Pulp Mill Report is Very Favorable SHINGLE AND PLANNING MILL IS SOLD AND WILL BE OPERATED

Lumber Manufacturing and Shingle Mills Here are Sold and Will be Operated in about a Month's Time

Major Haines, who has been acting here for the receiver of the Charlotte Islands Spruce Products Limited, has received word that the planing mill and shingle mill erected by that concern here has been sold and will be operated in a month from now. The chief owners of the business were the Whalens, the founders of the Whalen Pulp and Paper Company.

The plant has scarcely been used, the company going to the wall directly after it was ready to operate.

The site of the plant is at the overhanging shed at the shipyard. There is a complete lumber manufacturing plant there and its operation will mean a great impetus to business here.

Roberge & Wood, commission agents of this city, have received enquiries for over a million apple boxes for Australia and New Zealand, to be delivered 200,000 a month, and also they have had enquiries for spruce lumber of various grades for the offshore trade.

PRINCE RUPERT PARTY WAS IN BAD ACCIDENT

Car in Which They Were Riding Rolled Down Embankment East of Brockville

Douglas Stork this morning received a letter from his father, Fred Stork, M.P., who with the rest of the party arrived at Ottawa. He says they had a very narrow escape for their lives east of Brockville. The train ran off the track and eight cars, in one of which the Prince Rupert party was riding, upset and rolled down the embankment 40 feet.

The party had at the time of writing already had an interview with Hon. W. L. Mackenzie King, but they had to await the arrival in the city of one or two of the ministers whom they wished to interview.

The Ottawa people were particularly pleased at the victory in this constituency as they hardly expected Mr. Stork would win against such strenuous opposition.

INVESTIGATION IS HELD UP BY ACTION HOLDING PRISONERS

Ulster Government is on its Dignity Over Recent Occurrences.

BELFAST, Feb. 27.—The Ulster government informs the British Government that investigation into the recent Clones disorders cannot be begun until the seven Ulster constables claimed to be still imprisoned are released.

PERSHING COMING

Famous American Commander-in-Chief to Visit Alaska in Summer.

WASHINGTON, D.C., Feb. 27.—General John J. Pershing is planning a trip to Alaska before the autumn. He will make the trip in company with President Harding, if the chief executive goes North, or in August alone if the presidential party finds it impossible to go. General Pershing thinks that as commander of the armies of the United States he should be familiar with the great American territories.

500 BOOKS FOR PUBLIC LIBRARY ALREADY DONATED

G. V. Wilkinson reports that the number of books donated for the use of the free public library has already reached 500. The boys went out on Saturday and distributed dodgers, and next Saturday they will be round to gather such books as have not yet been sent in. Those who can do so are asked to leave the books at Orme's Drug Stores.

SOVIET AND CONFERENCE

Delegates Will Be Instructed Regarding Attitude: Loan is Wanted.

MOSCOW, Feb. 27.—The Soviet delegation to Genoa will carry instructions to grant all concessions demanded, provided the bill for reconstruction can be obtained. If a loan cannot be arranged, then from the Russian point of view the conference will have only the moral value of the recognition of the present government.

The basic reason for this attitude is the famine. Only within the last few weeks have the leaders of the Soviet realized how desperate is the food situation.

Pulp Mill Likely Will Commence in Very Short Time

E. F. Doby, local manager of the Prince Rupert Pulp and Paper Company, is in receipt of advice from New York announcing that a deal will probably be put through this week whereby construction on the pulp and paper mill at Seal Cove may commence in the very near future. The preparation of plans and all the local work in connection with the starting of construction are ready here and all that is holding matters back is the arrangement of finances to which the message received applies. It is understood that when the Prince Rupert Pulp and Paper Company starts out it will go ahead with the larger plan for the establishment of a pulp and paper mill and the development of hydro-electric power from one of the big sources of power near the mouth of the Skeena river.

Visited Tye
Mr. Doby and H. P. Crowell, resident engineer of the company visited Tye station, 27 miles from here, on Saturday afternoon examining the ice on the Skeena river in regard to its effect on the proposed power transmission line across the river. Mr. Doby, telling this morning of what he had seen, said that it was his opinion that the ice would present little difficulty to the construction of the line. Conditions, as far as the ice is concerned, are at about

