Army of veterans March to Ottawa TWO MORE EXPERTS TO BE CALLED TO EXAMINE SCHOOL BUILDING

General Riley's Army Marches to Ottawa and Interviews Government

OTTAWA, June 5.—For twenty minutes today "General" Riley's "army" of unemployed, which marched from Toronto, set in silent siege of the Parliament Buildings and then marched back to barracks. They were promised every consideration and sympathetic treatment by Premier King and Minister of Re-establishment Dr. Beland in an interview. Riley demanded a specific answer and said if something was not done they would stay at Ottawa "Till Hell freezes over."

OTTAWA, June 6.—"General" Frank Riley and his army of unemployed veterans, 267 strong, started out last night to march back to Toronto. They refused the Dominion government's offer of a train to convey them back to their homes.

The Premier and Minister of Labor addressed the men last night promising that their grievances would be at once investigated and relief afforded where such was indicated.

WAGE CUT IN UNITED STATES

Railway Shop Mechanics Lose
\$6,000,000 Under Recent
Order

CHICAGO, June 6.—Over the strong protest of the three labor representatives on the United States Labor Board a new wage cut of seven cents an hour for railway shop mechanics and nine cents for carmen cutting 400,000 men approximately \$6,000,000 yearly was ordered by the Board today. A \$50,000,000 cut for maintenance of way laborers was ordered last week and both reductions will become effective on July 1.

SCOTSMEN ARE TREATED ROUGH

Glasgow Rangers Mobbed After
Football Match at Copen-
hagen.

ONE MAN UNCONSCIOUS

Rough Play Precipitated Trouble
Following Unapproved De-
cision.

COPENHAGEN, June 7.—An angry scene occurred at a football match between the Glasgow Rangers and a Danish team. A Scotsman was ruled off and the rest of the team disapproved the decision. Rough play followed and the crowd mobbed the visitors at the end of the game, with the result that when the police restored order one Scotsman was found unconscious.

BUILDINGS SHAKEN DOWN BY PASSING TRUCKS: 40 BURIED

LEMBERG, Poland, June 7.—More than 40 persons were buried in the debris and many killed yesterday when two ancient 3-story buildings collapsed. They were supposed to have been shaken down by vibrations caused from passing motor trucks.

EIGHTY DROWNED AND STEAMER SUNK

MONTREAL, June 5.—Steamer Villa France sank off Hohenua following an explosion. Eighty persons were drowned.

NEW ERA IN AVIATION BY HELICOPTER

New Machine Can Hover
Stationary in Air or Fly
60 Mile Speed.

LONDON, June 7.—A successful helicopter, the dream of aviation experts for decades, has been devised by Louis Brennan, the noted inventor, with the aid of the British Government, according to the *Pall Mall Gazette*.

The paper declares a new era in aviation has begun. The new machine can rise 2,000 feet and hover stationary in the air and on the straightaway can fly 60 miles an hour.

SAILINGS CANCELLED

Warships About to Leave Chat-
ham Get Instructions to
Remain.

LONDON, June 7.—The Daily Herald prints the report that several warships about to leave Chatham for a destination believed to be Ireland, have received instructions not to leave port.

REPEATS OFFER TO CARPENTIER FOR FIGHT WITH GREB

NEW YORK, June 7.—Mystified by the failure to receive a reply from Carpentier to the offer of \$150,000 for a match in the United States with Harry Greb, lightweight champion, Tex Rickard has repeated the proposition to the French fighter.

PROBABLY RECALL CHINESE PRESIDENT

TIENSIN, June 7.—General Wu Pei Fu is coming here tomorrow to discuss with Le Yuan Hung the conditions of the latter's reinstatement as president of China.

Le Yuan Hung was forced from office in 1917 by the military but his recall was urged by the revised republican parliament last week.

SCULLING CHAMPIONSHIP

Walter Hoover World Champ and
Hilton Ballyea Third

PHILADELPHIA, June 5.—Walter Hoover of Duluth won the amateur sculling championship of the world here yesterday. Hilton Ballyea, a Canadian, was third.

VALENTINO ACQUITTED ON BIGAMY CHARGE

LOS ANGELES, June 7.—Rudolph Valentino, screen portrayer of love heroes, was liberated from the charge of bigamy by the court yesterday which ruled that there was insufficient evidence presented.

STEAMER ON BAR.

MONTREAL, June 5.—Steamer Villa France sank off Hohenua following an explosion. Eighty persons were drowned.

CENTRAL B.C. ROAD MONEY

Sum of About \$80,000 Appropriated Under Highway Loan Act.

COMMENCE AT ONCE.

Possible Prince Rupert May Get An Ailment for Waterfront.

