Urge British Government Carry out Terms of Treaty; Irish American Gives Views

LONDON, Feb. 14.—(Noon).—Michael Collins' dramatic disclosure of an alleged republican plot to overthrow the provisional government, the sudden and unexplained suspension of the British military evacuation and the dangerous tension between the North and South have combined to produce a serious situation in Ireland.

BELFAST, Feb. 14.—One child was killed and eighteen injured as a result of bomb throwing yesterday. One man was killed in sniping and there were numerous casualties, many of the victims being girls.

DUBLIN, Feb. 14.—Michael Collins, head of the provisional government, is preparing to take up with London the question of demobilization, which has been apparently suspended owing to the situation in Northern Ireland.

DUBLIN, Feb. 14.—The Irish republican army has made three arrests in connection with the killing of Lieutenant Morgan Brown, a Britisher, recently. President Collins says Ireland will punish the guilty.

NEW YORK, Feb. 14.—The reasons for the formation of the American Association for the Recognition of the Irish Republic no longer exist in the opinion of Edward L. Doherty, president, who announces he favors the Irish Free State.

OFFERS TO BE POLICE CHIEF

George Leek Says Will Take Over Duties with Three Men and Make City Better Than Now.

Ex-Constable George Leek, in a letter to the police commission advising the services of E. H. Shockley, the recently elected commissioner, has offered his services as chief of police at the salary now being paid.

WOMAN CLAIMS WAS MESMERIZED; DROWNED CHILD

EDMONTON, Feb. 14.—John Barry, a farmer, aged 32, was arrested in connection with the death of a seven-year-old child, Ludwig Sabbe, whose mother said Barry mesmerized her and compelled her to assist in drowning the child in the river.

SNIPING CONTINUES AT BELFAST TODAY

Eighteen Deaths Result and the Wounded Now Number Fifty.

BELFAST, Feb. 14.—(Noon).—Snipers continue their grim work this morning and by midday the death toll since Saturday has been increased to eighteen by the deaths of two men during the noon hour. The number of wounded is now fifty.

ELECTION POSTPONED

Omineca to Choose Candidate on March 8 if Poll is Necessary.

VICTORIA, Feb. 14.—The Omineca by-election has been postponed until March 8 with the nomination on February 25. The Revelstoke election is to take place February 27 with nominations next Monday.

SUTHERLAND NOMINATED.

REVELSTOKE, Feb. 14.—Dr. Sutherland was nominated at a large convention for the by-election to take place on February 27.

SCOTTISH SOCIETY HONORS MEMBERS

S. D. Macdonald, past President, and Malcolm Lamb, Just Married, Given Presentations.

A delightful social evening held in the rooms last night under the joint auspices of the St. Andrew's Society and the Ladies' Auxiliary was made the occasion of honoring two of the earliest and most esteemed members, S. D. Macdonald and Malcolm M. Lamb, with presentations.

Mr. Macdonald, who has been president of the society for ten years, was presented with a purse of gold, a life membership scroll and an address. W. M. Brown, the present president, made the presentation and, besides himself, eulogistic remarks were made by Rev. Dr. H. R. Grant, chaplain, D. C. Stuart, vice-president, Thomas McMeekin, J. McKechnie and Peter Black.

Mr. Lamb, the occasion being his recent marriage, was given a cut glass set.

Both Mr. Macdonald and Mr. Lamb replied suitably and feelingly expressing their deep appreciation.

There was a musical program in which Mrs. Jarvis H. McLeod, Mrs. William Millar, Mrs. Stanley Bennett, Miss E. Cummins, R. Dowther and A. Glapperton took part with W. Vaughan Davies, accompanist. A splendid supper was served. About 130 members and friends of the society were assembled.

The affair was in the hands of the musical and entertainment committee comprising A. Glapperton, W. Vaughan Davies and W. M. Brown.

MEETING ON THURSDAY NEXT

All Interested in Establishment of Free Public Library to Gather.

There will be a meeting of the Prince Rupert Library Association and of all others who may be interested in the establishing of a public library in this city in the police court on Thursday evening next at 8 o'clock, for the purpose of taking further steps toward the establishment of a public library in this city.

The meeting is called by Howard White, secretary of the association, in collaboration with G. V. Wilkinson, who is collecting books for the library. At that time it will be decided what steps shall be taken to forward the library movement. It has been found impossible to secure a Carnegie building, so it remains for the city to take such steps as shall be desirable to establish the institution.

More interest than ever is taken in the library movement and what is now needed is to unite all efforts to get going in the near future. In the meantime books for the library may be sent to Orme's drug stores, where they will be catalogued and cared for.

