Balfour Bomb Still Agitates Europe

FRED STORK TELLS OF VISIT TO THE INTERIOR WITH MINISTER

Payment of Debts Agitates European Countries and is Subject of much Controversy

LONDON, Aug. 4.—Lloyd George told the House of Commons yesterday that the Government had decided to accept the recommendation of the air ministry and provide one hundred airmen for home defense at a cost of two million pounds. It could not prejudice further extension of the air force if the latter was found necessary for national security. Many new machines had been ordered forthwith of the all-metal type.

Recently the Parliamentary Air Committee sent a letter to the Prime Minister in which, after referring to what was accomplished by air fighters in the European war, it proceeded to draw an appalling picture of the next air war. The letter said in part:

"The bombs dropped on London during the last war averaged less than 100 pounds in weight. Bombs or torpedoes are now carried of 4,000 pounds weight, containing a mass of high explosives. The effect of a dozen bombs of this character dropped on London can readily be conceived. There is not merely a possibility but a great probability that in the event of war, this country would be raided and London and other towns destroyed by squadrons or even fleets of airplanes, travelling at 150 miles an hour at a height of 20,000 feet, silent as to their engines and certainly by night invisible."

Air Battles First.

The committee prophecies that all great wars in future will begin with terrific battles in the air, and says that if the country suffers a real defeat in this battle, the victor will in a few days destroy her ports, her railways, her munition factories and her capital by intensive bombardment from the air. It considers that at present England is not in position successfully to combat an attack and that the government should appoint a strong commission to investigate.

FISH ARRIVALS

Eleven Halibut Boats Marketed 97,000 Pounds at Exchange This Morning

FISHERY COMMISSION MEETS ON FOURTEENTH

News Received in the City of Change of Date.

Word has been received in the city that the date of the first meeting of the fisheries commission will be August 14 in this city. Evidence will be taken here for two days and the commission will proceed to other points in the district, a schedule of which will be published in a few days.

DROWNED SURF INLET

Logger Named John Pun Sank When Swimming For Log at Morgan Camp

A drowning case occurred this week at Surf Inlet when John Pun, a logger employed at the J. R. Morgan Co.'s camp, lost his life. He was a good swimmer and when ascending logs swam to get one that had got away from the rest, arriving there, he for some reason started to swim back and apparently was taken with cramps of heart failure and went down. The body was brought to the city today on the steamer Venture and is in care of the B.C. Undertakers.

Telegrams have been sent to various centres asking for information in regard to relatives but so far none have been found.

DAKOTA CLOUDBURST

HOT SPRINGS, South Dakota, Aug. 4.—Property damage estimated at a million dollars was caused by a cloudburst.

BIG FLAG POLE BEING FELLED

Interesting Job Going on This Afternoon at Old Government Buildings

Anybody who happens to be in the vicinity of the old provincial government buildings this afternoon about 3 o'clock may witness an interesting piece of work done when the 109 foot flag-pole, which has stood on the grounds for some ten years or so, is taken down preparatory to being moved to its new location in front of the new buildings at Market Square.

The pole, which measures 19 inches in diameter at the foot and six inches at the top, will be cut off at the concrete base and will be eased down over Second Ave. with a gin pole. It will then be hauled by a team of horses to Market Square.

LORD NORTHCLIFFE IS GETTING WEAKER

Late Advices Say Famous London Journalist in State of Great Exhaustion

LONDON, Aug. 4.—Lord Northcliffe, the newspaper magnate who is seriously ill, has been getting weaker the last few days and heart trouble is increasing.

LONDON, Aug. 4.—(Noon) Great anxiety is felt today over the condition of Viscount Northcliffe. There is some increase in the heart weakness previously noted and he is in a general state of exhaustion.

BRITAIN WILL SEND WOMAN TO ASSEMBLY LEAGUE OF NATIONS

LONDON, Aug. 4.—Premier Lloyd George told the House of Commons that it had been decided to send a woman in an advisory capacity to the assembly of the League of Nations to represent Great Britain.

