Greek Losses 150,000; Others Flee NEW IRISH PARLIAMENT OPENS AT DUBLIN; MEMBER EJECTED

Scenes of Disorder as Greek Army Evacuates Smyrna and Hands City Over to Consuls

ATHENS, Sept. 9.—Smyrna is being bombarded by Turk Nationalists, according to aviators who reached here from Smyrna. The city is being evacuated amidst scenes of great disorder, according to refugees, 2,200 of whom have arrived here. Panic reigns as the Turks approach the town and Greek soldiers are contending with civilians for places on the outgoing ships. Rioting is reported among troops in Brusa sector in the north where the Greeks are embarking at Mudania on the Sea of Marmora.

Kalogeropoulos, premier designate, is expected to have his cabinet completed tonight. He says the only problem before them is to try to extricate the country from the present critical situation.

SMYRNA, Sept. 9.—The Greek fleet left here late Friday afternoon and Greek commissioner of police planned to embark late last night. The allies expected to occupy the town today. Allied and United States detachments have been landed from the warships for the protection of the foreign population. The Turkish vanguard are reported fifteen miles from the city.

LONDON, Sept. 9.—The Greek High Commissioner has handed the town of Smyrna over to allied consuls and the Greeks are evacuating the city as rapidly as possible. It is expected the Turks will occupy the city within three days.

New Premier
Nicholas Kalogeropoulos has accepted the premiership of Greece resigned by Propadakapids yesterday. Only 50,000 of the original 200,000 Greek army is left and the remainder is fleeing from the Turks.

BIG SHIPMENT STOCK COMING

Paul Wagner, of Duffield, Alta., to Winter 100 Head of Cattle on Q. C. Islands.

On account of the scarcity of winter feed on the prairies caused by the unusually dry summer, Paul Wagner, of Duffield, Alta., is proposing to winter 100 head of stock at Queen Charlotte City on Graham Island. The shipment will likely arrive here towards the end of the month. It will take five railway cars and will constitute the largest single shipment of live stock ever to pass through this port. The cattle will likely be taken across from here on the steamer Prince Albert.

RAIL STRIKE NEGOTIATIONS

Are Set Over Until Tuesday While Union Committee Considers Award of Board.

MONTREAL, Sept. 9.—Negotiations in the threatened strike of railway shopmen have been postponed until Tuesday while the committee considers the award of the conciliation board. The executive carries a mandate from more than 95 per cent of the union members empowering it to declare a strike.

Advertise in the Daily News.

PREPARE FOR BIG STRIKE

Notice Issued to Shopmen Throughout Canada to Be Ready to Come Out.

EFFECT CROP MOVEMENT

Railway Employee Leader Tells Minister of Labor Work Will Cease.

MONTREAL, Sept. 9.—"Prepare for a strike on short notice." This was the warning despatched this morning in a circular letter to every union of the Canadian Railway shopmen from Halifax to Vancouver. Between 40,000 and 45,000 men are involved and the situation is most serious the union executives admit.

In a letter to Hon. James Murdock, minister of labor, signed by Chairman Dickie of the Department of the American Federation of Labor, the Dominion Government was told: "We have no hesitation in saying that instructions will be issued within the next few days for cessation of work by the railway shopmen in the Dominion." The effect of a strike on the eve of the great grain movement from western Canada is purely conjectural. Should the railway running trades, engineers, conductors, brakemen, etc. follow the same course as adopted in the United States and refuse to operate cars which are not in perfect repair a serious tieup in the crop movement is inevitable.

The decision of the shopmen's executive follows the announcement of the majority of the conciliation board favoring tentative cuts of from twelve to twenty per cent, pending settlement of the shopmen's strike in the United States.

Lively Time at Meeting of New Irish Parliament Which Opened in Dublin

DUBLIN, Sept. 9.—William T. Cosgrave, minister of the local government, was elected president of the Dail Eireann by the new parliament at its inaugural session today. The only votes cast against him were by labor members.

The only anti-treaty member of the new parliament present when the session began was Lawrence Ginnell. Nearly every pro-treaty, independent and labor member were present.

Professor Michael Haynes was elected speaker without opposition. Ginnell, having refused to sign the roll of what he called a "foreign" parliament and having shouted several times his objections to the proceedings, was on motion of Cosgrave excluded from the house by vote of the members and was forcibly removed.

BANK RUN IN GERMANY

General Belief is that Shortage of Cash is Due to Hoarding of Notes.

BERLIN, Sept. 9.—Crowds again besieged the Reichsbank on Friday demanding cash, many waiting many hours only to get a small fraction of what they demanded on the bank's checks. Notices are posted in German banks stating that the shortage of currency is due to the printers' strike but the general belief is that it is really due to the hoarding of notes.

KING FINDS DIFFICULTY SECURING EXECUTIVE

Delay Said to Be Due to Desire to Get Right Man for Job.

OTTAWA, Sept. 9.—Premier Mackenzie King, who is now minister of railways during the absence from the cabinet through ill health of Hon. W. C. Kennedy, seems to be having a difficult time in connection with the re-organization of the Canadian National Railways. The chief difficulty seems to have been to secure the right person for the general management. As the appointment of a strong man to this position means everything to the railway and to the country, a little delay is as nothing to the necessity of getting the right executive head.

WON KING'S CUP IN AIRPLANE RACE; SPEED 136 MILES

CROYDON, Eng., Sept. 9.—F. L. Barnard, piloting an airplane entered by Samuel Instone, won the King's Cup today after a thrilling race in which he reached a speed of 136 miles an hour.

OVER THREE INCHES OF RAIN 36 HOURS

Somewhat of a record rainfall for this city is reported by H. O. Crew, Dominion Government meteorologist. During the past 36 hours, according to the official gauge, 3.30 inches has fallen. The heavy rain started late Thursday night and has been continuing since then without letting up. It is welcome both in the city and in the district which has been parched with the extremely dry weather of the past three months.

COHOE FISHING WAS GOOD DURING WEEK ON SKEENA RIVER

Cold Storage Plant Has Been Freezing Number of These Salmon

Cohoe fishing on the Skeena River has been reported to be very good during the week just past. The fish have been coming in large numbers. Some of the canneries have been canning them and the Cold Storage Company has been freezing a great many.

While the Prince Rupert cannery has not been putting up cohoes, the plant has been canning a large quantity of chums.

