Oliver Replies to Criticism Levelled Against Budget by Bowser and Shows Leader up

VICTORIA, Nov. 23.—Yesterday afternoon in the legislature, Premier John Oliver replied with vigor to the criticisms of the budget made by Hon. W. J. Bowser, leader of the Opposition and others. He claimed that the criticisms lacked their usual vigor and showed the immense deficits of previous governments and their inability to borrow. Now credit and confidence in the province had been restored, he said, and it was borrowing at lower rates than other provinces. Banks had refused to lend to the Bowser government but now they were ready to lend any amount. They had never refused to lend to the present government.

FOLK SONGS TOPIC OF DISCUSSION BY LADIES' MUSICAL

Mrs. Parkin Gave Interesting Paper on Subject at Meeting in Her Home Yesterday

The origin and history of the folk songs of England, Ireland, Scotland and Brittany was the topic taken up at the meeting of the Ladies' Musical Club held yesterday afternoon at the home of Mrs. A. T. Parkin, 844 Borden Street. There was a good attendance of members.

Mrs. Parkin read a very interesting and instructive paper on the subject. It was explained therein that folk songs had been composed principally by the peasantry and were domestic rather than national songs. With the coming of clowns and burlesque entertainment the songs had been dropped to a great extent with the result that new ones were not composed although the old ones were still sung. Mrs. Parkin also referred to the Irish Shamrock and how it had become the inspiration for many airs. When Queen Victoria had visited Ireland she had requested the members of the Irish Regiment to wear shamrocks in their headgear on St. Patrick's Day. Thus was officially raised the National emblem of the Emerald Isle. Legends also stated that St. Patrick, when bringing the gospel to heathen Ireland, had used the shamrock as his example in explaining the Holy Trinity. Through the traditional love of the people for the little plant, inspiration had come for many domestic airs such as "The Wearing of the Green."

Mrs. W. E. Williams, accompanied by Miss Way, sang a folk song of Brittany. Mrs. C. L. Monroe, accompanied by Mrs. Williams, sang "Long, Long Ago," and Mrs. E. C. Manning rendered a Gaelic Lullaby piano solo.

Refreshments were served.

L.B.S.A. SPEAKER WAS HEARD LAST NIGHT

G. R. Pollock, travelling representative of the International Bible Students' Association, addressed a large meeting in the Empress Theatre last night on the subject of "Millions now living will never die." In the course of his remarks Mr. Pollock stated that many people now living would never need the services of an undertaker, nor a lot in the cemetery but if they lived through the present stress up to 1925, the prospects were good that they would never die. At some length he quoted texts from the bible to back up his statements.

Prince Rupert And Quebec Parallel Cases.

That the case of Prince Rupert in its argument for use as a trans-Pacific shipping port is somewhat paralleled in the case of Quebec is indicated in an editorial recently appearing in the Shipping and Exporting Register of Canada. Prince Rupert wants grain and other commodities shipped this way and Quebec wants to get trans-Atlantic business. Similar conditions seem to be hampering both ports. The editorial, which applies to Quebec, a Canadian National port like Prince Rupert, is as follows:

It seems that some method should be arrived at whereby the Canadian grain that is now being shipped via Buffalo could be shipped via the Canadian Government Railways. This question will probably be one that the new management of the Government lines will look into for it is certain that Canadian grain could be made a big source of revenue to the Government lines.

It seems most ridiculous that the Canadian Government Railways, for which the people of Canada are being burdened to death with taxation should be deprived of carrying Canadian grain and that the fully equipped port of Quebec, which is capable of handling large quantities of grain should be allowed to rot and suffer for business while the American ports prosper at our expense.

How Long Will The Huge Joke Continue?

The matter is a huge "joke." How many business men would allow their private interests to go to rack and ruin in this way? The entire trouble is that the railway rates are so fixed that the Government lines from the West to Quebec are unable to get this business. There is no question but the rates are favorable to the Canadian Pacific and the lines coming to Montreal.

