# Iron and Steel Project Again Revived

## PROVINCIAL GOVERNMENT WILL BACK BONDS OF THE COMPANY

### Province Will Co-operate in Steel Project with Dominion and Imperial Governments

VICTORIA, Aug. 5.—Legislation with a view to the establishment of an iron and steel works in British Columbia will be put through at the next session of the legislature, Premier Oliver announced yesterday afternoon. The announcement was made following a cabinet meeting to representatives of the Coast Range Steel Co., a fifteen million dollar corporation organized a year ago under H. J. Landthal.

According to the announcement, the Provincial Government will unite with the Imperial and Canadian Governments and will guarantee, as its share of the bonds, a sum not to exceed four million dollars.

Under the plans discussed by the steel people with the British Columbia Government and the committee of the Imperial Board of Trade, the total investment in the plant is to run to about \$12,000,000 and the proposed plant will produce approximately 120,000 tons of finished steel a year.

### NEW LIBRARY PLANS EDMONTON CONSIDERED

EDMONTON, Aug. 5.—Full plans for the new library building were placed before a special meeting of the library board on Tuesday by H. McDonald, of the firm of Mazon and McDonald, architects, and were formally approved. Copies of the specifications are to be prepared.

As the plans were inspected the various features were explained by Mr. McDonald and there is no doubt that when complete the new library will be a splendid addition to the public buildings of the city. The building in general will be along the lines of the public library at Washington in the United States, and some alterations that have been made are improvements.

### HYDROPLANE STILL TIED UP ACCOUNT FOREST FIRE SMOKE

Len Bell, manager of the Railway Employees' Investment and Industrial Association, which is operating the all metal Larsen hydroplane from Hazelton into the Findlay River and Ground Hog countries, arrived from Hazelton on last night's train.

The airplane has not made a flight since early in the week when it had to return to the base without making a landing on account of smoke from forest fires. The Skeena valley is clear of smoke but in the Ground Hog and Babine it has been impossible to see the ground on account of its thickness.

Mr. Bell expects, however, that it will be clear in a day or so and a successful flight may be made.

There is a good deal of business waiting and passengers and freight are already to go.

Mr. Bell returns to Hazelton tonight.

### ITINERARY OF COMMITTEE ON THE FISHERIES

Partly Expected to Arrive Here August 13 and Open Inquiry Next Day.

VANCOUVER, Aug. 5.—The recently appointed standing committee on Marine and Fisheries will arrive in Prince Rupert on the 13th of August for the purpose of investigating fully the fisheries of British Columbia. This investigation will not be confined to any one branch of the industry but will include salmon and halibut and any other related matter, including hatcheries and hatchery methods.

Meetings will be held at the following points:

Naas River, on Wednesday, August 16, at 2 p.m. in school house.

Prince Rupert, on Monday and Tuesday, August 14 and 15 at 10 a.m. in hall to be advised later through the press.

Port Essington, on Friday, August 18, at 10 a.m.

East Bella Bella, on Sunday, August 20, at 10 a.m.

Rivers Inlet, on Monday, Aug. 21, in Brunswick Cannery.

Sointula, on Tuesday, August 22, at 10 a.m.

Qualiaski, Cove on Thursday, August 24, in the Community Hall, at 10 a.m.

Nanaimo, on Saturday, August 26, in hall to be advised later through the press.

Port Alberni, on Monday, August 28, in Moving Picture Hall, at 10 a.m.

Celcelet, on Tuesday, August 29, in school house on west side of Inlet, at 2 p.m.

VICTORIA, on Thursday, August 31, in City Hall Chambers, at 10 a.m. and 2 p.m.

New Westminster, on Saturday, September 2, in City Hall Chambers, at 10 a.m. and 2 p.m.

Vancouver, on Monday and Tuesday, September 4 and 5, in Board of Trade Rooms, at 10 a.m.

Cowichan Bay or Duncan, at time and place to be advised later.

As the committee is desirous of obtaining the views of all interested in the industry and all reliable information possible, it is requested that those interested in the several districts attend the meetings and afford the committee the benefit of their knowledge and experience.

### MORE DOUKHABORS LEAVING FOR MEXICO

Five Hundred From Southern Manitoba Will Trek Early in September

WINNIPEG, Aug. 5.—More than 500 Sommerfelder Mennonites, now residing in the Gretna, Alberta, Niverville and Herbert, Sask. districts, will leave early in September for Mexico, where they have purchased a large tract of land, according to John MacDougall, El Paso, Texas. Mr. MacDougall is the personal representative of David S. Rusek, who has sold something in excess of 200,000 acres to the Mennonites. The trekking Mennonites will travel south over the Soo line, Chicago and Great Western and the Santa Fe.

The land on which this new colony will settle is in northern Mexico, in close proximity to that acquired by the colony which settled there some months ago. It is about 40 miles from the National railway, but Mr. Rusek is completing arrangements to run a branch line to the colony, and 100 men already are at work on the new line. Mr. Rusek plans also to build a sawmill in the district to supply lumber to the new settlers for building purposes.

### BEATRICE IS CRIPPLED AT SWANSON BAY

C. P. R. Steamer Broke her Tail Shaft While Making Landing at Midnight Last Night.

The C. P. R. steamer Princess Beatrice, Capt. Thompson, is lying at the Swanson Bay wharf in a crippled condition following the breaking of her tail shaft while making a landing there at midnight last night. The steamer will have to remain at Swanson Bay until a tug is sent to tow her either here or to Vancouver for docking.