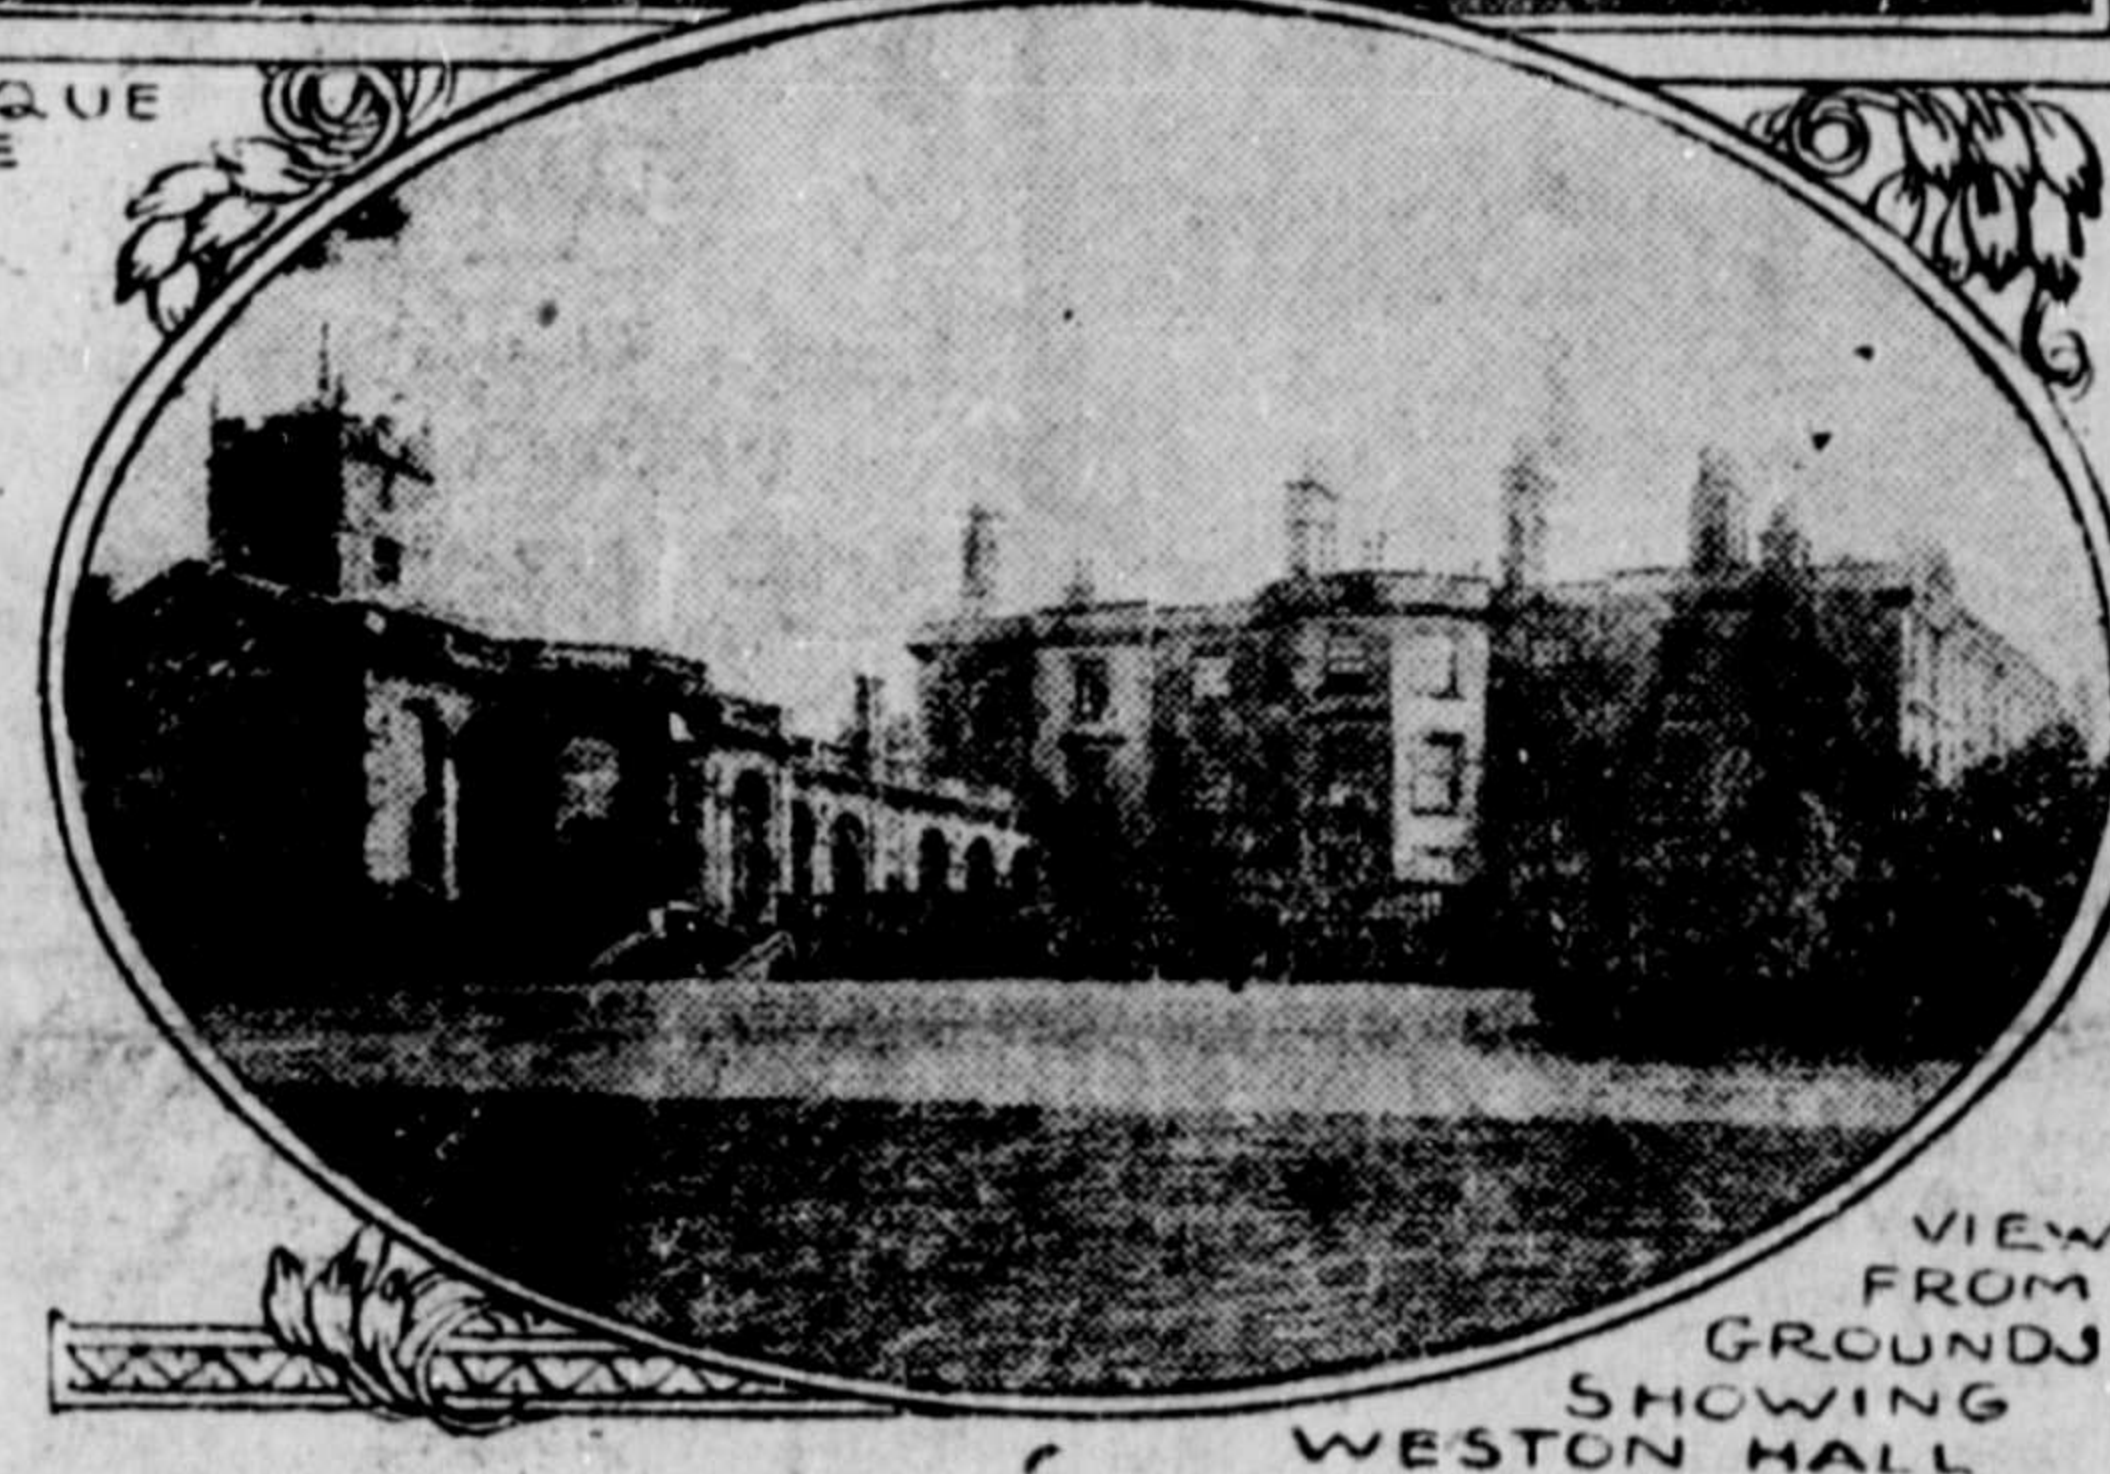

Transmission Line
The transmission line crossing the river will likely be put in near Tye station where the river is a mile and a half wide. This will necessitate the putting in of six large concrete piers, possibly 100 feet wide at the base. They would be about 120 feet high and 1500 feet apart. Along the top of the poles would be strung the copper transmission wires which do not allow of much sag.