The substantial sum of \$80,000 has been appropriated by the provincial government under the Highway Loan Act for central interior trunk roads this season and \$20,000 is already available for the Colleymount road upon which work is to commence at once. The commencing of other work is contingent upon final arrangements being made but Hon. W. H. Sutherland, minister of public works, is expected here from Victoria on June 21 and decision as to other important work, including the completion of the local waterfront road from Gow Bay to the government wharf, will likely be made following his visit. Dr. Sutherland will be accompanied here by P. Philips, public works engineer, and he will visit Alert, Quesnel and Skeena districts.

Advice as to the appropriations and work has just been received at the local public works office, and further announcement will be made after the plans have been further gone into here.

LONDON, June 7.—The Daily Herald prints the report that several warships about to leave Chatham for a destination believed to be Ireland, have received instructions not to leave port.

RODE SINN FEINERS OUT FROM ULSTER

LONDON, June 5.—British troops have driven the Sinn Fein invaders from the main positions in Ulster territory and a large part of the border between northern and southern Ireland is now virtually a battlefield. The occupation of Pettigoe is completed. Sinn Fein dead numbering seven were buried in a field. Sixteen Sinn Feiners including a commandant were captured. There was only one British casualty.

LONDON, June 6.—When the Irish representatives returned to London today says a correspondent of the Evening News, they resumed discussions with the British cabinet with the centre point as to whether Ireland shall be subject as all other Dominions, to the judicial committee of the British Privy Council on all constitutional questions.

PROGRESSIVES AND BUDGET

OTTAWA, June 6.—The final week of the budget debate opened yesterday with Langlin speaking. The procedure cut sharply across parliamentary practice of years. Hon. A. T. Crear moved an amendment to the Drayton amendment declaring that the Progressives' point of view was that the budget proposals, based as they were mainly on the principle of protection, were in respect to tariff, wholly inadequate to implement the Liberal pledges by legislation. Mr. Crear also said that the principle of protection as a basis for fiscal policy was unsound.

Mr. McDougall is returning tonight on the Princess Louise to Vancouver. He intimates that his firm, McDougall and McNeill, have now made a good start on the contract for the building of the new mental hospital at Essondale. Already a large number of men are employed there. It will cost in the neighborhood of \$750,000 and will take two years to complete.

LINE IS ALL CLEARED UP

Traffic on C.N.R. Restored After Recent Delays Caused by High Water

Everything has been cleared up at the scene of the washout at Selkirk and traffic is again restored to normal reported N. B. Walton, Canadian National general superintendent, this morning. Work was finished during the night and Sunday night's delayed passenger train reached here at 6:45 this morning, a couple of coaches having been sent out from here in the meantime late yesterday afternoon to transfer and bring to the city any passengers who did not care to remain on the sleeper of the regular train. This train returned to town at 11:45 last night.

The passenger train, due out last evening, got away at 10 o'clock this morning and tonight's train will pull out on time at 6:45. As far as is known now, tomorrow night's passenger train from the East will arrive here on time at 7:15.

FIVE MEN INJURED.

OAKLAND, Calif., June 7.—Five men are dead and three badly injured as a result of an explosion at the Trojan Powder Company's plant near here.

Complete Court House by August 1 Says Contractor; Ready for Occupation Then

The new provincial government court house for this city being built on the Market Square will be completed and ready for occupation by August 1, weather permitting, stated E. G. McDougall, head of the contracting firm of McDougall and McNeill, who with Albert and McGaffery, of this city, are erecting the building yesterday afternoon. Mr. McDougall with Hugh Whitaker, government architect, have been here for a few days inspecting the work and are very satisfied with the splendid progress that has been made and the finished shape the building is now taking.

Mr. McDougall reports that plastering will be in full swing to make an inspection of the this week with 25 men on this school building being put up there by E. H. Shockley of this city. He will return to Victoria.

The stone and brick and tile city. He will return to Victoria work, including the cornices, is as soon as he is back from the interior.

LONDON, June 6.—When the Irish representatives returned to London today says a correspondent of the Evening News, they resumed discussions with the British cabinet with the centre point as to whether Ireland shall be subject as all other Dominions, to the judicial committee of the British Privy Council on all constitutional questions.

Since the cornices have been put on the handsome appearance of the building has been accentuated and one can now have an idea of what a fine, substantial structure it is going to be. Mr. Whitaker, the architect, says that when building operations are done and the unused material and temporary store and office structures are removed, a start will be made on the putting in of the gardens and the plating off the grounds. Before the end of this season, the entire place will have a finished appearance.

Mr. McDougall is returning tonight on the Princess Louise to Vancouver. He intimates that his firm, McDougall and McNeill, have now made a good start on the contract for the building of the new mental hospital at Essondale. Already a large number of men are employed there. It will cost in the neighborhood of \$750,000 and will take two years to complete.