The steamer Prince Rupert brought five passengers and the perishable freight from the Beatrice here today. There is still some 50 tons of freight aboard the steamer for this port and the canneries. The five passengers arriving today on the Grand Trunk steamer were Mr. and Mrs. J. Purdy, Miss Van Vliet and two deck class.

### 182 FIRES IN THIS DISTRICT

Sixty of These are Still Burning—Showers at Hazelton yesterday.

There have been 182 fires in this district to date, according to a report issued by the local forestry office and of these 60 are still burning.

The district is a large one extending to Millbank Sound in the south and Stewart Lake in the east and the Queen Charlotte Islands westward.

The total cost in this district of fire fighting this season has been to date \$29,000.

The weather in the interior continues hot and bright generally, with showers in the Hazelton district yesterday.

### FISH ARRIVALS WERE HEAVIER AGAIN TODAY

Twelve Boats Marketed 184,500 Pounds of Halibut at Exchange This Morning

Twelve halibut boats marketed 184,500 pounds of fish at the Exchange this morning.

The transactions were as follows:

Canadian Fish and Cold Storage Co.—Republic, 64,000 pounds at 7c and 1.5c; D. C. F., 25,000 pounds, at 8.4c and 5c.

Booth Fisheries Canadian Co.—Flora, 7000 pounds, at 8.4c and 6c; Ethel June, 3000 pounds, at 8.5c and 6c; Viola, 1500 pounds at 8.5c and 6c.

Pacific Fisheries—Myra, 13,000 pounds, at 8.4c and 6c; Margalice, 8,000 pounds, at 8.4c and 5.5c.

Allin Fisheries—Livingstone, 18,000 pounds, at 8.2c and 5.2c.

Royal Fish Co.—Kaien, 11,000 pounds, at 8.8c and 6 1/2c.

### GOOD PROGRESS WITH DRILLING OPERATIONS COPPER RIVER COAL

SMITHERS, Aug. 5.—Good progress is being made with the coal drilling on the Copper River coal property. The diamond drill is working all the time and in spite of a slight scarcity of water there is no let up on the work.

Big fires are interfering somewhat with the packing in of supplies but fire fighters are doing good work and so far the pack train has found little difficulty in negotiating the trail.

### FUNERAL OF GRAHAM BELL

Body Laid in Grave on Topmost Peak of Mountain.

BADDECK, N. S. Aug. 5.—The townspeople and visitors from different parts of the continent made an impressive cortege attending the burial of Alexander Graham Bell which took place on Friday. The tomb, wherein the body is laid, has been blasted out of the solid rock on the topmost peak of the mountain overlooking Baddeck. The funeral rites were very impressive as the coffin, made in the deceased's own workshops, was carried by his work people up the hill to the last resting place under the setting sun.

### WEEKLY MEETING BUILDING BOARD

Two Applications Are Accepted And One is Rejected by Commission

The application of A. Brooksbank for a permit to erect a \$7,500 store and apartment block on Third Avenue was granted by the building commission last night with the provision that it comply with the new building regulations.

D. Dagleish was granted a permit to make a \$500 addition to his house on Summit Avenue.

Application made by George B. E. King and W. West were convicted under section 108 of the Forest Act of having set out a fire without a permit and each was fined ten dollars and costs.

### FINED FOR SETTING FIRES WITHOUT FIRST GETTING A PERMIT

TERRACE, Aug. 5.—Yesterday before Magistrate Kenney four men, J. K. Gordon, K. Olson, W. E. King and W. West were convicted under section 108 of the Forest Act of having set out a fire without a permit and each was fined ten dollars and costs.

The big lighthouse tender Estevan came into the harbor at noon today and tied up at the dry dock wharf.

### APPEAL RATES

B.C. Cabinet Decides to Ask For Hearing by Privy Council

VANCOUVER, Aug. 5.—The province of B.C. will appeal the recent decision of the Board of Railway Commissioners in the railway rates equalization case. This was decided today in consultation between Premier John Oliver and other provincial cabinet ministers and C. G. McGeer, K.C., counsel for this province, in the railway case. Immediate application will be made to Ottawa for hearing of the appeal to the Dominion cabinet sitting as a Canadian Privy Council.

### MASSETT TIMBER CO'S PLANT OVERHAULED

Forty to Fifty Men Employed at Buckley Bay just now Getting Everything in Shape

Tonight there is a painter, a high rigger and a carpenter going to Buckley Bay to join the staff of from forty to fifty men already there in putting the plant of the Massett Timber Co. in good shape. The high rigger will paint the wireless poles which are 200 feet high.

The whole plant is being thoroughly overhauled and painted. There are painters, carpenters and millwrights at work as well as laborers and others.

### FAMOUS ENGLISH WRITER HERE

Sir William Schooling on Way to Fort St. James—Writing History of H. B. Co.

Sir William Schooling, the famous English writer, is in the city today on his way to Fort St. James where he is to collect data for the history of the Hudson's Bay Co. which he is preparing. He is accompanied by C. H. French, fur trade commissioner of the company from Victoria. They arrived on the Prince Rupert this morning and will leave on tonight's train for the interior.

Sir William wrote a book on the Hudson's Bay Co. in 1920 on the occasion of the celebration of the 250th anniversary of the granting of the charter. This work was so successful that he was subsequently engaged by the directors to write a full history of the company which will be practically a history of Canada. He is examining the archives of the company and getting material at first hand and is spending six months in Canada doing so. He has been in Ottawa already and will return to Victoria.