ELKS TEAM FROM ANYOX IS COMING

Word was received by the Elks' Flag Day committee this morning that the Anyox Elks' ball team and a party of supporters will be down here to play with the local Elks' team next Wednesday. They have chartered a boat and will arrive on Tuesday evening and play on Wednesday.

HILTON BELYEA IS IN THE FINAL FOR THE SENIOR SINGLES

PHILADELPHIA, Aug. 4.—Hilton Belyea, of St. John, New Brunswick amateur rowing club, won the first heat for the senior singles at the regatta of the National Association of Amateur Oarsmen. He qualified for the final later in the day.

The G. P. R. steamer Princess Alice, Captain Ormiston, northbound passengers passing through the city on the Princess Alice today. Captain Jaynes is going to Ketchikan and Mrs. Jaynes to Wrangell.

Dancing finds some steps anew for clever feet to do.

BURY INVENTOR AT SUMMIT OF HILL ON HIS OWN ESTATE

BADDECK, Cape Breton, Aug. 4.—The body of Dr. Alexander Graham Bell will be buried this evening from his country home. Interment will be made at the summit of the mountain on the Bell estate.

ROYAL PURPLE CARD PARTY LAST EVENING

Held in St. Regis Dining Room Which was Donated for Occasion by Mrs. Richmond.

The Ladies of the Royal Purple gave a pleasant whist drive in the St. Regis dining room last evening. There were fifteen tables but many more tickets were sold and the total proceeds were about \$85. The dining room was donated by Mrs. Geo. Richmond for the occasion. The first-prize winners were Misses Well.

Thelma Knicht and Ralph MacDonald, consolation awards going to Mrs. J. Gathorne and race. Leaving here on Monday morning they were somewhat delayed in arriving and did not get in until 8 o'clock. They spent two and a half hours around Terrace and motored over a great part of the district. On account of forest fires they were prevented from crossing to the Lake side.

From Terrace they went through to Smithers and drove to Telkwa and Round Lake on Tuesday morning. At the latter place they were given a luncheon by the Farmers' Institute. Houston was then visited, calling at Barrett's and Sealey's ranches enroute.

At Houston they took the train into Burns Lake and Mr. Motherwell went on to Vanderhoof where he was met by T. G. McBride, the member for Gariboo.

On Wednesday Mr. Stork returned to Hazelton where he spent the day. In company with H. B. Little, the manager of the Union Bank, he went for a distance of 26 miles up the Kispiox Valley to George Birnes' ranch. It was Mr. Stork's first visit to Kispiox Valley and what he saw was a revelation to him. He had never believed that an agricultural valley with such potential possibilities existed there.

Saw Airplane

Mr. Stork found Len Bell's hydroplane at Hazelton. He and Mr. Motherwell had been expected in Saturday and the machine had been all tuned up to take them up and show them the Kispiox Valley from the air. Mr. Stork regretted very much that he had been unable to go up with the minister but, owing to bush fires, they would not have been able to see much anyway for the airplane was now tied up on this account.

The member speaks very highly of the venture of the Railway Employees' Investment and Industrial Association and sees great possibilities in it. The company was certainly entitled to a great deal of credit. Their machine, a solid aluminum monoplane, was the best that money could buy. They were operating into the Findley River and Ground Hog country flying in two hours where formerly it had taken a pack train sixty days. Thus by the time prospectors got in, it was almost time to start coming out again.

Belgian Attitude.

BRUSSELS.—Aug. 4. The British attitude toward the inter-allied debt is considered in Belgium to be a matter of extraordinary gravity. Political circles think Britain henceforth will be obliged to support Germany's creditors in their efforts to make that country pay.

Two Experimental Farms Necessary for the Interior

That Hon. W. R. Motherwell, federal minister of agriculture, cannot see where one experimental farm will fill the bill in the central interior and that he thinks the department of agriculture will have to put in two, one possibly located in the Nchako Valley and the other in the Omineca constituency, is the statement of Fred Stork, M.P., who returned to town last night after having accompanied Mr. Motherwell to the eastern end of Skeena district. Besides these there will also possibly be one or more experimental stations located in the district.

