## Terrible Smash Near Mission Junction RUSSIA'S ATTITUDE AGAIN DEVELOPS CRISIS AT CONFERENCE

### Kettle Valley Passenger Train Hits Automobile on Level Road And Six Persons Instantly Die

VANCOUVER, May 8.—Six people were instantly killed near Mission last night when the westbound Kettle Valley passenger train, from Nelson to Vancouver, hit an automobile on the level crossing at Nicomen of the Dowdney trunk road.

The bodies, brought to Mission, have been identified as follows:

- Oliver Deroche, a prominent dairy farmer and horse breeder, after whom the town of Deroche was named.
- Mrs. Rose Macdonald, wife of D. A. Macdonald.
- Alexander Macdonald, eleven year old son of Mrs. Macdonald.
- Bert Gregory, a farm hand.
- Miss Margaret Pentland of Mission.
- A man known as "Shorty."

#### ENGINE HIT AUTO

The locomotive of the train hit the auto and hurled it against a box car on the siding. Five occupants of the car were killed instantly, and the sixth, Miss Pentland, died a few minutes later.

Hon. Dr. W. H. Sutherland, provincial minister of public works who, with Premier Oliver, was travelling on the passenger train, gave medical attention.

The bodies were terribly mutilated. An inquest will be held tomorrow.

As a result of the accident the train was one hour and forty minutes late in reaching here last night.

### GOVERNOR OF BERMUDA IS RETURNING HOME

General Willcocks to be Succeeded by Lieut.-Gen. Asser

HAMILTON, Bermuda, May 8.—General Sir James Willcocks, the most decorated man in the British army, is to be succeeded as governor of Bermuda by Lieutenant-General Sir John Asser, advice received here today.

Sir James Willcocks has arranged to return to England by direct steamer leaving here June 2. The date of the arrival of the new governor has not been determined.

Sir John Joseph Asser was born in 1867, entered the British army in 1887, was attached to the Nile Expedition in 1897-98, was present at the battles of Albara and Khartoum and commanded the Sudan Expedition 1899. Although he had retired from the army when the world war began he rejoined and was placed as commander of an area. In 1901, Sir John Joseph Asser married Lelia, daughter of James Wolherston, of New York.

### 70,000 ARE HOMELESS AS RESULT RECENT MISSISSIPPI FLOODS

NEW ORLEANS, May 8.—Approximately seventy thousand men, women and children are homeless in the states of Mississippi and Louisiana as a result of the recent Mississippi floods. Of this number 40,000 are being fed, clothed and sheltered by the American Red Cross and other organizations.

### POST OFFICES ARE DEMANDED

Public Works Committee at Ottawa Receives Requests From Edmonton to Prince Rupert

OTTAWA, May 8.—Nearly every place in Canada which requires a postoffice had its need placed before the Committee on Public Works Estimates in the House of Commons last week. The first request came from Mr. Hanson (York-Sunbury) for a post office at Edmondston, N.B., and the clamor swept across Canada in short jumps until Alfred Stork (Skeena) gave a few reasons for Prince Rupert having a new office.

Progressives, whose great argument has been economy, joined with the old party members in getting something for their ridings which would hereafter stand as monuments to their "unceasing efforts" on behalf of their constituents. Most of the members were modest, and wanted only single offices, but T. G. McBride (Cariboo) said he wanted four for his riding.

Other places said to be badly in need of post offices were Galt, Hamilton, Toronto, St. Catharines, Saskatoon, Calgary and Victoria. Vancouver would take one, but regards the drydock as more important, according to L. J. Laidner, A. W. Neill (Comox-Alberni) brought happiness to Hon. Dr. King and it was the first real ray of sunshine for the Minister in several hours. He did not want a post office, and said so.

Ministers Unfavorable

Hon. Dr. King said the government would make no large capital expenditures this year.

Hon. Mr. Fielding said he had strongly requested the minister to keep from erecting new buildings this year and had asked him to resist all requests as far as possible.

### REGULAR ARMY HAS RELEASED PRISONERS

KILKENNY, May 8.—One hundred and eight prisoners captured by the regular Republican Army during the recent fighting here was unconditionally released from military barracks today.

### BIRTH

A son was born to Mr. and Mrs. E. A. Mann, of Summit Avenue, at the General Hospital yesterday.

### ONE THOUSAND SETTLERS PASS 'PEG TWO DAYS

WINNIPEG, May 8.—During the past two days approximately 1,000 settlers for western Canada have passed through Winnipeg. On Wednesday night 425 passengers from the steamships Montcalm and Empress of Scotland arrived here by special trains. Thursday evening 182 settlers, also from the Montcalm, arrived, of which 49 are for Manitoba; 41 for Saskatchewan; 18 for Alberta and 74 for British Columbia. Another party of 229 from the Metagama passed through Thursday morning and a Salvation Army party has also passed through on its way west.

### CITY OF OSAKI IN JAPAN HAS PRESENT FOR PRINCE OF WALES

OSAKA, Japan, May 8.—A gorgeously decorated liquor cabinet, representing 10 years work by master carvers, was presented to the Prince of Wales during his visit to this city.

The cabinet contained 54 panels depicting Japanese scenes and customs as represented by the Fujiwara or Fifteenth century period. The doors were decorated on both sides, plum blossoms on the exterior and dances of the period on the interior.

A set of four silk embroidered hangings also was given the royal visitor as a token of the city's esteem. These hangings are nine feet by seven, and reproduce floral works of a celebrated master in favor during the Fifteenth and three following centuries.

### FISH ARRIVALS

One Hundred and Eighty-one Thousand Pounds Halibut—500 Salmon.

There was sold at the Fish Exchange this morning 181,500 pounds of halibut and 500 lbs. of red king salmon. The arrivals were:

Alton, 67,000 pounds, sold to Alton Fisheries at 13.7c and 4c. Liberty, 25,000 pounds, sold to Canadian Fish & Gold Storage at 13.8c and 4c.

Chancellor, 7000 pounds, Hatti 10,000 pounds, St. Eloi, 4000 pounds, sold to Booth Fisheries at 14.4c and 4c.

