Premier Lloyd George Ready Return Home if Agreement is Not Struck on Russian Note

GENOA, May 6.—Russia's reply to the Allied memorandum will be ready on Sunday or Monday. It will be a distinctly conciliatory document and it is not intended to break off negotiations, Foreign Minister Tchitcherin said today. It will, however, he declared, firmly state Russia's inability to comply with the terms offered.

Reuter's correspondent here says the final Russian decision is not expected before Monday or Tuesday.

Ready to Leave

Meanwhile it is rumored that Premier Lloyd George's train is ready and that, failing a favorable change in the situation as a result of M. Barthou's return from France, the British prime minister will return to London. The most critical stage of the conference has been reached.

Going to Accept

LONDON, May 6.—Despatches from Genoa say that Belgium will not insist on opposition to the Allied memorandum to Russia and that France and Belgium will now accept it as framed. It is understood Premier Lloyd George will immediately pack up and go to London if they do not accept.

EXEMPTION OF FISHING BOATS FROM PILOTAGE

Resolution Passed House of Commons Yesterday—Warships at Discretion

OTTAWA, May 6.—A resolution exempting Canadian fishing vessels from pilotage dues and also authorizing the exemption, at the discretion of the Governor-General, of warships and hospital ships passed the House of Commons yesterday afternoon.

The Minister of Marine explained that it had been customary to exempt fishing boats from pilotage fees, but there had been no legal authority for doing so.

VETERAN NORTH COAST SKIPPER HAS PASSED AWAY

SEATTLE, May 6.—Captain Bruce McKay, one of the best-known Alaska navigators of the early days, who for many years commanded the steamer Dora from Seward to points west, died at the sailors' home at Snug Harbor, N.Y., on April 28, according to word received in Seattle yesterday. He is survived by a brother, Captain Archie McKay of Seattle.

ALDER REPORTS ON CONVENTION

Says Prince Rupert Should Press Claim for Trunk Roadway.

W.J. Alder who was the Prince Rupert delegate to the convention of the Associated Boards of Trade held in the south recently, addressed the local board at the meeting last night. He thanked the board for the honor they had bestowed upon him in appointing him a delegate at the convention. He said he had found that all communities, both large and small, had their problems to face. Premier Oliver had requested that no extraordinary requests be made from the provincial government for large outlays of money as government funds were hard pressed. There were requests for elevators, especially from Vancouver, also coal bunkers and other port facilities. The Dominion government had decided to place these where they were most needed so it was up to Prince Rupert to show the government how much they were needed here.

BONUS FOR LOWER PAID MEMBERS OF CIVIL SERVICE

Will Continue For This Year; Expected There Will be Reduction for Higher Ones

OTTAWA, May 6.—The bonus to civil servants will be continued during the present year, probably in the same form as at present in the cases of lower salaried employees, but a reduction is expected for the higher paid ones.

HIGH HONOR TO BE DONE PRINCE MANILA, MAY 13

Similar Military Ceremonies as Prescribed for President—Anthem to Be Changed.

MANILA, May 6.—The highest military honors as prescribed for a visit of the President of the United States will be accorded the Prince of Wales when he arrives here on May 13. The only change in the ceremonial program will be that "God Save the King" will be played instead of "The Star Spangled Banner."

WEI PU FU'S WIN OVER CHANG MEANS CHANGE CABINET

PEKIN, May 6.—The forces of General Chang Tso Lin, the Manchurian leader, have been completely routed and General Wei Pu Fu is now in command of the situation. This will mean a complete re-organization of the Chinese cabinet which, at present, is largely in support of General Chang.

TROLLER TOWED INTO PORT; HAD LONG HARD TRIP

Gasboat More Than Sixty Days on Voyage From Seattle Arrives Ketchikan

KETCHIKAN, May 5.—In tow of the Canadian Pacific steamship Princess Ena, Captain Cliffe, the troller boat 570-L arrived in port on Thursday after having been on the way from Seattle for more than 60 days. The only one aboard was Harry Ash, the owner. Ever since he left Puget Sound he has had engine trouble and one difficulty after another. Early Thursday morning the Princess Ena found him near Hog Rock. His engine had been dead for some time and he could not get it to work, with the result that he was rapidly drifting toward the rocks. Had he been left for another half hour he believed as did the officers of the Ena, that he would have been wrecked. He is now going to make Ketchikan his home and never intends to attempt the same trip again under similar circumstances.

