Steamers Collide In Columbia River

BRITISH CABINET AND IRISH COMMITTEE ARE IN CONFERENCE

Seven Sailors Killed as They Slept Aboard Steamer Welsh Prince

PORTLAND, May 29.—Seven sailors were killed and two firemen were injured in a collision at 10.45 o'clock last night in the Columbia River off Altonah, Washington, between the steamers Welsh Prince and the Iowan according to information that was available early this morning at the naval radio station at North Head. The Iowan was reported to be on her way up the Columbia River under her own steam early today.

The sailors who were killed were asleep in the fore-castle of the Welsh Prince which was struck by the prow of the Iowan. The Welsh Prince was bound down the river from Portland and the Iowan was bound in the opposite direction. The former vessel went down by her head thirty feet with her stern sticking out of water. She had a cargo of lumber for the Far East.

FIGHTING IN BELFAST YET

Five Republicans and One Policeman Killed—Others Wounded.

BELFAST, May 29.—Sharp fighting between members of the Irish Republican army and Ulster special constabulary occurred last night along the boundary between counties Donegal and Fermanagh Belleek district. Five Republicans are reported killed and one wounded. One constable was killed. Culling Tree Road police barracks, near Falls Road was attacked this morning. Several policemen were wounded, one seriously.

BIG REDUCTION RAILWAY WAGES

United States Labor Board Cutting Wages of 400,000 Employees.

CHICAGO, May 29.—The Labor Board has decided to make a downward revision in wages of 400,000 employees on maintenance of way on American railroads in accordance with the decreased cost of living. The new wage standard will reduce the payrolls by \$16,000,000 yearly.

FORTY MEN GO TO ANYOX TO WORK ON DAM

J. M. Campbell, Provincial Employment Agent, Still Has 50 Names on List.

Forty mechanics and laborers were sent to Anyox on the Chelohsin last night and a few laborers to Stewart on the Prince Rupert Saturday night, by J. Campbell, of the Provincial Labor Bureau. The former will be engaged on dam construction and the latter at the Premier Mine.

There are at the present time still some 50 unemployed in the city, but it is anticipated these will be absorbed by outside points in the near future.

TEA SHORTAGE MAKES PRICES GO HIGHER

The reduction of the English duty of tea by fourpence a pound will undoubtedly result in greater consumption on the part of the public of Great Britain, which is now by far the largest tea consuming country in the world. This increased demand will tend to raise the present abnormally high market and an increase in the cost of teas throughout the world may be expected.

GRAND TRUNK CASE OPENS ON JULY 10

LONDON, May 29.—The Canadian Press learns authoritatively that the appeal of the Grand Trunk shareholders to the Privy Council against the award of the arbitration board fixing the Canadian government's liability for the shares, will open July 10 and is expected to last at least a week. Other Canadian appeals will be heard in the latter part of June or in the first week of July.

CAPTAIN NEWCOMB HAS ANOTHER PRIZE

VANCOUVER, May 29.—Captain H. Newcomb of the government coast patrol steamer Malaspina, has captured another alleged poacher in the little schooner Helen, of Tacoma. The boat was picked up within the three mile limit and is now at Ucluelet in charge of the Canadian customs authorities there. This is the third alleged poacher the Malaspina has picked up, while another patrol boat picked up one, making a total of four United States boats taken in Canadian waters in the past month.

W. R. Reid and H. D. Cameron were arrivals in the city from Stewart on the Prince Rupert last night.

THERMOMETER HIT RECORD READING AT 82 ON SUNDAY

The thermometer went up to a record reading for this city at 4 o'clock yesterday afternoon when 82 in the shade was registered. H. O. Grewe, Dominion meteorologist announced today. This was the highest reading for years and, as far as reports immediately to hand show, creates a record. The highest temperature reading last year was 76 above in May and in 1920, 74 above in July.

AIDS TO NAVIGATION FOR ALASKAN COAST

Sum of \$125,000 Will be Spent There This Year

WASHINGTON, May 29.—United States will spend more than \$700,000 to perfect lighthouse service, which stands guard day and night over dangerous waters along its 7000-mile coastline.