Sir William will not spend very long in the interior but may visit other points as well as Fort St. James. He is due to address the Rotary Club in Edmonton on August 17 and will go to the Alberta capital from Prince George.

### CROP PROSPECTS

British Columbia Has The Poorest Outlook This Season

In the prairie provinces the crop conditions continue satisfactory, according to an official report just issued by the Bank of Montreal. On the whole the outlook is better than last year.

The crops of Ontario and Quebec are satisfactory and harvesting has commenced.

Drought continues in British Columbia but showers have fallen in the interior and the situation has been somewhat relieved.

Prospects in the maritime provinces are excellent.

### GERMANY WILL PAY

Still Claims Amounts of Indemnity Should be Reduced

BERLIN, Aug. 5.—The German government sent to Paris a supplementary note asserting Germany does not wish to default in payments of private debts contracted in France before the war, but re-affirms the previous assertion that the amounts should be reduced.

### DOMINIC DEPORTED.

LONDON, Aug. 5.—The republicans have issued a manifesto declaring that Dominic, the chaplain of the republican forces who made a spectacular stand with soldiers in Four Courts has been deported from Ireland by order of the British authorities. Dominic is en route to the continent.

### TYPHOON AT SWATOW

HONG KONG, Aug. 5.—Loss of life in a typhoon which swept the port of Swatow recently is estimated at 5,000.

### CAPTURE TRALEE

DUBLIN, Aug. 5.—Free State troops have captured Tralee.

8:15 a.m. spoke steamer Juneau off Prince Rupert northbound.

### CANNERIES ARE GOING STRONG

Pink Run is on in Full Swing—Some Boats Are Averaging From 500 to 600 Fish

The run of pinks is on in full swing on the Skeena River this week and the canneries for several days have been working for from 5 o'clock in the morning until midnight with a constant stream of fish coming in. Boats are averaging from 500 to 600 fish apiece.

Two weeks from tomorrow, with the closing of the sockeye season, the salmon fishing for the year will practically be over and the canneries, with the exception of one or two which will pack cohoes, will commence to close up. The pink season usually ends about the same time as the sockeye.

### UNDER SECRETARY OF STATE IS COMING TO THIS PROVINCE

OTTAWA, Aug. 5.—Sir Joseph Pope, under-secretary of state for external affairs leaves tonight for Vancouver to welcome on behalf of the Government, Right Hon. S. Haastri, who is commissioned by the Government of India to visit overseas Dominions and discuss the status of Indian subjects.

### SMITHERS GOES AFTER EXHIBITION TROPHY PRINCE RUPERT FAIR

SMITHERS, Aug. 5.—A district exhibit will be sent to the Prince Rupert fair from here. Already steps are being taken to collect samples of grain, vegetables, roots and other agricultural and horticultural products and it will be the aim of the town to have the best district exhibit in from any interior point.

BIRTH.

A daughter was born to Mr. and Mrs. Jos. Amstutz, of Swanson Bay, at the General Hospital yesterday.

Poor Little England Was To Be The Goat.

With only the scant information before us that came on the wires, it looks as if it was intended to make Britain the goat in connection with the inter-allied debts question.

The war is over and by many people almost forgotten, but the debts are unpaid. Britain stated her intention of meeting her obligations to the United States.

Earl Balfour, on behalf of the British Government, sent a note to each of the interested nations of Europe saying that the debt question was one and indivisible.

Then Germany Must Be Made To Pay.

The European allies of Britain apparently expected that they would not have to pay their debts and so were willing to be rather lenient with Germany.

Everyone Benefits From A Settlement.

Everyone would benefit from a settlement of the debts, and United States just as much as any other country.

Neighbors And Friends With United States.

We are neighbors and friends with the United States. We have very close trade relations and hope to have even better.

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN ST., MONTREAL, P.Q.
I am writing to tell you that I owe my life to "Fruit-a-tives".

I suffered terribly from Kidney Trouble, Dyspepsia and Weakness. I had these troubles for years and all the medicine I took did not do me any good.

I read about "Fruit-a-tives" and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength.

I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take "Fruit-a-tives" to recover their health.

JEANNETTE LALONDE.

In the Letter Box

GRAIN ELEVATORS

Editor Daily News: After reading a letter in the Vancouver Sun, written by a Mr. R. D. Robinson, under the above heading, I wonder why Vancouver should be boosted continually at the expense of the Northern part of the Province.

Gateway to Omineca.

Fort Fraser, is the natural gateway to the Omineca country and there is already a railway survey to Pine Pass, from this point which will connect the Edmonton, Dunvegan and Pacific Railway with the G. T. P. Railway to Prince Rupert.

Mr. Robinson, recommends Mr. Motherwell to see to it that elevator space is provided. Good! Let it be provided at the nearest point of seaboard from the Alberta grain fields—Prince Rupert.

Employ Number of Men.

I like the figures given by Mr. Robinson, and even 3 vessels a day loading grain at Prince Rupert, would employ quite a number of men.

WALTER W. WHITE, Vice-President Fort Fraser Board of Trade.

The Sun's Article.

Following is the letter from the Vancouver Sun to which reference is made:

Your editorial of 20th instant re grain terminal elevators very concisely states the case in your words "the inadequacy of one elevator has already been provided."

Hon. W. R. Motherwell, Minister of Agriculture, has this proof—if not, he is obviously to blame for not having it since you could have favored him. He should see to it at once that further elevator space is provided forthwith so that the farmers whom he represents will this season enjoy the great advantages the lower freight rates will give.