Mr. Whitaker, architect, left on last night's train for Smithers while working on a bridge at Oona River, Porcher Island, for the Provincial Government, one of the men, William Matheison, fell off into the water and came near being drowned. Luckily a motor boat was near by with the engine running and the man was picked up without any fatal results.

Two New Experts Are to Be Called for Further Advice on School Affair

In view of the fact that the reports of Consulting Architect A. A. Cox and Supervising Architect Potter on the condition of the Booth Memorial School so widely differ and the report of Mr. Cox for remedy of the defects would entail such a large expenditure and for other reasons, the School Board last night decided to engage another expert, A. M. Jeffers, former provincial government architect of Alberta and a man with wide experience in the business of brick and hollow tile building, to make a further examination and report. The provincial government is also to be asked to send a structural engineer to act in collaboration or separately from Mr. Jeffers on the matter. The resolution of the board to this effect was submitted to the city council where it received unanimous endorsement. Accordingly telegrams were sent last night to Mr. Jeffers and Hon. T. D. Patullo, member for this district, and replies are expected today.

**HENRY FORD
FOR PRESIDENT**

Announcement That He Is Willing if the People Want Him.

DETROIT, June 7.—Henry Ford has intimated privately that he will run for president if the people of the country desire but will refuse to spend any money to bring about his nomination, according to William Kronberg, one of the leaders of the "Henry Ford for President Club."

EXCHANGE HAS FURTHER RISE

Improved Conditions in Britain Responsible for Better Money Value.

NEW YORK, June 7.—The further rise in British exchange here overshadows all financial developments in point of importance. Demand bills on London rose to \$4.504, the highest point reached since 1919.

Financial experts say the phenomenal advance is attributable to Britain's income tax rate resulting in the stimulation of trade, especially with the United States.

JAP CABINET HAS RESIGNED

Opposition Won Out in Demand for Reform Policies.

TOKIO, June 6.—The cabinet of Premier Takahashi resigned last night after continued attacks by the opposition. The policies of broader educational facilities, land, armament reduction, extension of the franchise were the ones on which the government came to grief.

DISCOVERER OF YUKON IS DEAD

George Carmack, Stricken in Vancouver with Pneumonia, Passes Away.

VANCOUVER, June 6.—George Carmack, discoverer of the Klondyke, is dead here after having been stricken with pneumonia last Friday. He was a pioneer prospector and miner of the north and was born in California in 1860.

LORD GREY WEDS

LONDON, June 6.—Viscount Grey of Falloden and Lady Glenconner were married on Sunday.

DAILY EDITION

Tuesday, June 6, 1922.

Wise Course Of School Board.

It is very satisfactory to see the School Board and City Council working harmoniously and with a view to finding a way out of a difficult situation. Allegations have been made in regard to the whole building at Hays Cove which the majority of people believe to be absolutely without foundation in fact. The architect from Vancouver seems to have gone out of his way to attack everything connected with the school and has been so extreme that there has been a reversal of popular feeling in regard to the whole situation. Even the foundations put in by so well known an expert as V. Bassano-Bert have been severely criticized and yet there are good buildings in the city erected in exactly the same manner that are monuments to his skill. In the Daily News office the foundations of the big press are of rough rubble and there is daily vibration on it of a machine weighing something like sixteen tons, yet there is no sign of a crack or flaw of any kind after two years. If rubble construction is no good what about the Killas building and others in town?

Tile Construction
The Newest Method.

Tile construction is the very newest thing in school building. Mr. Potter knows that. We have no brief for Mr. Potter, but we have information from the East that tile construction is in general use in large new buildings and even lighter construction than the Booth School is used in them. Word comes from the prairies that many schools are in use there built almost identically the same as the school here and without a flaw or crack or defect of any kind. The system is all right in spite of what Mr. Cox says. In view of this it may be that Mr. Cox is otherwise mistaken and that the work is solid.

We sought an interview with M. J. McNeill today with a view to securing his opinion on the work but he refuses to talk about it. However, from the report of local men who have thoroughly inspected the building, we are inclined to the belief that things are not half as bad as they have been painted and that the building is quite safe. Unfortunately there seems to have been some poor quality mortar used in the fire wall and nothing has yet been done to waterproof the brick. This really means that the building is not yet completed. So far as the main part of the structure is concerned, however, the public fears it is hoped will be relieved.

Fortunately the School Board and City Council have taken the proper course to have the very best advice obtainable and there is nothing to do now but to await the arrival and report of the experts. We might have believed Mr. Cox had he not defeated his own ends by trying to find fault with every part of the building and with everyone connected with it. From this it is evident that his opinion was biased and may be considered unreliable. If it is true that he has never had to do with that class of construction and is prejudiced against it, that adds to the case against the reception of the report as final.

Should Not Shield
The Guilty Ones.

