PRICE FIVE CENTS

CONFERENCE GETTING THROUGH BUSINESS

HOUSE OF COMMONS VOTES FOR AN INVESTIGATION OF RAILWAY COSTS

Some Problems will be Disposed of at Genoa Today but at Least Three More Week's Work is Left

GENOA, May 5.—Progress is being made at the economic conference. Today it is expected that deliberations on financial, economic and transport questions will end. The sub-committee on economics will likely during the day make a report to the full commission. This, it is expected, will be approved. Then there will be left only political problems.

The Russian question and the proposed non-aggression pact are taxing the ingenuity of Premier Lloyd George, of Great Britain, but there is optimism today over the possibilities of their solution. Patience is urged by all the leading delegations for the conference is apparently facing a hard pull of at least another three weeks.

LORD'S DAY IN VICTORIA CITY

General Secretary of Alliance Says Injunction Will Be Taken Out Forbidding Plebiscite.

VICTORIA, May 5.—Dr. Rochester, Toronto, general secretary of the Lord's Day Alliance, who is here, says that the Alliance will probably take out an injunction forbidding the city to take a plebiscite on the question of the Lord's Day Act enforcement.

Mayor W. P. Marchant agrees with Dr. Rochester that the plebiscite would probably have no meaning and that the Lord's Day Act must be enforced anyway having been officially adopted by the police commission.

CIVIC EMPLOYEES BUSINESS MEETING

The Prince Rupert Civic Employees' Association held its second regular meeting in the carpenters' hall last night.

The officers elected at the last meeting who were carrying office temporarily were installed permanently. The bylaw committee submitted draft bylaws, which were read and considered clause by clause. Some minor amendments were suggested, which amendments will be considered by the committee at its next meeting. If it is then thought advisable by the committee these amendments will be included in the bylaws, when they will be finally adopted at the next regular meeting.

DIED FROM EATING WILD PARSNIP ROOT

L'ORIGINAL, Ont., May 5.—Seven members of the Lacroix family died here after eating wild parsnip root which the children had dug from by the roadside.

TO COMMENCE EXAMINATION

Pacific Great Eastern Expert Will Start From Prince George Next Week.

VICTORIA, May 5.—J. G. Sullivan, engineering expert for the provincial government, will go to Prince George early next week to begin his formal inspection of the Pacific Great Eastern Railway. From Prince George he will travel south and closely examine every engineering feature of the government road.

BURNS LAKE

Miles Henderson, manager of the Royal Bank, H. D. McNeil, government telegraph operator, and Fred Fraser, minister, have returned to Burns Lake from Prince Rupert where they were in connection with the case of Royal Bank of Canada vs. A. J. Phillipson at the Supreme Court Assizes in which judgment was reserved for written argument. According to all three Prince Rupert is running Burns Lake a close second as Northern B. C.'s capital.

James Turnbull, the genial representative of the provincial government forestry department at Hazelton, was a recent visitor in Burns Lake.

Provincial Constable Gara is keeping watch and ward over a young desperado from a ranch in the neighborhood. According to the complaint made, the young man had his neighbors and his own family confined to quarters with the aid of a 22 rifle and refused to allow them to leave for town.

Francois Lake is definitely closed for traffic but everyone is hoping for an early break-up as the settlers on the south side will not be able to cross the lake until the ice goes out. The decrease in traffic will give the roads a chance to harden after the thaw.

A. Pepper, who is on his way to his ranch at Francois Lake, is giving Burns Lake people the benefit of his mill for a few days and lumber will soon be plentiful once more.

The Burns Lake Garage reports the sale of another Ford in the neighborhood. If business keeps up this way a traffic officer will soon be needed.

The question of the creamery at Francois Lake is slowly being settled and it is the general hope that it will be in operation this year.

Provincial Constable Dryden, arrived from Anyox last night on the Prince George having in custody Paddy O'Brien and T. W. Ellis, who were each recently sentenced to 30 days imprisonment for intoxication by stipendiary Magistrate John Conway. They will serve the terms here.

WILD WEST AUTHOR A CORPORATION OFFICER.

What's that—author? Sure, unless you prefer authoress. Well, anyhow B. M. Bower, whose stories of ranch life and doings in the cow country you have read in Mrs. R. E. Cowan. Here is the first published photograph of her. She has just been elected president of El Picacho Mining Corporation of Nevada.

Parliament Divides On Railway Debate; Change In Fishery Regulations

OTTAWA, May 5.—The House of Commons has voted to appoint a parliamentary committee to investigate transportation costs with particular reference to the Crow's Nest Pass agreement of 1897. The vote was 109 to 92 in favor of the measure or a majority of 17 for the government.

All yesterday afternoon and evening there was an exciting debate on the question in which Sir Henry Drayton introduced an amendment demanding that the government submit a railway policy to parliament. This amendment was defeated by 167 to 35, being supported only by Conservatives.

The Minister of Marine has introduced a bill into the House to amend the Fisheries Act by consolidating the provisions of the Department of Justice as they affect the fisheries of British Columbia. The bill is considered necessary because there is danger of protective regulations on salmon and lobster fisheries in the province which might be challenged in Canadian waters.

