COURT OF REVISION HEARD LOCAL CLAIMS YESTERDAY'S SESSION

All Business Expected to Be
Cleaned Up Today and G.T.P.
Started With.

The civic court of revision was in session all day considering local appeals and those of the Thorsch estate now held by the Dominion Government. All this business, it is expected, will be cleaned up today and then the blanket appeal of the Canadian National Railways, represented by T. G. Watson of Winnipeg, who arrived in the city yesterday, will be taken up. Some heavy work is promised in this matter and the court will likely be in session until the end of the week, at least, dealing with it.

Although there were several appeals heard yesterday the most of them were laid over for decision. Theo. Gollart appeared for the owner of Violet Park, Section 7, and was successful in securing a reduction in valuation from \$14,000 to \$9,000. Appeals from all parts of the city were heard, among those entering them being M. M. Stephens, J. C. McLennan, Akerberg, Thompson and E. H. Mortimer.

The custodians of the Thorsch estate property, represented at the court by B. O. Oughton, of Fisher & Oughton, are making a blanket appeal on all the properties but no decisions have yet been rendered.

LABOR MINISTER GIVES ADDRESS

Tells Ottawa People Incidents in
Career and His Political
Beliefs.

OTTAWA, Feb. 9.—A speech of rare force and frankness, one which dwelt on the problems that employer and employee must settle before Canada can be industrially sound, was delivered by Hon. James Murdock, minister of labor, at the board of trade annual banquet in the Chateau Laurier. It was Mr. Murdock's first public speech since he became a member of the government, and when he finished the applause and cheers rang out for several minutes. His thirty-minute talk was a big personal triumph.

A rather remarkable incident was told by Mr. Murdock in his speech. Last week he was at Ridgetown, Ontario, a town in the constituency which elected him last week to parliament as a minister of the crown. Only once before has Mr. Murdock been in that town, and the other occasion was 32 years ago when he was stealing a ride on a train and the brakeman discovered him when approaching Ridgetown and kicked him off the train at that point.

DECLARATIONS OF FAITH.

Mr. Murdock in his speech made a number of specific declarations of faith. He was utterly opposed to the sympathetic strike, something by which labor sometimes used their friends as a club to swat their enemies of the time being. He was opposed to the labor organizer who sought out grievances that the men had not recognized as grievances. There were enough real ones without inventing imaginary ones. He opposed what was known as passive resistance—that is, the slowing down of labor because of dissatisfaction. The only honest policy was to give 60 minutes' work for 60 minutes' pay. A thirty-minute hour was as dishonest as a fifty-cent dollar.

Use of Drugs Is Danger to Community.

Every parent or guardian should carefully explain to children under their care the danger there is in using drugs and the fearful habit that once acquired clings to a man or woman like a heavy weight attached to a drowning person, dragging downward and finally engulfing its victim.

There are in almost every community a few people who are willing to use any means to make easy money, no matter what its effect on the rest of the community. The penalties for infringements of laws of this kind are not sufficiently heavy and magistrates are apt to be much too lenient.

For years there has been a drug ring in Prince Rupert. There are here men and women who regularly use drugs, and they are more numerous than is generally supposed.

The condition of Prince Rupert is probably better than many other places. There are, as the chief of police told The Daily News representative, fewer addicts here than in many places and those who sell drugs are finding the going difficult.

Base of Supply for Alaska.

It is said that Prince Rupert is a base of supply for Alaska for drugs just as it has the name of being for the illicit liquor business. There is a good deal of travel between this port and Ketchikan and there must be some underground business carried on.

The important thing in dealing with traffic of this kind, just as with the illicit liquor traffic and other immoral practices, is eternal vigilance. Spectacular raids and enthusiastic campaigns do not amount to much. Prevention is always better than cure.

Sometimes complaints are made to the newspapers that there is laxity in police affairs. That is not the place to lay a complaint. The police commissioners are the guardians of the city in the matter of carrying out the law.

Taken on the whole Prince Rupert has been wonderfully free from serious crime. There is very little danger to members of the community from those who infringe the law.

First Beginning With Public Library.

