Cork City Favors Anglo-Irish Treaty

SUN YAT SEN'S ARMIES OF SOUTH CHINA DEFEATED BY NORTH

Irish Newspapers Assume the Election Will Favor Anglo Irish Treaty; Cork 4 to 1

DUBLIN, June 19.—Counting of the votes in last Friday's election began this morning and up to noon today had proceeded without incident. Newspapers here treat the election results thus far received as conclusive evidence that the voters support the Anglo-Irish treaty.

The Irish Times prints a detailed report of the proportional representation vote in Cork city, arguing that it shows that labor voted ten to one in favor of the treaty and that the polling was four to one in its favor.

TAX MACHINERY FOR SAWMILLS

Also Two and a Half per cent Higher Duty on Some Farm Implements.

OTTAWA, June 19.—The House of Commons on Saturday discussed the budget amendments and carried the item which empowers the Government to compel the marking of imported goods to show the country of origin, if the Government so desires. There was considerable debate on this amendment. The clause originally made marking compulsory in all cases.

An item providing two and a half per cent higher duty on cultivators and similar farm implements, also carried. The Progressives moved a reduction of two and a half per cent duty on plows when that clause came up for discussion. No decision was reached on it Saturday.

An item taxing sawmill machinery 25 per cent was allowed to stand.

BRITISH VESSEL PRESUMED LOST

Blue Sky, Portsmouth for Invergordon, Believed Wrecked With All Hands Lost.

LONDON, June 19.—The Admiralty announces that the Blue Sky, which left Portsmouth on June 12 for Invergordon, Scotland, is presumed to be lost with all hands. Wreckage of the Blue Sky has been washed ashore. The vessel carried three officers and eleven enlisted men.

HOWE BROTHERS HAD DIP IN HARBOR AT 1 O'CLOCK SUNDAY

Sam and Dick Howe had a plunge in the harbor yesterday afternoon when the canoe in which they were going across the harbor upset. Both being good swimmers, they had no difficulty in keeping afloat until picked up by one of the small boats of the Prince Rupert Boat House. The incident occurred about 1 o'clock.

FINED TEN DOLLARS FOR FIRE NEGLIGENCE

WILLIAMS LAKE, June 19.—In the police court here Frank White of Forest Grove was convicted of willful negligence in contravention of the Forest Act and fined ten dollars and costs.

SHIPS ARMS TO IRELAND

TRENTON, N. J., June 19.—Colonel M. H. Thompson, vice-president and active head of the Auto-Ordnance Co., of New York has been indicted by a federal grand jury here on the charge of conspiracy to ship arms to Ireland in violation of the neutrality laws.

Thompson is a son-in-law of Colonel George Harvey, the United States ambassador to Great Britain.

NEEDLEWORK DISPLAYS BY DOMESTIC SCIENCE CLASSES OF SCHOOLS

The girls of the High School and the Senior rooms of the public schools gave an exhibition of needlework in the King Edward High School on Saturday afternoon and evening. The displays showed that the work, as planned by Miss Marcellus, had been effectively carried out by Miss Stevens and a high standard of originality and usefulness had been obtained. Owing to the closing of the regular quarters of the classes in the Booth Memorial School, the work had been carried out in the regular class rooms but good results were evident in spite of this serious handicap.

The work in the first and second years of the High School consisted of dresses, cloaks, aprons, blouses and middie made by machine. The Entrance classes exhibited embroidered underwear and the Junior Fourth embroidery stitches which had been taught were shown on pillowcases, towels, dresser scarfs and cushion covers. The Senior Third class had made caps and aprons in preparation for the instruction in cooking.

The exhibition was open from 3 to 5 in the afternoon and 7 to 8:30 in the evening. Ice cream and cake was served by the girls to the many visitors.

WOULD HAVE CLOSE SEASON

Captain Hvatum of Halibut Boat Scandia Discusses Situation.

The halibut boat Scandia, Capt. O. O. Hvatum in command, sailed today for the sea fisheries, says the Seattle News in a recent issue. This will make the fourth trip of the season for the Scandia.