We are not condemning the Canadian Pacific for the rates and they are saying nothing for the reason that they are full up with business and little they care what their poor competitor the Government Railway lines is suffering. Business is business and we are of the opinion that rather than let the equipment of the Government lines leading to Quebec rot, that the rates on this line should be made so low that the port of Quebec would be clogged with grain the year round.

The vast equipment of the Port of Quebec is lying idle. The people of all Canada have put their money into this port and its equipment. They have also put, and are putting, their good money into this railway line, yet we all stand idly by and see our western grain being shipped in United States vessels through United States ports and over United States railways while we go merrily on footing the deficits of our Merchant Marine and our Government Railways.

What a huge joke it all is and how long will it continue?

COMMISSION ON FISH REPORTS

(Continued from Page One).

considered the matter and recommended for adoption that on the opening of the fishing season of 1934 in District No. 2 the use of motor boats be permitted.

The commission find that the number of white men and Indians holding licenses is not in any way commensurate with the number of Orientals, and as a consequence the commission recommends that there be a reduction on all licenses issued to fishermen other than white fishermen and Indians of 40 per cent in 1933, this to include all methods of fishing, and that licenses issued in District No. 2 to other than whites and Indians be attached to the canners' permits. Local residents and returned soldiers to be given preference in all districts.

License Fees

The commission are strongly of the opinion that the present system of exacting license fees is of such a character as to eliminate progressive citizens from engaging in the industry and also bears heavily upon an industry which is already taxed to the limit. The commission feels that a person should not be called upon to pay extravagant license fees without being assured of an adequate return, and to that end it unanimously and energetically

recommends the following:

Abalone license	8 1.00
Crab license	1.00
Herring or pilchard drag-seine license	5.00
Herring or pilchard purse-seine license	5.00
Salmon drift or gill-net license	1.00
Salmon drag-seine license	20.00
Salmon purse-seine license	20.00
Salmon trap-net license	50.00
Sturgeon gill-net or drift-net license	1.00

Annual fee for salmon cannery license, we recommend shall be \$20 for said license and in addition 10 cents for each case of 48 1-pound cans, or the equivalent thereof, of sockeye salmon, and 5 cents for each case of any other species of salmon.

Drag and Purse Seines

Your committee submit and recommend for your approval that drag and purse seines should not be permitted to be operated save where demonstrated to be the only practical effective and reasonably economic method of catching fish, and in cases where purse seines and drag seines are permitted, the boundary to be moved out to not less than 1/2 miles from the mouth of the creek or stream, or further if in the discretion of the Chief Inspector it is deemed advisable. The commission most strenuously urges and recommends that in cases where drag seines or purse seines are permitted, none other than white British subjects and Indians (natives) be employed. This recommendation to be most imperatively enforced.

Licenses for cod fishing for commercial purposes to be issued without fee.

Weekly Close Time

The commission recommends that the close season for salmon fishing be in all parts of British Columbia from 6 a.m. Saturday to 6 p.m. on the following Monday of each week, provided, however, that this shall not apply to salmon trolling as provided in subsection D of section 27 of the Regulations.

In this connection the commission feels that penalties as provided for in the laws at present extant are unduly oppressive and harsh in many instances, and they therefore recommend that the law be amended so as to make confiscation or forfeiture for a violation of the laws a permissive rather than an imperative act. The commission have found that there is a great deal of fishing done during the close season and in closed areas and also the use of more apparatus than that permitted by law, and we recommend that drastic action be taken to prevent such abuses of the law.

Herring Industry

Your commission, after investigation realized the possibilities for the development of the herring industry, and would strongly recommend that the government encourage said industry by making experiments with steamers equipped as drifters, and make any other experiments which may be necessary.

We strongly recommend that a close season on halibut be enforced dating from about the 15th of November to the 15th of February in each year, and that experiments be made to ascertain the movements of said fish, the banks where said fish are to be found and as to the advisability of closing certain banks for certain periods.