Value to Farmer.

And particularly, we emphasize that its value to the farmer is manifold. Our climatic conditions ensure an open port every day in the year from which vessels laden with grain can ply to all the marts of the world.

ice-bound from the last of November or early in December to the last of March or early in April. These conditions compel the farmer to forego at great loss, his fall work and fall ploughing—which are mighty factors in economic production of grain.

Ship During Winter.

The farmers in Alberta and Saskatchewan could hold this wheat while their fall work and fall ploughing were being done, and send it to this port in November and throughout the winter months, when plenty of time was at their disposal.

Fifteen million per month or 500,000 bushels each working day would require approximately four five-thousand ton vessels to take it away or in the banner month of December, approximately seven such vessels per day.

Measure Up.

Shall the Minister of Agriculture measure up to a high and noble standard of statesmanship and speedily remove the hindrance now in the way of the farmers, from whom he sprang into political activities, getting full advantage of the freight rate concession in shipping to the coast and the hindrance in the way of the prosperity of Vancouver and without delay undertake to provide adequate elevator sites on which to erect adequate elevator capacity, situated on area such as outlined or shall he fail us as a time and political partizan-serving politician.

R. D. ROBINSON.

Bring your lunch basket your family and friends and spend this day with Prince Rupert Council and an old-fashioned good time picnic. Coffee will be served free on the ground, also ice cream and lemonade. Boats leave Swanson's Float for Digby Island at 9:30, 10:30 and 11:30 a.m., returning at 6:40, 7:30 and 8:30 p.m., Tickets \$1.00, Children free. 182

## Church Notices

### First Presbyterian Church.

Tomorrow we reopen after a holiday. Let us all come together into God's House to praise Him in the beauty of holiness for all his favors. Subject in the morning "The Limitations of the Material." Subject in evening, "My Eight Years in Prince Rupert." The Sunday School will meet. Preacher, Rev. H. R. Grant, D. D.

# a letter to the editor

"Box 10, Terrace, B.C. "31.7.22.

"Dear Mr. Editor:

"Although this is the age of scientific wonders and fresh reports are daily published of new advances and larger conquests, yet I have had such a remarkable recovery that I make no further apology for asking you to publish this letter.

"Last March I met with an accident which displaced my right hip bone. At first the pain was not severe and I treated it for sprain, but eventually discovered that the bone was out. By that time the pain had become very troublesome, and on June 26 I travelled to Prince Rupert Hospital for treatment. I only spent four days in the hospital as the doctor told me that the bone could not now be replaced but he ordered rest and massage which he said should restore me.

"However, these hopes were doomed to disappointment and I grew steadily worse until by July it was impossible to walk or stand. The least movement was likely to start the pain and sleep was only possible in rare snatches. In the meantime we had made enquiries for the address of a Chiropractor, and on July 13 received from a friend the address of Dr. Barton at Prince Rupert. Next day, Friday, we sent a letter to Dr. Barton asking him to come as quickly as possible. He came on the Saturday train arriving about 11 p.m., and immediately crossed the river and made a careful examination.

"He told me that the trouble was in the Sacro-Iliac Articulation, in the so-called immovable joint where the innominate or hip bone is attached to the Sacrum. Dr. Barton then set to work to correct the condition, and after about fifteen minutes told me to walk, and much to my amazement I found I could do so. On Sunday morning Dr. Barton returned and completed the adjustment, the whole work being carried out so rapidly and easily that it was over before I had time to realize it had actually commenced.

"After Dr. Barton left I carefully obeyed instruction as to massage, exercises, etc., with the result that by July 19th, just three days after the adjustment, I was able to walk about quite freely, naturally and absolutely free from pain. Then Dr. Barton came again on July 23 and he was able to declare me quite restored.

"Naturally, from my point of view, of the work and the speed with which it was carried out seems nothing short of marvellous. One needs to have faced the possibility of a crippled condition becoming permanent to really appreciate the joy of such a recovery. I have asked permission to publish this letter because I feel it is the duty of those who have benefited by Chiropractic treatment to acknowledge the fact as publicly as possible just at present. Owing to the unreasonable persecution of Chiropractors there is a danger that the help which has restored us may be rendered unobtainable to others, and I for one would not willingly doom another to the pain I have so narrowly escaped.

"May I appeal through the columns of your paper for the sympathetic support of all fair minded people for those who are at present being persecuted for practicing such a science of healing. Apparently the only present acknowledgment the Dominion makes of these men and women, who are undeniably advancing the health of so many people, is imprisonment and fine.

"All roads that lead to health are good: Physics, Surgery, Manipulation or Suggestion.

"'Tis life of which our nerves are scant,  
'Tis life, more life, for which we pant,  
More life and fuller that we want."

"Most human experience will endorse the poet's opinion, then why set up a barrier across any one of the avenues that lead to the hope of higher efficiency? Religious toleration seems so essentially just and reasonable that in these days it is hard to understand why our forefathers had to strive and suffer so to win it. Yet our own generation are acting in a manner even more narrow-minded than the persecutors of old, for religious theories cannot be demonstrated as these results from Chiropractic treatment can.

"This is the age of specialists and it can hardly be expected of any one man that he should crowd the knowledge of every branch of the science and art of healing into one human brain. Let the doctors show that the public good is their first concern and if they are still too prejudiced to welcome other certified healers into their own exclusive circles let them at least cease a persecution which threatens eventually to destroy the public's trust in themselves but which cannot cause more than a temporary check to Chiropractics. May be I speak with feeling, but wheeas I was lame, now I can walk.