DEMPSEY SAYS BOUT CERTAIN

Almost Sure to Meet Carpentier In Fall in Europe Provided He Beats Lewis.

PARIS, May 5.—Jack Dempsey, world's champion heavyweight boxer, told the Associated Press today that it was almost certain he would meet Carpentier again either in London or in Paris late this year if Carpentier defeats Ted Lewis in London on May 11 and provided the purse is satisfactory. Details are now under discussion by the fighters' managers in London.

FIRE ENDANGERED POWDER HOUSE AT TERRACE; REMOVED

TERRACE, May 5.—Excitement was caused here Wednesday evening when word was brought in that the fire burning on George Little's pre-emption adjoining the town was creeping dangerously near the powder house, a small building covered with galvanized iron in which was stored almost a carload of stumping powder. As to whether there was to be an explosion or not was not argued very long. With two trucks the powder boxes were conveyed to the ferry and stored in a safer place.

ROUT OF GENERAL CHANG'S ARMY IS REPORTED COMPLETE

PEKIN, May 5.—The forces of Chang Tso Lin were defeated at three points along the front near here yesterday and followers are apparently in complete route. The soldiers, it is said, have fled to Pekin for refuge.

General Wu Pei Fu in full control of Pekin at noon today and General Tso Lin, whose forces he routed yesterday in a fierce battle south of the city, is reported fleeing to Mukden. Chang's army is retreating in disorder towards Tsientsin. Observers believe that Chang's sudden collapse marks the end of hostilities.

URNS BOYS OUT OF NELSON HIGH SCHOOL FOR LACK INTEREST

NELSON, May 5.—I. V. Rogers, principal of the local high school, recently turned several boys out of the school for "lack of interest in their work," telling them to go home and stay there or else go to work on the Ymir road. Several of the proud parents of the city are raising a dignified protest at the action.

LOCAL NEWS NOTES

Miss Thompson was a passenger on the Prince George last night for Victoria.

W. S. Fisher, provincial tax collector, left on the Prince George last night for Seattle.

J. B. Lambert, Dominion resident engineer, left on the Venture today for the Naas river.

Mrs. C. C. Clementson and son left on the Prince George last night for a two months' vacation in Seattle.

Major Motherwell, chief inspector of fisheries for B. C., returned to Vancouver last night on the Prince George.

G. A. Woodland, local manager of the Imperial Oil Co. Ltd., left on the Venture today in connection with business with the canneries on the Naas.

Miss Rose Wall, of the nursing staff of the Shaugnessy Military Hospital, who has been visiting Mrs. John McTear, here returned to Vancouver last night on the Prince George.

The local board of trade is taking up with Ottawa the question of having daily mail service to Prince Rupert with the putting into effect of the daily train schedule on June 4.

J. Lister, of the local Canadian Bank of Commerce staff, is a son of Rev. Lister, of Nanaimo, who attacked Westminster Hall in the Presbyterian Synod at Vancouver yesterday.

A special meeting of the One Big Union was held in the McIntyre Hall last night, only paid up members being in attendance. The business discussed was purely of a private nature affecting internal affairs of the organization.

WESTMINSTER HALL OBJECT OF AN ATTACK

Rev. David Lister, of Nanaimo, at Synod, Says There is General Dissatisfaction

VANCOUVER, May 5.—Rev. David Lister, of Nanaimo, attacked the orthodoxy of the teachings of Westminster Hall at the Synod meeting here yesterday afternoon, and said that the reason so many British Columbia congregations failed to support the Students' Memorial Fund at the college was because widespread dissatisfaction with the teachings of Westminster Hall was apparent. Principal W. H. Smith defended Westminster.

Judge Swanson, of Kamloops, submitted a report showing Presbyterian activity in the Cariboo country and the pioneer mining camps of the north.

HAWAIIAN PITCHER IN EXCELLENT FORM

Played Airtight Ball and Made Home Run for Vancouver in Western Opener Yesterday.

VANCOUVER, May 5.—Tyler, the Hawaiian baseball player, pitched airtight ball for the Vancouver Beavers and also struck his first home run in the opening Western International League game yesterday. Colwell pitched for Calgary. Both teams were in good shape.

EMPRESS OF INDIA IS NOT COMING TO ROUTE ON PACIFIC

VICTORIA, May 5.—The Canadian Pacific Ocean Service announces that the Empress of India, formerly the German liner Prinz Eitel Frederic, originally planned for the Pacific run, will be sent to the Atlantic coast instead when ready.

EMPRESS OF CANADA SAILED TODAY FROM FALMOUTH FOR WEST

LONDON, May 5.—The new Canadian Pacific liner, Empress of Canada, 22,000 tons, sailed from Falmouth today on her way to the Western Hemisphere to commence in the Vancouver-China and Japan service.

REPUBLICAN ARMY STILL IN CONFLICT

LONDON, May 5.—Three Free Staters were killed and three were wounded in a conflict between regulars and irregulars on the Free State side of Londonderry on the Donegal border.