This sum, carried in the annual Department of Commerce appropriation, provides for numerous improvements in channels always considered dangerous to navigation. They represent but a few of numerous improvements contemplated by Secretary of Commerce Hoover and awaiting more favorable times for construction work.

Navigation aids will be placed at many danger spots in Alaskan waters, for which an appropriation of \$125,000 has been set aside. The increase of traffic to Alaskan ports has been so heavy that Congress decided the navigation improvements could wait no longer.

PREMIER ON RAIL RATES

Was Again Called Before Parliamentary Committee Today.

OTTAWA, May 29.—Premier Oliver, of British Columbia, was again called when the special committee on transportation costs resumed sessions this morning. On Friday Premier Oliver argued that the Crows Nest Pass agreement should be revised or else it would add to discrimination already existing against British Columbia. Premier Oliver today produced figures to support his claim that discrimination existed under the present rates. The rate on grain from Morley, Alta., to Vancouver was 30 cents against 23.5 cents from Virden, Man., to Fort William an equal distance. This discrimination was 25 per cent. In grain and flour some rates on equal distances are discriminatory by seventy-five to one hundred per cent for westward movement. To bring back the Crows Nest Pass agreement would add twenty-five per cent to this discrimination.

BOTTOMLEY SENTENCED SEVEN YEARS

Editor of "John Bull" Found Guilty of Misappropriation

LONDON, May 29.—Moratio Bottomley, former publisher of "John Bull," was found guilty today by a jury on a charge of misappropriation of funds belonging to the Victory Bond Club. He was sentenced to seven years penal servitude.

INSIST ON STEAMERS MAKING NORTH CALL

Victoria Chamber of Commerce Deal With Grand Trunk Pacific Schedule

VICTORIA, May 29.—Strong representations will be made by the Victoria Chamber of Commerce to insure that the steamships Prince Rupert and Prince George, of the Canadian National Railway system, make the call at Victoria on the voyage to northern B. C. ports from Seattle. For the past two seasons it has been the practice of the G.T.P. on their summer schedule to make the call at Victoria on the voyage south, the vessel leaving here Sunday morning for Seattle and proceeding from the latter port to Vancouver and thence north, leaving out the call at Victoria.

The Chamber of Commerce feels that Victoria should be made a port of call on the voyage both ways as is Vancouver, and sees no reason why vessels of the Canadian National system should pass right by this port.

"It seems ridiculous that Victoria business men wishing to ship goods to northern ports must send them over to Vancouver to be loaded there and that passengers must leave here for Seattle or Vancouver to catch the G.T.P. vessels northbound," said President J. H. Bealy.

J. A. Belanger, well known local engineer, arrived in the city last night from Terrace.

ROGERS HORNSEY HIGH HOME RUN HITTER OF MAJORS

ST. LOUIS, May 29.—Rogers Hornsby, second baseman for the St. Louis Nationals, hit two home runs in yesterday's game against Pittsburg bringing his total to 13 for the season. This also makes him home run hitter in the major leagues so far this season.

CHARLES NEWMAN AND PARTNER HAD PLUNGE INTO ICY HARBOR

Waterfront and East End Startled by Atonized Shouts Saturday Night.

Residents of Fourth Avenue East and waterfront people were startled about midnight on Saturday night by agonizing screams and shouts for help emanating from the semi-darkness of mid-harbor about opposite to Gow Bay. The launch "23" from the Prince Rupert Boat House, and Capt. James Anderson's yacht "Robert G. Seymour" at the Prince Rupert Yacht Club, and other craft immediately put out from their berths and found two fishermen, Charles Newman and his partner, who live across the harbor, had capsized their small dinghy in which they were crossing the bay and were frantically striving to save themselves from the cold waters of the harbor shouting for all they were worth. Captain Swanson in the "23" rescued Newman and the Robert G. Seymour, the second man. They were taken ashore and sent up town in a taxi, neither much the worse, through apparently well frightened, after the sudden plunge in the deep.

ANNUAL MEETING OF I.O.D.E. OPENED VANCOUVER TODAY

VANCOUVER, May 29.—The annual meeting of the National Chapter, Imperial Order, Daughters of the Empire, which is being attended by delegates of the order from all over Canada, opened its sessions at 9 o'clock this morning, Miss Joan Arnoldi, of Toronto, National Regent presiding. The first business was a meeting of the national executive which was followed by the registration of delegates, signing of certificates and a meeting of the committee on constitution, a conference of educational secretaries and of "Echoes" secretaries.

