Free Staters Will Issue Call To Arms VANCOUVER AND VICTORIA ANXIOUS TO HAVE LIBERAL MEMBER

Fighting Continues in Dublin and Provisional Government to Issue General Call to Arms Tomorrow

DUBLIN, July 5.—Ten buildings in Sackville Street were ablaze at three o'clock this afternoon.

It is not known whether De Valera and other republican leaders are still with the garrison, but it is believed a considerable number of the defenders have escaped and joined other bands of republicans.

Bombardment of buildings occurred by republicans in Sackville Street. The stronghold resumed at one o'clock this afternoon after a few hours' lull.

Hammann's Hotel, one of the principal hotels in the defense was ablaze shortly after midday and flames are spreading.

It was learned on excellent authority by the Press Association that the Irish Provisional Government intends to issue a call to arms tomorrow.

POLITICIANS BUSY AT BOTH COAST CITIES

Competition Over Leadership in Order to Create Dominion Vacancy.

VICTORIA, July 5.—While politicians wrangle and jangle and haggle over trivialities, the businessmen of Victoria and Vancouver are in sharp rivalry over the possibility of getting a Government supporter representing them at Ottawa.

At present Hon. S. F. Tolmie is the member for Victoria and three Conservatives represent the Vancouver districts, one of whom is H. H. Stevens. Both of these men were ministers in the late defunct Ottawa Government.

The rebellion against the Bower leadership is accentuated by the desire to bring about the transfer of both Stevens and Tolmie to the provincial arena so that a successor may be chosen of an indifferent shade of politics, one who would be in closer touch with the powers at Ottawa.

Failed to Impress.

Both Stevens and Tolmie have failed to impress the Ottawa Government while in the north. Stork has been having it all his own way and McBride of Cariboo has also swung in with the Liberals.

Similarly the businessmen of Victoria admire Dr. Tolmie but they would much prefer a representative who would be in closer touch with the administration and who might help in getting the local unused ocean docks busy.

Not a Plum. The provincial leadership is not looked on as a plum but it might prove a Godsend in a place to which to remove an unwanted politician.

VANCOUVER ISLAND SALMON CATCH IS MAKING A RECORD

RUSSIA LAUNCHES HER FIRST LOAN PAYABLE IN GRAIN

MOSCOW, July 4.—Soviet Russia has launched its first international loan to the value of 10,000,000 pounds of rye, receivable in money, but payable in grain after the next harvest.

Six million Soviet rubles are calculated to be worth one pound, or 36 pounds of rye, in receiving the subscriptions and the loan is put out at 95 repayable at par in December and January next.

The loan was authorized by the All Russian Central Executive committee as the first of its measures, after the close of the Genoa conference, to relieve the financial situation.

The Canadian National steamer Prince John, Captain Neddin, which is to make a special trip to Vancouver this week to take the overflow of passengers from the Prince George tomorrow night, has been delayed by fog on her trip north and will not arrive in port until 5 o'clock (Standard Time) Friday morning, sailing south at 8 a.m. (Standard) for Vancouver via Ocean Falls instead of midnight tomorrow evening as originally scheduled.

CONSERVATIVES HAVE MAN IN FIELD FOR CRANBROOK RIDING

NELSON, July 5.—N. A. Wallinger, late Government agent at Cranbrook was unanimously nominated by the Conservatives at their convention last night to contest the Cranbrook constituency on their behalf at the forthcoming provincial election.

The latest information is that the train bringing the visiting teachers will not arrive in the city until nearly ten o'clock local time. They will proceed at once to the exhibition building where they will be entertained at a dance. A six piece orchestra has been secured, two saxophones, piano, trombone, violin and drums and traps. R. F. McNaughton has telegraphed the visitors that they are expected at the dance. Citizens are expected to be present.

MANITOBA TELEPHONE SHOWS GOOD SURPLUS

Adverse Balance of Last Year is Being Wiped Out.

WINNIPEG, July 5.—After taking care of all expenses, the Manitoba government telephone system shows the largest monthly surplus balance in its history. Commissioner John E. Lowry submitted to Hon. Robert Jacob, minister of telephones, his report for May, showing a surplus, after deducting all operating expenses of \$5,508.72 for the month. The figures for the corresponding month last year represented a deficit of \$71,205.49.