Free State reinforcements enroute to Buncrana in lorries were fired upon by irregulars.

P. W. Racey of Surf Inlet was a passenger on the Prince George last night for Swanson Bay.

S. Holmes left the city last night for Vancouver on the Prince George.

H. M. McLeod, of Vancouver, is in the city on business.

DAILY EDITION

Friday, May 5, 1922.

The Forests And The Duties Of The Public.

An appeal for timber preservation in Canada generally and British Columbia particularly, was the keynote of the splendid address delivered by E. C. Manning, district forester, before the Rotary Club yesterday afternoon.

There is a responsibility that every citizen does have, however, and that is to see that the timber is not recklessly or willfully wasted through acts of carelessness which might cause forest fires—the greatest enemy of the country's timber wealth.

Unemployment Situation Is Improving

While demonstrations on the part of the unemployed are daily reported from Vancouver, in Prince Rupert the situation is steadily improving, and many men who have been workless during the winter are now finding employment.

People Are Becoming Safer About Insanity.

The public is said to be becoming "safer about insanity." Families used to consider it a terrible stigma if any of their kin was considered "a little bit off."

Information regarding causes, treatment and prevention of mental disorders generally should be popularized. Probably fifty per cent of the people in asylums and feeble-minded hospitals could have been saved from such a fate if the proper preventive measures had been taken in time.

Cultivation of health through proper habits of the mind and the cutting out of bad mental habits is one idea that should be put in the public's head.

SO EASY TO BE WELL AND STRONG

Take "Fruit-a-tives" The Wonderful Fruit Medicine

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headaches and was unable to sleep at night. I was getting so thin that I was frightened.

At last, a friend advised me to take "Fruit-a-tives" and in a short time the Constipation was banished, I felt no more pain, headaches or dyspepsia, and now I am vigorous, strong and well."

PIANO RECITAL WAS EXCELLENT

Pupils of St. Joseph's Convent Pleas'd Invited Audience Last Evening.

An excellent piano recital presided over by Rev. Father McGrath, was given by the pupils of the St. Joseph's Convent, last night. Owing to the limited accommodation the audience was restricted to invited guests.

Miss Lorna Tite was admired by her many friends who marvelled at the almost incredible progress that she has made in her musical career. Miss Dorothy Thomson was also remarkable for the skill with which she executed her very important part of the program.

WITH an every day train service the citizens of Prince Rupert will not call Ottawa the capital.

"SOME kick to that cheese" said the mouse as the wire trap nipped his tail.

IF there is one thing some men like more than a drink it's half a dozen drinks.

LIONEL BABRYMORE AS GENTLEMAN AND ROGUE AT EMPRESS

All who saw Lionel Barrymore in "Dr. Jekyll and Mr. Hyde" remarked on the remarkable manner in which he took the dual role of polished society gentleman and underworld knave.

The setting of this unique picture is in Paris. Mr. Barrymore takes the role of Phillip Remarque, a judge of the criminal court, who is subject to temporary mental lapses as the result of a kick at the base of the skull by a horse.

The Man in the Moon SAYS:

TELLING the time is quite a past time these days.

The old saying: "If you want to know the time ask a policeman" is being put into practice this week with a vengeance.

THREE years ago Berlin was naked and starving. Today she is naked and dancing. Old squawk for help used to be: "We are naked. Send us clothes." New whimper is: "We are naked. Send us ragtime."

THE football coupon craze is on. And many a smile is seen. Until the prize list come to light, when the smile is turned to spleen.

A RARE instance in the displacement of a woman's heart has come to light at Fort William. There is really nothing rare about it, in fact some women seem to have no heart at all.

EXTRA pair of trousers free with every suit, we read. What with spring cleaning, daylight saving, and two pairs of trousers on at once Pa will be having some time.

WITH an every day train service the citizens of Prince Rupert will not call Ottawa the capital.

"SOME kick to that cheese" said the mouse as the wire trap nipped his tail.

IF there is one thing some men like more than a drink it's half a dozen drinks.

Ten Years Ago in Prince Rupert

May 5, 1912. D. M. Moore of the Cassiar Packing Company and formerly manager of that cannery, now manager of the cannery at Namu, Vancouver Island, will leave on the Camosun for Namu. He will continue to look after Cassiar and will make occasional trips to the Skeena during the season.

G. W. Nickerson and J. R. Beatty left on the afternoon train to spend the week end at Mr. Beatty's ranch up river.

PHYSICAL EXAMINATION FOR WOMEN STUDENTS REQUIRED AT TORONTO

TORONTO, May 5.—Physical examination for the women students of the first year was made compulsory at a meeting of the senate of the University of Toronto. Hereafter the lady applicants will be compelled to undergo a rigid examination to determine if they are properly qualified to undergo the exacting strain imposed on one who must attend diligently to studies.

TERRACE

E. A. Blow, of the Canadian National Railway publicity department, Winnipeg, left on Saturday for the east after having spent a few days here.