In placing the matter before the Prince Rupert people in this manner there is no attempt being made to shield those who are responsible for any defects that may be found in the building. Undoubtedly the completed work was not satisfactory but the flaws have been exaggerated and the fears of the people have been played upon until today there are some who are wondering if the building will stand until the arrival of the experts. As a matter of fact the building will be good for centuries. In his letter yesterday Mr. Potter reflects upon the reports given by the newspapers. So far as the Daily News is concerned we publicly repudiate any such reflection. Every effort has been made throughout to keep the public informed on the matter and nothing has been suppressed. The reports have been as full as it was possible to make them, other news features being constantly sacrificed in order to use the lengthy reports. In order to make it possible to publish Mr. Potter's report a few days ago, several unimportant paragraphs had to be deleted, but otherwise it was complete. We spent a lot of time copying that report so that the people should know the view of the construction architect as well as his critic. When the next report comes we shall give the people the whole of it if we can possibly find space for it. We feel sure that when it comes we shall all feel happier over the situation.

BAIT Our frozen herring bait is conceded by fishermen to be the finest procurable at any Pacific Coast Port—and it is "Fishty." Price, \$30 per ton.

ICE The best way of insuring a good quality trip is to have plenty of our hard frozen ice. Price, \$4 per ton.

Outfits Our well-equipped store can supply fishing gear, fishermen's clothing, groceries and provisions and hardware.

MOST DRUGS
GROWN IN INDIA

Thirty-two Million Doses of Morphine Exported Annually From That Country.

MANUFACTURED
IN BRITAIN

Shipped from London and Edinburgh to United States and Other Countries.

With the suggested method for effective dealing with the vendors and promoters of the illicit and degrading traffic—namely a severe application of the "eat" and deportation—a public with a moral sense will certainly be in the fullest accord says a writer in the London Times. I would say "Let them have it hard." But as one who has lived in the Far East for 25 years I would put before the public some facts not widely known with regard to the nefarious trade in opium and morphine by the British-Indian Government.

Exploitation.

Commercial exploitation in its most sinister form is being seen in the traffic in morphine. The struggle has always been between a profitable traffic on one side and moral obligations on the other. When once we realize that this trade has grown from 5½ tons in 1911 to 28 tons in 1920, that every ton represents no fewer than 32,000,000 doses, and that its introduction is entirely contrary to the laws of the country, we see at once how terrible a thing it is. A very large part of this opium comes from India (where we actually have more land under cultivation for opium at the present time than was the case when we were openly sending the drug to China previous to the year 1917); it then comes to this country, where it is converted into morphine, largely by London and Edinburgh chemists; it is shipped in bond to America; transhipped to Japan; and thence smuggled into China or taken through Tsing-Tao openly.

Overproduction.

British firms were accustomed to send large consignments of morphine by direct route to Japan but now it arrives by the round-about way mentioned above. What is the crux of the whole position? It is undoubtedly the over-production of opium in India. If that were arrested other sources of production could be dealt with in comparative ease.

Condemned by a unanimous vote in the House of Commons as "morally indefensible" when carried on with China, India is still permitted to supply five Eastern Governments with as much opium as they officially ask for. Boasting that she does not sell the drug to private persons in those five countries, by agreement she drenches them with narcotics, which find their way by smuggling into China. Passing a Dangerous Drugs Act for our own country, which forbids the unlicensed possession of opium and its derivatives, the British-Indian Government yet maintains its scandalous and nefarious traffic. The figures for the output are:

Acreage	Ibs.
1916-17	14,665 272,634
1919-20	30,813 285,290

Educated Indians themselves have vehemently protested against their country being defiled and dishonored by this disgraceful traffic. But we are all dishonored by it; every nation regards us as disgraced by its continuance. We do not even keep our colony of Hong-kong free from contamination. About 1,300 lbs. per month is sent from India—when 36 lbs. a year would be ample for medical requirements; 15,600 lbs. in place of 36 lbs. and 45,564 lbs. if it goes in the demoralization of the colony or is smuggled across to the mainland of China.

No doubt there are great difficulties in the way—due to our own wrong—of the suppression of the traffic, and they are not to be minimized; those difficulties must be met with courage and overcome. But, instead, the acreage of poppy, the sale and degradation have increased apparently by leaps and bounds. That there is now the like seduction of our own young people by narcotics and drugs, we cannot blame Heaven—our hands are not clean—it is the boomerang of retribution.

SAVED FROM AN OPERATION

"Fruit-a-tives" Completely Relieved Me

2928 UNION ST., VANCOUVER, B.C.

"I suffered with all the symptoms of Female trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. A doctor advised me to have an operation.

I started taking "Fruit-a-tives" and this medicine has completely relieved me of all my misery and suffering.