On the first trip of the season the catch weighed 56,000 pounds of halibut for three weeks fishing. The captain and crew lost money on this trip. The second catch amounted to 75,000 pounds, which netted the crew \$127.00 each. On Tuesday they took 93,000 pounds of halibut caught from Portlock banks, to Prince Rupert and received seven cents and three cents, the crew sharing \$160.00 each.

The Scandia carries a crew of fourteen fishermen, a cook, one engineer and the captain. The cost of operating the Scandia, said Captain Hvatum, while in port yesterday, is cut to the minimum, and even at that it is hard work to make a profit on the season's work.

Oil Price High.

While the price for halibut, seven and eight cents is low, said the captain, they would be able to operate at a small profit if provisions and supplies, especially oil could be bought at a reasonable price. The oil alone to operate the Scandia costs \$1,100 to \$1,300 a trip, and there is no question that it is a poorer quality distillate than was used in 1914.

Before the war, said Captain Hvatum, the Scandia could make a trip for from \$700 to \$1,000, now it is impossible to operate under \$2,100, in fact the last few trips cost from \$2,500 to \$3,000 a trip.

Fish Scarce.

As far as the fishing is concerned, said Captain Hvatum, it is no use denying the fact that it is getting scarce. We used to be able to get halibut within a radius of 300 miles, now good sized halibut boats have to go to Portlock Bank, 700 miles from here.

There has been quite a discussion lately, said the captain, regarding the closed season on halibut from the 20th of November to the middle of February. The Captain said he believed that would be the proper course to pursue if the industry is to be kept going, as the above mentioned date is the spawning season for halibut.

Close Goose Island.

Captain Hvatum said that he believes that Goose Island grounds, on the southern part of Hecla Strait, should be closed for at least five years for any kind of fishing. The halibut at this place are so small that catch from there averages two-thirds chickens, and the other third do not weigh on an average more than from fifteen to twenty pounds, and they are getting smaller each year. He believes that by closing this place for a few years that it would help to build up the grounds again, and give the halibut a chance to rehabilitate.

WOULD EXPLOIT NEW TOWNSITE

That is Said to be Scheme of Alaskans in Regard to Fisheries

SIDETRACK KETCHIKAN

Groups Would Use U.S. Congress to Forward Private Plans

KETCHIKAN, June 19.—There is a deep laid scheme to sidetrack Ketchikan and open a new townsite in Alaska at a point as near as possible to Prince Rupert with a view to packing the fish there and shipping them ready packed through this port, if the necessary legislation can be obtained from Congress preventing the marketing of American fish at Prince Rupert. The men who have been agitating for the change have been disposing of their interests here and it is said already have control of another site on which to build a town. The interests of this place are to be sacrificed, once the legislation is passed.

Deep Laid Plot

The whole scheme is spoken of as a "deep laid plot." On the surface it is to foster American industries, but in reality it is a real estate plan from which the promoters expect to clean up a million dollars. It is pointed out that Prince Rupert lots marketed for several millions when the townsite was floated and with the aid of Congress and a good advertising campaign the same may be done at the new town on this side the boundary. The allotment, false though it be, will be the prospect of controlling the fish trade of Alaska and the whole of the North Pacific.

Make Big Cleanup

Circumstantial evidence backs up the report which is prevalent here. It is well known that some Alaskans have been spending months of their time and thousands of dollars lobbying at Washington, while at the same time unloading their Ketchikan interests. That makes it clear they have not been working for Ketchikan. The fact that they are spending a lot of money indicates that they expect to make a big cleanup.

The matter has been discussed with the fishermen, all of whom say they never expect to market their fish to any large extent on this side because wherever the new port may be located, it will mean double handling for the fish and that will be as costly as moving duty. It will pay them better to transfer to Canadian registry than to continue to operate under the American flag, especially in view of the fact that Canada has given them the priv-

ilege of transferring free of customs duties.