Mrs. O. J. Wheatley, of Vanderhoof, held a millinery display in the hotel sitting room during the past week.

Mrs. Monckton, of Victoria, who was visiting her son, P. M. Monckton here, returned home on Thursday.

Mrs. J. Viger, who has been ill is able to be out again.

Mr. and Mrs. Geo. Little and baby daughter returned on Saturday from Prince Rupert.

C. R. Gilbert visited Usk this week.

Messrs. White and Wilson have successfully rafted a large quantity of piling through the Little Canyon. This undertaking was hitherto considered impossible.

Miss Dunlop Greig accompanied by her sister Volma, visited Prince Rupert last week.

Mrs. Dunbar of Prince Rupert, is visiting here with her mother, Mrs. Griffiths.

Rev. Dr. H. R. Grant of Prince Rupert spent several days at his ranch west of town last week.

Mrs. Blanche of Houston, has arrived to visit with Mrs. W. Little.

Dr. Bleecker visited Usk this week.

A very enjoyable dance was held in Lakelse Community Hall on Friday evening.

Clifford Churchill is visiting at the home of his uncle, William West.

Dick Thompson arrived here on Sunday's train.

A very enjoyable dance was held at the home of Mrs. Leslie Skinner, Copper City, on Saturday evening.

The ferry which was wrecked down stream last fall has been brought back and is now being used.

Miss Ella Frank, of the Prince Rupert hospital staff, is visiting her parents, at Kitsumkalum.

On Saturday afternoon the Women's Auxiliary of the Anglican church held a very successful sale of work. Many garments, including dresses, made a very pretty display. Afternoon tea was served.

Fred Joudry, optician of Prince Rupert, spent the week end here.

Geo. Powers has moved his bake shop up town.

Mrs. Brunson, of Copper City was in town on Thursday.

A farewell party for John Anthony was given by Mrs. Wilson at Remo on Tuesday evening. All the neighbors were present to wish Mr. Anthony God speed and to express their appreciation of his many kind acts while section foreman at Remo.

Mrs. Snodgrass, of Usk, visited Mrs. Sundal this week.

Will the person who composed the "Merry Widow" program, please send name and address to Box 24, Daily News Office for business reasons.

PRINCE GEORGE

The election of officers of the G.W.V.A. on Monday night resulted as follows: J. M. McLean, president; George Sutherland, vice-president; F. Welch, treasurer; Fred Buntton, secretary; J. McLeod, sergeant-at-arms; Messrs. Sales and Norrington, auditors; executive committee, Comrades Launeville and Alward.

Rev. Father Cocola, O.M.I., is in the city for a day or so en route to McBride.

Dr. and Mrs. Lyon entertained a party of friends at dinner on Sunday evening in their charming new home on Seventh Avenue.

George McKenzie of Fort George was attacked by a sudden nervous breakdown during the week end, and is confined to his home under medical care. His progress is reported to be good and hopes for a speedy recovery are entertained by his family and friends.

TERRACE NEWS

(Courtesy Terrace News.)
An eastern firm that controls extensive timber limits in the Terrace district has included a pulp mill in the list of its proposed future activities according to recent advices received here.

Hugh McDonald has left for Hazelton Hospital for medical treatment.

I. Martin has received his appointment as assistant forest ranger for the Lakelse district.

E. A. Blow of Winnipeg who visited here last week is arranging to complete clearing operations on his land here.

THE TWO TYPES.

He was an old-school minister of the kind called "typical"—prince Albert, white lawn, the dandruff on the coat-collar—always employing that heavenly tone.

The station agent (also the ticket-agent, telegraph operator, freight agent, express agent, janitor) was one of those even tempered people—always mild, the latter was pecking at the brass instrument on an important message one day when the former leaned in at the window and asked:

"Are there any tidings, my brother of the approaching train?"
"Not a blankety-blank tidings," was the reply.

NOTICE.

To Whom It May Concern:
We, the undersigned, having bought the laundry business, situated at 629 Ninth Avenue West, from Wong Lock will not be responsible for any debts contracted by Wong Lock after this date.

All Eye Pains Mean Something

But what it is can only be revealed by a careful examination by a competent optician.

We examine eyes carefully—and fit glasses accurately.

Let us test your eyes, there may be nothing at all wrong with them, but it would be a good thing to KNOW that.

It will take but a few minutes to find out.

BRINGING UP FATHER

MANNING SPOKE INTERESTINGLY ABOUT TIMBER

Time Has Come, He Declares to Rotary Club, When Future Must Be Seriously Considered

U. S. EXAMPLE

In Few Years That Country Has Lessened Production Alarmingly

"The time has come when we must seriously consider the timber situation in this country and take heed of the warning signs which point to trouble ahead," declared E. C. Manning, provincial government district forester, in addressing the Rotary Club at the weekly luncheon held yesterday afternoon in the St. Regis Cafe. Mr. Manning's subject was "The Depletion of Old-Timer Resources and the Remedy," and it was listened to with interested attention and appreciation by the members assembled. President T. H. Johnson presided.