This was Mr. Motherwell's first trip to this country and he was tremendously impressed with the valleys and the railway. The trip was a hurried one and was taken so that the minister could familiarize himself with conditions in these parts. The actual locations of the agricultural facilities will be left to an expert who will come in later and make the selections.

From impressions gained on the trip with the minister, Mr. Stork believes that Prince Rupert and district has one of the stanchest friends in Mr. Motherwell.

Besides, its other advantages, Mr. Stork predicts that aerial navigation will save thousands of dollars in survey work on account of the facilities it offers for geographical observation.

Railway Grade Easy

George Birnes, the pioneer packer of the Hazelton country, who has recently been making bush fires have been very bad all over the district, Mr. Stork reports. However, a little rain came on Thursday and some of them were dampened down. Danger to the Allen mill at Pitman Spur was fortunately averted by the arrival of this rain.

"A vast amount of timber has been destroyed or fire-killed," Mr. Stork says. "The railway company should make preparations to have this fire-killed timber manufactured into ties this winter. Otherwise it may not be suitable the year after."

AMMUNITION FOR CHINESE

Seizure Made at Hong Kong From Admiral Liner President Grant

MANILA, Aug. 4.—Thousands of guns of American and German make and 23,000 rounds of ammunition were taken from the Admiral liner, President Grant at Hong Kong recently and 26 members of the Chinese crew were arrested.

The munitions had been smuggled aboard at Seattle, apparently destined to South China.

TOOK IRREGULARS ON FLANK AND IN REAR HAMPERED RETREAT

DUBLIN, Aug. 4.—National army troops landing front the sea in County Kerry took the irregulars on the flank and in the rear and hampered their retreat from Limerick.

Fighting goes on elsewhere with the Free Staters generally successful.

Fish Comparisons Often Misleading.

In making comparisons between the salmon catches one season and another it is manifestly unfair to compare with a previous season as to do so is most misleading. As everyone knows the salmon run in cycles. The fish spawn at the headquarters of the streams and there die and the young return to the same streams four years later. While a few fish reach five years of age, the number is so small as to be negligible. The result is that in making comparisons of the run of one year with another the only intelligent method is to compare a run with the one four years preceding.

In the year 1918, which is four years ago, the sockeye pack on the Skeena River amounted in all to 123,322 cases and this year it was 55,400 cases up to last Friday night. Up to that time the half way mark had not been reached. According to previous statistics, this year there should be a fair run and next year should be the big run. So far the present season is keeping up the record and at the present rate of fishing the season should be almost as good as that of four years ago.

Pink Salmon Are Low Priced.

Just now the pink salmon run is increasing and a great many of these fish are being caught by the fishermen. They sell at a low price and the fishing product also sells for a small figure. The official report says that up to last Friday night 12,400 cases had been packed on the Skeena River. During the season 1918 there was packed 161,727 cases of pinks altogether, so it is clear that the season for pinks has only just begun. The former name for the pinks was humpbacks, a name which did not do justice to so fine a fish and tended to injure the sale. For commercial reason the name was changed.

Last year the sockeye pack was a total failure and most of the cannery lost money. The pack for the season was 41,018. Already the pack this year has far exceeded last year, in fact it has probably doubled 1921. One reason given for the unusually poor pack in 1921 was that the hatcheries were not functioning properly in 1917, the year in which the 1921 fish were born.

Artificial Propagation Has Been Successful.

A large measure of success seems to have followed the artificial propagation of salmon. Instead of allowing the eggs and young salmon to be subject to the depredations of the many enemies, care is taken to see that the eggs are properly fertilized and they are hatched in sheds where none of the natural enemies can get near them. Later the young fry are liberated and they make their way to the ocean in the usual way. While doubtless many lose their lives in the river outbound, yet the loss is minimized to a very large extent and it is the opinion of experts that millions of fish are saved by the process of establishing salmon hatcheries. One of the hatcheries may be seen in operation at Lakelse Lake.

Success Of Fisheries Is Important Here.