NEW ICE PLANT WILL BE READY ON WEDNESDAY

Cold Storage Plant Brought Up To Date by Addition to Factory

TO MAKE BETTER ICE

Not only will there in future be plenty of ice for all comers but the quality of the ice will be much improved after Wednesday next, when the Canadian Fish & Cold Storage plant at Seal Cove commences using the new tank which has just been completed.

"We shall pull the hardest and finest ice on the coast," declared W. J. Nicholls, comptroller of the company to the Daily News this morning. "We are able to make it superior on account of the new machinery installed. It will last longer and give more refrigeration than any other ice. We shall now be in a position to manufacture over 100 tons of ice a day."

Mr. Nicholls said that the cost of the new tank and appurtenances was approximately \$25,000. While during the present season they had been able to fill all orders for ice with the old plant, they were preparing for future developments and it was the policy of the company to provide for the peak demand so that there should be no shortage here at any time.

During this summer there has been a serious shortage of ice at other ports. At Seattle in particular they had been out of ice for weeks at a time. Yet here, although the demand was greater than last year, all requirements had been met.

School Inspector and Mrs. H. C. Fraser returned today from Victoria where they spent the summer holidays.

CANNER BEFORE COMMISSION ON THE FISHERIES

President of Company Thinks Regulation of Fishermen Gone Far Enough.

VANCOUVER, Sept. 9.—Better protection for the breeding grounds of the salmon and destruction of the natural enemies of the fish was urged by W. H. Barker, president of the B. C. Fishing and Packing Company before the Federal fisheries commission which opened its sessions here yesterday.

The Government was right in seeking conservation of the fish in Mr. Barker's opinion but at the same time he thought it had gone far enough in restrictive regulations on the fishermen.

While greater conservation of the fishing resources was needed, said he, he was opposed to the closing of the Fraser River. It was not the number of fish caught that depleted the salmon supply so much as depredations by the natural enemies of the salmon.

VIC FOLEY BEATS PHILLIPINE WONDER

Won on Points Last Night over Brownie Villon, Manila Knockout King.

VANCOUVER, September 9.—Vic Foley, the Vancouver featherweight boxer, won a decision on points over Brownie Villon, the sensational Manila knockout king, last night. The bout was a ten round affair.

LATE ERIC JOHNSON WAS BURIED TODAY

The funeral of the late Eric L. Johnson took place this afternoon at 2:30 o'clock from the B.C. Undertakers' Parlors to Fairview Cemetery, Rev. Canon G. A. Rix officiating. The pallbearers were John Hedstrom, Alfred Johnson, John Bergman, A. Akerberg, E. Hellman and W. Gilchrist. Among the floral offerings were pieces from Mr. and Mrs. A. Akerberg, Mr. and Mrs. E. Hellman, Mr. and Mrs. O. A. Johnson, Mrs. Reuben Johnson and Mr. and Mrs. D. Glennie.

NEW LIBRARIAN

Miss Grant Arrived This Afternoon and Will Commence Work Monday

Miss Grant, the new librarian, arrived this afternoon and was met by Rev. G. G. Hacker, chairman of the library board. She will commence work on Monday but it will be several weeks before the new institution is in readiness for lending books. It has been arranged that Miss Grant shall have the use of a desk in the provincial public works office until the public work department moves into the new quarters in the Court House building. There is a good deal to do before the library can open.

Ernest S. Day, of the marine department offices at Digby Island, arrived today from Victoria with his bride who was formerly Miss Horne, a nurse in the capital. They were married some time ago and have been honeymooning.

Separate Department Suggested for Fisheries as Separate from Marine; Branch for This Coast

VANCOUVER, Sept. 9.—The advisability of creating a separate department of fisheries at Ottawa was discussed across the bench at yesterday's sitting of the parliamentary commission investigating conditions in British Columbia's fishing industry. Henry Doyle, vice-president of the Northern British Columbia Fisheries Ltd., and Richard Bell-Irving, speaking for the cannery interests, both submitted that the administration of Canadian fisheries should be in the hands of separate departments.

Commissioners Duff and Martell questioned the witnesses closely as to their ideas of how the administration should be constituted. Mr. Martell remarked that "it is a complex job for one man to look after both the marine and fisheries department." He asked Mr. Doyle if he did not think "the department could be more competently handled if there was one branch devoted to the fishing industry in British Columbia and another looking after the fisheries on the Atlantic and inland waters."

Mr. Doyle agreed to the suggestion readily. He urged that the Dominion Fisheries should be devoted to propagation of fish rather than restricting of fishing.

Speaking of W. A. Found, superintendent of fisheries, Mr. Doyle said: "He is a good man but he is a file man." Later after a statement by Mr. Cowie of the department, Mr. Martell declared, "You know as well as I do that the administration of the department for the most part is as it was 40 years ago."

CHIROPRACTORS ARE SENTENCED

Fines of Fifty and One Hundred Dollars For First and Second Offenses

VANCOUVER, Sept. 9.—Seven out of eleven chiropractors who had previously been found guilty of violating the B.C. Medical Act were yesterday fined \$50 or one month in jail. One was fined \$100 or two months in jail for a second offence while the sentence of three others charged with third offences will be announced on Monday.

The trial of the chiropractors took place last week and Magistrate Shaw delayed announcing the decision until Tuesday, when he convicted them but delayed still further apportioning the sentences. Prosecution was brought by the British Columbia Medical Association for infractions of the Medical Act, the offence being that they practiced medicine without being registered. Provision is made in the Act for registering, a course of training and various tests being required before a person can become a medical practitioner.

City Prosecutor McKay conducted the case for the prosecution and J. W. DeB. Farris and Ian Mackenzie for the defense. Those charged were Doctors W. Sturdy, R. L. Fehr, R. L. Burrell, Elmo Marshall, J. Lee Rice, Dr. Jamieson, M. M. Heard, H. B. Leach, Susan Shaw, Dr. Lovering and Dr. Coates.

ONE MAN KILLED IN IRELAND YESTERDAY

BELFAST, Sept. 9.—One rebel was killed and many arrested in a clash between Free State forces and the Republican group near Dundalk yesterday.

FIRE DANGER IS NOW OVER

Forestry Department Reports That Heavy Rains Have Fallen Generally in District During Past Week.

Heavy rains have at last fallen throughout the interior district and E. C. Manning, provincial government district forester, reports today that the fire danger for the year may be considered practically over unless hot weather again comes, this not being expected, however. The most of the fires up the line are now out although it will take very drenching rains to completely extinguish some which have burned into the ground for several inches. The rains in the interior started at the end of last week and are still falling. Arrivals in the city last night report that it was raining steadily all the way between here and Jasper Park.