Annie May 4000 pounds, W. & F. 4000 pounds, Scrub, 10,000 pounds and Westerner 3000 pounds, sold to Canadian Fish & Gold Storage at 15.1c and 4.7c.

Amblin, 3000 pounds, Bringgold 5000 pounds, Adeline, 3000 pounds, Johanna, 3000 pounds, Cora 7000 pounds, Torberg, 2500 pounds, sold to Sinclair Fisheries at 14.5c and 4c.

H. & R. 7000 pounds and Nidaross 7000 pounds sold to Sinclair Fisheries at 13c and 4c.

Lillian M., 100 pounds, and P. Doreen 6000 pounds sold to Sinclair Fisheries at 15.1c and 4.7c.

Kaiken, 500 pounds of red king salmon, sold to Sinclair Fisheries at 18c.

### TURKEY'S FINANCES IN BAD SHAPE

CONSTANTINOPLE, May 8.—Faik Nuzhet Bey, minister of finance, has resigned owing to the precarious situation of the Turkish treasury.

### Outlook at Genoa Takes Turn For Worse; Thought This Week will See End

GENOA, May 8.—The fifth week of the Genoa conference opening today will, it is believed generally, see the end of the convulse. An atmosphere of gloom prevails in view of the apparent irreconcilability of the positions of Britain on one hand and France and Belgium on the other over terms under which the reconstruction of Russia could be undertaken.

Admirers of Premier Lloyd George believe he may yet have some card in reserve, but in other quarters no such hope is felt although it is conceded that several deadlocks have already been broken when dissolution seemed almost certain.

#### Appeal to Russians

Premier Lloyd George and Foreign Minister Schanzer, of Italy, addressed a strong appeal to the Russian representatives today urging them to accept the Allied memorandum in its main points and promising Russia an international loan. It is asserted that the loan proposed would total 300,000,000 gold francs. The Russians, it is said, have been asking for 3,000,000,000 gold rubles or twenty-five times as much as the Allies offer.

#### Barthou's Statement

If the Russians do not accept the conditions as demanded in the memorandum submitted to them from the Allies, France will not continue negotiations at the conference, and if no agreement is made with the Russians the proposed non-aggression will be impossible, declared Vice-Premier Barthou, head of the French delegation, who returned yesterday from Paris where he conferred with Premier Poincaré and the cabinet on questions affecting the Genoa parley.

### YU PEI FU IS ORDERED OUT OF CITY.

Allied Military Commanders Will Not Have Him in Tsientsin

#### More Hostilities

TIENTSIN, May 8.—General Wu Pei Fu, who came from Peking to Tsientsin in pursuit of the Manchurian General Chang Tso Lin, was yesterday ordered from the city by Allied military commanders here. His presence was held to be in violation of the 1901 protocol.

HANKOW, May 8.—The Hankow-Pekin railway, north of Kwangshui, has been cut and it is reported that Chao Ti, military governor of the province of Honan, has started hostilities against the forces of General Wu Pei Fu.

### REPRESENT CANADA WORLD'S CONVENTION Y. W. C. A. AUSTRIA

MONTREAL, May 4.—Mrs. N. W. Rowell, of Toronto, will represent Canada at the Y. W. C. A. world convention at Salzburg, Austria, this summer. She will sail in June and will be accompanied by her sister-in-law, Miss Mary Rowell, of Victoria university; her daughter, Mary, and her little son, Frederic. The Hon. N. W. Rowell, who will join the party a month later, will go to Canterbury to attend the world's missionary convention of which he is a member.

### RADIOPHONE SETS ON C. N. R. TRAINS

WINNIPEG, May 8.—Canadian National railway officials have announced that a radiophone set would be installed in the observation car of the Transcontinental Limited trains as soon as equipment was available, and that the service would be extended to other trains when appliances could be obtained.

### MALASPINA GOT POACHER

Arrived in Port Yesterday With Johanna Caught Fishing Within Limit

The Dominion fisheries protection steamer Malaspina, Capt. H. Newcombe, arrived in port yesterday afternoon having in tow the American fishing boat Johanna, which had been caught fishing on Saturday within the three mile limit off Tuft Island, Queen Charlotte Islands.

Captain Newcombe reports that he had had the Johanna under observation for some time before the delinquent caught sight of him. Immediately on sighting the cutter, the Johanna made off at top speed but was quickly overhauled, being caught 10 miles north-east of Tuft Island.

When the skipper of the Johanna, S. Antonson, saw the game was up he started to throw out the gear and disclaimed the accusation that he had any gear within the three mile limit. When asked by Captain Newcombe to take his bearings he afterwards admitted that he had had gear within the limit. Upon closer examination it was found that the gear of the Johanna was within half mile of the coast of Tuft Island.

The Johanna is registered at Paulshoro, Washington, and had on board some 1,500 pounds of halibut when caught. John Wick who was aboard the Johanna, first represented himself as skipper, but stated afterwards that he was part owner, and that S. Antonson was the captain.

### ILLINOIS JAILER WHIPS LEADERS IN COUNTY JAIL RIOT

CHICAGO, May 8.—Leaders in a riot at Cook County jail last night were taken from their cells this morning and whipped by Warden Wesley Westbrook and thirty others armed with clubs and blackjacks before the disturbance which lasted for nearly four hours stopped.

### ORIENTALS TO BE DISCUSSED OTTAWA TODAY

Expected All B. C. Members Will Be Drawn into Debate on McQuarrie Resolution.

OTTAWA, May 8.—The resolution of W. G. McQuarrie, Conservative member for New Westminster, favoring the exclusion of Orientals will, it is expected, be the chief item of discussion in the House of Commons today. By it all or nearly all of British Columbia's members will probably be drawn into the debate. It is understood there is a possibility of the Laborites bringing in an amendment favoring stricter control of Oriental immigration without prohibiting it altogether.

