ALLIED NATIONS UNITE AGAINST TURKEY

ISMET PASHA GIVEN UNTIL FIVE THIS AFTERNOON FOR REPLY TO ALLIES

Final Terms Are Given to Turks by Allied Representatives and Peace or War is in the Balance

LONDON, Oct. 10.—The question of peace in the near east now rests with the Turkish Nationalist assembly at Angora, which has before it the armistice conditions laid down by the allied powers. Meanwhile the Mudania conference has been adjourned and the allied generals have returned to their headquarters in Constantinople to await the decision.

The allied terms include the withdrawal of Turkish troops from the neutral zones around the Dardanelles and Bosphorus. A limitation will be made in the number of Turk gendarmes to be allowed in eastern Thrace and the non-occupation of that province by Turks until after the peace treaty is signed.

MUDANIA, Oct. 10.—The allied generals drew up their final armistice convention here last night and submitted it to Ismet Pasha, the Turkish Nationalist representative. The Angora government is given until five p.m. today to accept or reject it.

CONSTANTINOPLE, Oct. 10.—Lieut.-Gen. Harrington arrived here from Mudania early this morning and will return at three this afternoon. He said: "The convention we submitted to the Nationalists last night is in its final form. It now rests with Angora whether the world shall have peace or war."

"We have gone to the extremity of our concessions. The revised armistice convention is a gratifying manifestation of allied solidarity in war or peace. It is our earnest hope that the Turks will appreciate the liberality of our terms. If they reject them we prepare for all eventualities."

CHINESE AND PUBLIC SCHOOL

Separate Schools in Victoria to be Closed Until End of Term

BOYCOTT BY ORIENTALS

VICTORIA, Oct. 10.—Picketing of separate Chinese schools and other schools to prevent the attendance of Chinese pupils yesterday brought the Chinese school situation to a crisis and announcement made at the school-board offices that the separate Chinese schools would be closed for the remainder of the term in accordance with the ultimatum issued by the board last week.

Five Chinese, the first to attend any school since the separate school policy was inaugurated, presented themselves yesterday and were received in spite of efforts of the Chinese pickets to prevent them.

BANDITS ARRESTED IN BANK ROBBERY

GULL LAKE, Sask., Oct. 10.—Mounted police frustrated an attempted bank robbery and arrested two bandits believed to be members of gangs which have terrorized the West during recent weeks.

ISAAC GUGGENHEIM DIES SOUTHAMPTON

SOUTHAMPTON, Oct. 10.—Isaac Guggenheim, the American capitalist and copper magnate, member of the well known family, died suddenly here today. He was born in 1854.

LANDOWNERS GIVEN A JAR

Lord Bledsloe Says Many of Them Nothing But Rent Receivers.

LONDON, Oct. 10.—The big landowners of England have been told in substance, that as a class they have made a bad mess of the land business and that if they did not do better in the future the country would take the land from them and turn them adrift.

The speaker was Lord Bledsloe, himself a big landowner who, during the war, helped the government manage the food supply of the country. The occasion was an address before the British Association. "The British agricultural landowner today is on his trial," Lord Bledsloe asserted. "Unless he justifies himself as such, the nationalization of the land is inevitable. Public opinion will demand his extinction, and parliament will endorse the demand."

Not Producers. "Many landowners have been for two generations nothing more than rent receivers, and they have possessed neither the knowledge nor the inclination personally to administer their own estates, still less to cultivate them on commercial lines or their own and the nation's benefit."

"So far as they have been organized as a class of the community, they have been organized, not as producers of wealth, but as defenders of property, and as such their organization has, in a highly democratic country, afforded them but a small and steadily decreasing measure of security. They have thus lost their political power because they had no economic basis. They have, not wholly without justification, been stigmatized as ignorant, reactionary and despotic."

FEDERAL GOVERNMENT HAS THE RIGHT TO TAX VENDOR'S LIQUOR

OTTAWA, Oct. 10.—A supreme court judgment upholds the federal right to collect duty on provincial liquor importations by dismissing the British Columbia appeal.

COLONIZE ISLAND

VICTORIA, Oct. 10.—The Chamber of Commerce will have an active committee this winter at work on colonization and settlement plans. The committee on committees will draft the personnel of such a body this afternoon, and it will start business at once, ascertaining information as to the requirements of settlers on Vancouver Island and the means whereby they can best be benefited by the co-operation of business organizations such as the Chamber of Commerce.

SUNDAY FOOTBALL IS LIVE QUESTION TODAY AT NANAIMO

NANAIMO, Oct. 10.—The city council will postpone the enforcement of the civil bylaw against Sunday sports until a test case can be brought to the courts. The council finds public sentiment strongly in favor of continuing Sunday football but the Churches object.

CITIZENS TERRORIZED BY DRUNKEN AUSTRIANS IN SASKATCHEWAN TOWN

CRESTWYND, Sask., Oct. 10.—Citizens took to cover today when two Austrians crazed with moonshine liquor patrolled the streets brandishing a butcher knife and loaded shotgun. The town was terrorized for more than an hour until police officers from Moosejaw gathered in the offenders.

BURGLARS STOLE CASH FROM ASHCROFT GARAGE

REVELSTOKE, Oct. 10.—Two tramps begged the price of a meal from the O.K. Garage here on Sunday. They noted the location of the till and apparently returned after the garage was closed and secured \$125 by burglarizing the premises.

NEW FERRY FOR VANCOUVER ISD.

C.P.R. to Build a Large One Following Experimental Work of Last Season

VICTORIA, Oct. 10.—Victoria is to have another ferry connection with the mainland. Early last summer a car ferry was opened between Anacortes and Vancouver Island with a landing at Sidney about twenty miles from Victoria. This was such a success that the Anacortes concern decided to build a new car ferry to go on the run next year.

The action of the independent company has stirred up the C.P.R. which is now calling for tenders for the building of a fifty car ferry which is to operate between some point and Victoria, probably Bellingham. As Bellingham is farther south than Anacortes it is expected that the C.P.R. will get the bulk of the business.

Until last year the only method of reaching the Island was by the C.P.R. steamers or by the little steamer plying between Port Angeles and Victoria.

Large Travel

Immense numbers of American cars have this year visited Victoria and toured the Island as far as Campbell River and Alberni. Next year it is expected the number will be increased very considerably. The chamber of commerce is advertising the route extensively and keeps a man at Seattle during the season advising people to cross to the Island.