In opening his address Mr. Manning said that the people did not regard seriously enough the value to this country of the timber resources. Our forefathers, when they came to Canada found timber almost everywhere and in their struggle to clear land and make a living for themselves regarded the trees as their greatest enemy. The time had come when the situation must be seriously considered.

U. S. Situation

"I will first of all discuss the history of lumber production in the United States, speaking more of the American situation because reliable figures of that country are easier to obtain and their position is somewhat analogous to ours. Seventy-five years ago and somewhat more recently lumber production centered in the New England states. Then the white pine forests of the Lake states were invaded. In 1880 when the total annual cut was about eighteen billion feet, New England was still furnishing one-quarter of the nation's cut while the Lake states were furnishing 35 percent. The southern pineries were only supplying 20 per cent, and the Pacific coast 5 per cent. In 1900 the nations yearly cut had risen to thirty-five billion board feet, having doubled in twenty years. The north-eastern states produced 16 per cent, the Lake states 28 per cent, the south 41 per cent, and the Pacific coast 10 per cent. Ten years later the northeastern states and Lake states each produced only about 12 per cent of the total cut. The cut in the southern states was at its height, being 54 per cent of the total and the Pacific coast had risen to 18 per cent. The figures for the year 1918 show a distribution of 7 per cent to the north-eastern states, 10 per cent to the Lake states, 49 per cent to the south and 34 per cent to the Pacific coast.

"What are the results in these individual areas? The New England states now import fully one-third of the lumber used; the white pine stands of the Lake states are estimated to have dropped from their original 350 billion feet to about 8 billion, and the southern pineries are on the decline.

Southern White Pine

"I want to speak particularly of the southern pine region. For years its pines have been the chief competitor of our Douglas fir in the east. In fact, it is only recently that the buying public

have begun to realize that our fir is its equal if not its superior. Owing to our excessive freight rates and haulage distances our spruce and fir are at a disadvantage, the pine being often delivered in the eastern states at a total cost not greatly exceeding our haulage cost alone. The Chief Forester of the United States, several years ago, estimated that five thousand saw mills in the southern United States would discontinue operations within the next three years owing to the lack of supply. Another authority states that of two thousand pine mills which come under review only four of these had timber supplies which would last them over twenty years. This comparative exhaustion of the timber supplies must naturally be affecting American industries.

Pulp Industry

"As late as 1909 the United States produced its entire newsprint supply; now it imports two-thirds of it from Canada.

The pulp and paper industry became centralized in the north-eastern and lake states and at present 75 percent of the paper mills are located in these states. Owing to heavy investments of capital they cannot easily transfer to other locations. This has resulted in a rail and water transport of raw material some 500 miles in some cases. Some of these mills paid, as freight alone, up to \$16 per cord in 1919 for pulp wood obtained from Ontario and Quebec. The results of this timber shortage in certain districts became so evident that the public of the United States through their Senate demanded an enquiry into the situation. The enquiry into this subject was the most comprehensive ever conducted in the States and the results were astounding.

"Three-fifths of the original timber of the United States is gone and they are using timber now four times as fast as they are growing it. One half of the remaining timber is situated in the three Pacific states. One-tenth of the original timber area in the States has been so severely cut over and burned that it has become an unproductive waste. The report further states that in the Lake district, by 1930, consumption will exceed production.

tion by 50 per cent, and that the south may produce barely enough for its own needs. Incidentally this will mean great business for the coast states and for British Columbia.

Our Own Country.

"Now let us turn to our country. On account of being younger and less settled, forest devastation has not progressed so far though the situation in the States is already increasing our cut. The large and more accessible bodies of timber in the Eastern provinces are being rapidly cut out and the magnificent white pine stands are fast disappearing. The fact that they are already importing high grade B. C. lumber and paying \$25 to \$30 per thousand board feet freight rate, tells its own story. The pulp and lumber companies in the east are already cutting over their holdings a second and third time. Originally they culled out the large spruce and white pine, now they are also taking the balsam and hemlock down to a small size. Thousands of cords of pulp wood are being taken out, composed of sticks one and a half to five inches in diameter, which we in this country would call toothpicks. One evidence of this depletion of the timber resources in the east may be seen in the fact that stumpage prices are three to five times as much as in the west. So much for the human demands on our timber supplies.

"Now we come to the tremendous fire losses occurring every year, when millions of feet of merchantable timber go up in smoke. The toll from insects is also very heavy. Some years ago the tamarack saw fly almost cleaned the tamarack out of the eastern provinces. The ravages of the spruce bug worm have been still worse.

The Real Situation.

"We in the west are inclined to feel that, though there may be a little shortage in the East, our unlimited supply of timber will protect us for many years. Now let me tell you how the foresters view the situation and what our own Forestry department is doing to preserve the great timber resources of this province. We regard timber as a crop needing care and protection, not as a mine which is

to be exploited and left. Waste in logging operations, in so far as is consistent, should be eliminated for we are using timber which has taken from 100 to 300 years to grow. Land suitable for agriculture should be used for agriculture but the remaining millions of acres in this country which will grow nothing but timber should be put to use of growing timber. We should remember that barren lands pay no taxes and support no pay roll.

