Lloyd George Scores Another Victory CONSERVATIVE LEADERS ATTACK FIELDING BUDGET IN COMMONS

British Premier's Conference Policy Gets Support of House by Splendid Margin 235 to 26

LONDON, May 27.—Following Premier Lloyd George's exposition of his Russian policy and analysis of the Genoa conference as a basis for further conference at The Hague, the House of Commons last night voted down the motion of no-confidence in the government's policy by a vote of 253 to 26 thus constituting a vote of confidence in the government.

Rupert Gwynne, Unionist, mover of the vote of no-confidence, Hon. H. H. Asquith, former Premier, Lord Robert Cecil and John Robert Clynes, Labor member, all criticized Lloyd

George's policy and the result of the Genoa conference. The premier answered them point by point and thundered back his answers while the House buzzed with excitement occasionally breaking into cheers.

Referring to the British criticism of France in certain quarters, the Premier declared that Britain could not settle the reparations question unless France was carried along and that could not be done by flouting France and ignoring the Versailles Treaty.

Opinion of Russia.

The premier said that the Russian government knew quite well that the policy of repudiating debts would not go and forecasted that the Moderates in the Soviet would eventually fall in line with a commonsense business policy. He said that the talk of communism in Russia was all humbug. The country was more individualistic than England itself, in fact, it was a paradox of individualism talking communism. The premier said he believed the Soviet could control property sufficiently to provide adequate security for business dealings with other nations. Referring to Russia's memorandum of May 11, he said that it was so foolish that it must have been written by a very clever man.

Gets British Loan.

COPENHAGEN, May 27.—Newspapers state that negotiations between German and English bankers have resulted in Germany obtaining means for the paying of the reparation installment due on May 31. The negotiations are said to have been conducted through a Danish intermediary.

LONDON, May 27.—The German government has accepted the Allies' reparations proposition. It is feared in official circles however, that the proposition has only been accepted as a basis for discussion while the determination of the commission was that they constituted the last word.

PROTESTANTS AS BADLY OFF AS THE CATHOLICS

BELFAST, May 27.—The Ulster Association has sent a message to Hon. Winston Churchill remarking that the Catholic protection committee in its telegram to Great Britain last week telling of Catholics murdered did not refer to the fact that ten Protestants had been murdered in four days and that several others had been threatened with death while the premises of 18 Protestants had been set afire.

IRON AND STEEL THIS DISTRICT

A. C. Garde Prepares Data for Submission to Ottawa Authorities.

The geographical survey department of the Dominion Government has decided to send Dr. G. A. Young, one of their best qualified iron experts, on a trip of reconnaissance throughout the province of British Columbia to investigate the resources of iron and other mineral deposits, with the idea of establishing a steel and iron smelter in the province.

Dr. Young is especially anxious that no iron, or other mineral deposits, of prospective value be overlooked, and he will be glad if the owners of any such deposits will send him all the particulars at their command. Such information as to location, elevation, means of access, type of ore, probable tonnage, and reference to former reports will be most valuable. Dr. Young has stated that an iron industry would be of incalculable benefit not only to the province of British Columbia but to the whole of Canada.

All the data pertaining to the iron, coal and fluxes, adjacent to Prince Rupert, has been compiled by A. C. Garde, M.E., in a lengthy report containing all the features of interest and giving a clear illustration of the iron and coal situation in northern British Columbia. Mr. Garde, in his report, has particularly pointed out the great advantages that the district in the vicinity of Prince Rupert has over any other section of the entire province.

In addition to this geographical survey by the Dominion government it is interesting to note that the Yorkshire Guarantee & Trust Co., of Vancouver, are commencing diamond drilling operations early in June on the extensive coal holdings in the Copper River country, situated approximately 140 miles from Prince Rupert, on the proposed cut off over the Copper River between Copper City and Telkwa.

D. A. MCKINNON IS APPOINTED LIQUOR VENDOR AT TERRACE

The appointment of D. A. McKinnon as liquor vendor at Terrace is announced in the B. C. Gazette this week. The store is being put in readiness at the strawberry town and will be open for business in the course of a few days.

TUCKS INLET CANNERY WILL START SEASON'S OPERATIONS SHORTLY

During June Plant Will Run About An Hour a Day, The Season Opening Fully in July

The Canadian Fish and Gold Storage Co. is making preparations for the opening of the salmon canning season and the Tucks' Inlet cannery, it is expected, will commence operations the week after next. For the first few weeks the plant will only run about an hour a day getting the machinery warmed up and putting a few springs. It will probably be about July 1 before canning operations start in full swing.

Budget Debate Starts in House of Commons But is Adjourned Until Monday

OTTAWA, May 27.—The first broadside in the budget debate was delivered by Sir Henry Drayton, former minister of finance, who is the chief opposition critic. He moved, and Hon. Arthur Meighen, former premier, seconded, that the House record its conviction that the government had broken its election pledges and failed in its promises regarding the tariff. Hon. J. A. Robb and O. Turgeon replied on behalf of the government and R. J. Woods and D. W. Warner, Progressives, criticized, while J. A. McKelvie, Conservative member for Yale, made a long speech denouncing the removal of the dumping clause which he said had been effective in the building up of the fruit industry. Mr. McKelvie also criticized the removal of the German exchange restrictions which he said would put Canada's workmen in competition with the Germans. Hon. Charles Stewart adjourned the debate and will reply on behalf of the government on Monday.

Freight Rates

Discussion of Interest.

The discussion of the parliamentary rail rates committee at Ottawa has become of direct interest to Prince Rupert. The question affects lumber and fish shipments which represent the foreign and long distance business of this city and district. It is gratifying to know that reductions in the lumber rates are to be brought into effect although the cut now proposed may not be large enough to entirely meet the requirements here. There is a chance, however, that it may be greater than is now expected. As far as fish is concerned there is no reduction proposed by the authorities at this time, although the B.C. Packers' Association has asked that the reduction be also made applicable to it. Fish, however, being a perishable commodity with the various varieties being usually peculiar to certain districts, is not so much affected and the fishing industry cannot be entirely crippled on account of the excessive rates as has been the lumber industry in this district. Nevertheless, from a national standpoint, it is highly desirable that reductions be made here also.

An Impossible Railway Theory.

A theory has been advanced in respect to the Canadian National Railways and freight rates that in many ways might seem practicable but which in other ways would seem absolutely impossible. It is the suggestion that, where certain districts and industries suffer through high rates, the rates might be reduced and any deficit in operation caused thereby might be met by the country as a whole in appropriations that are made by the government to cover railway operation losses.