TRAMWAY DISPUTE ENDS

LONDON, Oct. 10.—Tramway employees have accepted a reduction of four shillings weekly thus ending an old dispute.

CHINESE BOOM IS EXPECTED

President of Associated Press Leaves on Visit to Orient to Organize News Service

VICTORIA, Oct. 10.—Frank B. Noyes, president of the Associated Press and editor of the Washington Evening Star, left here on the Empress of Asia to reorganize the press service from the Far East, particularly China to anticipate the great trans-Pacific commerce expansion which is dawning.

So extensive are his plans, that his work in China will take him several months.

Doubtful News.

News received from China since the early days of the World War has been for the most part, of a doubtful character. This has been particularly true when matters of government were being outlined. Not only has the Associated Press found it difficult to get at the real facts underlying much that has taken place in that country, but in metropolitan centres daily newspapers have also been unable to do so. A good many of them, from time to time, have sent their own representatives to China, at enormous expense, and in that way have been able to keep a part of the United States and Canada reliably informed. The Associated Press, also at great expense, has had its special agents in that field, with equally satisfactory results.

Must Know China Better.

It is now desired to build up in that country a permanent local staff that will supply the people of United States and Canada with information that will be reliable and not lean toward any one of the hostile factions into which China is divided.

In order that such a result may be attained, it is necessary for Mr. Noyes to make the present trip. The Chinese people know he is coming, and will give him all possible assistance, for they realize that the future of their country depends largely upon the attitude of the people of the two countries on this side of the Pacific assume toward it.

Intimate Relations

Back of the move, which this great news association is now preparing to make, is the thought that in the coming years relations with China will be more intimate than ever before, with a corresponding profit to countries on both sides of the ocean.

"It is necessary that we know more about China than that she supplies us with tea and a considerable portion of silk," Mr. Noyes says.

OUTBREAK AT DUBLIN PRISON

Irregulars Killed One Guard and Wounded Five Others; One Prisoner Killed

LONDON, Oct. 10.—An outbreak occurred at Mount Joy prison, Dublin, this morning, when irregular prisoners attacked the guard with revolvers which had been smuggled in. One guard was shot and five others wounded.

The military guard returned the fire killing one irregular prisoner and wounding several others.

NANAIMO MINER WAS SHOT AS STANDING BEHIND BUTT OF GUN

NANAIMO, Oct. 10.—Another shooting accident came near being fatal here yesterday. Herbert Findley, a miner, who was out shooting with a friend was badly injured by a bullet accidentally discharged from the friend's gun. The bullet bounded off a rock and travelling backwards struck Findley, who was standing directly behind the butt of the gun.

BUCKLEY EXPECTED HERE ON SATURDAY

Will Go to Islands and Arrange For Starting of Mill and Other Work

Word has been received in the city that F. L. Buckley will be here at the week end in connection with the re-opening of the lumber mill at Buckley Bay and the commencement of more active operations in the logging camps and other operations at that point. It is also understood that arrangements will be made for loading the lumber now stacked in the yard at that place on the company's schooners prior to shipment to Los Angeles.

Fred Stork, member for the district and A. L. Carruthers of the Provincial Public Works department are both at the islands now and they will look into the question of government co-operation, Dominion and provincial.

BULKLEY BEEF IS WELL KILLED SAYS A BULKLEY FARMER

Quality of Meat is Too Good for Local Consumption He Suggests.

One of the Bulkley Valley farmers called at the Daily News office this morning and stated that most of the beef raised in the Bulkley Valley was as well killed as any that comes into Prince Rupert and the chief objection to the beef locally is that it is too good. He said that the quality was so much better than that brought from the prairies that the local butchers did not want it. It was all of the best quality, well conditioned and tender. The difficulty was that what was required was inferior quality beef whereas their's was first quality.

The farmer admitted that there might be a few farmers who did not kill their beef well but most of them did.

FISH ARRIVALS

Five boats marketed 12,700 pounds of halibut at the Fish Exchange this morning. The arrivals were:

Sentinel, 13,000 pounds, at 15.30c, and 8c; Restitution, 10,000 pounds, at 15.20c, and 8c.; to the Booth Fisheries Canada Co.
Norengen, 11,000 pounds, at 15.10c and 8c., to the Canadian Fish and Gold Storage Co.
Dependent, 5,000 pounds, at 15.30c, and 8c., to the Pacific Fisheries.
Klumount, 700 pounds at 13.30c., and 8.50c. to the Royal Fish Co.

EMIGRATION FROM ENGLAND

Hon. T. D. Pattullo Discussing Matter of Securing Domestic and Young Men

VICTORIA, Oct. 10.—The securing of female domestics from England for city and country work and youths of from 17 to 18 years of age for farm work in British Columbia is being discussed with British officials and organizations by Hon. T. D. Pattullo, minister of lands, now in London, according to a cable despatch to Premier Oliver yesterday.

The proposal for bringing in these two classes was first discussed with Commissioner Coombs of the Salvation Army. The girls and boys may be selected by the Salvation Army and brought out under the auspices of the British Columbia Government, the Salvation Army and the Overseas Settlement Board.

Mr. Pattullo leaves on October 13 for Victoria in order to be home in time for the opening of the legislature which is to take place on October 30.

ATTEMPT MADE MURDER WOMAN

Said to be Work of Man Who Pestered Her with Attention.

VANCOUVER, Oct. 10.—Mrs. Robert Law who was found in a dying condition with a bullet in her lung, told the police her husband in Calgary would know who did it.

The husband gave the police the name and description of a man who is said to have pestered Mrs. Law with his attentions for some time past. This man will be arrested if found.

Mr. Law has started for Vancouver to avenge his wife's injury.

Mrs. Law, who is the daughter of well-known Vancouver people, may possibly recover from the wound.

PARTY FLEW NORTH TO STEWART TODAY

Hazelton Made Good Getaway in Glorious Weather Bound For Mining Camp.

The aeroplane Hazelton left at 10.15 this morning under ideal weather conditions with a local party aboard en route to Stewart and expects to return around 4 o'clock this afternoon.

Yesterday the plane was up on three passenger flights. Among those taking advantage of a trip over the country were Mrs. Gillis, Mr. Kirkpatrick and Alex. Mills.

The future movements of the Hazelton are somewhat indefinite although it is probable she will be leaving for the Hazelton base sometime to-morrow.

