BRITISH UNIONISTS ENDORSE BONAR LAW

OPPOSITION TO SOVIET LEADERSHIP IS FINALLY WIPED OUT IN SIBERIA

Andrew Bonar Law Officially Enters Political Fight When Elected Leader of Unionists

LONDON, Oct. 23.—Andrew Bonar Law, who was recently called upon by the King to form a Government and who delayed taking action because he was not the accredited leader of the Conservative party in Britain, was unanimously elected leader of the Unionists at a meeting today.

This action of the Unionist party is in line with constitutional usage which requires that the premier shall be the accredited leader of the predominant party in the House of Commons.

Bonar Law, on leaving the Unionist meeting, told the newspapermen he would accept the task of forming a ministry. The meeting was attended by 439 members of the party including 152 peers.

Law was proposed for leadership by Earl Curzon, minister for foreign affairs in the Lloyd George cabinet. The nomination was seconded by Stanley Baldwin, president of the board of trade. His election enables Law to accept the task of forming a cabinet, thereby giving Britain her first Conservative prime minister since 1905. It is understood that the new cabinet is virtually complete.

Will Define Policy

The premier designate did not define his policy before the meeting, according to reports obtained from the gathering, but intimated that he would do so in a speech at Glasgow next Saturday.

Mr. Law expressed the hope that the coalition unionists, who had voted against the resolution passed at the Carlton Club last week for a return of the party to independence, would join their Unionist brothers and go to the country as a united party. Law arranged for an audience with the King at 5:30 this afternoon.

In an address Law declared this was not the time for introducing large schemes which might be beneficial to the empire, however dear such might be to his heart. He added he should rather hope for a period of quietness than one of fierce controversy. His reference is supposed to have been to tariff reform.

Mr. Law declared the Irish constitution must be carried out.

Referring to Lloyd George, Bonar Law said he was sure they would have a "pretty tussle but he hoped they still would be friends afterwards."

KITSUMKALUM LAKE YOUTH MEETS DEATH

Remains of Robert Smith Found in Water With Head Half Blown Off

Robert Smith, aged 17, was accidentally shot and killed at Kitsumkalum Lake near Terrace according to advice which was received today by the local provincial police office from Constable Mancor of Terrace. Smith's remains were found at the lake with the head blown off and the body partly in the water.

Later investigation by Constable Mancor established the fact that death had been entirely accidental, the youth's parents being satisfied to this effect. The remains are being brought to Terrace and the tragedy is being fully investigated.

STRIKE THREATENED IN SOUTH WALES FOR CLOSED SHOP SYSTEM

LONDON, Oct. 23.—Union miners have posted notices throughout South Wales mining districts that general strike of miners will take place in a fortnight unless the non-union miners join the federation and 100 per cent membership is obtained meanwhile.

CITY REFUSES TO PAY BILLS

Matter of Continuing Work on Booth School Will Come Before Council Tonight

On Saturday the finance committee of the city council on the advice of the city solicitor refused to honor checks issued against repair work at the new school, the appropriation made by the city council having been exceeded. It is understood that the matter will come up for discussion at the city council meeting this evening when members of the schoolboard will be present. At the same time it is understood there will be a report made on the present condition of the Booth school building.

Examined Building

Mr. Jeffers, seen this morning, said he had examined the building yesterday and there were five places where water came in last year. He believed that there was not yet enough waterproofing on the bricks. Where the walls were covered with stucco the water did not come through.

This morning Mr. K. Jeffers again visited the building and found a leak where water came in from the wood outlooks holding the cornice. This showed plainly that the bricks were still taking up water.

FIFTEEN LOST THEIR LIVES IN FIRE AT NEW YORK TENEMENT

NEW YORK, Oct. 23.—Fifteen persons, most of them children, lost their lives in a fire which destroyed a tenement building. It is believed to have been started by a fire maniac.

HALIFAX M.P. DIED

HALIFAX, Oct. 23.—Edward Blackadder, M.P. for Halifax, died on Sunday. This is the third vacancy in the House of Commons at Ottawa.

TRUE BILL AGAINST SECTION FOREMAN

Constantine Duralis Was Indicted by Grand Jury at Supreme Court Assizes This Morning

A true bill was brought in by the Grand Jury at the Supreme Court Assizes this morning against Constantine Duralis who is charged with attempted rape and indecent assault against Mrs. Alexina Boudais at Doughty Station on September 22 last. Assizes are a railway section foreman. L. S. McGill of Smithers, is counsel for the defence. The hearing is proceeding this afternoon.

SUNDAY CONCERT PROVES SUCCESSFUL

Count Scheda Party Given Good Reception at Westholme Theatre

In spite of the unusually inclement weather which prevailed last night the special musical concert in the Westholme theatre given by Count Scheda and artists was a pronounced success, a large and appreciative audience being present. The artists were very indulgent and gave many encores with apparent delight.

The concert opened with pianoforte solos by Daniello Popovich, whose execution of the difficult masters brought forth rounds of applause. His selections included Sonata, B flat minor, by Chopin; In a three Horse Sleigh by Troika Tschalkowsky; as an encore Mr. Popovich gave "Turkey in the Straw," Country Gardens by Grainger, and the Prelude, G sharp minor by Rachmaninoff concluded his excellent turn.

Andre Jovovich, the eminent Serbian baritone, gave a splendid selection of vocal numbers including Le Cor Flegeois; Toreador Song from "Carmen"; and the Blind Ploughman by Clarke. As encores he sang Solo Mio; My Cousin Carus and a Serbian March. The applause of the audience proved that Mr. Jovovich's performance was highly appreciated.

Count Scheda, was perhaps the favorite of the evening with his violin. He played Nel Carpio non Misento by Paganini; Scottish Caprice by Carl Guhr, and the Polish Dance by Wieniawski. As encores he played Cavatina by Rimowski, Home Sweet Home and Ave Marie. The execution of his popular program stamps the Count as a star in the firmament of the world's violinists.