The first practical step toward the establishment of a public library here was taken yesterday when G. V. Wilkinson of Orme's Drug Store offered to take and catalogue books which might be donated for the use of the public library when it is started.

It is understood that a public meeting will be called in a few days to take up the question and see if steps can not be taken very soon to have the library commenced.

BIG TIME LAST NIGHT IN ELKS' INSTALLATION

Banquet and Dance Followed Induction of New Officers to Their Duties.

PAST EXALTED RULER GETS BEAUTIFUL GIFT

Elkdom was in high and enthusiastic revel last night celebrating the installation of officers for the 1922 term. There was a large gathering of Elks, their friends and Ladies of the Royal Purple at the function which was of a semi-public nature. Following the lodge ceremonies there was a banquet and dance both of which were immensely enjoyable.

At the installation, District Deputy Grand Exalted Ruler Ralph V. G. Lepine was in charge being assisted by Past Exalted Ruler W. J. Cash. All the officers elected at the meeting last week were formally introduced into their offices.

The toast list at the banquet opened with remarks by Milton Gonzales, the new exalted ruler, followed by W. J. Cash, the retiring ruler, Mrs. R. V. G. Lepine, Honored Royal Lady of Royal Purple, Lodge No. 8, spoke and E. A. Wakefield delivered an oration. Mrs. Fred Gilhuly, Supreme Honored Royal Lady of the Grand Lodge, Order of the Royal Purple, and Rev. H. R. Grant, chaplain of the Elks, were also called upon. A vote of thanks to the entertainment committee, was proposed by W. J. Cash and was heartily received. W. Reid, chairman of the committee, responding. In the course of the banquet the Elks' orchestra, rendered selections. The repast provided was plentiful and tasteful. Guests were seated at long tables. The committee in charge comprised W. Reid, chairman, W. W. Knight, Bert Glassey, Fred Gilhuly and Murdoch McLeod.

After the banquet dancing was indulged in, George Frizzell acting as master of ceremonies and the Elks' Orchestra providing the music.

The Presentation.

Perhaps the most pleasant feature of the whole evening was the presentation made to W. J. Cash, the retiring exalted ruler. This took place while the dance was in progress and was a complete surprise to Mr. Cash himself. Led by Harry Lipsett, he was forced to the centre of the floor and then the music ceased. Milton Gonzales, new exalted ruler of the lodge, delivered an eulogy on Mr. Cash's services as exalted ruler of the lodge for 22 months since its formation and handed him a beautiful diamond ring as a token of the appreciation and esteem of all the members. Mr. Cash replied with appropriate and feeling words. The ring, which is indeed a fine one, was bought with generous subscriptions from the members generally.

POLAND BECOMING SELF-SUPPORTING

Population of Thirty Millions Soon Be Able to Get on Alone.

WARSAW, Feb. 9.—Poland is gradually making her place in the world as a self-supporting nation, according to recent reports of Allied experts in economics.

Within the last few months the new republic has made rapid strides toward straightening many difficulties, in the opinion of the students of economics, one of the principal factors assisting in a balance in Poland's favor being liquidation of the Upper Silesian matter, which had been hanging fire for nearly three years, the settlement giving the Poles their own coal and from 40,000,000 to 43,000,000 tons annually for export.

The population of Poland is approximately 30,000,000.

While the American Relief Administration continues to feed some 500,000 children in the devastated areas and some of the crowded industrial centres, it is planned to abandon this work altogether in the spring, as, with good crops another season, the experts believe the government and the people will be able to get along without outside help.

A LEADING QUESTION

During the trial of a case in a Boston Court it became necessary to call to the witness stand a lady's maid.

"Where were you at 6.45 on the evening in question?" was the first query put to her by the examining counsel.

"Dressing the hair of madame," was the response.

"Now," said the Attorney, very solemnly, with uplifted finger. Was or was not your mistress in the room at that time?"—Louisville Courier Journal.