### FURTHER HIGH SCHOOL EASTER EXAM. RESULTS

The following were the class leaders in the preliminary course Junior grade, Easter examinations held at the local High School:

Edmund Bailey, 837; Mary Comadina, 723; Francis Gross, 683; Russell Bolger and Alice Pillsbury, 674.

### CACHED LIQUOR IN WOODEN LEG

SPARTANBERG, S.C., May 8.—The storied "uses of adversity" proved anything but sweet for Alex Ballenger, a one-legged Spartanburg negro. When a faint and muffled "splash, splash" was heard to accompany him recently as he hobbled down Main Street, a policeman took him in. At the station a cache in his wooden leg was found to contain a pint of liquor. He was fined \$100 for transporting intoxicants.

Rev. Dr. H. R. Grant left on this morning's train for Terrace.

### FRASER RIVER OPENED TODAY

Prince George—Quesnel Boat Service Starts in Full Swing.

PRINCE GEORGE, May 8.—With the last of the ice leaving the river Friday, from Prince George to Quesnel, navigation on the Fraser River opened today in full swing. The mail boat Rounder will begin with her initial trip tomorrow. Captain Browne arrived from the coast last week and will again be in command of the mail boat. Regular trips from South Fort George will be made on each Tuesday and Friday.

W. J. Matheson, of Foster and Matheson, who will again run the Circle W. on regular semi-weekly trips to Quesnel has received a wire from Captain Foster, stating that the Circle W. will arrive from the south today, leaving again for Quesnel on Wednesday. Her regular days of departure from here will be Wednesdays and Saturdays.

Reports received from outside points recently state that a considerable number of travellers to the Cedar Creek gold diggings will make the journey from here during the coming summer. Many Vancouverites have even announced their intention of going into the Quesnel Lake Country via Prince Rupert and Prince George, as they figure they can save both time and money by this route. With auto service from Quesnel, travellers will be able to land in the gold discovery district within twenty-four hours after leaving Prince George. The travel is easy and pleasant and no doubt, once the travel conditions are known, the river route from Prince George will be largely patronized.

### HORSE RACING IN HOLY LAND

JAFFA, Palestine, May 8.—Arrangements are being made here for horse racing on a regular system. A site for the course has been selected near the village of Selmah, in the neighborhood of Jaffa.

### MAXWELL'S THEORY OF WORLD UNREST

Says Not Due to War Aftermath But Deliberate Effort Against Society.

FREDERICTON, N. B., May 8.—That a great deal of the so-called world unrest which is being experienced at present is due to organized effort directed at the destruction of society, and not the aftermath of the war, as popularly attributed, H. B. Maxwell, Dominion president of the Great War Veterans' Association of Canada, in an address here recently. The seeds of propaganda of these organizations, which are active in many countries, have made their appearance in Canada recently through underground channels and many so-called religious sects, declared Mr. Maxwell, and it was up to the ex-service men of Canada to "scotch" these attempts, and to do it quickly he claimed first hand information as the basis for his assertions, and also attributed the general state of affairs in Ireland to the same source.

Particular reference was made to the organization in Canada known as the C.N.U.X., or Canadian National Union of ex-Servicer Men, which was entirely bolshevistic in its constitution, the speaker claimed. Under the constitution of this organization, Mr. Maxwell said, no man who belonged to any fraternal or who recognized any religion was eligible for membership and while the name of the organization implied Canadian in its title, it contained aliens and alien ex-service men.

Announcement of the incorporation of the Bulkley Lodge No. 39, Independent Order of Oddfellows, is made in the B. C. Gazette this week. The activities of the lodge will be carried on chiefly at Smithers.

Better be honest than clever.

### WHAT CAUSES HEADACHES?

**"Fruit-a-lives" Prevents Auto-Intoxication**

Auto-intoxication means self-poisoning. Many people suffer from partial Constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

### PREDICTS BIG TOURIST TRAVEL THIS YEAR BY WAY PRINCE RUPERT

Indications are that both steamship and rail equipment will be tested to capacity to accommodate the summer tourist traffic on the Canadian National railway to and from the Pacific coast, according to B. Coelman, assistant passenger traffic manager, who has returned to Winnipeg from a business trip to the coast.

The summer boat service between Seattle, Victoria, Vancouver and Prince Rupert, will start May 7. Reservations are already numerous, including the New York Rotary club, due in Seattle in June, with return journey by Canadian National lines from Prince Rupert. The New York Mecca Shrine will visit the same points also in June, both parties having special trains for the journey through Canada on the way home.

**SUITCASES TRUNKS CLUB BAGS**

### THOMAS MEIGHAN IS STAR AT WESTHOLME

**"The City of Silent Men" in Interesting Story of Unjustly Accused Criminal**

Thomas Meighan stars tonight and tomorrow night at the Westholme Theatre in the Paramount picture, "The City of Silent Men."

This popular actor takes the role of Jim Montgomery, small town mechanic, who goes to the city and getting in with bad associates is wrongly found guilty of murder and is sent to Sing Sing. He makes his escape from the prison and goes out West where he advances to responsibilities in the manufacturing business. A romance comes and the necessary disclosure of the past, tense situations and adventures follow, and on the wedding day a detective arrives on the scene, having traced the escaped prisoner. How Jim clears himself and his name and all comes out happily gives ample room for an interesting and romantic story.

### THIS PROVINCE IS LEADER IN EGG LAYING RECORDS

OTTAWA, May 8. — The Old People's Home at Vancouver, B.C., goes in heavily for poultry keeping, as is proven by the fact that Report No. 2 of the Record of Performance in egg-laying, conducted by the Poultry Division of the Dominion Live Stock Branch, shows a list of 124 leghorns at that institution to which certificates were accorded for laying 150 eggs and upwards in 52 consecutive weeks, and 15 to which advanced certificates were granted for laying upwards of 225 eggs in the same period, the highest being 297 and the second 274, both constituting records in the province for leghorns. A private breeder at Victoria, B.C., can claim the record of production for white wyandottes, two producing 287 eggs each and one 284 in the specified time.

### SIR ARTHUR NOT FIRST LORD TO HAVE THE TITLE

LONDON, May 8.—Sir Arthur Balfour's acceptance of elevation to the House of Lords as Earl Balfour of Whittingehame adds to an already confused list of British peers.