The Count Scheda Concert party will leave for Anyox on Wednesday night.

LADY DECAPITATED CAUGHT UNDER CAR

SASKATOON, Oct. 23.—Miss Helen Bird, aged 21, of Saskatoon was decapitated when an auto overturned and the running board descended across her neck. Her mother, who was also in the car, was seriously injured.

CANADIAN NATIONAL DIRECTORS GO EAST AS FAR AS QUEBEC

The board of directors of the Canadian National Railways who were touring the west came only as far as Jasper when they returned east without entering British Columbia. They are going direct through to Quebec. Word has been received here to that effect.

While there is no information to hand it is understood that the action of the directors has been influenced largely by a desire to meet the new president on his arrival in Canada and to bring him with them when they make the inspection in British Columbia.

DEMAND FOR MEN CENTRAL CANADA

WINNIPEG, Oct. 23.—Work for 3,000 men in the lumber camps is available at the present time, while more will be needed directly winter sets in, declared officials of the Employment Service of Canada. The demand for agricultural workers for post-harvest work remains unchanged, but the call for men in the building and construction group is quieter, painters and builders' laborers being the only class of laborers required at the present time, it is said. More than 500 men were transferred outside the province by the local bureau during the week, practically all being sent to the bush; about 60 construction workers were sent to work at Keewatin and Kenora.

LYMAN ABBOTT DIED SUNDAY

Famous Editor and Preacher Passes Away After Active Life

NEW YORK, Oct. 23.—The famous editor and preacher, Dr. Lyman Abbott, passed away here yesterday, aged 87 years.

Dr. Abbott was one of the most famous editors and religious writers of his day. He was the successor of the late Henry Ward Beecher as pastor of Plymouth Church, Brooklyn, and was an exponent of Liberal religious thought. As editor of the Outlook he is perhaps best known to people on this continent. His series of articles some years ago on "The Theology of an Evolutionist" caused a great stir in religious circles when the evolutionary concept was not as popular as it is today. He is the author of many books and up to quite recently contributed articles to the Outlook.

RUSSIAN CRUISER LOST IN BALTIC SEA

RIGA, Oct. 23.—The Russian armoured cruiser Rossya and Grombo and several other vessels was lost in a storm which swept the Baltic Sea.

TRAIN COLLISION

BUCHAREST, Oct. 23.—Thirty people were killed and 85 injured in a train collision near here.

FOUND GUILTY LESSER COUNT

Jury Finds McEachern Guilty of Unlawfully Wounding Mate Matthews of Whaler

A verdict of guilty of unlawful wounding with a recommendation for leniency was returned by the jury in the Rex vs. McEachern case at the Supreme Court Assizes before Mr. Justice Murphy this afternoon and adjournment was made until the end of the session when sentence will be pronounced. The taking of evidence and argument of counsel was heard this morning and the judge's charge was made just at the noon hour. The jury returned with its verdict shortly after 2 o'clock this afternoon. Archie Donaghy conducted the case for the crown and Milton Gonzales, of William & Gonzales, appeared for the defence.

Robert W. G. Cameron, jeweler, gave evidence as to the rifle that was produced in court and with which the shooting was alleged to have been done. It was a short Lee-Enfield as was used in service in the recent war.

Evidence of Accused

McEachern, the accused, gave evidence on his own behalf. Previous to enlisting in 1915 he had been a tailor. He had followed that calling on his return from overseas until last spring when there had been domestic troubles and he had gone to Victoria to find work that would take him away from "civilization." He had obtained a job on a whaling boat and had got along well with the captain, officers and crew. There had never been trouble or ill feeling. On August 24, the date when the shooting took place, he and other members of the crew had gone ashore at Massett to get tobacco and clothing. At the store Raybone had noticed some lemon extract and they had purchased a bottle. This they consumed and went for more, considerable of which was drunk.

Accused said he did not remember sparring with Raybone on the wharf nor had he remembered anything about the shooting. The first thing he remembered was waking up in a strange house in Massett, that of Constable Singer. He had asked Mr. Singer how he got there and he was told he had shot the mate of the boat and jumped overboard. That was the first he knew of the shooting.

Regarding the increase in wages, he had spoken to the captain about it but there was no ill feeling. He had no reason or motive for wanting to shoot the captain or the mate. He had got along well with both.

Addresses Jury

In addressing the jury, Milton Gonzales, counsel for the defence, dealt with the clean record of the accused before the war, during service and since. Accused had not been sober that was evident. It could not be believed that accused had shot with intent.

A. Donaghy, counsel for the crown, suggested that accused had not been drunk enough not to know what he was doing.

Mr. Justice Murphy explained the counts to the jury. The charges of attempted murder and attempt to commit grievous bodily harm required proof of intent. If there was a doubt of the intent, it would be the jury's duty to find the accused guilty of wounding, about which there had been little controversy.

Soviet Wins Out in Eastern Siberia and People There are Awaiting Their New Rulers

VLADIVOSTOK, Oct. 23.—The curtain has been rung down on the final scene in the Russian revolution. Those who defended this port, the last outpost of opposition to Soviet rule are departing. In the final struggle a few hundred persons were killed and the people are sitting back waiting for their new rulers, the soviet leaders of the Far Eastern Republic, better known as the Chita Government, to arrive.

The soviet progress was held back for a long time by the presence of the Japanese but they were recently withdrawn and the soldiers of the old regime were powerless to meet the advancing foe.

By many the change is welcomed as promising to settle the troubles in Eastern Siberia and making it possible for the country to settle down to a period of quiet in which trade and commerce may be restored.

AMERICANS WON RACE

Schooner Henry Ford Two Minutes Ahead of Bluenose at Finish

GLOUCESTER, Oct. 23.—Schooner Henry Ford won the schooner race today by about two minutes.

