Mayor Rochester's Thanks

Ladies and Gentlemen: Words fail to express my appreciation of the splendid support you have tendered me in yesterday's Mayoralty contest.

My fondest hopes were snowed under in the avalanche of votes you piled up for me in this, my last appearance in public life.

I sincerely trust and pray that my actions may warrant your continued confidence throughout my term of office as Mayor.

Sincerely yours,
 H. B. ROCHESTER.
 January 13, 1922.

Rochester is Elected For a Second Term as Prince Rupert's Mayor

The civic electors in no uncertain voice expressed their satisfaction with the administration of city affairs during the past year and their confidence in the same administration for the coming year when they retained Mayor Harry B. Rochester to office with the handsome majority of 202 over Lieut.-Colonel S. P. McMordie, D.S.O., in yesterday's municipal election. Although it was apparent through the campaign that Mayor Rochester was the favorite, not even his most enthusiastic supporters expected such a splendid majority would be rolled up in his favor. It was the biggest surprise of the whole election.

All five members of last year's council who sought re-election were returned for another term, Ald. C. G. Perry heading the poll. The new members of the aldermanic board chosen were Roderick A. McLeod, Theophile Gollart and W. H. Montgomery, the two former making splendid runs and being elected in third and fourth places.

In the contest for the police commissionership, E. H. Shockley was elected by a good majority and polled more votes than the two other candidates, George M. Sutherland and George Leek, combined.

The \$15,000 incinerator by-law was passed by a vote of 189 to 137, the necessary two-thirds vote easily obtained for it.

Winners Congratulated. The whole election was a quiet affair, but nevertheless there was a good vote recorded, 819 persons registering their preferences in the mayoralty contest. Soon after the polls closed at 7 o'clock the votes for mayor had been counted. Both Mayor Rochester and Col. McMordie were present and when the result was known, the latter congratulated the mayor and wished him a successful year. The counting of aldermanic, police commission and by-law then proceeded and it was about 9:30 when all counting was finished.

The detailed figures were as follows:

SUPREME COUNCIL DOES NOT ACCEPT OFFER OF LEAGUE

Fisher will act as Col. Peck's agent in the course of the proceedings, which should not take more than a couple of days.

POINCARÉ TO BE PREMIER

Former President of France May Succeed Briand.

PARIS, Jan. 13.—Former President Poincaré has been asked to form a new cabinet and has tentatively agreed, pending a conference with his colleagues. Mr. Briand telegraphed Lloyd George, regretting his inability to continue conversations at Gannes and expressing a hope that his successor would take up the conferences immediately.

Causes Regret. PARIS, Jan. 13.—Premier Briand's resignation seems to have caused regret among the general public and in many political circles.

PRISONERS WELCOMED

Demonstrations in Dublin and Other Parts of the Country.

DUBLIN, Jan. 13.—Materialization of the amnesty for political prisoners in Ireland elicited more outward enthusiasm here than any other development of the peace activities. It is remarked in passing that the choice of the phrase "act of oblivion" rather than "act of clemency" in the announcement of the amnesty recognized as a happy diplomatic stroke. Dublin's citizens indulged in lively demonstrations last night, the crowds outside Mountjoy prison welcoming each successive batch of liberated prisoners. Similar scenes were enacted in other parts of the country.

New Council Have Important Work.

The ratepayers of the city have endorsed the policy of Mayor Rochester in no uncertain voice and have elected a good council. There is no reason why effective work should not be accomplished. There is much work to be done. Not only are we expecting a revival of interest here in railway and other matters, which will bring prominent people here and will make it desirable also for us to send delegations east to confer on development matters, but we shall have to do things ourselves.

If the city is to get a new lease of life, it will be necessary to keep pace in the matter of improvements, and yet there will be the necessity of keeping within our income. Mayor Rochester has had some experience along these lines already, and on account of that experience will be able to deal with the budget intelligently. This is the time when expenditures for the city are arranged. The annual budget is made up early in the year in order that the tax rate may be struck, and it is time to think about what shall be omitted therefrom.

Farmers' Support for Liberals Real.