SASKATOON VOTES AGAINST BYLAWS

SASKATOON, Sask., July 5.—For the first time in the history of Saskatchewan the burgesses have turned down all of a group of money bylaws submitted to them. Four bylaws, authorizing capital expenditure totalling \$81,000 were defeated at the polls today. Only 163 ballots were cast although the property owners' voters' list contains over three thousand names.

LEONARD IS STILL CHAMP

Seconds of Rock Kansas Threw Up Sponge in Eighth Round.

MICHIGAN CITY, July 5.—Benny Leonard, world's lightweight champion, smashed Rocky Kansas of Buffalo all around the ring in eight rounds of a scheduled ten round bout in the second contest between these rivals for the title.

Kansas' seconds threw the sponge into the ring at the end of the eighth round to prevent something worse than a technical knockout, which was awarded the champion.

Kansas was still on his feet at the end of the eighth but had taken a severe beating and the general opinion was that a knockout would follow.

POLICE CHIEF SAYS POOLROOMS MENACE ALSO LAZY PARENTS

TORONTO, July 5.—Poolrooms in Canada are the greatest schools for young criminals in existence. Chief of Police Dickson of the San Francisco police department told the international convention of chiefs of police in session here, in discussing the crime evil and its cure.

Neglect by parents, laziness and idleness combined with an uncontrollable desire for pleasure and luxury is another factor in creating criminals, Chief Dickson stated.

Special recommendations for action by the association as urged by Chief Dickson were:

An international or universal law prohibiting the purchasing or possessing or carrying of weapons without a permit from the chief of police, record-keeping by dealers of all firearms sold and control over the importation of all firearms.

Some means of counter-acting the use of automobiles by criminals in the pursuit of crime. Legislation regulating poolrooms and dance halls. Substantial fine combined with long term of imprisonment for the drug peddler. For the drug addict, confinement long enough to effect a cure.

SALMON FISHING NOW IMPROVING SKEENA RIVER

Average So Far This Week is 26 a Boat With High, 113—Naas Average, 51.

SKEENA LEADS SPRING PACK; NAAS SOCKEYE

The first of this week has seen a considerable improvement in the sockeye fishing on the Skeena River, the Dominion Fisheries office reporting the average up to last night for the week 26 to a boat with 113 high boat. The improvement it is expected will continue rapidly now. The average for the Naas which has been outstripping the Skeena so far, is reported at 51 with the high boat, 166.

The total pack of sockeye for the Naas River so far this season is just double of the Skeena. The figures are: Naas, 4600 cases, Skeena, 2500 cases. The Skeena canneries are ahead in the spring pack, however, with 4600 cases, the Naas being 600.

**Cost Pruning
 Quite In Order.**

The decision of the city council to carefully prune all costs in connection with the public utilities and with all other departments seems to meet with the unqualified approval of the rate-payers. The mounting taxes have just had the effect of drawing particular attention to civic administration. Many people have had to borrow money in order to pay their taxes and others have seen their little balance practically disappear before the inroads of the city, provincial and Dominion collectors. So heavy is becoming the burden that there is talk of relinquishing property rather than continuing to pay.

One glaring example of heavy taxation was recently seen in the case of a lot which cost the purchaser \$25. The taxes on this lot amounted to over thirteen dollars, well over fifty per cent of the value of the lot.

**There Is A Destiny
 Which Shapes Our Ends.**

While communities as with individuals it is apparent that there is a destiny that shapes our ends. Mostly the citizens weave it themselves. While outside influences often have a tremendous effect on a community, the efforts of the citizens themselves are what really count. If we get the habit of resigning ourselves to our fate and giving up making efforts we begin to deteriorate as a community.

This spring we have found business rather quiet and a good many people leaving the city for the larger and busier centres. Our industries have been shut down with the exception of the fishing industry and a little activity at the drydock. We have to a large extent been creatures of circumstance. But we need not remain in this condition. It does not do to sit and brood but rather we must keep active and alert for every opportunity of improving our condition, no matter how small it may be.

**Looking For
 Great Things.**

While it is necessary that we get out of the habit of looking to the outside for all our development, it is impossible to get away from the impression that we shall be the centre of considerable activity before long as a result of outside influences. This is largely the result of activities here. We have been feeling the backwash of a receding wave but very soon we must expect the next to come, urged forward by the tide, which will carry us farther than we have ever before reached.