The success of the fisheries is very important to Prince Rupert. While much of the supplies used at many of the cannery is bought at Vancouver, yet the fishermen spend most of their wages here. The Orientals possibly do not do so, but the Indians and white fishermen certainly do. For that reason we are all interested in having the salmon fisheries protected.

PINK SALMON RUN BEGINS

Tourists Taking Route and Vis-
iting Points of Interest on
Queen Charlotte Islands.

MASSETT, Aug. 4.—The run of pink salmon is fairly commencing in the inlets with preparations for a large pack at the three principal canneries, Alford Bay, Woden River and Lagoon Bay. Reports from Heceta Straits are that millions of fish are heading towards the island rivers.

Forest fires have broken out on Langara Island and Nadan Harbor. It was thought the lighthouse on Langara Island was in danger. Several launches left for the scene of the fire, on Sunday and found cause for notifying the authorities. With the continuous dry weather, a wind storm would mean a sweep of the entire island by the flames.

New Launch.

Alex. Yatatzie, one of the Indians, constructed a fine launch to replace the Venus, which was wrecked sometime ago. The boat will be used during the fishing season on Massett Inlet.

Thirty boats, principally man-

naged by whites, are trolling off Langara Island, making fair catches of sprats and coho salmon. The Canadian Fish and Cold Storage Company have a receiving station on Langara Island from whence fish is regularly shipped to Prince Rupert. The continuous dry weather is causing loss in tame fruits and vegetables. Wild berries are growing in abundance. It is not uncommon for berry pickers to gather thirty or forty pounds of blueberries, huckleberries and salmon berries daily.

Funds for Hospital.

Residents of Queen Charlotte City entertained a numerous party of visitors at the first Hospital dance, which took place at the Premier Hotel, on the night of July 3. Mrs. W. J. Smith was the hostess, generously providing the guests with

the use of the building and refreshments. Mrs. (Dr.) Palmer, aided by the Hospital Committee, of which W. J. Smith is president, worked assiduously in making the entertainment a success. The funds collected will be expended on the hospital and grounds located at the south end of the principal island. The entertainment was a decided success.

A number of tourists are taking advantage of the excursions fortnightly, on the steamer Prince John. The round trip, which occupies about nine days, from Vancouver, affords an opportunity of visiting the canneries, settlements and Indian villages en route, including Jedway, Sandspit, Cumshewa Inlet, Skidegate, Queen Charlotte City, Masset, Woden River, Buckley Bay, Clements and other points of interest. The steamer calls at Prince Rupert, affording the visitors an opportunity to return on the Prince Rupert, or the Prince George, to Vancouver, or the alternative of continuing the voyage, a second time, through the passage between the various islands of the Queen Charlotte group.

FINED FOR SETTING OUT FIRE FRANCOIS LAKE WITHOUT PERMIT

BURNS LAKE, Aug. 4.—At Francois Lake this week before Justice of the Peace Robb, L. O. Forde was convicted under section 108 of the Forest Act of having set out a fire without a permit. He was fined ten dollars and costs.

GIFTS THAT LAST

THE DAILY NEWS

a letter to the editor

"Box 10, Terrace, B.C.

"31.7.22.

Dear Mr. Editor:

"Although this is the age of scientific wonders and fresh reports are daily published of new advances and larger conquests, yet I have had such a remarkable recovery that I make no further apology for asking you to publish this letter.

"Last March I met with an accident which displaced my right hip bone. At first the pain was not severe and I treated it for sprain, but eventually discovered that the bone was out. By that time the pain had become very troublesome, and on June 26 I travelled to Prince Rupert Hospital for treatment. I only spent four days in the hospital as the doctor told me that the bone could not now be replaced but he ordered rest and massage which he said should restore me.

"However, these hopes were doomed to disappointment and I grew steadily worse until by July it was impossible to walk or stand. The least movement was likely to start the pain and sleep was only possible in rare snatches. In the meantime we had made enquiries for the address of a Chiropractor, and on July 13 received from a friend the address of Dr. Barton at Prince Rupert. Next day, Friday, we sent a letter to Dr. Barton asking him to come as quickly as possible. He came on the Saturday train arriving about 11 p.m., and immediately crossed the river and made a careful examination.