Mr. Manning reports that the department has fought at least 270 fires in the district during the past summer and the cost to the government has been in the neighborhood of \$65,000. Complete estimates of the great damage that has been done to the timber have not yet been made.

MASKED MAN BEATS WOMEN

One Girl Dying from Fractured Skull Result of Brutal Assault.

POSSE AFTER THE MAN

OLYMPIA, Sept. 9.—Murder will probably be added to the charges against an unknown masked man who terrorized four women and two boys at the point of a gun last night in the home of Mrs. Kate O'Hara. He assaulted two of the girls and left the whole seven bruised and hysterical.

The youngest girl, Frances O'Hara is dying of a fractured skull. A posse is now searching the countryside with bloodhounds and a reward for the capture of the man dead or alive is out.

SCHOOL NOTICE.

Pupils promoted to the Entrance and Junior Fourth classes of Booth School will please report, with their text books, to King Edward High School at 9 a.m. on Monday morning next.

Saturday, Sept. 9, 1922.

Greek Reverse Is Serious Matter.

The Greek reverse is serious. It matters little to the rest of the world whether Asia Minor is held by Greeks or Turks, but it does matter that Mohammedans shall not be given control over Christians and be able to wreak their will on them in such manner as they have often done in the past.

Many of the people of India are Mohammedans and they are good citizens. There is nothing against a person because he happens to be born a Mohammedan and brought up under the influence of Islam. The objection is to the persecution and ill-treatment that has at various times been meted out to Christians under Mohammedan rule.

As to whether or not the Greeks have a right to be in Asia Minor we are expressing no opinion. All we know is that any big victory by either Greeks or Turks is bound to have a far reaching influence on the actions of the Mohammedan peoples of the world. The driving of the Greeks out of Asia Minor may be a preliminary step to an attempt to drive the French out of Syria and the British out of Palestine, and to rid Egypt of British influence and the control of the Suez Canal. The victory may give encouragement to a separatist movement in India, the Sudan, and in other countries.

The Turks have always been good fighters. They become inspired with religious frenzy and believe that if they die fighting a religious battle they go direct to paradise. As there are in the world over 150,000,000 Mohammedans and as a large number of these live within the British Empire, anything pertaining to religious warfare in which they are concerned is of great concern to us.

The Greeks are natural enemies of the Turks. They are neighbors and have fought each other for centuries. The Greeks are inspired by the great military deeds of their forefathers and are intensely proud of their country which was once the centre of learning and art, and the source of our later civilization.

Russian Situation Is Interesting One.

The natural corollary of the formation of Soviet governments is for a country to break up and divide itself into a number of small independent nations. Only the strength of the Russian army and the aggressiveness of the Russian Soviet leaders has prevented Russia being today a large number of states acting absolutely independently of each other. There is little cohesion in the system. With government in the hands largely of the illiterate, there is lacking that esprit de corps which is necessary to the carrying on successfully of a comprehensive national government. It is no surprise that southern Russia is trying to break away from the north. The surprise is that it has not happened before. Only the activities of the Chika in summarily dealing with any offenders has kept it from happening long ago.

Suspicion On All Despatches From Russia.

We have got into the habit of looking with grave suspicion on all despatches from Russia whether sent to the press associations or by the underground routes to the labor and socialist press. Usually all these despatches are colored to suit the occasion. However, it is much more difficult to prevent the real news getting out today, especially in view of the fact that the country is being opened up to European travel. We are now beginning to get the real news and we find it is not much better than what we feared was the case. The present amateur government is little better than the old professional government. It is found in Russia as in other places that liberty cannot be secured by revolution but is the result of a long process of education and evolution. It is still an ideal to which we all look forward.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal.

"FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

10c. a box, 6 for \$2.50, trial size 25c

The following subscriptions made to the Labor Day Sports were inadvertently omitted from the list on the printed program: Dr. J. A. West, \$5.00; Rupert Bakery, \$5 (goods); Electric Window Bakery \$5 (goods); Dr. H. E. Tremayne, \$2.00; Dr. W. T. Kerzin, \$5.00; Pacific Cartage Ltd., \$5.00; Robertson & McMullen, \$5.00; Mussallem Grocery, \$2.50 (goods); Lynch Bros. & McMeekin, \$5.00 (goods).

The Man in the Moon SAYS:

YOU have heard about the young man and girl who met, loved and lived happily ever after. Well, I know two young people who met, thought they loved, parted and lived happily ever after.

A CORRESPONDENT tells me that what has happened to jazz is it has been ousted by an imitator—the Ford car.

WHEN the bee is looking for honey it never goes to a painted flower.

BUT what painted flower wants a bee to visit it anyway.

WHEN a country cannot get any other industry going it gets busy with its law factory.

THE result of working overtime in Parliament is that laws become very cheap.

BY the way things are going there should be plenty of Turkey by Thanksgiving Day.

THERE should be some parents afraid to send their children to the Booth School for fear it will collapse over their precious little heads.

A STUDENT tried to kill the president the other day. That is such a commonplace thing to do nowadays that it hardly causes a ripple of excitement.

THE best girl is the one he is going to marry.

In the Letter Box

LABOR'S VIEWPOINT.

Editor Daily News:

When the great European conflict drew to a close the voices of leading men were heard admonishing the workers to labor and produce as they had never labored and produced before. The cry was taken up by the press. It resounded from the pulpits and statesmen made it an all important issue. Thus they said will our country quickly recover from the effects of the war, industries will flourish and workers prosper. The advice was heard and heeded and what was the result? The greatest depression in industrial activity ever recorded in the history of nations, huge quantities of finished products were turned out, a large surplus of commodities was created which the manufacturers were unable to move, partly because the purchasing ability of the world at large was impaired owing to the world war. The consequence was that the factories were closed and the working man found himself in the unenviable position of facing a long period of unemployment, a period during which the wolf hovered around his doorstep and distress was rife in the land.

Shaken Faith

Can you wonder that those events have shaken the faith of the people in the press and the so-called superior men. When calamity overtook us in the form of unemployment and industrial strife, not one of those men had a plausible plan to suggest which would adjust things temporarily and lead to a permanent cure. The only result on record accomplished by the combined brain power of our statesmen was relief work and dole system to alleviate distress allowing a person to earn barely enough to keep body and soul together and the participant was given to understand in no uncertain way that he was a subject for charity at the hands of a benevolent government.