"I would like to add that this letter is absolutely unsolicited, and should further evidence be required for the facts stated, there are many who would willingly bear witness to them.

"Yours sincerely,  
(Signed) "GLADYS TOOMBS."

Inserted by Dr. Geo. L. Barton, Chiropractor, Wallace Block, Prince Rupert, B. C.

ELKS WINNERS BASEBALL GAME

Defeated Sons of Canada Last Night by a Score of 9 to 7 in Interesting Game

O. P. SMITH IS STAR IN CENTRE FIELD

The Elks scored a well earned victory over the Sons of Canada in last night's Senior baseball game, winning the match by a score of 9 to 7. While it was, perhaps, not as good a game as the last one staged between the two teams it was well contested and interesting, and the large crowd of fans who attended were well satisfied.

The batteries were largely responsible for victory and loss. Selman pitched eight innings for the Elks and held the Sons to scattered hits and runs. He made 11 strike outs, and a peculiar feature was that the batters usually proved the strongest for the Sons were the ones who did not hit. Eady made nine strike outs but had two had

THROUGH EXPRESS.

Selman's fast deliveries were not relished by the Canadians last evening.

In the fifth Bazzett-Jones and R. Smith were put out at first. O. P. Smith made a legitimate three bagger which was converted to a home run on slow fielding. Selman again struck out. Farquhar was walked and stole second and third but was unable to score. H. Menzies striking out, Curtis being put out at first and Anderson striking out.  
 In the sixth, Gilmour and Frizzell were put out at first and Eddie Smith was put out when Harry Menzies stopped a hot one that came straight for him.  
 O. P. Smith Stars  
 For the Sons, V. Menzies made first, although Eddie Smith, in left field, made a good stop. H. Scott made a three-base hit and scored Menzies. Robertson was put out at first by a catcher's assist. For the Sons, V. Menzies and H. Scott fanned, Robertson got first narrowly and stole second and third. Sloan walked and Eady was put out by a first base catch.  
 In the fifth Bazzett-Jones and R. Smith were put out at first. O. P. Smith made a legitimate three bagger which was converted to a home run on slow fielding. Selman again struck out. Farquhar was walked and stole second and third but was unable to score. H. Menzies striking out, Curtis being put out at first and Anderson striking out.  
 In the sixth, Gilmour and Frizzell were put out at first and Eddie Smith was put out when Harry Menzies stopped a hot one that came straight for him.  
 O. P. Smith Stars  
 For the Sons, V. Menzies made first, although Eddie Smith, in left field, made a good stop. H. Scott made a three-base hit and scored Menzies. Robertson was put out at first by a catcher's assist. For the Sons, V. Menzies and H. Scott fanned, Robertson got first narrowly and stole second and third. Sloan walked and Eady was put out by a first base catch.  
 In the seventh, Easson made first on H. Menzies' error. Dickenson was put out at first. Bazzett-Jones was caught out by Anderson and R. Smith was put out at first. For the Sons, Farquhar struck out. H. Menzies made a one-base hit and stole second and third. Curtis was caught out by the pitcher. Anderson made first and second on an overthrow. Menzies scoring. Anderson was brought in when V. Menzies singled. Scott was put out at first.  
 In the eighth, O. P. Smith was hit by the pitcher, Selman made first on a bunt and Gilmour made

scoring Easson and R. Smith scored Dickenson on another one-bagger. W. Martin was put out first but the runners advanced a sack each. Selman struck out and Bazzett-Jones and R. Smith were brought in when Gilmour singled. Gilmour died on bases when Frizzell was put out at first by a pitcher's assist. In the Sons' half, Menzies struck out, Scott was walked but no score was made, Robertson striking out and Sloan being caught out by short.

**Third to Sixth**  
 Eddie Smith was walked in the third and Easson got to first. Smith came home on Curtis' error and Easson scored when Dickenson made a two-base hit. Bazzett-Jones made first on a pitcher's fumble and was scored with R. Smith's one base hit. W. Martin and Selman struck out. In the Sons' half, Eady was put out at first and Farquhar made first. H. Menzies was put out on a second basemen's catch, and Farquhar scored on Curtis' single. Anderson got to first but Curtis was caught stealing third and V. Menzies died at bats.  
 Gilmour went down in the fourth on a pretty catch by Farquhar and Frizzell struck out. E. Smith got to first by a narrow margin and was scored on Easson's two bagger. Dickenson was put out at first by a catcher's assist. For the Sons, V. Menzies and H. Scott fanned, Robertson got first narrowly and stole second and third. Sloan walked and Eady was put out by a first base catch.

In the fifth Bazzett-Jones and R. Smith were put out at first. O. P. Smith made a legitimate three bagger which was converted to a home run on slow fielding. Selman again struck out. Sport Chat

If the football game is to continue drawing good crowds and if the benefit series is to be successful the matches will have to be a little more livelier than the one on Thursday night between the Sons of England and the Sons of Canada. Perhaps it was too hot or perhaps the sun in their eyes bothered them, but in any event the players showed a temporary lapse of the vigor that has characterized football throughout the season. Good fast play is what the fans like to see and the players must try to provide it.

The final two games of the Intermediate Baseball League between the Grotto and Gil's will take place next Monday, August 7, and on Tuesday the week following, August 15, respectively. A win for the Grotto in the first game will cinch the Colt-Cup and the Reach medals for them. On the other hand, a win by Gil's on Monday will tie the series up again and the final game will be decisive of the winners of the Intermediate championship.