Life-Saving Patrol

We recommend that in order to help fishermen in distress, that one or more boats be placed in readiness on the coast so that they may proceed to the assistance of fishermen in distress. The said boat or boats can also be used in studying the habits of all classes of fish and prospecting with regard to habits of said fish.

We strongly recommend that such a board be established and which shall consist of practical scientists who shall be located one on the Pacific and one on the Atlantic coast.

Your commission went into the hatchery matter very thoroughly and heard a great deal of evidence both from employees of the said hatcheries and men engaged in the fishing industry, both as fishermen and purchasers of fish, and we are of the opinion that most of the hatchery operations could be suspended except that two hatcheries be kept in operation to experiment with the new proposed system and that a certain amount of the moneys now spent in hatchery operations be used for the clearing of streams, obstructions in rivers

and improving the spawning grounds for natural propagation. We also recommend that the bottom of the river near Bells Gate Canyon be cleared of obstructions as the evidence goes to show that that work was not properly completed.

Extirmination Dogfish

Your commission strongly recommends that every available means be used for the extirmination of this pest, and with that end in view it submits that dog fish should be permitted to be taken with all sorts of contrivances without any restriction of any sort whatsoever. Further, the commission recommends that a bounty should be placed upon the catching of these dogfish and encouragement should be offered by way of financial or other assistance to those engaging in the extirmination of this pest and the utilization of it at all possible of the same.

Your commission recommends that there be a close season on clams either for gleaning, the selling fresh or any other purpose, the said season to be fixed as to the time deemed best for the protection of said fisheries.

Naas River Salmon

Your commission had the benefit of a conference with C. E. Garfield, representing the Alaska Fisheries Commission re the Naas and Alaska salmon fisheries and as a result of said conference your commission recommends that steps be taken with a view to having this matter dealt with between the parties interested.

"I took very sick with my nerves and stomach, and seemed to be all run down. Basketball and How to Play It

By Observer

CONCLUSION

In the course of these articles I have naturally omitted many points which might well be discussed but space limitations must be considered. Most points which have not been mentioned are well-known to all basketballers and will be suggested to the reader as he considers the points discussed.

I shall therefore summarize very shortly the various formations which can be developed by a team which does its own coaching and training and which desires to increase its own as well as the spectators' enjoyment of its play. In defense there is the one guard back defense where there is one running and one stationary guard; there is

BOILS Made Him Sick and Miserable

Mr. Richard Zelenoski, Melan, Sask., writes:—"I had been suffering continuously, with boils, for three years, and during that time I tried many different remedies without any success whatever. In spite of all my efforts I was compelled to go to the hospital. This was in the Fall of the year, and right in the busiest time of the season. Upon my return home I just took about two weeks until my neck and arms were again occupied by the boils which made me feel very sick and miserable."

One day one of my friends advised me to try Burdock Blood Bitters, and after I had used less than two bottles I was very much surprised at the result.

Word comes from Washington that Paul A. Hines, "midfielder" for the Providence baseball club of the old National League in the '70s, and for the Washington baseball club in the early '80s, was arrested last week on a pickpocket charge. He is said to have been the first major league player to make a triple play unassisted on May 8, 1878. The record is declared to be only equaled once since in major league games. Hines, who is 69 years old, told the police on his arrest, "I have played my last game and lost."

Val Cormier, better known to the smoker fans as "The Flying Frenchman" is out with a challenge to George Hutchinson, of the Prince Rupert Billiard Parlors, for a set of games, winner to be victor in three out of five. Cormier wants to put up \$100 on the match and is confident that he can take George into camp. Ben Self is willing to back the local boy to the limit and the match is expected to come off shortly. Just what the outcome will be is hard to say. Cormier had to extend himself to the utmost in the last series to win four out of seven while Hutchinson did not seem to try very hard at any stage of the game. There are plenty who will back him against the Frenchman.