WHERE PRINCESS MARY MAY SPEND HONEYMOON.

A REALLY PICTURESQUE VIEW OF WESTON VILLAGE

The first part of Princess Mary's and Viscount Lascelles's honeymoon may be spent at Weston Park, near Shifnal, England, the Shropshire home of the Earl and Countess of Bradford, whose daughter, Lady Diana Bridgeman, is to be one of the bridesmaids. Here the royal bride and bridegroom are expected to remain for about three weeks before proceeding to Italy.

VIEW FROM GROUNDS SHOWING WESTON HALL

Camp Built and Drill in Place at Terrace; Will Sink for Oil This Week; Waiting for Boiler

Actual oil drilling operations by the Terrace Oils Limited is to commence on Wednesday on the Keith ranch about one mile southwest of the town of Terrace. The camp is now built and the drill is in place ready to enter the ground. All that is holding things back now is the fact that the boiler, which is being made in Prince Rupert and which was to have been delivered to Boyle Bros., the drilling contractors, at Terrace last week, was not ready as expected and may not reach Terrace till early this week. L. Jessen, manager for Boyle Bros., who is supervising the starting

PETITION IS WITHDRAWN

Chief Justice Decides Favor of Martin O'Reilly Against Peck.

VANCOUVER, Feb. 27.—Chief Justice Hunter this morning granted the application for the withdrawal of the petition filed by Martin O'Reilly against Cy Peck and R. W. Cameron of Skeena, returning officer, on behalf of Fred Stork, complaining of alleged irregularities at several polling stations.

When the action was launched it was believed Peck might win the election. The case will be dropped now that Stork has established the victory.

HAND TO HAND FIGHT POLICE AND STRIKERS

JOHANNESBURG, Feb. 27.—The first fighting in connection with the mining strike in the Rand district occurred today when the police charged two parties of strikers at Boksburg, using clubs to quell the disorder. Fierce hand to hand fighting ensued in which many casualties were suffered by both sides.

field at Terrace will depend largely on the results obtained in the hole which is about to be commenced. If oil is found, further drilling will perhaps be unnecessary at the present. In case no oil is found at the present location, another hole will probably be sunk further in the interior towards the Kitsumkalum lake.

The people of Terrace are enthusiastic about oil possibilities and there is a chance that that place will be the biggest oil camp in North America in a couple of months. If oil or coal indications are found, there will be a great boom there.

The presence of oil in a hole that is being drilled is usually indicated first by gas which, on being released, forces the water up the drill hole. At this time all open lights or inflammable material is removed from the vicinity before the drilling continues in case oil may come to the surface. Depending on the subterranean pressure, the oil may come out in a gusher, may ooze through or it may be necessary to pump it. In any case, the field will have to be proved.

Many Indications

There have been many interesting indications of the presence of oil in the Terrace and Kitsumkalum field. There have been surface seepages in the district accompanied by gas which, it is said, may be actually lit at some places. Then there is Dragon Lake, 75 miles in towards the Naas Valley, which has been known to the Indians for years. They have viewed this place with superstition which accounts for the name given it. The ice has been known to crack and heave up in the winter time and geologists ascribe this to gas and oil. Oil is also believed to exist towards the Ground Hog coal fields. Another story goes the rounds at Terrace of how a man in the Kitsumkalum Lake country when digging a well was overcome with gas and died in the pit. All these indications are coupled with favorable reports of eminent geologists.

CANADA BARRED ALASKAN TRADE

Supreme Court of United States Gives Judgment in Case

WASHINGTON, Feb. 27.—The Merchant Marine Act of 1920, known as the Jones' Law, prohibits the transportation of merchandise between Alaskan ports and Continental United States by Canadian rail and water lines, the Supreme Court of the United States announced today. The judgment is from the case brought by the territory of Alaska and the Juneau Hardware Co. against the collector of customs for Alaska.

VEREGIN IS REPENTANT

Says is Surprised Canadian People Took Him So Seriously.

NELSON, Feb. 27.—Peter Veregin, leader of the Doukhobors, apologizes to Canadians for having caused consternation by his assertions that the Doukhobors would have to kill off the children and infirm as a protest against taxation. He expresses surprise that Canadian women will not attempt to lynch him therefore.

Mr. Veregin points out that the Doukhobors had to kill off their cows in order to pay their taxes in 1920 and therefore the children were deprived of milk. He asks for a commission to investigate the conditions with a view to ordering a refund of \$30,000 spent by the Doukhobors on roads for which they also have to pay taxes.

The Doukhobors also ask a loan of \$50,000 to launch an irrigation scheme.

MANY FAILURES STOCK EXCHANGE

NEW YORK, Feb. 27.—The consolidated stock exchange today announced the suspension of Mosher & Wallace brokers, also Thomas H. Cowley of Thomas H. Cowley Co.

Another involuntary petition in bankruptcy has been filed against Guthrie & Co., brokers, is announced.

GOLD STRIKE SOUTH OF PRINCE GEORGE

Sunday Arrivals in Interior Town Tell of Discovery Near Woodpecker, P.G.E. Railways

PRINCE GEORGE, Feb. 27.—News has been brought to this city of a big gold strike near Woodpecker, a station on the Pacific Great Eastern Railway, south of here. Arrivals from the south Sunday told of the discovery and a number of prospectors are hurrying to the scene.

MANY DELEGATES GRIT CONVENTION ONTARIO PROVINCE

TORONTO, Feb. 27.—About 900 delegates are expected to attend the Liberal convention to choose a Liberal leader. It will open on Wednesday.

DAILY EDITION Monday, Feb. 27, 1922.

**On the Up-grade
to Better Times.**

Henry S. Dennison of the Dennison Manufacturing Company has written an interesting magazine article on the cycles of good business and bad. He has observed carefully for forty years and has made a careful study of business conditions, particularly as they affect the manufacturer. He tells of seven business panics preceding the one through which we are just passing and shows that the average period it takes after passing the lowest point until conditions are again normal is slightly over twelve months. He claims that the low point of this depression was last November and that there is a steady improvement going on everywhere. Already orders are coming in and factories which had been closed are again starting. Interest rates are on the decline. This is the time for people to start industries, for they are likely to have a fairly long period of prosperity before them.

Mr. Dennison also says that there are long cycles of general good times and long cycles of comparatively bad times, but in these cycles there are lesser waves of shorter duration. During ten years of general improvement there may be two or three smaller trade movements. These are of short duration and are not generally critical.

What is reassuring and is borne out by the observations of hundreds of other businessmen is that business is improving and is likely to continue to improve.

**Land Disarmament
May Be Discussed.**

France is fearful that her allies will insist on land disarmament as well as naval disarmament. Already Great Britain is leading the way by cutting down her army appropriations by many millions. Every country could do likewise to some extent, for a large army is a constant danger.

Army life is not conducive to the best citizenship. The man who does not do some productive or useful work is bound to deteriorate. After a period of service in the army he is good for little else. So much is this true that the word "soldiering" has come to mean shirking. To keep men or women out of employment is never good for them or for the community. For that reason the standing army should be as small as possible.