According to a statement made by Frank Shuler, San Francisco wrestling promoter, Ad Santel, formerly world's light heavyweight wrestling champion, is now nearly blind and will no longer be able to wrestle. Ad Gustavo, the wrestler who is at present visiting in the city from the south, once beat Santel in a handicap match.

'DR. FOWLER'S' Saved The Lives of Four Children

Diarrhoea, dysentery, cholera infantum and summer complaint are responsible for more deaths, especially among children, during the summer months than any other form of disease. According to statistics, in the City of Toronto alone, in the past five years out of 1000 deaths of children, from diarrhoea, 352 died during the four summer months. It therefore behooves every mother to look after her children on the first sign of any looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has been proven to be the best there is.  
 Mrs. Harold Sellers, Fenfield, N.E., writes:—"Dr. Fowler's Extract of Wild Strawberry saved the lives of four of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea which which they were troubled. I will always recommend it, and now always have a bottle on hand in case of emergency."  
 Price, 50c. a bottle; put up only by The T. Millburn Co. Limited, Toronto, Ont.

CALLIES' FOOTBALL CLUB ENTERTAINED BY SCOTTISH LADIES

Large Gathering Spent Pleasant Evening in Fulton Street Club Rooms Last Night.  
 The home of the St. Andrew's Society on Fulton Street was crowded with members, their ladies and friends last night, the occasion being the giving of a social by the Ladies' Auxiliary in honor of the Callies' football team marking their winning of the Dominion Day Cup and other victories in the soccer field. There was an excellent program and splendid refreshments were served. The affair started about 9 o'clock and broke up at midnight.  
 President William M. Brown was in the chair and the following contributed to the program: Mr. and Mrs. Stockdale, Mrs. L. O. Larson, Mrs. Jarvis H. McLeod and H. Flecher, vocal numbers, and Mrs. James Simpson and W. G. Dennis recitations. Mrs. J. J. Anderson was the accompanist of the evening.  
 Team Congratulated.  
 Congratulatory remarks were made to the football team by Ex-President S. D. Macdonald and Ald. J. H. Kelly. A. Kinghorn, captain of the team, replying to these and at the same time thanking the ladies on behalf of the honored players.  
 A pleasing feature of the evening was the presentation to Mr. and Mrs. Harry Foote of a cut glass fruit serving set in honor of their recent marriage. President Brown made the presentation and Mr. Foot replied suitably.  
 The general committee comprised Mrs. W. Reid, Mrs. George Abbott and Mrs. James Irvine who had charge of refreshments and Mrs. James Lee who looked after the program. General assistance was given by other members of the auxiliary.

In connection with the removal of the provincial flagpole it was mentioned at the Board of Trade meeting last night, that a much higher flagpole might be secured, possibly free of cost to the city, which would be better than the one being removed. The matter was left to the publicity committee to investigate.

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

The Admiral of the Mosquito Fleet is feeling lonely these days so many of his boys being absent from the old stamping ground around the floats. He says he feels like the father of a large grown family when all leave for fields of endeavor far away. Yes, there is a very human side to the "old man."

However, he is consoled by the fact they are not up to any mischief and his old weather beaten face lights up when he sees the youngsters heaving a merry clip into port with the holds full of the harvest of the seas. The Admiral has much pleasure in stating that during the week some 370,000 pounds of fish has been brought in which has constituted sixteen carloads for Eastern shipment, and he states that the reports from his seafaring family are most cheering. During the week the prices have not been quite so good, the highest price paid being 9.6c and 6c and the lowest 7.6c and 5c. Although the price has dropped the fishing has been excellent on the deep seas and the weather clerk has been favoring the toilers with some wonderful weather. Several of the halibut boats have made speedy trips which has helped quite a lot in buying new shoes for "baby sister."

Good reports are to hand from the trawlers and many of the Mosquito fletters have been absent from port from two to three months which proves that they are finding the business remunerative. According to the Skeena River cannery reports the sockeye run is dropping somewhat but to offset this the pinks are running well. The average catch of sockeye per boat is hovering between 70 and 100. According to reports from the Naas the sockeye catches are becoming lessened but the run of pinks is climbing. Fishermen are doing well with their catches of pinks this season as the canneries are using up a lot of this class of fish. The Skeena River pack up to last week is reported as 85,000 and the Nass 24,593.

The Admiral is sending out invitations for a fleet banquet to be held aboard the flagship on September 1, when a toast to the Hon. A. M. Manson will be drunk in something a little more palatable to the boys than milk. As the old man says "every cloud has a silver lining." Of course you'll get the point of this paragraph.

A very interesting boat came into port on Monday last from the south with lumber and coal in tow for Albert & McCaffery interests. It was the S. S. Gunner, from Vancouver, with Capt. Polkinghorne on the bridge. This boat was built at Middleboro on the Tees, and was one of the mystery ships used by the British navy during the war with so much effect against the German submarines. Her port of registry is Plymouth, England. To all outward appearances she looks just like an ordinary tramp steamer but for the purpose of hoodwinking the wily Hun she was fitted with all sorts of concealed death dealing devices. Her hatchways were of the disappearing order which let into view the latest quick firing and armor penetrating artillery and she is credited with sinking at least four German subs. The armament carried consisted of one 1.7 gun on the stern and twelve pounders placed in active positions, including a quick firing gun on each side of the bridge. Two trap doors were fitted on the

stern which permitted the sinking of depth charges. These were of great assistance in bringing the enemy subs to the surface when gun sighting was greatly facilitated. A scientific instrument was suspended over the side of the ship which connected with a dial arrangement on the bridge. This instrument was for the purpose of detecting the approach of a submarine and indicated in what direction and at what distance it was traveling. The Gunner left Vancouver on Thursday.