There seemed some doubt in many minds as to whether the Liberals would get the real support of the Farmers in the Dominion Parliament. Apparently they have been promised it, according to the statement made by their leader, T. A. Ceerar. With that big vote behind them, the Liberals will be very strong, but depending on that big vote they will to some extent lose their independence and the legislation they introduce is likely to be strongly influenced by the farmer vote of the west. It will have to be. Happily the Liberal and Farmer ideals are practically the same and there is no reason in the world why they should not work well together as long as petty jealousies do not creep in. Unfortunately legislators have those human traits which sometimes causes them to consider other things than policies and other things than the public welfare. The announcement of Mr. Ceerar is reassuring, however, and tends to make for stability of government.

Settle Country With White People.

The interview given by J. F. Hanna following a visit to Japan, in which he urges the settlement of British Columbia with a white population, is very interesting and timely. Mr. Hanna spent several months in Japan and he saw a good many things. He studied conditions and as a result of his observations he urges settlement of the province by Europeans. While Mr. Hanna has nothing but admiration for the sturdy Japanese, he is opposed to the attempt to mingle the races, a system which has not worked to the advantage of either.

Mr. Hanna is quite in line with popular opinion today. It is realized everywhere that white immigration to this country is desirable and anything the government may do to bring it about will be greatly appreciated. Possibly there will be co-operation between the Ottawa and Victoria governments working with the British Government to settle up Western Canada with selected immigrants who will help change the natural potential wealth of the country into real wealth.

Premier Briand Has Resigned.

It is too early yet to comment on the resignation of Premier Briand. It is sometimes difficult for us to understand the Latin temperament, but we are becoming better acquainted. Possibly it will take years to understand it. For centuries we fought the French. Now we are endeavoring to live peaceably beside them and endeavoring to co-operate. Allowances must be made for the French viewpoint on the relations with Germany because of the fact that France was invaded whereas Britain and Canada were immune.

 The Paper that gets Quick Results

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

WAS FIRST WEDDING IN PRINCE RUPERT

Captain and Mrs. Roberson Were Married Here by Bishop du Vernet in 1908.

Captain and Mrs. Roberson, who are to leave the city before long, were the first couple to be married in Prince Rupert. They were married by Bishop Du Vernet in St. Andrew's Church on June 1, 1908. The account of the wedding published at that time follows:

The first marriage ceremony performed in Prince Rupert took place in St. Andrew's Church on Monday afternoon, when Captain Harold Langhorne Roberson, formerly of Bayford, England, and Miss Marian Lingen Burton of Shrewsbury, England, were married by Bishop Du Vernet. H. G. Munro was best man and Misses Pillsbury and Betty Harrow made very pretty bridesmaids. Miss Burton, who arrived from England ten days ago, was given away by A. R. Barrow. The bridal party and invited guests were entertained by Mr. and Mrs. Barrow at their household, to which they were conveyed in launches gaily decorated with flags and bunting. After the wedding breakfast, Captain and Mrs. Roberson left for a honeymoon cruise around the islands in the launch Constance, of which Captain Roberson is skipper.

ANNIE BESANT ON ATROCITIES

Opposes Gandhi's Plan for Settlement with Moplah's of Malabar.

Mrs. Besant has made a crushing reply to an "appeal" issued by Mr. Gandhi to Moderates as well as non-cooperators to "compel the Government to suspend hostilities in Malabar and issue a promise of freedom for the Moplah depredaters, upon their undertaking to surrender and to permit non-cooperators to enter Malabar to persuade Moplahs to surrender," says the London Times.

While admitting that the forcible conversions "are terrible," Mr. Gandhi says that the Moplah bravery must command admiration; that the Moplahs are fighting for what they consider is religion, and in a manner which they consider is religious; and that Indian opinion must not "permit the extermination of such brave people."

The answer of Mrs. Besant is the more effective since she has been visiting the disturbed district. She says that Moderates cannot respond to Mr. Gandhi's appeal since their sympathies are not with "the murderers, the outers, the ravishers, who have put into practice the teachings of paralyzing the Government of the non-cooperators." Men who consider it "religious" to murder, rape, loot, to kill women and little children, cutting down whole families, have to be put under restraint in any civilized society. She says the misery she has witnessed is beyond description.

Girl Wives.

"Girl wives, pretty and sweet, with eyes half-blind with weeping, distraught with terror; women who have seen their husbands hacked to pieces before their eyes, in the way Moplahs consider as religious; old women tottering whose faces become written with anguish and who cry at a gentle touch and a kind look, waking out of a stupor of misery only to weep; men who have lost all, hopeless, crushed, desperate. I have walked among thousands of them in refugee camps."