Fire Protection.

"Perhaps the main function of our branch is the protection of forests from fire. This is carried on directly by the organization of our field staff into a fire fighting force and indirectly by a public educational campaign.

"A closed season for fire, has been established in the summer. There is a network of patrol in the dangerous districts by launch, motor car, railway speeder, the efficiency of which has been greatly increased by look-out points and field telephones. Wireless telephones have also been put on a number of

PLANTING OF THE GARDEN

Advice As to Securing Maximum Returns From Limited Space.

In Prince Rupert as elsewhere there are so many different phases of work to be considered in connection with the planting of a garden that one needs to have a thorough grasp of the proper procedure. The first operation to be conducted when weather conditions are right, is the preparation of the soil, where the soil is of a sandy nature, there is little danger of injuring its physical make-up, but where the soil is of clay texture, working while too moist will cause puddling which would render the soil lumpy for that season. However, the cultivation given the garden prior to sowing the seed should be thorough in every respect, because upon this tillage will depend, to a very great degree, the success or failure of the garden.

To obtain the maximum returns from any garden, it is necessary to employ successful sowings of such crops as peas, beans, beets, carrots, radish and lettuce. The sowings should be regulated at intervals of a week or ten days apart so as to have a succession of tender fresh vegetables available throughout the season. The first sowings should be made as early as weather and soil conditions will permit and continued in succession until the last week of June.

Sowing of Seed.

Regarding the sowing of the seed, one must be careful to regulate the depth in accordance with the season of the year. During the early part of the season, shallow planting is essential to quick germination, but as the season advances and the soil becomes warmed to a greater depth, it will be found necessary to increase the depth, in the ground to which the seed is sown, bearing in mind, of course, that large and small seeds must be planted in depth in accordance with their size.

Whether the garden be large or small, the ambition of every gardener should be to obtain the most from the given area. This can be done by a system of double cropping, or catch cropping, using such quick maturing crops as radish and lettuce. The early maturing crops are sown between the rows of cabbage, cauliflower, tomatoes and potatoes, or as markers in the rows with the seed of slow germinating sorts such as parsnips or beets, and are ready for use and sale before the standard crops require the space for their development.

Mode of Procedure.

A few suggestions regarding the mode of procedure in connection with the growing of successful crops might not be amiss. In the first place, let us consider peas. The first early sowing should be made using a smooth seeded variety such as Alaska or Early Morning Star. This type of pea can be sown very early when conditions for wrinkled sorts would be entirely undesirable. It may be necessary to make a couple of sowings of the smooth sorts before it would be possible to sow wrinkled peas. For the successful sowings of a wrinkled variety, use Thomas Laxton, this variety sort has been found very desirable and possesses all round good qualities. If, however, a dwarf variety is desired, English Wonder is recommended, followed by American Wonder. With this it has been found much better to use some early sort such as Round Pod Kidney Wax, or a golden podded sort, and only Red Valentine if a green

FREE PANTS

Three Day Event Commencing Friday, May 5, and continuing till Monday, May 8.

Clothes of Quality

Mr Skinner, representing "Clothes of Quality" Hand Tailored, Made to Measure Clothing, has just arrived and for three days will show the greatest range of suitings, in Worsted, Saxony, Cheviots and Serges, at prices ranging from \$27.00, \$35.00, \$40.00, \$45.00, \$55.00 and \$65.00, with Extra Pair of PANTS FREE with Every Suit.

Would You Like a New Suit for the 24th of May?

For all measurements taken on Friday, arrangements have been made to have these suits delivered here by May 24. Here is your chance to get a real stylish suit of splendid wearing material right at the beginning of the summer season. Get here Friday as time is getting short.

Don't forget that you get an Extra Pair of Pants for Nothing. OUR PERFECT FIT GUARANTEE

We have been very fortunate in securing the agency for "Clothes of Quality" and in addition to have the opportunity to introduce Mr. SKINNER, who is thoroughly experienced in the art of measuring and correctly fitting gentlemen in made to measure clothing.

Lean or fat, tall or short, each and every man presents his own individual problem in correct fitting that only an experienced and competent tailor can handle with success.

See these samples of suitings in our window. Over 200 lines of samples to choose from, and actual life size models of latest styles will be on exhibit.

This is the first big opportunity ever presented here of securing a perfect fitting suit tailored to your individual order at a reasonable price.

Remember every suit carries with it a FREE PAIR OF PANTS AND A GUARANTEE.

Sport Chat

The attention of local athletes is turning towards outdoor sports and interest in billiards and other indoor recreations is commencing to flag considerably. Very few games have been played during the past few weeks in the Lepine Cup competition at the Elks' Home and although the contest for the year is supposed to be over during the month of February it is now May and there is little indication of an early conclusion. The same spirit of indifference seems to prevail in regard to the Intermediate and Junior Billiard League games and progress is not very fast there either. The billiard season is decidedly over.