WEATHER ON QUEEN CHARLOTTE ISLANDS IS FACTOR IN LAW SUIT

Expert nautical evidence as to the state of weather in Queen Charlotte Sound last November is being adduced before Mr. Justice Macdonald as the deciding factor in a suit by the B. C. Mills Tug and Barge Company against T. A. Kelley, a logging contractor in the Vancouver Supreme Court. The towing company is claiming \$803 as the balance alleged due on a towing contract under which \$10,000 has already been paid.

The defendant is counterclaiming for \$19,000, loss of profit on three rafts of logs which, he claims, the tug Commodore failed to convey from the Queen Charlotte Islands to Captain Cove. The contract was that the logs were to be towed to the mainland before December 31 if the weather permitted.

THREE NEGROES ARE BURNED BY MOB OF MEN IN TEXAS TOWN

KIRVIN, Texas, May 6.—Three negroes were burned to death at the same stake this morning by a mob of 500 men following alleged implication in the murder of a 17 year old white girl.

BIG OFFER FOR RETURN MATCH

Purse of \$400,000 in Proposition for Paris Bout Before Jack Dempsey Now.

PARIS, May 6.—An offer of a \$400,000 purse, seventy-five percent to the winner and twenty-five percent to the loser, was made to Jack Dempsey, world's heavyweight champion boxer, this afternoon for a return match with Georges Carpentier, champion of France, to be held in the Pershing Stadium some time in the autumn.

NEW COMMITTEE BOARD OF TRADE LABOR AFFAIRS

Suggestion of Joint Committee T. & L. Council Adopted.

Following up a suggestion that was made some time ago that there should be a committee of the Board of Trade appointed to co-operate with the Trades and Labor Council on questions in which labor was affected, S. D. Macdonald, president of the Trades and Labor Council, was last night present at the regular monthly meeting of the Board of Trade, having been invited by President G. H. Orme to attend and outline his ideas. The discussion resulted in the decision to add a labor committee to committees already standing.

In opening his remarks, Mr. Macdonald explained that the idea of the joint Trades and Labor and Board of Trade committee had emanated in the Hamilton Board of Trade. The local Trades and Labor Council had discussed the matter and had felt that such a committee would be beneficial in heading off any labor troubles which might threaten. At the time of the local dry dock trouble, the council had a committee and its work had been of much assistance. With the co-operation of the Board of Trade they had managed to keep things going smoothly at that time.

Outside Contracts.

Continuing, Mr. Macdonald spoke of the big building and labor contracts which had been let to firms outside the city. He did not think that outside contractors should be given work at a time when unemployment at home was acute and when men were trying to make a home in the city. He thought that with the co-operation of the Board of Trade such matters could be taken up with better effect and that it was in the interest of the community in general that local men were given employment in preference to outsiders.

Mr. Macdonald said that, while he was not willing to admit that there will not always be a struggle between labor and capital, he did believe that a joint committee of the Board of Trade and the Trades and Labor Council could work together for the benefit of the entire community. As far as the Trades and Labor Council was concerned they had men of all views, but the moderate class was the class represented. In concluding Mr. Macdonald said, "If a committee is appointed by your board I think we might, with benefit to all, meet any trouble that may arise in future and you never know when trouble is coming."

TENDLER WINS OVER JOHNNY DUNDEE IN BOUT AT NEW YORK

NEW YORK, May 6.—Lew Tandler, of Philadelphia, defeated Johnny Dundee in a fifteen round decision bout here last night.

IDEA IS FAVORED.

D. G. Stewart said he believed that nothing but good could come of such a scheme. M. P. McCaffery said, with reference to labor and capital, that the Board of Trade was between the two and that should any trouble come up they must equally suffer with the working man. The Board of Trade was composed of small business men and he thought it would be very proper in the interests of the community at large if a committee, as outlined by Mr. Macdonald were appointed to co-operate with the Trades and Labor Council.

E. F. Doby said: "I think that a great number of the difficulties that arise between employer and employee are due to lack of co-ordination. When such cases arise there is naturally a feeling of antagonism and information which might tend to alleviate the situation is withheld probably by one side or the other. I feel that some sort of co-operation of this nature would be very beneficial and I think it would be quite proper if a standing committee were appointed by the president of the Board of Trade to confer with a like committee from the Trades and Labor Council."