Such a theory might be a very welcome one to the Canadian Government Railways which are nationally owned but, on the other hand, it would hardly seem fair to the Canadian Pacific Railway which is privately owned and operated. It is a principle which, for that reason, will probably never come into effect for it would do nothing but put the Canadian Pacific in the same insolvent condition that the Canadian National Railways are trying to emerge from at the present time, for the Canadian Pacific would have to reduce rates to make the covering of operating costs questionable. Such a suggestion, of the face of it and in the interests of fairness would thus seem impossible.

Railway Tourist Business Not Competitive.

It is interesting to note in advertisements which have recently appeared alongside each other in Eastern newspapers how the various railway companies work hand in hand with each other in bidding for the western tourist trade.

Just last week in the Toronto Globe advertisements were started for the Union Pacific, Canadian Pacific and Canadian National Railways western excursions. The Union Pacific advertised "Toronto to Portland, Tacoma, Seattle and return with side trips to Yellowstone, and Rocky Mountain National Parks, \$109.55"; the Canadian Pacific "Toronto to Vancouver, Victoria, Seattle or Portland and return via Banff and Yoho Park, \$109.55"; The Canadian National, "Vancouver, Victoria and Seattle or Portland and return via Jasper Park, \$109.55." It will be noticed that each trip offered is similar and has like features and each company offers the tour at the same price. The Canadian Pacific and the Canadian National also bid the same on Calgary, Edmonton and Banff or Jasper respectively, \$87.80. To say the least of it competition seems lacking.

Many Tourists Are Coming This Way.

Indications are that there will be an unprecedented tourist traffic through Prince Rupert this season. Alaska and Northern and Central British Columbia are apparently attracting more and more Eastern and Southern holiday seekers than ever before and already hundreds of advance bookings have been made. The Canadian Pacific officials say that the Alaska cruisers Princess Louise and the Princess Alice are almost fully booked for the months of June, July and August and Canadian National people have some trips filled entirely and many individual bookings for others.

The advertising that the companies have been giving the attractions of their routes has, doubtless, to a great degree, been responsible for the rush of business that they will commence to handle early next month. The Canadian Pacific have been giving broadcast publicity to the attractions of Alaska and the Canadian National have been devoting more attention than ever to the advertising of the Pacific Coast Inside Passage and the newly-opened summer resort in the Rocky Mountains, Jasper Park. This will be practically the first year that Jasper has been patronized to any degree as a holiday resort but indications are that it will now become a popular place and its fame will spread once the first visitors have come and the place is better known. The combination of the water trip along the coast between Prince Rupert and southern cities and the camping at Jasper should prove a delightful one and the patronage that the route receives will be beneficial and of advertising value, at least, to the north and Prince Rupert.

Two Men in a Car

A short account of a Trip to California in a Ford Flivver By H. F. Pullen

A SKEENA RIVER DREAM.

GHEHALIS, Wash., May 19.—Some of my friends in Prince Rupert will hardly believe it but this morning we climbed a hill five hundred feet high before 7 o'clock in order to get a glimpse of Mount Hood. It is in full view from the higher parts of Hood River and is a noble mountain.

Returning by the Columbia River highway this morning Dick was driving and I began to let my imagination carry me to the Skeena and Bulkley valleys where there is scenery equally as wonderful as that through which we were passing. I saw a fine highway passing the Hudson Bay mountain at Smithers and the tourists stopping to photograph it at various angles and in favorable lights. We drove along the valley of the Bulkley and admired the wonderful gorges, heard the tale of the old Indian bridge at Hagwilgaet and camped for the night in the auto camp in the shade of the Rochede Boule near the thriving town of Hazelton. Old Hazelton and New had been merged into one and the town had a population of ten thousand.

Skeena Wonder Berries.

Continuing in the morning we passed the snow peaks with the weird Indian names and the upper gorges of the Skeena. At Terrace we lunched on Skeena Wonder strawberries grown by Michaud Brothers, now become famous through their development of new fruits and flowers by cross fertilization. The cream on the berries was from the famous dairy herds of the Kitsumkalum valley. After taking a look at the oil wells we proceeded down the Skeena Valley, now the popular tourist route of the north. A splendid concrete surfaced road had been built all the way connecting Prince Rupert with the outside world by way of Prince George. Rood & Frizell had a series of service stations along the route, run from their head office at Prince Rupert. Passing Hole in the Wall where snow and rock slides still gave trouble, we were interested in the fishing fleet on the Skeena and left our cars and crossed in a ferry to the Skeena Hot Springs Hotel just opposite Skeena City where we had time to take a dip in the natural mineral waters.

Port Edward with its factories was the headquarters of the big power concern which had transformed Prince Rupert into a real industrial city. Ships were tied to the wharves and there were coal bunkers and elevators there.

Great Change.

It was when we came to Prince Rupert that the great change had taken place. The flags of the nations flew from the masts of ships moored there, tugs were going and coming and on the streets there was a stir such as is felt in the cities that are really taking part in the world's commerce. We entered the suburbs just after leaving Port Edward and we could see that much of the residential district was across the harbor.

"There is the Horse-Tail Falls, Dad. Aren't you interested in them this morning?" was the query that awoke me to the realities of the Columbia river and its wonders. I also remembered that it would be some time before the highway connected Prince Rupert with Hazelton. Since then I have not been able to forget that in Northern British Columbia we have something quite different from anything they have in the south and we must not let the matter rest. Little by little that highway must be built and a beginning should be made in the very near future.

The friends of Mrs. W. S. Morehouse wife of Capt. Morehouse of the liner Prince George, will be glad to know that she is now convalescent after her recent illness and has returned to her home in Kitsilano.—Province.

Captain McRae, a well known navigator of these parts, is in the Ketchikan hospital suffering from the effects of a broken thigh sustained in a fall from the deck at Ketchikan to a float below. Captain McRae was in charge of the barge Talmara.

Mrs. S. P. McMordie sailed last night on the Princess Louise for Vancouver where next week, as regent of the Prince Rupert Municipal Chapter, Imperial Order Daughters of the Empire, she will represent the local chapters at the annual convention of the National and Empire Chapter.

Special music by Junior Choir at Methodist Church morning service at 11 a.m. tomorrow. Soloists, Miss Cathie Irvine and Miss Winifred Dobb. Subject "Christ as a friend." Evening service at 7:30. Speaker, Rev. W. H. Redman. Subject, "The World without Christ."

Miss Caroline Mitchell, of this city, was a member of the committee in charge of the Vancouver Normal School picnic to Bowen Island, Howe Sound, last Saturday. The spring session of the Normal School closes this week and several of the students there from this city will be back home next Wednesday.

The new C. P. R. coaster Princess Louise, Captain Slater, was in port last night from 10:30 to midnight returning south from Alaska ports to Vancouver and Victoria. The steamer brought several passengers here from the north, some of them bound for Eastern points and others to remain in the district. A few passengers boarded the vessel here going south.