BOUNDARY SURVEY EVERLASTING SAYS AMERICAN LEGISLATOR

Started Work 112 Years Ago and Cost is \$800 a Mile

WASHINGTON, June 19.—By Canadian Press.—Representative Ben Johnson of Kentucky declares that he plans to continue his campaign against the commission to survey the boundary between the United States and Canada. He calls this one of the "live forever" commissions and refers to it as one of the "refuges for 'lame ducks.'" Pointing out that it has been in existence 112 years and the end of its work is not yet in sight, Mr. Johnson finds it has cost about \$800 a mile in survey the boundary. However the Kentucky representative admits it will be difficult to get rid of it for it is alleged to be a convenient body on which to appoint "lame ducks" of both great political parties. Mr. Johnson discussing a proposed appropriation of \$49,000, for the commission, in the house recently, said:

Authorized in 1810

"One hundred and twelve years ago a commission was authorized to survey the boundary between the United States and Canada. Today we are told that if we appropriate \$49,000 for the work it will be completed within three years, and we are told in addition to that that if we do not continue this large annual appropriation the Lord knows when it will ever be completed. Some twelve or fifteen years ago the commission was stimulated on the plea that it was going to become more active and was going to complete this work within a short time. But twelve or fifteen years have passed, and yet we do not see the end of it. Just bear in mind, please, that this commission has been in existence 112 years. It was authorized in 1810. There has been spent on this work more than \$3,250,000, and yet the end is not in sight. For the surveying of it every mile has cost more than \$800. When can you find a body of surveyors that can not go into any field and survey a mile or any number of miles for less than \$800 a mile?"

Only Draw Salaries

Representative Stafford remarked that the surveyors "must have been retracing their steps." "I do not think some of them have done more than draw salaries," asserted Mr. Johnson. "They might be retracing their steps and going over it again," persisted Mr. Stafford. "No, that would be too much like work," Mr. Johnson replied. "Are they not perambulating along the line to see if it is still there," suggested Representative Walsh. "I do not think that they are even perambulating," said Mr.

Miss Izard played a Grieg sonata with Miss Abell, as well as a group of short numbers. The recital took place in Miss Abell's studio in Carnegie

YESTERDAY GREAT DAY ON THE WATER

Parties Out to All the Nearby Resorts Including Tugwell Island. Yesterday was a great day on the water. More than half the town were at some of the beaches or lakes. Regular runs were made to and from the Salt Lakes by the "23" and the Oh Baby, Narbethong, Dixie Rupert and other boats were kept busy and practically every boat at the clubhouse left its moorings. A good many went to Tugwell Island but the tides were not suitable for bathing there and the water was rather cold. Many went swimming at the Salt Lakes parties being there until as late as 9 o'clock.

FRICION IN FIJI OVER INDENTURED LABOR FROM INDIA

SUVA, Fiji, June 19.—There is friction here a good deal of the time between the white residents and the Indian laborers who were brought in as indentured labor but who have overrun the islands and made things generally unpleasant. The sugar plantations are mostly operated by white people with Hindu labor, but the present industrial condition is such that the farmer gets no returns from his investment. The latest suggestion is that the Indians shall be returned to their native country and the white farmers shall cultivate their own plantations. By doing this they would, it is claimed, make a good living from a small farm, much better than they now make from the large holdings.

in Milk?**

Few people know how rich Pacific Milk actually is. The label on the can says it contains not less than 7.8 per cent of butter fat, but that is only the minimum. By actual test there are 43 pounds of cream in every 100 pounds of Pacific Milk. It is this high "cream content" that gives Pacific Milk its unusual richness and smoothness of flavor.

**SHOOT AT RANGE
HELD YESTERDAY**

Northern B. C. Regiment Members Were Out Yesterday—Service Conditions.

Members of the Northern B. C. Regiment had a shoot at the Mc-Nicholl Creek range yesterday. The rifles used were short Lee-Enfields returned from service in France and the shooting was done under actual service conditions with open sights, no special sighting appliances being used. The target for the 200 yard distance was a 6 inch bulls-eye and for the 500 and 600, a twenty inch disc. These are not the standard targets which are 12 inch and 24 inch respectively. These latter will likely be up and ready by next Sunday.