Schooner Henry Ford, the challenger, and the Canadian fishing boat Bluenose, the international fishing schooner champion, got away this morning in a good breeze in the first official race for the trophy.

Prior to the start the skipper and crew of the Henry Ford declared they would not start because Saturday's race was not recognized by the committee, but they were prevailed upon to start after the committee had ordered them to do so.

At the first mark the Henry Ford was 45 seconds ahead of the Bluenose.

Crew Angry

Only part of the regular racing crew of the Henry Ford, which won the Fisherman's boat race to day was aboard the winning vessel. The whole crew was angry at the ruling made after Saturday's race, which deprived them of victory, when the race was classed as unofficial because both boats ignored the committee's postponement signals.

Captain Morrissey, of the Henry Ford says Captain Walters of the Canadian boat told him today that he would be willing to consider the Cup won by America if the Henry Ford won again today.

Appeals made by Secretary of the Navy Denby induced some of the crew to go aboard with Captain Morrissey, while others were recruited from the wharves. The committee had announced that if the Henry Ford did not appear at the starting post, the Bluenose would go on without her.

Later

Unofficial time given is Henry Ford 4 hrs. 1 min. 35 secs. Bluenose 4 hrs. 13 mins. 50 sec.

Drunkenness was no excuse for crime but if the intoxication removed the possibility of intent then those counts would be removed.

The jury then retired and returned with the verdict as given.

PROHIBITION INJUNCTION

Judge Refuses to Make it Permanent But Allows Appeal to Supreme Court

NEW YORK, Oct. 23.—Federal Judge Learned Hand today dismissed a motion for a permanent injunction brought by Foreign and American steamship companies restraining federal prohibition agents from putting into effect the bone dry ruling of Attorney-General Daugherty. He extended the stay temporarily, however, providing the steamship companies file an immediate appeal to the United States supreme court.

25 FOOT TIDE ON SATURDAY AFTERNOON

No Damage is Reported Along the Waterfront Either From This or The Storm

The usual monthly high tide and a southwest wind tended to make the water of the harbor unusually high on Saturday afternoon when the variation between low and high water was 25 feet. This was not as high as on September 22, however, when the variation was 26 feet. No damage is reported along the waterfront either from high tide or the storm of the week-end.

STRANDED ON MUD NEAR METLAKATLA

Three Local Sportsmen Have to Stay Out Late in Inclement Weather

There were at least three people who did not enjoy the driving rain last evening. The three were Charles Starr, William Nelson and S. K. Campbell. They went to the Salt lagoon yesterday in search of ducks, and anchored outside on the flats this side of Metlakatla. The tide was a very low one and as it went out it left the boat stranded on the mud and there it remained until much later than the hunters intended. They arrived home this morning before daylight.

STEVE KING HOME WITH HIS BRIDE

Married Miss H. Smith at Bognor, Sussex, England, on September 20.

Steve King arrived home today on the Princess Mary with his bride who was formerly Miss H. Smith. The wedding took place on September 20 at Bognor, Sussex, England, and the couple crossed the Atlantic on the steamer Montcalm. Pending the taking up of a permanent residence in the city, Mr. and Mrs. King are staying at the Prince Rupert Hotel.

DAILY EDITION

Monday, October 23, 1922.

International Yacht Races.

The international yacht races for fishing boats on the Atlantic have been attracting attention all over the continent. Here people have been inquiring for news for many days. It is looked upon as an important event in sporting circles.

The suggestion has been made that a contest might be arranged for fishing boats plying out of Prince Rupert. A purse might be made up to present a substantial prize to the halibut boat making the quickest run to the banks and getting its catch back to port. All those taking part would have to leave the same day at the same time. They could go anywhere they wished but it would be obligatory to bring back a certain amount of fish, based on the classification of the boat. Each boat taking part would have to carry an official who would see that everything was done fairly. Such a race would attract attention all over the world and if prizes of say \$2,000 and \$1,000 were given they would be worth competing for. From a sporting point of view and also from a fishing point of view nothing would advertise the city as well and the cost would not be large. It might be run in connection with the fall fair next year. It would be the most pretentious and spectacular event of the year and would be talked of all over the world. Pictures of the boats would get into the London and New York newspapers and illustrated journals and magazine articles would be written about it. It might be worth considering.

Need Of Elevator At This Port.

Vancouver newspapers have been campaigning with a view to securing more grain elevator accommodation at that port. In that they are quite justified. It has been shown that grain may be shipped from this coast successfully and that the Orient is gradually demanding Canadian wheat. This all being true, Prince Rupert has a right to a grain elevator just as much as Vancouver. We are not suggesting we should get it instead of them. All we are asking is that we shall get our share and that the new railway board will give attention to the situation in which we are placed.

We are quite aware that we have a good advocate on the railway board, but we are not quite satisfied that we should leave everything to him. The persistent agitation of Vancouver may possibly make itself felt in political circles so that we may not get just that amount of consideration from the railway which is our due. Money for improvements by the railway has to be voted by the government and it is to them as well as to the railway directors that we must look.

Empire Exhibition Worthy Of Support.

Canada will undoubtedly take part in the Empire Exhibition and it is to be hoped it will be on such a scale as is consistent with the importance of the country. While there should be no lavish display or attempt to spend Canadian money extravagantly, there can be a good exhibit staged without any outrageous cost. We cannot afford to pass up the advertising effect of such an exhibition as that is bound to be.

Many Canadians will visit England during the exhibition and they would be ashamed to find their country occupying anything but an important place at this big event.

All the other parts of the Empire are to be well represented and the Canadian Government will be well advised to see that this part of the Empire has its share of publicity.

Civic Expenditures Are Being Discussed.

From one end of Canada to the other, civic expenditures are under fire. Prince Rupert's case is not an isolated one although it must be admitted it seems to be an aggravated one. There is a general campaign against luxurious expenditures. People who are criticizing are of the opinion that no expenditure should be made unless it can be shown that dividends will accrue.