Jarvis H. McLeod, local collector of customs, returned to town on the Princess Louise last night from Ketchikan where he spent several days in connection with departmental affairs. Captain H. Adam, of the fisheries patrol steamer Thiepval, who was also north on similar business, returned as well and continued through on the Louise to Vancouver to rejoin his ship there.

Dan Kean, well known in this city, is lying in the hospital at Ketchikan suffering from the effects of a broken leg which he sustained in the wilds east of Ketchikan while prospecting. His leg became infected before he could reach medical assistance and, as a result, it was necessary to chisel the bone and put in a silver plate. Amputation of the limb will not be necessary but it will be an inch or so shorter than before.

HOUSE WARMING NEW ST. ANDREW'S ROOMS

Delightful Evening Spent in Music, Song and Refreshments.

The St. Andrew's Society held an official and highly successful "house warmer" in their new home on Fulton Street last night when a record attendance of members and their friends enjoyed music, vocal selections and instrumental numbers, from 8:30 until 11 p.m.

Delicious refreshments were served at 10:30 when everybody joined in to administer to the "inner man."

The artists taking part in the musical program were Miss Currie, Mrs. Jas. Lee, Mrs. Miller, Sam Massie, Robert Dowther, W. G. Dennis, R. Robertson, W. Robb and A. Clapperton.

SONS OF ENGLAND WERE HOSTS LAST NIGHT TO ORANGE

The Sons of England were hosts last night at an "At Home" in honor of the Orange Lodge at the Knights of Pythias Hall. The function took the form of an enjoyable social evening and there was a large crowd in attendance. Cards, music and dancing were the order of the evening's program.

In the whist drive the ladies' first prize was won by Mrs. Bob Warrior, Mrs. E. S. Allistone winning the consolation prize. In the gentlemen's, Dick Howe took the first and S. M. Newton cut the cards with Theo Leck for the consolation prize, the former winning the cut.

RINK DANCE LAST NIGHT ENJOYABLE

A very enjoyable dance was held in the Auditorium last night when some 50 couples indulged in the art of terpsichore until the early hours of this morning. Prior to the arrival of the Westholm orchestra, Miss Grace Curline, at the piano, and Clarence Dickenson, at the drums, furnished the music.

Delightful refreshments were served at 11 o'clock upstairs. L. J. Marren performed the duties of master of ceremonies in a very capable manner. A. A. Donohoe took tickets at the door.

OIL DISCOVERED NEAR EDINBURGH

Great Interest Aroused in British Isles Over Strike

EDINBURGH, May 27.—Discovery of oil near this city has aroused interest through the British Isles.

Prices are high here compared with the United States, in view of the necessity for importation of practically all the gasoline used in the country.

The oil which was struck on the estate of the Marquis of Lothian at Dalkeith last week has been analysed. It has a paraffine base of

gravity of 0.819. Preliminary analysis showed it contains the following parts:

Gasoline, 15 per cent; kerosene, 25 per cent; gas oil, 35 per cent; lubricating oil, 25 per cent.

Sport Chat

With the ground very muddy and covered with water in places the Telkwa and Smithers football eleven's struggle through a slow draw game at the Smithers Polo Grounds last Thursday evening, each team having three goals to their credit. While the game was made uninteresting by the poor condition of the playing field, it was not without its bright spots, and several clever exhibitions of passing and dribbling were witnessed by the spectators who braved the chilly weather to attend. Comedy was also interspersed when the contestants would tumble into a pool of water, several of the players emerging from the game resembling "Old Bill," of Ypres salient fame.

Excitement among was crowded into the nine innings of baseball served up by the Telkwa and Smithers nines at the Barbecue grounds at Telkwa last Sunday afternoon, and although the former quartette were returned winners by a score of 6 to 5, it was only after one of the most hair-raising finishes seen there for some time. Both teams played nice ball. Lane for Smithers and Matheson for Telkwa hurling a steady game, backed by their team-mates. Smithers' scored two runs in the second and third innings, but the winners came right back two counters in the fourth frame, three in the fifth and one in the sixth, leaving the score board registering 6-2. This was the situation when the Smithers boys came to bat in the first of the ninth. Some loose playing on the part of Telkwa in the ninth while Smithers took good advantage of all opportunities brought the final score to 6-5, Smithers having nearly tied the score.

Probably the largest brass band ever assembled, numbering 1000 pieces, will parade the home stretch of the Indianapolis motor speedway during the half hour immediately preceding the tenth annual 500-mile International Sweepstakes race next Friday afternoon. The musicians will be under the leadership of W. S. Mitchell, director of the Indianapolis Military Band, and the organization will consist of nearly forty separate bands, all of them responding to the wave of Director Mitchell's baton. During the parade around the speedway the band will be preceded by a guard of marines, and the colors of all the countries represented in the race will be carried, according to the plans by veterans of the armies which defended those colors on the field of battle. Most of the bands in the major organization will come from Indiana cities.

KAISER TIRED OF SAWING WOOD NOW PLANTING GARDEN

THE HAGUE, May 26.—According to the latest reports from Doorn, the former kaiser has tired of his wood sawing, of which other hobbies have taken the place. This spring he has busied himself every morning with gardening, sowing the seeds of many flowers. He is especially interested in Japanese and English seeds and also in grafting. A new hot house has been built in the garden where he works daily. Spading also appears to appeal to the former kaiser who, on account of his withered arm, has had a spade made for him. His two adjutants are obliged to help him in his gardening. It was while he was using his spade recently that a U.S. film operator tried to photograph him from an automobile. William has talked lately with two German journalists who came especially from Germany to see him. These visits are supposed to be in connection with the publication of a book.

RUSSIAN ACTORS ARE COMING TO AMERICA

Troupe Which Plan Visit to This Continent Considered Best in Soviet Co-ntry

MOSCOW, May 26.—The Moscow Art Theater which will send a company of players to America late this summer is considered in Russia to produce the highest form of dramatic art.

It is a government subsidized institution and maintains a number of studios where plays are rehearsed and actors trained before they are permitted to appear at the main theater. In some instances, plays have been rehearsed as many as 200 times and more than a year spent in detailed scenic preparation before the first performance at the main theater.

If present plans are materialized, the Russian actors would leave Moscow early in August. In America, they would present their pieces in the Russian language.

GOTHENBURG, SWEDISH PORT, PREPARING TO BUILD AIR HARBOR

GOTHENBURG, Sweden, May 25.—This city with its extensive shipping facilities and its new free port is now preparing to build an aerial harbor. It will have all the facilities required by sky pilots, an up-to-date service department and the latest conveniences for landing and taking

off.
A corporation has been found to build the air station and operate it in conjunction with the city authorities of Gothenburg.
It is proposed that the city shall have the privilege of buying the company's shares in the enterprise after 10 years and thus take over full control of the airport.
Among the founders of the air port project are Governor Oscar von Sydow of Gothenburg and Bohus province, Dan Brostrom, Sweden's greatest ship owner and many of the most prominent business men of the city.
Lt. Col. and Mrs. J. F. Campbell, who were recently married in the south, have returned to Prince George after their honeymoon. Col. Campbell is a land surveyor in the interior and he and his bride will reside in Prince George.