READING ROOM ANNUAL REPORT

Committee Recommends Addition —Ladies' Accommodation to Be Taken Up.

A report from the Reading Room committee recommending the purchasing of two new heating stoves for the room and the doubling of the smoking room by the building of an extension was received by the city council last night. That part of the report regarding the purchase of the stoves was adopted and the matter of making the addition was referred to the city engineer for report.

Ald. Perry said that the ladies should be accommodated. They had been deprived of their former room with the promise that other accommodation would be found. This had not been done, he suggested that some provision be made for them in connection with the improvements now proposed at the reading room.

Ald. Dybbavn said that he trusted if this matter was urgent the committee would take it in hand and bring in a report to the council.

It was then decided to suggest the matter to the committee. The list of publications for the library this year was presented and was adopted with the addition of the Washington Post and Resources.

PRINCE OF WALES THROWN FROM PONY BUT WAS UNINJURED

Got Good Reception at Agra but Decorations Were Not in Evidence.

LONDON, Feb. 14.—The Prince of Wales narrowly escaped injury yesterday when the polo pony he was riding fell backwards at Gwalior, India. The Prince slipped from under, and was able to run three races that afternoon, coming in second, third and fourth respectively.

In spite of the fall, the Prince got a good reception at Agra from a certain section of the community, but with the usual decorations missing.

MINING MEN AT VANCOUVER

Institute Votes Against Admitting Outsiders to Full Membership.

VANCOUVER, Feb. 14.—Delegates to the third annual convention of the B. C. Division of the Canadian Institute of Mining and Metallurgy went on record yesterday opposing the proposal to admit "any person interested in mining" as a full fledged member of the institute.

Lieutenant-Governor Nichol opened the convention. The session lasts for three days and a great many interesting papers are to be heard.

WATERWAYS COMMISSION.

OTTAWA, Feb. 14.—Chairman C. A. Magrath of the International Waterways Commission has resigned with his fellow Canadians on the board, H. A. Powell and Sir William Hearst. Magrath may be reappointed.

EDITOR DIED IN CHAIR.

SEATTLE, Feb. 14.—Harry Gardner Nicholas, managing editor of the Post-Intelligencer, died suddenly in his chair while talking to the employees last night.

Ed Ross, the ship's carpenter of the Canadian Scottish, who returned yesterday from Vancouver, brought with him a model of the Prince Rupert built ship which will be put on exhibit in a local store as soon as finishing touches have been put on it.

A report of the Board of Works regarding the city pipe line from the Hays Creek dam to Ninth Avenue and along Lotbiniere Street to Fifth Avenue was discussed privately by the council in committee of the whole last night. A public report will be given later.

SMITH ISLAND ROCK BLASTING

City Council Turns Out Specifications and Tenders and Will Call for New.

The city council last night decided to return the tenders that it has already received on the blasting of 5,000 cubic yards of rock for the crusher at Smith Island and call for new tenders on revised specifications. There was a lengthy discussion in committee of the whole and various phases of the matter were gone into. Captain Babington, who has the contract for crushing and delivering on the city streets was present and discussed the matter with the council.

It was pointed out that clauses in the original specifications calling for the quantity and dimensions of the rock blasted and supervision by the city engineer had been deleted. All the members of the council, with the exception of the Board of Works, were of the opinion that sufficient power was not given the engineer to supervise the work. The city solicitor made a strong claim in this respect saying it was foolish to enter into such a contract where the city engineer did not have supervision.

SOFIA, Feb. 14.—Bulgaria has asked the Allies to delay the time for payment of the Bulgarian reparations three years. The Allies are understood to be willing to allow the delay under certain conditions.

KIDNAPPED MEN URGE RELEASE

Say They Are Held Until Monaghan Football Players Are Allowed Liberty.

BELFAST, Feb. 14.—Forty-two of the kidnapped Ulster Unionists stated today that they had requested Premier Craig to liberate immediately the Monaghan football players held prisoner in Ulster. The Unionists themselves declare they are held prisoners until the football prisoners are released.

PIRATE PICKED UP AT YAKATAT

Antony Novatney and His Boat Clara, Located by U. S. Police in Far North.

R. Beaumont, United States marshal at Ketchikan, has notified Chief Minly, of the provincial police here, that the gas boat, Clara, has been located at Yakatat at the extreme north end of his district. He suggests that an officer be sent North with a warrant for deportation so that the Clara and her master, Antony Novatney, may be brought here in connection with a charge of theft from the gas boat Vesta of liquor which was being exported from Prince Rupert. The police have been on the search for several weeks for Novatney and his craft, he being suspected of the robbery with violence on the high seas.