So far as we have been able to discover there is no town in Canada of the population of Prince Rupert where the expenditures are anything like as high as they are here. This has no reference to the city utilities, the accounts for which to a large extent are kept separate. The general expenditures of the city here are about double the expenditures on other cities or towns or municipalities. This is not owing to the physical conditions but owing to extravagant methods and tastes.

Beware of SORE THROAT PEPS Your Best Safeguard.

BECAUSE the throat is "the highway to the lungs" you should take Peps immediately it feels tender, sore or inflamed.

Peps are the wonderful healing and infection-killing medicine which you breathe from pleasant dissolving tablets down the air-passages into every nook and corner of the bronchials and lungs. Peps quickly relieve pain and irritation. They

Exterminate Germ Trouble, strengthen and protect the throat and bronchial tubes, and prevent the development of winter cough, bronchitis and asthma.

Peps are safest for children and adults. They contain no opium, chloral or other nerve-depressing drug, nor any formalin or similar throat-parching chemical found in common tablets.

Peps

INFECTION-KILLING TABLETS

Peps are commended to the highest terms by Dr. Gordon Stables and other eminent medical men. They provide the pleasant, speedy and safest of remedies for prevailing throat and chest affections. Make yourself secure against germ attack. Provide yourself with a box of Peps today. See - all druggists.

Ten Years Ago in Prince Rupert

Oct. 23, 1912 The Rev. Canon J. H. Keene of Metlakalla, who has been visiting in the south for the last few weeks, returned this morning on the Prince George, and will leave for his home across the harbor this afternoon.

With a badly crushed leg from the effect of a construction train passing over him, Frank McGovern, a man in the employ of the Bates & Rogers Construction Co. at Mile 103, was brought into the city yesterday afternoon on a special emergency train.

Captain N. Broadhurst reports having seen three pelicans near the mouth of the Skeena recently.

C. M. Wilson of Massett returned on the Prince George this morning from a trip to the south.

A large mastodon tusk was recently discovered at Kitsumkalum by a man digging in his field.

Capt. Bilton, master of the lighthouse tender Newington, was a passenger for Victoria on the Prince Rupert last night.

FISH DAY ON ALL HALLOWS

October 31 is Set Apart as National Day to Feature Industry

The idea of a national Fish Day should appeal to Prince Rupert people and doubtless the Fisheries Association here will celebrate the occasion fittingly. On that day special attention will be called to the value of fish as a diet and so far as we are concerned to its commercial possibilities.

Authorities say fish should be used once a day, at least. Contrary to popular belief it has all the requisite food properties for people who follow hard manual or mental occupations. It has additional advantages, though, of being easily digested and being prepared at low cost. Many persons engaged in sedentary occupations are big meat consumers and do not spare the time for the necessary physical exercise properly to digest the food. Fish solves the problem for this class of worker. Dietitians and medical experts the world over recommend fish for people with defective digestive organs and for people so stricken that they are incapable of the least physical exertion. It stands to reason if it is good in these instances it is good for all.

Plenty of Variety There are other features also which make a fish diet advisable. There are hundreds of different kinds of edible fish and twenty or thirty of them may be obtained any day in the local fish stations. There is no such variety to choose from when one comes to the flesh of animals. Culinary experts declare furthermore, that fish is extremely susceptible to the gastronomic art. A single species, says one expert, may be used three times a day seven days a week and served in such a variety of ways as not to appear monotonous.

The government endorses National Fish Day because of its desire to develop the great national resource which the country inherits. One would deplore the waste involved in dumping hundreds of tons of good edible fish into a dump heap. Is it not equally wasteful to allow the same fish to stay unutilized in the seas?

Below Normal Canadians have the raw material to attain pre-eminence as a fish-producing people. They can produce the fish, but the difficulty is to find a market for it. The domestic market offers the best field for development because at present fish consumption is away below normal. They eat on an average not more than twenty pounds a year, while England uses fifty-six, Germany forty-five, countries bordering on European fishing grounds, from thirty-five to fifty, while Japan consumes no less than 200 pounds each per year.

If fish is not being used regularly people would do well to incorporate it judiciously in their diet, serving themselves not only physically but economically.

The Man in the Moon SAYS:-

THE best thing for the politicians to do who kick about the school is to pay the bill.

WHEN you want to run for office get out your little hammer and start knocking. That is the game.

EVERY person should devote fifty per cent of his waking time to work and the other fifty to letting other people alone.

WHY not a guessing competition in regard to what there is between what you know and what you think.

SOME people make a living, others get a living.

FOR a year or two after marriage a woman becomes jealous of her husband, then she wishes some other woman would take him.

CARRY your joy in your face but pack your troubles in the old kit bag and drop the bag in the city dump.

ONIONS as a diet are all right too.

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief

"FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S.

"For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work.

About two years ago, a friend advised me to try "Fruit-a-tives", which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit!"

A. W. FRANKLIN.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c. or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

MATERIAL FOR ROAD SURFACING FROM TAR SANDS INVESTIGATED

EDMONTON, Alta., Oct. 20.

The research department of the University of Alberta has made excellent progress in developing a good road surfacing material from natural tar sands from the Fort McMurray district. A process has been developed whereby the asphalt can be extracted from the sand. It is planned to carry investigations on during the winter, the university having secured twenty-two tons of the sands which will be reduced. With the four or five tons of asphalt obtained, stretches of rural roads will be surfaced. If this surfacing stands the test, it is expected the development of the deposits will assume large proportions.

Two tons of the sand have been brought to Edmonton by the Dominion Government and all those who desire an opportunity to experiment with them can obtain samples from the lands office here.

The McMurray field comprises 75 square miles of tar sand deposits ranging to 18 feet in depth along the Athabasca river and its tributaries, according to a government engineer who recently concluded a special investigation.