Captain A. Swanson returned from a private business trip to interior points on Monday last. Cap reports that serious bush fires were raging extending in spots from Ansbury to Prince George. Every available bodied man in the vicinity of the fires had been pressed into service.

Inspector J. W. Allen, traveling engineer for the Department of Marine and Fisheries, with headquarters in Vancouver, paid a visit to the waterfront on Thursday. Mr. Allen is making an inspection of the government patrol boats.

A scow load of motor fuel, per tug Azurite, arrived from Anyox on Monday at the Prince Rupert Boat House. The shipment consisted of 8,000 gallons. Henceforth shipments will be made every week.

Upon the arrival of the Prince John on Thursday morning quite a deal of excitement was caused among the natives around Bob Ogilvie's palace by the appearance of Charlie Long swining a brand new axe above his head. Charlie claimed that he had been engaged as chief executioner of the Mosquito fleet and that he was not going to fall down on the job for the need of a good axe. He claimed that the axe was sharp enough to shave with but was unable to get any volunteers to try the experiment. Enquiries at the Admiralty offices failed to confirm this appointment but if it is a fact there is no doubt that Charlie will fill the bill in a very capable manner. Speculation is rife in nautical circles as to who the first victim will be.

The schooner Nornen, Capt. A. Christensen, made port during the week with 14,000 pounds of prize halibut. Cap made a real fast trip. He was at the Elk's picnic on July 23 and was out and in again with his catch by the last of the month. The fact that Cap enjoyed the spread so much at the doings is put down as the reason for the exhibition of pep.

The Gilford, Captain Bob Hobbs brought in 13,000 pounds of choice deep sea monsters of the halibut species. No untoward happenings on the trip could be gleaned from the secret service.

The Johanna, Captain John Wick, made port during the week with 11,000 lbs. of the best. Cap thinks that Canadian registry is just fine.

The waterfront now boasts a human bird, and the idea doubtless arose from the fact that the birlike performer has followed the hobby of fowl keeping for quite a while. The human bird is named Steve, and at the mention of chickweed he will stand on one leg, open one eye, remove one tooth, and whistle one note just like a bullfrog. In fact it is said that his wife is preparing a nice roomy cage

# MACDONALD'S

15¢

The Tobacco with a heart

## CIGARETTES

for him to recline in with a suitable perch, as the constant roosting on the furniture is getting on her nerves. There is a nice little patch of chickweed up the track not far from where Steve earns, or tries to earn, his daily bread, and to this birdy paradise Steve is apt to hike twice daily and indulge in a lunch of the feathered dainty. It is thought by his colleagues that the next performance of Steve will result in egg laying.

The good ship Narbethong has been out of port for several days on another mystery trip and their secret service are sitting up nights figuring out the occurrence. It is thought that Cap. Freeman is over at Wolfe Island looking for wolves.

The tug boat Hanaco, Captain Brannen, having completed her overhaul has left for Surf Inlet on business for the Morgan Logging Company.

Dedicated to A. O. Franks:  
O where is my wandering boy,  
O where is my wandering boy,  
Among the logs and big bull frogs,  
You'll find your wandering boy.

The tug Tepic arrived early in the week from the south with a scow load of coal for Albert & McCaffery.

The Dixie Rupert, Captain Geo. Newcombe, took a party of the Boy Scouts over to Pouchet Island.

The Athl, Captain Brandy Newell, arrived in port early in the week with 17,000 pounds. Cap had nothing special to report other than that the weather was top-hole.

The following boats marketed fish during the week:  
Pioneer, Bluebird, Johanna, Fisher, Inez H., Constitution, Alliance, Forward, Eastern Point, Arcade, Emblem, Flattery, Guilford, Nornen, Star, Ringleader, Yellowstone, Mah, Doreen, Athl, N. & S. Pelican, Washington, Vesta, Volunteer, Happy, Teddy J. Maude, Senator, Eagle, Woodrow, Bingo and Alaska.

Flossie Flirt has again written the Admiral a very interesting letter from the Wheat City over which he is all bet up and is afraid that he is going to lose his amazing stenographer. Flossie says: "Dear Mr. Admiral, I received your letter alright but couldn't read it. The guy as delivered it says that you must be suffering from the shakes. When you write tie an anchor to your wrist to steady your hand."

"Say, I'm having the time of two lives with Sandy Slush, and he is rightly named Slush. He dishes it out in lumps, but still he's cute and I'm getting used to it. When a guy wants to chew your gum he needs watching. He brought me a present the other day. It was a stand for setting an electric iron on. He said the iron cost \$5 and the stand 50c and that he'll buy the iron on my next birthday. Now that's going some. We had a great time at the party last (Continued on page 6)

## ALASKA SALMON ARE RUNNING WELL THIS SEASON: PACK LARGE

New Gas Boat Widgeon For Fisheries Service in Territorial Waters

KETCHIKAN, Aug. 5.—Reports of cannerymen are that the pack this year up to the present time is considerably greater than it was last season at this time. It is estimated that the Smiley cannery, the Sunny Point cannery, the Beagle Packing Company, the Pure Food cannery, and the Fidalgo Island Packing Company have put up 100,000 cases up to this time.