"He told me that the trouble was in the Sacro-Iliac Articulation, in the so-called immovable joint where the Innominate or hip bone is attached to the Sacrum. Dr. Barton then set to work to correct the condition, and after about fifteen minutes told me to walk, and much to my amazement I found I could do so. On Sunday morning Dr. Barton returned and completed the adjustment, the whole work being carried out so rapidly and easily that it was over before I had time to realize it had actually commenced.

"After Dr. Barton left I carefully obeyed instruction as to massage, exercises, etc., with the result that by July 19th, just three days after the adjustment, I was able to walk about quite freely, naturally and absolutely free from pain. Then Dr. Barton came again on July 23 and he was able to declare me quite restored.

"Naturally, from my point of view, the work and the speed with which it was carried out seems nothing short of marvellous. One needs to have faced the possibility of a crippled condition becoming permanent to really appreciate the joy of such a recovery. I have asked permission to publish this letter because I feel it is the duty of those who have benefited by Chiropractic treatment to acknowledge the fact as publicly as possible just at present. Owing to the unreasonable persecution of Chiropractors there is a danger that the help which has restored us may be rendered unattainable to others, and I for one would not willingly doom another to the pain I have so narrowly escaped.

"May I appeal through the columns of your paper for the sympathetic support of all fair minded people for those who are at present being persecuted for practicing such a science of healing. Apparently the only present acknowledgment the Dominion makes of these men and women, who are undeniably advancing the health of so many people, is imprisonment and fine.

"All roads that lead to health are good: Physics, Surgery, Manipulation or Suggestion.

"'Tis life of which our nerves are scant,

"'Tis life, more life, for which we pant,

"More life and fuller that we want.'

"Most human experience will endorse the poet's opinion, then why set up a barrier across any one of the avenues that lead to the hope of higher efficiency? Religious toleration seems so essentially just and reasonable that in these days it is hard to understand why our forefathers

**NUPTIALS OF SIDNEY
JOHNSTON WAS SMART
AFFAIR AT VICTORIA**

**Full Account of Wedding as Given
By Victoria Times; Colonel
Peck Present**

Prince Rupert people will be interested in the account of the wedding of Mr. and Mrs. Sidney Johnston, who arrived home Wednesday as given in the Victoria Times of last week:

One of the prettiest and smartest of the season's weddings took place last evening at St. Mary's Church, Oak Bay, when Dorothy older daughter of Mr. and Mrs. Joshua Kinsham, of 1623 Belmont Avenue, became the bride of Major Sydney Johnston, M.C., of Prince Rupert, the ceremony being performed by Colonel the Rev. G. H. Andrews, in the presence of a large number of friends of the bride and groom, both of whom are native born British Columbians.

Picture of Loveliness

The bride, as she walked down the aisle of the church leaning on the arm of her brother, Mr. Rowland Kinsham, who gave her in marriage, was a picture of loveliness in her handsome wedding gown of white satin charmeuse, draped with georgette and having a long double train falling from the shoulders. The handsomely embroidered net veil was artistically caught to the coiffure with a wreath of orange blossoms and the bridal bouquet was composed of pink and white ophelia roses and maiden hair fern.

The bride's sister, Miss Agnes Kinsham, made a charming maid of honor in her frock of pale apricot taffeta silk draped with radium lace and with which she wore a large picture hat to match with a long ostrich plume and carried a shower bouquet of pink and mauve sweet peas and maiden hair fern. The bridesmaid, Miss Constance Scott, was equally charming in a similar frock in a shade of mauve, with her bouquet of sweet peas and fern.

The groom was supported by Colonel H. H. Urquhart, D. S. O., M. C., Croix de Guerre, who has also the distinction of being the only Canadian aide de camp to the King.