SAVINGS BANK IS SUCCESSFUL

Manitoba Province Gives Report of Provincial Institution for Two Years

WINNIPEG, Oct. 23.—The first annual report of a department of the provincial government to be drawn up this year is the report of the Provincial Savings Office. It is shown the government bank, in the two years it has been in business, has accumulated deposits totaling \$4,334,013.77; has made profits sufficient to pay off the \$33,544 advanced by the government for initial organization and operating expenses and in addition now shows a net surplus of \$10,000.

This report, issued by E. A. Weir, chairman of the board of directors of the bank and manager, has been forwarded to Hon. F. M. Black, provincial treasurer.

Steady Progress Made.

The progress of the institution has been increasing steadily since its inception, the report shows, and the best month in the history of the organization was the closing month of the last fiscal year, August, when more than 700 new accounts were added to the books, meaning about 30 new depositors per business day. There are 12,000 depositors in the bank.

The increase in the deposits during the nine month period, starting December, 1921, is shown at \$1,126,950.93.

The deposits in the bank are in the main held and used by the provincial government. Of the grand total, \$3,200,000 is used by the provincial treasurer; \$874,980 is invested in Victory bonds—which it is shown are worth \$10,571.69 more now than was paid for them—and the remainder of the funds is held as cash in the various banks with which the organization has depositing arrangements.

Interest Received

The total interest received by the bank from its investments during the period covered by the report was \$161,991.23 and the interest paid to depositors was \$109,840.78, leaving a net revenue of \$52,150.45. The administration and operating expenses for the year were \$34,777.88, leaving a net profit of \$17,372.57.

The personnel of the board which controls the bank is: E. A. Weir, chairman and manager; J. R. Murray, assistant general manager of the United Grain Growers; R. S. Ward, who is also a member of the Workmen's Compensation board and who represents labor; and F. J. Collier, a successful farmer and stock breeder, who lives at Macaulay, Manitoba.

Opened in 1920

The bank was started Aug. 18, 1920, and the provincial government, to defray initial expenses and the early operating costs, put up the sum of \$33,544. By the end of November, 1921, one half of this sum had been paid back and the annual report just issued shows the balance to be set aside out of profits for payment.

The figures are taken from an audit of the bank's books by the Price Waterhouse accounting firm.

The wise captain knows his crew.

MYSTERY DRAMA AT WESTHOLME TONIGHT

Wm. Christy Cabanne's big mystery drama, enacted by the most brilliant all-star cast of the year, will be screened at the Westholme Theatre tonight. The story tells of the adventures of a young woman employed in a downtown New York office and supporting her invalid brother. Fate takes her to a reception given in an uptown mansion and attended by many of the social notables of the big city. There she meets Bruce Forbes, to whom she is drawn by his kindness and pre-possessing personality. But suddenly the lights go out, a shot is fired, and when they are turned on again a man has been shot and Bruce holds the smoking pistol. What follows is the mystery story of the most engrossing nature.

WEEK AT THEATRE

Westholme, Monday and Tuesday, "Beyond the Rainbow," all star cast. Monty Banks comedy: "Bride and Gloom." Wednesday and Thursday, Ethel Clayton in "Exit the Vamp." Comedy. Friday and Saturday and Saturday Matinee, "The Queen of Sheba," stupendous spectacle production.

The Queen of Sheba is the big thing this week. It will be shown at the week end at the Westholme.

Educational films are becoming important features in some theatres. They add much to the interest in an evening's program.

"The Radio King" is a timely new picture designed to interest those who are radio bugs.

All the old pictures in which Rudolph Valentino has played are being ferreted out of the dusty cellars and refurbished for the delectation of a fickle public.

The most startling flapper story done into pictures of recent years is "The Beautiful and Damned" by F. Scott Fitzgerald. It was a fiction sensation and promises to be a film sensation.

Norris's book "Brass" is also being shown on the screen. Thus do we do our reading luxuriously and the authors make big profits.

Cute kiddies who see-saw are often saucy.

QUEEN OF SHEBA IS BIG EVENT OF WEEK

Spectacular Photoplay Coming to the Westholme on Friday and Saturday

The big event in the theatre this week is the showing of the Queen of Sheba on Friday and Saturday. This is said to be a gorgeous spectacle containing a love story of exquisite beauty. It contains among other features a chariot race that is intensely exciting. It is one of the most talked of pictures of the day and most Prince Rupert people will want to see it. In some of the scenes something like ten thousand people may be seen. Solomon in all his glory is there. It will be of particular interest to Bible students who have read of the visit of the great queen to Jerusalem.

Ethel Clayton and T. Roy Barnes in a scene from the Paramount Picture "EXIT - THE VAMP."

EXIT THE VAMP IS NEW IN PICTURES

Ethel Clayton Has Hit on Odd Theme For Photoplay

Is it possible for a wife to vamp her husband? Can she sufficiently conceal her identity by the aid of cosmetics to prevent recognition and delude her husband into the belief that she is the other woman with whom he is temporarily infatuated?

In her new Paramount picture, "Exit—the Vamp," which will be the big feature at the Westholme Theatre next Wednesday and Thursday, Ethel Clayton answers these questions emphatically in the affirmative. In fact, she proves that a wife who is neglected by her husband in favor of another woman, may win him back again by vamping him, while if she created a violent scene, she might have lost him forever.

PAUL AIVAZOFF LEFT FOR SOUTH

Sold Out Interest in Prince Rupert Cigar Store—Will Look After Film Supply

Mr. and Mrs. Paul Aivazoff, sailed last night by the Prince Rupert for Vancouver where they will take up their residence for the present. Mr. Aivazoff has sold out his entire interests in the Prince Rupert Cigar Store and billiard parlors to Ben Self. Mr. Aivazoff still retains his interests in the Prince Rupert Amusement Co. and will supervise the selecting and shipping of films from Vancouver. Mr. Self will be in charge of the local management of the company. An immediate increase of the orchestra will take place and the former standard will be assured.