There are many things that newspapers cannot discuss. There are often influences working which do not come to the surface. What we have to do now is to keep our faith in the city and in the meantime leave no stone unturned in our efforts to improve conditions.

**Must Respect
 Rights of Others.**

Complaints have been made that visitors to Metlakatla and other places have not been as careful as they might of the gardens and property of the Indians. At this time of year the natives go away to the fishing grounds. The more they take part in the fisheries the better it is for the district. In doing this they have to leave their homes temporarily. It does not speak well for their white neighbors to find on their return that the fences are broken and the property otherwise damaged.

It has been found necessary for the Indian department to set police to protect the property of the Indians. The department is giving notice that punishment will follow any future depredations.

**Ten Years Ago
 in Prince Rupert**

July 5, 1912.
 The police commission reports the interference of the Dominion and G. T. P. police in maintaining order within the city limits.

The railway bridge at Skeena Crossing is nearly completed and Superintendent W. C. C. Meehan announces that the first train will go across at the first of the week.

The Canadian Bank of Commerce is to proceed with the erection of a two-story building on Second Avenue near the corner of Fourth Street, plans of G. P. Proctor, architect, having been accepted.

**The Man in the Moon
 SAYS--**

IT is reported that there is much jealousy in Vancouver and Portage La Prairie over Prince Rupert's wonderful weather.

ANYONE wishing to have their pants pressed free should take them off and lay them on the street where the big roller is operating. It might be well to put on another pair before placing the first pair on the street. Care should be taken not to follow too closely in the track of the tarvia tank as in that case friends would know how they were pressed and might consider you a "cheap guy."

AT Church on Sunday I heard the parson say: "The poor ye have always with you," and I heard an undertone next me, "yes, and the street construction zone."

PRINCE RUPERT people have been for several days carefully contemplating the vacuum left by the disappearance of the tax amount from their bank account.

TAXPAYERS are talking of raiding the city hall and calling a halt on all expenditures. All they need is a leader.

THERE was a time when girls sat at home turning the spinning wheel and longing for a husband. Today they advertise for a "position" and say "to bathoo with all husbands."

IF we could abolish women, motor boats, and visitors, what would the Prince Rupert citizens have to spend their money on.

JINKS says they would still get a smile.

METHODISTS are worrying over the religious life of the colleges. It seems that they have given up singing "Where Is My Wandering Boy Tonight" at those institutions.

TIME was when every respectable citizen in a small community belonged to the Good Templars. Now the same r. c. pays a visit to the Community's Fraser Street.

**INDIANS HOLD
 OWN IN CANADA**

Natives of Country Have a Good Deal of Wealth Compared Others.

OTTAWA, July 5.—It is estimated that the total Indian population of Canada, exclusive of the aboriginal Eskimo tribes, is 105,965, the per capita wealth would be \$82.06, an extremely high ratio.

The government report says that among the less-civilized groups the high birth rate just about balances the high death rate, but in the civilized tribes which have met and withstood the first shock of the contact with civilization there is an appreciable gain, not only in numbers, but in physical standards.

The distribution of the Indian population throughout the various provinces is given as follows: Ontario, 25,411; British Columbia, 25,694; Quebec, 13,366; Saskatchewan, 10,646; Alberta, 8,857; Manitoba, 11,583; Nova Scotia, 2,031; New Brunswick, 1,816; Prince Edwards Island, 292. Indians resident in the Yukon and Northwest Territories are estimated to number 5,292.

Sources of Income.

The principal source of income to the Indians is, of course, farming. The total value of farm and livestock products produced on Indian farms during 1921 is placed at \$3,945,171 which was distributed in the various provinces as follows: Alberta, \$566,730; British Columbia, \$927,889; Saskatchewan, \$884,078; Manitoba, \$230,053; New Brunswick, \$10,160; Nova Scotia, \$27,460; Ontario, \$939,799; Quebec, \$355,595 and Prince Edward Island, \$3,500.