One Hundred And Twenty Five Carloads Herring And Salmon Going East

E. M. Urell, representing the Beacon Trading Company of Seattle, left for the Balmoral and Inverness canneries on this morning's train to negotiate for the purchase of some 40 thousand barrels of mild cured herring and mild cured salmon, which will be shipped through Prince Rupert during the season. This will mean that some 125 carloads of this fish will be shipped over the Canadian National Railway to Philadelphia, Boston, Chicago and New York, and part of the mild cured salmon will be shipped to England.

Last year the Beacon Trading Company shipped some 14 thousand barrels of herring, and 21 carloads of mild cured salmon over the C. N. R., so this year's shipment is a marked increase.

An experiment was made by this company last season in shipping two carloads of mild cured chums to Germany. The experiment proved successful and this year they contemplate shipping another five carloads.

CARPENTIER IS BIG BETTING FAVORITE

Difficulty in Getting Lewis Takers for Battle Next Thursday in London.

PARIS, May 6.—Georges Carpentier, heavyweight champion boxer of France, is the overwhelming favorite in betting on the match with Ted Lewis in London next Thursday. Four to five odds are being offered on a straight result but there are no takers.

TENDLER WINS OVER JOHNNY DUNDEE IN BOUT AT NEW YORK

NEW YORK, May 6.—Lew Tandler, of Philadelphia, defeated Johnny Dundee in a fifteen round decision bout here last night.

ACTION TAKEN.

E. C. Gibbons said: "It seemed to be a unanimous expression of opinion and he thought that a labor committee should be added to the committees of the Board of Trade and that such a committee should be appointed permanently."

He then made the motion that a committee be appointed to confer with the Trades & Labor Council committee on matters pertaining to mutual affairs arising and that a permanent committee be added to the Board of Trade committees. This motion was seconded by Mr. Doby and carried. S. D. Macdonald thanked the members for the manner in which he had been received and for the way the suggestion of the Trades and Labor Council had been received.

DE VALERA IS ENDORSED BY U. S. LEAGUE

WASHINGTON, May 6.—The American Association for the Recognition of the Irish Republic met yesterday and pledged its unqualified support to Eamonn de Valera and his faction of the Republican Party. It was also decided to exclude from participation in the activities of the league all those who do not subscribe to De Valera's ideas.

BOARD OF TRADE IS ASKED TO ADOPT A QUEBEC RESOLUTION

At the Board of Trade meeting last night a letter was read from J. G. Scott of the British Columbia and Skeena Coal Co. Ltd., Quebec, in which he stated that he had mailed 18 copies of a pamphlet containing evidence before the fuel committee of the House of Commons. He said there was an agitation in Quebec for the government to return the Grand Trunk and Canadian Northern Railways to their respective bondholders, thus getting into a financial position to enable the government to devote all its energies to the Transcontinental and the G. T. P., so that the northern country could become settled.

The following resolution was also suggested in the letter: "That the Prince Rupert Board of Trade is of the opinion that it would be wise for the government of Canada to put a stop to the deficits which have taken place, owing to the operation by the government of the Canadian Northern and the G.T.P. Railway; that the board is further of the opinion the government should retain and operate, as public works, the Transcontinental Railway from Quebec to Winnipeg to Prince Rupert, as a national northern colonization road, adapted for the rapid settlement of the country and for the cheap transportation of the settlers grain and other products; that the board congratulates the government upon its intention to erect the necessary plants at Prince Rupert for coaling stations for bunkering steamers in the Asiatic and other Pacific Ocean trades."

SONS OF ENGLAND FAVOR BOY SCOUTS

At their regular lodge meeting last night the Sons of England passed a resolution in favor of the Boy Scout movement and decided to present the local troop with two uniforms. Every assistance possible in the work will be given by the society.

European Commercial Situation Improved.

Trade and industrial conditions in several European countries, particularly Great Britain, are, in the opinion of experts, steadily improving, though somewhat slowly.

While the governments of Europe undoubtedly continue to have their very serious difficulties of a political nature, there are signs of improvement in business which is much less dependent upon the activities of governments than might appear to be the case.

Countries Becoming More Productive.

A year ago there was much political and industrial unrest, troops in large numbers were on active service, the coal industry had closed down and dependent lines were necessarily affected.

It seemed then as though Great Britain had lost her foreign coal market, but today it is obvious that this has been recovered to a great extent.

The Manchester Chamber of Commerce says that hopes of a moderate revival of trade with India have been realized and that inquiries from India and China have been numerous.

India, for many years the great market for British cotton goods, has become herself a manufacturer of such goods.

China has become more or less a manufacturing country absorbing, say, 100,000 bales of American cotton last year. South America, notably Argentina and Brazil, have begun to manufacture textiles and generally all countries give signs of interest in domestic manufacture.