ESSAY ON FROGS

The Chicago Board of Education has caused a classic essay to be immortalized in type. It's about frogs and is as follows: "What a wonderful bird the frog are! When he stand he sit, almost. When he hop he fly almost. He ain't got no sense, hardly. When he sit he sit on what he ain't got, almost." Some essay, eh—almost.

MODERN APPLIANCE STAMPING LETTERS

Machine Obviates Use of Stamps
Where Much Mailing is
to be Done

OTTAWA, Oct. 23.—(Canadian Press)—In pursuance of the Postmaster General's policy to study modern appliances with a view to their adoption in connection with Post Office work, if deemed advisable, sanction was recently given for a demonstration before officers of the Meter department for a Postage Meter machine, and the question of approval of this particular style is now under consideration. The machine which is driven by a small electric motor, prints an impression on each letter signifying that say 3c. postage has been paid, also showing the date and hour at which the letter was prepared for mailing. If desired, it also seals the letter in the one operation. Connected with the printing die is a small, ingeniously devised mechanism which records the number of letters stamped Postage Paid. This recording device is called the Postage Meter and is under the control of the Post Office. It is set to record the number of letters specified in a contract granted on payment of the amount of postage involved. When this total is reached the device locks automatically and will print no more impressions until re-set at the Post Office. The main portion of the machine may however, continue to be used for sealing envelopes if desired. The machine operates at a speed of approximately 250 pieces per minute and stamps letters of varying size and thickness.

The benefits to be derived from the use of such a machine by business concerns which send out a large letter mail or which use the mails to a considerable extent for advertising may briefly be summarized as follows:

1. Postage being paid in cash, there is no necessity to purchase large quantities of postage stamps.
 2. No loss of postage through stamps falling off letters due to excessive moistening of stamps by office staff.
 3. Time saved in closing letters.
4. More expeditious treatment at Post Office, as letters or circulars when so mailed are immediately ready for sorting and despatch.

INDUSTRIAL BANK IN RUSSIA IS FORMED

MOSCOW, Oct. 20.—Private interests in Russia has received further recognition by the Communists. The government has granted permission to private persons to participate, by their capital, in the organization of a Trade and Industrial Bank.

The institution which is now being organized and will begin its operations in November will be a private limited company. Fifty-one per cent of the shares are assigned to the founders, the Supreme Economic Council, while the remainder will be covered by public subscriptions by the trusts and syndicates, and private persons.

The new bank is going to finance industry and transport on a broad, commercial basis. Private capital is not only allowed to participate, but guarantee is given to place its representatives on the board of directors of the bank.

SPEED SYSTEM IN FOOTBALL

Difficult to Account For Large
Number of Accidents This
Year

LONDON, Oct. 23.—(Canadian Press)—Although only in its early stages, the football season has already levied a heavy toll, the list of injured players being unusually lengthy. The matches, with a very few exceptions, have been free from illegal plays, so that it is somewhat difficult to assign a cause for the many accidents. Foul tactics are no more prevalent than in former years, and so far as first-class games this season are concerned, football has never been cleaner.

Getting Faster
The desire for speed, and the accomplishment of this desire, is held in some quarters to be the main reason for the long trail of accidents this autumn. Football is very much faster than it used to be and consequently when two players come into contact while going at full speed there is more likelihood of injury, if only because of the greater momentum. Again, if a player running at top speed, in seeking to pass his opponent happens to lose his balance when tackled, he falls very heavily, and where a defender has locked a ball the attacking player frequently wrenches his ankle or knee, owing to the sudden jerk with which he is brought up. It is from the latter cause that a considerable number of injuries have been sustained.

Opponents of the "speed system" say that these accidents are unavoidable and must be expected so long as the present style of playing continues. They also charge that the value of speed or pace has been over-rated and that the time devoted to its development is not warranted by the results obtained, and they point to the result of the last two international matches with Scotland as justifying their criticisms.

Lacks Combination
In the last two internationals between England and Scotland, the English side was admittedly the faster, but was lacking in combination and the speed was soon reduced to helplessness by the determination and skillful anticipation of those whose business it was to keep the ball from entering the Scottish goal. At Birmingham last April the English forwards must have scored again and again if they had kept their heads when in the neighborhood of goal. They over-ran the ball, shot wildly or hesitated until they were robbed, or they failed completely to place in possession when tackled, or just before they were tackled, a colleague who was exceedingly well-placed to defeat the Scottish goal-keeper. There was pace in plenty in the English attack, but there was not enough skill.

If, in the future, more attention is not paid to football artistry and subtlety and less dependence placed on mere speed, there will be an immense improvement in first class football as a spectacle and a sensible reduction in the number of injuries to players, is the prediction of the "anti-speed" element.

TOMMY BURNS HAS NEW WHITE HOPE TRAINING ENGLAND

Former Local Resident Busy in
London Training Irish
Giant.

Tommy Burns, ex-heavyweight champion and formerly a resident of this city and now in London, England, claims to have found a new "white hope" in Robert Read, a gigantic Irish youth who lived in Scotland since he was 12 years old. Read is now 21. He is 6 feet 4-2 inches tall, weighs nearly 200 pounds, and has a reach of 81 1-2 inches, 7 1-2 inches more than Dempsey's.

In a photograph sent to the Daily Mail, the new man towers above him; Burns head reaches only to Read's shoulders. Read has a good appearance, an athletic build, and is gaining fight experience in the rough and tumble life of the English travelling boxing show, a familiar sight at any small town carnival or country fair.

MACDONALD'S

Read out and that he is not disappointed in him. "Last year Read won the amateur western district championship in Scotland," said Burns. "He is a quiet, gentlemanly boy, and of course he needs a lot of experience. Only time can tell whether he will develop into a real champion. The experience with the travelling boxing show, which he joined after winning the amateur championship, certainly won't do him any harm."