TORONTO WHITEWEAR SELLS AT LOW PRICE

TORONTO, Feb. 9.—(By Canadian Press)—The annual white-weave sales which have been a feature of the big Canadian stores for some years show a considerable decrease in prices. These, when compared with those of two years ago, should prove gratifying to the woman who buys. In some cases, notably cotton bought by the yard, quotations are down almost to pre-war levels. Linens, including tablecloths, serviettes and towels, which rose to three times their 1914 value in 1920, may now be procured at a fifty per cent advance over 1914 prices or half that charged in 1920. Linen sheets advanced in about the same proportion as other linen goods but have not declined as rapidly, being now quoted 40 per cent decrease on 1920 prices.

Although cotton sheets and cotton bedspreads are still quoted at 100 per cent advance on pre-war prices, it must be remembered that there has already been a substantial decrease. Sheets which sold at \$2.50 per pair in 1914 rose to \$10.00 in 1920. All told, the frugal housewife who has delayed replenishing her linen chest because of high prices has been able in most cases to procure two articles for what she would have paid for one of similar grade in 1920.

In women's ready-made white-wear the 1920 prices were from twice to four times as high as those of 1914, and the prices quoted now represent approximately a 50 per cent reduction from those quoted in 1920.

MANY BABIES DIE IN BOMBAY, INDIA

LONDON, Feb. 9.—A surprising disparity in the death rate of babies throughout the world is shown in the latest figures issued by the registrar-general. During the third quarter of the year just ended, Christiania, the capital of Norway, was the healthiest city, reported the infantile death rate per 1,000 being only 33, while Amsterdam, Holland, had a rate of 42, Stockholm, Sweden, 47, and Copenhagen, Denmark, 48.

WOULD HAVE USED GERMS TO SLAUGHTER ALL THEIR ENEMIES

DETROIT, Mich., Feb. 9.—A slaughter more terrible than anything in the history of the human race, and perhaps the annihilation of the inhabitants of London and Berlin, would have resulted had the world war lasted one more year, according to Will H. Irwin, author in a lecture here. "Germany had collected the germs of various diseases and was preparing to spread them over France and England to produce epidemics of various kinds, but the British Government heard of it through spies, and promptly collected germs of anthrax, a disease to which the white races are particularly susceptible, and had them in convenient shape to drop before the Germans were ready," said Irwin.

"Then the German authorities were notified if they attempted to sow disease by means of germs every town and city in Germany within a range would be deluged with anthrax germs. The threat was enough. The Germans did not attempt to spread disease germs broadcast, but if the war had lasted another year they might in their desperation have let loose their epidemics as the last blow."

FORMER SPEAKER OF ALBERTA GETS CHAIR

EDMONTON, Feb. 8.—Asserting his right to the speaker's chair, according to constitutional custom, Hon. Charles Pingle, late speaker of the legislature, has been presented with this very ornamental piece of historical furniture from the Alberta legislature. It was the first speaker's chair to have been used in the Alberta chamber, and was first occupied by Speaker Fisher, who died while in office, and the chair stayed in the chamber. He was followed by Speaker Pingle who claimed the chair and it is being shipped to him, after having served on the opening day of the new legislature.

The new chair is being built now for the speaker's platform, and it is stated that arrangements have been made with Mr. McPherson, that he will leave the chair in the legislative chamber when he leaves office. This chair is being made in the government shops.

Got No Sleep

But now the neuritis has gone, the pains have ceased, the nervous system is restored and the writer of this letter pays a grateful tribute to the medicine which made him well.

Mr. John Woodward, P.T.O., Lucan, Ont., writes:

"It gives me much pleasure to recommend Dr. Chase's medicine, especially the Nerve Food. I was a sufferer from neuritis for several years, and tried all kinds of remedies, yet never seemed to get any better. At last my nerves and whole system seemed to give way through not being able to get any rest or sleep at nights for pain, which mostly used to take me in all parts of the limbs and feet. My nerves would twitch till my whole body would seem to jerk right up as I lay in bed. Almost at the point of despair, I decided I would get Dr. Chase's Nerve Food, which I did, and after taking twenty boxes I believe myself almost normal again. I also keep a box of Dr. Chase's Kidney-Liver Pills on hand, and for the past year I seem to enjoy my usual health."

PIMPLES ON FACE DIDN'T LIKE TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying. There is only one way to get rid of this obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine

BURDICK BLOOD BITTERS
 and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.
 Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes:—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdick Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdick Blood Bitters cured them.'"
 B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.