Canadian Scottish

At the church, a company of the First Battalion Canadian Scottish, 16th C.E.F., in charge of Regimental Sgt.-Major N. Wilson acted as guard of honor and at the reception following the ceremony was inspected by the bride and groom. This pleasing event ended by playing by the pipers of the old tune of No. 1 Company, 16th Battalion, C.E.F., piped before going into action at the front, where Major Johnston was in command.

Mr. McDonagh was out on the island getting in close touch with nature in order to recuperate in readiness for his work at the next school term. Then he will have as his assistant A. M. Macdonald, formerly principal of the Prince Rupert School. He visited at a small mining camp on Skidegate Inlet where some friends of his were doing development work on mineral claim. This holiday he

the bride, who was assisted in receiving the guests by Mr. and Mrs. Kinsham.

In the drawing room with its effective arrangement of shasta daisies and ivy the happy couple were tendered the congratulations and good wishes of the assembled guests. A buffet supper was served in the dining room, the bride's table being centred with a large wedding cake and having floral decorations of pink and white carnations with pink candles in cut glass sconces. Above the table in the chandelier with its pink shades, pink roses and gypsophila were clustered.

Col. the Reverend G. H. Andrews in proposing the toast to the bride and groom made a most pleasing speech to which the groom replied, following which he joined in singing "For he's a jolly good fellow." The cake was cut by the bride with the bridegroom's claymore. Col. Urquhart and Mr. Rowland Kinsham also made congratulatory speeches.

The groom's gift to the bride was a diamond and platinum ring and to the bridesmaids ruby and platinum brooches. Following the honeymoon to be spent in Vancouver and the Sound, cities Major and Mrs. Johnston will make their home in Prince Rupert.

Guests Present

Among the guests were the mother and sister of the groom, Mrs. and Miss Johnston, of Vancouver; Mr. Oswald Fawcett, of Boise City, Idaho, uncle of the bride, who after an absence of fifteen years came to be present at the wedding; Miss Fawcett, Mrs. Evans, Mrs. Calderwood and Mrs. Sidneys Child, aunts of the bride and the following comrades of the groom: Colonel Cyrus Peck, V.C., Major Lyons, Captain Dunsford, Captain Holland, Captain Gordon Smith and Mr. Benson.

Among the numerous handsome gifts was a luncheon set of Wadeira embroidery from the Sergeants' Mess of the 1st Battalion, Canadian Scottish, 16th C. E. F., and a silver cigarette case from the officers of the regiment.

The man who says he never advertises is usually the keenest man in the town to get a free notice in the newspapers.

MUCH ENTHUSED WITH QUEEN CHARLOTTE'S

Principal of Point Grey School Spending Few Days in City

"One of the loveliest places on earth," was the way W. McDonagh, Principal of Point Grey School, characterized Skidegate Inlet to a member of the Daily News staff yesterday, soon after he arrived in the city on the Prince John. He was enthused with the place and also with the wonderful cedar timber that grows there.

Mr. McDonagh was out on the island getting in close touch with nature in order to recuperate in readiness for his work at the next school term. Then he will have as his assistant A. M. Macdonald, formerly principal of the Prince Rupert School. He visited at a small mining camp on Skidegate Inlet where some friends of his were doing development work on mineral claim. Sister Superior Lidwina, who has been in charge of St. Joseph's Academy here ever since its inception some six years ago, sailed last night on the Prince George enroute to Toronto where she is to receive another appointment. She was accompanied by Sister Adrian who is being transferred to Vancouver.

All day yesterday friends of the Sister Superior called at the convent with parting gifts and many were the expressions of regret at her leaving the city. At the boat side last night there was also a feeling farewell and the lady was the recipient of many beautiful bouquets and nice gifts.

Sister Lidwina is to be succeeded as Sister Superior at the local convent by Sister Juliana who has been here for the past five years. A successor to Sister Adrian will arrive in the near future.

Sport Chat

While it is late now to think about making improvements at the Salt Lakes swimming pool this year, it might be well to discuss the needs now so that when the annual meeting of the Swimming Club is held here, those who attend will have some idea of what the people want.

The first thing to do outside of making minor repairs, is to provide a safe bathing place for children. This will take a good deal of money and will necessitate the removal of some of the rocks which now make it very difficult for beginners to bathe. More sand will also be needed.