Sport Chat

Samuel Rescheski, the nine-year-old Polish chess prodigy, lost his first game recently in the ninth American Chess Congress.

Playing in the fourth round against I. Bernstein, New York State champion, he was forced to resign after 41 moves. Bernstein launched an energetic attack, which carried him through to victory, when the boy wonder began with a faulty defence, after declining the queen's gambit.

The bout between Panchito Villa, United States flyweight champion, and Frankie Mason of Fort Wayne, scheduled for Oct. 30, has been ordered cancelled by the chairman of the State Athletic commission. The bout was ordered off on the ground that the former champion is thoroughly outclassed by Villa.

Laid up in New York for six weeks as the result of an operation, Gene Sarazen, America's greatest goffer, will lose \$3,000 in matches. Walter Hagen and other professionals will fill the dates Sarazen had to cancel.

Upon the advice of John McGraw, manager of the Giants, Arthur Nehf, Irish Meusel and George Kelly will decline the invitation to go to Japan with a specially picked team.

Jack Britton, welterweight champion of the world, will defend his title in a 15-round bout at Madison Square Garden, New York, on November 1, against Micky Walker, of Newark.

The United States commissioner of internal revenue announces that with 185,947 paid admissions to the World baseball series and receipts totalling \$605,475, the admission tax collected by the Federal government from the series was \$60,547.50.

The Smiths Athletic Club have elected the following officers for the ensuing year: Al Finnerty, president; Norman Kilpatrick, vice-president; H. G. Windt, secretary; G. Hefferman, treasurer; Executive committee: George Wall, J. E. Kirby, J. G. Stephens, C. Warner and Sandy Gapeley.

Stanislaus Zhysko, the famous Polish wrestler, is one of the wonders of the athletic world, for at the age of 40, when most athletes are only fit subjects for the scrap heap, "Biscuits" as he is familiarly known in sport circles, has just reached the pinnacle of success. For 23 years he has wrestled all comers, taking part in over 1,600 matches. Zhysko is a well

educated man, speaking seven languages, and holds law degrees from the University of Vienna. The adventures he has had in many strange quarters of the globe would fill a large sized book. He has appeared by special command before the late King Edward, the ex-kaiser and the Czar of Russia.

SPENT THE NIGHT AT WOLF ISLAND

J. J. Raleigh and S. J. Evans were forced to remain overnight Saturday on Wolf Island. When about to return from a duck hunting expedition, they found the storm too heavy and the night too dark to make the passage across the harbor in the forger's launch, Betty. They put up comfortably at the fisherman's cabin on the island and returned home safe yesterday morning early.

EMPIRE EXHIBITION PLANNED FOR 1924

To Be Held at Wembley Park, London, and Will be Great Event

LONDON, Eng., Oct. 23.—(Canadian Press)—The British Empire Exhibition, for the purposes of displaying the natural resources and the activities, social and industrial of the peoples of most of the countries within the Empire, will be held at Wembley Park, near London, some time in 1924. The project is being sponsored by His Majesty King George, and His Royal Highness the Prince of Wales, who has associated himself in the most active way with the Exhibition, is president of the general committee. Space is being reserved for exhibits from Canada, South Africa, Australia, India, the Federated Malay States, Burma, the Gold Coast and Nigeria, and many others are expected to arrive before the opening of the Exhibition.

It is the task of the British Empire Exhibition to increase the volume of trade at present passing between the United Kingdom and the various Dominions. In 1924 Britons will have an opportunity of seeing, through the Exhibition, the Canadian manufactures and raw materials, and learning the extent of her magnificent natural resources. Similarly Canadian visitors, for whom special facilities are being offered by most of the tourist agencies in Canada, will have a unique chance of seeing the possibilities of Britain; the products that she can now supply and the extent to which her resources could be adapted to further meet Canadian requirements.

The promoters of the Exhibition offer the view that no Englishman or Canadian should imagine that a maximum Imperial trade means some sacrifice on the part of either buyer or seller. The British Empire Exhibition will preach no propaganda beyond common sense. It will not expect to persuade Britons or Canadians to buy, for sentiment's sake, Imperial products that can be bought more economically from foreign countries. It will rather prove that most of the manufactures and raw materials that are now being purchased abroad, can be either bought cheaper, or at least as cheap, from inside the Empire. And such articles that are now to be had more advantageously abroad, could, with research and goodwill, be manufactured at home at competitive prices. And the Exhibition will inculcate that goodwill and encourage that research.

WAS SENT TO JAIL FOR MANUFACTURING DIVORCE EVIDENCE

LONDON, Oct. 23.—Before the Common Serjeant, at the Central Criminal Court, George Charles Charman, 34, gardener, on bail, was indicted for conspiring with a young woman named Dudman and others unknown to manufacture false evidence in order that it might be used by his wife in support of her petition for divorce. The defendant pleaded "Not Guilty."

Mr. A. B. Lucy, with Mr. Eustace Fulton, appeared on behalf of the Director of Public Prosecutions; Mr. Rhymer defended.

Called as a witness for the prosecution, Dudman said she was single. She had known the defendant since about June, 1919. In December, 1920, he showed her a letter from his wife which said something about wanting evidence of misconduct, otherwise she would send him to prison (under a maintenance order). He asked the witness if she would go to an hotel and she said she would go if it would save him from going to prison, and provided there was no misconduct. They went in the afternoon to an hotel, where they had tea, stayed an hour, and then left. No misconduct took place.

In cross-examination the witness said she knew the defendant had been in prison under a maintenance order. Nothing at all was said at the time about evidence in the Divorce Court.

101 USES for Zam-Buk In Your Home

Zam-Buk's swift antiseptic healing of cuts, burns, scalds and abrasions—it's soothing disease-dispelling power in skin and scalp affections—is proved daily in thousands of homes. Pure herbal Zam-Buk—safest and most useful skin dressing ever discovered.