Vancouver is going to have an amateur athletic club which will be on a par with that possessed by any city on the continent. This prospect has loomed up large since Bob Brown, owner of the Vancouver Beavers, professional baseball players, and his associates at Athletic Park started the ball rolling. Construction will proceed immediately 100 members are secured and up to last week 116 had been enrolled in a few days. In addition to the gymnasium, swimming tank and track facilities already planned, part of the project involves the construction of tennis courts to accommodate the large number of players in the city. Every sporting and athletic organization in Vancouver is behind the project.

Jess Willard made his first public ring performance since Dempsey defeated him three years ago, in Los Angeles last week. According to sporting writers, he failed to show class.

ELKS' SMOKER LAST EVENING

Was Usual Enjoyable Affair — Boxing, Music, Recitations and Songs

The smoker given last night by the Elks in their hall was a great success and was attended by 100 members. Several fine boxing bouts, music, songs and recitations made the program a very acceptable one. Milton Gonzales, exalted ruler, presided. Jack Keefe refereed the bouts and Lionel Holby was timekeeper.

The program was as follows:
Orchestra selection.
Three round boxing bout between Bert Kelly and George Bell, draw.
Three round boxing bout between Ralph Warrior and Jack Kelly, draw.
Three round boxing bout between Harry Gawthorne and William Stewart, draw.
Songs, Bob Dowther and Dave Gay.
Monologue, J. C. Brady.
Orchestra selection.
Recitations, Tommy Smith and Fred Hale.
Three round bouts between Tom Fraser and Douglas Frizzell and Eddie Craggs and Alex Roy, both draws.
Orchestra selection.

The affair was arranged by the entertainment committee which is made up of Fred Gilhuly, H. G. Glassey, W. W. Knight, Wm. Reid and Murdoch McLeod, whose efforts were fully successful.

A splendid supper was served, a feature of which was the smoked black cod donated by Wm. Shrub-sall.

If you had a fine dairy cow— just outside your kitchen door

At its best in cooking recipes.

Your milk supply couldn't be any sweeter, purer, or more rich and healthful than St. Charles Milk "with the cream left in".

In fact it wouldn't be as rich, because most of the natural moisture is removed from St. Charles Milk, which reduces it to the consistency of cream.