A proposal has again been made that the place where the tide comes under the railway track beyond Westview should be made into a big swimming pool where the water would be warm and where it could be freshened periodically by means of water gates at the track. The objection to the scheme is that the land will likely be needed before long for commercial purposes. Otherwise the scheme would seem to be a feasible one.

It is time attention was again drawn to the need of a second athletic ground in this city. As soon as there is any increase in population and people begin to flock here, such a ground will be a necessity. It cannot be built at once on account of expense but once it is selected, a beginning might be made and from time to time it could be improved.

ORGANIZED BALL TEAM TO PLAY MINERS AT SURF INLET CAMPS

Leonard Waide has just returned from a few months spent at Surf Inlet working as an engineer at the J. R. Morgan logging camp. While there he organized a baseball team among the loggers to play the miners. Three games were played on consecutive Sundays, the miners winning twice and the loggers once.

Mr. Waide says there is a pretty good ground at Surf Inlet but it is not quite large enough and only a two bagger is given when the ball goes into the bush.

The weather there has been fine all the time.

Persistent advertising is absolutely necessary to success.

SLOW FOOTBALL LAST EVENING

Sons of Canada Won Over Sons of England by Score of 2 to 0.

The Sons of Canada defeated the Sons of England in last night's Stuart Shield football fixture by a score of 2 to 0. The game was one of the slowest of the season and was marked by little play of a brilliant nature; both teams seeming to lack steam. The Sons of Canada, on the whole, had the advantage of the play although the grade, light and wind had a great deal to do with the direction of the game. The ball was in the eastern half of the field almost all the time with the exception of a few breakaways which never held the leather very long at the far end.

George Russell was referee with A. Clapeton and W. McColloch on the side lines. The teams lined up as follows:

Sons of England—Stockdale; Darton and Lambe; Ed. Criggs, George Kelsey and G. Mansell; R. Greenwell, G. P. Tinker, D. Wiggin, Hodgeson and Hemmings.

Sons of Canada—H. B. Scott; Albert Woods and Vic Menzies; E. Tait, W. Davis and W. G. Anderson; E. Warren, J. Mitchell, J. Marks, Bert Long and S. Mark.

The Sons of Canada had the advantage of grade, light and wind in the first half. J. Marks for the Canadians, made several good straight tries but Stockdale was consistently on the job. Dick Greenwell made a pretty solo play up the field and shot but it lacked momentum and Scott saved it. A penalty was awarded the Canadians and J. Marks failed to score by two feet over. The temporary disappointment occasioned thereby was relieved when the same player immediately after got the ball in the clear and placed it between the posts well out of Stockdale's reach scoring the first point of the evening. The half closed 1 to 0 in favor of the Canadians. They had the great percentage of the play but very seldom got close enough to the goal to present danger to the Englishmen whose defense was very good.

Very shortly after the opening of the second half another penalty was awarded the Sons of Canada. Woods took the kick and made no mistake about scoring. The Sons of England throughout the period had their share of the play and on two or three occasions got the leather perilously close to the goal but failed to score. W. Davis, of the Sons of Canada, was put off the field about twelve minutes before the end of the game for talking back to the referee.

FOUR HORSEMAN GREAT PICTURE

Wonderful Novel by Vincent Biaseo Ibanez Makes a Thrilling Photoplay.

"The Four Horsemen of the Apocalypse," the film adaption by Metro of the novel of the same name by Vincent Biaseo Ibanez is the week-end attraction at the Westholme Theatre. The novel, published in 1919, is one of the most famous of the century; the screen portrayal is one of the most powerful pictures ever seen here. It is a very faithful interpretation of the great story and the producers have fully availed themselves of the opportunities offered by its screen adaption and Prince Rupert theafregoers are being offered the best picture that has been presented here in months. The feature opens tonight and there will be a matinee tomorrow afternoon besides the evening performance.

Class by Itself.