**Some Recommend
Citizen Army.**

Some people recommend a citizen army or militia. In the recent war men recruited from the militia were able to go into actual warfare much quicker than those who had no training. That was a decided advantage. The main value of a citizen army is, however, to protect the country against possible invaders. No man has to serve overseas unless he so wishes. A man who is willing to take all the advantages of citizenship it is argued should also be willing to defend his country. He will defend his home; then why not defend his country?

If the private manufacture of arms and ammunition is absolutely abolished in every country of the world it will do much to mitigate the danger of war. The various gatherings of statesmen such as are taking place today will also have a good effect, but we can not be sure that our country will never be attacked, especially considering the hostile attitude taken by the workers against the admission of Orientals. Great Britain once forced China to open her ports and there is a possibility that Japan may try to force us to open our doors to her people. It is useless to stick our heads in the sand and say there is no danger. There is none at present because everybody is tired of war, but the time will come when the horrors of the late upheaval will have been forgotten and then it will be necessary to carefully defend our shores against a possible enemy.

**WHAT CAUSES SO
MUCH SICKNESS**

**Constipation Responsible
for 90% of Disease**

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that *Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause.* Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this?
 As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation. "Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

**NOT MANY LOTS
SOLD TERRACE**

**Only Seventeen of 128 Offered by
Provincial Government Were
Taken Up Saturday.**

Only seventeen of the 128 lots on the Terrace townsite offered for sale by the provincial government at Terrace on Saturday were sold. The lots purchased were in the centre of the town and either on or near the main street. In only one case was there bidding over the upset price. All the bidders were Terrace people.

Terrace is one of the few towns in which realty prices did not drop during the general depression. The possibility of an oil boom besides general prosperity of the district has the tendency to keep prices well up.

The sale was held in the provincial police office by J. H. McMullin, government agent, and R. H. Gale, both of Prince Rupert, who returned to the city last night. The list of lots sold and the purchasers follows:

District lot 364, block 6, lots 10 and 11, to Frank Phisicator, \$200 each.

Lot 12, upset price \$200, sold to W. F. Lindsay at \$250.

Lots 19 and 20, to Frank Phisicator at \$125 each.

District lot 369, block 5, to H. S. Creelman at \$100.

Lot 30, to H. S. Creelman at \$150.

Block 6, lot 1, to Joseph Marchildon at \$200.

Lot 21, to W. F. Lindsay at \$150.

Lot 22, to D. A. McKinnon at \$150.

Lots 23 and 24, to Great War Veterans' Association at \$150 each.

Lots 25 and 26, reserved for government purposes.

Lot 27, to J. M. Siegfried at \$200.

Lots 28 and 29, sold to Frank Phisicator at \$200 each.

Lot 30, application to purchase at \$250, upset price, was made after the sale by Peter McDonald.

Four or five other applications to purchase were made after the sale and they will go through this week.

Terms were half cash and the balance in twelve months.

**SUITCASES
TRUNKS
CLUB BAGS**

**Large Stock on hand.
Prices very low.**

J. F. MAGUIRE
 Next the Prince Rupert Hotel

**Ten Years Ago
in Prince Rupert**

February, 27, 1912.

Some twelve or so of grubbers and axemen were engaged this morning in clearing the ground between the old city hall and the G. T. P. Inn in order to smooth the path of the large building to its new location.

The probability is that the site selected for the hotel will be the area occupied by Pat Burns' market. This site will be sufficiently far out of the way in the meantime for the purpose of the G. T. P. Co.

Following are office bearers of the newly organized Prince Rupert Athletic Association.

President, W. Wright; secretary-treasurer, Cyril Orme; committee, J. B. Beatty, J. Roerig, S. A. Corley.

A boxing contest between Joe Bayley of Victoria and Mickey O'Brien of Vancouver is scheduled for a date early next month, arrangements being almost completed.

**SNOW CRYSTALS ON
ICE AT SHAWATLANS**

**One or Two Parties Went There
for the Skating Yesterday
Afternoon.**

One or two parties went out yesterday afternoon to Shawatlans' Lake for the skating. There was about three inches of snow on most of the lake, but at the far end it was fairly clear except for a few crystals. A very enjoyable time was spent, the sun being very warm and pleasant.

The visitors were much interested in the fern-like crystals covering the snow and ice everywhere. Many of the miniature ice ferns were from one to two inches long and very perfect.

MOVIE METHOD.

Manager—I like your voice, Miss Gargle, but I can't understand the business with your eyes and shoulders. I can see no excuse in the song for that.

Miss Gargle—It is in the music. Right here, after the introduction it says "vamp till ready."—New York Daily News.

**NICKERSON TO ERECT
FINE NEW RESIDENCE
OVERLOOKING THE CITY**

**Will Be Located on Two Lots
Where Meteorological Instru-
ments formerly Situated.**

Surveyors were at work Saturday laying out a site for a new residence to be erected by George W. Nickerson of this city. It will be located on the hill back of where the old water tank was located and close to the spot where the meteorological instruments were placed when they were in charge of Frank Dowling.

The residence, it is said by those who have seen the preliminary plans, is to be a pretentious one, something better than is seen here at present and will add considerably to the appearance of that part of the city. It will be near the residence now occupied by Harry Lipsett.

**SURPRISE PARTY FOR
MR. AND MRS. MORIN
ON SATURDAY NIGHT**

A pleasant surprise party took place on Saturday night at the home of Mr. and Mrs. Morin, McBride Street, when a number of friends dropped in and spent a most enjoyable time with music, games and dancing. Along toward midnight a buffet supper was served and the party broke up about 2.30.

Those present included Mr. and Mrs. R. Arthur, Mr. and Mrs. Arthur, Jr., Mr. and Mrs. A. Kinghorn, Mr. and Mrs. John Munro, Mr. and Mrs. Peterson, Ben Delgarno, Mrs. Hamilton, D. Munro, Alex. McRae and L. S. Appoll.

breeders of Eastern Canada, was in the city at the week-end in the course of a tour of Canada. Mr. Rayner, who has nine farms with 400 foxes in the island province, and has been in the business there since 1896, said that he was surprised to find no fox farms along the line of the Canadian National Railway. In his opinion, the country between Hazelton and Terrace would be as well adapted to the silver fox farming industry as any he had seen in his travels.

**ROYAL MILLS GETTING
READY ACTIVE SEASON**

**Plant at Pitman Spur Tempo-
rarily Closed Down but Twelve
Men Engaged Logging.**

R. E. Allen, manager of the Royal Mills at Pitman Spur, arrived from the interior on last night's train and will sail tomorrow evening on the Chelouqua for Victoria, where he will attend the forest protection conference which opens next Friday morning. Mr. Allen is the official delegate to this convention from the Northern British Columbia Fishermen's Association. He expects to be away a fortnight.

The mill at Pitman Spur is temporarily closed down and will not reopen until April 1, after which date operations will continue uninterruptedly throughout the summer. At the present time there are about twelve men employed in the woods getting out logs for the summer cut.

**Do Your Bowels
move regularly, or do they
become constipated**

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble that flesh is heir to that is more liable to be neglected, because material inconvenience may not be felt, at once, from irregular action of the bowels. When there is no regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or protruding piles, heartburn, jaundice, etc.