There was already a Lord Balfour of Burleigh, two Lords Morley—the Viscount and the Earl—two Lords Cobham, two Lords Ashton, a Lord Curzon in both houses (the Commoner having the courtesy title of Viscount), Lord Middleton and Lord Middleton, Lord Lindsay and Lord Lindsay, Lord Longford and Lord Langford, Lord Terrington and Lord Torrington.

Commenting on Sir Arthur's admission to the House of Lords, the Observer said:

"Having entered on the slippery slope of accepting titles, Sir Arthur Balfour now finds himself doomed to the House of Lords, the destiny equally of success and failure in politics. It is a pity we cannot find a way of distinguishing between those who are made peers because of their eminent services and those who have been made peers because their services were not eminent. Is there any other institution in the Empire thus curiously recruited from the top and from the bottom?"

### Genoa Outlook More Hopeful Now.

With the most of its work and the greatest of its possibilities still ahead of it the Genoa conference is today starting the fifth week of its session with the prospect that there may possibly be another three weeks of deliberations before it concludes. Last week discussions of financial, economic and transport questions came to an end with political matters, including the non-aggression pact and the Russian question scheduled to occupy the attention of the delegates for the remainder of the conference.

Packed as the conference has been with one disagreement after another, there seems to have been little of a definite nature accomplished so far towards the remedying of the European situation. The delegates, it is true, have been in close contact with each other and it is possible that the nations, through the successive expositions of some points, have come to understand each other a little better than before. To what extent, however, they may be prepared to give way to each other remains to be seen. It may come out now that political matters are to be the order of business.

Compromises will certainly be necessary if any agreements of a beneficial nature are to culminate. It is gratifying, therefore, that the danger of a serious breach, which threatened rather formidably on several occasions during the past few weeks, is apparently removed; that British and French points of view may harmonize more now than just recently; that Germany may profit by some of the pointed references that have been made of punishment if she does not meet her obligations; and that Russia's game is plain enough now and cannot be persisted in. With so much fairly obvious there is a better basis to work on and a brighter outlook for the forces of sanity in Europe than appeared to be possible a few days ago.

### Fishing Industry Steadily Develops.

The fishing industry is slowly but surely developing at this port and in this district. The halibut fisheries are already centered here and every year sees an increase in the harvest of the deep sea. The salmon fisheries of the district are gradually becoming the most important on the coast and the Naas and Skeena Rivers are just as productive as they ever were while further south on the Fraser and Columbia Rivers the industry is rapidly going backward. With District No. 2 producing more fish than District No. 1 it seems high time that the industry was administered from Prince Rupert instead of Vancouver, 500 miles away from the center. We should have permanent head offices here with a chief inspector in charge residing in Prince Rupert instead of making periodical visits to the port in the best part of the year.

### Two Important Announcements Made.

Two important and interesting announcements have been made in the past fortnight in connection with the fisheries of the district. One was the announcement by G. G. Bushby of the reopening of the Tucks Inlet fish by-products plant; the other on Saturday by E. M. Urell, of the Beacon Trading Co. of Seattle, that one hundred and twenty-five car loads, 40 thousand barrels, of mild cured salmon and herring are to be shipped this season to the East, to the United Kingdom and as far as Germany. The success of the latter venture which was started last year is indicated by the fact that more than twice as much of this commodity is to go East this year than did last. It proves that the fish exporting business other than in cans from Prince Rupert can be successfully carried on and is capable of almost unlimited expansion.

**MAGIC BAKING POWDER**

### The Man in the Moon SAYS:

SOMEHOW or other it seems that all those persons who imagine they know how to run a newspaper better than the people running it never get to running a newspaper.

ONE of the things that won't get you very far is trying to build a power boat with bricks and mortar.

ONE of the drawbacks to married life is when Ma shouts upstairs on Sunday morning before Pa is out of bed, "How about the ashes in the basement, sweetie?"

THESE are the days when the glazier is in luck. Willie is swatting flies on the window panes.

A MODERN business man is one who commences work on standard time and quits on the daylight saving schedule.

OH! Father Time please hear my plea,  
 Of what the powers have done to me,  
 They've gone and issued too much sun,  
 And put your hour glass on the bum.

THESE days when you kiss some girls they taste like the back room of a fifty year old paint and kalsomine shop.

WILLIE rushed into the house. The other day, and said, "I've just heard on my radio-phonie,  
 That Aunt Eliza's wed."

### CATHOLIC PAPER ON ODD FELLOWS

QUEBEC, May 8.—(By Canadian Press.)—Under the heading: "Beware," L'Action Catholique issues a warning advising young men not to join the Odd Fellows. The article reads, in part, as follows:

"We learn that at the present time in the city of Quebec a propaganda campaign is being carried on to induce our young men to join the Odd Fellows Society. On general principles it is known that it is always a bad thing from a national point of view to belong to foreign societies. We simply supply them with funds so that they may oppose us more strongly."

"As to the Odd Fellows' Society, there is more."

"It is a secret society which has been formally condemned by the Catholic church. The faithful cannot enter it without committing a grievous fault."

It's a long stove-pipe that has no bends.

### Ten Years Ago in Prince Rupert

May 8, 1912.

On Sunday last the new church at Terrace was opened by Bishop Du Vernet, assisted by Rev. T. J. Marsh. The congregation was made up of settlers in the neighborhood as well as residents of the town. The church is situated on the first terrace back of the railway station and near the park. The park with its recreation ground adjoining has had the underbrush and dead logs cleared away leaving a beautiful grove of tall trees. Mr. Marsh who had been away for over four months on account of his health, received a warm welcome from his many friends both in Terrace and Kitumkulum.

# REMINGTON Portable

A Worthy Chip of the Big Remingtons

A Typewriter built especially to meet the requirements of the professional man, the reporter, traveler, in fact, any man or woman who writes.