FRENCH GOVERNMENT PROTESTS AGAINST U.S. LIQUOR RULING

PARIS, Oct. 10.—The French government will protest immediately against the United States government ruling that foreign shipping must not carry liquor in United States waters.

Fire Limits For The City.

It is easy enough for the city to pass bylaws, but it is another thing to enforce the provisions. We have heard of cities passing bylaws regulating the height of buildings and restricting to six storeys. Then a few weeks after a big concern comes along and offers to erect a fine block if they can be allowed to make it eight storeys. The council rushes over itself to pass the necessary bylaw rescinding the former one, because a big business block was the one thing the city needed.

In Prince Rupert we tax vacant property very high, the idea being to encourage building. Yet there are now more buildings here than we can at present use. We are quite consistent. We have building regulations which have been broken again and again. If very stringent regulations are imposed, the tendency will be for business to take some other course. Streets outside the fire limits will be built upon instead of those within.

Fairly Good Buildings Should Be Required.

At the same time there is a medium course. Fairly good buildings should be required which will not be a menace to the rest of the community and which will be a credit to the city. There seems little doubt that permanent buildings are the cheapest but in the absence of mortgage money to loan it is sometimes difficult to finance very expensive buildings. All these things have to be taken into consideration. It is not wise to be too stringent at the beginning else we are likely to defeat the very condition we are trying to bring about. Moderation in building bylaws as in everything else seems to be what is required.

Mill Sale Takes Place This Week.

The sale of the property of the Prince Rupert Pulp & Paper Co. Ltd. including the Prince Rupert lumber and planing mill is set for this week and a company has been formed, apparently for the purpose of buying it if the price is not too high. The property includes a lot of very valuable timber limits and when the sale is completed there seems every likelihood that the purchasers will proceed to use the mill and possibly to erect a pulp mill. It will then be for us to try to secure the erection of the big works in Prince Rupert. Should it go to the Naas River, where a lot of the limits are located, or to the Ecstall River where the power might be generated, Prince Rupert would not benefit as it would from the mill being placed either on the townsite or very close to it.

Here is where the good offices of the board of trade should prove valuable. The board might collect all data in connection with the project and co-operating with the city council lay them before the new owners whoever they may be.

We mention this matter now so that it may not be thought that the Daily News is financially interested in the matter in some way. What we are interested in is in getting an industry going here. Whoever buys the mill should be at once approached with the view of finding out their intentions and an effort should be made to co-operate with a view to securing construction of a pulp and paper mill here at as early a date as possible.

The matter might be taken up through our local member with the provincial government and their co-operation also secured. We know of nothing that would benefit Prince Rupert so much as the establishment of a paper mill here, working in conjunction with the lumber mill. If we are to become a shipping port it will be much to our advantage to have local shipments of freight to augment through shipments that come here over the railway.

Community Spirit Very Desirable.

At the banquet the other night, F. G. Dawson suggested the need of more community spirit here. He was right. A community spirit is what makes any place succeed. We should all get together now and then and talk over important matters, not with a view to wrangling but to finding a solution that will help the city. Discussion of public questions along constructive lines is always helpful.

"FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

917 DORION ST., MONTREAL.
I suffered terribly with *Dyspepsia*. I had it for years and all the medicines I took did not do me any good. I read something about "Fruit-a-tives" being good for all *Stomach Trouble and Disorders of Digestion*, so I tried them.

After finishing a few boxes, I was entirely relieved of the *Dyspepsia* and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives".

Mlle. ANTOINETTE BOUCHER.
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Ten Years Ago In Prince Rupert

October, 10, 1912.

J. Knox Browne, manager of the Modern Refrigerating Co., located at Haysport, paid a flying visit to the city today in connection with business to do with a case at the county court.

B. H. Belcher one of the earliest of the Klondyke pioneers, and known to every resident of the Yukon familiarly as "Uncle" Belcher, is a visitor to the city. Mr. Belcher, who of late years has been a resident of Edmonton, Alberta, is on a pleasure trip, and is finding the short time at his disposal fully taken up with renewing acquaintances with his many old Klondyke friends.

The weather conditions at 5 a.m. this morning were, barometer, 30.672; maximum temperature, 52; minimum temperature 45; precipitation .16 inch.

STEWART

The Silver Crest property, consisting of 11 claims, situated near the head of the Salmon River glacier, has been bonded to a Seattle syndicate.

Mr. and Mrs. B. O. Erickson, the year's work on their mining properties having been completed, have left Stewart for Seattle to spend the winter.

Development work on the Prince John property at Stewart which is under bond to C. A. MacKenzie, is now well under way. A crew of some eight men are being employed. A great deal of work is at present being done on the trail so that it will be in good shape to carry on development work on the property throughout the winter. Bill Irwin has taken the contract for the driving of a 300 foot tunnel this winter. Supplies for the winter will be taken in as soon as a few bad patches in the trail have been repaired.

Neil McDonald has arrived at Stewart and reports that he has obtained very promising results on his Troy group of six claims, situated one mile north of the 49 property on the east slope of the Salmon River glacier. He has two leads on the property traceable so far for 500 feet on the surface. An open cut, 10 feet deep, made on one of these shows a 10 foot ledge, with a two foot high grade shoot, assaying on the surface \$127 in all values, while at the bottom of the cut values increased to \$191, with a silver content of 207 ounces. Mr. McDonald will carry on further surface work next season.

Andrew G. Larson, consulting engineer for the Daly Alaska mines, has arrived in Stewart.

The Big Missouri people are now busily engaged sinking a prospect shaft on the E. Pluribus claim of the group to determine the worth of certain surface showings in that vicinity. The shaft is now down about 60 feet, and a blower has been installed to supply air. It is the intention to continue this shaft, which is in good ore, down for another 25 or 50 feet, in the hope that this form of prospecting will reveal the true nature of the mineral value on this section of the Missouri area.

POTATO FAIR

Editor Daily News:-

The second annual Provincial Potato Fair will be held some time during the month of November, under the direction of the Department of Agriculture. The exact date and place for holding this fair will be announced later.

On account of the deep interest shown in the first Annual Potato Fair held last year in Chilliwack the Department has decided to give prizes for table stock as well as seed potatoes this year.

It is hoped that the various agricultural organizations and all others interested in the potato industry will co-operate with the Department to the fullest extent and help make this fair a success. A series of lectures on the potato industry will also be given at the same time. Will you kindly give this event as much publicity as possible through your newspaper.