In addition to the income from agriculture, Indians received the sum of \$2,762,773 for labor; \$281,863 from land rentals and timber; \$1,046,760 for fishing; \$866,494 for hunting and trapping; \$202,57 in annuities and interest from Indian Trust Funds; \$1,103,910 from other industries and occupations, bringing the total earnings of the Indian population in 1921 to \$10,670,549, which, considered in relation to the population, means a per capita income for every man, woman and child of the Indian population of \$105.95.

**WRIGLEY'S DIRECTORY
 IS LARGER THAN EVER**

Writeup of Prince Rupert Was Provided by Secretary of Board of Trade.

Wrigley's directory for this year is larger than ever before. The 1922 issue contains 1348 pages, the first 36 pages containing personnel of the British Columbia government and synopsis of the various governmental departments in Victoria and throughout the Province.

The gazetteer portion of the directory deals with 2334 separate and distinct cities, towns, villages and settlements in the province, giving a directory of each place, while in Vancouver and Victoria the directory lists the business and professional people.

The publishers announce that the 1923 directory, in addition to being a complete directory of the province, will contain a full and complete city directory of Vancouver and Victoria, giving street, alphabetical and classified sections, covering all firms, professions and all residents.

The directory also gives the names, locations and complete description of 4193 rivers, streams, lakes and mountains within the province, a new feature this year.

The classified business section under 744 headings, gives the names of all business firms, manufacturers, wholesalers, distributors and retailers throughout the Province.

TELEPHONE EXTENSION.

The Dominion Government in its supplementary estimates placed amounts for the extension and improvement of the telephone service between northern interior points. There is a vote of \$1300 for a telephone between Houston and Ootsa Lake, Francois Lake and Burns Lake and \$1500 for a telephone exchange and line extensions at Vanderhoof.

The program included a vocal solo by Mrs. Jarvis McLeod; piano solo, Miss Marjorie Lancaster; recitation, Miss Mary Evans; piano trio, Miss Mary Muse, Miss Eileen Carruthers and Miss Lily Cross, and piano duet, Miss Mary Muse and Miss Eileen Carruthers. Mrs. Stockdale accompanied Mrs. McLeod.

 METHODIST MISSIONS,
 VISITOR HERE TODAY**

Rev. Dr. J. H. White, of Sardin, superintendent of Missions for the Methodist Church, arrived from Ocean Falls on the Prince George this morning and is spending the day in the city before leaving tonight for Hazelton. On Sunday Dr. White was in charge of the opening of the new Union Church at Ocean Falls. The new church there, which is a very pretty and artistic building, has just been completed. Rev. Frank Bushfield, the minister there, will be in charge.

Despatch is the soul of business—Lord Chesterfield.

PUBLIC NOTICE.

Complaints have been received that persons visiting the Metlakatla Indian village, in the absence of the natives at the canneries, have broken fences, entered gardens, carried away flower plants, fruit, etc.

Warning is hereby given that prosecutions will follow any further depredations of this nature and the full rigor of the law will be applied in such cases.

OPPOSITION TO PRES. HARDING

U.S. Administration is Having Its Troubles According to Reports

WASHINGTON, July 5 (By Canadian Press).—Recent outbreaks of sentiment among republicans against certain members of the Harding cabinet and evidences of the protest on the part of the public against some of the administration measures, along with evidences of growing antagonism between Old Guard and progressive elements of the republican party, are commanding the keenest sort of attention among political observers in Washington. It is, perhaps, too early to tell what the results of these things will be, though there is a vast amount of speculation thereupon.

To state the case impartially, there can be no doubt that the Harding administration is facing a stormy and troubled time. How well it will weather the storms which may arise during the remainder of its four year term is something on which conjectures differ.

One of the most interesting developments in this connection is a campaign now being waged against Secretary of War Weeks, a leading member of the Harding cabinet, and one of the closest political advisers of the president. Senator Capper, Kansas, prominent progressive republican, chairman of the agricultural bloc in the senate, is out in one of his papers, the Topeka Capital, demanding that Weeks resign.

After Weeks' Scalp

Weeks, in a recent speech at Cleveland, Ohio, opposed the direct primary law. He also aroused Senator Capper's wrath by announcing that careful investigation had convinced him that the great mass of public opinion in the United States was opposed to prohibition in its present form. He advocated a more liberal interpretation of the prohibition amendment permitting the sale of beer and light wines. This, he said, would meet the wishes of the majority of the people. Mr. Weeks has declared that in these matters he has expressed his own views regarding the feeling of the country and is not speaking for the administration.