POISONED WOUNDS. Mrs. Villiers, Stadacona St., Montreal, writes:—"Zam-Buk is the finest healer I know. It saved my poisoned hand, and rid the children of scalp sores."

SORE ARMS. Miss Marie Bertrand, Galesburg, Ont., writes:—"My chapped hands and arms would never heal until we found Zam-Buk. Father has also proved it fine for skin troubles and injuries."

BURNS & CUTS. Mrs. I. Wilson, of Sarnia, Ont., says:—"I could not afford to be without Zam-Buk. It is the safest and most soothing healer for the children's burns, sores and cuts."

PILES. Mr. H. Fougere, of Poulmon, N.S., says:—"I suffered terribly with piles and could find no permanent relief until I tried Zam-Buk. It is the finest remedy I know."

BABY'S SORES. Mrs. C. B. Ritzey, of Riverport, N.S., writes:—"My baby had sores on her face, caused by teething. Zam-Buk completely healed them."

ECZEMA. Mr. W. Dangerfield, 958, Lipton St., Winnipeg, says:—"I suffered from eczema all winter, until I determined to try Zam-Buk. It was the only thing that cured me."

ACHES & PAINS. Mrs. F. Wyster, 25, Guy Avenue, Montreal, says:—"I had rheumatism and stiff joints and muscles, but Zam-Buk rubbed in drove out the pains completely."

Zam-Buk is especially good for soothing and healing sore wind-chilled faces and for clearing the skin of spring pimples, blotches and rash. 50c. box all chemists and druggists.

NATURE'S GREATEST SKIN HEALER

She never conspired or agreed with the defendant that this should be used in evidence in any divorce suit.

The defendant, in the witness-box, said he had never any intention at any time of the evidence being used in the Divorce Court. From the outset he stated, both to his solicitor and to the Divorce Court, that he never committed adultery. His wife did not proceed with her petition.

The jury found the defendant guilty. It was stated that he bore a good character.

The Common Serjeant, in passing sentence, said Mr. Justice Horridge had stated that these frauds on the Divorce Court were taking place every day. The condition of things in the Divorce Court at the present moment was a scandal. The arrears were so great that other Judges had to be brought in in order to compete with the numbers, and they were constantly being deceived by frauds of the same character as the defendant had committed. This was, he was informed, the first case of the kind that had come before the Central Criminal Court. The reason why the Director of Public Prosecutions instituted these proceedings, the papers having been sent to him by the Judge, was in order to take the verdict of the jury to see whether this conspiracy had in fact been entered into. He (the Common Serjeant) took into consideration the fact that this was the first time a warning had been given to the people. He was not going to make the defendant a scapegoat for other people who had not been found out, but he must give a sufficiently severe sentence to deter others, because that was the object of punishment. He would take into consideration the fact that at the inception the defendant did this under the pressure of his wife, but he had his own motives. He hoped it would be understood that the sentence he was passing on him was simply a light one, comparatively, because it was the first time that such a case had come into Court. He hoped that the public would understand that in a future case the punishment would be much more severe, for the offence was a grave one. He sentenced the defendant to four months' imprisonment in the second division.

SMITHERS

The town council have set approval on a bylaw to regulate the construction of buildings and in future all plans must be passed by the council before buildings can be put up. The general terms are not yet made public, but the councillors state that

there has been no tendency to interfere with reasonable plans, and they state that the bylaw has been rushed in face of the several new buildings proposed, with the object of protecting present buildings from the erection of dangerous and improper structures.

H. G. Windt has received the big challenge cup won at the Prince Rupert fair for the best exhibit of minerals. The cup has been delayed in arrival owing to the fact that a new cup became necessary by the success of the Usk district last year in winning the cup the required number of times to establish ownership.

The prospects for the winter season of the Smithers Athletic Club are considered to be very bright, and definite steps have been taken by the members to establish a rink on the polo grounds, at the corner of Main and Alfred streets. It was decided to advertise for tenders for the rink in order to secure someone with previous rink experience.

F. Mackenzie has returned to the city after a holiday on the prairies.

A new sidewalk is being put down on Alfred street west to Queen and from that point on the walk will be made safe for travel until next year, when a wide walk will be put in to serve the rapidly growing population in that section.

POWERFUL WIRELESS STATION FOR WINNIPEG

Dominion Government Has Matter Under Consideration for Next Year

WINNIPEG, Oct. 23.—Erection of a huge wireless receiving and transmitting station may be undertaken in Winnipeg next year by the Dominion government. The scheme under consideration, according to the information in possession of the officials here, provides for the erection of a station which would be capable of handling all the government commercial business at present being taken care of by the telegraph companies. It is believed that the erection of such a station would save the government many thousands of dollars every year.

The station will be primarily erected as a unit of the department of naval and militia defence and would be operated by the Royal Canadian Corps of Signals. At the present time there is a branch of this Corps in Winnipeg operating in conjunction with the forestry department. There are receiving and sending sets installed in the customs building which are in daily communication with Norway House and Victoria Beach. These stations have rendered considerable assistance during the past summer in fighting forest fires.

When the new station is erected, Winnipeg will be the headquarters for western Canada for receiving and sending all commercial messages of the government. Messages received here from the east will be relayed to points further west by telegraph until additional stations are constructed in the other provinces.

UNIQUE HEBREW CEREMONY, WINNIPEG

WINNIPEG, Oct. 23.—A ceremony probably unique on the American continent featured the festival of the Tabernacles, presided over by Rabbi H. Samuel, at the Shaarey Zedek synagogue here when trees brought direct from Palestine were used. Part of the ceremonial for the occasion consist in the using of "the boughs of palm trees, citron branches of gaily trees and the boughs of thick trees, myrtle and willows of the brook." Rabbi Samuel obtained sufficient quantity to enable him to place a set in each home in his congregation and the synagogue, with the worshippers carrying branches in their hands, had almost the appearance of a forest of palms.