Ridiculous Position

To me it appears ridiculous for people to be in want in a land of plenty especially the producers of real, not fictitious wealth. Taking it for granted that capital is necessary for the development of resources and maintenance of industries, I venture to say that the working class would manage to exist if capital was utterly destroyed, while the capital of the world without producers would be worth no more than a lump of primal clay. Capital employs labor for the sole purpose of making a profit. When a laborer can no longer be profitably employed he is turned out and being shut off from the tools of production he is unable to earn a living and the government has

Must be Remedy

There must be a remedy for a state so unjust and intolerable. The working class is the main-spring of industry. Surely industry should take care of the working class when general depression sets in. While getting into his stride our representative, Mr. Stork, has proven himself a man of parliamentary ability and I am sure that with his winning free and easy ways he has made many friends among the members of the House. That he will exercise a large influence in federal politics is a foregone conclusion. We confidently look to Mr. Stork and his colleagues to devise a cure for a condition wherein a working man spends sleepless nights, his mind harassed with worry over the problem of making a living for his family, while the industrial magnate sits back in luxury and enjoys the whole bill of fare from soup to nuts.

What Is Chiropractic?

Chiropractic is a name given to a science, art and philosophy of a natural thing. The practice of Chiropractics consists of the adjustment, with the hands, of the movable segments of the spinal column to normal position for the purpose of relieving the impinged nerve so that the life force can flow over the nerve to the tissue cells and thus restore the abnormal to normal.

BEECHAM'S PILLS Sweeten the Stomach

Mrs. G. A. McNicholl returned home today from a brief trip south.

W. Martin, Jr., returned on the Prince Rupert today from Vancouver.

M. Parfitt, the Victoria contractor, returned to town today from a brief trip south.

W. G. Humble, formerly of the customs service here, is a passenger today on the Prince Rupert for Stewart where he will spend a week looking after private interests.

The fishing steamer George E. Foster, which has been trawling for flat fish during the past few months is to be converted into a halibut boat and will go out on the independent lay.

E. G. Manning, provincial government district forester, leaves tonight to investigate the recent forest fire at Usk. It is expected that a prosecution will be made next week.

Constable J. Gillis, of Swanson Bay, arrived in town today having in custody a fisherman named Anthony Doll who was picked up drifting in his fishing boat Progress last week and whose sanity is in doubt.

Miss Kathleen Hutchinson, daughter of Mrs. Hutchinson, of the hospital staff, who has been visiting here for several weeks, returns to Vancouver this afternoon on the Princess Alice to resume her private school studies.

W. S. Rothwell, inspector for the B. C. Underwriters' Association, will arrive tomorrow night from the interior to join F. F. Dowling, chief engineer, who arrived last night. They will both sail tomorrow night for the south on the Prince Rupert making a call at Ocean Falls enroute to Vancouver. Their visit here is not official.

Church Notices

First Presbyterian Church.

Morning worship at 11 o'clock. Subject, "What Profit in Prayer." Evening service at 7:30. Subject, "Some Events in the Life of Christ." Preacher, Rev. H. R. Grant, D. D. Sunday School will meet at 12:30.

TOO LATE TO CLASSIFY
FOR SALE—English baby carriage, in perfect condition, \$25. Phone Red 236.

WANTED—Young lady to attend booth at Exhibition during Fair. Apply T. J. Stephen, Prince Rupert Hotel.

LOST—Small and large key attached to chain, probably down town. Finder please return to Daily News office.

Have Your Old Jewellery Remodeled

Your old-fashioned wide band wedding ring can be made into a handsome new-style Tiffany ring at small expense.

Your old-style diamond engagement ring can be made over into a beautiful filigreed ring with a setting that will show the diamond to greater advantage.

Your old earring, breast-pin, finger rings, etc., can be remodelled into the latest style of jewellery and the low cost of the work will surprise you.

We do all kinds of fine repair work on watches, jewelry, clocks, etc.

CONSULT US TODAY.

Edward Cunningham, of Seattle, who has been in the city for a few days on business, returns south on the Princess Alice this afternoon.

F. F. Dowling, engineer for the B. C. Fire Underwriters' Association, arrived on last night's train from Prince George and is registered at the Hotel Prince Rupert.

George S. Fitzmaurice, who has spent the summer at Cassiar Cannery, returned to town last night. Fitz reports that the cannery put up a full pack this season and filled all the cans.

The Anyox baseball club, which is to play a series with Prince Rupert in connection with the Fair next week, will arrive on the Cheloh-in Tuesday morning. They will return to Anyox Thursday night on a company boat.

Lem Chue, Lee Hong, Lim Chong and Sing Lee, Chinese, charged by the Royal Canadian Mounted Police with infractions of the Opium and Narcotic Drug Act, were dismissed by Magistrate McClymont in the city police court yesterday afternoon.

George Lawson, of Wistaria, in a letter written to the Fair Board, announces that it will be impossible to send the car of livestock to the Prince Rupert Exhibition as had been intended. The instability of a bridge over which the cattle would have to pass to get to the railroad is given as the reason.

Divine Healing Service Sunday afternoon at the Empress Theatre at 3 o'clock. If you are sick, come! If your friends are sick, bring them! Evangelist Mae Eleanor Frey will pray for the sick free of charge. The evangelist's subject in the evening will be "The Prodigal Son." Special music and singing. All are welcome.