The scores yesterday were as follows:

	200	500	600
W. J. Green.....	28	28	25-87
D. Green.....	26	21	20-67
H. White.....	20	27	19-66
R.W. Cameron.....	26	22	16-61
A. M. Davies.....	21	23	19-63
J. McGregor.....	24	15	22-61
M. Lamb.....	25	24	9-58
W. Davies.....	18	20	9-47
W. H. Derry.....	12	19	9-49
G. P. Tucker.....	14	9	16-39
W. D. Allen.....	12	13	11-36

Possible score in each case was 35.

Friday and Saturday—"Marion Davies in "Enchantment."

you will find who prefers tragedy you will find five thousand who prefer a love story—a sex story.

Dwarfed Mentalities.

"To put it in one sentence, to me a sex story is a story of love between the sexes. When two young, healthy normal people meet—he strong, enthusiastic, and keen; she, gentle, kind and affectionate—there is the basis for the loveliest, finest and oldest story in the world. They meet, they love, they marry; that's a picture as sweet and clean as an apple orchard in spring, and yet it's a sex picture; and there are dwarfed mentalities in this world who can sit through a story like that and see only its sexual significance. In fact, it is my opinion that wherever you discern too great a readiness to read subtle, hidden meanings in plays, books, poems, or pictures, you will discover an fond not the lily-white purity of soul you are led to expect, but frequently something quite the opposite.

"Thinking the worst of everything is not always accompanied by a snow-white inner consciousness.

Loathe Suggestiveness.

"Just as I loathe the manifest suggestiveness, I have no patience with people who look for evil everywhere. They're sure to find it. And while I am on this subject, I would like to mention that a difference in view-point is frequently the determining factor in measuring morals. In Japan, for instance, men and women bathe together without hampering themselves with any apparel of any description. No one things anything of that in Japan, although to our western view-point it is a shocking improper performance. But in that same country it is considered highly immoral for a Japanese artist to paint a picture of a nude figure and hang it up on a wall, while we flock to our galleries and think nothing of such an exhibition. The customs of one nation may be very different from another's without really impairing the morals of either. And in like manner the same may be

Norma Declares Morality is Largely a Matter of Custom.

"There has arisen a veritable fog of misunderstanding as to what is meant by sex plays," says Norma Talmadge in a magazine article published recently. For instance, when Shakespeare wrote his masterpiece called "Romeo and Juliet," he wrote a sex play. When Mrs. Barelay wrote her popular novel, "The Rosary," she wrote a sex book. When Verdi wrote "Il Trovatore" he wrote a sex opera. And so on.

Unfortunately, through abuse and misuse, the word "sex" has come to stand for something entirely different from its dictionary meaning. Today, when we say that a play has a sex-appeal, we do not mean that it possesses love interest. No, we mean that it appeals to the baser instincts of mankind. This is all wrong. It is time we went back to the fundamental meaning of the word before we begin wholesale condemnations. It is almost impossible to have a good moving-picture without love interest in it, and by love interest, please understand I do not mean sex-stuff in the now-accepted sense of the word. Of course, I realize that there may be a tragedy, comedy, or farce that doesn't have for its principal theme, conflict between the sexes, but, broadly speaking, for one person

MARY PICKFORD'S CURLS ARE WASHED

Would you believe that Mary Pickford could bear to let her well-known and much admired curls go unwashed for six whole weeks? Well, she did. But, it was for the sake of art. Specifically, a famous character by the name of Tess is to blame for it all. Mary is bringing this heroine of the memorable story, "Tess of the Storm Country" back to the screen and inasmuch as this said heroine is a resident of an obscure fishermen's village, where scrupulous cleanliness is not one of the watch-words, it could not be expected that she should be a devotee to the popular habit of milady of refinement to shampoo her hair several times a week. In fact, Tess is so unsophisticated she does not know anything about the importance of keeping her beautiful hair free from grime of her dusty abiding-place until one of the matronly neighbors apprises her of her discovery that she could be a mighty good-looking girl if she would only "spruce up" a bit. Hence it has just come to pass that after interpreting this role for six weeks, Mary reached the point where her first shampoo was logical.