MILBURN'S LAXA-LIVER PILLS will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.
 Mr. Samuel Buckler, Tatamagouche, N. S., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Laxa-Liver Pills. I procured two vials of them, but after I had taken one I found that I was relieved of my trouble. I do not hesitate to recommend Laxa-Liver Pills for any kind of constipation."
 Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

BIG LIST OF FISH TODAY

Out of 342,000 Pounds Offered Here, 287,000 Pounds Sold—Price Is Low.

Of 342,000 pounds of halibut offered at the Fish Exchange here today, 287,000 was marketed here and 55,000 cleared for Seattle, not satisfied with the price, which was rather lower than usual, none of the fish having brought a higher price than 10c.

The following were the arrivals:

- Anna J., 25,000 pounds, sold to the Royal Fish Co. at 10c and 1c.
- Forward, 20,000 pounds, and Mah, 4,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9.6c and 4.5c.
- Florence, 14,000 pounds and Lincoln, 9,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9.5c and 4.5c.
- Nomad, 6,000 pounds and Tye, 47,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 9.1c and 1c.
- Mermaid, 5,000 pounds; H. Gill, 7,000 pounds; Volunteer, 6,000 pounds and Agnes, 4,000 pounds, sold to the Canadian Fish and Cold Storage Co. at 8.8c and 1c.
- Mars, 13,000 pounds, and Fram, 10,000 pounds, sold to the Royal Fish Co. at 9.3c and 1c.
- Norman, 12,000 pounds, and Margalice, 9,000 pounds, sold to the Royal Fish Co. at 9.7c and 1c.
- Restitution, 14,000 pounds, and Evolution, 10,000 pounds, sold to the Pacific Fisheries at 9.5c and 1c.
- Defence, 13,000 pounds, and W. and S., 10,000 pounds, sold to the Pacific Fisheries at 9.5c and 1c.
- Uranus, 14,000 pounds, and California, 11,000 pounds, sold to the Booth Fisheries at 9.5c and 1c.
- Augusta, 15,000 pounds, and Gayceon, 8,000 pounds, sold to the Atlin Fisheries at 9.5c and 1c.
- Emblem, 6,000 pounds; Fremont, 11,000 pounds, and Royal, 6,000 pounds, sold to Atlin Fisheries at 9.5c and 1c.
- Gladstone, 12,000 pounds, and Fortuna, 13,000 pounds, cleared for Seattle.
- The Pioneer with 65,000 lbs., not included in the above totals, was not offered a price here and left yesterday for Seattle.

The Man in the Moon SAYS:-

THE silent watches of the night are the ones that run down because the owner forgot to wind them up.

BUENOS Aires has 500 drug stores and 600 beauty parlors, and that is where Bill Lynch is gone.

FOR everyone who goes up in the world there is another one goes down.

CAP. Freeman wants to shoot all prohibitionists. If someone should start off with Cap's Narbthong while he is away he would then be in favor of prohibition of stealing.

IT would not be the prohibitionist the Cap. would want to shoot. Not by a jugful.

A blind pig is a man who goes blind from drinking wood alcohol.

FOLLOWING out their general policy of concealing very little, some of the flappers of today do not even conceal their ignorance. The same might be said of some of the older people.

THE man who is always looking for gold does not usually get enough to make a golden rule with.

SOME men object to their wives smoking cigarettes and yet they think nothing of smoking cigars that smell worse than a museum.

HEROES ARE GIVEN HONOR

Unveiling of Plaque for Members of Bank of Commerce Who Served in War Unveiled

Brief but impressive and dignified was the service held yesterday afternoon in the Canadian Bank of Commerce when the tablet in honor of the men of the staff of the bank who served overseas in the Great War was unveiled. Judge F. McB. Young officiated and he was assisted by local clergymen. There was a gathering of about 40 prominent citizens present to do honor to the occasion.

MOVIE FILMS OF NORTH POLE

Road Amundsen Will Carry Outfit When He Leaves Seattle in May.

SEATTLE, Feb. 27.—In all probability Roald Amundsen on his aeroplane dash to the North Pole, will leave Seattle sometime in May aboard the Maud and will go north via the outside passage to Nome. Lieutenant Omdal and Sergeant Odd Dahl, two Norwegian aviators will accompany the expedition. A moving picture outfit will be part of the equipment and it is contemplated that some 30,000 feet of film will be exposed. Two extra men have been engaged in Christiania by Amundsen to take part in the expedition. The two aviators who are also expert wireless operators, will keep the Maud in touch with Spitzbergen and will receive messages from the Norwegian wireless station at Stavanger. They will join the expedition at Seattle.

SEATTLE WILL NOT PLAY THE HOCKEY GAME

Refuses to Take Advantage of the Weakened Condition of Vancouver.

VANCOUVER, Feb. 27.—Seattle refuses to play Vancouver tonight in the first game of the play off for the championship of the Pacific Coast Hockey League, because Lloyd Cook, captain of the Vancouver team and Mickey McKay were both laid up on Sunday with influenza and in addition to that Smokey Harris would be unable to play on account of a broken nose which he got in the game against Seattle on Wednesday last. Seattle declines to take advantage of the weakened condition of the Vancouver team and asks that the Seattle game on Friday night become the first game of the series in the hope that Vancouver will have a proper line-up by that time. The second game could be played next Monday.

WATER NOTICE
 TAKE NOTICE that the Stanley Canal, dated M. S. & L. Co. Ltd. (the above notice is in force) will apply for a license for the storage of 25,000 acre feet of water out of the trunk which flows southward and drains into observatory lake at Ansoy. The storage dam will be located about 600 feet upstream from present dam. The capacity of the reservoir to be created is about 25,000 acre feet, and will flood about 500 acres of land. The water will be diverted from the canal at a point authorized under Conditional License No. 3794. The license applied for to supplement a right to take and use water as per Conditional License No. 3794. This notice was posted on the second of the 21st day of January, 1932. A copy of this notice and an original pursuant thereto and to the "Water & Water Recorder Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C. The application may be filed in the said Water Recorder or in the Registrar of Deeds, Victoria, within ten days after the first appearance of this notice in the "Daily News." The date of the publication of this notice is February 27, 1932.

Judge Young Officiates

After a hymn had been sung, Judge Young formally unveiled the tablet. He gave an interesting set of statistics in connection with the records of the men. In the first year of the war 600 members of the staff had enlisted and at the close the number was 1701. Two hundred and fifty-eight had paid the supreme sacrifice. The men had served on every front where British arms were represented and had won every British decoration including the Victoria Cross. Approximately 1,000 were back again in the service.

Successful Tea and Sale of Home Cooking

The ladies of the Catholic Church held a very successful tea and sale of home cooking in the Catholic Hall on Saturday afternoon. During the afternoon about 200 ladies called and had tea and made purchases. The hall and tables were beautifully decorated with flowers and foliage and the scene was a very pretty one. Mrs. J. Lorne MacLaren and Mrs. J. McNulty were in charge. The raffles resulted as follows: Chicken, won by Mrs. Hartnell; corset cover, won by Mrs. F. Batchelor.