C. TICE,
Potato Specialist.

CITY CLERK PAID TWO DOLLARS HOUR FOR OVERTIME WORK

FLIGHT AROUND KAIEN ISLAND

Officials from Surf Inlet Mine Take Ride in Len Bell's Bus

Late yesterday afternoon the fine launch Belmont of the Belmont-Surf Inlet Gold Mining Company, arrived in the city and a few minutes later saw C. A. Heller, of Philadelphia and F. H. Penn, superintendent of the company on board Len Bell's flying yacht "Hazelton" on a twenty minute trip round Kaien Island. Several local people joined the party and flying conditions were ideal.

Read the Account
Mr. Penn had read the account of the flights in the Daily News and the moment he saw the craft as she came in the harbour he suggested a flight.

The plane rose from the water very slowly and glided out of the harbor in the same course taken by the big steamers and was soon off Ridley Island. By that time considerable height had been attained, but the craft was still climbing and the Zenard rapids looked rather small while the proposed bridge site between the island and mainland at Galloway rapids looked so narrow it might be possible to leap across. Steadily the machine rose to its maximum height almost level with the top of Mount Oldfield. The trees below looked stunted and many a tiny lake was located by those who knew something of the island and its topography.

Long Descent
To the east Clovach lake was enshrouded in mist, the only cloud visible anywhere. The mountains of the interior were plainly visible and Shawatlan's Lake spread out very clear. No sooner had the plane passed Buse rapids than she began to drop and the turn at Seal Cove was made on the downward stretch. In spite of the long way back when the descent was commenced, the plane ran past the landing place almost to the new Government dock before it was able to turn and taxi back to the berth. It was a flight to be remembered.

MONTGOMERY'S OPINION OF BOARD OF TRADE

The consideration of a letter from the secretary of the Board of Trade setting forth the activities of the board during the past year and giving a detailed account of the financial statement came before the council at the meeting last night. Alderman Montgomery thought that the Board of Trade was a dead issue. Alderman Theo. Collart, being a member of the organization, took exception to this remark and invited his brother-alderman to join the Board of Trade and thus put some life into it.

It was decided to file the correspondence.

CARD OF THANKS

Mr. L. F. Brennan and sister wish to thank all who sent flowers or offerings or assisted in any way in their recent sad bereavement.

Don't forget the Moose Whist Drive and Dance on Wednesday October 11 at 8:30 p.m. at Metropolitan Hall. Everybody welcome. Refreshments, Arthur's orchestra. Gentlemen 75c, Ladies 50c. 238

Jos. Lawler and W. Goodlad were committed for trial this morning in the city police court by Magistrate McClymont, on a charge of breaking and entering a room in the Dominion Cafe, Third Ave., on Oct. 7.

A letter from R. T. J. Rose, 537 7th Ave., West, was read at the council meeting last night on the question of his domestic water supply. He stated that the water pressure in his house was very low during the day although early in the morning and late at night the pressure was good. He thought it was evident that too many people were using water at the same time. It was decided that the matter be referred to the Board of Works for report.

POISONED FROM EATING SEEDS FROM LABURNUM

GLASGOW, Oct. 10. — Seven Glasgow boys, their ages ranging from seven to eleven, are seriously ill as a result of eating seeds from a laburnum tree. It appears that after school a boy climbed a laburnum tree in a garden in Princess Street, Govan, collected a quantity of the seeds, and distributed them among his companions, who ate them. Later the boys all complained of pains in the stomach and giddiness. Their parents notified the police, and six of the boys were removed to the Sick Children's Hospital, while a doctor was called in to the seventh.

A similar case occurred in the Govan district recently, but it was not reported to the authorities, and about a year ago there was a fatal case in one of the public gardens in Glasgow.

SALVATION ARMY HAS SUCCESSFUL SALE OF COOKING AND FRUIT

Something like \$100 was raised by the Salvation Army yesterday at their sale of home cooking, candy and fruit. The event was well attended and proved a real success. M. Hunt, the auctioneer, proved himself to be a master of the art and the amount raised testifies to the interest taken.

In addition to the auction there was a candy stall arranged by the young people of the Sunday School, where the sum of slightly over ten dollars was raised.

Capt. and Mrs. Coleman wish to thank all the friends for their practical interest in donating and in attending the sale.

No better shoe made at the price and every pair fully guaranteed.

FIRE LIMITS FOR THE CITY

Matter Discussed at Length Without Decision Being Reached.

The report from the building commission on the question of fire limits being established in the city and the consideration of a by-law...

Alderman McLeod said it had been suggested to establish a first class fire limit from Sixth Street to McBride...

Ald. Silversides did not agree with the placing of any further restrictions on building in the city in view of the fact that things were very quiet from a business standpoint...

Ald. Montgomery concurred with Ald. Silversides in his views and said that the class of buildings going up to-day were of a first class nature...

Ald. McLeod inquired if we were going to stay in the shack stage for all time. "If you put up a permanent building you can get more rent for it and you have less insurance to pay."

Ald. Theo. Collart disagreed with Ald. Montgomery in his statement that we were only a fishing village and said that we had to put up a fight for something better...