"I Am So Tired"

"THIS teaching seems to keep one's nerves at high tension all day long. The children do worry me terribly at times.

"They seem to lose all interest in their lessons in the spring, and how I will ever get that Entrance Class through their exams, is more than I can guess.

"If I could only rest and sleep at night it would not be so bad. But I cannot. My appetite is gone, and I feel completely discouraged.

"I believe it is all from my nerves. The strain of this school is too much for me. I wonder if Dr. Chase's Nerve Food would do me any good?"

"Strange I never thought of it before, for I know that lots of teachers depend on it in the spring to carry them through and keep up their energy during this trying time.

"If I could only get the mothers to give it to their nervous, irritable children I am sure that would help some, too."

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

"Going Up" is the signal flying this week from the flagship of the Fleet which is significant when you read the figures. Some 350,000 pounds of halibut has been marketed up to Thursday night, and taking into account that Empire Day has intervened in the usual activities of the Mosquito Fleet, to use the words of the Admiral, "That's going some."

Empire Day was fittingly celebrated by the Mosquito Fleet on Wednesday and the Admiral reports that the good behaviour of the crews was beyond all expectations. The fishing craft in port all flew the Union Jack and several "at homes" were held aboard, tea being poured all over the floor at the Mug Up by Jack Toner.

Several parties of fishermen and their families hit out early in the morning for fields of exploration taking as ballast well filled lunch baskets.

There was to have been a big swimming contest across the bay between Captain "Frenchy" of "The Snipe" and Captain Lambie of "The Mauritania," the winner being given free gratis and for nothing a real hot colossal bowl of Jack's famous clam chowder. However, the contest had to be called off at the last moment as someone swiped Lambie's fur-lined swimming costume and he refused to face the cold waters of the bay without it, an ordinary costume not being warm enough.

There were great rejoicings at noon on Wednesday around Cow Bay when the fleet coastguard sighted Flossie's launch, gaily bedecked with flags, hitting a merry clip for port. Upon the Olympic gliding to her berth and Flossie being seen on the bridge, the joy of the old "uns knew no bounds, in fact, so hot up did they become that three of them fell into the salt chuck with the excitement. However, as Flossie smiled down upon them in the water they were glad it happened.

A request was recently received by the Canadian authorities that the export of salmon for canning purposes should be prohibited. Whoever thought that this would find support at Ottawa was doomed to disappointment for, after publication on the coast of the movement afoot, the department was inundated with protests from fishermen so it is likely that nothing will be done.

During the week a scow load of boxes for the Alin Fisheries and Lumber for the Big Bay Lumber Co arrived from Georgetown per the tug Wake.

The Commonwealth, Capt. Bergman, broke her tail shaft while making for port early in the week and had to be taken in tow by the gasboat Inverness. She is now in Cow Bay undergoing

The Pair of Jacks, Captain Iverson, made port on Monday with 13,000 pounds of the best fish in the sea. Dirty weather was experienced most of the time.

The Prince John is expected to arrive over the week end with a carload of shingles and a car load of double dressed lumber for Albert and McCaffery.

The Ethel June, Captain Ritchie, arrived in port early in the week with 3,500 pounds of halibut. Cap's sturdy boat is undergoing a minor overhaul on the Ward Electric slips.

The Guilford, Captain Bob Hobbs, and first mate T. Banbury, had an exciting encounter with a sea lion while coming through Hecate Straits en route to port. Upon hauling in the gear something pretty heavy seemed to be pulling it further out and it became necessary to make the gear fast to the gurdy. On getting the gear over the side it was discovered that a sea lion of large proportions was tangled up in it. The monster commenced to put up a ferocious scrap. In fact it was so fierce in its attack that striking it with clubs had no effect and it was necessary for the skipper to run for his rifle and put a couple of shots into it. A considerable quantity of the gear had to be cut away before the carcass could be released. Banbury reports that he had noticed several sea lions just previous to the happening swimming around the boat and it is evident the mauler became entangled in the lines. However, they were very proud of their killing as the sea lions are doing immense damage to the fish.

A number of families arrived in port on Wednesday morning from Georgetown aboard the Wake to visit the celebrations on the exhibition grounds. Among the visitors were Mr. and Mrs. C. Dixon and family, Mrs. Miller, Mr. Clark, and Weldon McAfee, B.A. The party returned on Thursday morning.

Captain Mick Sullivan, of the Amy S., paid a visit to the fleet during the week from Jap Inlet. Cap has run into some hard luck just lately. While his boat was anchored with a 25 fathom anchor rope some evilly disposed person cut the rope with the consequence that the Amy S. became stranded on the rocks suffering considerable damage. However, Mickey has some staunch friends who, as soon as they heard of the disaster, got together and headed by Jack Bradbury and J. Newell hiked out and picked the

"He left us nothing but debts"

Debt

Debt, grinding debt, whose iron face the widow and the orphan fear and hate; debt, which consumes so much time, which so cripples and disheartens, is a teacher whose lessons cannot be forgotten.

It is incumbent on all right-thinking people to do more than avoid debt. It is necessary to accumulate a competence for one's dependent years. If, with a definite earning power you find it hard to live within your income, how could your wife support the home in the event of your death deprived of your earning power? "Your salary stops with your pulse."