General Indications Most Encouraging.

As for trade between Great Britain and the United States exports from the city of London are suggestive. For the three months ended March 31, 1922, declared exports from London to the United States aggregated \$7,870,899 plus merchandise valued at \$1,272,589 which was invoiced in American currency only, against exports for the same period in 1921 amounting to \$2,011,675.

If we remember how prices have dropped since a year ago we shall at once see that not only has there been an increase in values but a still greater increase in quantities. The large single items of these exports which show increase are: Leather, precious metals, gums, linens, scrap metal, aluminium, linseed oil, and copper concentrate.

One hesitates to pick out these cheerful symptoms for purposes of optimistic discussion because it is always very dangerous to prophesy and yet he would have to be a very pessimistic individual indeed who would fail to recognize the prevailing indications as most encouraging.

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this? As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

FIRST SAWMILL IN FAR NORTH

Is Being Shipped From Edmonton To Herschel Island

EDMONTON, May 6.—The first sawmill for the Arctic coast reached Edmonton this week from the east, being consigned to the Royal Canadian Mounted Police, and purchased from the Empire Engineering company here. It will be sent to its destination at Herschel Island at the mouth of the Mackenzie by steamer from Waterways and will be used by the guardians of the north for manufacturing lumber for the various post buildings of the Mounted Police along the Arctic coast.

The equipment which consists of a heavy portable sawmill and an 18 horse-power Branford engine, is crated in such a manner that no doubt exists but that it will reach its destination without mishap, and doubtless this fall the Eskimos will hear the scream of a circular saw for the first time in their lives.

The engine which accompanies the mill is of the two-cycle variety, is minus carburetor or ignition, and can be run either on fish oil or on the crude oil from the Fort Norman wells.

TALE OF CANADIAN BACKWOODS FEATURE WESTHOLME THEATRE

Miss Anita Stewart Appears in Her Strongest Dramatic Role Yet

"Playthings of Destiny," the first national attraction which headed the bill at the Westholme theatre last night and will be repeated tonight, has been hailed by critics as being the strongest dramatic production in which Miss Anita Stewart has ever appeared. It was adapted from the novel, "The Tornado," by Anthony Paul Kelly.

The story is of Julie Laneau, a Canadian backwoods school teacher, who is led to believe that Geoffrey Arnold, with whom she is intensely in love, had a wife living at the time he married her. She flees from his cabin in the midst of a blizzard, and nearly freezes to death before she is found by Herbert Randolph. They are snowbound in his cabin for six weeks, during which time Randolph learns to love her and proposes marriage.

Julie is aware that in the near future she is to have another life to care for, and, after frankly telling Herbert she does not love him, accepts his offer of marriage. Herbert rises rapidly in the world and is in line for appointment as Governor General of Jamaica, when the Earl of Stanhope arrives on the island to select the man for the post.

The Earl is Geoffrey, who has come into the title through the death of a relative. Julie discovers that she still loves Geoffrey, but, beyond betraying the fact that she knows him, keeps the secret of her love until Geoffrey and she are facing death together. Then comes the clearing away of the misunderstandings and the climax which is as strong in emotional dramatics as any scene yet placed on the screen.

VISCOUNTESS RHONDDA STARTS DIVORCE SUIT

LONDON, May 6.—Viscountess Rhondda's undefended petition for the restoration of conjugal rights against her husband Sir Humphrey Mackworth, was granted yesterday. Such a petition is a usual preliminary to divorce action.

Viscountess Rhondda, daughter of the late Viscount Rhondda, is one of England's most noted business women and since her father's death she has sometimes been referred to as "the coal queen of Great Britain." Early in March she was granted a petition to sit in the House of Lords, being the first woman to achieve this distinction.

Hon. Dr. J. H. King, federal minister of public works, entertained at a delightful dinner in the Parliamentary Restaurant at Ottawa last week. The guests were British Columbia parliamentarians and visitors, among them being Hon. T. D. Pattullo, B. C. minister of lands, and Fred Stork, M.P. for Skeena.

FINE CHANCE FOR MEN TO BUY CLOTHES

Many Bargains Offered at Universal Trading Co's Free Pants Sale.

The high cost of living has certainly taken a big slump the last two days in so far as the clothing of the male population of Prince Rupert is concerned. Yesterday the Universal Trading Co. commenced a three day sale of "Clothes of Quality," which will terminate on Monday, May 8. Judging from the number of men who visited this well known emporium yesterday, they are every bit as keen bargain hunters as the women.