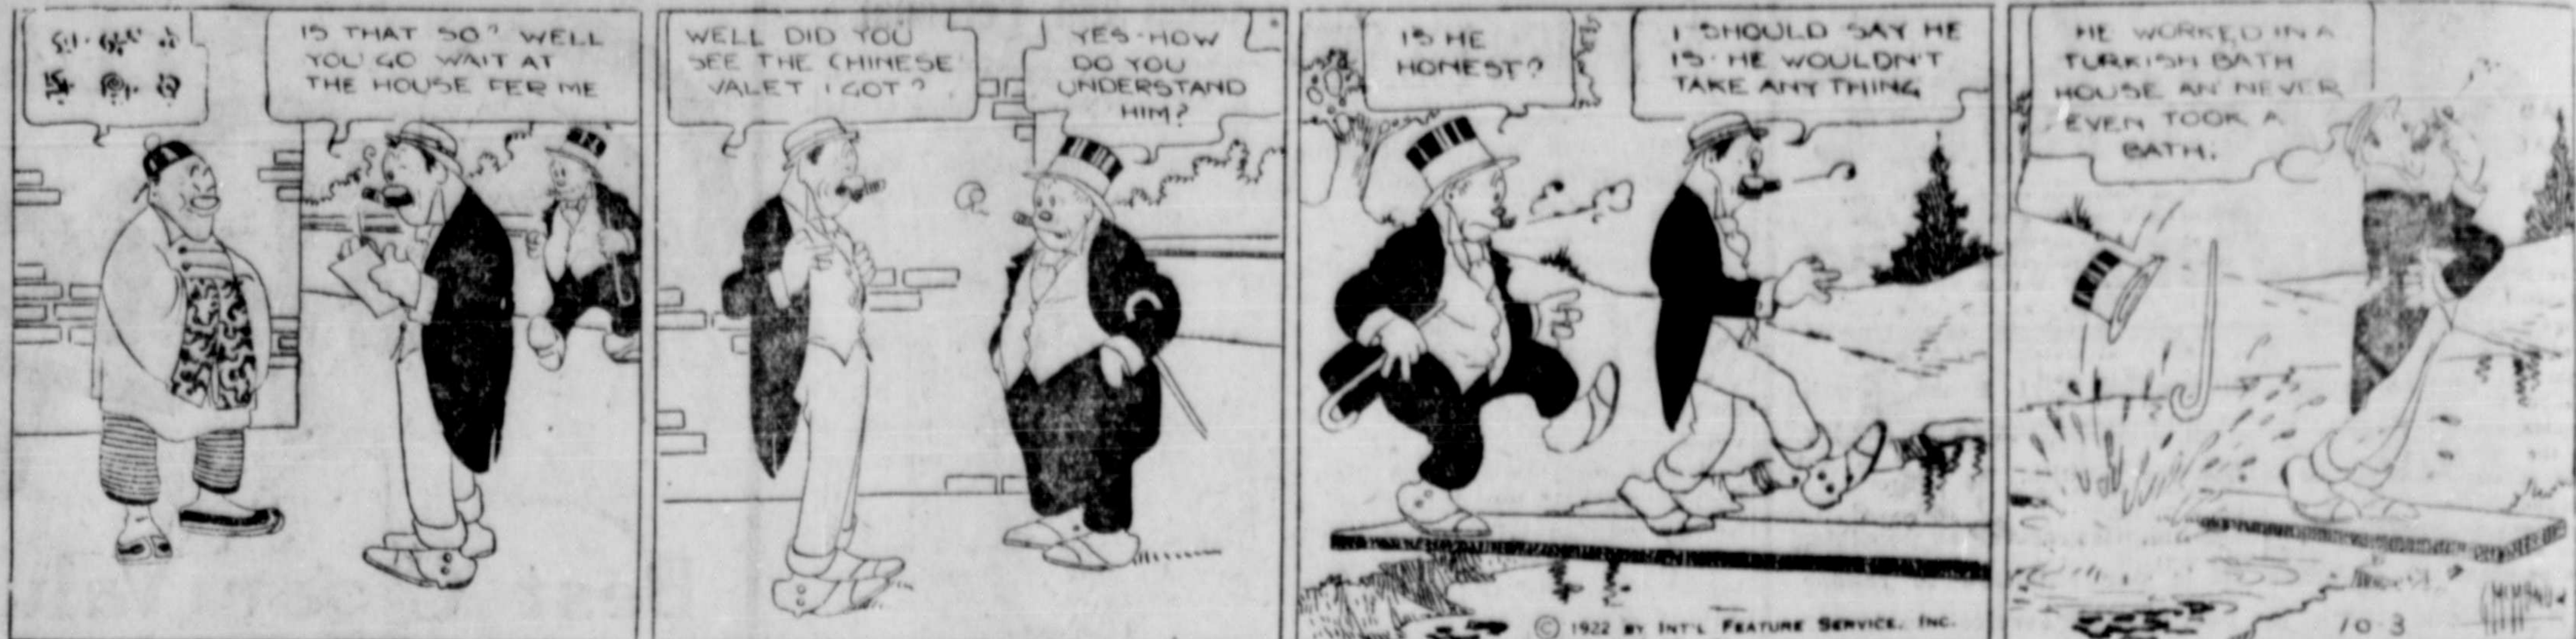

Burdensome Taxes. Ald. Montgomery favored the course of facing facts. He said that the city had enough property on its hands now...

Ald. Kelly believed that the time was opportune to divide up the city into sections, maintaining that we had good streets and should have good buildings upon them.

City solicitor Hooper volunteered the information that the cost of living here was 15 per cent higher than in other cities in the south...

Ald. McLeod said that a special public meeting had been held for all those who seemed inter-

BRINGING UP FATHER

By George McManus

rested in the matter. Several contractors had then stated that the present by-law was not half drastic enough...

Ald. Silversides did not consider that the meeting referred to was representative.

Referred Back. Ald. McLeod reminded the council that it had always been their policy to advocate permanent roads, sewers, etc.

Alderman Kerr moved that the matter of this report be referred back asking the building commission to make definite recommendations...

WATER MAINS ARE DISCUSSED

Relative Merits of Cast Iron and Steel Before Council

A report from the Board of Works on the construction of water mains on Fourth and Fifth Avenues was brought up at the council meeting last night.

City Engineer Whittaker stated that in this city in the past east iron pipes had always been used while the cities to the south were using steel pipe.

Ald. Kelly inquired if we were going to stay in the shack stage for all time. "If you put up a permanent building you can get more rent for it and you have less insurance to pay."

Ald. Theo. Collart disagreed with Ald. Montgomery in his statement that we were only a fishing village and said that we had to put up a fight for something better...

Burdensome Taxes. Ald. Montgomery favored the course of facing facts. He said that the city had enough property on its hands now...

Ald. Kelly believed that the time was opportune to divide up the city into sections, maintaining that we had good streets and should have good buildings upon them.

City solicitor Hooper volunteered the information that the cost of living here was 15 per cent higher than in other cities in the south...

Ald. McLeod said that a special public meeting had been held for all those who seemed inter-

freight alone was very high. It was thought that steel pipe should be used in the residential part of the city.

Life of Each. Alderman Kelly asked what the difference was between steel and cast iron pipe...

Engineer Whittaker stated that the difference in price between cast iron and steel was \$1.00 per foot.

Also that steel pipe would last something like 25 years and cast iron pipe up to 30 years. Ald. Kelly strongly objected to the use of steel pipe.

Alderman Collart asked the city engineer the price of steel, cast iron and wooden pipe.

Mr. Whittaker replied that cast iron pipe cost \$270.00, steel pipe \$178.00, and wooden pipe about \$67.00 per 100 feet.