LOVE NEVER DIES WESTHOLME TONIGHT

If you want to know why stories like "Main Street" and plays like "Lightnin'" have audiences that reach into hundreds of thousands, go to see "Love Never Dies," King Vidor's latest production at the Westholme Theatre tonight. It offers an attraction in which the screen is at its best in a dramatic story of rural life.

Lloyd Hughes and Madge Bellamy are in the leading roles and both demonstrate their ability in quiet, convincing manner. The featured male player, who may be recalled from his parts in "Below the Surface," "Home-spun Folks" and "Bean Revel," is seen as John Troit, a young engineer who rises above the discouragement of home surroundings.

Sometimes it's good to be an orphan. In Chicago the orphans were the first people allowed to see Jackie Coogan in the new picture "Trouble" at a private show in the big public school auditorium. They might be termed "first nighters."

For ten dollars a year it is possible to get a license to operate a moving picture in one of the United States Federal

LONDON IS PLACE WITH A FUTURE

Must Have Copied a Lot of Things from London, Ontario, Says Actor.

As Christie has sent his brother and his studio associates his first bulletin from London, immediately on reaching the other side last week. He says London is a fine town, and in his judgment a place with a future.

Among other observations he says it reminds him of his birthplace, London, Ontario. He thinks the Londoners copied a lot of things from the Canadian town.

Christie was also surprised to hear such a great number of people speaking English.

"There are almost as many English actors," he adds, "at the Savoy hotel here as there are at the Hotel Hollywood."

Ten Years Ago in Prince Rupert

June 19, 1912.

The first working test has been applied with signal success to the costly machinery installed by the Canadian Fish and Cold Storage Co. at the newly built Kaituma cold storage plant at Seal Cove. Steam is now up and the ammonia vapor ice making equipment will also be tested before long. Work on the cannery being erected by the company at Tucks Inlet is also proceeding with steady stride and this enterprise, too, will soon be in working shape.

R. M. Newton, mayor of Prince Rupert and editor of the Evening Empire, was found guilty by Mr. Justice Morrison yesterday afternoon of grossly libelling Alex M. Manson by an editorial published in his paper and was ordered to pay \$1500 damages.

The Man in the Moon SAYS:-

THE difficulty with these wire-voice concerts is that there is no room for the audience to express its feelings when it does not like the performance.

WHAT is so rare as a night in Prince Rupert? The poet evidently must have been using the word rare as meaning "raw."

"Well scout, what good deed do you do today?" inquired the sergeant. "I upset a drunkard man in order to teach him not to get drunk again," was the reply.

IN these days of easy divorcees it is still difficult to divorce a man from his bed in time for him to go to church on Sunday morning.

CIVILIZATION is not doing badly considering all the menaces the newspapers have told about in the last year or two.

THE visitors who are coming here next week should pat themselves on the back. They are to have the privilege of an hour longer here than they expected.

SINCE we are to be hosts this week, what about tidying up a bit.

The Brule coal mine baseball team, whose manager wrote here some time ago asking if arrangements could be made to secure a match with Prince Rupert next month but from whom no answer has been received in reply to the local letter setting forth that no financing could be promised but that the local club would do all it could to make a successful series, is to play with Prince George on July 1 if present plans go through. Prince George has offered the visitors a guarantee of \$200 to cover expenses. The Brule team is said to be a fast aggregation. Last year the company won the championship of Western Alberta in the competition of the Western Alberta League and they also hold the J. P. Bickle Cup. This year Chuckaluck is pitching for Brule and Garische is catching. Both of these players have been seen in action at Prince George before and fans there are looking for keen contests with no walk-overs either way.