Mr. E. J. Skinner, a practical tailor with years of experience behind him, is at the store in person and is taking all measurements himself, guaranteeing perfect fits. Suitings in the same of materials and in all shades of color are on display in profusion. Life sized model suits cut in the very latest fashion can be inspected by purchasers.

The suits include an extra pair of pants and the prices range from \$27.00 to \$65.00 per suit. With this opportunity the men of Prince Rupert should aspire to become the best dressed men in the province.

At the Board of Trade meeting last night a letter was read from Fred Stork, M.P. thanking the board for the invitation extended to the parliamentarians to visit Prince Rupert this summer. It was hoped that arrangements could be made for a parliamentary train to visit the coast. If so he was assured that Prince Rupert would be on the itinerary.

G. W. Nickerson, speaking at the Board of Trade meeting last night, criticized the proposed daily train service, referring especially to the 12 hour wait at Jasper which he claimed was necessary to make connection with the train eastbound from Vancouver. He thought the railway company might have discussed the schedule with local authorities before putting it into effect in its present form.

All Eye Pains Mean Something

But what is it can only be revealed by a careful examination by a competent optician.

We examine eyes carefully—and fit glasses accurately.

Let us test your eyes, there may be nothing at all wrong with them, but it would be a good thing to KNOW that.

It will take but a few minutes to find out.

Children's Stockings that stand the wear

THERE is no need to tell Canadian Mothers anything about quality of materials in Mercury Hosiery for children—the name "Mercury" is recognized as the mark of quality—

But we do want to emphasize their wearing quality. They are reinforced where wear comes most—dyed with fast, non-running colors—knitted so that washings do not change the shape. Reinforced parts carry all the extra strains. Mercury Hosiery stands the wear.

Ask your dealer to show you "Mercury" Children's Hosiery.

Waterfront Whiffs

Doings of the Mosquito Fleet Which Is the Chief Source of Prince Rupert's Prosperity

The admiral of the fleet reports that everything is "jake" in waterfront circles this week and that the fishing business is swimming in fair times. While the weather has been kind of "juicy" it has been conducive to good fishing. With the price of fish hovering around the 14 cent mark, and catches being up to the average there is no immediate likelihood of any members of the crews deserting to the Swiss navy.

During the week up to Thursday evening, the amount of fish marketed at the Fish Exchange had totalled some 283,500 pounds including 3,500 pounds of red salmon, which arrived aboard the Plop on Monday.

An Indian boat put into port during the week with a fur cargo including some splendid specimens of mink and marten.

Certain ditch work is being undertaken in the vicinity of Gow Bay and there is a rumor that the long expected fresh water main is to be put in. Now that the roadwork is on a permanent basis it is thought that the old excuse of waiting on this account will not hold water, but it is hoped that the new pipes will, in contemplation of this long felt want being fulfilled the fishermen intend to indulge in more glacier water as a stimulant than hitherto and two real cut glass water pitchers—that is, pitchers cut with glass—have been installed at the Mug Up to take care of the aqua pura.

The announcement that the fish oil, edible fish meal and fish fertilizer plant is to resume operations at Tucks Inlet is welcomed in nautical circles.

It is considered that this is a forerunner of better times ahead for the port and that it is a step in the right direction.

There is a tremendous amount of fish offal available along the waterfront. This at the present time is dumped outside the harbor and therefore the commercial value is thrown to the waves, whereas it can now be turned to use. With a plant of this nature so near a number of the fishermen are contemplating keeping pigs and chickens, edible fish meal being a great pork and egg producer. Several likely sites have been picked out in the vicinity of Bone Yard Creek.

The tug boat Starston, Captain H. A. Watson, left port on Thursday afternoon for Georgetown. It is the intention to pick up a seaw load of fish boxes and lumber for the home market.

Captain Claud Ketchum, of the Wigwag, has secured a towing contract from G. G. Bushby of Vancouver. Mr. Bushby is contemplating renewing operations at the former plant run by the Tucks Inlet By-products Co. Ltd.

The Canadian National coastal liner Prince Rupert steamed from the dry dock on Thursday afternoon and tied up at the C.N.R. dock preparatory to her going on the summer season schedule.