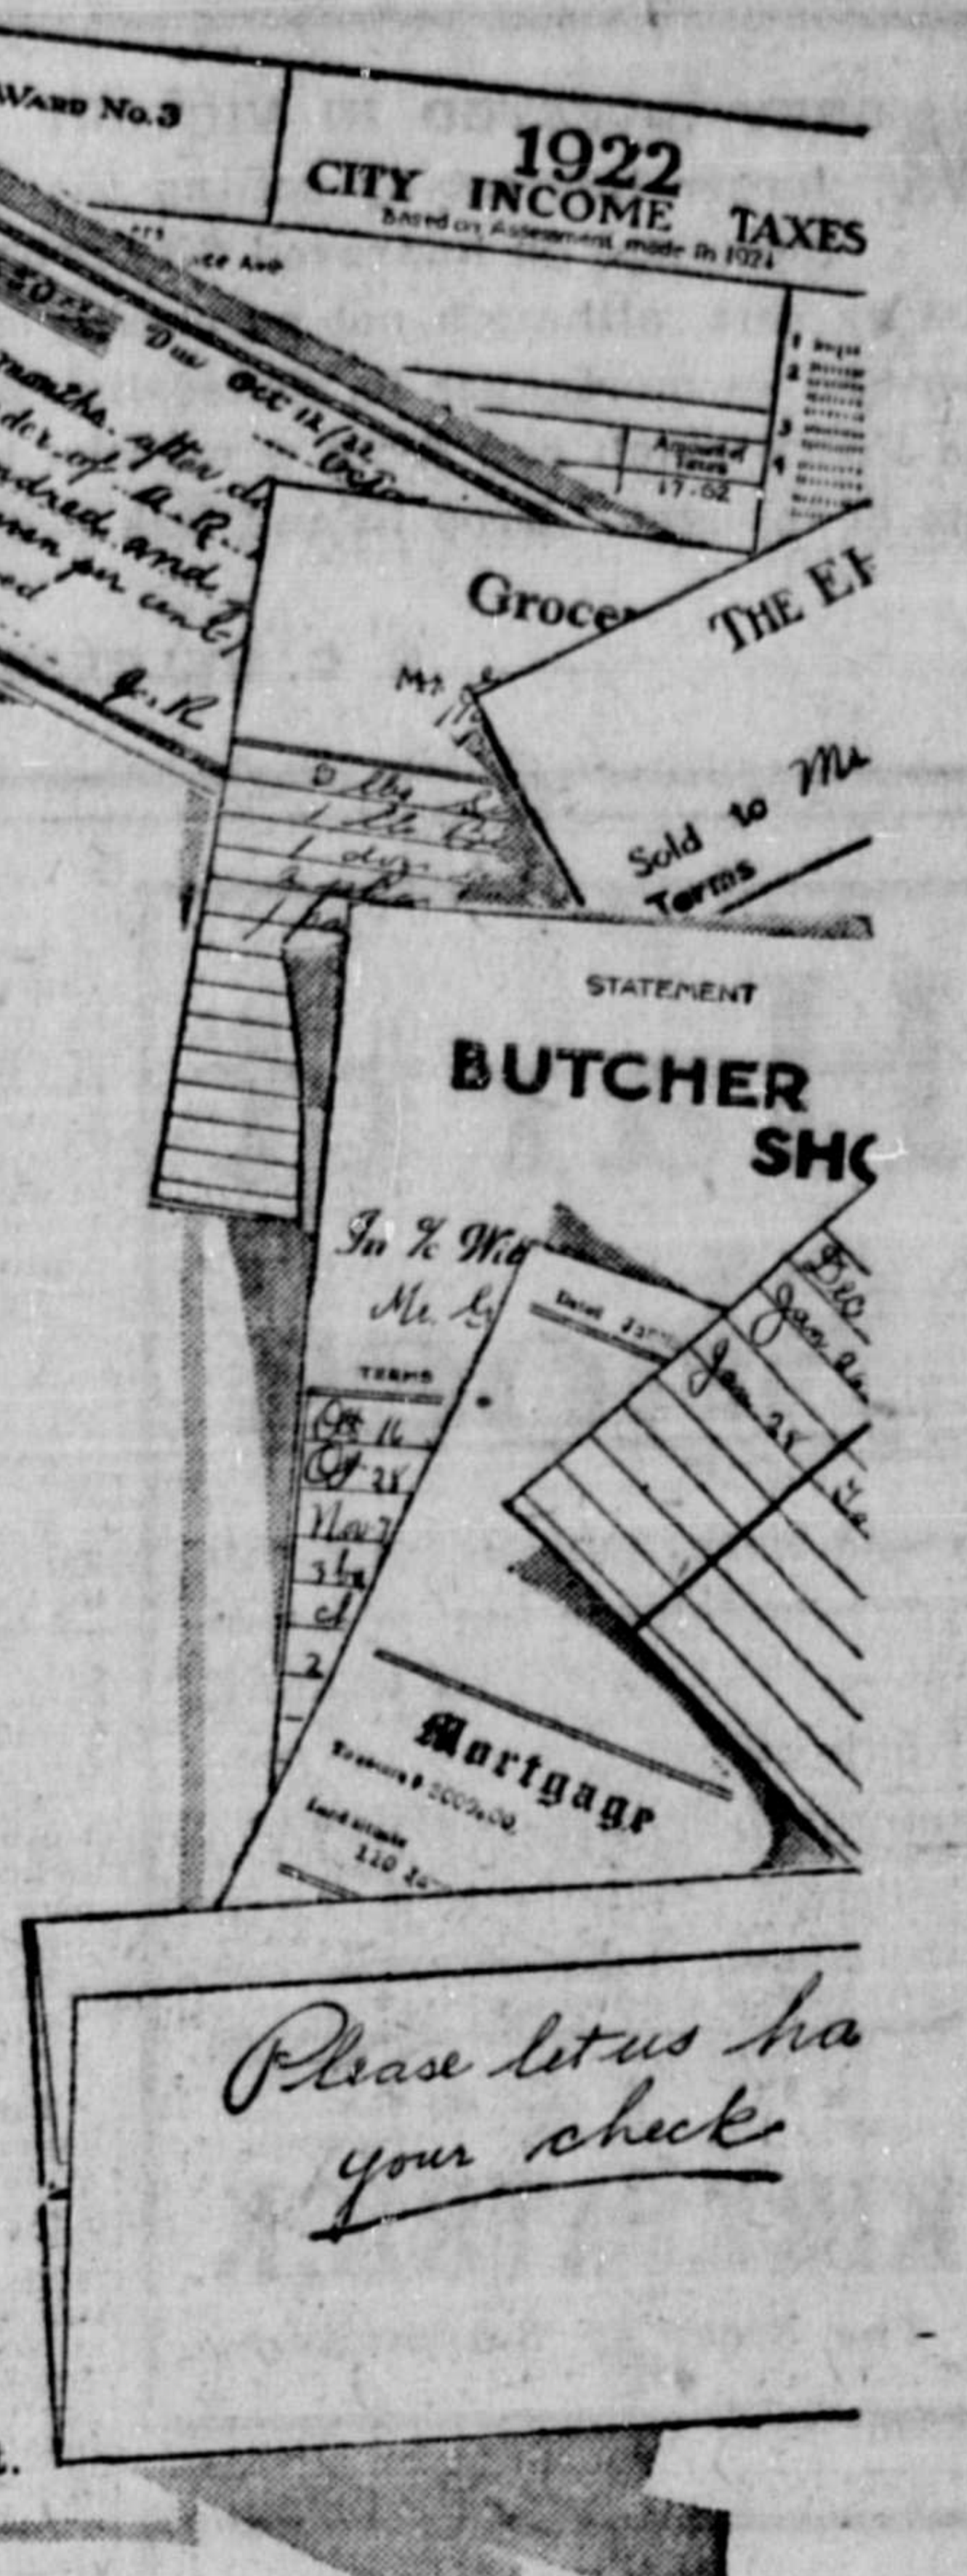

A Manufacturers Life policy provides for all these contingencies. Systematic saving will keep you out of debt, and build a competence for the sunset of life. Should you not live to old age, your life insurance will create an estate for your dependents.

