near East.

With his death, the movement has passed under the guidance of a committee of 19 representatives of different religions and races.

Abdul Baha (Servant of God) was 77 years old and his career had been a romantic one. He was exponent of an universal movement whose aim was the realization of the brotherhood of man, and it had gained adherents in Europe, Asia and America and in some parts of these continents huge temples had been erected for the observance of his teachings.

His funeral assumed an international aspect at which were present many notables representing many countries.

At the age of 20, Abdul Baha and his father, Baha O'llah were sent to the penal colony of Acre in Syria because of their radical teachings.

While in the United States in 1912, he spoke from many Christian pulpits and before many different organizations, schools and colleges. In 1920, he was knighted by Great Britain for his humanitarian work in Syria and for his service for world peace.

WEAK HEART NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy, is bound by the shackles of ill-health. Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

MILBURN'S HEART AND NERVE PILLS they will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes:—"I was left with a weak heart and in a run down condition from the flu. My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief, and after taking six boxes I have been well and not bothered since."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Herbert Samuel, High Commissioner of Palestine, was in the procession.

At the age of 20, Abdul Baha and his father, Baha O'llah were sent to the penal colony of Acre in Syria because of their radical teachings.

While in the United States in 1912, he spoke from many Christian pulpits and before many different organizations, schools and colleges.

In this world movement which found adherents of almost every religion—Islam, Buddhism, Hinduism, Zoroastrianism, Confucianism, Judaism and Christianity.

People came to the city of Acre from all parts of the world to see and talk with Abdul Baha Abbas. His home was a regular babel. Within it gathered peoples of all races and creeds.

The creed of Bahaism is found in this statement by Baha O'llah, its founder: "We desire but the good of the world and the happiness of the nations; yet they deem us a stirrer up of strife and edition worthy of bondage and banishment. . . . that all nations should become one in faith, and all men as brothers; that the bonds of affection and unity between the sons of men should be strengthened; that diversity of religion should cease, and differences of race be annulled. . . . What harm is there in this?"

Yet so it shall be; these fruitless strifes, these ruinous wars shall pass away, and the "Most Great Peace" shall come. . . . Is not this that which Christ foretold? . . . Yet do we see your kings and rulers lavishing their treasures more freely on means for destruction of the human race than on that which would conduce to happiness of mankind. The strifes and this bloodshed and discord must cease, and all men be as one kindred and one family. . . . Let not a man glory in this, that he loves his country; let him rather glory in this, that he loves his kind."

His GRASPING DISPOSITION. "Why did they put Bob out of the game?" "For holding." "Oh, isn't that just like Bob!" —Virginia Reel.

DESIRE FOR EASE IS CAUSE OF CRIME

Jail Governor Tells of Congested Condition at Winnipeg.

WINNIPEG, Jan. 14.—"I think it is just because a bunch of young men want to make an easy living. They peddle dope, bootleg and commit other crimes to avoid working, and get arrested," Governor J. C. Downie advanced this explanation when asked why the provincial jail was in such a congested condition.

Between 120 and 130 prisoners are now quartered in the jail and 40 are living on the prison farm, making a total of 160 to 170 prisoners in custody. Normally the capacity of the jail is 105 prisoners and the extra ones are now being provided for by accommodation in the corridors and passages. Twelve men were transferred to Portage la Prairie and 10 to Brandon recently. Ten more are to be shipped to the latter place, and if the congestion becomes more acute, Portage jail can receive nearly 50 more.

Discharges and transfers keep almost a continual movement of prisoners between the jail and the prison farm, the purpose being to keep the latter institution always filled to capacity.