ALEX. MANSON IS KING'S COUNSEL

Announcement Made in Current Issue of B. C. Gazette as Expected.

"His Honor the Lieutenant-Governor in Council has appointed Hon. Alexander Malcolm Manson, Attorney-general, to be one of His Majesty's Counsel learned in the law." This is the official designation of a King's Counsel. It was expected that after Mr. Manson's elevation to the attorney-generalship he would be raised to the silk. The announcement is made in the current number of the B. C. Gazette.

BEALE IS COMING

Trade Commissioner Expected to Visit This District Soon.

L. B. Beale, Trade Commissioner's Department of Overseas Trade, London, who covers the territory from the Great Lakes west, will, in the near future, make a trip over the Grand Trunk Pacific Railway to Prince Rupert, and will stop over at Prince George to look into the pulp and paper manufacturing possibilities there. He stated this to the representative of The Daily News at Victoria a few days ago when there on business.

Mr. Beale pointed out that the development of inter-Empire trade comes within the scope of his work and he intends to investigate the opportunities in pulp and paper export from central British Columbia. He stated that he would also look into the question of port and shipping facilities at Prince Rupert which he has not visited for two years.

DAILY EDITION

Tuesday, Feb. 14, 1922.

Former Editor of News at London.

William Turnbull, formerly editor of the Prince Rupert Daily News and later secretary to Hon. T. D. Pattullo and Lumber Commissioner for British Columbia, has been appointed secretary to the Agent General at London, a position of responsibility and of great usefulness.

Mr. Turnbull, who is well known here, is a man with abundant energy and good judgment. Knowing all this north country as he does, he is now in a position to bring its advantages before the people of the United Kingdom as has never been done before. One complaint against the office of the Agent General in the past has been the lack of knowledge of Northern British Columbia. Some of the employees did not even know where Prince Rupert was situated or anything about the region traversed by the G. T. P. With Mr. Turnbull there, we shall get our full share of publicity. We can rest assured that he will keep our end up. He is a live wire and it will not be his fault if the north does not benefit from the recent change.

Why Not Make Position Permanent?

It is announced that the appointment of Mr. Turnbull is only temporary. It is to be hoped for our sakes that it will be permanent. If there is something better in sight for Mr. Turnbull, no one here will grumble, but if there is not, it would certainly please Northern and Central British Columbia to have Mr. Turnbull continued in the position at British Columbia House. He is in every respect capable of handling the job and is a worker from the word "go."

We now have two Prince Rupert men in the cabinet at Victoria, one in the Dominion Parliament and one at the centre of things in London. This is getting to the fore and making ourselves felt. Since we have all these advantages, how would it be to buy our little hammers and support them in the best way we know how? If we speak with one voice we may get something.

Russian Famine Is Worse Than Ever.

In spite of the aid sent by the different nations, the famine in Russia is worse than it has been yet. Telegraphic advices received yesterday indicate that there is no abatement so far, but that the conditions are every day getting worse. Even the churches are being raided for the purpose of getting money with which to purchase food for the starving inhabitants.

Russia has been through the throes of war, of two revolutions and of an attempt to introduce social changes which has to a large extent failed. Under any good government the famine would have been foreseen and preparations made to deal with it. The other nations would have had confidence in the government and there would have been no quibbling over the terms of aid. Unfortunately the innocent peasants of that country have to pay the penalty for the sins of their rulers. The men who cause the trouble are not the ones who suffer. The real workers of the country are the people who have to pay the penalty for the experiments in government which have been going on and which apparently have failed.

Systems Evolve if Permanent.

In order to make a system permanent it must be brought about gradually. It is always impossible to figure out beforehand how a system of government will work out. So many unexpected issues come up in connection with any change that we can not foresee what will happen. It is easy enough to figure it out on paper, but these paper systems do not always prove workable. Changes have to come about gradually if they are to be permanent. Evolution and not revolution is the method generally used by nature, and it is the natural way that is the right way. Evolutionary changes by which improvements are made step by step are wholly opposed to the revolutionary theory that the only way to get good government is first to upset all governments.

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles. Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion. STATION AGENT AT TELKWA IS WEDDED TO VANCOUVER GIRL

Marriage of Miss Jessie Alice Crawford and William Lauder Armstrong Last Friday.