Senator Capper, in calling upon Weeks to resign, declares Weeks is "still in the nineteenth century" and says he is suffering from "arrested political development."

Similar sharp criticisms of Secretary Weeks are emanating from other quarters. Senator Norris of Nebraska and Representative Fincher of Kansas have thrown verbal bricks at him and condemned his views. Needless to say, the dry leaders of the United States are up in arms against him.

Political Effect

It is not very likely that Secretary Weeks will quit. The point is, however, that the political effect of such speeches as those of the war secretary, who comes from Massachusetts and was formerly in congress, is to cause growing opposition to the Harding administration among various political and "reformer" elements, including the group known as the "Progressive Republicans."

Moreover, progressive republicans are getting increasingly hostile to Secretary of the Interior Fall, partly because he has leased the great Wyoming naval oil reserve to the Mammoth Oil Co. for exploitation, and to Secretary of the Treasury Mellon and Attorney-General Daugherty, all of them identified with the Old Guard republicans or conservatives. Commonly they are referred to by their opponents as "reactionaries," or "standpaters" and sometimes harsher names are used.

In many respects the troubles of the Harding administration remind one of the troubles that developed against the Taft administration in 1909 and 1910. At that time they were followed by a great split of the republican party and a democratic victory, including the election of Wilson in 1912.

METHODIST CHURCH NATIVE MISSION SUPERINTENDENT HERE

Rev. Arthur Berner, of Edmonton, superintendent of native missions of the Methodist Church for the Dominion of Canada, is in the city, having arrived recently from the East to spend the summer on the coast studying the native work. He came in from Port Simpson yesterday accompanied by Dr. J. C. Spencer and R. Boyd Young. At the end of the week he will go up the Naas River with Dr. Spencer.

QUARTER MILLION MUSKRAT PELTS AT EDMONTON THIS YEAR

Rodents Increase So Rapidly That There Is No Danger of Extinction.

Over 250,000 muskrats reached Edmonton this spring from the Athabasca delta country in the vicinity of Chipewyan, but trappers from the north state that there is little chance of the dwellers of the swamps being exterminated due to their rapid breeding. The mature animals produce three litters in a season, while the youngsters maturing rapidly each possess two families before the freeze up comes. Five to eight pups appear in this vale of tears at a time, and despite the multitude of traps set out for their reception by half-breed, Indian and white trappers, they have a habit of multiplying and possessing the land.

Contrary to popular opinion, the muskrats do not confine their business of making a living to their watery homes, they are great travellers and when the necessities will cross mountain ranges and pass through forests where they are at the mercy of hunting animals on their way to pastures new. They have been known to make portages 100 miles long and are no "pickers" when it comes to leaving their native element when the wanderlust seizes them.

Every year the number of trappers in the north increases, and every year or so also do the muskrat pelts, the silent swimmer of the sloughs is one of the cheapest furs but also he is a staunch stand-by to the trappers.

Anyox Won Both Dominion Day Baseball Games from Ketchikan--One Was Close

Anyox won both games of baseball from Ketchikan last Saturday at the Anyox Dominion Day celebration. The first match, played in the morning, was a closely contested ten inning affair which resulted in a score of 4 to 3 with the smaller town batters pulling over the winning tally in the tenth. The evening match was easily won by Anyox by a score of 7 to 1.

The morning session was just as good and tight a game as the expectant fans could have wished for. Fitzpatrick and Greenwell comprised the Anyox battery and Hallson and Casey took similar roles for Ketchikan. Both pitchers were hit moderately hard, Ketchikan finding Fitzpatrick for nine hits while Anyox only got six off Hallson. Fitzpatrick had the better support and was able to tighten up in the benches. He struck out twelve men, three in the fifth inning. The game was featured by much sensational fielding on the part of both teams, several grand stand catches being made in the outfield for either side. The Anyox boys ran wild on the bases, at times, to their own disadvantage a golden opportunity being lost in the third when Downs started home on a dropped third strike when the bases were full and only one man was down. Casey making an unassisted double play. Ketchikan made six errors and Anyox four.