I am free of pain and headaches and the terrible Constipation, and what saved me is the fruit medicine, "Fruit-a-tives."

T. R. Clougher, of the Clougher Syndicate, London, England, and Mrs. Clougher are visiting in Prince Rupert. They are the guests of Mr. and Mrs. R. L. McIntosh, Fourth Avenue West.

A big bull belonging to one of the local dairymen created quite a disturbance around the corner of Fifth Avenue and McBride Street this morning and started to browse on Dr. Eggert's lawn. Before any serious damage was done, however, the big animal was taken in charge by Constable Adams.

The double corner at the corner of Third Avenue and Third Street was sold today by J. N. McWilliams to a Calgary syndicate through Helgerson Bros., real estate office. The price involved in the transaction was \$16,000 or \$920 per front foot.

TIRANA IS CAPITAL

People There Still Burn Oil
Lights and Have No Outside
Communication.

TIRANA, Albania, June 6.—The distinction of being the "toy capital of Europe" so long enjoyed by Gattinje, the old site of the palace and court of King Nicholas, of Montenegro, falls now to Tirana, the capital of Albania, where regents, chiefs, beys, ministers and diplomats are beginning to congregate to set up the governmental magnificence of the new state, the last to be admitted into the League of Nations.

Tirana still burns oil for light. She has no communication with the outside world except a wagon-road leading to her seaport," Durazzo. She boasts a market place and five mosques and has lately adapted an old building into a hotel called "The International Hotel." The government palaces are scattered throughout her winding narrow streets, which are lined with merchants displaying their wares sitting with crossed legs in the Arab fashion.

One Story Building.

The stores and houses, roofed with a red tile, are all of one story. Distinction is given the old buildings in the fact that they have two stories. All are old buildings adapted to the use of government by the introduction of a few chairs and desks. Each building has no more than six or eight rooms. The ministers enter their offices with great solemnity and ceremony. Orderlies and ushers stand at attention while the heads pass. Inside his office, the minister calls his ushers by an old-fashioned table bell, electric bells being wholly unknown in this primitive land. With stern severity, everyone addresses the minister as "Your excellency."

Weston Coyne, who has been in the General Hospital for several weeks, expects to leave the institution today.

On recommendation of the utilities committee, the city council last night decided to call for tenders for seven uniforms for the fire department.

The fire department had a second grass fire call yesterday afternoon at 3:30 to the corner of Seventh Avenue and Green Street. The fire was quickly extinguished before any damage had been done.

The expense account of Attorney General A. M. Manson on his recent trip to Ottawa as the delegate of the city amounting to \$269.84 was approved and passed for payment by the city council last night.

The tender of the Prince Rupert Supply Co. to supply the city with two transformers at \$129.50 each was accepted by the council last night. The tender of the Canadian General Electric Co. was \$131.50 each.

With an amendment covering bridges separately, the city engineer's extraordinary traffic by-law, providing for the closing of streets and bridges when repairs are going on, was finally adopted by the council last night.

Ald. Perry reported, at last night's council meeting, that the report of the fire chief and the building inspector on buildings in the business section in connection with fire risks would be forthcoming at the next meeting.

A petition was received at last night's council meeting from George D. Tite and 18 others asking that the sidewalk between Fraser and Borden Streets be repaired. The petition was referred to the Board of Works. Ald. Kerr pointing out that the sidewalk in question was not on city property and the city had nothing to do with it.

Ald. Collart suggested at last night's council meeting that the use of the water wagon sprinkler on the streets was not economical and that more effect might be gained if the firemen used the hose for the purpose of laying the dust in warm weather. Ald. Kerr pointed out that the firemen would not be allowed to do this work, under the rulings of the fire underwriters.

The city council last night met with the request of the Sons of Canada that the Acropolis Hill grounds be granted for the exclusive use in connection with the Dominion Day celebration on July 1. The proviso was made, on the suggestion of Ald. Kelly, that satisfactory arrangements be made with the Football Association for the playing of the Dominion Day cup finals.

Doctors to Examine Adelarde Delorme in Regard to His Mental Condition.

MONTREAL, June 6.—Alienists have been summoned to Montreal to examine Adelarde Delorme and report on his mental fitness to stand trial on the charge of murdering his half brother Raoul.

THE DAILY NEWS

BEAUTY OF THE SKIN

Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. It relieves blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All sizes. Edmaston, Bates & Co., Ltd., Toronto. Sample free if you mention this paper.

Mrs. Rick's SCOTCH SCONES

We had an enquiry asking for a recipe for real Old Country Scotch Scones. This is one Mrs. Rick sent us a while back. We have tried it and it is good.
4 cups of flour, one teaspoon soda, 2 teaspoons cream tartar, 1/2 teaspoon salt, 1/2 teaspoon sugar, Pacific Milk (diluted with equal amount of water) to make soft dough. Mix well and bake on a hot griddle. Turn and bake on other side.