Bob Hanna, one of the civil lords of the Mosquito Fleet, made a minute inspection of conditions existing along the waterfront, in company with the Admiral, during the week. He drew attention to the fact that a trench was being dug for the new water main but upon further enquiry it proved to be a retaining wall. However, Bob doesn't know this. The dismantling of the shore batteries, which is an aftermath of the disarmament conference, was also carefully gone over. Bob finds that with very little labor a 5 inch shell case will make a good container for Hudson Bay rum. A dead cat, which had been found in one of the guns of the battery, Bob ordered to be buried "tout sweet." It is understood a written report is being made of the inspection which will be read in nautical circles at

a future date. E. H. Shockley is putting up a lumber shed and an approach near the Imperial Oil dock for the unloading of scows.

The moving of the postoffice from its present location to the Black building is a matter of grave concern to the Admiral.

He complains that his rheumatism, which he caught through putting water in it, will not permit of his taking such a long walk in a southwesterly direction to pick up his bills. However Flossie has volunteered to push the Admiral to the new site in a baby carriage anytime he feels like receiving money from home through the mails. Of course for this added service Flossie will receive an extra emolument.

Capt. Angus McAllister of the Pug has just completed an overhaul prior to leaving on a salmon trolling expedition. It is rumored that Cap has invented a new salmon spoon, which is made out of a piece of corseled steel. He guarantees that if it doesn't draw the fish to the hook it will draw suckers.

Captain McKinnon has just purchased the Cushman from J. Field and has put in an application for membership to the Mosquito Fleet through the vice-admiral.

The Tip-Top, Jack Bradbury, is lying at anchor in Gow Bay. The secret service are working on the case.

The troller Spey, Captain G. Spey, arrived from Porcher Is. and on Thursday. The skipper is taking supplies aboard for his ranch on which extensive development work is to be carried out this season.

Captain Rosang has his new combination salmon and halibut boat in first class shape and is intending to clear for the high spots over the week-end.

The N. & S. Captain H. Lear, returned from the halibut banks on Thursday morning.

J. Field, first vice-president of the Northern Exchange, reports the following sales:

The Wakesia to W. Whalen. This is a cabin cruiser, 36 ft. long x 9 1/2 ft. beam.

The salmon troller Cushman to W. McKinnon, 31 ft. long x 8 ft beam fitted with a 6 h.p. Vivian engine.

The Beaula to Jimmy Thomas, ex-First Mate of the Wigwag, 24 ft long x 6 ft beam, fitted with a 4 h.p. Easthope engine. The library fixtures were put in forthwith.

During the week Flossie Flirt hit out on her first seal hunt taking a course S.S.W. by P.M. while steaming at 3 1/2 per hour to use the dear things own words "a million or more of seals was sighted." Flossie took a shot with both barrels. On sorting out the dead it was discovered that a catwampus had been hit with the right barrel while the left barrel had gone and hit a whosis. In addition to this marvellous catch Flossie caught a bath, the shock of the back fire of the fowling piece fouling Flossie over the guard rail and into the salt chuck. The engine behaved very stupidly during the action distributing dingbats and jigsaws all over the deck and Flossie was up half the night scratching the bilge. A shark tried to bite the rudder but the propeller was on the job and wound his whiskers off. Next day Flossie saw a bunch of seals sunning themselves on a rock and creeping behind within 50 ft. caught a handful. Thinking she had enough for a fur coat the lady hit back only to find that the seals captured were hair seals. Exit Flossie in tears.

The Troline was sold on Thursday by J. Field to Fred Parker of Metlakatla. This is a nifty little salmon troller measuring 25 feet by 7 1/2 ft. beam and fitted with a 4 h.p. Regal engine.

The secret service of the fleet have been shadowing S. Carter of the Booth "booster" hatcheries to try and find out where he goes at 4:35 every night beating the whistle by 15 minutes.

It is reported that a fine building, suitable for housing chickens you can eat, is taking shape on Eighth Avenue East, and that people in the near vicinity are complaining of lack of lumber. Evidently our friend W. J. Cash has been taken at his word and a slight hole will be made in his savings for chicken food in the near future. We suggest it would be a good idea to make a chicken feed contract with the new fish by-products that will shortly be in our midst. Do it now W. J.

SUNDAY SCHOOL INDOOR PICNIC

Crowning of May Queen and Other Pleasant Numbers Made Methodist Affair Last Night Great Success.

The indoor picnic held by the Methodist Sunday School last evening to celebrate the closing of the winter activities of the Sunday School and the Trail Rangers was a great success indeed. There were fully 100 boys and girls and grown-ups in attendance and special seating provision had to be made to accommodate all. The evening's entertainment consisted of a Junior concert in the course of which the pleasing ceremony of the crowning of the May Queen took place. Serving of refreshments in all in the social parlors and the gymnasium brought an evening of outstanding enjoyment to a close.