The formal opening ceremonies take place this afternoon commencing at 2:30 o'clock when the President of the Provincial Chapter will give an address of welcome which will be replied to by the President of the Provincial Chapter of Ontario, Miss Arnoldi will then give an address and adjournment will be made for tea by invitation of Mrs. Drummond.

The evening session, commencing at 8:15, will be devoted to an open conference of regents of municipal, primary and Junior chapters, followed by a conference of organizing secretaries and a meeting of the resolutions committee.

Mrs. S. P. McMorde, regent of Prince Rupert Chapter, arrived in the city yesterday with credentials from all chapters in the northern city to represent them at the convention.

Statement on Irish Situation Being Withheld in House Until Present Discussions Are Over

LONDON, May 29.—After a joint meeting of the Irish committee and the British cabinet this morning, the representatives were again called to meet this afternoon with Premier Lloyd George presiding. Several newspapers say that Michael Collins and Arthur Griffith have convinced the government of good faith in regard to the Anglo-Irish treaty.

Hon. Winston Churchill told the House of Commons today that Great Britain did not intend at present to withdraw all troops from Dublin. Shortly after the House met Churchill said that, owing to state discussions now proceeding, he had promised that a statement regarding Ireland would be deferred until tomorrow. He added that in view of the gravity and urgency of the issues already disclosed, Parliament was entitled to the fullest information available in order that the House might debate the situation before Whitsuntide recess.

ALLEGED BURGLAR ARRESTED AT TRAIN

John Karkle was arrested at the train this morning by the city police for breaking and entering George Leek's premises on Third Avenue, George Tite's warehouse, on Second Avenue, and also Taylor's garage on Third Avenue, between Saturday night and this morning. He will be charged with breaking and entering in the police court tomorrow morning before Magistrate McLymont.

PAUL AIVAZOFF'S LAUNCH SHAWATLANS SANK AT DRY DOCK

The pleasure gas boat, Shawatlans, owned jointly by Paul Aivazoff and Mrs. C. Embleton, came to grief at the dry dock at the week-end. During the repairs to the Prince Rupert Yacht Club wharf, the Shawatlans, together with other pleasure crafts, was moored at the dry dock, being tied at both ends. Someone had untied one end of the Shawatlans for the purpose of getting another boat out, omitting to tie it up again, with the result that the Aivazoff boat became entangled with the loose rope. The tide rising and the boat being fastened the water filled the interior through the portholes and it sank.

After strenuous salvage operations by Ben Self and Jack Reynolds, the boat has been raised sufficiently to enable it to be towed to the Yacht Club and repairs will be executed on the N. M. McLean slips.

The interior of the cabin was badly drenched with oil and two torches are missing.

BIG EXPLOSION MUNITION PLANT

Two Hundred Persons Missing and Almost Similar Number in Hospitals at Vienna

VIENNA, May 29.—Two hundred persons are missing and from one to two hundred are in hospitals as a result of an explosion at the ammunition factory in Blumava on Thursday last. The damage exceeds a million dollars.

Mrs. Kennedy and Mrs. Parsons left on the eastbound train this morning on a visit to Montreal.

Mr. and Mrs. W. F. Binns returned to Balmoral cannery on this morning's train.

CHANG'S ARMY DESERTS HIM

Soldiers Go Over to Side of General Wu Pei Fu and Have Control of Railway

HARBIN, May 29.—Soldiers of General Chang Tso Lin along the Chinese Eastern Railway have mutined and declared themselves in favor of General Wu Pei Fu who defeated General Chang in the recent battles around Peking. Almost the entire railroad is in the hands of the troops who have revolted against the Manchurian dictator and are now supporting General Fu who is in control of Chihli.

TRAGEDIES OF THE WEEK-END

Youth Drowns at Capilano; Lad at Port Kells; Man Killed in Fall.

VANCOUVER, May 29.—Thomas Chapman, aged 18, of this city was drowned on Sunday in Capilano River when he was attempting to wade across the stream. The body has not yet been recovered.

Howard Welsh, aged 12, was drowned at Port Kells when he fell off a raft in a stream late Saturday evening.