The weather of the past week has not been very auspicious for the scheduled pre-season practice-football matches and it has been impossible to hold them. Apart from that the grounds have not been in suitable shape, this due possibly to the weather also which has prevented the work being done. It is to be hoped that conditions will be such at the week-end that the spreading of the cinders and other improvement work may proceed so that the baseball and football leagues may get their schedules started as set down for next week.

Although the baseball season is scheduled to open next Tuesday night and the football on Monday evening, the season's time tables in neither case have yet been drawn up. The arrangement of the season's games is being left over pending final meetings of the executives of both leagues which will be held tonight. The football league has a tentative schedule drawn up for the dates but the final arrangement of competing teams has not yet been made. The time

BENEFIT DANCE

Enjoyable Affair Given in De Luxe Hall Last Night by Arthur's Orchestra

A very successful Cinderella benefit dance was given by Arthur's orchestra in the De Luxe Hall last night, when between 60 and 70 couples participated in the terpsichorean art until the early hours of the morning. Bob Arthur performed the duties of master of ceremonies with distinction. Dancing commenced promptly at 9 o'clock and continued without intermission until 1 o'clock.

YOUNG SKIPPER.

BOSTON, Mass., May 4.—The three-masted British schooner A. & W. Ogilvie, from Pagsboro, N.S., with 182,000 feet of spruce lumber, is commanded by the youngest skipper to ever leave a Nova Scotia port, or probably any other port. He is Captain Walter Ogilvie, eighteen years old, who is also part-owner of the vessel.

Announcement from the Ontario Jockey Club, regarding their late stake fixtures which closed on May 3, show that the purses for flat racing and steeplechasing totalled the sum of \$119,000. The Toronto Cup heads the late closing list with \$10,000 added. This is followed by the Gonnaught Cup, \$5,000 added; William Hendrie Memorial \$5,000 added for three year olds and upwards foaled in Canada; King Edward Gold Cup \$5,000 added; Woodstock Plate \$5,000 added; for three year olds; Victoria Stakes \$5,000 added for 2 year old foaled in Canada; Street Railway Steeplechase \$5,000 added, 2 1/2 miles, in all eight stakes with \$45,000 added, \$5,000 being the lowest value.

There were also run during the meeting handicaps and other events of \$2,500 and \$2,000. As is the custom at meetings of the Ontario Jockey Club steeplechasing was a strong feature, the Street Railway steeplechase having \$5,000 added with overnight events of \$3,000 and \$2,000 in all \$16,000 added for cross country racing with \$1,500 the lowest value of any overnight event.

Tables should be ready for release tomorrow or Monday.

PRISONERS ARE STILL HELD IN RUSSIAN CAMPS

Terrible Condition of Men and Women Held for Political Offenses.

MOSCOW, May 5.—(The Associated Press)—To prevent the death by starvation and disease of 200,000 or so men and women in the various prisons and concentration camps of Russia, collections are being taken in the churches by the priests and about the streets by ex-prisoners or by friends and relatives of prisoners.

Despite the amnesty proclamation of the Soviet government in November last, the prisons and camps continue crowded with men and women political prisoners whose only crime appears to have been that they once were rich or that they fell afoul of old enemies who used their Communist influence to avenge private grievances.

Conditions have been going from bad to worse since the famine until now prison means to be practically without food, clothes, heat or medicine. The organization known as the Russian political Red Cross has had its meager supplies and funds cut off, along with schools, hospitals and other institutions.

The people in the famine region are in a paradise compared to those who are denied their liberty and all means of obtaining food.

Eating Refuse.
In the camps of Novosibirsk and Pokrofsky, near Moscow, to the certain knowledge of The Associated Press correspondent, the prisoners are reduced to eating bits of refuse, like hungry animals. The best that is served them is greasy hot water called

RE SPECIAL TIMBER LICENSES

The attention of Timber License holders who are taking advantage of the provisions of the 1921 Amendment to the FOREST ACT, whereby arrears of license fees accrued prior to 31st December, 1920, have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the license in order to maintain the right of the holder to obtain a renewal of the License. 113

HEARTBURN A SEVERE CASE

Many people are troubled with heartburn who really do not realize just what it is.

In cases of this trouble there is a gnawing and burning pain in the stomach attended by disturbed appetite. It is generally caused by great acidity of the stomach, and whenever too much food is taken, is liable to ferment, and becomes extremely sour, causing heartburn. In such cases vomiting often occurs, and what is thrown up is sour and sometimes bitter.

The one way to get rid of heartburn is to keep your liver active by using **MILBURN'S LAXA-LIVER PILLS** and you will have no heartburn or other liver troubles such as constipation, jaundice, water brash, floating specks before the eyes, coated tongue, foul breath, etc.

Miss Edith Cutting, Shallow Lake, Ont., writes: "I have had heartburn for a long time. There were gnawing and burning pains in my stomach, and then when I vomited there was a sour and bitter taste. I used two vials of Milburn's Laxa-Liver Pills, and they have cleared me of my heartburn. I don't think they can be beaten by any other medicine."