They keep better if wrapped in a towel.

BRINGING UP FATHER

PERRY STILL AFTER DECISION FINANCE UTILITIES AFFAIRS

Ald. Perry again pressed at last night's council meeting for a conference between the Utilities and Finance committees with a view to settling questions in regard to the status of the utilities with general fund. It was time that some decision was reached by the council, he thought.

Ald. Dybhavn stated that the matter was being delayed pending the receipt of a report from George Rorie, the auditor. The Finance committee, he intimated, was prepared to recommend that the utilities be allowed 20 per cent of its net revenue for betterments and extension of system this year. Mr. Rorie's report would be submitted shortly.

Ald. Montgomery thought the big question was whether or not there was to be a reduction in light rates. In view of the surplus shown in recent years, he thought the light rates could be reduced and a reasonable profit shown.

Ald. Silversides replied that the utilities committee had never said there would be a reduction of rates this year although the chairman, in his own independent remarks, might have indicated as much.

Ald. Perry said that all he asked for was a meeting of the two committees to settle the point at difference.

CITY IS EMPOWERED ADOPT SUMMER TIME GOOD ROADS CONVENTION

Attorney General Confirms This in Reply to City Solicitor's Query.

Hon. A. M. Manson, attorney general, in reply to the enquiry of the city solicitor, has confirmed the power of the municipality to decide on the adoption of daylight saving for such periods as it may prescribe, an order-in-council making this possible. Ald. Montgomery had questioned the council's power in this respect.

"SOFT FINISH" STATISTICS

A great many ladies took advantage of our special price on "Soft Finish" laundry last week. That they were satisfied is evident by the number who have sent again.

As we placed no limit on the size of the bundle, it is interesting to note, that the largest did not exceed 40 pounds, that the ordinary charge, Soft Finish, varied from \$1.15 to \$3.45, and that the average bundle did not exceed \$2.00 in price.

We noted also that washing from our regular patrons finished in much better condition than work which had previously been done at home or elsewhere—another argument in favor of patronizing the laundry where scientific processes are followed.

A trial will convince you.

CANADIAN STEAM LAUNDRY

Phone 8.

The offer of Northern Directories to sell to the city council copies of the special issue of the Plaindealer dealing with the steel and iron industry in the district was turned down by the city council last night. The Finance Committee reported that, for financial reasons, the offer could not be entertained.

SUCCESS FOR STUDENTS AT UNIVERSITY

Miss Helen Fotos and Her Brother John Take High Honors at McGill.

Word has been received by Principal Brady of the success of two former students of the local High School at McGill University. The Dr. Barclay scholarship for proficiency in the classics has been awarded to Miss Helen Fotos. In the second year arts course only two students received first class honors, of whom one was Miss Fotos.

John Fotos, a brother of Miss Helen, obtained also a first class in second year arts, tying for second place with another student.

The Montreal Gazette in announcing the results refers to the fact that Miss Helen Fotos now of Montreal comes from Prince Rupert, B. C.

These two young students, with other ex-students of the High School, whose names have already been published are good advertisements of the educational advantages of Prince Rupert. When here they were good students, John being the winner of a prize essay in a contest inaugurated by the Daily News. In it he showed much originality and a wide knowledge of the English language.

Big Gathering to Take Place at Victoria Beginning Monday Will Last Three Days

VICTORIA, June 6.—Plans are now all complete for the holding of the big good roads convention here commencing on June 12 and lasting for three days under the Canadian Good Roads Association. It will be one of the most important conventions of the year and visitors will be here from all parts of Canada.

Addresses will be delivered by public men and road experts. There will be premiers and other ministers of many of the provinces, college professors and practical road builders. The state engineer of California will give an address as will also the supervisor of State highways for the state of Washington and many engineers of note both Canadian and American.

In addition to the serious work of the convention there will be outings and a banquet and dance.

WOODEN AND STEEL BRIDGE PLANS ARE BEING PREPARED

City Council Will Soon Deal with Question of Rebuilding Hays Creek Bridge.

The city engineer has prepared plans for a new wooden bridge to replace the condemned Hays Creek bridge on Sixth Avenue and plans for a steel bridge are now being worked on. It is expected that both will be submitted to the city council next Monday night with a view to deciding on what structure is to be adopted so that a bylaw may be submitted. The plans being prepared call for the bringing of the bridge up to grade by raising it some seven feet from its present level.

TWO NEW EXPERTS ARE TO BE CALLED FOR FURTHER ADVICE ON SCHOOL AFFAIR.

(Continued from Page 1.)

decide upon. He suggested Mr. Auier, of the C.N.R. as a suitable expert.

Mayor Rochester.