David Bishop, aged 48, of South Vancouver, a painter, fell fifteen feet from the roof of a house which he was tarring, and was instantly killed on Saturday evening.

NEW SPEAKER IS TO BE SELECTED AT NEXT SESSION

VICTORIA, May 29.—The appointment of a Speaker to the house, rendered vacant when Mr. Manson became attorney-general, will be voted on when the house again convenes and it is believed that F. A. Pauline, M.L.A. for Saanich, who was deputy-speaker, is the logical first choice. If he be not prepared to accept the position, David Whiteside, M.L.A. for New Westminster, is mentioned as a member who would give equal satisfaction to the house.

ASK BI-LINGUAL STAMPS AND COINS

QUEBEC, May 29.—Armand Lavergne, the Nationalist leader, has been advised that Mr. Binette, M.P., for Prescott, Ontario, will present a bill this week in the House of Commons asking for the issuance of bi-lingual stamps and coins. A movement on the part of French-Canadian organizations to obtain such is already afoot and petitions have been sent Ottawa.

**Peace In Ireland
Seems Still Far Off.**

Troubles in Ireland are, apparently, resolving down again to the old basis of traditional quarreling in that country—Catholicism versus Protestantism. Ulster, and Belfast city particularly, has once more become the storm centre and settlement with restoration of peace in the troublesome Isle of Erin seems as far off as it ever was. Probably at no time in the history of that land have there appeared so many proposals for peace and have there been so many promises to that effect than have characterized events of the past few months but it is still questionable if the much desired end is much nearer in sight than it was twelve months ago. It is true that the political lineup has changed considerably since the Free State status was offered by the British government with the division of the country into two self-governing commonwealths but certain factions in Northern Ireland chafe under that condition and Southern Ireland has been split into two distinct divisions—Free Staters and Republicans. This geographical division seems to be giving rise to much dissatisfaction. If all the Irishmen in Ulster were Protestants and all in Southern Ireland were moderate Catholics, the scheme would, probably, work without hitch, but the fact remains that such is not the condition. Therefore hostilities are still on and give promise of continuing. While Great Britain, in dealing with Ireland, has been trying as far as possible to keep away from forceful policies in enforcing its solution it is beginning to look as if that will be the only way of putting it into effect. Such a policy can, of course, never be effectual or satisfactory in dealing with Ireland and it will only tend to intensify the discontent rather than subdue it. Irishmen have fought among themselves for hundreds of years and are still doing so—the indications are that they would continue to do so for many more years to come and the situation would undoubtedly be worse if they were left to themselves and the Republican desires were met.

**The Greatest Statesman
The World Has Known.**

Great Britain has again expressed its confidence by a parliamentary vote of almost unanimity in the greatest statesman the world possesses today—Premier David Lloyd George. In spite of racking criticism by leading politicians in the Old Country and a great portion of the press, led by the Northcliffe papers, the little Welsh Prime Minister received an endorsement last week-end of such a character that must be of great heartening effect to him. It is no less than marvellous how Lloyd George comes through at such times of moment as he does. No other statesman in England would be able to do it, there is no doubt. Time and time again powerful influences are brought to bear against him but, time and time again, he emerges the victor from the fight. United States, France, Italy and other countries overthrow their ministries on international questions but the British Premier, after navigating through the most serious times of the Great War and the four years that have passed since the Armistice, is still at the helm and mutiny in his crew seems as remote as ever. He has proven himself the greatest politician and the greatest shaper of European destiny the world has ever known.

**"Nothing To Talk About
But The Weather!"**

"Nothing else to talk about but the weather!" That is a commonly heard remark. Yesterday everybody was talking about the weather and they had good reason to do so, too. With a brilliant sun shining from a cloudless sky but with a glorious cooling zephyr all day long, it certainly was worth talking about. It was one of those days when everybody felt glad to be alive—and to be in Prince Rupert. It is not often that people of Prince Rupert, or anywhere else on the coast, for that matter, look for shady spots but that was what many people were doing yesterday. If all who miss church and go out on the water on Sundays are sinners then there must have been a terrible proportion of the population of Prince Rupert sinning yesterday. The day proved that it doesn't always rain in Prince Rupert and that here it even, sometimes, becomes too hot to be comfortable.