It is a ten reel picture with not a single dull foot in it—filled with action from beginning to end. From an educational point of view, historically and geographically, the picture is in a class by itself. The usual criticism of a moving picture is that of improbability but this cannot be said of "The Four Horsemen." At the same time it maintains its keen interest throughout. Therefore, it is an unusual picture.

Rudolph Valentino is the leading man and he is surrounded

IN THE SUPREME COURT OF BRITISH COLUMBIA

note. What is this, they ask. I tell them that it is a million. They accept it. But try handing them a 100,000 ruble note and say it is a million. They will shake their heads. You may point out that it has ciphers following the figure. They will not accept it. But you persist, you cannot read, why do you think I am lying to you? But I have never seen that sort of a million before, they answer and will not take it.

"You take a paper to a peasant to be signed. He looks at it and asks what it is all about. You read it to him. He nods but protests that he cannot write. Let someone else write my name on it, he says and later he may repudiate the agreement, saying that he never signed it and did not even know what it contained.

"I believe that many of them who can both read and write are careful to conceal that knowledge, believing that it will be to their advantage to do so. They are not so stupid as they appear."

Subscribe for the Daily News**NOTICE.**

IN THE MATTER OF an application for the issue of a fresh certificate of title to an area of land situated (2) in Lots 23 and to Lots 22 and 24, Block 35, Lots 23 and 24, Block 36, and Lots 18, 21 and 22, Block 21, all in Section 5, City of Prince Rupert, Map 922.

Information of the loss of the above lands, having been produced it is my intention to issue, after the expiration of the period of 60 days from the date of this notice, a fresh certificate of title in the name of Robert Smith and Henry Smith, whose certificate of title is dated 19th November, 1912, and is numbered 2521. Dated at the Land Registry Office, Prince Rupert, B.C., this 6th day of July, 1922.

H. F. MACLEOD,
Registrar of Titles.**IN PROBATE.**

IN THE SUPREME COURT OF BRITISH COLUMBIA,
in the Matter of the Administration Act and in the Matter of the Estate of John Post, Decceased, Intestate.

TAKE NOTICE that on the 11th day of August, 1922, Letters of Administration in the above estate were granted to (Mrs.) Hilda Gray, 113 Clarence Street, Victoria, B.C.

ALL PERSONS having accounts against the estate are required to send the same to the undersigned within thirty days from the date hereof.

ALL PERSONS owing money to the said estate are hereby required to pay the same to the undersigned forthwith.

JOHN H. MCMILLIN,
Official Administrator.
Dated this 11th day of July, 1922.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to \$5 an acre. Second-class to \$2.50 an acre.

Records now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is not otherwise appropriated.

Four pre-emptive rights abolished but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.

Five years and make improvements to value of \$10 per acre, including clearing of trees, at least 5% reversion remaining Crown grant.

Where pre-emptor in occupation less than 3 years and has made proportionate improvements, he may be cause of his right to obtain a certificate of intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be leased, provided application made for lease to extent of \$250 per annum and records same east year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years and improvements of \$100 per acre including 5 acres cleared and cultivated and at least 2 years are required.

Pre-emptor must occupy claim for 5 years and another pre-emption if he retains land in conjunction with his farm without actual occupation, provided statutory improvements made and residence maintained on Crown grant land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, title to be obtained after fulfilling residential requirements.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on unsurveyed land exceeding 10 acres may be purchased; no consideration of payment of stumps.

Natural hay meadows inaccessibility by existing road, may be pre-empted upon construction of a road to them. Rebutal of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and leaving the City of Prince Rupert.

The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from one year from the death of the deceased person to three years from the date of the death of the deceased.

This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918.

Taxes are remitted for five years.

Provision is made for the issuance of certificates of title to miners and prospectors.

Interest on agreements to purchase town or city lots held by members of Allied Forces and dependents required direct or indirect, remitted from April 1st to March 31, 1920.

SUB-PURCHASERS OF GROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown lands who failed to complete purchases involving forfeiture on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not live within the mineral property, purchase price due and taxes to be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING ACT.

For systematic development of stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on number of sheep and cattle owned by stock owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.