Powerful Motors

The aeroplanes to be used in the North Pole dash will have motors of 60 h.p. and will be provided with skis and wheels to facilitate their travel over the ice fields. Both machines will accommodate two passengers. Only one machine will be used at a time the other machine being held in reserve. A shed will be built on the ice to house the planes when assembled as the Maud will not have sufficient space.

Warned to Avoid Snow Parties and Nefarious Drugs

VANCOUVER, Feb. 27.—Because of the publicity which is being given to the campaign against the sale and use of narcotic drugs in Vancouver, some of the drug peddlers are taking to cover in the small towns and rural parts of the province, where they are continuing their nefarious trade. Because of this problem, the provincial division of the Canadian Red Cross is sending a warning to every newspaper in the province in order that not only the officials, but all citizens, especially teachers and parents, should be on the alert against the insidious traffic in drugs.

Red Cross Sends Out Advice to People of Small Towns.

RE SPECIAL TIMBER LICENSES

The attention of Timber License holders who are taking advantage of the provisions of the 1924 Amendment to the FOREST ACT, whereby arrears of license fees accrued prior to 31st December, 1920, have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the license in order to maintain the right of the holder to obtain a renewal of the license.

Wolf, 9355 skins, advanced 30 per cent. Wolverine, 137 skins, unchanged.

HISTORICAL PICTURE AT THE WESTHOLME

Bob Hampton of Placer Colorful Story of Love, Adventure and Indian Life.

What may well be described as a classic of the silent drama is Marshall Neilan's spectacular, colorful and thrilling production, "Bob Hampton of Placer," which will be shown at the Westholme tonight.

Not since "The Birth of a Nation" has any subject with a portion of American history as a background been so splendidly made into a motion picture, and in many ways the Neilan masterpiece outclasses the Griffith production.

One of the most picturesque periods of American history figures in "Bob Hampton of Placer" namely, the Indian uprisings which followed the Civil War. And in the climax to this production, which is adapted from Randall Parrish's story of the same name, General Guster's famous stand against the Sioux is reproduced and immortalized on the screen in a most fascinating and dramatic manner.

PRINCE JOHN HAD SLIGHT ACCIDENT

Trip North Has Been Cancelled but Other Vessels Will Take Service

Owing to a slight accident, which makes it necessary for the Prince John to dock in the south, the northbound run of that vessel is cancelled. The Prince Albert, which has just come out of drydock, will make the run to the islands leaving on Wednesday after the arrival of the Prince Rupert. The Stewart run will be made by the Prince Rupert, that vessel visiting both Stewart and Anyox. The Rupert will leave at ten o'clock Wednesday night northbound.

ISLANDS ARE BEING BOOSTED GREAT BRITAIN

Queen Charlottes As Field For Emigrants Told About in London Telegraph.

Even as the allotment worker welcomes rain and not hail, so the overseas Briton welcomes men and not jobseekers, and the South African advertisement for men who will "work hard" voice the necessities of all the Dominions, says a special correspondent in the London Daily Telegraph, writing on the Queen Charlotte Islands as a future field for British emigration. To draw a fantasy-picture of a land where milk and honey will flow by gravity into men's mouths is a sure means of filling Dominion cities with unemployed. On the other hand with an Empire stretching from Basin Land in the Northern ice-cap, through the torrid seas, and on to far Macquaris Island, the citizen of this world-empire is disposed to seek for some spot so suited upon by Nature that he may get the greatest return for his hard work compatible with a climate suited to his constitution. Few, if any, intending migrants have the funds at their disposal to admit of a personal visit to all the possible, or even the most probable, spots available, with a view to making their own choice as between their rival merits. Many must, therefore, rely upon the reports of those who have gone before them to spy out the land.

The merits of the little-known Queen Charlotte Islands, off the coast of Northern British Columbia, have lately been brought before the Empire Development Parliamentary Committee with a view to their wider appreciation among intending migrants.

Graham Island. Situated some 150 miles north of Vancouver Harbor and eighty miles west of Prince Rupert, the last and most northerly railway terminus on the Pacific, and the Vancouver of the future, the group have an area roughly half that of Wales. Graham Island, the largest of the group, and the best adapted for cultivation and settlement, is a little smaller than Lincolnshire. This island the writer visited in November, 1919, with a view to the consideration by the Empire Resources Committee of its merits for the purposes of post-war settlement.

The forest growth is remarkable in several ways. Apart from its dense character, the trees are very often large, reaching, in some cases, a circumference of 30 feet, with a length of 250 to 300. The principal species which occur are the Sitka spruce, the giant red and yellow cedars, the Northwest coast pine, and the Pacific yew. In addition to these the alder grows to a large size, often having a diameter of from 12 inches to 20 inches, or even larger; the willow is often of fair size, and the Oregon crab apple grows along some of the inland streams, and also on the beaches, and forms a great impediment to travel owing to its spiky or thorny character.

Agricultural Possibilities. Mr. Humphreys in his report to the surveyor-general, provincial land survey in 1909, said: "This land can be very easily cleared, as the trees do not seem to be very deeply rooted, and there is no rock, and hardly any boulders." A modern donkey-engine will handle, under experienced guidance, these same logs as though they were sea-folding poles. Furthermore, this dense forest only fringes the shores and inlets to a depth of 300 to 400 yards, and behind it is country that is, generally speaking, composed of large flat areas of land, wet and swampy in places, covered with small scrub pine and spruce. This land is easily cleared and the only problem is drainage and the conversion of the muskeg into soil. As regards the former, there is no difficulty, as the levels are comfortably above high-water, and once drained by surface ditches, the usual procedure is to "burn over" the muskeg, following which crops have been sown within three weeks and good results obtained with lettuce, radishes, and such-like garden produce. The potatoes of Graham Island are particularly large and fine, and famous along the coast.

Apart from agriculture, it may be mentioned that some thirty years ago a small herd of cattle

MACDONALD'S Cut Brier MORE TOBACCO FOR THE MONEY The Tobacco with a heart - Canada's Best Buy - THE ECONOMY PACKAGE 1/2 lb - 85¢

Graham that would appear to be suitable for settlement. Its moderate and yet adequate rainfall makes it by far the most comfortable climate to be found north of Victoria. A lower temperature than 18 degrees is unlikely in winter, and the highest recorded in the summer of 1918 was 77 degrees. Snow very rarely lies in the winter and summer frosts are unknown. The cultivable land is reported as 535,000 acres, all in one block, and this forms the largest such area within 200 miles of the growing city of Prince Rupert, a sure market, with its railway connection to the east for the island's produce.

Naden Harbor. Naden Harbor is six miles long by two broad, and it is entered by one narrow passage between the sombre spruce trees less than half a mile wide, thus providing a land-locked salt-water lake comparable to the British Invergordon. But Masset Inlet, twelve miles further east, with Masset village at its entrance, forms a narrow river-like channel for no less than seventeen miles, and then opens out into an inland sea six miles broad and eighteen long, dotted with islands. On this inland sea is situated the growing township of Port Clements.

Forest Growth. The forest growth is remarkable in several ways. Apart from its dense character, the trees are very often large, reaching, in some cases, a circumference of 30 feet, with a length of 250 to 300. The principal species which occur are the Sitka spruce, the giant red and yellow cedars, the Northwest coast pine, and the Pacific yew.