INDIGESTION**

Relieved by "Fruit-a-tives"
the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

**JIGGS' CREATOR
IS IN IRELAND**

George McManus Has Long Hoped to Join Colony of Country Gentlemen.

NEW YORK, May 29.—To the roster of well-known Americans who maintain country estates in Ireland there is to be added shortly the name of George McManus, the cartoonist and creator of "Bringing Up Father" who slipped quietly away from this country on one of the steamships sailing recently, and who by the time he returns in late July will be the "landed proprietor" of a broad Irish demesne.

As far back as 1913, while visiting a lifelong friend who inherited Clonally House, at Ballygawley in Tyrone, from a great uncle, McManus became inoculated with the desire to own an Irish home some day and for part of every year enjoy there the charm of Irish country life and saturate himself with the beauty of Irish scenery. The following year, while the plan was still urgent in his mind the war came. Until this year the war, and the changes which followed it, and his own work have compelled him to defer the putting into effect of his intention.

Loves Ireland.

But let a man in Ireland once announce that he is captivated with things Irish and not a war lasting a century will suffice to blur the effect of his announcement upon those interested—if they like him—in having him come to hide among them. In the nearly ten years which passed since McManus declared himself in love with Irish life his friends in the green isle have watched carefully for opportunities which they thought would attract him and have kept him informed of what was offering in the market and why.

The recent situation in Ireland has brought about changes to more than one ancient country family, and now the man looking for Irish acreage has a variety of choice and location which has not been afforded since 1848. At least six estates which McManus has news of have everything calculated to appeal to a new owner in whom the strain of artist pulses strongly. One has a castle on it, another a ruined monastery, another was once the home of a famous patriot, a fourth is the house which once sheltered a famous sportsman and soldier. Each, according to descriptions which have accompanied pictures of the residence houses to this country, is in the heart of hunting land and in a neighborhood conspicuous for all those traditions which make Irish country life and hospitality the individual thing that it is.

Knows What He Wants.

McManus' own inclination is for a certain estate which looks out upon the sea and behind which the country falls away in a rolling panorama of field, woodland and lakes. The house is four centuries old and has a ghost or two. Two kings have slept in it and three times its owners have held seige when their tenantry tried to burn it about their ears. St. Patrick is said to have preached on the lawn before the house where there are still four tall standing stones, which according to legend, were once part of an open air druid temple.

But before making his final choice McManus will see the several other and will live in or in the neighborhood of each for an extended stay in order to make certain that he will like it if he buys it. At dinner given in his honor just before he went away he said:

Is Determined.

"I expect to have to deal with twenty solicitors, forty-four land agents, six members of the house of lords, and one thousand heirs, devices, and next of kin, before I come back from Ireland, and listen to their logic and keep proof against their blarney and make a sensible choice in the long run. But I'll have the deeds to an Irish place in my pocket when I come back, I made up my mind ten years ago that I was going to sit at my own Irish fireside and eat my own Irish bacon and drink my own pot'ene before I reached the time of life when one place was the same as another and here goes."

He will spend a long vacation at his estate every year after he takes it over, and will man-

The weather man again balked the opening of the Senior Baseball League last Friday night when it rained and the initial fixture between the Sons of Canada and the Knights of Columbus had to be called off. Even though there seems to be a jinx on the league as far as weather is concerned, the officials have decided to carry on as per schedule published last Friday and the games will be played as set down, postponed matches being held when the opportunity offers. Tonight Grotto and Gil's teams, of the Intermediate League, will meet and on Thursday evening the second fixture of the Senior League between the Elks and Sons of Canada will take place. These are the only games set for this week.

League leaders and tail-enders meet tomorrow night in the Senior Football schedule when the Sons of Canada and the Callies go to the mat. The outcome of the game will either put the Sons away in the lead and the Callies away in the rear or else matters generally will be pretty well evened up. It all depends which side wins. Although having suffered two defeats already this year and having won no games, the Callies are not daunted and a good game like those of old times between the Canucks and Scots is guaranteed for tomorrow night with both teams on their toes and eager to win. The match should attract a good representation of soccer fans.