Following a piano solo by Miss A. Way, the first section of the program by the Primary Department of the Sunday School under the direction of Miss W. and Mrs. W. E. Williams commenced. The youngsters, taking part in this appeared in splendid array reflecting credit on the training of Mrs. G. G. Perry who was also accompanist.

Primary Program.
The items were:
Duet by Merma Fuller and Audrey Parkin.
Chorus, boys and girls.
Spring sketch, boys and girls.
Solo, Audrey Parkin.
Recitation, Audrey Wrathall.
Duet by Edid and Claire Williams.

Song, Rhoda and Violet Perry.
Recitation, Violet Perry.
Sailor Song, Bertie Cameron.
A dark plantation scene by Miss Bessie Derry and Miss Nita Clarke was splendidly presented and enthusiastically received.

Crowning the Queen
The ceremony of crowning Miss Ina Lindland Queen of the May then was carried out. E. W. Ling was master of ceremony. The flower girls were Miss Elaine Heilbroner, Miss Mary Ann, Miss Violet Green and Miss Peggy Steen, and the attendants, Miss Verna Thompson, Miss Ella Steen, Miss Betty Anderson and Miss Connie Morgan. All these young ladies were daintily dressed and the scene was a pretty one indeed.

The closing section of the program was by the Trail Ranger boys, Mrs. E. Stockdale being in charge of the vocal training. The program was as follows:
Piano duet by Gordon Parkin and Clifford Cameron.
Song by the Trail Rangers ended with a comic song depicting the difficulties of soldiering life.

After the National Anthem had been sung the boys and girls repaired to the gymnasium and the grown-ups to the church basement and refreshments were served. The basement was prettily decorated with trees giving a summery effect. Ice cream and other refreshments were dispensed and the Junior Choir had an artistic candy booth. The ladies in charge were: Mrs. A. J. Mallett, Mrs. George W. Kerr, Mrs. F. Dibb, Mrs. James Morrison and Mrs. Howard Steen.

Frank Derry, Sunday School superintendent, was chairman of the evening.

Sport Chat

If weather conditions tomorrow are in anyway suitable, local athletes and fans will likely take another try at putting the Aeropolis Grounds in shape. The squad that was out last Sunday, though small, did good work. There should really be more present themselves tomorrow, however, for it is necessary if the opening games in the baseball and football leagues next week are to get a good start that the work be done and the field put in some kind of half decent and safe condition. Those who are interested in sport at all will have a good opportunity of giving a real demonstration tomorrow by turning out for duty.

Snooker players must be suffering with spring fever in Winnipeg. A number of great breaks have been made recently, the biggest one being by Val Cornield, the flying Frenchman, who in a friendly game at the

Palace billiard room came through with a break of 110. Starting with twelve reds on the table the Frenchman went right along, making nine blacks and three blues, and then taking all the colors up to the black, missing the last ball right over the pocket. This is probably the best break ever compiled in the country, and certainly the best ever made in Winnipeg.

Another Yankee player is going to the hospital to have his tonsils taken out. The Yankee in question is none other than Babe Ruth, and, by the way of coincidence, he follows Bob Meusel, who had offending tonsils removed a short while ago and who with the Babe, was suspended by Commissioner Landis for forbidden barnstorming last fall.

Babe was to go to the hospital this week for the operation. He has been bothered by a cough and other disagreeable throat conditions, and his doctor attributes these to defective tonsils. Surgery isn't a new experience to Ruth, for his infected arm in the world's series last fall had to be treated, and he also has a big scar on his hand where the knife entered on another occasion.

FIRST SOCCER LAST EVENING

Sons of Canada Beat Sons of England in Practice Game 2 to 1.

The Sons of England and Sons of Canada football teams last night met in a very spirited and clean practice game on the Aeropolis Hill grounds, the result being a 2-1 win for the Canucks.

The grounds were in very good shape considering all conditions but the weather clerk was not very indulgent during the well contested struggle, wind and rain hindering the game considerably.

The teams lined up as follows:
Sons of England—W. J. Bourne, goal; J. O. Williams and S. Ferry, fullbacks; E. Mansell, Bert Wearmouth and Eddie Craggs, half backs; W. J. Hemming, J. Kelsey, Percy Tinker, H. M. D. Lambie and Jimmy Farquhar, forwards.