The score by innings:
Ketchikan 0 0 0 0 0 0 1 0 0 3
Anyox 1 0 0 0 2 0 0 0 0 1 4

Strikeouts—By Fitzpatrick, 12; Hallson, 3.
Two base hits—Anyox, Downs, and Cy Greenwell; Ketchikan, Miller, Harris and Williams.
Bases on Balls—Off Fitzpatrick, 2; Hallson, 2.
Umpires, Davis and Staepoole.
Evening Game.

The evening game was played in a light rain which, with the dusk, made matters rather difficult. Draudson and Greenwell made up the Anyox battery, while Anderson and Casey officiated for Ketchikan. The Anyox boys gathered two runs in their half of the fourth, three in the sixth and two in the eighth. Good pitching and fielding held Ketchikan to one run which they got in the sixth when Kubeley doubled, went to third on Miller's single and scored when Mealey fumbled Casey's grounder. Draudson was anxious then and gave Anderson a walk filling the

bases. He then tightened up, however, and retired the side by striking out Primavera. Sherman played a star game in the centre garden getting five put outs out of six chances, the only one he missed being Miller's hit to right centre which he knocked down but could not hold.

Score by innings:
Ketchikan 0 0 0 0 0 1 0 0 0 1
Anyox 0 0 0 2 0 3 0 2 x 7

Ketchikan got five hits and made two errors, Anyox eleven and one.
Strike-outs—By Anderson, 1; Draudson, 5.
Bases on Balls—Off Draudson, 2; Anderson, 1.
Double play—Cy Greenwell unassisted.
Two base hits—Kubeley and Harris.
The Anyox baseball team went to Ketchikan on the same boat that took the Alaskan boys home and played a return match yesterday.

GROTTO WON EASY MATCH

Intermediate Fixture Last Night Resulted in 7-18 Defeat for Sons of Canada.

Exceeded by the Grotto in hitting and fielding, about all the Sons of Canada could regularly do in last night's Intermediate League baseball game was make errors and they were defeated by a score of 18 to 7. The Sons put up a poor exhibition indeed and their field seemed full of holes with the hits going through like water. The Grotto did not do so badly and had the best of it all the way except in the fifth when the Sons, through two hits, several walks and three errors on the part of the Grotto by Gilmour, McGowan and Willisroft, made all their seven runs. The Grotto runs were pretty well distributed throughout and they got hits all the way. Brennan, a newcomer from Ketchikan, pitched for the Sons. He fooled the Grotto once or twice but they soon got onto him. Brennan lacked control and walked several men besides making many wild pegs.

B. Graham was the Sons catcher. E. Warren, pitcher, and George Hill, catcher, comprised the Grotto battery. The game went seven innings, James McAlenan being balls and strikes umpire and Jack Ratelford, bases.

The teams lined up as follows:
Sons of Canada—Brennan, p; D. Graham, c; Frank Morrison, 1b; George Blythe, 2b; George Mitchell, ss; R. McDonald, 3b; R. Rudland, cf; R. Publicover, cf; John Michaloff, lf.
Grotto—E. Warren, p; George Hill, c; P. McGowan, 1b; B. Barrie, 2b; Gilmour, ss; Sam Handenschild, 3b; W. E. Willisroft, cf; S. Butters, cf; James Ross, lf.

Score by innings:

SPORT CHAT

The summer swimming season is now in full swing and this is the time that Davy Jones begins to reap his annual harvest. This same Davy, however, can be easily cheated out of his intended victims if those who enter the water remember a few "dons." Possibly the most dangerous type is the "jay" swimmer, the man who always wants to show you a few stunts and incidentally likes to see you try them yourself. He should be strictly avoided for statistics emphatically show that a considerable number of drowning accidents are caused by this type. There is, however, one consolation and that is: "Your friends will always say you were a good swimmer." The old saying, "Where there is smoke there is fire," might be translated to read, "Where there is a jay swimmer, there may be a funeral."

While the art of swimming is primarily indulged in for enjoyment, still it should be taken very seriously for at no time in a person's existence is he more sensitive than when in the water for the reason that every muscle, organ and faculty of the body is brought into full play and, functioning simultaneously, the nervous system is always in a high state of tension. Unfortunately the law of gravitation and Mother Nature did not fashion us in such a way that we always float so we must remember a few details as to the how, when and where of it all.