Write, giving us your age at nearest birthday, and we will submit a proposition to you which will not place you under any obligation.

FLOWER GARDEN PLANTING NOW

Ready Plants May be Sown Now. Some Varieties Not Just Yet

The annual delight to flower lovers of planting the garden is about to be experienced as spring is here. Often the desire to plant, however, is so strong that certain kinds are set out in the garden long before they should be with the result that many plants are ruined by late spring frosts. There is no advantage, and great danger in planting geraniums, for instance, before the last week of May, and tender plants are almost certain to be killed.

In planting the flower garden it should always be kept in mind that green grass is one of the most pleasing sights about a garden as flowers without grass to set them off may be compared with a picture without a frame. The flower garden then should be so planned that the grass will be much cut up by flower beds. See that the places for flowers are along the boundaries, in corners, or close to the house, leaving as much grass as possible in an unbroken area.

What to Plant Now
All herbaceous perennials that are going to be planted this spring should be set out as soon as possible now as the more growth they have made before planting the less satisfactory will be the results the first year.

Blossoms should be planted as early as possible, and if the plants seem dry when they arrive prune severely and bury them in moist soil for a couple of days before planting.

Some of the hardiest annual flowers, the seed of which can be planted outside early in May, are Sweet Alyssum, Calliopsis, Candytuft, Calendula or Pot Marigold, Dolphium, Escholtzia, Impatiens, Phlox Drummondii, Virginian Stocks, and Verbena, while for best results Sweet Peas should be planted as soon as the ground is dry enough, but good success will be obtained in an average year even if there is delay in planting for a few weeks.

What Not to Plant
Annuals that are affected by a little frost should not be planted before the latter part of May, as, in addition to their probably being killed by frost, these tender things do not succeed well until the temperature of the soil is fairly high. This applies also to such tender plants as Cannas and Dahlias. Gladioli may be planted any time in May.

DRAMA AND COMEDY ON WEEK END BILL WESTHOLME THEATRE

Appealingly dramatic and at times highly pathetic is the theme of William deMille's new Paramount picture production of "After the Show," which was shown at the Westholme Theatre last night. The story, written by Rita Weiman, deals with the stage, and Jack Holt, Lila Lee and Charles Ogle are the featured players. The scenario was written by Hazel MacDonald and Virginia Knowlton.

Eileen a chorus girl is the protégée of Pop, an aged stage door keeper who guards her jealously from the intrigues in which stage girls and wealthy boudiers largely figure, to the disadvantage of the former. When Eileen meets Larry Taylor, who wins her love, Pop is suspicious of the truth of Larry's sentiments towards his ward. When he finds her slipping out of his life, Pop resorts to a daring expedient, which has a dramatic finale. But, happily, after a period of dark doubt, true love has its innings and all are rendered happy.

Charlie Chaplin
In addition to "After the Show," the showing of Charlie Chaplin in "Pay Day" makes a double attraction. Being almost drowned alive in a bathtub full of water is one of the sacrifices Charlie makes in the name of art in this, his latest comedy. One of the riotously funny scenes shows the star walking in the tub, feeling cold and turning on the hot water just to warm things up. Edna Purviance appears opposite Chaplin and Sidney Chaplin, Charlie's brother, is also in the cast.

TEA AND HOME COOKING SALE BAPTIST LADIES

Affair Yesterday Afternoon Was Pretty and Successful.

A very successful tea and sale of work and home cooking was held in the Baptist church yesterday afternoon from 3 to 6, there being a large attendance. The church was beautifully decorated with cherry blossoms, creating a delightful summery atmosphere. Tea and tea cream was served during the afternoon.

The entire arrangements were in the hands of Mrs. B. M. Newell.