Fits in a case 3 1/2 inches high and weighs but 10 1/2 pounds when ready to carry, yet is strong, compact and complete--writes with that beautiful clear-cut impression which so characterizes the Remington--is the only portable having the universal keyboard.

Cash price now only **\$75.00** or terms arranged. See display in our window.

# A DOCTOR IN A TIN BOX!

Sounds strange, does it not? Yet that is how Mr. J. Cartier says Zam-Buk is regarded by his family. Mr. Cartier, who is a member of the family of the late Sir George Cartier, is Justice of the Peace and Assistant Clerk of the Circuit Court, Montreal. He first discovered the wonderful power of Zam-Buk by using it for eczema, which it completely ended. Since then his family is never without it.

"Allow me to express my gratitude," he writes, "for the benefit I have derived from the use of Zam-Buk. I have proved that it is, without doubt, the finest remedy for eczema. Its general healing and curative powers are immense. We call it 'Our Family Doctor,' and are never without it."

Others should see that Zam-Buk is always handy, for not only does it end pain, draw out inflammation and prevent blood poisoning, but it heals skin diseases and injuries in the shortest time possible. All dealers, 50c. box.

## BRINGING UP FATHER

### In the Letter Box

**HOMESTEADS.**  
Editor Daily News:  
We, on this continent of North America, look back upon the arrival of the Mayflower's immigrants as one of the most logical events in American history. Logical in the sense that settled human life begins and takes root in the soil and formulates, because the old Englishmen were of that determined and special character and virtually became new Englishmen to father and mother Americans of good stock. Unlike the newcomers they were no freebooters or adventurers. They were not predatory, but stood upon their defensive to hold and encourage what they thought would be a better and firmer existence.

It is safe to say that these immigrants or their type and followers practically laid the ground work for that great national structure, the United States of America. Considerable discussion is taking place regarding the settlement of the Queen Charlotte Islands with people from the British Isles, a movement urged and conducted by the minister of lands, the Hon. T. D. Pattullo, M.P.P. for this electorate, assisted by the government.

In regard to the wisdom and success of the plan I may emphasize the usual expression of the politician: "the matter will adjust itself."

**First Colonists.**  
The landing of the first immigrants up the shores of what is now the state of Massachusetts took place in the year of 1620. I hardly think that conditions were any more favorable than of making a living than what they are now. I hardly think that financially they had any advantage. They merely found themselves in such a novel position, that they were forced to take care of themselves. They had no ways or means of communication unless it was a buccaneer or trading vessel coming from the sea, or a pathfinder or trapper from the unfriendly and unknown regions beyond. They had escaped from the oppression and levies of old England's troubled times of warfare and misrule; they knew oppression, taxation and hard work. Their Separatist ideals and rigor of faith no doubt stifled the ambition for money. They had seen, learned and felt the injustice and corruption that the greed for money had provoked in their old land and for that reason decided to gather together a band of their own faith and hazard a voyage across the seas to that new land, which although beset with hardships and suffering at least gave them the freedom to work out their own destiny and gave them that curious consciousness of liberty which in time became the password of all America. These first settlers had a sense of liberty as nearly possible as any man or certain people have attained at any time. Easier access to the shores and domicile of these people in time sent successive waves of human kind and their devices and the first lesson and duty of living on God's earth became superseded by the idea of living on man.

The sinister power of money obscured that glorious spirit of faith and vision of liberty. Although there are unlimited spaces of land at present, we do not enter upon them with the same purpose in life nor the same sense of liberty. The modern national structure is a tremendous impost and burden upon its very foundation—the land.

Several hundred years of man's

ingenuity and cunning has tied our hands, we cannot now defy the power and shackles of silver threads and treasury notes and set up a Republic with impunity. Here and there that glorious inspiration of liberty may flare up with an intensity equal to those before, but it fades and dies before the overwhelming magic of silver threads and treasury notes.

Three hundred years ago old England sent her few Republicans, who made it possible to found the greatest Republic, but—

This year of grace, 1922, there arrived on these western shores of North America another small band of immigrants from old England urged with a desire for such liberty as there is left. — H. WRIGHT, Central Hotel.

### THIS IS THE END.

Editor Daily News:  
It is one thing to criticize but it is another thing to show the powers that be not only what is wrong but how it can be made better. The whole system of our Government is founded upon this idea. It is really not worth while to criticize the Government on the street. Any chump can do that. We should go to our representatives and do it now. The man who wants special privileges is continuously doing so. The man who wants something for nothing, does it and very often takes a petition signed by the very people who afterwards criticize the Government for giving what they themselves asked for.

My contention is that all licenses are special privileges and should be done away with. When ever it becomes necessary to interfere with anyone's business to such an extent that government should instead do it better, not force a monopoly.

Take the Liquor Control. The government is not entitled to a monopoly until it has earned it by selling better liquor in a better manner than any private individual can. There is a steady demand for liquor at certain hours and in a certain manner. Unless the government performs this service in such a manner that the supply meets the demand some one else will. Therefore the government must sell liquor at the time and in the manner the people who use these services and pay for them desire.

The footlocker and prohibitionist who do not want liquor have nothing to do with it, any more than the non-church-goer has to interfere with church services which other people express their desire for.

HOOMES K. FREEMAN.

A short account of a Trip to California in a Ford Flivver  
By H. F. Pullen

### PASSING THROUGH OREGON.

Somewhere in Oregon.—This is being written under a great Douglas fir tree alongside a purling stream with an unused quarry on one side and the road, way about a hundred yards distant. It seems an ideal spot for a camp so we have pre-empted it and have a big fire burning which keeps the gnats away. We have just had a fine supper of sardines, bread and butter, bananas and cream, crackers and mixed biscuits and coffee. It was one of the best meals we ever had. In that we are agreed. This is to be our first night under canvas. Dick is putting up the tent, while I am sitting near the fire tapping the little Underwood. It is a gypsy life but

it is the life that appeals to most people now and then, especially in the summertime.

We left Portland this morning spending the night in the Imperial hotel in a room about as large as most of the Prince Rupert houses. At one end were two large beds and the other end was furnished as a sitting room and there was a bath room attached. The very new hotels do not have rooms like that because they are not profitable. For comfort, however, they cannot be beaten. The service at the Imperial was fine and the charges moderate.