Agricultural Possibilities. Mr. Humphreys in his report to the surveyor-general, provincial land survey in 1909, said: "This land can be very easily cleared, as the trees do not seem to be very deeply rooted, and there is no rock, and hardly any boulders." A modern donkey-engine will handle, under experienced guidance, these same logs as though they were sea-folding poles. Furthermore, this dense forest only fringes the shores and inlets to a depth of 300 to 400 yards, and behind it is country that is, generally speaking, composed of large flat areas of land, wet and swampy in places, covered with small scrub pine and spruce.

Apart from agriculture, it may be mentioned that some thirty years ago a small herd of cattle was taken to Graham Island by a settler who afterwards abandoned his land and left the cattle. These soon became wild, and, grazing over the flat meadows of the northeast, increased in number until at one time the herd amounted to 300 head. They were then hunted for beef for the mining camps on the mainland and exterminated; but the fact that they were able to increase, multiply, and thrive unaided for twenty years is sufficient proof of the virtue of the land for stock-breeding and winter grazing without shelter.

was taken to Graham Island by a settler who afterwards abandoned his land and left the cattle. These soon became wild, and, grazing over the flat meadows of the northeast, increased in number until at one time the herd amounted to 300 head. They were then hunted for beef for the mining camps on the mainland and exterminated; but the fact that they were able to increase, multiply, and thrive unaided for twenty years is sufficient proof of the virtue of the land for stock-breeding and winter grazing without shelter.

Fisheries. The Indian population was originally some 5000 to 7000, but has decreased to a present 700, who from the middle of June to the middle or end of August desert the island en masse for the mainland, where they are employed in the salmon canneries. Naden, being nearer to the great Pacific halibut banks than any other port, is bound presently to become the Lowestoft of the West. At present the great Prince Rupert cold storage plant, the largest in the Empire, handles the great mass of the fish that is brought in from beyond the Queen Charlottes, and daily sends them east in special refrigerating cars.

In his report in 1909, Mr. Humphreys remarked that he found the settlers already on Graham Island well pleased with their lands and prospects and he added, "There would undoubtedly be many more there today, only there being no steamer service of any kind to Masset, it is impossible for intending settlers to get there and take a look round in reasonable time and at reasonable cost." Later came the war, draining the islands of every available man; but with the return of peace to Europe, the dawn of prosperity in British

Columbia, and a regular steamer service to Masset, the future of these islands is undoubtedly rosy. DIOGENES' FIND. "You have ended your quest for an honest man?" "Yea," said Diogenes, as he put his lantern away. "Where did you find him?" "Holding public office. Instead of saying he was serving the people at a great personal sacrifice he said if he hadn't landed the job he might have starved to death."—Birmingham Age-Herald.

LAUNDRIES AND CHEMICALS The telephone tinkled the other day, and a feminine voice said, "I have been reading your advertising lately, but don't the laundries use chemicals in their washing?" Yes, we do use chemicals; so does your baker, and so does every housewife when she makes those delicious hot biscuits you enjoy so much. We shall have more to say on chemicals later; meanwhile, don't you think this is an almost ideal treatment for your blanket and woollen garments? First Bath—Use abundance of warm water 100 degs. Fahr.; add neutral soap solution to make a good suds; run 15. Second Bath—Fill machine with water same temperature as first bath (100 degs. Fahr.), run three minutes. Extract in spinning basket five minutes and finish drying at moderate temperature. No wringing, no rubbing, no extremes of temperature, hence no broken buttons or shrinking of your garments. This service is at your disposal. CANADIAN STEAM LAUNDRY Phone 8. (adv.)

PROVINCE OF BRITISH COLUMBIA, FOREST BRANCH, DEPARTMENT OF LANDS.

EXAMINATIONS FOR THE POSITION OF ASSISTANT FOREST RANGER.

Object. These examinations are for the purpose of filling present vacancies and to enable candidates to qualify for future vacancies and increases in staff.

Assistant Forest Rangers. Assistant Forest Rangers are employed during the fire season (May to September) on each year and this period is extended where possible by work on improvements, such as trails, etc. Appointment is made by the District Forester on the recommendation of the Assistant Forester. The salary is \$100 per month the first year and \$110 the second year and \$120 the third year. Travelling expenses are also paid.

Qualifications for Candidates. Candidates must be British subjects residing in British Columbia for at least one year, of good character, good physical condition and with woods experience. They should have experience in fire fighting, possess the ability to organize work on a large scale, and have knowledge of the Forest Act.

The examinations are partly written, partly oral and are designed to test the candidate's ability along the above lines. In statements made by applicants as to experience, education and fitness are subject to verification by the examining board. Preference is given to returned soldiers with the necessary qualifications.

The Examinations. The examinations will be held at the times and on the dates named below. Each candidate should apply to the District Forester of his district for application forms and for information regarding the hour of the examination and the conditions in which it will be held. Applications should be made to the District Forester in person at least two days before the examination.

Apply to District Forester at: Vancouver March 14, Prince Rupert March 15, Anyox March 16, Williams Lake March 17, Hazelton March 18, Bulkley Valley March 19, Terrace March 20, Fort St. John March 21, Fort Chipewyan March 22, Fort Simpson March 23, Fort Reliance March 24, Fort Yukon March 25, Fort Yukon March 26, Fort Yukon March 27, Fort Yukon March 28, Fort Yukon March 29, Fort Yukon March 30.

PROVINCE OF BRITISH COLUMBIA, FOREST BRANCH, DEPARTMENT OF LANDS.

EXAMINATIONS FOR THE POSITION OF FOREST RANGER.

Object. These examinations are for the purpose of filling present vacancies and to enable candidates to qualify for future vacancies and increases in staff.

Forest Rangers. Forest Rangers are employed the full year. The salary is \$125.00 per month and field expenses. This is increased to \$140.00 per month the second year and \$150.00 a month the third year provided satisfactory service is given and sufficient marks are obtained in the examination; also there are opportunities for promotion to higher positions. Rangers who fail to obtain the higher grades in their first examination may have an opportunity to do so at subsequent ranger examinations.

Qualifications for Candidates. Candidates must be British subjects not more than forty-five years of age, residing in British Columbia for at least one year; of good character, good physical condition and with woods experience. They should be familiar with the practical side of logging, timber cruising, surveying and forest protection; possess a knowledge of the Forest Act; and have ability to organize work and handle men. The examinations are partly written, partly oral, and are designed to test the candidate's ability along the above lines. In statements made by applicants as to experience, education and fitness are subject to verification by the examining board. Preference is given to returned soldiers with the necessary qualifications.

The above examinations will take place at Prince Rupert on March 14th and Smithers on March 20th. For further particulars apply to the District Forester, Prince Rupert. W. H. MacINNIS, Civil Service Commissioner.

To expect a single advertisement to pay is as foolish as to hope to grow fat from the effect of one meal.

Had Bad Cough and Sore Throat

Never neglect a cough or cold however slight. If you do it can have but one result; it leaves the throat or lungs, or both, affected. A single dose of DR. WOOD'S NORWAY PINE SYRUP will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and barks promptly eradicates the bad effects, and the persistent use cannot but help to bring about relief. Mr. Albert Marsh, Lower L'Ardoise, N. S., writes:—"About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I sent for the doctor, but what he prescribed did me no little good I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to be leaving me, so I resolved to continue its use, and after I had used five bottles both my sore throat and cough were gone. I would not be without 'Dr. Wood's' for any money." Price, 35c and 60c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Prosperous advertising means regular continuous advertising.