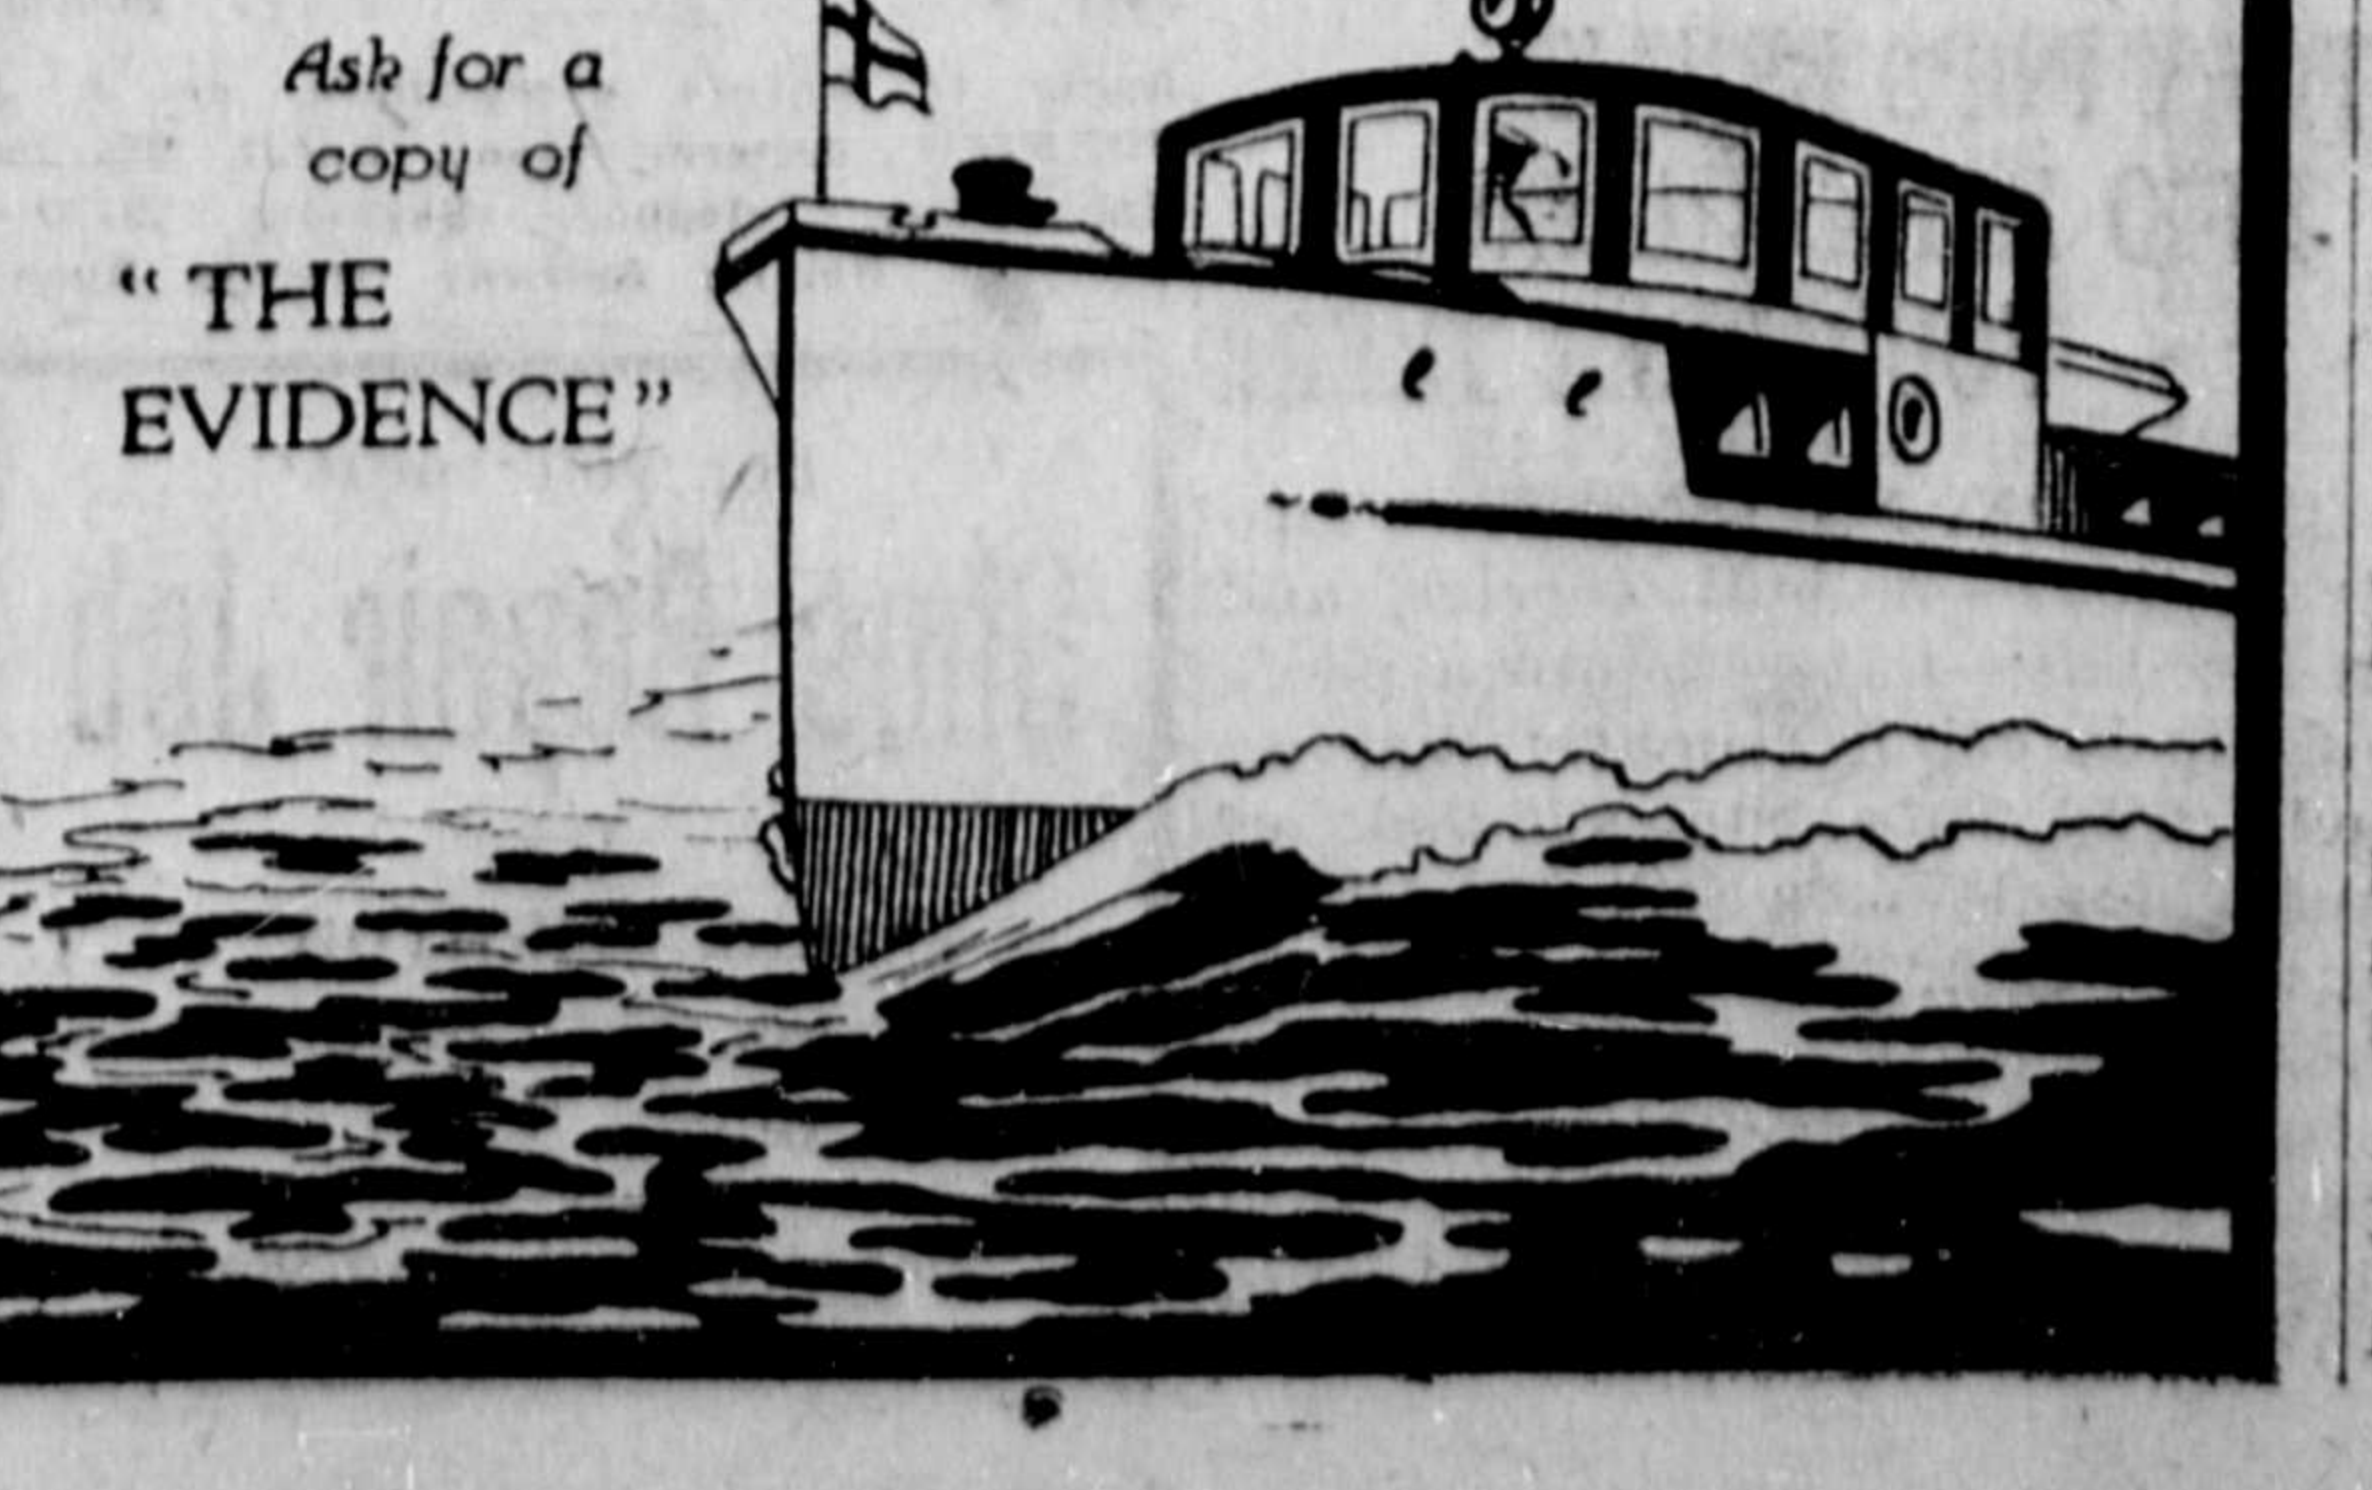

Mrs. A. H. Bayne and Mrs. George Johnson took charge of the tea table. Mrs. A. Iverson and Mrs. Geo. Hibbard supervised the home cooking table and Mrs. J. Hampton looked after the sewing stall.

During the sale Mrs. A. Hunter rendered several vocal selections which were much appreciated.

stricken craft up bodily, and after plugging the holes, laid her gently down on the saucy waves again. They also saw to it that Mickey's craft was put in thorough good shape. This is just another occasion that has come to light of the real practical and worth while friendship that exists between the good fellows of the Mosquito Fleet.

The fleet are working on the case and already there is a man under suspicion for executing the worthless deed. If the culprit is caught it will be a sorry day for him that he ever tried to molest Mickey's worldly possession.

Captain Waldron of the Dreamer has just finished overhauling and altering his staunch little vessel. All the doodads and gadgets are polished and in place. The Secret Service of the Fleet became very excited last week when Cap. was notified to be carrying certain boxes and tin tubes aboard. One of the s.s. borrowed a magnifying glass and an inch telescope from the Admiral and after exhaustive studies discovered that these articles were not booze or dope containers, but were nothing less than the ships pump and batteries.

Flossie Flirt, the lady oil prospector, having returned from Poreher Island on strict business there has been much speculation in Admiralty circles as to the outcome of the prolonged boring operations. It is thought that oil has been struck by the Cow Bay Amazon, the young lady's handkerchief smelling of that commodity. Nothing definite is known yet however, Flossie was seen by the secret service to be hard at work aboard the flagship on the typewriter, and, in her absence from the machine, it was discovered that the writing was the foundation of her oil prospectus. The title at the head of the page read "Flossie Flirt's Mosquito Fleet Oil Co. of Canada, Ltd." This it is thought was a bad start. The shares are to be raffled off at the Mug Up, according to the prospectus at 5¢ a throw.

Of course Flossie does not know that we know what we do know about this private business so keep the information to yourself and we'll let you in on the ground floor on this oil proposition if you get kicked out of the back door.

MISS HESTER BLACK HAS BIRTHDAY PARTY

Great Time Was Enjoyed by 35 Guests in Central Hotel Last Night.

The birthday of Miss Hester Black, thirteen-year-old daughter of Mr. and Mrs. Peter Black, was celebrated at a highly enjoyable party held last evening in the Central Hotel dining room. There were about thirty-five young guests present and the time was most delightfully spent. At 6 o'clock the guests commenced to arrive and music was enjoyed until 8 o'clock when a splendid supper was served. Following this, dancing started and it was well on to 2 o'clock this morning when the gathering dispersed.