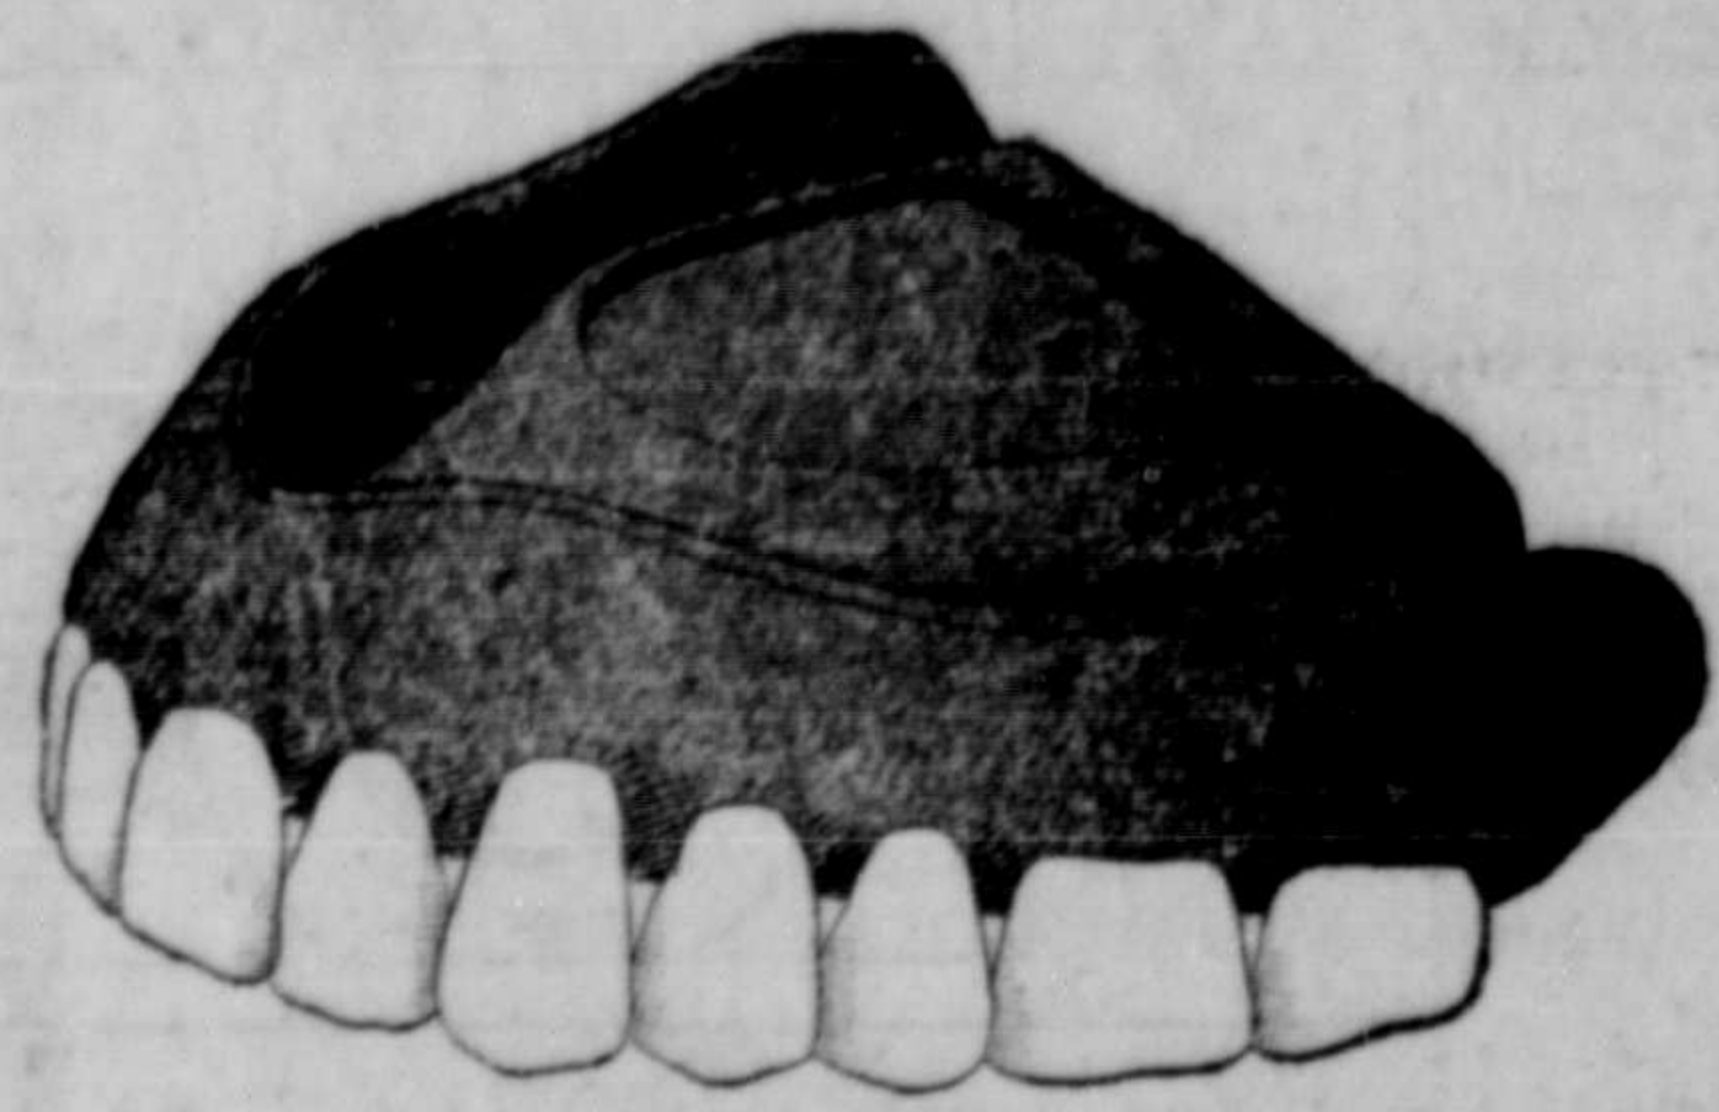

J. W. Tait, of Summerland, who is to be judge of fruits and vegetables at the Fair next week, and H. E. Waby, of Enderby, who will judge the field crops, horses, cattle, sheep, hogs and poultry, arrived in town last night after having acted in similar capacities at the Prince George and Smithers Fairs. They are sent by the provincial Department of Agriculture.

Kenneth Richardson, of Tiel, Graham Island, is among the party of Queen Charlotte Island ranchers who propose coming over with exhibits for the Prince Rupert Fair on the special steamer Prince Albert, Capt. Neil McLean, which will arrive tomorrow night or Monday morning. Mr. Richardson is bringing across a stock exhibit from the E. S. Richardson ranch.

T. A. Clarke has been appointed junior forester for this district to succeed F. D. Mulholland who was recently transferred to Vancouver. Mr. Clarke is a graduate of Toronto University and a single man. For the past two years he has been in charge of timber cruising parties in the Kitimaat and Naas Valleys. He is at present in the Babine Valley on departmental business.

**STUDIES NEW SYSTEM
DIAGNOZING DISEASE**

Dr. Ernest Hall Returns to Victoria After Visiting Abrams Clinic

A new system of diagnosis and medical treatment evolved by a Dr. Abrams, of San Francisco, which permits of the ascertaining of the sex and disease of an individual through an analysis of a drop of the blood, was given considerable study by Dr. Ernest Hall, of this city, during his trip to California, which terminated upon his arrival home, says the Victoria Colonist.