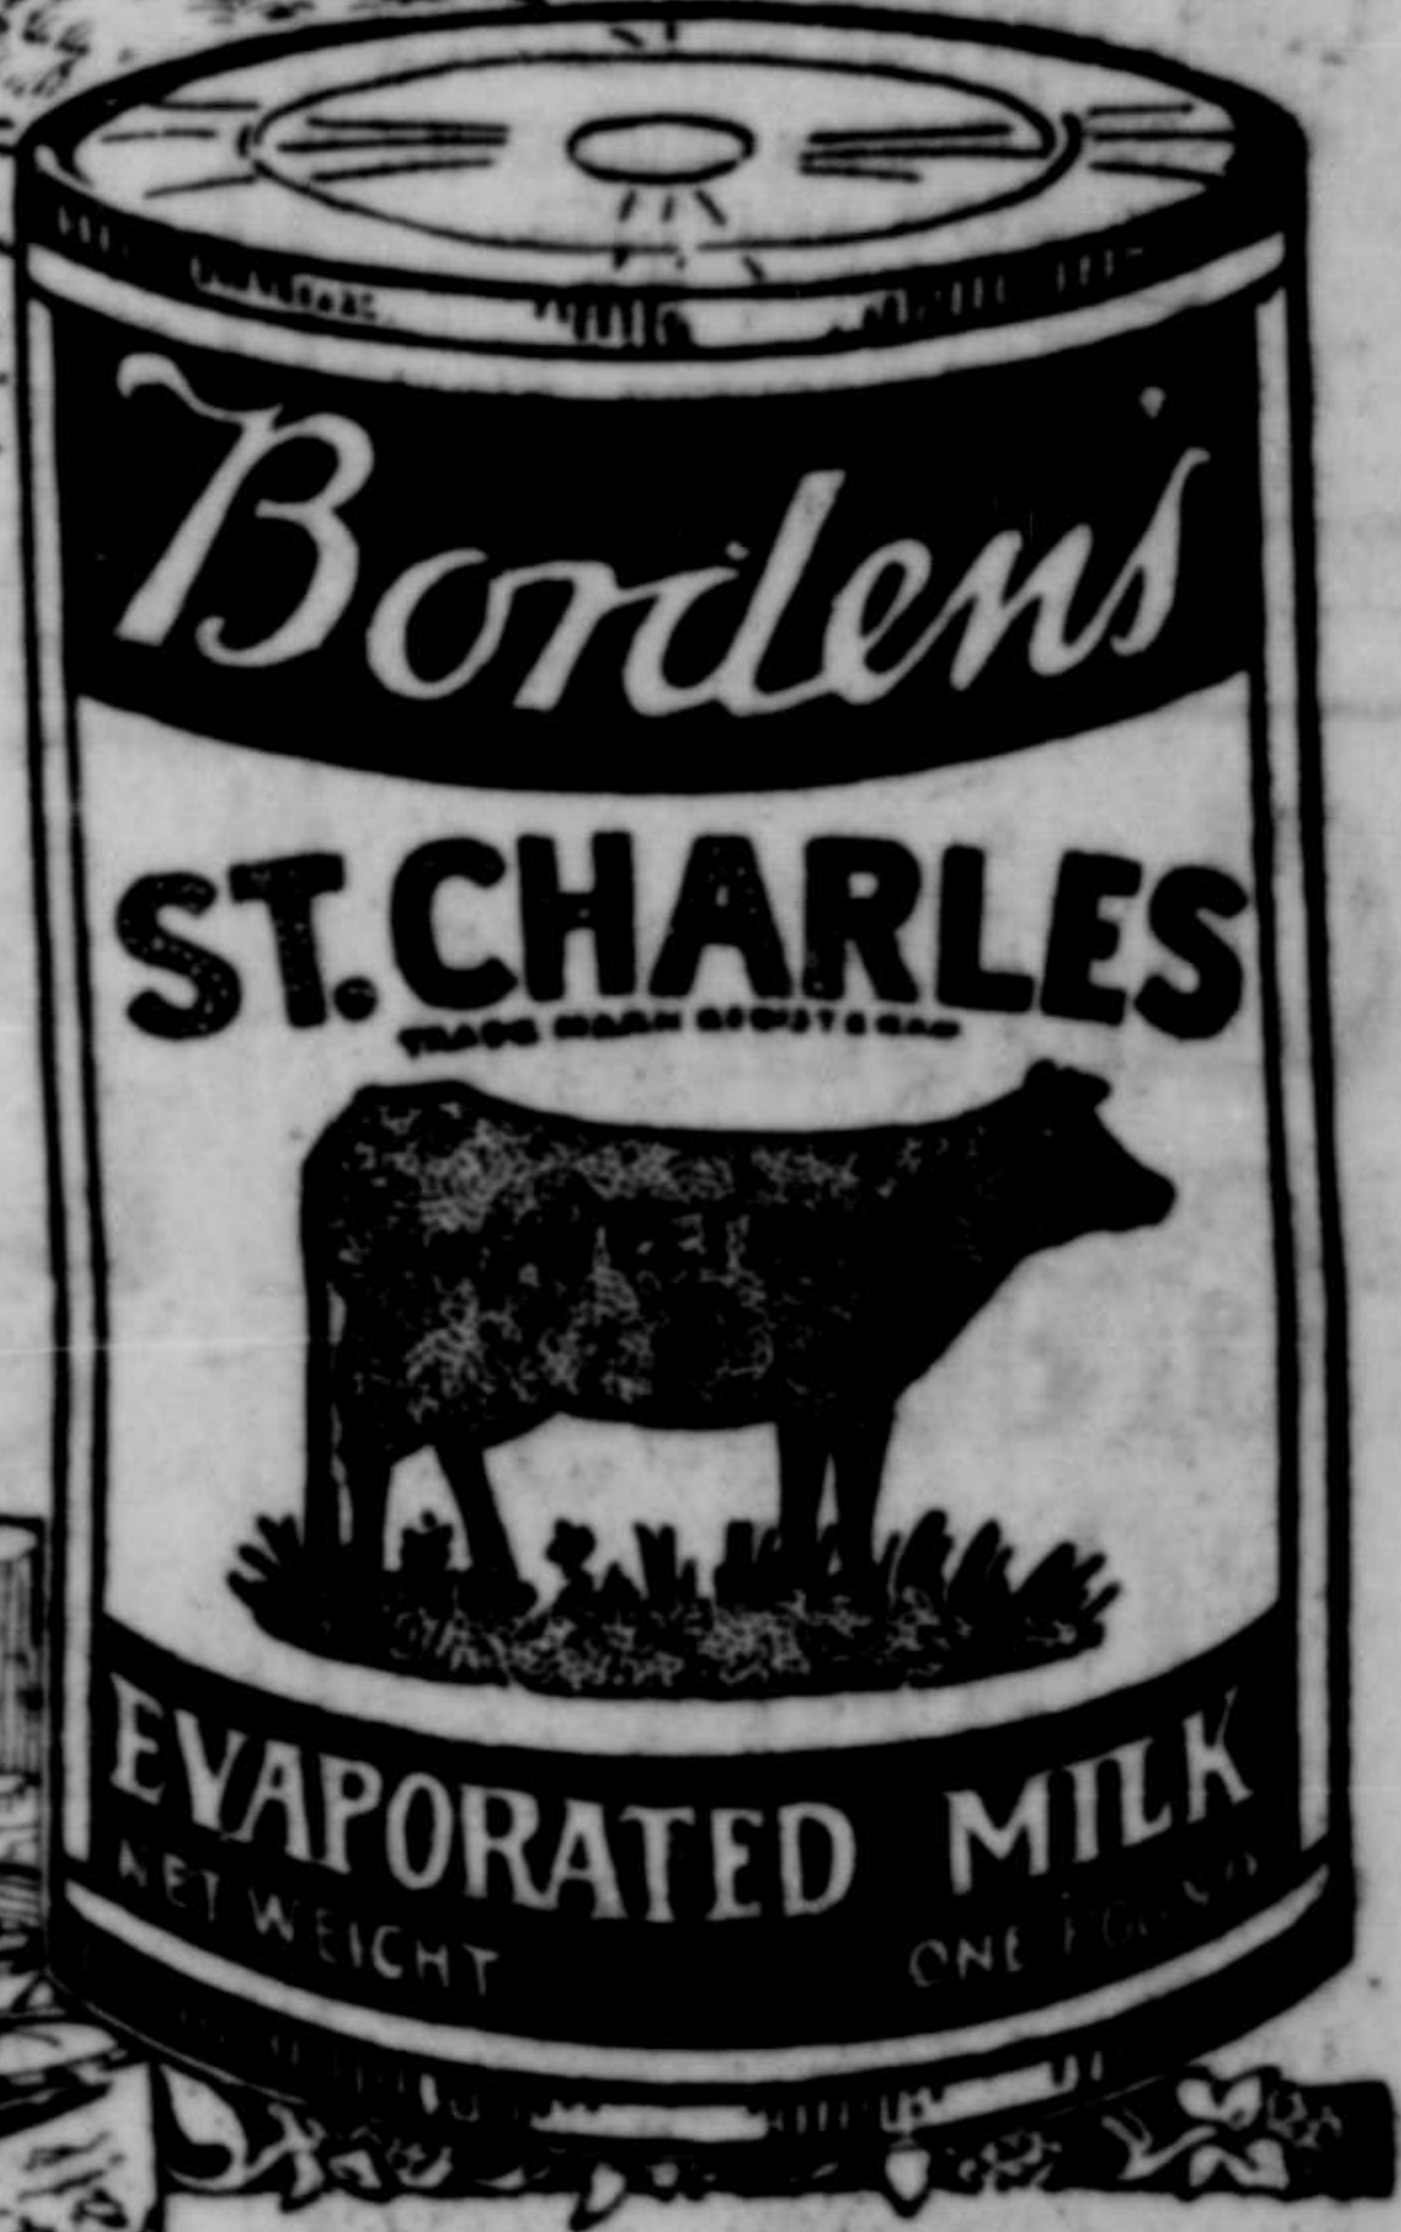

And the supply wouldn't be as convenient, for St. Charles is put up in "a size for every need". Never too much or too little.

A few tins on your pantry shelf ensure an always available supply of fresh milk from choicest dairy cows. Your grocer always has St. Charles Milk—give him your order today.

You'll find the Borden Cook-book a great help. Send for a copy. It's FREE. Address The Borden Company, Limited, Montreal.

Recipes worth saving

OYSTER FRITTERS:—Drain twenty-five oysters and chop fine. Beat two eggs; when light add one-fourth cup St. Charles Milk and three-fourths cup water; then stir in a scant pint of sifted flour; beat smooth. Salt and pepper to taste. Stir in oysters lightly, adding one-half teaspoonful baking powder. Combine well, and fry by dropping tablespoonfuls into smoking lard.

MOOSE WHIST DRIVE AND DANCE IS HELD

Jolly Crowd Casts Dull Care Aside and Enjoys the Full It's Hours of Play

A good sized crowd attended the Whist Drive and Dance given last night in the Metropolitan Hall under the auspices of the Loyal Order of the Moose. It was a jolly gathering and several hours of entertainment were thoroughly enjoyed.