Dr. and Mrs. T. Ferrier left the city on the eastbound train this morning for Brandon, Man. Dr. Ferrier is the principal of the Brandon Institute of Manitoba and has been visiting the Methodist missions throughout British Columbia.

Mr. and Mrs. T. E. Jefferson, of Telkwa, arrived in the city on the Prince Rupert this morning from New York. Mr. Jefferson went to Ottawa as delegate from the Bulkley Valley. They continued their journey home on the train.

NOTICE IS HEREBY GIVEN that on Monday, the 19th day of June, 1922, at 10 o'clock in the forenoon, at the courthouse, at Prince Rupert, B.C., I shall hold a Court of Revision for the purpose of revising the voters' list of the above-named electoral district, and of hearing and determining any and all objections to the retention of any name or names on the register of voters for the said district.

Dated this 9th day of May, 1922, at Prince Rupert, B.C.

J. H. McMULLIN,
Registrar of Voters for the Prince Rupert Electoral District.

STRAY PUPS BREAK INTO PARK KILLING FOUR DEER THERE

TRENTON, N.J., May 27.—Two stray dogs—a bull terrier and an airedale—entered into a partnership in crime recently, digging their way into the paddock of Cadwelder Park where they killed four of the six deer quartered there. A fifth animal was wounded before park officials learned of the attack. The bull dog was killed by a pistol shot but the airdale escaped.

Was Troubled With Her Stomach For Five Years

Mrs. Samuel Ward, Millersdale, Sask., writes:—Of feel that I must write to you before another day passes I am so happy and so grateful to your splendid medicine, Burdock Blood Bitters, for after an illness of five years I am better.

I had stomach trouble so bad, I could not bear the smell or taste of food of any kind, and got so thin and weak I could not work. I had four doctors attend me, but they did me no good. I was in no pain, but felt so ill, at times, I thought I would die. In fact, all my friends were sure I could not live many months.

This time last year I saw where a man was relieved of stomach trouble by Burdock Blood Bitters, so my husband got me two bottles, but I had no faith in it after all the different medicines I had taken, however he insisted, and after the first two days I must say I began to feel better, and after the first bottle I felt so much better I went out a little every day, but could not go alone I was so weak, but I soon got so I could walk and eat, and have got quite stout.

I am nearly seventy years of age and I feel better than I have for years, and can do all my housework.

You may make use of this letter if you wish, as it may be the means of making others as well as and as happy as I am."