A wedding of interest to many people in the north and especially in the Bulkley Valley took place last Friday evening at the home of the bride's parents, Mr. and Mrs. Thomas Crawford, 1895 Fourteenth Avenue West, Vancouver, when Miss Jessie Alice Crawford became the bride of William Lauder Armstrong, station agent at Telkwa. Laurel, Oregon grape and pussy willow, interspersed with daffodils and mimosa, made a lovely setting for the ceremony, which was performed by Rev. E. McGowan of Chalmers Presbyterian Church, in the presence of relatives and intimate friends. The bride, in a lovely gown of grey charmeuse satin trimmed with radium lace, sequins and touches of burnt orange and French flowers, was given away by her father. Her bouquet was of Ophelia roses and maidenhair fern. Little Miss Florence Crawford was flower girl and was the bride's only attendant. Allan Crawford, the bride's brother, played the wedding march.

Following a reception, Mr. and Mrs. Armstrong left on the Makura for Honolulu, where the honeymoon will be spent. On their return they will take up their residence at Telkwa.

Mr. Armstrong is well known and decidedly popular in the interior and a host of friends will join in the extending of best wishes to him and his bride. Mrs. Armstrong is a sister of Jack Crawford, the purser on the Canadian National steamer Prince John.

OPENING UP OF SEVENTH STREET

Council Decides to Instruct Delegate to Take Matter Up in The East.

Ald. Kerr's motion that the city delegate to Ottawa be instructed to take up with the railway company the matter of opening Seventh St. to the waterfront was adopted by the city council last night. A letter from J. F. Maguire enclosing the resolution from the Central Hotel meeting last Tuesday asking that the delegation to Ottawa be instructed to press the matter and that the city endorse it, was duly filed when this action was taken.

In connection with the motion there was another discussion of grades and means of opening up the street. Mayor Rochester said he wanted to see plans and that he did not know whether the city had the right to ask this of the railway company anyway.

Ald. Kelly declared that the section of town in question should have this connection with the waterfront. It would not hurt the other part of town and F. S. Clements, ex-city engineer, had said that there was an easy grade at Seventh Street.

Matter of Grades.

Mayor Rochester replied that the city engineer had told him that a roadway there would require a 7 per cent grade. Such a grade would be a practical impossibility as far as teaming was concerned. He was of the opinion that a roadway by Eleventh Street or Water Street would be of more service and more feasible.

Ald. Kelly said that Mr. Clements had figured on a 5 per cent grade.

City Engineer Whittaker declared that there was something wrong if any man thought of heavy traffic being carried over a 5 per cent grade. It was absolutely ridiculous to think of using a 5 per cent grade when 1 per cent could be obtained by using Eleventh Street.

Ald. Collart reported that he had interviewed W. H. Tobey, of the Canadian National Engineering Department, and had been told that it was not the intention of the company to make an overhead direct on Seventh Street. Sixth and Seventh Streets would be opened up by a road to Tenth Street and thence to the waterfront. This would call for a 1 or 2 per cent grade.

Ald. Kerr stated that there was no necessity for opening up Eleventh Street. The open dock was at the foot of Seventh Street.

Ald. Perry suggested that the Dominion government engineers would probably report on the matter before anything was done and it was unlikely they would use Seventh Street if it were unsuitable. He suggested that Ald. Kerr's motion be carried and this was accordingly done.

QUEEN MARY CHAPTER DAUGHTERS OF EMPIRE ANNUAL MEETING HELD

Mrs. D. McD. Hunter is New Regent—Reports for 1921 Show Year Very Successful One.

The annual meeting of Queen Mary Chapter, Imperial Order Daughters of the Empire, took place yesterday afternoon in the city council chamber. The Man in the Moon SAYS—

"TAXATION is always in the public eye," remarked a speaker at a banquet. My experience is that it is in the public pocket.

A MAN must have a hat and coat just like his neighbors. A woman will not wear a hat or gown if it resembles her neighbors. That is where the woman shows her good sense.

TONIGHT is our night out at the G. W. V. A. dance, so if there are no chestnuts in the fire tomorrow, you will all know the reason why.

IF a dancer meet a dancer dancing at the ball, Should a dancer greet a dancer sitting round the wall, Take a whirl at waltzing or A foxtrot or a two-step Like away to supper, then Come back and try a new step.

THE only two sorts of women it is difficult to understand are the married ones and the single.

WHY is it necessary to put a card of thanks in the newspaper, directly a person dies?

W. B. McLaughlin, who is building a modern apartment house and store building on Third Avenue, had a letter before the council last night with regard to his blasting permit. He complained that city officials had suddenly caused his work to be stopped after the necessary formality of obtaining a permit had been complied with. The mayor reported that the matter had been satisfactorily arranged. Angelo Antenelli has the contract for the blasting.