"Upon my arrival in San Francisco," said Dr. Hall, "I found a body of some sixty fine medical practitioners from all parts of the United States engaged in the study of a new system of diagnosis and medical treatment which has been evolved by Dr. Abrams. The system is so radically different from anything that has previously been given to the public, and so unique in its features and wonderful in its results, that no one can be expected to believe such things to be possible without having witnessed them.

From Drop of Blood

"To say that by the examination of one drop of blood sent from New York or New Orleans, the sex, social condition and disease of the individual can be determined, is but to invite ridicule, but such is the case. I could not believe it until I had seen it done hundreds of times.

"This clinic is crowded to its utmost capacity and is a unit of enthusiasm. The system is in harmony with the recent development of science. Dr. Abrams has made many discoveries along this line, and now, by means of a simple apparatus, can measure the radioactivity of disease in terms of the delicate human reflexes. He says that every thought, act, condition, and disease are registered in the blood and are factors in the character and quality of the radioactivity, and these radio emanations can be analyzed and measured.

A Medical Genius

Despite the inability of the ordinary mind to grasp the fact, he does this, and has two thousand physicians doing the same thing today, including Sir James Barr, late president of the British Medical Association, who is loud in his praise of the system, and declares that Dr. Abrams is the greatest living medical genius, having done more for the treatment of tuberculosis than all the medical profession of Europe and America combined.

"Dr. Abrams' genius is in evidence in his grasping disease before it is manifest by ordinary methods of diagnosis. Theoretically he deals with abnormal electronic activity before such condition can become manifested in the bodily parts. He thus deals in what we might call tendencies in disease, in fact, diagnosing disease years before it appears. His clinic is the centre of interest in San Francisco, yet he is not recognized by the regular profession, which has not yet investigated his system. Those who have looked into the matter have seen the most remarkable developments that have ever been given to the medical profession, a contribution that is destined to materially modify practice, if not to work a complete revolution. Dr. Abrams purposes to develop a centre of education for physicians

BRINGING UP FATHER

By George McManus

in Canada within the near future. **Accuracy Discovered**

"Dr. Abrams has given us what the profession has long desired, accuracy in diagnosis and a scientific basis of treatment. He has given to those who for years have wandered in the wilderness of medical indefiniteness, an oasis of definiteness and satisfaction."

During the trip up from San Francisco on the steamer Ruth Alexander, Third Officer Hoar was stricken with acute appendicitis, necessitating an operation, which was performed by Dr. Ghent, a Seattle surgeon, and Dr. Hall.

FISH ARRIVALS

Seven Boats, Including Trawler Kelly, Marketed Catches Totalling 114,000 Pounds Today.

Seven halibut boats marketed 114,000 pounds of fish at the Fish Exchange this morning. The arrivals and sales were as follows:

Happy, 15,000 pounds, at 11.5c and 7c; Westford, 10,000 pounds, at 11.7c and 7c; to the Canadian Fish and Cold Storage Co.

Teddy J., 12,000 pounds, at 11.5c and 7c, to the Pacific Fisheries.

Lancing, 814,000 pounds, and W. and F., 8,000 pounds, both at 11.7c and 7c to the Booth Fisheries Canadian Co.

Andrew Kelly, 50,000 pounds at 9.6c and 6.5c to the Royal Fish Co.

The big Larsen steel airplane is expected to arrive here tomorrow afternoon and it is understood a party is being made up to make the first flight. This may take place after the arrival of the plane which will alight in the harbor.

Mrs. Fred Stork and daughters Patricia and Kathleen, returned today on the Prince Rupert from Vancouver to which city they accompanied Mr. Stork on the tour of the Dominion fisheries commission. Mr. Stork is expected home next Wednesday morning.

Sport Chat

The development scheme at Rainbow Lake Resort, Mile 21, which is proposed by B. Butler, the Minneapolis investor, who is at present on the ground personally supervising the preliminary work, should be a great boon to local hunters and anglers. The trail from the railway track is being repaired and put in good, passable condition and already one lodge has been built and others are planned for private persons. These would be very convenient to outdoor sportsmen. Mr. Butler's land, on which the improvements are being made and which is proposed to sub-divide, is located right at Rainbow Lake about two miles from the track. This and the lake above are two of the favorite fishing haunts. Several local people have visited the spot recently and have been agreeably surprised with the work that is in progress there. The ground, it is said, would be just right for the establishment of a golf course second to none anywhere. Mr. Butler proposes building a small hotel at the lower end of the lake to take care of transient visitors. Lots with log cabins built on them will also be sold, the result being eventually a permanent summer colony. The scenery is wonderful and from the top of Mount Butler, the first mountain, the course of the Skeena River can be traced for more than one hundred miles.

The sport bill at Prince George in connection with the Exhibition which was held there at the first of the week was one of the features of the annual fair.

The first baseball game between Prince George and Edson was won by the latter by a score of 6 to 4. It was an overtime session for both teams had four runs at the end of the ninth. Edson scored the two winning runs in the tenth. Stroud, catcher, and Latta, pitcher, comprised the Edson battery, while Johnson and Grey played in similar capacities for Prince George.

The boxing match between Hartley, of Vanderhoof, and Anderson, of Prince George, went the full ten rounds, Referee McKenzie giving the decision to Hartley calling a foul on Anderson.

One would judge that the Prince Rupert lacrosse games are quiet little affairs alongside what they stage in the interior. The following account of the game between Prince George and Quesnel at the latter town last Monday is taken from the Prince George citizen:

"The Quesnel lacrosse team took the measure of the Prince George aggregation at Quesnel and defeated them with a score of 6 to 4, after playing three periods of 15, 20 and 15 minutes. The play was even during the first part of the match, each team standing with two goals to its credit. Quesnel then broke loose and ran four counters into the

Waterfront Whiffs

Doings of the Mosquito Fleet Which is the Chief Source of Prince Rupert's Prosperity

The past week has seen a rush of business along the waterfront.

The fact is business has been so brisk that the Admiral has given orders to be awakened from his slumbers an hour earlier than usual and at that he makes a careful toilet before appearing on the main deck to see that everyone is on the job which is not really necessary. Nothing has happened of an untoward nature and the fishing business has been progressing merrily along. Even the weather clerk has taken a tumble to himself again and the weather has been all that could be desired on the high spots. All the boats making port this week report a good trip and the fishermen, that is those who have stayed with the job in a businesslike manner, report that the season to date has been a very good one and that they have no kick coming. The secretary to the Admiral reports that the amount of fish marketed this week has beaten the total of last week by just 17,000 pounds. The figures for the weeks sales are 377,000 pounds, which is a real healthy showing.