Mayor Rochester said he agreed with what had been said. The School Board was up against two vastly differing opinions and had arrived at a happy and reasonable solution. The man they had chosen, specially engaged in this form of construction, might be just the man. The council was heartily in accord with what the school board was doing and would render all the aid possible. When might Mr. Jeffers be expected?

Dr. Kergin replied that he would be sent for right away. In reply to Ald. Perry with respect to an investigation, the board had not been remiss and had taken the matter up with the city solicitor. He had said that the contractor could not be held responsible in view of the fact that the architect had advised his release last January. They would legally have an investigation and they were looking towards one held by the government with the witnesses under oath. No legal action could yet be taken against Mr. Potter as they did not know exactly how the matter stood.

Ald. Perry explained that his query was not made so much towards placing the blame as to ensure the passing of a money bylaw which might later be necessary to carry out repairs.

Ald. Montgomery.

Ald. Montgomery said he absolutely favored an investigation even though nobody could be held responsible. He could not however, see how a contract could be drawn up providing for no responsibility and he would hate to think that the persons who had made the mistake, willingly or otherwise, could get off scot-free. The public would require full knowledge of the affair and if an enquiry was held it would clear the air to a large extent. To turn down the bylaw for repairs and leave a quarter of a million monument would be deplorable. It was no

use to cut off one's nose to spite one's face and that was what would happen now, in his opinion. It was up to the School Board and the city council to work with the best intentions and look from the same point of view. He would force an investigation for someone to blame and he wanted to see the blame placed where it belonged and others cleared. In justice to each and to all, the only thing they could do would be to have an investigation.

In reply to Ald. Montgomery, Mr. Patmore said that the contract had been a binding one and Col. McDermid did have obligations and had put up bonds but he had been released on recommendation of the architect. He agreed with the city solicitor that, in view of this, he could not be held.

Did Not Know.

Ald. Montgomery observed that he thought it was peculiar they could not hold the contractor.

If he had been released before he was done, that was another thing.

Mr. Patmore said that they did not know at the time of Col. McDermid's release that there had been such great defects. Had they known, the contractor would not have been released and Mr. Potter would not have recommended it.

Ald. Montgomery said that he had the impression that the school was not finished. There was water on the floors of the building. Surely that was justification to withhold the release. Facts were all they had to deal with.

Ald. Perry then moved that the report be adopted. Ald. McLeod seconded this and the resolution carried unanimously.

GERMAN SPOOKS CAUSE TROUBLE

Oculism Said by Professor to be Fashionable Disease

BERLIN, June 5.—Germany, like many other nations, is turning more and more towards occultism, spiritualism and all the other isms as a reaction from the war, and the revolution with its extreme and actual horrors.

The soul shut up in a prison house longs to break its fetters and forth into a world, visionary and nebulous it may be, but nevertheless, comforting by reason of its very speculative and contemplative character.

At a session of the "Society for Psychical Studies," Dr. Aigner delivered a lecture in which he pronounced occultism to be a fashionable disease, a slogan, under the guise of which each one formulates his own conception of the obscure, something that hobbies around between hypnotism, clairvoyance and spiritualism.

Injurious Effects

It is due to this general vagueness on the subject that every sensational event is made the reason of occult interpretations. Oculism as a fashion, has two injurious effects—first, everyday occurrences which formerly could be disposed of calmly and scientifically is now made and confused by mystical complications.

In the second place, everything that has been learned to be of benefit in occult studies, so that the serious student finds it much more difficult to form any conclusions.

He then proceeded to make a few suggestions which he thought might serve to call a halt to what he pronounces a psychical epidemic. What we understand by the term occultism are certain occurrences connected with the peculiar endowment of suitable persons. Such persons exert a hitherto unexplained influence upon their surroundings. Hypnotism is occultism of yesterday, a characterization which is quite justifiable. Hypnotism ran the entire gamut of scientific rejection by the laity just as in the day today with the occult phenomena.

These phenomena are tablooning, clairvoyance, telepathy similar manifestations, with which scientific knowledge will do nothing to do, but is accept-

UNION JACK IS HOISTED

Ceremony at Osland School, Smith Island, with Address to Pupils.

A bright little ceremony took place on Smith Island on Thursday June 1, when the Union Jack presented by the government was hoisted over the Osland school.

All the pupils were grouped round the flagstaff and sang patriotic songs and a few rendered suitable recitations. A good many of the settlers were present and Mrs. V. Grimsson, gave an inspiring little speech, urging the children always to love and guard the old flag and its traditions.

Thanks are due to Miss Morris, teacher for the able way in which she had drilled the children. As the flag was hoisted all the children stood to the salute and sang.

'Tis Thy Flag and My Flag, the best flag on earth.