Ald. Collart's motion regarding the location of laundries, livery stables, piggeries, breweries, huts, shacks and cabins and other structures was left over for a week by the city council last night. Ald. Dybhavn suggested that Ald. Collart ascertain definitely those portions of his proposed legislation which are already covered by city by-laws. Ald. Collart explained that it was primarily his intention to regulate the building of huts and cabins in the city so that desirable property would not be depreciated by their erection.

Tenders for telephone hardware were received by the city council last night and referred to the utilities committee with power to act. The tender of the Canadian General Electric Co. was the lowest. The Northern Electric Company's and Parkin & Ward's tenders were for the same figure, the former being f.o.b. Vancouver, the latter f.o.b. Prince Rupert.

Owing to the success of the visit of Dr. Scholl's representative here in the Family Shoe Store, we have decided that as there are several other cases not yet attended to, he will be in the Royal Shoe Store on Thursday and Friday. Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seeley's Bay, Ont., writes: "For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods. I used many different medicines as a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

How to remember is one of the secrets that Psychology makes known.

The report of the utilities committee recommending that the Dominion Government be offered a proposition for the connecting up of Digby Island with the city light system in Westview was adopted by the council last night. The superintendent of utilities reported that the expenditure incurred by the city would be \$725 and that the minimum yearly revenue would be \$480.

Tenders for telephone hardware were received by the city council last night and referred to the utilities committee with power to act. The tender of the Canadian General Electric Co. was the lowest. The Northern Electric Company's and Parkin & Ward's tenders were for the same figure, the former being f.o.b. Vancouver, the latter f.o.b. Prince Rupert.

## Seven Prince Rupert Men Who Sailed on Canadian Scottish Return to Town

After having made the five and a half month trip to Australasia and back again on the Prince Rupert built Canadian Government Merchant Marine steamer Canadian Scottish, seven Prince Rupert men returned to the city yesterday afternoon by the Princess Mary, having left the ship at Vancouver. They were: Ed Craggs, day oiler; Ed Ross, ship's carpenter; Second Cook Fitzgerald; Joe Hyde, Len Anderson, W. Edgar and Fritz Skjellum, firemen. Two more Prince Rupert men, Jack Stirling, refrigerator man, and Walter Murray, fireman, also left the ship at Vancouver and may be back here tomorrow.

"We were all satisfied with the trip," said Ed Craggs this morning, "with the exception of the food which was worse than army fare. That was why most of the men quit. In the course of our trip there were no less than seven different cooks. Some of them were no good and two quit because they could not get the material to work with. We had eggs only once, that on Christmas morning at Sydney. Day after day the bill-of-fare was boiled beef, carrots, turnips and potatoes. There was lots of it but it was often pot fit to eat.

"The food was all rationed out. An allowance of one pound of sugar and one pound of jam a week and one one pound of bread and one ounce of butter a day was kept by the men in their lockers and brought by them to the galley at meal time. The rest of the food was served, on the ration system, through the galley.

"Bought Own Food. "It was bad going over when we were not so familiar with conditions but, returning, we knew what we were up against so we purchased extra food ourselves before leaving Australia so were all right."

Speaking of the ship, Mr. Craggs declared that the Canadian Scottish was the best ship the Canadian Government Merchant Marine had from the engines up. Returning from Australia she ran into rough weather but stood up well through it all. The passage from Vancouver to Auckland outbound was made in thirty days, with the cargo of lumber and fish from Prince Rupert. The weather was good all the way. At the New Zealand port the deckload of lumber was discharged and from there the ship proceeded to Sydney where the fish and more lumber was unloaded. At Melbourne and Adelaide the balance of the lumber was discharged and two calls were made at Port Kembla for coal. At the latter port the crew hired a hall and gave a concert and dance.

**Christmas at Sydney.** Christmas was spent in Sydney and on December 28 the vessel left there light for Fiji. There a delightful week was spent while the refrigerators were being loaded with bananas. The weather was splendid and the boys had a great time with the natives who brought sacks of fruit in exchange for old clothing. With the exception of the refrigerators of bananas the ship was light on the return to Vancouver. The passage from Sydney to Suva took nine days and from there to Vancouver, 28 days. The inbound trip was not so pleasant as going out. The weather was very hot in the tropics and the rain poured down worse than Prince Rupert people ever dreamed of. For five days on recrossing the Pacific the steamer was practically at a stand still, averaging three knots per hour. The steamer reached Vancouver at 9 o'clock last

even if there is difficulty in getting return cargoes, it is profitable to take lumber over and return light.

