Canadian House of Commons Finally Approves Trade Pacts Negotiated at Conference

OTTAWA, Nov. 24:- Third readings were given in the House of Commons on Tuesday to the trade treaties negotiated by Canada with the United Kingdom, Irish Free State, South Africa and Southern Rhodesia at the recent Imperici economic conference. In a series of divisions the treaties had majorities ranging from 41 to 89.

Rt. Hon. W. L. Mackenzie King, Leader of the Opposition, and most of the Liberal members voted for the Rhodesian agreement because it does not contain increased tariffs to which they objected.

Olof Hanson, Liberal member for Skeena, supported the Irish Free State treaty for reason of the fact that it supported and helped a minority people.

Sun Life Shows Up Well at End Of First Nine Months of Year

New Business Million and Quarter a Day on Average Since January First of This Year

Largest Individual Subscriber to Dominion Loan

The first nine months of 1932 were anything but "velvet" to individuals, business men or financial institutions, but, here is what THE SUN LIFE OF CANADA has done:

- The Company's Income amounted to several millions of dollars in excess of expenditures.
- During this period the Company paid eighty-three million dollars (83,000,000) in death claims, matured endowments and dividends, etc., making a total paid since organization six hundred and seventyseven million (677,000,000).
- In the past few days the Company has subscribed two and a half million (2,500,000) of the new Dominion Short Term Loan, and one million (1,000,000) of the Long Term Loan, a total of \$3,50),000. The largest individual subscriber in Canada. In the last two years the Company has subscribed to Government Loans for twenty-six million and a half (26,500,000).
- Applications for new business have been received at the rate of a million and a quarter (1,250,000) for every working day.
- The renewal premiums have aggregated the largest amount during any corresponding period in the Company's history.
- 6. Re-payment of policy loans have been well maintained and actually greater than in 1931, a satisfactory and significant fact.

It is a provision of the Canadian Insurance Law that every Canadian Company must at all times retain in Canada and under its own control assets at least equal to its total liabilities to its policyholders in Canada. The amount so held by the company is greatly in excess of that required by law.

When Babies owe their lives to Carnation de Good

TIME and again a grateful, enthusiastic mother writes us how Carnation has saved her baby's life. Do you know that famous specialists recommend it as ideal for the tiniest baby? They urge its use because rigid sanitary supervision makes it so pure, uniform and safe—because it is easier to digest than raw, boiled or pasteurized milk. Carnation is heattreated and that forms very fine, soft curds in the baby's stomach, almost exactly like mother's milk. Super-Smooth for Cooking Carnation is the safeguarded milk from selected, inspected herds of "contented cows". Homogenized butter-fat in Carnation makes it super-smooth. That works magic in cooking—makes foods smoother, richer, tastier. Carnation improves cream soups, sauces, cocoa, custards, candy. Splendid when creaming coffee and for use with coffee, fruits and cereals. And economical because

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other sublect of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature ap-

pended for publication. Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.