"Eyes full of appeal, of agonized despair, of hopeless entreaty, of helpless anguish, thousands of them—camp after camp. 'Shameful inhumanity' indeed, wrought by the Moplahs, and these are the victims, saved from extermination by British and Indian swords. For, be it remembered, the Moplahs began the whole horrible business; the Government intervened to save their victims, and these thousands have been saved. Mr. Gandhi would have 'hostilities suspended'—so that the Moplahs may sweep down on the refugee camps, and finish their work."

Fighting in the Hills.

The latest news concerning the Moplah rising indicates that the rebels are being driven to the hills in the North of Malabar, where they have divided. One of these gangs apparently have raided into the Nilgiris district, where they attacked a police post, killing three of the police and wounding five.

IN THE LETTER BOX

Editor Daily News:—The whole world is appalled by the reports concerning conditions in Russia. There is a certainly that thousands are starving in that country. There are few who are not anxious to do something to relieve the situation there, but, rightly or wrongly, many of such are not satisfied to send relief through Soviet channels.

To such may I say that there is a British Relief Fund under British control. The patrons of this fund are His Eminence Cardinal Bourne, His Grace the Archbishop of Canterbury and the Rt. Hon. Marquis Curzon, K.C. The chairman of the committee is Lord Weardale, 26 Golden Square, Regent Street, London, W.C.

Any one wishing to help in this present matter can hand over their contributions to W. D. Vance, city treasurer, who will forward them to the above named organization.

HOW VOTE GOES IN VANCOUVER

Tisdall Leading for Mayor—Croce and Owen Returned Council—Bylaws Carry, Turned Down.

VANCOUVER, Jan. 13.—Ald. C. E. Tisdall is leading in the mayoral election count but is only ahead of Ald. J. J. McRae by about 100. The quota necessary for election is 5118. Tisdall received 3614 first choice votes, McRae, 3996; Taylor, 1991; Kirk, 1604, and Lutzgar, 127.

Ald. Croce and Ald. Owen were returned to the council on the first choice votes and indications are that the other six members of last year's council who are running will also be elected.

The Daylight Saving and Water Bylaws carried but several other bylaws including three for school buildings were snowed under.

Little interest was shown in the contest and between 10,000 and 14,000 of the 44,000 voters on the list registered their preferences.

WARREN VISITS PORT ON TRIP OF INSPECTION

General Manager of C. N. R. Non-Committal but Favorable as to Future.

A. F. Warren, general manager of the Canadian National Railways, spent yesterday afternoon and evening in the city in the course of a trip of inspection over the western lines.

Mr. Warren said that the railway company intended to keep the local dry dock in operation and stated that it was out for all the business that was offering.

Mr. Warren said that the railway company intended to keep the local dry dock in operation and stated that it was out for all the business that was offering.

Coal Bunkers. The general manager confirmed the information that the Canadian National Railways had arranged for a site at this port for coal bunkers.

In regard to the intention of the company as to the further development of this port and the line of railway, Mr. Warren said that this was a matter entirely up to the government.

Up to Government. Though non-committal to a degree, Mr. Warren seemed very favorable to this port and this section of the railway.

own department a million dollars a year had been added by reason of better organization.

No Need to Worry. The interest and other expenditures on the P.G.E. cost three and a half million dollars a year and the interest and sinking fund on the other bonded indebtedness of the province was also a large item.

Mr. Pattullo told of what had been done in the irrigation belt where a million and a half dollars had been loaned to settlers for conservation of water supply and already of the first payment due on December 1st last, amounting to \$120,000, no less than \$118,000 had been promptly repaid by the borrowers.

Mr. Pattullo said that the government had expected to lose money on land settlement. The condition following the war had been abnormal and prices were at the peak.

There was large expenditure of mothers' pensions and the money for this had to be raised from taxation but no one regretted that.

Importance of Timber. Mr. Pattullo then told of his trip to the Old Country to try to stimulate immigration and to look up markets for the sale of timber.

From these figures it would be seen how important was the timber industry. A good deal of business had already been secured.

When the liver becomes slow, sluggish and torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system.

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearse, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and they strengthened and built up my system splendidly, completely relieving the pain in my head."

SUPERB PHOTOPLAY WESTHOLME TONIGHT

Cecil DeMille's Luxurious Play "The Affairs of Anatol."