The local boys to a man are glad to be back home. They do not like seafaring, especially under the conditions as offered by the Canadian Government Marine. All intend to remain in the city and are already looking for jobs.

## Sport Chat

A return basketball game between the Port Simpson team and the Colts, Intermediate League champions, will be the feature of the last evening of the Basketball Association's schedule in the Agricultural Hall tonight. The Colts went down to defeat at the hands of the native team in the game played at Port Simpson a few weeks ago but they were handicapped with unfamiliar surroundings at that time. Tonight they are confident that they will be able to turn the tables on the visitors. Final arrangements for the playing of this game were made yesterday and the natives will arrive here this afternoon in readiness for the match. Besides this game there will be the final Senior League match between the Elks and the Sons of Canada and another All Star game. Altogether, a very good evening's entertainment at sport is to be given and there should be a good attendance to help the association pay the expenses of the visiting team. The presentation of cups to the season's winning teams will also take place. Col. McMorris presiding.

Hockey is still going strong in Prince George. Last Sunday there were no less than three games played and on Saturday there were two. The fans are supporting the game well and each performance draws a large number of spectators. Last Wednesday the Prince George and Vanderhoof teams crossed sticks in the Creamery Town for the first time this season. The game ended in a draw each side scoring two goals. The match was played under professional rules. The teams were: Prince George—Yarzeau, M. C. McKay, B. Gross, E. Brown, K. McKay, H. Gross and I. Guest. Vanderhoof—C. Steele, L. Hay, McKenny, Smithers, G. Steele, Dickenson and Goodwin.

The Smithers Athletic Club finds itself up against a deficit after the heavy expenses involved so far this season. The two big items were the building of the rink and the financing of the hockey exhibition which recently went to Vanderhoof. To clean up the debit balance on the books it is proposed to put on a dance in the near future. The prospect for another series with Vanderhoof is not of the brightest but if it is possible, Hazelton has asked Smithers to play and the matter is now being followed up. It is understood that Smithers will demand that the Duncan Ross Cup, now held by Hazelton, be brought into competition as a stake in the games. As Hazelton has no rink this year it will mean that the games must be played in Smithers.

## Nervous Breakdown Couldn't Sleep Nights.

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected, too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in **MILBURN'S HEART AND NERVE PILLS**

Mrs. M. Damang, Young's Cove Road, N. B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

# ZAM-BUK

THE MAGICAL SKIN BALM.

LIKE the lost precious balms of ancient Rome, Zam-Buk is of rare herbal origin. These herbal extracts endow it with a special power over the human skin.

Zam-Buk is a concentrated healer, soother, antiseptic, and germicide. Its pure and powerful herbal essences swiftly take pain and inflammation out of a Cut, Scald or Burn, and heal any sore place neatly.

Owing to its extraordinary refinement, Zam-Buk soaks through to the tissues below the upper skin, and draws out disease. It is ideal for Eczema, Salt-Rheum, Ring-worm, Scalp Sores, Leg Ulcers, painful Swellings, Poisoned Wounds, and for Piles.

Zam-Buk's wonderful success is mainly due to its ingenuity in destroying all harmful germs, and replacing diseased and damaged tissue with fine new healthy skin.

## Efforts to Stop Settlers Going to Queen Charlottes Fails; 30 Families Soon

Charles Harrison and Dr. Lawson have made arrangements to send thirty families to the Queen Charlotte Islands to settle in the neighborhood of Massett. These settlers have been secured in answer to advertisements in English papers. An effort has been made by the Overseas Settlement Committee to head off the movement, but this seems to have failed and correspondence just received by the Board of Trade seems to indicate that the settlers will come in charge of Dr. Lawson and Dr. Dunn. The letter from Mr. Harrison to the Board of Trade in regard to this matter follows:

"Dr. Lawson and Dr. Dunn are selling their good practices here and intend about April to locate in the vicinity of Massett and have with them about 30 families of experienced farmers and woodsmen from Lincolnshire. Dr. Lawson knows the conditions there and the suitability of Graham Island for practical men to take up homesteads, as he alone time was the resident physician for the district. These men have sufficient capital to provide for their requirements until they get their pre-emption claims revenue producing, but now the Overseas Settlement Board and their committee have stepped in and are doing their utmost to advise them to locate elsewhere, for what reason I know not, as there is no sensible reason given in the letter they are now sending to each of the men we have interested. On the back of this sheet I am giving you a copy of their letter and also enclose a copy of my reply for the consideration of your board, and if you consider they should be printed in the local papers you have my permission to do so, as I consider we should all act together in these matters.