**Pretty Country.**  
Since morning we have driven a little over 150 miles and we are now a mile or two from Cottage Grove, south of Eugene. It is a pretty country and generally well cultivated. All the way south of Portland we have been travelling through fine fruit orchards, mostly cherries, apples, prunes and plums, a few hop-fields and vineyards and an immense number of raspberry and loganberry gardens. The rest of the country is devoted to grain and clover. Most of the homes have the appearance of prosperity, indicating that the soil is productive.

So far there has not been the slightest indication to us that we have left Canada beyond the fact that the customs officer delayed us ten minutes at Seattle. He looked through our grips but the camping outfit he did not bother with. The people here seem just like Canadians and they welcome us as visitors. Some of them object to taking Canadian money but others have taken it without question.

**More About Roads.**  
Most of the roads have been very fine. Some of them are concrete and these seem to be the best. The asphalt, however, is also good although it does not seem to wear as well as the concrete. Now and then there are breaks in the continuity. Speaking generally the bad places are close to the cities, usually within the city limits.

The most attractive city we passed through was Salem, the capital of this state. It is wonderfully well kept and the grounds around the state capital buildings add much to its appearance.

### Civic Auditorium.

But I must tell you about the civic auditorium at Portland. Dick was interested in it because they have been talking of building a civic centre in Victoria. This auditorium was planned more than twenty years ago and agitation for its erection was carried on for ten years when a bylaw was passed, voting a sum of money for its erection. It was found this was not enough money to do the work so it took another six years to get the rest of the money and make it possible to commence construction. It cost \$600,000 and seats 6,000 people.

While the auditorium is kept busy most of the time it is endeavored to use it for such things as are of an educational nature and do not compete with the general business of the other theatres in town. In the winter it is used for Sunday concerts and is given free for all conventions that come to the city and for many public events. Under these circumstances it could hardly be expected to pay, but it pays operating expenses and is a great asset to the city. The building also houses the exhibit and archives of the Oregon Historical Society and is used for the Automobile show and various industrial shows and other similar events during the year. It is one of the few buildings of its kind in the United States.

### BOB FRIZZELL WAS INVESTIGATING IN ARCTIC REGIONS

Made Trip North to Coppermine River for United States Mining Interests

R. Frizzell, Prince Rupert, on his return to Edmonton from the Coppermine river, in the Canadian Arctic coastal region, east of the Mackenzie river, stated that he found large quantities of copper of good quality. He made the journey to the north as an investigator for United States parties who are interested in copper mining. The Coppermine river deposits have been known since the days of Samuel Hearne, the first explorer to visit the region, but owing to their remoteness from transportation have never attracted more than passing notice until Steffansson's reports were made. It is said there are great quantities of native copper along the lower reaches of the river. — C. N. R., "Latest News from the Last Great West."

### 1922 SCHEDULE FOR SOCCER OUT

Grounds Are in Very Fair Shape For Opener Tonight Between Sons of Canada and Grotto

The remainder of the 60 loads of cinders were spread over the Acropolis grounds at the weekend and the park is now in very fair shape for the opening of the football season tonight. When the roller has been put over it will be even better than last year.

The football season commences tonight with a match between the Sons of Canada and the Grotto and the second game of the schedule will be on Thursday night between the Sons of England and the Callies. George Russell will referee tonight's game and W. E. Willisoff, Thursday.

The first baseball game of the year will take place tomorrow night between the Elks and the Sons of Canada. The Baseball Association has not yet released its season's time table.

The schedule of fixtures for the first half of the football series is as follows:—

- May 8—Sons of Canada vs. Grotto.
- May 11—Callies vs. Sons of England.
- May 19—Grotto vs. Callies.
- May 22—Sons of England vs. Sons of Canada.
- May 30—Callies vs. Sons of Canada.
- June 2—Sons of England vs. Grotto.

The referees for the four last games will be selected at an executive meeting to be held on Thursday evening.

### INDIAN PICTURES WILL BE TAKEN ON COAST THIS YEAR

CHICAGO, May 8.—What the tola mpole means in Indian history and legend will be made clearer to the school children of the United States when films soon to be made by the Society of Visual Education are thrown on the screen.

Early this summer on those far off islands lying along the upper coast of British Columbia, hundreds of Indians will take part in the unfolding of the legend surrounding the totem poles which travellers see in the Alaskan villages. This work will be under the direction of Prof. F. E. Froese, who for 10 years has made his home among the Indians on Queen Charlotte and Prince of Wales Islands. The services of Prof. Froese were obtained by H. L. Clark, vice president of the Society for Visual Education, as the man best fitted to carry out this important plan.

Every part is the drama will be taken by Indians and drilling them for the ambitious work will begin in a few weeks under Professor Froese's instruction. Two films have been arranged for and they will be produced purely from an educational standpoint for use in the public schools. While pictures have been made of the totem poles and of some of the Indians of that stormy region, it is believed this is the first attempt to put the meaning of the symbols into form understandable to the children. It is expected that both films will be ready for use by the opening of the schools in the fall.

### THANKSGIVING AT METHODIST CHURCH

To Celebrate Clearing of Local Congregation From Debt

A thanksgiving service was held in the Methodist church last evening to celebrate the church's freedom from debt. Reports from the various heads of departments showed the finances of the church to be in a very healthy condition.

The usual choral music was supplemented with solos rendered by Mrs. B. Stockdale, H. C. Higgins, F. Dibb, E. V. Ling.

The work of the Sunday school was reviewed by F. Derry and the work of the women's missionary society and mission band by Miss Hudson.

Rev. Geo. G. Hacker took the service prior to his departure for the south on the Prince Rupert.

During the absence of the pastor, Rev. W. H. Redman and P. H. Linzey will conduct the services.