Subtles of epigrammatic brilliance are taken for granted in a Cecil B. DeMille production following the high mark set by the subtiles in "Why Change Your Wife?" "Something to Think About" and "Forbidden Fruit." However, "The Affairs of Anatol," the latest production of the famous producer, which will be the feature at the Westholme Theatre tonight, is said to excel all previous efforts in this respect.

Jeanie Macpherson, author of the story, is responsible for these subtiles and to her goes the credit for their scintillating phraseology, thought and wit.

"The Affairs of Anatol" is a searching analysis of the matrimonial and divorce problem handled with the mastery which is Cecil B. DeMille's chief distinction. He has developed a powerful story that deals in real truths, it is said, and to this he has added a sympathetic comedy note that serves to relieve the serious vein of the story without in any way detracting from the power or vividness of the central theme. Wallace Reid and Gloria Swanson head an all-star cast in this picture.

The effect of these subtiles is materially increased by the symbolic art work which decorates the subtiles. This art work is from the brush of Paul Iribe, the famous French artist and designer, who is now serving as art director for Cecil B. DeMille productions. His color on the screen is secured by the quadri-color process, which is the exclusive property of Paramount Pictures and which has been developed under the direction of Loren Taylor.

PRETTY WEDDING HERE YESTERDAY

Miss Violet May Snow Becomes Bride of William Bussey.

Two Newfoundlanders were married here last night when William Bussey of Port-de-Grave, who has resided here for the past two years, took for his bride Miss Violet May Snow of Clarks Beach, Newfoundland, a lady who has just arrived from Montreal. The ceremony took place at the home of Mr. and Mrs. Isaac Lear, Tenth and Bacon streets, at 5:30 p.m., Rev. G. G. Hacker officiating, and this was followed by a sumptuous wedding supper.

The bride, who was beautifully gowned in ivory crepe de chine, was attended by Miss Rita Scherk as bridesmaid. The room was beautifully decorated, the ceremony taking place beneath an evergreen arch. Chrysanthemums and carnations were used in the decorative scheme.

The gift of the groom to the bride was a gold brooch with a diamond setting; to the bridesmaid a crescent brooch with pearl setting, and to the groomsmen a nugget tie pin. The bride's gift to the groom was a pair of gold cuff links.

Among the guests at the wedding supper were Mr. and Mrs. B. Newell, Mr. and Mrs. H. Lear, Miss

Rita Scherk, C. Atkinson, Mr. and Mrs. J. Scherk, Mrs. D. Scherk, Daniel Porter, and Mr. and Mrs. Chester Scherk. Instrumental and other music followed the supper. Many valuable and beautiful presents were received by the happy couple.

RUSH IN PARIS RUSSIAN RELIEF

PARIS, Jan. 13.—Russians anxious to send food drafts to relatives in Russia fairly overran the office of the American Relief Administration which recently opened here to enable them to do so.

Members of the former Russian nobility gubbed shoulders with Russian peasants in the effort to obtain one of the \$10 drafts before they were exhausted.

There were many cases in which Russians who had not seen their relatives for years and had lost all track of them brought their savings to the American office and begged the staff to try and find and send food to them. In all cases the money was accepted and assurances given that the persons would be found or the money refunded within three months.

W. P. Armour, of Anyox, reached the city on the Prince Rupert last evening.

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

THE COUGH with that Ticklish Sensation

A little tickling in the throat, now and then a dry, hacking cough; you think it is not bad enough to bother about, but every hack makes a breach in the system, strains the lungs and prepares the way for more serious trouble.
How many people have had a good night's rest by that nasty, tickling, irritating sensation in the throat? The dry, harsh cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all.
DR. WOOD'S NORWAY PINE SYRUP
Is just the remedy you require to stop that irritating, tickling cough on account of its soothing, healing and expectorant properties.
Mrs. P. Johnson, Port Alberni, B. C., writes:—I have suffered for years, off and on, with a tickling cough. I could not sleep nights and had to sit up in bed to get relief. In fact, I coughed so I used to vomit. I tried different doctors' prescriptions until I heard of Dr. Wood's Norway Pine Syrup. I tried it and found great relief after I had taken the first bottle and have not been troubled since. I shall always keep it in the house.
Be sure and get "Dr. Wood's" when you ask for it. Price, 35c and 60c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.