While Ald. Kelly maintained that steel pipe was unsuitable the city engineer Whittaker favored its use and said it was both cheaper and easier to handle.

Referred Back. Alderman Perry moved that the report as submitted be referred back to the Board of Works for further action in the securing of more detail as to the merits and demerits of cast iron and steel pipe...

Alderman Kelly inquired if we were going to stay in the shack stage for all time. "If you put up a permanent building you can get more rent for it and you have less insurance to pay."

Ald. Theo. Collart disagreed with Ald. Montgomery in his statement that we were only a fishing village and said that we had to put up a fight for something better...

Burdensome Taxes. Ald. Montgomery favored the course of facing facts. He said that the city had enough property on its hands now...

Ald. Kelly believed that the time was opportune to divide up the city into sections, maintaining that we had good streets and should have good buildings upon them.

REBEKAH LODGE WERE ENTERTAINERS

Whist Drive and Dance Held Last Night is Great Success

The first whist drive and dance of the season held by the Rebekah Lodge in the Metropole Hall last night was a brilliant success.

At the termination of the whist drive delightful refreshments were served and dancing was much enjoyed to the melodious strains of Arthur's orchestra until the early hours.

Harry Love and Sid Cox took charge of the door duties.

TERRACE NOTES

D. D. Munro returned home Friday and is confined to the house with an attack of sciatica.

Mrs. Orwig of Prince Rupert who has been visiting her daughter Mrs. Harry Frank, for the past week returned home on Monday.

Bruce Jaynes left for the east Monday night.

Mrs. McLarty and daughters of Esk spent Saturday in town.

A. Y. Wilson and Chas. Despard of Reno were in Terrace Saturday.

Mrs. Moncton left for Prince Rupert on Friday.

Dr. Barton was in town over the week end.

Miss Vierck of the G.T.P. freight office, Prince Rupert, is spending her holidays with Mrs. Harry Frank.

Mrs. H. H. Little and daughter, who have been visiting Mrs. W. J. Parsons, returned to Hazelton on Saturday.

The first apples to be exported from Rosswood, Kalum Lake, were brought to Terrace, Saturday, by Mr. Cobb. They were gathered on the ranch of Mrs. Annie Ross from trees put in ten years ago.

There has been splendid fishing lately and on Sunday numerous fishermen were noticed with wonderful evidence of their success.

The Healing Virtue of Herbs

VALUABLE SECRETS EXTRACTED FROM NATURE'S STOREHOUSE.

There is a power and reliability in herbal medicines that never belong to mineral drugs. The curative power of herbal remedies, too, does not wear off with constant use, as is the general rule with mineral compounds. These truths were more clearly realized in bygone days when the famous athletes and gladiators of ancient Rome anointed their wounds and sores with secret herbal balms and vegetable oils of magical power. The secret and liking for these preparations perished with the fall of Greece and the burning of Rome.

BACK TO THE MINERAL AGE. In the age that followed, the people of Europe fell back on artificial salves and ointments composed of mineral oxides of lead, zinc, bismuth and other deleterious metals, without thought of the great damage which these unnatural compounds undoubtedly did to the delicate underskin.

The explanation was that herbal remedies, whilst admittedly ideal, meant more trouble seeking, refining and making up. A return to natural perfect healing was never made until the discovery of the greatest and most perfect example of herbal compounding. The immense resources of modern science have been harnessed up in zam-buk with Nature's remedial herbs. The rare and costly herbs used in the scientific manufacture of zam-buk are carefully selected, gathered at the right season, compounded in up-to-date and elaborate laboratories and cleverly

RIFLES CRACK PRISONERS DIE

Reconstruction Proceeding Slowly in Russia; No Political Freedom

RIGA, Oct. 10. — The cracking of the rifles of squads of executioners continues throughout Russia, and may be heard simultaneously with the tattoo of workmen's hammers engaged in the actual repair and reconstruction of buildings throughout the land. That reconstruction has begun and is slowly continuing without important assistance from foreign countries, and that the Soviet has not changed its unrelenting and ruthless policy toward its political foes, are two outstanding phases of the Russian situation evident to the correspondent of The Associated Press who has come to Riga after an eight months' stay in Russia.

Political Offenses. Hardly a day passes but somewhere in the country the death sentence for political offenses is made effective, but at the same time no day dawns without the beginning of some new task, the purpose of which is to put in order buildings and streets that were wrecked during the revolution. Prisoners doomed to die look from their windows out on bustling street scenes and smiling people who have forgotten politics in the pleasure of building new fortunes as trade opens up.

There have been no changes in the fundamental policies of the Soviet government, its tactics now seem to be strikingly summed up in the phrase of a foreign observer at Moscow: "Assist or sink at anything which ultimately helps us in the reconstruction of Russia; relentlessly crush anyone who dares to raise his hand against us politically."

Speculators Flourish. Speculators flourish, but the government is busy devising means to get their money away from them. These men pay heavy taxes; dine at stupendous prices in tax-burdened restaurants, and play bacarat for high stakes at night in the casinos from which the government takes the lion's share of the profits. To the speculators the government is like the Gods of Olympus, permitting its children to play at business, but threatening them with a thunderbolt if they dare to take part in the political game.

The government makes no secret of its dictatorship, and the people are becoming accustomed to this and are even happy in their daily lives under it. Under the iron hand of dictatorship the existence of the masses in Russia is beginning to run smoothly. While the correspondent was in Moscow he was assured by government leaders that no political freedom would be granted Russia. But this seems not to worry the people, and tired of war and strife, they now see ample food before them, coupled with the possibilities of personal advancement.

Control Complete. Throughout Soviet Russia there is not today, a single import for months, a single important uprising. The Communist control is tighter and more complete than ever. The Committee of Investigation is outweeding, trying, and convicting various minor officials who accepted bribes, and is thus endeavoring to build up a bureaucratic machine which will operate strictly in accordance with orders from the Central Government.

The old Cheka has been abolished, and in its stead there has come up the organization known as the Political Police. The latter does not interfere in men's private lives, but in politics they are as omnipotent as ever. At one time the political police could shoot people first and try them afterward. Today the method is to have a court trial first and then carry out the execution, or to send suspects into exile without trial.

To foreigners in Russia the leaders make no effort to conceal their policy. They are not ashamed. They have confidence in the policy of doing wrong that good ultimately may come, and they apparently are succeeding, slowly and painfully, in reconstructing Russia, but along their own lines, and without any important sacrifice of principle.