One cannery which on the first of August last year had 5,000 cases packed had 19,000 cases packed up to last night. All canneries report that the fish is coming in in sufficient quantities to meet their demands.

Earl Hunter, of the bureau of fisheries went south to bring back the boat Widgeon which is being fitted out for Alaska service. The Widgeon is a ninety-foot boat, of 14 feet beam and will be one of the finest in the fisheries service in Alaska. He was accompanied as far as Ketchikan by L. M. Hall, assistant agent for Alaska, who is going to Hidden Inlet in connection with bureau matters there.

Hunter reports that there is generally more salmon in south-eastern Alaska this season than for several years. Anan Creek, he says, had more salmon in this season than ever known before. Ice straits traps and canneries are getting more fish than they have been able to obtain in several years, so that the whole division is enjoying more prosperity than was anticipated.

## TWELVE THOUSAND MILES

Twelve thousand miles at least must be travelled to bring "SALADA" to your table. Yet so skillfully is it prepared, so carefully it is protected that the delicate leaves reach you (but a few weeks late) in all their tender freshness. To really enjoy tea at its best, insist upon "SALADA." Your grocer has this delicious tea. Ask for it today.

## Ten Years Ago in Prince Rupert

Big blags are being put off between Cameron Cove and Rays Cove in connection with the excavation for the dry dock site. Many interested spectators gather on the various hills to witness them.

The Juvenile Bostonians, a clever troupe of youthful actresses, are showing at the Westholme Theatre and a great reception is being accorded them.

The gardens of Metlakatla and Prince Rupert are now giving their annual abundant crop of raspberries.

### Waterfront Whiffs

(Continued from Page 5)  
Sunday. We were sitting on a bench at twilight when Sandy had the misfortune to drop a dime in the grass and we were there till midnight trying to find it. He hadn't got any matches to help to find it with so I borrowed a glow worm for a while which did the trick. Sandy said it was poor financing to use five cents worth of matches looking for a dime and of course there's sense in that. Anyway we rode home on the street car. I went to a swell society do the other evening and they gave us bowls after the meal with something in them and to me it looked like gin. I was going to drink it when Sandy kicked my shins under the table. The idea was to wash your hands in 'em but they didn't dish up any soap or towel. A lady was there in the latest creation from Le Pas, wherever that is, but being a perfect lady I guess I won't describe it. Personally I thought she was ready for bed. Sandy said it was a swell outfit to keep cool in but I took him home quick. We went all over Woolworth's one day to look for an engagement ring but Sandy thinks we had better wait for a sale. I mean a store sale not a sale on the salt chuck. Give my best regards to all the old boys and I might come out that way for a honeymoon if Sandy can spring the dough. When you write again get someone to type it.

N. M. McLean, the famous boat builder, is taking a well earned rest, but is undecided whether to go to Rome or Porecher Island. He says you can get seacick going to either place.

The power boats P.R.T. and Wigwag of the Ketchikan fleet, have been busy during the week towing in fish offal for the Marine Products Company at Tucks Inlet.

The fish buyers got lost the other morning and several arguments ensued as to who had moved the fish exchange over night. It is a well known fact that fish buyers detest anyone interfering with the floors, walls or furniture of the exchange room. It appears that two well meaning satellites of the waterfront took it upon themselves to give the fish sanetum a spring clean and with mop, etc. went over the whole darned works just as their mothers did at home. The consequence was that for once the fish exchange looked like a real business room. When the buyers put in an appearance in the morning they did not recognize the spotless spot and wandered around for a while before they learned the true facts. It will be a sorry day for the spring cleaners if ever their names become public.

The following boats are at present in port: Monty, Edwin, Maeve, Flora S, Ruby Mae, P. R. T., Ringleader, Pelican, Eleanor

The Nuba, Capt. W. Cook, was in during the past few days with 6000 pounds. Cap reports a very satisfactory trip.

Will anyone knowing the whereabouts of Jud Thurber or Jimmy Thomas kindly communicate such information to the secret service.

### OPTIMISM AT MASSETT INLET

**Correspondent Tells of Beauties of Place and Hopes of the People**  
MASSETT, Aug. 5.—The people on the Queen Charlotte Islands are enjoying a fine summer and never was such optimism among the settlers as there is now. Farming and ranching is steadily on the increase and the crops look promising this year. Work is abundant. The Watun cannery is employing many local people and the big run of Massett Inlet plinks has begun.

The new mission boat Western Hope has returned from her first trip to Inlet points and is advertising Prince Rupert's splendid boat building. Soon Prince Rupert will have a chance to criticize some of the Massett workmanship for Mr. Edenshaw's power boat is receiving the finishing touches.

**Prettiest Spot in B.C.**  
Masset is getting well known on account of its beautiful picnic grounds. It is the prettiest spot in all northern British Columbia. Many who do not know it now will find it out. The people of Buckley Bay have a splendid time here and it will be only a matter of time when Prince Rupert people will come on excursions to this wonderful country with its painted cottages, beautiful gardens, large grass plots and park like woods. Adjoining is north Beach which stretches for miles. There is an abundance of wild berries waiting for busy hands to gather. A trip out on the new road to the farms of Messrs. Hilliers and Ferris will convince anyone of the settlers' optimism. Mr. Walter's nursery in Massett of maples and Caragana seems to be successful.

**Institute Flourishes**  
The Graham Island Farmers Institute has enormously increased its scope this year, which is a sign of progress. Transportation facilities are expected and with the opening of the big lumber concern at Buckley Bay more comfort possibilities arise and a ready market will be created thereby.