Price, 25¢ a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Some women political prisoners have been released, but the correspondent has information that aged and middle-aged princesses, mothers and daughters and wives, are still detained in overcrowded lice-infested cells or rooms with but one piece of clothing to cover them and without soap to wash themselves.

Once such people as these get into prison they stay there almost automatically because they are of no special political importance in present-day Soviet Russia.

The Cheka (secret police) authorities has just offered to send 100 real political prisoners—Social Revolutionists or Mensheviks—to some small town they may select at least 150 miles from a railway if they will promise to remain there. They are now locked up in the Boutirsky prison at Moscow and thus far have refused the offer. Nevertheless a dozen or so of the prisoners have been released.

Menshevik Leader.
Among the 100 is M. Tchernov, leader of the Menshevik party and chief of the Constitutional Assembly of January, 1918. This particular group worked for a time with Admiral Kolchak organizing the people's party in Siberia.

Mensheviks were arrested by the hundreds in every political centre of Russia and are still in various prisons.

Other political prisoners are anarchists, the cadets of Professor Minkoff, former Russian Foreign Minister, officers and relatives with the various "white" and volunteer movements of the old Imperialist sets including men from the Denikine and Wrangel armies.

In addition, there have been scattered through north and central Russian prisons and camps men connected with the efforts to establish independent republics in Georgia, Azerbaijan, the Kuban and other sections of south Russia and the Caucasus, including Turkestan.

M. Unsicht, the new chief of the Cheka, has refused to give American correspondents information on the prisons and the causes of the arrests. A year ago the cheka issued a report which was suppressed on issue.

NAKED MEN BRANDED WITH HOT IRONS IN PRISONS OF MOSCOW

BERLIN, May 5.—Fritz Nolde, a German business man, who has just been released from Butirka prison in Moscow and returned to Berlin, declares that there has been no modification of the treatment of prisoners there since the Moscow government announced that the dread Cheka and its methods were things of the past. Nolde said that from his cell window he saw naked men branded with hot irons and heard the cries of the victims.

Several Hungarian officers released with Nolde bore out his assertions concerning the cruelties inflicted upon prisoners.

CONCEITED DONKEY.
Fable: Once upon a time there was a grand opera prima donna who never once in her career gave evidence of "temperament." "Aesop's Film Fables."

MANNING SPOKE INTERESTINGLY ABOUT TIMBER

(Continued from page 4)

launches on the lower coast and on three land stations. These telephones have proved of immense use in keeping the field and office in close touch in reporting fires and effecting the transport of men and equipment at a speed which would otherwise have been impossible. Logging machinery such as donkey engines and locomotives must be equipped with certain fire prevention appliances, and camps must be properly equipped with fire fighting tools. Portable gasoline pumps have lately been added to our equipment capable of pumping water a thousand feet.

"Every year some improvement in equipment or organization is made, with the result that in ten years since the inception of the provincial forest service, a fire fighting force has been built up which is second to none. The main principle of fire protection is the early detection of fire and quick arrival at the spot. Of the fires reported last year, over 1300 in number, 12 percent were restricted to less than one-quarter of an acre, another 33 percent between one-quarter and 10 acres, making 75 per cent of the total number.

These Responsible.
"We find that campers and travellers are responsible for starting 25 per cent of forest fires. Railroads come second, while lightning is responsible for only 10 to 15 per cent. We have therefore, been conducting an educational campaign through our newspapers, signs, notices and other means.

"In our timber administration we are trying to find out what our capital stock of merchantable timber amounts to. Reconnaissance parties are out every summer mapping and cruising our timber areas and data is being gathered which will show how long it takes different classes to grow to merchantable size in different localities, and what the increment per acre will be.

"A natural resource as great as our timber, which provides one-quarter of our provincial revenue and of which still greater use will be made owing to the depletion in eastern supplies and increase of export, is surely worth being protected and treated as a perpetual crop. If you think so, give us your support because we cannot advance faster than public opinion."

A vote of thanks was passed to the speaker for his very eloquent address.

Prosperous advertising means regular continuous advertising.

FALSE ECONOMY

The family that does not provide for laundry service in the weekly budget is practicing false economy. Under our new plan, **Laundry work by the pound**, practically the entire family bundle is washed and returned, damp almost ready for ironing, for \$1.25.

This is the cheapest Laundry Service ever offered locally, and the husband who has the welfare of his family at heart cannot afford to pass this service up without serious consideration.

We have also our **Soft Finish Service**, where for a small additional charge, everything is dried and all flat pieces ironed and folded.

To those who can afford the small additional cost, this is the most complete service possible, without finishing the entire bundle. The cost will be found to be considerably below the prevailing price.

A trial will convince you of the merits of this service.

FRESH ROASTED COFFEE FRESH ROASTED

The value of coffee as a beverage lies primarily in its strength and flavor. Green coffee will keep indefinitely, but such is not the case after it has been roasted. Roasting brings out the flavor and aroma. Coffee becomes stale because of loss of these aromatic principles. We are roasting and packing for current requirements only, realizing that, essentially, coffee must be fresh roasted to prove perfectly satisfactory.