Sons of Canada—H. Frizzell, goal; G. Mitchell and H. Menzies, fullbacks; W. Davis, V. Menzies and E. Tait, half backs; D. Robinson, W. Anderson, J. Marks, E. Warren and J. Falks, forwards.

During the first half Percy Tinker scored for the Sons of England and at half time they led 1-0. In the second half the Sons of Canada made a bold bid for victory. V. Menzies and J. Marks both registering goals.

E. A. Woods was referee and A. Clapperton and Frank Vickers linesmen.

PLAYED A DRAW.

In a practice football game on Wednesday evening at the Aeropolis Hill grounds the crews of the steamers Prince Rupert and Prince George played to a 2 all draw.

"This Typewriting Gets on My Nerves"

"I WONDER if I am getting nervous. There must certainly be something wrong with me, for I am so tired in the mornings and do not seem to have the energy to transcribe the bunch of letters which I get every day.

"Of course, I have been working harder than usual to make up for those who have been away sick. Then I have been helping more at home while mother was sick. I suppose it all helps to tire one out and exhaust the nerves.

"But what was that I was reading about Dr. Chase's Nerve Food building up the nerves? Perhaps that is what I need. There was something about worry and anxiety breaking down the nervous system, and I have surely had my share of worry.

"That may account for my

headaches and sleeplessness, as well as for the tired feelings which I have all the time. Well, I am going to get some of Dr. Chase's Nerve Food today and give it a try-out."

Dr. Chase's Nerve Food is so gentle in action and yet so potent as a restorative that it is a great favorite with women of all ages. It seems to be admirably suited to the needs of their delicate nervous systems, and on this account it has come to be universally used as a means of restoring vigor and energy to a run-down, nervous system.

The healthful color and appearance of people who have used Dr. Chase's Nerve Food—the elasticity and vivacity of their movements—is the best evidence of the benefits they have attained. 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

PIMPLES ON FACE DIDN'T LIKE TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.

There is only one way to get rid of this obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine

BURDOCK BLOOD BITTERS

and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.

Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes:—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters chased them.'"

B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

off Digby Island, southbound; Venture due 1:30 p.m. southbound.

REV. HACKER GOING SOUTH ON CHURCH AND LIBRARY WORK

Rev. Geo. G. Hacker and Mrs. Hacker leave tomorrow night on the Prince Rupert for Vancouver and Victoria. Mr. Hacker will attend the Boy's Work Conference, to be held in Vancouver on May 15 and 16, also the Methodist conference to be held May 16 to 25. Mrs. Hacker is a delegate to the Women's Missionary convention to be held in New Westminster from May 16 to 18.

While in the south Mr. Hacker will take up questions affecting the new local library and will have with him a list of the books already in possession of the library committee with a view to taking up the question of supplementary books with the government authorities in Victoria. While in Victoria Mr. Hacker will also confer with H. F. Pullen, another member of the board.

Ald. Colliart, the city representative on the board is receiving suggestions as to suitable volumes.

YUKON RIVER BOATS WILL BE TOO BUSY TO HANDLE TOURISTS

Although it is expected that more tourists than ever will be wishing to make the trip into the Yukon this summer, the river steamers on the Yukon River will be so busy carrying freight and passengers to Mayo camp that it will be impossible to handle them all. This statement was made by W. D. Gordon, superintendent of the White Pass and Yukon route who passed through the city going north on the last trip of the Princess Mary. There will be no "Midnight Sun" excursion this year.

FALSE ECONOMY

The family that does not provide for laundry service in the weekly budget is practicing false economy. Under our new plan, Laundry work by the pound, practically the entire family bundle washed and returned, damp almost ready for ironing, for \$1.25.

* This is the cheapest Laundry Service ever offered locally, and the husband who has the welfare of his family at heart cannot afford to pass this service up without serious consideration.

We have also our Soft Finish Service, where for a small additional charge, everything is dried and all flat pieces ironed and folded.

To those who can afford the small additional cost, this is the most complete service possible, without finishing the entire bundle. The cost will be found to be considerably below the prevailing price.

A trial will convince you of the merits of this service.

FRESH ROASTED COFFEE FRESH ROASTED

The value of coffee as a beverage lies primarily in its strength and flavor. Green coffee will keep indefinitely, but such is not the case after it has been roasted.

Roasting brings out the flavor and aroma. Coffee becomes stale because of loss of these aromatic principles. We are roasting and packing for current requirements only, realizing that, essentially, coffee must be fresh roasted to prove perfectly satisfactory.