In line with the practice since the earliest times, the Prince George Athletic Association has decided to hold a celebration in that city on Dominion Day again this year. The program drawn up includes an auto parade and children's races in the morning, exhibition by the Boy Scouts, adults' races, baseball match (Possibly Brule vs. Prince George) and football game (McBride vs. Prince George) in the afternoon. On the Sunday following Dominion Day a second baseball game between Brule and Prince George will be played and later on the same afternoon Prince George will play Quesnel in a lacrosse match.

Les Lane, who played baseball with the Sons of Canada City League team here last year and who left for the interior some months ago, is now pitching for the Telkwa team. In a game played between Telkwa and Smithers last week Lane hurled great ball against his former team mates and won the game. Telkwa emerging on the long end of a 13-4 count. The Smithers team did a great deal of fumbling and put up a mighty poor exhibition, while the winners played an airtight game throughout and at no time were forced to extend themselves for victory.

Smithers is to have a race track for the Bulkley Valley Fall Fair Association is now calling for tenders for its building at the Fair grounds. The grounds will be stumped, cleared, ploughed, levelled, graded and rolled for a distance of one half mile, forty feet wide. A pole fence will be erected around the circular track on both sides. Within the race track enclosure will be the ball grounds which are also to be rolled at the same time as the track is prepared. Finishing material for the diamond will be hauled from the railway at Smithers.

The champion football team of Prince George will receive this year, besides the Perry Cup, a set of gold medals which were recently donated by John Kendall, of the auditing firm of Kendall, Barr & Co., of Vancouver. The medals, which have arrived in the interior city and are now on exhibition, are neat gold ones engraved on the back, "Perry Cup." Mr. Kendall, who is a keen follower of football, is an old player himself and his presentation was keenly appreciated at Prince George.

The line-up for the Sons of England in the Dominion Day Cup semi-finals against the Callies tonight will be chosen from the following players: Stockdale, H. M. D. Lamb, D.

Jack, E. Mansell, G. Kelsey, Shaw, J. Farquhar, E. Craggs, G. P. Tinker, D. Wiggins, Hodgson, Cameron and W. Hamilton.

The draw for the Dominion Day baseball prize offered in connection with the Sons of Canada celebration on July 1 was made by the Baseball League on Friday night. The Sons of Canada drew a bye so the Elks and Knights of Columbus will play a preliminary game at a date to be decided upon in the near future by the league. The winning team of the first game will play in the final with the Sons of Canada on Dominion Day.

BILL WILLISCROFT GOT BIG RAINBOW TROUT AT CLOYAH

Fish Captured, Weight 10 1/4 Pounds and Measured 34 Inches in Length.

One of the biggest rainbow trout ever brought into the city was captured by W. E. Willis-croft at Cloyah River yesterday morning. The finny monster, which Bill is proudly telling all his friends today, measured 34 inches in length and touched off George Frihbell's scales at 10 1/4 pounds. It was caught with a

No. 1 hook, gut leader and light light rod with red salmon bait and was successfully landed after it had put up a brave play for 20 minutes or so.

Mr. Willis-croft was out with a party, in William Reid's boat, which consisted of W. Reid, W. E. Willis-croft, Fred Roberts, Tom Boulter and Robert Wiggins. The entire party had good success and all reported fishing good in the river in the morning and in the afternoon in the lake. They caught about 75 trout, including a large number of one-pounders, between them.

W. E. Thompson and son, Carl were also at Cloyah and took about 40 trout.

Parties also visited over the week-end, Mile 21, Shawatlans and Woodworth Lakes and Mc-Nicholl, all having fairly good success. The fishing generally has been improving a lot just recently.

A QUESTION OF LENGTH

A small woman travelling with her son—a boy very large for his age—handed the conductor a half-fare ticket and a whole fare one. The conductor scrutinized the boy critically, and said: "But, madam, I can't pass this boy on a half-fare ticket. He is very large and has on long pants."

"Very well," replied the woman, "if that is the basis for your decision, use the whole ticket for him and the half for me."