The prices paid have been steady around the 12c mark although on Tuesday the Anna J. with 25,000 pounds sold to the Allen for 15.2c and 7.5c which constitutes a record price for some months past. Some seven or eight carloads have been shipped over the Canadian National lines.

A number of the old timers have put into port during the week from various fields of exploration, most of whom have returned from the trolling grounds. With very few exceptions the wandering boys seem quite satisfied with their season's work.

The fact that the Rupert Marine Products, Ltd., of Tucks Inlet are endeavoring to commercialize the dog fish and thus establish an all the year round industry has been well received among the waterfront boys. The power schooner Haysport II is already being outfitted by the Coulson Bros. of the O. C. Islands for the purpose of securing supplies of dog fish for the fish reduction plant. The idea is for the Haysport to deliver the fish at scows, which will be anchored in one of the bays at Stephens Island, and from the plant by the Delta C. and the P. R. T. No. 1. Fishermen will thus be able to dispose of their waste fish to the company at the scows instead of throwing it overboard. The supply of dog fish on this coast is enormous, and several fishermen have expressed the opinion that the smaller craft could be profitably employed in local waters during the winter months netting for this class of fish who would be able to deliver their catches direct to the Marine Products plant. There is no doubt if an equitable price is arrived at for this class of fish, which will enable the fishermen to see even a small profit, that a number of them will engage in this work both off Stephens Island and in home waters.

With the summer season practically at an end, as far as water travel is concerned, a number of both public hire boats and privately owned boats have finished their holiday schedules and have been stowed away for the winter.

Labor Day saw a very exciting boat race on the bay. It has been more or less of a waterfront secret owing to the terrific speed made by the two contestants. It is understood that several of the fishing boats lying at the floats were damaged somewhat by the large swell kicked up by the sometimes rotating propellers of the racing boats. The racers were George Frizzell's Miss Rupert II and Benson's daredevil salt chuck eater, Poinsetta II. The race was scheduled for 2 p. m. and at 8 p. m. the engines of the boats in question woke up and started to do things which really surprised their respective skipper. It was certainly the fastest 500 yard race ever seen in local waters although the exact time could not be ascertained for the Miss Rupert, which stopped away in the lead, owing to the fact that the concussion of the engines had stopped all the watches of the timekeepers, at least all those who had stayed long enough to witness the start of the race. Both the speeders were so exhausted at the end of their untimely speed trial that they proved too tired to make their berths under their own power.

The power boat Wigwam, of the Ketchikan fleet, has been on the Ward ways undergoing repairs to her propeller. New bushings have been fixed thereon.

The Grand Trunk railway transfer barge underwent an overhaul at the drydock during the week after which she was towed to the ear slip at Fairview to pick up two tank cars for trans-shipment to the Rupert Marine Products, Ltd. These tankers were loaded with fish oil for eastern shipment and returned to the slip Thursday evening.

The pontoons of the dry dock are being overhauled.

The Cora K., skippered by George Keys, a well known trapper from Porcher Island, returned to port early in the week after several months on the trolling grounds. Cap reports that he has had a very successful season and is bent on tearing things up during the exhibition week.

The Wigwam left for Pierce Island on Thursday night for a seow load of gravel for the city streets.

Preparations are being made by the Admiral of the fleet for additional berthing space in the vicinity of Cow Bay to take care of the great invasion of the Indian fleet on Monday. A large flotilla of native boats is expected to pull in for the exhibition then.

It is understood that Jack Toner is to incorporate a limited liability company to engage in the fish salting and curing business in this city. To this end Jack purchased the gear of the Macdonald Fish Co. of Seal Cove some weeks ago and has everything in readiness to start up. His co-partners in this venture have not yet been named.

A few transactions have already taken place in the fur dealing line at Cow Bay. An Indian from Kitkatla sold 120 mink and 2 otter skins, which had been held over from last year's catch. Geo. Keys of Porcher Island also disposed of a nice bunch of mink held over from last year. Fur prices are higher just now than they were last season.

The Donalds, Charles Hansen, has arrived in port from Dundas Island after a very good season at the salmon trolling game.

Some Walt Mason dope dedicated to Charlie Starr:
My wife has gone to the country, for that I ain't so glad, for frying eggs and bacon has made me awful sad. It ain't so much the frying that I've got the grinch about, it's the fact that when I'm at the god darn fire goes out. But when the meal is over, I light the pipe of peace, and gaze with awe and wonder at the pile of plates and grease.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

For the pile has reached a giddy height, all balanced on the sink, and to wonder what the wife will say would drive a man to drink. Last night I was awakened by such an awful dream, those plates were climbing all about, in fact it made me scream. Then imagine my poor feelings, on rising in the morn, to find the whole darned shooting match had shot out on the lawn. Oh people please be merciful, and hear a mortal's plea, come help me clean the plates all up, then send my wife to me.

Here is a little graphic story with a motto to it, and the motto is never oil up with the wrong lubricant. Cap. Ole Larsen set out with his good craft Kodiak on Wednesday night with the firm intention of reaching Ketchikan or busting. It came near to busting. Just inside the Metlakatla Passage the Kodiak took a fancy for a rest and limped disgracefully upon a nice high rock and left itself high and dry. It is thought that the new lubricant interfered with the steering gear in some way which did not properly answer to the skipper's bidding. However, all well that ends well and willing help soon had the climbing halibut boat nicely placed in the deep water again. No untoward damage resulted.

A certain waterfront celebrity who is particularly well known in the vicinity of the fish exchange has hit upon a clever idea. This time it is a beauty and manuring parlor for chickens who live out of town, or rather in the Hays Cove district. The parlors are fitted out in the most modern style and any chicken desiring beauty treatment is taken inside and given a thorough and sanitary overhaul with Castile soap before a nice warm stove. After this operation comes the manuring and massage treatment which is undertaken by the owner personally who sees that no ingrowing nails are left, particularly on the feet. It is said that the chickens after coming from these parlors would not be known by their own mothers. Of course it is understood that the chickens we are talking about are the chickens you can eat and can't meet, and the gentleman in question is putting some

Waterfront Whiffs

(Continued from Page Five) very fine birds in the poultry show next week which have undergone this wonderful treatment. If they don't win a prize it will not be for the want of progressive treatment.