The time to bathe is very important, the best being about two hours after eating when food will at least have become partially digested. All heavy foods should be avoided and what are taken should be sparing prior to taking any distance or endurance swim. At all times breathing should be through the nostrils inhaling and exhaling via the diaphragmatic muscles in the centre of the torso. The real reason so many people tire quickly is because the natural rules of breathing are overlooked.

Certain places should be strictly avoided by swimmers such as the river with the strong current or the small lake with its cold springs and the inlet

MACDONALD'S BRIER

PACKAGES 15¢

with its clinging weeds. Any of these places are liable to give the unwary swimmer an attack of cramps. If a person is seized with cramps he should keep cool. The affected place should be rubbed and stretched. If caught in the limb, turn up the foot, straighten the leg, stretch the muscles and kick the surface of the water until they relax. Bathing in quiet secluded places should be avoided as should accident occur with no help near a very obvious state of affairs may follow.

A swimmer should not stand or wait at the water's edge until the warmth of the body has passed off. The mouth and nostrils should be cleansed before entering the water for breathing will then be easy, natural and unimpeded. The breath should not be caught suddenly or spasmodically or short inhalations and exhalations made. Persons unaccustomed to cold water bathing should not stay in too long at first. People whose hands, feet and lips show purple quickly should indulge in bathing very moderately as this invariably shows some heart weakness. Persons subject to giddiness or faintness or who suffer from palpitation or other affections of the heart should not bathe without first consulting a qualified physician.

People who are troubled by any of the sympathetic senses, namely—the eyes, the ears, the nose and the throat, should dive sparingly, or better still not at all. Diving is particularly hard on the ear drums, concussion by shock and pressure of the water being harmful. Greased cotton wool or ear plugs are good safeguards against this. It is well in diving to remember a few gentle details. One should never venture to dive in "foreign" water. By this, is meant places where the depth is unknown. Then again care should be taken that there are no hidden obstacles, a submerged log, a rock or a protruding pier.

Swim around to the point where you intend making the dive and gauge or sound the depth, always remembering that it is better to be safe than sorry.

In diving from any height a head piece of some kind should be worn. This tends to break the fall and adds greatly to the pleasure, eliminating that sting which all will doubtless recall. A simple rule is the secret of always making a correct neat dive is to place a piece of paper between the toe of the right and left foot and leave the board with both feet together, remembering while in the air to keep them closed, then imagine a hole in the water and enter it so that the body will not touch either side of the imaginary hole. A little practice and anyone can easily become real proficient at neat diving, after which the fancy or special dives can be acquired very readily. Most of the trouble in diving is with the limbs bending with a great splash. If we bear in mind the simple piece of paper, a perfect neat dive will result almost automatically.

If we remember a few of these "Do's and Don't's" Davy Jones won't get our goat for he'll never find out where we keep it.

FALCONS GOT LONG END OF A 36 TO 2 SCORE OVER SCOUTS

The Falcons batted the Boy Scouts all over the lot in last night's Juvenile League baseball game the one-sided score of 36 to 2 being the result of the Seventh Street youngsters' meeting. W. Wrathall made two home runs and Vincent Weagher, one. It took two umpires to keep the game in order, J. Sims, balls and strikes, and E. McLean, bases, but the scorekeeper was the most hard-worked official of the game. Leo McKinnon, pitcher, and E. Yager, C. Cameron, E. Green and D. Stalker, and two catchers, C. Thompson and G. E. Manson, in the course of the evening.

Another strike of high grade ore, as rich as any that ever came out of the property, has been made at the Esperanza mine. E. Elge, manager of the mine, is at present in Seattle and it is expected that shipping will be resumed in his return.

The Alice Arm Citizens' Association has asked the provincial minister of public works to send an engineer in to survey routes for the proposed Stewart-Alice Arm trail. The executive of the Association is also to interview H. F. Kergin, M.L.A. regarding making the necessary repairs to the Dolly Varden Railway and also the construction of a permanent bridge over the Upper Kitault River above the Dolly Varden mine.

A very successful tennis tournament was held by the Alice Arm Tennis Club last week. Mrs. J. M. Morrison and Mr. Ross won in the finals over Miss Helen Nuech and Mr. Gray.