Harry Greb, the flashy Pittsburg boxer, who won over Gene Tunney of New York, last week will probably be the next opponent for Georges Carpentier. He also wants a match with Jack Dempsey, and does not care a fig what the distance is or where they stage the bout. The Pittsburger is not willing to concede anything except weight to the champion. As a matter of fact, Greb firmly believes he can beat Dempsey.

Greb says he is willing to wait until Dempsey and Harry Willis settle their differences. The Willis-Dempsey row will be put on in Montreal this summer there is now good reason to believe. Greb and the Frenchman will be sent in together shortly afterward. Those two matches are practically settled.

"I want to get that fellow Carpentier after I settle with Tunney and then for a shot at the champion, Dempsey," said Greb. "I hope you won't think that is a rash statement for me to make, but I am in earnest about wanting to meet Dempsey. He is not much bigger than I am, and I know him pretty well. I boxed with him about ten times and always held my own. I have beaten Bill Brennan five times, and Bill stayed in with Dempsey for twelve rounds. I know that if the bout went over five rounds I would beat Jack."

Canada's most Popular Car The Chevrolet 490

PUBLIC favor changes when reasons for a change are obvious. Public opinion as to the most popular car of the future is changing.

Users of low-priced motor transportation are demanding completely equipped automobiles, modern in every respect, with nothing left to buy but the license plate. The new Superior Chevrolet is fully equipped, including modern 3 speed forward and reverse, sliding gear transmission, standard service and hand brakes, electric starter, demountable rims, water and oil pumps and speedometer. In addition to completeness, buyers insist on real economy in four important essentials. They demand low initial cost; low gasoline consumption; low repair costs; and long tire life. The new Chevrolet excels in these particulars. Twenty-five to thirty miles on a gallon of gasoline is not uncommon. It excels in oil economy as well. Repair costs are low, because every Chevrolet part is built to give long life under hard conditions.

You owe it to yourself to examine the new Chevrolet, the car which is establishing a new standard and has become Canada's most popular car.

STRANGE WILL OF SCOTTISH TEACHER

James Campbell Christie, of Glasgow, Bequeaths Ashes as Potato Fertilizer

LONDON, May 29.—(By Canadian Press)—Many peculiar wills find their way through the Probate Court, but few of them can compare with the strange will of James Campbell Christie, an ex-schoolmaster and science teacher, of Kilmailing Street, Cathcart, Glasgow, who died recently, leaving an estate valued at £3,440.

Christie bequeathed his personal clothing and bed clothes to the Old Men and Women's Home, Glasgow, and "if not accepted" to the Charity Organization Society, or to any really necessitous or deserving persons whose circumstances were well known to any of the trustees of his estate, with a strong preference in favor of total abstainers, non-smokers, and unbelievers in any religion. People who wasted or had wasted money in alcohol or tobacco did not deserve charitable assistance, his will stated.

The utmost simplicity was to be observed in his funeral, Christie stipulated. No hearse was to be used, but a plain carriage, with the box underneath, "or any simpler or less expensive way" of conveying his body to the crematorium. He had paid the cremation fee several years in advance of his death. He wished no one to waste time by attending his funeral. He desired that his ashes should not be preserved, but disposed of by the crematorium management, or "used by any of my trustees or others to fertilise their potatoes."

INTERIOR OF GASBOAT AND OWNER'S EFFECTS DESTROYED BY FIRE

The fire department received a call on Saturday afternoon to Cow Bay, where they found that the interior of the salmon trawler Harvest Home, owned by John Morley, was on fire.

The hose was laid out and the fire extinguished before any serious damage was done to the hull although the cabin and personal contents were destroyed. It appears that Morley was emptying gasoline from one receptacle to another and, in lighting a torch, the gasoline caught fire. Fire Chief McDonald stated that it was only by a miracle the boat did not blow up with serious consequences. No insurance is carried.

RELICS FROM BATTLE OF NASEBY FOUND

LONDON, May 29.—Authentic copies of four historic letters—three of them from Oliver Cromwell, Fairfax and Leighton, relating to the Battle of Naseby—have just been presented to the House of Commons by Sir Robert Leicester Harmsworth, M.P.