Dr. Lawson's letter to Mr. Bigland. Should you deem it wise to have my letter printed please send me a few copies. I think the general public should know how we are being treated by the Overseas Settlement Board. I would also suggest that the B. C. Government appoint an agent who has full knowledge of Northern British Columbia to assist Mr. Wade as I feel sure more would become interested. He needs only to be in attendance two or three hours daily to answer enquiries and his salary need not be large, say \$500 per annum for out of pocket expenses, etc.—G.H.

### Letter From Board.

Gentlemen: "With reference to your recent call at this office, I am directed by the Overseas Settlement Committee to inform you that they appreciate your courtesy in placing at their disposal the letters which you have received from various enquirers regarding openings in Canada and especially in the Queen Charlotte Islands, in reply to the advertisement inserted by you in the 'Stamford Mercury'.

"I am to enclose for your information a copy of a circular letter which is being forwarded to all those whose applications you have placed at the Committee's disposal.

"My committee are also applying to the Editor of the 'Stamford Mercury' for copies of the paper in which your advertisement appeared and it is possible that they may ask the Editor to insert a letter of a similar nature to the one herein enclosed in a forthcoming issue of their paper. The letters left by you are herewith returned. Yours faithfully, G. F. Plant."

### Sent Prospective Settlers.

"Sir:—I am directed by the Overseas Settlement Committee to inform you that their attention has been called to a recent advertisement in the Stamford Mercury and possibly some other country newspapers, regarding situations as farmers or sawyers, etc. in

#### THE MODERN LAUNDRY.

Editor Daily News:—Would you kindly grant us space in your paper to discuss the classification in the 'Notice of Motion' posted by a certain Alderman and reported with the Daily News of yesterday.

The notice of motion in connection with the confining of certain industries to particular localities, and reads as follows: Wash-house buildings, laundries, laundresses, etc.

Now we do not know what the other industries mentioned think of this classification, but we wish to register a most emphatic protest against the inclusion of the modern power laundry, in this category.

Not This Kind. It is possible that the individual posting this 'Notice of Motion' is not familiar with the modern laundry. Perhaps his experience is with the Oriental 'wash-washes,' save the phrase, 'wash-washes' are dark and depressing and who uses his mouth as a sprinkling can. If this is the kind of laundry he is familiar with he is, perhaps, to be excused. We think, however, that legislators, or would-be legislators would do well to inform themselves as to the facts before committing themselves to a line of action.

For their benefit, we would point out that the power laundry industry ranks as one of the largest industries in the world to the south of us, in capital invested, and help employed. That in the year 1919, the latest statistics available credit this industry with having manufactured business to the extent of over two hundred and fifty-six millions. That they take their proper place among the industries of the world in scientific research work for the paper and sanitary conducting of their business and that in larger cities, you find the modern power laundry in the best business and residential sections.

#### Hot Under Collar.

In view of the above, you can hardly blame us for getting hot under the collar when we find our industries included in the above classification, and the city authorities relegating us to the back streets and alleys.

#### ANSWERS DR. GRANT.

I have read Dr. Grant's letter with interest. I beg to call attention to another phase which most prohibitionists neglect. The performance of a service cannot be considered injurious. Our government is founded on the principle that every individual is the right to do as he pleases up to the time he injures someone else. There is no reason why anyone operating a store or club room or church shall not be his or her own judgment when to open or close. The church performs certain

services for which people are willing to pay. Certain other people prefer to sit around hotels, clubs, or cigar stores for which they pay, or these services would not be open to them.

None of us has any right to interfere with any one else's liberty to spend Sunday in any way he chooses until it can be proven that such method is an injury to some one else. We might drive people to church but compulsory worship is not mentioned by the great Messiah. You will probably find it in Satan's ritual. There is no one in existence who pays his bills who is not performing some service for which people are willing to pay. So long as there are customers there will always be some one to perform the service. The law of supply and demand is one of God's own, and when individuals or nations interfere with these laws they are generally punished. When any one is shown to be injuring some one else the community has the right to interfere, not before. Of course the community has the power to commit wrongs, but I am surprised that the Lord's Day Alliance should in this civilized day advocate doing wrong in the name of God.

Any Day in Week. The first part of the Commandment is 'Six days shall thou labor, and do all that thou hast to do.'