Oh, cherish it my children for it flows by right of birth, Our fathers fought, our fathers died to rear it to the skies, And we, like them, will never yield, but keep it flying high.

The ceremony closed with three cheers for the flag and "God Save the King."

PYTHIANS PLAN FOR NEW HOME

Calling for Plans for Building on Grenville Court—Election of Officers.

Skeena Lodge No. 46, Knights of Pythias, is planning the erection of a new home of their own on property on Grenville Court, Fraser Street, which is now being held tentatively by the order. The matter was given full discussion at the regular lodge meeting last night and it was decided to have J. W. Potter, architect, draw up plans for a frame structure and also for one of tile and concrete. The building planned will probably cost about \$5,000 and to finance it it is proposed to sell bonds to the members of the order. Building and finance committees were delegated last night and these will bring in further reports at next lodge meeting. The finance committee comprises S. A. Reynolds, S. Hamblin, John Bulger, H. Hawkins and A. Squires and the building committee, W. Burken, H. M. Daggert, H. Blake, F. Garton, W. R. Love and George Johnstone.

Election of Officers.

Election of officers was another important item of the business last night and the following, after keen contests in some cases, were chosen as office bearers of the order for the ensuing half year:

Chancellor Commander, S. A. Reynolds.

Vice Chancellor, Fred Garton, Prelate, W. H. L. Norris, Master of Work, W. Gilchrist, Keeper of Records and Seals, H. Hawkins.

Master of Finance, S. Hamblin, Master of Exchequer, George Johnstone.

Master of Arms, J. Woods, Inner Guard, J. Sturgeon, Outer Guard, Eddie Hudson.

WATER TOO HIGH IN THE KHTADA RIVER FOR GOOD FISHING

Fishing is not very good at Khtada according to the report of the Bryant party who returned yesterday afternoon. Owing to the hot weather of last week there is too much water in the river. The snow is all gone from the trail and tramping is good. While the party secured a few nice trout, they ate most of them sitting around the camp fire. Those who went were George Bryant, George Munro, E. F. Duby, W. O. Fulton and S. J. McLeod.

P. W. Anderson, provincial government road superintendent, left this morning for Kitwanga and other points up the line on departmental business. He will be gone about a week.

K. C.'S WINNERS OF FIRST GAME

Defeated Sons of Canada Last Night by Score of 14 to 8 in Baseball.

In their first appearance of the season in the Senior Baseball League, the Knights of Columbus defeated the Sons of Canada last night by a score of 14 to 8. The game was witnessed by a big crowd of fans but was rather loose throughout, especially in the first few innings. The victory of the Knights was wholly due to their superior battery for fielding on either side was not of the highest quality and there were many errors in the infield.

The Sons of Canada, first to bat, made two runs in the first inning and the Knights came through with three in the second half of the same frame. The second and fourth were productive of four more each for the Knights and in the latter the Sons replaced Joe Ratchford behind the bat with Anderson from short. Ratchford had been dropping a lot but Anderson, in the last five innings, held better control and the Knights were successful in getting only three more runs while the Sons made four in the eighth and two in the ninth. In the seventh inning Vic Menzies, in the box for the Canucks, was replaced with Eddie.

The Knights of Columbus battery comprising H. Astoria pitcher, and E. A. Donohoe, catcher, held up well throughout and had the support been better, the defeat of the Sons might have even been greater.

The opening battery of the Sons, made up of Vic Menzies and Joe Ratchford, did not give the Knights much worry, especially in the early stages.

S. J. Evans was umpire of balls and strikes and James McLean, bases.

The teams lined up as follows:

Sons of Canada—Joe Ratchford, c; J. G. Anderson, ss; H. Menzies, 2b; V. Menzies, p; W. Sloan, cf; H. B. Charlton, 1b; J. Farquhar, 3b; W. Robertson, lf; G. Mitchell, rf; Eddie, p.

Knights of Columbus—L. W. Field, 3b; Douglas, cf; L. Moore, ss; E. A. Donohoe, c; T. Moloney, 1b; F. Henning, 2b; J. O'Reilly, lf; L. Astoria, rf; H. Astoria, p.

Score by innings:

4 2 3 4 5 6 7 8 9

S. O. C. 2 0 0 0 0 0 4 2 — 8

K of C. 3 4 0 4 1 0 0 1 1 — 14

Sport Chat

The Sons of Canada, in Saturday night's game with Port Simpson, showed, for the first time this season, a glimmer of their old-time speed and tightness at the baseball game. The visiting hurlers were pretty easy for the local team and hitting was free on the part of the town boys, in fact, some criticized the game because there was too much hitting. Astori, for the Sons, made a very creditable showing on his first appearance in the box this season but the feature of the game was the practically airtight infield of the home team. It is to be hoped that they continue, in the regular city league fixture, the quality shown in this game.