These copies, transcribed by Horace Walpole, are believed to have been found in 1754, within a wall 9 feet thick, on pulling down a house in Palace Yard, Westminster, in order to build an office for the clerks of the House of Lords. The documents, suitably framed, are to be placed beneath the authentic portrait of Speaker Lenthall, which hangs in the Speaker's residence.

WHEN PA'S PAPER DOESN'T COME.

My father says the paper he reads ain't put up right. He finds a lot of fault, he does, perusin' it all night. He says there ain't a single thing in it worth while to read. And that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly on the bum— But you ought to hear him holler when the paper doesn't come.

He reads about the weddin's and he snorts like all get out; He reads the social doin's with a most derisive shout; He says they make the papers for the women folks alone. He'll read about the parties, and he'll fume and fret and groan; He says of information it doesn't have a crumb— But you ought to hear him holler when the paper doesn't come.

He's always first to grab it, and he reads it plumb clean through. He doesn't miss an item or a want ad—that is true. He says they don't know what we want, the darn newspaper guys. "I'm going to take a day sometimes and go and put 'em wise; Sometimes it seems as though they must be deaf and blind and dumb—" But you ought to hear him holler when the paper doesn't come.

VANCOUVER HOSPITAL IN MINING BUSINESS

Will Take Out Miner's Licence and Try to Collect Patient's Bill

When the health of Manson MacMillan, well-known in the early days as a prospector, became undermined, he became a patient at the Vancouver General Hospital with the result that his bill reached four-figure proportions. Some little time ago, being unable to make payment, he offered the hospital his mine as security.

Samples of the ore were secured by the directors and as the specimens were rich in quality, they decided to accept the mine as security. The bill amounts to \$2500 and the directors paid in assessment, this amount covering the past two years. MacMillan had been offered \$10,000 for the mine, which is known as the Fortune claim, on Douglas Channel, near the Drum Lummon property.

Directors' Problem
Time has slipped by and MacMillan is still in the hospital and the mine is unsold. The directors

SPECIAL MUSIC IN METHODIST CHURCH

The special music by the Junior Choir at yesterday's service in the Methodist church was enjoyed by a large congregation. Miss Winnie Dobb gave a very fine rendering of "The Glory Song," and Miss Cathie Irvine "We've a Story to Tell to the Nation" with much effect. The choir sang the anthem, "The Lord is My Shepherd," H. C. Higgins taking the solo. H. C. Higgins preached the sermon taking as his subject, "Christ as a friend." Skidegate, due Skidegate 7 p.m.

PALATIAL YACHT SPENT WEEK-END IN THIS PORT

Sueja, With Capt. Griffiths, of Seattle, Aboard on Way to Anyox

The Seattle gasoline yacht, Sueja, belonging to Captain Griffiths, head of the Coastwise Shipping Co., who is on board the vessel on his way to Anyox, spent the week-end in port on her way north. On Saturday afternoon, the craft took on fuel at the Imperial Oil dock and yesterday spent the day at the Marine Depot, Digby Island, where Capt. Griffiths visited with Capt. E. T. Saunders, marine superintendent. Last night was spent at the G.T.P. ocean dock and the little ship resumed her voyage north today. The Sueja is one of the finest yachts that has ever been seen in this port.

The Coastwise Shipping Co. takes care of shipments to and from Seattle, Stewart and Anyox for the Premier Gold Mining Co. and the Granby Consolidated Mining & Power Co. Captain Griffiths is on a combined business and pleasure trip.

FIGHTING BLINDNESS

Babies' Sore Eyes Cause Is Lessening But Wood Alcohol Still Takes Toll.

NEW YORK, May 27.—The combined forces of medicine, legislation, the press, and other educational agencies are at last getting the upper hand in the age-long fight against the principal cause of blindness in childhood—babies' sore eyes according to the seventh annual report of the National Committee for the Prevention of Blindness, made public yesterday at the general office of the committee in the Russel Sage Foundation Building.

But this information is counteracted by the statement in the report that there is no abatement in the wave of blindness resulting from wood alcohol poisoning which started soon after the enactment of the Volstead law. The report says that new legislation for the prevention of blindness has been passed in seven states: Connecticut, Idaho, Iowa, New Mexico, Missouri, Oklahoma and Texas.