Hottentot, Mohanamedan, Buddhist, Brahmin, all have the right to worship God in their own way and any day in the week. Dr. Grant has the right to try to persuade others that the service he performs is worth more than that performed by others. He has no right to use the power of the community to force people to conform to his views. My contention is that our people are clean-minded, honorable and intelligent and that the individual conscience backed by public opinion prevents the necessity for oppressive laws. The best governed country is the least governed.

### FIFTEEN BOILS ON NECK AT ONE TIME

Anyone who has suffered from boils can sympathize with poor old Job. There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Nowadays no one need endure the misery of boils.

Boils are simply evidences of the bad blood within clogging to the surface and just when you get rid of one, another seems ready to take its place and prolong your misery.

All the poulticing and lancing you may do will not stop more coming. What you have to do is take

**BURDOCK BLOOD BITTERS** and the blood will be cleansed of all its impurities, and then every boil will disappear.

Mr. Roy McSwain, High Bank, P. E. I., writes:—'I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly.'

For the past 45 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

### Whole District.

No one here seems to care about the development of Northern British Columbia. All their thoughts and endeavors are centered on Vancouver and Victoria and the surrounding districts. This is neither fair nor just, so I hope your board will see their way clear to make the city of Prince Rupert better known also the districts surrounding them, such as Terrace, Bulkley, Hazelton, Bella-Coola and the Queen Charlotte Islands, not forgetting the Naas district, where there are thousands of acres suitable for settlement, etc., as if you assist in getting the good agricultural land surrounding you populated with the right class of settlers, you will at the same time be assisting in the upbuilding of your own city as the centre.

### ONE THING WE DO NOT DO

"Ah! clares to goodness, ah! just rubs the daylight out of dem things, an' still de're not clean," says the colored laundress. We've discovered a better way of cleansing—a gentle certain way that produces aseptic cleanliness without wearing or weakening the fabric.

### How is this formula for the washing of your colored clothing?

- First bath, warm water, run 5 minutes.
- Second bath, warm water 120f. Soap, run 15 minutes.
- Third bath, Repeat second bath, run 15 minutes.
- Fourth bath, warm water, 4 oz. soda, run 10 minutes.
- Fifth bath, warm water rinse, run 5 minutes.
- Sixth bath, warm water rinse, run 5 minutes.

### WOULD ELIMINATE LICENSED PLUMBERS

Board of Works Brings Report to Council With View Reducing Plumbing Costs.

Amendments to the city's plumbing bylaws eliminating the necessity of plumbing work being done by licensed plumbers provided that such work passed the inspection of the plumbing inspector were brought to the council last night in the form of a report from the board of works.

Ald. Dybbavn asked for an explanation of the recommendation and Mayor Rochester referred to the board of works.

"There are several propositions on foot at the present time for the extension of the sewerage systems," explained Ald. Montgomery. "If these go through it will be necessary for many residents to connect up, but the prices charged by the plumbers are terrific and out of all proportion. The present city bylaw precludes anyone but licensed plumbers doing the work. It is felt that plumbing costs could be reduced if others be allowed to do the work providing always that it passes the city inspection."

### CITY IS NOTIFIED UNEMPLOYED RELIEF

Ald. Silversides of Opinion That Recent Order Means Little Here.

A letter from J. D. McNeven, provincial deputy minister of labor, enclosing the recent order-in-council from Ottawa for the extension of government participation in unemployment relief, was received by the city council last night and referred to the board of works. The new order provides for the Dominion Government to pay 50 per cent. of the cost over normal of relief work, with the provincial government paying one-third and the municipality one-sixth. In the case of discharged physically fit soldiers, not provided for under the Soldiers' Civil Re-establishment, the Dominion pays one-half of relief work provided and the provincial government and municipality one-quarter each.

PRINCE GEORGE  
The Prince George Board of Trade has endorsed the recommendations of the Prince Rupert Board which are now being pressed on the Dominion Government by the delegation from the Coast. The local Board also asks for extension of the Pacific Great Eastern Railway into the Peace River country, and Edmonton-Prince George highway, an experimental farm for Prince George district, better housing funds, and improved telephone and telegraph service.

Herbert Porter, a prominent local fur buyer, believes that the open season for beaver will bring at least 5000 pelts, worth \$50,000, into this city. Trappers from here are already taking to the woods in numbers.

Miss Edna Murler and H. E. McKeen were married here last week, Rev. Dr. Ager officiating. The ceremony took place at the home of the bride's parents.

Bishop Banoz, of Prince Rupert, visited in this city last week.

There will be a good deal of activity in placer mining in the district this year, it is predicted. One of the principals of a company which is to operate at Government Creek south of here is in the city awaiting the arrival of dredging machinery and a sawmill outfit.