# MACDONALD'S BRIER

The Tobacco with a heart

PACKAGES 15¢

1/2 lb. TIN 85¢

### Sport Chat

Posters have reached the city announcing that a celebration is to be held as usual this year at Port Simpson on May 21, Victoria Day. The program includes field and water sports and there are also to be baseball and football games, foot races, canoe and motor boat races, and other aquatic sports. The usual good time will be assumed. While Prince Rupert is to have its own Victoria Day celebration under the auspices of the Elks who have plans under way, and the most of the citizens will remain in town, there may be some of the local residents who will again wind their way to the pretty little village up the coast for the occasion.

The team standing to date in the Intermediate Billiard League is as follows:

	Pl.	Tl.	Av.
Sons of Canada	5	4327	865
Elks	5	4073	815
Grotto	5	4065	813
Barbers	5	3567	713

Junior Billiard League standings:

	Pl.	Tl.	Av.
Maple Leafs	8	6821	865
St. Andrew's	9	7415	824
Excelsiors	8	6580	821
Grotto	9	7011	779
Beavers	8	6004	751

These figures indicate that the leading teams in either leagues have safe margins over the runners-up and the hazard may be made that the end of the season will see them still at the top—namely the Sons of Canada in the Intermediate League and the Maple Leafs in the Junior. The bottom teams, Barbers and Elks respectively also seem to be as safely stored away in the cellar and the chances are that they will remain there too. Several games are partly finished at this time but a few days should see the schedule caught up again.

### MAPLE LEAFS BEAT ELKS IN JUNIOR BILLIARD FIXTURE

In the Junior Billiard tournament, the Maple Leafs vanquished the Elks by a score of 900 to 723, a gain of 177 points.

The individual scores were:— K. Halliday, (Maple Leafs), 150; H. Astoria, (Elks), 149. G. Mallett, 150; G. Shaw, 121. M. Chmowski, 150; N. Pringle, 126. S. Suga, 150; L. Astoria, 98. B. Emerson, 150; R. Smith, 108. J. Bond, 150; B. McDonald, 121.

### GROTTO DEFEATED PRINCE RUPERT AT FOOTBALL SATURDAY

A well contested game was played between the Grotto football club and a team from the steamer Prince Rupert Saturday evening on the Acropolis Hill grounds. The game resulted in a win of 5-2 in favor of the Grotto. The following players represented the Grotto: B. Mercer, goal; C. Watmar

LAND ACT.

Notice of Intention to Apply to Lease Land. In Prince Rupert Land District, Recording District of Coast Range 5, and situated in vicinity of Port Essington, B. C. Take notice that we, Julius Johnson and Walter Niemi, of Port Essington, B. C., occupation fishermen, intend to apply for permission to lease the following described lands: Commencing at a post planted at southeast corner of Lot 45, Range 5, Coast District, thence northeast 4 chains to low water mark, thence south 5 chains along low water mark, thence west 3 chains to high water mark, thence 5 chains along high water mark to point of commencement and containing 3 1/2 acres, more or less.

JULIUS JOHNSON, WALTER NIEMI, Applicants.

Dated February 28, 1922.

### CANADIAN NATIONAL OFFICES AT EDMONTON ARE PARTLY BURNED

Spectacular Fire Draws City Brigades—Good Work Saves Big Loss.

EDMONTON, May 8.—As the result of a fire which broke out in the Canadian National Railway offices on 95th Street and 104th Avenue Tuesday at noon the northern portion of the premises were practically wiped out including the paymaster's office and the office of the superintendent of express. All the office papers and furniture were salvaged and apart from the building little loss was sustained. The fire is believed to have had its origin in the basement at the furnace which had been lighted that morning. The flames were first noticed there and by the time the brigades reached the scene they had gained considerable headway so that it was impossible to save the frame buildings to the north of the main brick structure which was untouched.

### Roof Caved In.

The roof of the building where the fire had its origin has caved in and the walls of the other parts of the structure are rendered beyond repair. A small building immediately north of the burning was saved and after a couple of hours hard work the men had the flames extinguished. Office desks, papers and other office furnishings were lying on sidewalks in the rain which was fairly heavy, during the fire. An estimate of the total loss, by fire and water it is impossible for officials of the company to give up to the present. The buildings, which were known as the old Ross buildings before being taken over by the National Railways, were fully covered by insurance.

### KING AND QUEEN REST AT WINDSOR

Royal Wedding, Prince and Home Affairs They Have Been Much Taxed.

WINDSOR, May 8.—King George and Queen Mary both are said to have needed the rest they were expecting to get while here. They only did the wedding business. Mary mean a great deal of work for them but they have been under a considerable strain while the Prince of Wales was in India. Affairs nearer home have also caused them concern. Queen Mary, always solicitous

for the health of her family, is additionally anxious that the King should secure as complete a rest as possible now, because the coming summer is full of engagements which will tax his strength pretty considerably.

### ENGLAND IS NOW GOING DANCE MAD

Waltz is Ousting Fox Trot and Tango Becoming Popular Again.

LONDON, May 8.—The dancing craze has returned to this country, and even the moving picture business is seriously affected by it. The matter was referred to in the last annual report of the Cinematograph Exhibitors' Association, which showed that the receipts of the theatres were falling away according as the popularity of the dance increased.

"The public," the Association's report said, "with depleted pockets after a mad orgy of spending have largely deserted their usual forms of entertainment, and have been to a considerable extent devoting such spare cash as they possess to dancing. The head has given away to the feet. Drama, legitimate and otherwise) the music hall and the concert room are all suffering from an unprecedented slump. The cinema is sharing the same fate."

### Cinema Indicates.

Such an admission as this, from the cinema men indicates just how great a hold dancing has on the people at present. All last year dances grew in popularity and now the craze seems to have reached its zenith. The number of private and public dances has grown enormously of late, the latter being due, in some measure to the seal of approval set on the public dancing hall a short time ago by the Duke of York. His Royal Highness not only visited the Hammersmith Palais de Danse on the occasion of a function that had been arranged for charity, but he joined in the dancing there.