Mrs. H. H. Hamilton won the ladies' consolation award, a deck of "Old Maid" playing cards, and Simon Swanson, the gentlemen's, a baby's rattle.

After tasty refreshments had been served in the banquet hall, a dance with music provided by Bob Arthur and his orchestra commenced which was fully enjoyed till the wee small hours. Joe Slaggard was master of ceremonies, Ralph Kiefober presided at the door and Mrs. H. Nation was in charge of the refreshments. The committee comprised Fred Scadden, (convenor), R. C. Chappell, Frank Cameron, Ralph Kiefober, Joe Slaggard and Jack Mussallan.

ROUGHING IT

One of the roughest players in collegiate football went West to work on a ranch. His reputation had preceded him, and the cowboys asked him to teach them the game. So, the collegian made up two husky elevens, outlined the rules, and finished with: "If you can't kick the ball, kick an opponent. Already got busy!"

"Where's the ball?"

"Oh, shoot the ball," retorted a cowpuncher, "let's get into the game."—Going-the-Rounds.

LITTLE CHILD'S LOVE RECONCILES PARENTS

Beautiful Story in "The Cradle" Featuring Ethel Clayton

In a beautiful story wherein a child's love reconciles her estranged parents, Ethel Clayton, Paramount star, scored an emphatic hit at the Westholme last night.

Financial worries cause the husband, a young doctor, to yield to the charms of another who becomes enamoured of him when he calls to attend her in a slight illness.

A divorce is agreed upon, the husband marries the other woman and the wife a lawyer who had been a former suitor.

The child stays with each parent for periods of six months. But she finds hatred and unhappiness in both households and finally is stricken with illness that threatens fatal results.

Then comes the awakening, the realization by the father and mother that the child is the living bond between them, of the mistakes they have made, and the final reunion of the little family. The picture is on again tonight.

SUFFERED SO from Heart and Nerves LIFE WAS A BURDEN

Mr. A. H. Lee, Beamsville, Ont., writes:—

"I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills do me. A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would fall away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of