The W. T. Muse pile driver was towed over to Digby Island on Wednesday and laid up for the winter. This pile driver has been working for some days on driving some dolphins for the Prince Rupert Boat House.

The Summer, Cap. Mingo, cleared port for the high spots on Wednesday night after discharging one of the most successful catches of the season. Cap struck the market when there was something doing on the high prices and left port with a smile that won't come off, for a few days at any rate.

The old faithful Napoleon Pruno, with Cap. Pruno on the bridge, called into port during the week from Dundas Island to spend a little money in fuel and provisions. He has since returned to the trolling grounds to continue his stunts with the cohoes and springs.

The tug Evergreen, owned by the Buckley interests of Queen Charlotte Islands fame, is undergoing a thorough overhaul at the Dry Dock preparatory to engaging in the logging business at the Massett mill.

The power boat P.R.T. left Cow Bay on Thursday morning to collect fish offal from the local fish houses for the fish reduction plant at Tucks Inlet.

It is reported that a real live lady school teacher left on the gasboat Peggy for the Oona river district on Wednesday. It is expected that all the farmers will now be chasing into Prince Rupert to purchase white shirts and stove pipe lids.

The good ship Maud, Capt. S. Pierce, arrived in port on Wednesday night with 3,000 pounds of some of the finest halibut ever landed at this port. On the bridge with Cap was his secretary and chief chef Bill Dieks who is a past master at cooking flapjacks in fish oil without the slightest sign of a fishy taste. This is a remarkable achievement. When he is two feet down the companion way he just shouts "Come and get it" and the mug-up is ready. He is so speedy that he has been turned down for the movies. There is no camera manufactured that is quick enough to catch his movements.

The following boats have marked fish during the week:

SIMONDS SAWS

Special high grade steel gives to "SIMONDS" Saws the ability to take and hold a sharp cutting edge.

Bringold, Cape Clear, Forward, Uranus, Allie, Reliance, Senator, Viola, Pair of Jacks, Lillian M., Emblem, Joe Baker, Guilford, Crescent, Reliance, Summer, Annie May, Anna J., Kodiak, Cape Spencer, Groth, Dolphin, Taboma, Lenore, North Pole, H. & R., White Star, Maud, Gayceon, Dorreen, Daily, Alliance, Azores.

Regrets are expressed that the Gayceon, Captain Jim Morrison, lost six skates of gear on his last trip to the high spots. Cheer up Jim there is a change of moon coming.

A gentleman tourist stood on the dock gazing thoughtfully at a pile of fish boxes marked chicken. After a long consultation with his spouse on the question of so many chicken being raised in the vicinity of Prince Rupert, he ventured to ask a stander-by how the city came to produce so many chickens. Upon being informed that it was chicken halibut and not laying chickens that were in the boxes he departed a sadder but wiser man.

The Admiral has not heard from Flossie this week.

The following boats are at present in port. Annie, Bobbie, Monty, Narberth, Dixie, Rupert, Oh Baby, Joe Baker, Donald, Edwin, Maevie, Sophia M., Viola M., Volunteer, Ymer, Chance, Swing, Leila R., Imperieuse, Leinsh, Hanaco, W. M. & R., Hekla, Malamute, Nuba and Joyce.

The marine department announces that uncharted rocks have been located in Seaforth channel, Raven Cove and that a spar buoy has been established at Amur Rocks, Darwin Sound Queen Charlotte Islands, near Lockport.

INDIAN BOY CHEWED UP BY HUSKIES AND LEGS ALMOST TORN OFF

McMURRAY, Alta., Sept. 9.—With his legs almost torn off and his body severely lacerated with wounds from the attack of four half-wolf dogs, Joseph Nactso, Indian boy, is an inmate of the hospital at Fort Simpson, having come there through a tragedy on the shores of the Great Bear lake, an experience which neither he nor his folks will ever forget.

Nactso in company with members of his tribe, during the month of August was camped at a fishery on the south shore of the Great Bear lake, putting up a supply of dried fish for the winter, and was returning to the village when he was attacked and pulled down by four wolfish huskies owned by Darcy Arden. The boy, who is 11 or 12 years old, was no match for the big brutes. He was dragged a distance of 40 yards by the dogs and horribly mangled. Both the calves of his legs were practically torn off, while there are numerous toothmarks and gashes all over the unfortunate child's body.

GREENVILLE NATIVE BAND HERE FOR FAIR

The Greenville native band, through its representative, J. G. Nelson, signed up yesterday to come to the Fair next week to give concerts and take part in the annual contest. The members of the band will arrive in the city on their own boats on Monday.

SHORT SKIRT LEAGUE.

MONTREAL, Sept. 9.—Twenty of Montreal's smartest and prettiest girls have rebelled against the attempt to force long skirts on women, and have formed a "no-longer-skirt league."

YARD IMPROVEMENT CANADIAN NATIONAL CITY OF EDMONTON

Improvements in the Canadian National Railway leading into Edmonton consisting of the first unit in the consolidation of the Canadian National and the old Grand Trunk Pacific lines to Calder are now under way and will be completed within the next two or three days, says the Edmonton Bulletin. This will mean the disbanding of the old Grand Trunk Pacific line to Calder and the handling of all the freight over the C. N. R. to this point which has been rebuilt completely, and equipped with electric controlled switches and of the most modern appliances known to railway engineers. With the completion of this section practically all of the through freight will be handled in the North yards which will mean that only the industrial freight will be handled in the South yards, eliminating to a large extent the number of freight trains that actually go through the city.

No cause for Worry when Children have Summer Complaints

There is not a summer passes but that thousands of men, women and children are attacked by summer complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, cholera, cholera morbus, cholera infantum, etc.

In looking for relief you should not delay in getting a bottle of Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has stood the test of time.

Mrs. Geo. Chapman, Sudbury, Ont., writes: "I am the mother of five children and I must say they are seldom sick or in need of medicine. They are, however, sometimes troubled with summer complaint, diarrhoea, and such like, but I always find there is no cause for worry as I just give them two or three doses, no more, of Dr. Fowler's Extract of Wild Strawberry, and the trouble soon disappears. It is a remedy that all mothers should keep in the home for the children."

"Dr. Fowler's" is 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Government Auction SALE

of Lots at the CITY OF PRINCE GEORGE On Thursday, Sept. 14th.

Auctioneer - P. J. Moran.