Dancing competitions are being held over all the country, and the valse is ousting the fox-trot in popularity. The valse, which not long ago was thought to be out-of-date, is coming into favor again in its original form, and the fox-trot seems to be losing its remarkable hold upon the people's fancy. In addition, a simple form of the exotic tango appears to be coming into prominence once more.

R. L. Brown was an arrival from Vancouver on the Chelobsin last night.

### Bilious Headache

WITH many people bilious headache returns so regularly that it may be described as a habit.

By eating too much or of foods which do not agree and by taking too little exercise the liver becomes torpid and sluggish and the bowels constipated.

Then comes the bilious spell, when the liver can no longer control the bile and the whole system is poisoned and upset.

But this bilious habit can be broken up, and you can get away from these periodical headaches if you will use Dr. Chase's Kidney-Liver Pills in order to keep the liver and bowels in condition.

TERRIBLE HEADACHES Mrs. A. F. Letts, South Fork, Sask., writes: "I suffered from terrible headaches, so severe I thought sometimes I would go crazy from them. No remedy I ever tried helped me until I used Dr. Chase's Kidney-Liver Pills. Since using them I can say I am never troubled with headaches now, and feel much better generally."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

## DECLARES CANADA'S FREIGHT RATES ARE LOWEST IN WORLD

OTTAWA, May 8.—"Canada's freight rates, about which so much complaint have been received, are lower than in any other country in the world, including those of the United States," stated Dr. J. G. Rutherford, railway commissioner, speaking recently at a luncheon of Ottawa Branch of the Engineering Institute of Canada.

Dr. Rutherford heralded the entry of farmers into politics as a move in the right direction. There was no need of any nervousness regarding the appearance of farmers as a party on the political horizon. "They were just about the sanest men in the country, taking them as a class. The farmer alone stood in the peculiar position of being representative of both labor and capital. As an owner of land he qualified for the latter and Dr. Rutherford believed that few union men knew more regarding labor. The farmer knew all about the eight hour day, eight hours before dinner and another eight after."

**Spirit of Pioneer.**  
It was the spirit of the pioneer settler and farmer that made Canada. It was this spirit of the home builder that had made Manitoba famous in all parts of the world as a wheat producing centre, but alas such a spirit no longer existed.

The invasion of western Canada by settlers from the United States had caused the difference. "There used to be some farmers in Manitoba he asserted, "now they are nothing but wheat miners." Fields which formerly yielded 30 bushels to the acre now gave 10. After 40 years' experience as a farmer and knowing the west, Dr. Rutherford stated, he believed this was the cause of trouble. The American immigrants were not home builders, they were there to get all they could out of the soil and then get out. These were the men, he believed, who were raising the hard times story and blaming the high freight rates for hard times.

**Forget the Railways.**  
Some men in the west who were talking today about being victimized were those who went there without a cent and on whose farms the log cabin still remained beside the new mansion and who forgot that it was the railways that had made all this possible.

## K. OF C. BASEBALL TEAM HAS WORKOUT

The Knights of Columbus Senior baseball team was out for a try-out at the Acropolis Grounds yesterday and showed up well.

The roster of the team is as follows:  
Captain and coach, E. A. Donohoe; players, S. P. Douglas, H. Astori, Tom Moloney, Louis Astori, J. O'Reilly, U. U. LaGasse, Fred Henning, Fred Roberge, L. Wakefield and L. M. Moore. Others are being signed up.

Jack Venables is manager and Albert Auger league representative.

The question for the advertiser to consider is how many people read the paper. You can't get results without circulation.

## Was Troubled With Her Liver for over 4 months

When the liver becomes slow, sluggish and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow, among which are sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

**MILBURN'S LAXA-LIVER PILLS**  
quickly remove the secretions, clear away the effete and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice Mehill, Nanapan, Ont., writes:—"I was very badly run down for over four months. I tried several remedies, but got no relief. One day my husband brought me home a vial of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials and I am a different person today.

"I can safely recommend Laxa-Liver Pills to anyone troubled with liver trouble."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## UNIVERSAL SUIT SALE FOR TWO DAYS MORE

Special Offer of Extra Pair Pants Free Continues Until Wednesday, 1 p.m. Only.

Owing to the success of the suit sale including an extra pair of pants with every suit ordered, at the Universal Trading Co., Mr. Skinner, the expert tailor, has been induced to extend his stay until Wednesday next, 1 p.m. This exceptional offer of an extra pair of pants can only be held good while Mr. Skinner is here. This has been done owing to the fact that so many men took advantage of the golden opportunity on Saturday, and it is felt that there are other keen buyers who have not yet had the chance to visit this emporium and get in on this splendid offer.

Now is your chance to get a tailored suit in the very latest style with a guaranteed fit plus an extra pair of pants. Do it now and remember he who hesitates has lost a golden opportunity.

E. C. Manning, district forester, left for Usk on this morning's train on departmental business.

## FALSE ECONOMY

The family that does not provide for laundry service in the weekly budget is practicing false economy. Under our new plan, **Laundry work by the pound**, practically the entire family bundle—washed and returned, damp almost ready for ironing, for \$1.25.

This is the cheapest Laundry Service ever offered locally, and the husband who has the welfare of his family at heart cannot afford to pass this service up without serious consideration.

We have also our **Soft Finish Service**, where for a small additional charge, everything is dried and all flat pieces ironed and folded.

To those who can afford the small additional cost, this is the most complete service possible, without finishing the entire bundle. The cost will be found to be considerably below the prevailing price.

A trial will convince you of the merits of this service.

## THE 'Liberty' Shoe ARRIVES

Since we began thinking of introducing Men's Shoes into our Shoe Department, we have been looking for a nice fine line of shoes suitable for a high class trade. We now announce that we have secured the "LIBERTY" Shoe, one of the best Made-in-Canada Shoes. You will acknowledge this when viewing our stock.

The "Liberty" Shoe is manufactured by the same people who make the "Classic" for ladies and children and will give equal satisfaction. This is a high quality shoe, yet our prices are as usual, according to our well known policy of

## Low Profits and Quick Turnover

From now on, our men customers will be able to select their shoes at our store as well as the ladies have been selecting theirs and their children's.