Industries Needed. The evidence of reconstruction

MILK

as pure, as rich in cream, as nourishing, as if just from the cow

Yes, even richer than it comes from the cow, for most of the natural moisture has been removed from St. Charles Milk which makes it so creamy. Always fresh, pure and sweet, St. Charles Milk should be used every day for every cooking and table use. It is the finest milk you can buy. Depend upon it—absolutely—for the name St. Charles is our good name. It always stands for the best—the highest quality. With a few tins of St. Charles on your pantry shelf you are always assured of a plentiful supply of rich, pure milk to use as you need it. Your grocer will gladly supply you.

Borden's ST. CHARLES MILK

"Pure Country Milk With The Cream Left In"

Sport Chat

To eradicate any false impression that may exist in the minds of citizens as to the lack of sports in local public schools H. L. Campbell, public school principal gives information in this connection. During the school year of 1921-1922 from Sept. 21 last to June of this year the following organized and supervised sport was held. In September and October last during the fine days, football fixtures were played between the Booth and Borden St. schools and other days were taken for practice purposes. This also obtained during the months of March and April of this year on fine days. Two basketball leagues were formed last year, one for girls and one for boys, which played fixtures from October until March. The league comprised four teams of girls and four teams of boys, and games were played continuously under the supervision of a teacher. A schedule was drawn up comprising 36 games. With regard to baseball. On the fine days during May and June last a great deal of time was spent in practice baseball and also several fixtures were played between the various schools both between the girls and boys. Mr. Campbell points out that the great drawback in school sports is that during the two

Sport Chat

best months of the year, namely July and August, when the weather is most suitable, the schools are closed for summer vacation. Also to the fact that the schools do not participate in evening sports because school sport fixtures in the evening are not welcomed by the parents of school children who often have other engagements for them to attend. During the coming winter Mr. Campbell is arranging for football on fine days, and two leagues of basketball, one for girls and one for boys, also girls hockey in fine weather if sticks are available. Hockey for girls had been planned last year but unfortunately the necessary hockey sticks could not be obtained in time. In the spring baseball fixtures will also be arranged for girls and boys. In future the school sport fixtures will be published and the results of the various games will be given so that parents will be able to see what is being done for the children in this direction.

ODESSA BOY SCOUTS.

ODESSA, Sept. 10.—One hundred Russian Boy Scouts are doing valiant work in this city in delivery of food packages sent in by the American Relief Administration. Mounted on bicycles they notify the addressee that some friend has sent him food. If he cannot call in person for his package another section of scouts, using hand carts, make actual delivery.

CANADIAN NATIONAL RAILWAYS.

(Western Lines). GRAND TRUNK PACIFIC RAILWAY. Scaled tenders addressed to the Chief Engineer, Winnipeg, Man., and endorsed Bridge Foundation and Rock Filling Kyax Bridge, will be received at the office of the Chief Engineer until twelve o'clock noon, Thursday, October twelfth, nineteen twenty-two, for work in connection with construction of bridge foundation and rock filling at crossing of Kyax River, Mile seventeen thirteen point three, Skeena Sub-Div., near Prince Rupert, British Columbia. Plans, profiles, specifications and form of contract may be seen and form of tender obtained at the office of the Chief Engineer, Winnipeg, Man., District Engineer, Prince Rupert, B.C., District Engineer, Maintenance of Way, Vancouver, B.C., District Engineer, Edmonton, Alta., District Engineer, Saskatoon, Sask. Tenders will not be considered unless made on the form supplied by the Railway Company and accompanied by an accepted cheque on a Chartered Bank equal to five percent of the value of the work, payable to the order of the Treasurer, Canadian National Railways, Victory Bonds payable to bearer will be accepted in lieu of accepted cheque mentioned. Tenders must be enclosed in special envelope supplied by the Railway Company. The lowest or any tender not necessarily accepted. A. E. WARREN, General Manager. Winnipeg, Man., Sept. 27th, 1922.

LAND ACT.

NOTICE OF INTENTION TO APPLY TO LEASE LAND. In Prince Rupert Land District, Recording District, Coast Range 2, B.C., and situated 2 1/2 miles east from Prince Rupert, being immediately east of G.T.P. Ry. bridge at mouth of Boneyard Creek on north shore of Skeena River. Bert Butler, of Haysport, B.C., occupation farmer, intends to apply for permission to lease the following described lands: Commencing 148 feet west of a post planted at the south-east corner of Lot 197, Range 2, Coast District B.C., thence in a westerly direction 200 feet along G.T.P. Ry., thence in a southerly direction to low water mark, thence in an easterly direction along low water mark to a point directly south of the point of commencement, thence in a northerly direction to point of commencement, containing 2 acres more or less. BERT BUTLER, Notice of Applicant. Dated Sept. 20th, 1922.

FIRE CHIEF'S REPORT

According to the report of Fire Chief McDonald read at the council meeting last night in the month of July the city fire department responded to five fire calls, at a total loss of \$10 above insurance. Salaries for the month amounted to \$1,099.00 and total expenses amounted to \$181.79.

In the month of August the fire department responded to four fire alarms with a total loss of \$172.39 fully covered by insurance. The first alarm boxes were used and found to be in order. All buildings were inspected and from a fire prevention standpoint were found to be in fairly good condition. Salaries for the month amounted to \$1,099.00 and total expenses amounted to \$22.39.

FAIR WAGE CLAUSE

Hays Bridge Contract to Contain Restriction Regard to Rate to be Paid

A letter was read at the council meeting last night from the Carpenters' Union with reference to a fair wage clause being inserted in the projected Hays Cove bridge contract. Alderman Montgomery inquired if it was not compulsory to insert such a clause. Engineer Whittaker stated that in any contract drawn up a clause compelling the contractor to pay the standard rate of wages was inserted. Alderman Montgomery moved that the Carpenters' Union be no-

OCEAN FALLS SENDS GROUP OF VERSES

Five Limericks all Related Come From Paper Town for Movie Competition

A group of five verses have arrived from Ocean Falls. They are all closely related and are therefore given in consecutive order as follows:

Ocean Falls Critic Of limericks I've written galore Some risqué, a little (or more) Though Editor Pullen Will stand lots of foolin' I fear if I'm tough, he'll get sore.