CHILDREN ASSIST POLICE FINDING STOLEN LIQUOR

Seventh Case Was Located by Chief Vickers Yesterday Afternoon with Assistance Carl Smith.

Yesterday afternoon with the assistance of little Carl Vincent Smith, son of Mr. and Mrs. A. J. Smith, Chief Vickers, of the city police, located another case of whiskey of the thirteen which were stolen on Thursday night from Olier Besner's bonded warehouse on First Avenue West. The find was made when the chief was out paying a visit of inspection to his new residence. The lad ran up to him and said that he had found a case of whiskey. Following him, the chief found a case of House of Lord's Scotch, in a coal sack upon a walk. Mr. Besner was notified and, upon his identifying the liquor, it was returned to his warehouse.

Six full cases and one empty one of the thirteen have now been found so there remain six to be located. No arrests have been made and no definite clues have been found as yet.

The last case was found several blocks away from where the other six were picked up.

AUTO ACCIDENT

One Man Killed and Two Injured Near Victoria Yesterday.

VICTORIA, Feb. 27.—Robert Stammers was killed and Frank Spersholt and W. Tensdale were injured when an automobile was wrecked on the Parsons Bridge road near Golwood early Sunday. Two other men, one of whom was driving the car, have been detained by the police pending an inquest.

Mrs. L. A. Brown and Mrs. W. R. Reid of Hyder reached the city on Saturday afternoon.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and second-class to be \$250 an acre.

Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partly pre-empted, but not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least a "reasonable" Crown Grant.

Where pre-emptor in occupation for less than 5 years, and has made no improvements, he may be granted a 5-year term certificate of occupancy and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$50 per annum and records same each year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvement of \$100 per acre, including a acre cleared and cultivated, and evidence of at least 2 years are required.

Pre-emptor holding Crown Grant may record improvements, if he requires, and in conjunction with his farm without actual occupation, provided statutory improvements made and evidence maintained on Crown granted land.

Unsurveyed areas not exceeding 20 acres, may be leased as homestead title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 500 acres may be sold by one person or company.

Mills, factories or industrial sites on unimproved land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural gas pipelines inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The one within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrospective.

No fees relating to pre-emption are due or payable by soldiers on pre-emption recorded after June 25, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, fees or taxes on soldiers' pre-emption. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers raised; priority for established owners. Stock-owners may form Associations for range management. Fees, or partially free, permitted for settlers, campers or travellers, up to ten head.

Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlook the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

This letter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when a case arises for its use.

Mr. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good results. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

BRITISH GOVERNMENT HAS STAGGERING BLOW

Loses Election in Cornwall Following Loss at Clayton and Camberwell.

LONDON, Feb. 27.—Coming on top of adverse results for the Government in Clayton and Camberwell by-elections the defeat of the Government candidate in the Bodmin division of Cornwall on Saturday is regarded as a smashing blow to the Government.

NO TRACE FOUND OF MISSING MAN

General Opinion at Terrace is That Joe Lapeley Lost His Way and Perished in the Bush

TERRACE, February 17.—No trace has been found of Joe Lapeley, the man who has been missing here since January 19, and the search has been given up. Large search parties scouted the country in all directions from the spot between here and Reno where traces were last seen of Lapeley but their efforts were unsuccessful. All that was found was the man's pack. The general opinion is that Lapeley, who was a man well on in years, lost his way in the woods and perished. Constable Mancor thinks that his body may be in a ditch covered with snow near the road. In that case it may not be found until the spring.

PUBLIC FUNERAL FOR FORMER SPEAKER OF B. C. LEGISLATURE

NELSON, Feb. 27.—John Keen, former speaker of the Legislature and latterly clerk of the same, was accorded a public funeral at Kaslo on Sunday. Premier Oliver, Hon. T. D. Pattullo, Hon. John Hart, Hon. E. D. Barrow and Hon. W. J. Sloan were pallbearers by proxy.

HINTON RETIRES

A special despatch to the Vancouver Province says that W. P. Hinton is retiring from the government service at the end of this month. He has recently been technical adviser to the receiver of the G. T. P. system. The despatch says his retirement is on account of the uncertainty which prevails in both Canadian National and Grand Trunk circles regarding the coming merger.

RUSSIAN REFUGEES IN CONSTANTINOPLE UTTERLY DESTITUTE

CONSTANTINOPLE, Feb. 25.—Bitter cold weather and heavy falls of snow are intensifying the sufferings of the legions of Russian refugees who have sought shelter and food within the Turkish capital and its environs. Their misery is great. They haunt the dark streets and alleys at night begging alms and bread. There are nearly 20,000 who are utterly destitute. The American Red Cross, left here a short time ago. The refugees are now turning their attention to the embassies.

Entertainments, balls and gala performances are being given by charitable persons in an effort to raise money for the unfortunate Russian outcasts, but the response is very feeble. The truth is life in Constantinople is so dear that only the well-to-do can afford to give any substantial help to others.

The plight of the Russian women and children and old men is pathetic to the last degree. There is a shortage of wood and other fuel and many are dying daily of exposure.

Also Armenians.

In addition to the Russian, Greek and Turkish refugees, whose number run into tens of thousands, Constantinople has to provide food and shelter for the Armenian refugees of Cilicia. Appeals are placarded about the city to move the population to succor their destitute brothers but nobody seems to worry about them. "Let the rich Americans or the League of Nations take care of them," is the general response.

Sir Samuel Hoare, deputy high commissioner for the League of Nations, is here in connection with the International Relief Fund for Russian Refugees, with which Dr. Fridtjof Nansen is connected. His arrival has greatly heartened the Russians, especially General Wrangel and other Russian officials upon whom a great part of the task of caring for the refugees has fallen.

It is hoped here the League will take energetic measures to ameliorate the grave conditions that exist.

WATER NOTICE. Diversion and Use.

Take notice that James A. Brown, whose address is Port Essington, B. C., will apply for a license to take and use 24 cubic feet per second of water out of Browns Creek, which flows northeasterly and drains into the salt water about nine miles from mouth of the Fraser River.

The water will be diverted from the stream at a point about 57 feet above tide-water on Lot 124, Range 5, Coast District, and will be used for power purpose upon the land described as Lot 124, Range 5, Coast District, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

A copy of this notice and an application pursuant thereto, and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

JAMES A. BROWN, Applicant.
The date of the first publication of this notice is January 21, 1922.

LAND ACT.

Notice of Intention to Apply to Lease Land.

In Skeena Land District, Recording District of Prince Rupert, B. C., and situate in Khutz Inlet, second eight from entrance on east side.

Take notice that Edgar Harold Crawford, occupation logger, intends to apply for permission to lease the following described lands: Commencing at a post planted in the second eight from the entrance of east side of Khutz Inlet, thence 20 chains south, thence 20 chains east, thence 20 chains north, thence 20 chains west and containing 10 acres more or less.

EDGAR HAROLD CRAWFORD, Applicant.