Babies' Sore Eyes. Discussing ophthalmia neonatorum, more commonly known as "babies' sore eyes" or "O.N." among doctors, Edward M. Van Cleve, managing director of the National Committee for the Prevention of Blindness, said:

"When we turn to a study of the situation as respects this disease, which destroys at birth the vision of thousands of babies, we find new evidence of the effectiveness of a constant educational propaganda on the subject. For more than 15 years public attention has been drawn to this cause of needless blindness. Statistics gathered during the last year show a smaller percentage of these cases among newly admitted pupils in special schools for the blind throughout America than in any previous year."

Whereas two years ago 3.2 percent of new admissions to these special schools for the blind were cases of pupils blind from "O.N.," the 1922 report of the committee shows that in the last year this percentage dropped to 1.35 percent, a reduction of almost 50 percent.

Alcohol Poisoning. Under the head of "Methanol," the new technical name for wood alcohol, the report says: "Day by day the toll of wood alcohol poisoning is taken. The wave seems to recede, only to gain new impetus. Warnings sent broadcast over the United States have undoubtedly prevented many from experiencing the tragedy of blindness, but there are still those who succumb to the temptation either through ignorance or through willfulness. The change of name to methanol has eradicated the suggestion of

"He left us nothing but debts"

Debt

Debt, grinding debt, whose iron face the widow and the orphan fear and hate; debt, which consumes so much time, which so cripples and disheartens, is a teacher whose lessons cannot be forgotten.

It is incumbent on all right-thinking people to do more than avoid debt. It is necessary to accumulate a competence for one's dependent years. If, with a definite earning power you find it hard to live within your income, how could your wife support the home in the event of your death deprived of your earning power? "Your salary stops with your pulse."

A Manufacturers Life policy provides for all these contingencies. Systematic saving will keep you out of debt, and build a competence for the sunset of life. Should you not live to old age, your life insurance will create an estate for your dependents.

Write, giving us your age at nearest birthday, and we will submit a proposition to you which will not place you under any obligation.

a beverage and a new method of preventing its use as such has lately been offered, so coloring it with methyl violet that there can be no possibility of mistaking it for the grain product, an excellent suggestion contributed by Dr. S. Lewis Zeigler. It is not uncommon for the committee to receive notices of four or five cases a day of poisoning from this cause; these give no real intimation of the many who possibly through partial immunity or because of the small amount consumed, suffer deterioration of sight rather than total blindness. The change in name from wood alcohol to methanol has had considerable psychological effect.

The committee also announces the production this year of a three reel moving picture entitled "Saving the Eyes of Youth."

EDUCATION IN RUSSIA IMPROVEMENT PAPER TRADE

V. M. C. A. Man Back From Moscow Reports on Situation Noted Both in United States and Canada by Wall Street Journal

LONDON, May 29.—The Soviet government is really trying to further education in Russia, because of the lack of supplies and above all the lack of food, "the brains of Russia are dying at present," says E. T. Colton, of Montreal, N.J., who has just returned from Moscow, where he was the Young Men's Christian Association representative on the staff of the American Relief Administration. Mr. Colton's work was confined to investigating conditions among professors and students with a view to affording them A.B.A. relief. This was subsequently given.

"There are more bona fide students in Russia now than there were before the war," Mr. Colton said. "There are many more women students than men even in the mining schools. They are short of all supplies from text books to laboratory instruments. Moreover the professors, most of whom were on the verge of starvation, had no energy left to do research or creative work. Consequently Russian education is not what it was."

Feeding Program
It was Mr. Colton who drew up the feeding program for from 7,500 to 10,000 Russian students which the A. R. A., initiated in Moscow, Petrograd and Kazan. It is confined to the two higher classes of university students, a great number of whom are married men and women, because they abandoned their studies in 1914 to go into war or war work in some form.

"We chose these," Mr. Colton explained, "because they will get closest into the productive life of Russia. We couldn't possibly do all, with our resources."

Famine Deaths
"There have been many famine deaths among professors and students," Mr. Colton declared. "There will probably be many more, because there can be no question but that as a class they are suffering greatly. For the professors to do creative work under present conditions is out of the question. The miracle is that they can work at all, and unless help comes to them quickly the best brains of Russia will die for lack of food."

C. H. Orme and E. C. Gibbons returned to the city last night after spending a few days at Lakelse.