So I'll write in a manner refined, Keeping all those dear young things in mind, Who adore Wally Reid And who go off their feed, At requests for his photo declined.

You may say that I'm lacking in taste, That my instincts are low and debased, But I hate Reid and Ray While I roar every day; When a cross-eyed comedian is chased.

Sound the praises in voices emphatic, Of Mack Sonnett's damsels aquatic, Who dance into view, Not precisely "roulettes nues," But in costumes so slim we're ecstatic.

Scenario writers attend, Your methods you'll have to amend, Your fatuous drivel, Twist kissing and snivel, Is killing your job in the end. Where They Learn When night's dusky wings hover nigh, To movie-land flappers all hie To learn the new tricks For enamouring hicks And the S.O.S. code of the eye.

Thumbs Down Ye gods! how I long to enshroud The pest who chews gum so danged long Or litters and jeers. At the scenes meant for tears, Or explains everything to the crowd.

Oh, Boy! And when on the screen I see joy And love and sweet lassies so coy, It all seems so real That I can't help but feel That this life is worth living, "Oh, Boy!"

Went Too Far When Fatty was on the stage They thought he was quite the rage, But he went too far With a movie star And got himself into a cage.

Back to The Farm

We are always getting news from somewhere about Pacific Milk. Not long ago we had a letter from a woman who lived near Ladner. As a matter of fact, they always keep a few tins of Pacific Milk in the house, and her letter was written to tell us what a farmer living in the heart of a dairy district knows about our product. She says that she has observed that practically every high-grade herd in the district sends its milk to our factory and that she has been over our plant and could not believe, until she had seen it, how spotlessly clean everything is kept.

PEERS ARE POOR BUT HAVE TO SPEND

LONDON, Oct. 10.—It is hard to be relatively poor, yet compelled by the circumstances of birth to hide the fact and even play the part of a mad-cap spender.
A certain Lord writes to a London newspaper:
"I have to wear a tall hat and the tail coat of conventionality. I have to tip well and cheerfully, and at the same time count every penny. When friends from abroad come to town I have to entertain them—which is a pleasure, but oh! the plotting and the planning and mean little economies that I have to practice! Without a title I should be a comparatively happy man. But I inherited it and I cannot shed it."
"A wealthy American once said to me, 'You British peers have a jolly good time!' I tried to explain to him that we too had responsibilities, but he countered this by saying, 'I would give anything to be a man of title.' And I would have given a great deal to be plain 'Mr.' with all his money."

KHALIFAT MOVEMENT EFFECTIVE IN INDIA

British Mohammedans Make Large Demands Regarding Turkey
BOMBAY, Oct. 10.—The Khalifat movement in India which, several months ago, brought about a revision of the Sevres treaty, has had a large part in the movement toward Indian home rule. Hindus, seeking Mohammedan support for the Swadeshi agitation for self-government, have seen fit to support the Khalifat movement in return.
The Khalifat movement, unlike Swadeshi, is wholly Mohammedan in its aims. Originating in a protest against the peace terms which the Allies offered to Turkey at the close of the war, it seeks the restoration of the Khalif's temporal power and the freeing of Mohammedans from Christian rule. The claim regarding the Khalifat calls for leaving the Turkish Empire as it was at the outbreak of the war, except that, although the allegations of Turkish misrule are not admitted, the non-Turkish nationalities may, if they so desire, be granted autonomous government within the empire.
Minimum Demands.
The minimum demand was stated by a deputation to the viceroy in 1920 as follows:
"Arabia, as delimited by Moslem authorities, and the Holy Places of Islam must remain under the control of the Khalif, full guarantees being taken, consistently with the dignity of a sovereign state, for genuine Arab self-government, should the Arab desire it. We advisedly use the word genuine because the present arrangement is thoroughly distrusted by the overwhelming majority of intelligent Moslem opinion."
"Islam has ever associated power with the Khalifat. We therefore consider that to make the Sultan a mere puppet would add insult to injury and would only be understood by Indian Moslems as an affront given to them by a combination of Christian powers."
Moslem League.
In India the Khalifat movement has identified itself with the All-India Moslem League, and the Indian National Congress have to a large extent, joined forces. The session of the League is now a pale shadow of the session of the Congress, and the resolutions coincide with those of the Congress, except that there is greater emphasis on the Khalifat question.
Although the Mohammedan population of India is only seventy million, or less than one-fourth of the total population, the Mohammedans exert a much greater political influence than their numbers would warrant.

GILLETT'S LYE

STONE AGE MINERS OPERATED IN EAST
Recent Discoveries Indicate People There at Least a Thousand Years Ago.
PORT ARTHUR, Ont., Oct. 10.—Further details concerning the uncovering on Isle Royale of what are believed to be remains of homes used by miners of the stone age while taking copper from Isle Royale are given by William P. Ferguson, of Franklin, Penn., who is in Port Arthur today while on his way home after his summer's activities.
"Isle Royale is definitely placed as a stone age mining district," he said today. "Mining was in progress there at least 1000 years ago; how much longer we do not know, but we found mines six feet in diameter growing on the ancient rock dumps. I have long believed that there were villages or towns in that vicinity and I have been hunting for three years for remains of one. This summer we found an area covering at least half a mile in width and two miles long over the whole of which we found remains of human habitations. These were largely pits which had been dug for homes. They ranged from eight to ten feet deep and were protected by carefully built stone walls which kept them free from water. Some of these walls had been pushed and heaved by the forests of years. Apparently they had been covered by wooden roofs. Some of them were 20 by 40 feet in diameter, these, evidently been communal dwellings. We found one 50 feet by 80 feet that had evidently been a fort."
"These pits had all been oriented, the sides running squarely east and west and north and south indicating that people who built them perceived the relation of stars and the sun to direction."
"These people mined in solid rock the whole island over but did not dig their shafts more than about twenty or perhaps thirty feet deep. Their tools were black egg-shaped stones of great hardness which are found on the shores of Black Bay on the north shore of Lake Superior but not on Isle Royale."
Prosperous advertising means regular continuous advertising.

TIMBER SALE X 4343.
Sealed Tenders will be received by the Minister of Lands at Victoria, not later than noon on the 12th day of October, 1922, for the purchase of License X 4343, to cut 120,824 spruce and Pine Ties, situated on an area in the East of Burns Lake, Francis Lake Road, 8 miles south of Burns Lake, Range 5, Coast Land District.
Two (2) years will be allowed for removal of timber.
